FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $300.00 per year, or $150.00 for six months, payable in advance. The charge for individual copies is $1.50 for each issue, or $1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register.**

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

Rules and Regulations

Federal Register
Vol. 47, No. 181
Friday, September 17, 1982

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

DEPARTMENT OF AGRICULTURE

Food and Nutrition Service

7 CFR Part 277

[Amdt. No. 210]

Food Stamp Program; Payment of Certain Administrative Costs of State Agencies

AGENCY: Food and Nutrition Service, USDA.

ACTION: Final rule.

SUMMARY: This final action limits the period that a State Agency may retroactively claim 75 percent funding of administrative costs for Food Stamp Program investigations, prosecutions, and fraud hearings. The need for the current retroactive provision has diminished while at the same time budgetary constraints are forcing the agency to limit expenditures. Thus, the intended effect of this proposed rule is to direct limited FNS resources toward the present and future expansion of State and local fraud control activities in the Food Stamp Program rather than to reimburse past activities.

DATE: This final action is effective October 18, 1982.

FOR FURTHER INFORMATION CONTACT: Herbert A. Scurlock, Director, Federal Operations Division, Family Nutrition Programs, Food and Nutrition Service, United States Department of Agriculture, Alexandria, Virginia 22302, (703) 756–3485.

SUPPLEMENTARY INFORMATION:

Classification

This final action has been reviewed under USDA procedures contained in Secretary's Memorandum 1512–1 and under Executive Order 12291 and has been classified as not major. The final action is not likely to result in: (1) An annual effect on the economy of $100 million or more; (2) a major increase in costs or prices for consumers, industries, Federal, State, or local government agencies, or geographical regions; and (3) significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets. There will be no adverse economic impact because the final action affects only State agencies to the extent that they must administer the Program.

Regulatory Flexibility Act

This final action has also been reviewed with regard to the requirements of the Regulatory Flexibility Act, (Pub. L. 96–354, 94 Stat. 1164, September 19, 1980). The Administrator, Food and Nutrition Service, has certified that the action does not have a significant economic impact on a substantial number of small entities. Those State agencies affected are only those that have not made application for the 75 percent funding rate for the food stamp fraud investigations, prosecutions, and fraud hearings as provided in the old regulations.

Introduction

On March 26, 1982, the Department issued a proposed rule (47 FR 12995) to amend the regulations to limit the period that a State agency may retroactively claim 75 percent funding of administrative costs for Food Stamp Program investigations, prosecutions, and fraud hearings. Under the old rule, a State agency could apply for the 75 percent funding retroactively to October 1, 1978. The purpose of the retroactive provision was to allow state agencies to claim costs for food stamp fraud control activities which were started or expanded based on anticipation of the higher funding rate provided for in the Food Stamp Act of 1977. The need for the retroactive provision has diminished while at the same time budgetary constraints are forcing the agency to limit expenditures.

All comment letters received by close of business July 2, 1982, were reviewed and considered during the development of the final provision contained in this action. The Department received 7 comment letters from 3 FNS Regional Offices, 3 State welfare agencies, and 1 Local welfare agency. The majority of comments supported the proposed change. This preamble discusses changes made from the proposed regulations as a result of those comments. The preamble also addresses other concerns of commenters where changes were not made.

One FNS Regional Office suggested that clarification was needed to show that the retroactive funding may apply only to the beginning of the fiscal year in which the application was submitted, regardless of when the information establishing eligibility for 75 percent funding is approved. The Department accepted this suggestion.

One State welfare agency opposed the proposal and stated the proposed rule would reduce the State's incentive to submit a plan for enhanced funding. They also believed the Department's "renewed effort" to have all states submit the information required for approval could be hampered by the proposed change. The Department rejected this comment because it believes that most States which intended to apply for approval and claim funding for prior fiscal years have already done so since the 75 percent funding has been available for several years. Therefore, the Department feels it should continue its "renewed effort" and direct FNS's limited resources toward the present and future expansion of State and Local fraud control activities in the Food Stamp Program rather than to reimburse past activities.

The Local welfare agency is opposed to any regulation which would limit the time for which retroactive claims must be submitted because of the complexity of its claims settlement process which results in delays of up to several years. It felt that if reimbursement is limited to cost incurred during the Federal fiscal year in which the State applies for funding, many expenditures will not be claimed at the 75 percent rate. As a result, the State and City share of these costs will increase. This comment was rejected because it is not the intent of this amendment to limit the time period for which retroactive claims must be submitted for those State agencies with applications on file with FNS. This amendment only limits the time for which a State may claim retroactive reimbursement if the Department has not received a State's initial application by the date this regulation takes effect. As stated earlier in this preamble, the Department believes that most States which intended to apply for approval

and claim funding for prior fiscal years have already done so and that this final action will affect only the few State agencies that have not already made application for the 75 percent funding rate under the old regulations.

Therefore, in light of the favorable comments received, this final action amends 7 CFR 277.15(b) by stating that the 75 percent funding rate may apply retroactively only to costs incurred beginning in the Federal fiscal year during which a State agency submits the information required to claim the higher rate, regardless of when the information establishing eligibility for 75 percent funding is approved.

Note.—This final action does not contain reporting and recordkeeping requirements subject to approval by OMB under the Paperwork Reduction Act.

List of Subjects in 7 CFR Part 277

Food stamps, Government procurement, Grant programs-social programs, Investigations, Recordkeeping and reporting requirements.

Accordingly, 7 CFR Part 277 is amended as follows:

PART 277—PAYMENT OF CERTAIN ADMINISTRATIVE COSTS OF STATE AGENCIES

1. In s277.15, paragraph (b) is revised to read as follows:

s277.15 Food stamp investigation and prosecution.

* * * * *

(b) *Funding.* Upon submission to and approval by FNS of a budget revision and the information required by paragraph (c) of this section, State agencies will be funded at 75 percent of all allowable direct and indirect costs in accordance with the requirement contained in this section. This higher rate may apply retroactively only to costs incurred in the Federal fiscal year during which a State agency applies for 75 percent funding, regardless of when the determination of eligibility for 75 percent funding is made. In cases where 75 percent funding of the operation of an agency other than the State welfare agency is or will be involved, an information statement shall be submitted by each State agency to include a description of such operations.

BILLING CODE 3410-30-M

Agricultural Marketing Service

7 CFR Part 910

[Lemon Reg. 377]

Lemons Grown in California and Arizona; Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation establishes the quantity of fresh California-Arizona lemons that may be shipped to market during the period September 19–25, 1982. Such action is needed to provide for orderly marketing of fresh lemons for this period due to the marketing situation confronting the lemon industry.

EFFECTIVE DATE: September 19, 1982.

FOR FURTHER INFORMATION CONTACT: William J. Doyle, Acting Chief, Fruit Branch, F&V, AMS, USDA, Washington, D.C. 20250, telephone 202–447–5975.

SUPPLEMENTARY INFORMATION: This final rule has been reviewed under Secretary's Memorandum 1512–1 and Executive Order 12291, and has been designated a "non-major" rule. William T. Manley, Deputy Administrator, Agricultural Marketing Service, has determined that this action will not have a significant economic impact on a substantial number of small entities. This action is designed to promote orderly marketing of the California-Arizona lemon crop for the benefit of producers, and will not substantially affect costs for the directly regulated handlers.

This final rule is issued under the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona. The agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The action is based upon the recommendations and information submitted by the Lemon Administrative Committee and upon other available information. It is hereby found that this action will tend to effectuate the declared policy of the act.

This action is consistent with the marketing policy for 1981–82. The marketing policy was recommended by the committee following discussion at a public meeting on July 6, 1982. The committee met again publicly on September 14, 1982, at Los Angeles, California, to consider the current and prospective conditions of supply and demand and recommended a quantity of lemons deemed advisable to be handled during the specified week. The committee reports the demand for lemons is moderate.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the **Federal Register** (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this regulation is based and the effective date necessary to effectuate the declared purposes of the act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting. It is necessary to effectuate the declared purposes of the act to make these regulatory provisions effective as specified, and handlers have been apprised of such provisions and the effective time.

List of Subjects in 7 CFR Part 910

Marketing agreements and orders, California, Arizona, Lemons.

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Section 910.677 is added as follows:

§ 910.677 Lemon regulation 377.

The quantity of lemons grown in California and Arizona which may be handled during the period September 19, 1982, through September 25, 1982, is established at 230,000 cartons.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: September 16, 1982.

D. S. Kuryloski,

Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

BILLING CODE 3410-02-M

Animal and Plant Health Inspection Service

7 CFR Part 301

[Docket No. 82-331]

Imported Fire Ant Regulated Areas

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Interim rule.

SUMMARY: This document amends the list of regulated areas under the imported fire ant quarantine and regulations by (1) designating previously nonregulated areas in Alabama and Georgia as generally infested areas; (2) expanding previously designated generally infested areas in Alabama, Mississippi, and South Carolina; and (3) deleting a previously designated suppressive area in Alabama. The quarantine and regulations, among other things, impose restrictions on the interstate movement of regulated articles from generally infested areas. This action is necessary as an emergency measure to prevent the artificial spread of the imported fire ant and to delete unnecessary restrictions on the interstate movement of regulated articles.

DATES: Effective date of amendment: September 17 1982. Written comments concerning this rule must be received on or before November 16, 1982.

ADDRESSES: Written comments should be submitted to Thomas J. Lanier, Regulatory Services Staff, Plant Protection and Quarantine, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Room 643 Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782. Written comments received may be inspected at Room 643 of the Federal Building between 8 a.m. and 4:30 p.m., Monday through Friday, except holidays.

FOR FURTHER INFORMATION CONTACT: Thomas J. Lanier, Chief Staff Officer, Regulatory Services Staff, Plant Protection and Quarantine, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Room 643 Federal Building, 6505 Belcrest Road, Hyattsville, MD 20782, (301) 436–8247.

SUPPLEMENTARY INFORMATION:

Executive Order 12291

This interim rule is issued in conformance with Executive Order 12291, and has been determined to be not a "major rule." Based on information compiled by the Department it has been determined that this interim rule will have an estimated annual effect on the economy of less than $2,500; will not cause a major increase in costs or prices for consumers, individual industries, Federal, State or local government agencies, or geographic regions; and will not cause significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

For this rulemaking action, the Office of Management and Budget has waived the review process required by Executive Order 12291 and the Department of Agriculture has waived the requirements of Secretary's Memorandum 1512–1.

Certification Under the Regulatory Flexibility Act

Dr. Harry C. Mussman, Administrator of the Animal and Plant Health Inspection Service, has determined that this action will not have a significant economic impact on a substantial number of small entities. This action affects the interstate movement of regulated articles from specified areas in the States of Alabama, Georgia, Mississippi, and South Carolina. There are thousands of small entities that move such articles interstate from those States and many more thousands of small entities that move such articles interstate from other States. However, based on information compiled by the Department, it has been determined that approximately 130 small entities move such articles interstate from the specified areas in those States. Further, the overall economic impact from this action is estimated to be less than $2,500.

Emergency Action

Harvey L. Ford, Deputy Administrator of the Animal and Plant Health Inspection Service for Plant Protection and Quarantine, has determined that an emergency situation exists which warrants publication of this document without opportunity for a public comment period. Because of the possibility that the imported fire ant could be spread artifically to noninfested areas of the United States, a situation exists requiring immediate action to better control the spread of this pest. Also, where the imported fire ant no longer occurs, immediate action is needed to delete unnecessary restrictions on the interstate movement of regulated articles.

Further, pursuant to the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to this interim rule are impracticable and contrary to the public interest and good cause is found for making this action effective less than 30 days after publication of this document in the **Federal Register.** Comments have been solicited for 60 days after publication of this document, and a final document discussing comments received and any changes required will be published in the **Federal Register** as soon as possible.

Background

The imported fire ant (*Solenopsis* spp.) is an insect that interferes with farming operations, can cause damage to certain crops, and is a pest of livestock and pets, as well as of people, in rural and urban areas.

The imported fire ant quarantine and regulations (7 CFR 301.81 through 301.81–10) quarantine the States of Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, and Texas because of the imported fire ant; and restricts the interstate movement of regulated articles from regulated areas in these States in order to prevent the artificial spread of the imported fire ant.

Under the quarantine and regulations an area may be designated as a regulated area if it is an area in which the imported fire ant has been found, or in which there is reason to believe that the imported fire ant is present, or which it is deemed necessary to regulate because of its proximity to infestation or its inseparability for quarantine enforcement purposes from infested localities. Regulated areas are divided into suppressive areas and generally infested areas. Suppressive areas are regulated areas in which eradication of the imported fire ant is undertaken as an objective. Generally infested areas are regulated areas not designated as suppressive areas. Restrictions are imposed on the interstate movement of regulated articles from both generally infested areas and suppressive areas in order to prevent the artificial movement of the imported fire ant into noninfested areas.

Designation of Areas as Generally Infested Areas

As an emergency measure, a portion of Lauderdale County in Alabama and all of Taliaferro County in Georgia, which were peviously nonregulated areas, are designated as imported fire ant generally infested areas.

Also, as an emergency measure, the following areas in Alabama, Mississippi, and South Carolina previously designated as imported fire ant generally infested areas are retained as imported fire ant generally infested areas but are expanded as set forth below.

The area in Colbert County in Alabama (previously described as "That portion of the county lying south of the north line of T. 4 S.") is retained as an imported fire ant generally infested area but is expanded and redescribed as "That portion of the county lying south

of the north line of T. 4 S.; and T. 3 S., R. 13, 14, and 15 W."

The area in Lafayette County in Mississippi (previously described as "That portion of the county lying south of the north line of T. 10 S.; T. 9 S., R. 1, 2, and E. ½ R. 3 W.; T. 8 S., R. 1 W.; T. 7 S., R. 1 W.; and S.E. ¼, T. 6 S., R. 3 W.") is retained as an imported fire ant generally infested area but is expanded and redescribed as "That portion of the county lying south of the north line of T. 10 S.; T. 9 S., R. 1, 2, and 3 W.; T. 8 S., R. 1 W.; T. 7 S., R. 1 W.; and S.E. ¼ T. 6 S., R. 3 W.

The area in Tippah County in Mississippi (previously described as "That portion of the county lying south of the north line of T. 4 S., and that portion of T. 3 S., R. 5 E., lying in the county.") is retained as an imported fire ant generally infested area but is expanded and redescribed as "That portion of the county lying south of the north line of T. 3 S."

The area in Aiken County in South Carolina (previously described as "That portion of the county bounded by a line beginning at the junction of the Savannah River and the Aiken-Edgefield County line, thence northeast along said county line to its intersection with the South Fork Edisto River, thence southeast along said river to its junction with the Aiken-Barnwell County line, thence southwest along said county line to its intersection with U.S. Highway 278, thence west along said highway to its junction with State Primary Highway 28, thence west along said highway to its junction with the Savannah River, thence northwest along said river to the point of beginning.") is retained as an imported fire ant generally infested area but is expanded and redescribed as "The entire county excluding the area of the U.S. Department of Energy's Savannah River Plant.

The area in Darlington County in South Carolina (previously described as "That portion of the county bounded by a line beginning at a point where U.S. Highway 401 intersects the Darlington-Lee County line at Lynches River, thence northwest and northeast along said county line to its intersection with State Secondary Highway 131, thence east along said highway to its intersection with State Secondary Highway 290, thence easterly along said highway to its junction with U.S. Highway 401, thence northeast and north along said highway to its intersection with the Great Pee Dee River, thence southerly along said river to its junction with the Darlington-Florence County line, thence southwesterly along the Darlington County line to its junction with the Lynches River, thence northwest along said river to the point of beginning.") is retained as an imported fire ant generally infested area but is expanded and redescribed as "The entire county."

The area in Kershaw County in South Carolina (previously described as "That portion of the county lying west and south of a line beginning at the junction of the Kershaw-Lancaster County line and State Secondary Highway 58, thence southerly along said highway to its junction with U.S. Highway 521, thence southerly along said highway to its intersection with State Primary Highway 34, thence easterly along said highway to its intersection with the Kershaw-Lee County line, where the line ends.") is retained as an imported fire ant generally infested area but is expanded and redescribed as "The entire county."

The area in Lee County in South Carolina (previously described as "That portion of the county bounded by a line beginning at a point where State Primary Highway 34 intersects the Lee-Kershaw County line, thence easterly along said highway to its intersection with the Lee-Darlington County line, thence southerly, westerly and northerly along the Lee County line to the point of beginning.") is retained as an imported fire ant generally infested area but is expanded and redescribed as "The entire county."

The area in Lexington County in South Carolina (previously described as "That portion of the county bounded by a line beginning at a point where U.S. Highway 378 intersects the Lexington-Saluda County line, thence northerly, southeasterly, southerly, and westerly along the Lexington County line to its intersection with State Primary Highway 302, thence north along said highway to its junction with State Primary Highway 6, thence north along said highway to its intersection with U.S. Highway 1, thence west along said highway to its intersection with State Secondary Highway 204, thence north along said highway to its intersection with U.S. Highway 378, thence west along said highway to the point of beginning.") is retained as an imported fire ant generally infested area but is expanded and redescribed as "The entire county."

Based on recent surveys, inspectors have determined with respect to all of the areas added to the list of imported fire ant generally infested areas, that the imported fire ant has spread, or is likely to spread, to such areas. Therefore, as an emergency measure, it is necessary to designate such areas as imported fire ant generally infested areas and impose restrictions on the interstate movement of regulated articles from these areas in order to prevent the artificial spread of the imported fire ant.

Deletion of an Area from List of Regulated Areas

An area in Lauderdale County, Alabama, described as "Sec. 8, T. 1 S., R. 7 W." was designated as an imported fire ant suppressive area. Based on treatments with insecticides and subsequent negative surveys, it has been determined that the imported fire ant no longer occurs in this area. Accordingly, there is no basis to continue listing such area as a regulated area for the purpose of preventing the artificial spread of imported fire ant. Therefore, as an emergency measure, it is necessary to delete this area from the list of regulated areas in order to delete unnecessary restrictions on the movement of imported fire ant regulated articles.

List of Subjects in 7 CFR Part 301

Agricultural commodities, Imported fire ant, Plant diseases Plant pests, Plants (Agriculture), Quarantines, Transportation.

PART 301—DOMESTIC QUARANTINE NOTICES

Accordingly, § 301.81–2a of the imported fire ant quarantine and regulations (7 CFR 301.81–2a) is amended by revising the list of regulated areas in the States of Alabama, Georgia, Mississippi, and South Carolina as set forth below:

1. In § 301.81–2a, relating to the States of Alabama, Georgia, Mississippi, and South Carolina, the following descriptions for generally infested areas are amended by redescribing the area in Colbert County and adding an area in Lauderdale County in Alabama, adding an area in Taliaferro County in Georgia, redescribing areas in Lafayette and Tippah Counties in Mississippi and redescribing the areas in Aiken, Darlington, Kershaw, Lee, and Lexington Counties in South Carolina, in alphabetical order to read as follows:

§ 301.81–2a Regulated areas; suppressive and generally infested areas.

* * * * *

Alabama

(1) *Generally infested areas.*

* * * * *

Colbert County. That portion of the county lying south of the north line of T. 4 S.; and T. 3 S., R. 13, 14, and 15 W.

* * * * *

Lauderdale County. T. 3 S., R. 12.

* * * * *

Georgia

(1) *Generally infested areas.*

* * * * *

Taliaferro County. The entire county.

* * * * *

Mississippi

(1) *Generally infested areas.*

* * * * *

Lafayette County. That portion of the county lying south of the north line of T. 10 S.; T. 9 S., R. 1, 2, and 3 W.; T. 8 S., R. 1 W.; T. 7 S., R. 1 W.; and S.E. ¼ T. 6 S., R. 3 W.

* * * * *

Tippah County. That portion of the county lying south of the north line of T. 3 S.

* * * * *

South Carolina

(1) *Generally infested areas.*

* * * * *

Aiken County. The entire county excluding the area of the U.S. Department of Energy's Savannah River Plant.

* * * * *

Darlington County. The entire county.

* * * * *

Kershaw County. The entire county.

* * * * *

Lee County. The entire county.

* * * * *

Lexington County. The entire county.

* * * * *

2. In § 301.81–2a relating to the State of Alabama, the description for suppressive area in Lauderdale County is removed and the list of suppressive areas in the State of Alabama is revised to read as follows:

Alabama

* * * * *

(2) *Suppressive areas.* None.

(Secs. 8, 9, 37 Stat. 318, as amended, sec. 106, 71 Stat. 33 (7 U.S.C. 161, 162, 150ee); 37 FR 28464, 28477 as amended; 38 FR 19141)

Done at Washington, D.C., this 14th day of September 1982.

Richard R. Backus,

Acting Deputy Administrator, Plant Protection and Quarantine, Animal and Plant Health Inspection Service.

BILLING CODE 3410-34-M

FEDERAL HOME LOAN BANK BOARD

12 CFR Part 564

[No. 82–614]

FSLIC Insurance Coverage of Loan Payments Held by Loan Servicers

Dated: September 9, 1982.

AGENCY: Federal Home Loan Bank Board.

ACTION: Final rule; solicitation of comments.

SUMMARY: The Federal Home Loan Bank Board is amending its settlement of insurance regulations with respect to insurance coverage for loan payments placed by a servicer in an institution whose accounts are insured by the Federal Savings and Loan Insurance Corporation to provide that loan payments will be insured as if the servicer placing the funds in the institution is acting as agent for each borrower. The amendments clarify the insurance coverage of loan-servicing accounts and facilitate participation of insured institutions in secondary markets as servicers and depositories.

DATES: Effective September 9, 1982. Comments by October 11, 1982.

ADDRESS: Send comments to Director, Public Information Services Section, Office of Communications, Federal Home Loan Bank Board, 1700 G Street, N.W., Washington, D.C. 20552. Comments will be available at this address for public inspection.

FOR FURTHER INFORMATION CONTACT: Ilsa K. Bush or Lee Lassiter, Office of General Counsel, (202) 377–6436 or 377–7050, at the above address.

SUPPLEMENTARY INFORMATION: Section 405(a) of the National Housing Act provides, in relevant part, that each institution insured by the Federal Savings and Loan Insurance Corporation ("FSLIC") "shall be entitled to insurance up to the full withdrawal or repurchase value of the accounts of each of its members * * *" and that the FSLIC "is authorized to define, with such classifications and exceptions as it may prescribe, terms used * * * and the extent of the insurance coverage resulting therefrom." 12 U.S.C. 1728(a) (1976). Pursuant to authority derived from Section 405(a), the Board promulgated a regulation reading, in pertinent part, "[f]unds owned by a principal and invested in one or more accounts in the name or names of agents or nominees shall be added to any individual accounts of the principal and insured up to $100,000 in the aggregate." 12 CFR 564.3(b) (1981). In accordance with statutory authority and the existing regulatory provision, the Board now amends § 564.3(b) to provide that, for insurance-of-accounts purposes, a loan servicer who collects loan payments shall be viewed as an agent of each borrower making such payments to the servicer. The Board is also deleting Example 9 of Part G (Trust Accounts) of the published Appendix following Part 564 and adding Example 7 to Part A (Single Ownership Accounts) to the Appendix.

Servicers may include insured institutions acting in that capacity and others, such as mortgage bankers. The amendments apply not only to mortgage loans, but to any other type of loan, including home improvement, consumer, and educational loans that involve servicers who place loan payments in insured institutions prior to remittance to the parties entitled to the funds. The amendments cover all components of the loan payments, including principal, interest, tax and insurance escrow payments, penalties, and late charges, while held by an insured institution. Unapplied mortgage credits also are covered provided that the regulatory requirements are met.

Under current insurance-of-accounts regulations, a degree of uncertainty exists with respect to the insurance coverage of principal and interest payments held by a servicer prior to remittance of the funds to the lender, secondary market participants, or other parties entitled to the funds. Example 9 of Part G (Trust Accounts) in the Appendix indicates that an individual determination of the relationship between the borrower, servicer, and lender or secondary market participants must be made to determine insurance coverage of principal and interest payments. Current economic trends, and their resulting effect on the savings and loan industry, make uniform insurance treatment of all components of loan payments collected by servicers necessary to achieve a secure, stable, and efficient secondary market in which the savings and loan industry may participate to the fullest extent possible. In treating the servicer as an agent of the borrower, the Board finds, for purposes of insurance of accounts, that the rights, responsibilities, and actions flowing between the parties are substantially similar to those of an agency relationship.

The action taken today accomplishes several beneficial objectives. It clarifies the position of the Board and the FSLIC with respect to insurance coverage of loan payments collected by servicers and offers sufficient insurance coverage for most accounts created by servicers. The Board believes that the amendments will contribute to the development of a stable secondary market with active involvement from the savings and loan industry as servicers and depositories. Such participation, in turn, increase deposits and income. The changes being made also strengthen the thrift industry by permitting it to preserve its current position and further develop its participation in secondary market programs.

The Board has determined that the notice and public comment procedures

of 5 U.S.C. 553(b) and 12 CFR 508.11 are unnecessary and not in the public interest. The public interest is served by immediate implementation of these amendments because they clarify and expand insurance coverage. The Board also finds that the requirement for a 30-day delayed effective date under 5 U.S.C. 553(d) and 12 CFR 508.14 is not applicable in this case. The Board finds that it is in the public interest to amend the regulation and make the needed clarifications without delay. The amendment also relieves restrictions that savings and loans may have experienced in fully participating in the secondary mortgage market as both servicers and depositories for all components of loan payments by removing any ambiguities concerning insurance coverage of such payments. The Board does, however, request comments on all issues raised by the regulation and example. Comments will be received until October 11, 1982.

List of Subjects in 12 CFR Part 564

Savings and loan associations, Insurance.

Accordingly, the Board hereby amends Part 564 and the Appendix following Part 564 of Subchapter D, Chapter V of Title 12, Code of Federal Regulations, to read as set forth below.

SUBCHAPTER D—FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION

PART 564—SETTLEMENT OF INSURANCE

1. Amend paragraph (b) of § 564.3 as follows:

§ 564.3 Single ownership accounts.

* * * * *

(b) *Accounts held by agents or nominees.*

(1) Funds owned by a principal and invested in one or more accounts in the name or names of agents or nominees shall be added to any individual accounts of the principal and insured up to $100,000 in the aggregate.

(2) A loan servicer who receives loan payments and places or maintains such payments in an insured institution prior to remittance to the lender or other parties entitled to the funds shall, for insurance-of-accounts purposes, be considered an agent of each borrower, provided that:

(i) The servicer identifies each borrower, the amount of each borrower's payment, and the account into which each payment is deposited; and

(ii) The account or accounts holding the payments are denominated in the name of the servicer acting as agent for borrower payments.

2. Amend the Appendix to Part 564 by deleting Example 9 of Part G (Trust Accounts), and adding Example 7 to Part A (Single Ownership Accounts), as follows:

Appendix—Examples of Insurance Coverage Afforded Accounts in Institutions Insured by the Federal Savings and Loan Insurance Corporation

* * * * *

Example 7

Question: X Corporation acts as a servicer of FHA, VA, and conventional mortgage loans. Each month X Corporation receives and keeps records of principal, interest, late charge, and other payments from approximately 2,000 mortgagors. The servicer commingles these funds, places the funds in an insured institution, identifies the borrower, the amount of each borrower's payment and the account into which each payment is deposited and denominates the account with the name "X Corporation as Agent for Mortgagor Payments." The monies received and deposited total $1,000,000. What is the insurance coverage?

Answer: X Corporation, the servicer, acts as agent for the 2,000 individual mortgagors. The interest of each mortgagor-principal is separately insured as his individual account (but added to any other individual accounts which the principal holds in the same institution) (§ 564.3(b)).

BILLING CODE 6720-01-M

NATIONAL CREDIT UNION ADMINISTRATION

12 CFR Part 742

Deregulation of Liquidity Reserve Requirements

AGENCY: National Credit Union Administration (NCUA).

ACTION: Final rule.

SUMMARY: The NCUA Board is removing in its entirety Part 742 of NCUA Rules and Regulations entitled "Liquidity Reserves." This action is deemed appropriate by the NCUA Board because efficient liquidity management varies among credit unions and liquidity decisions should be the responsibility of individual credit union boards of directors. The proposed deletion of this rule was published for public comment in the **Federal Register** for a period of sixty days concluding on June 25, 1982.

EFFECTIVE DATE: August 30, 1982.

ADDRESS: National Credit Union Administration, 1776 G Street, N.W., Washington, D.C. 20456.

FOR FURTHER INFORMATION CONTACT: Todd A. Okun, Assistant General Counsel, (202) 357-1030.

SUPPLEMENTARY INFORMATION:

Summary of Comments

Twenty-seven comments were received on this proposal and twenty-five of them indicated wholehearted support of this continuation of the NCUA Board's policy of fostering deregulation and the return of responsibility for decision-making to credit union board of directors. One commenter, however, opposed the proposal and, in fact, urged that the level of liquidity reserves, as a requirement, be raised above the 5 percent level. The commenter reasoned that such a requirement was especially appropriate as a measure to ensure the slowdown of possible liquidations that could result in higher insurance premiums for all credit unions.

Decision

It is the belief of the NCUA Board, consistent with the vast majority of commenters, that it should be the responsibility of individual credit union boards of directors to set their own liquidity standards in order to safeguard against adverse economic conditions. Prudent liquidity levels will differ among credit unions depending upon their cash flow, their liability structure and the location and constitution of their fields of membership. To the extent that the 5 percent requirement in Part 742 has the effect of setting a standard for all affected credit unions, it is misleading and removes or detracts from the element of judgment and responsibility that should be exercised by each credit union's management in ensuring proper levels of liquidity and effective asset/liability management. Expertise and guidance from NCUA staff, from trade associations and from credit union leagues will be available to aid credit unions and these valuable resources should be taken advantage of. The NCUA Board is confident that the lack of binding regulation in this area will not result in a higher liquidation rate and that boards of directors will accept their responsibilities to ensure proper liquidity. In that vein, the Asset-Liability Management section of the

Accounting Manual for Federal Credit Unions will be particularly helpful.

Therefore, the NCUA Board has adopted the complete deletion of Part 742 as proposed. Also, as proposed, the Board repeals Interpretive Ruling 79–7 concerning the liquidity rule. It should be noted that the statutory reserve transfer requirements of Section 116 of the Federal Credit Union Act (12 U.S.C. section 1762) are unaffected by this action and remain in full force and effect.

List of Subjects in 12 CFR Part 742

Credit unions.

EFFECTIVE DATE: This deletion is being made effective in less than 30 days because it relieves a regulatory restriction, 5 U.S.C. section 553(d)(1).

Regulatory Flexibility Act

The NCUA Board hereby certifies that this action will not have a significant economic impact on a substantial number of small credit unions because the restrictions contained in the previous rule do not apply to credit unions with less than $1 million in assets. Therefore, its deletion will have no effect on small credit unions.

(12 U.S.C. sections 1762(b), 1781(b)(6), 1766(a) and 1789(a)(11))

Dated: August 25, 1982.

Rosemary Brady,

Secretary of the National Credit Union Administration Board.

PART 742—[REMOVED]

Accordingly, 12 CFR Chapter VII is amended by removing Part 742.

BILLING CODE 7535–01–M

SMALL BUSINESS ADMINISTRATION

13 CFR Part 101

[Revision 2—Amt. 23]

Delegation of Authority To Conduct Program Activities in Field Offices

AGENCY: Small Business Administration.

ACTION: Final rule.

SUMMARY: The Small Business Administration (SBA) is amending its delegations of authority to field positions with respect to contracting authority for the Minority Small Business and Capital Ownership Development Program. The Changes were recommended by the Regional Administrators for Regions I, VI, and VIII, and affect the 8(a)(1)(A) Contracting Authority in their respective regions. The changes adopted in this rule will accurately reflect 8(a) contracting authority in Region I and will improve services in Regions VI and VIII.

EFFECTIVE DATE: September 17, 1982.

FOR FURTHER INFORMATION CONTACT: Ronald Allen, Paperwork Management Branch, Small Business Administration, 1441 L Street, NW., Washington, D.C. 20416, Telephone No. (202) 653–8538.

SUPPLEMENTAL INFORMATION: Part 101 consists of rules relating to the Agency's organization and procedures; therefore, notice of proposed rulemaking and public participation thereon as prescribed in 5 U.S.C. 553 is not required and this amendment to Part 101 is adopted without resort to those procedures. For the reasons set forth in the preamble and pursuant to authority in Section 5(b)(6) of the Small Business Act, 15 U.S.C. 634, Part 101, 13 CFR 101.3–2 is amended, following the index terms, as set forth below:

List of Subjects in 13 CFR Part 101

Authority delegations (government agencies), Administrative practice and procedure, Organization and functions (government agencies).

PART 101—ADMINISTRATION

§ 101.3–2 [Amended]

Section 101.3–2 is amended as follows:

1. In Part VII, Section B, paragraph 1., subparagraph e. is removed and subparagraphs a. through o. are redesignated and reserved as subparagraphs a. through n. to read as follows:

a. Regional Administrator	Unlimited
b. Deputy Regional Administrator	Unlimited
c. Assistant Regional Administrator for MSB/COD	Unlimited
d. Deputy Assistant Regional Administrator for MSB/COD, Region II only	Unlimited
e. Chief, Business Development, Region III, R/O only	$250,000
f. District Directors and Deputy District Directors, Washington, Denver, Richmond, Philadelphia, Baltimore, and all Region VI and Region VII D/O's only	Unlimited
g. District Directors and Deputy District Directors, Detroit, Cleveland, Indianapolis, Fargo, Salt Lake City and Sioux Falls D/O's only	350,000
h. District Directors and Deputy District Directors, all Region IX, all Region X, Columbia, Chicago and Columbus D/O's only	500,000
i. Assistant District Director for MSB/COD, Columbia D/O only	500,000
j. Assistant District Director for MSB/COD, San Francisco, Los Angeles, Washington, Richmond, Philadelphia and Baltimore D/O's only	100,000
k. All District Contract Specialists in Region X only	250,000
l. Branch Manager, Corpus Christi and El Paso B/O's only	Unlimited
m. Chief of Contract Negotiation and Administration, Regional Office, Region VII only	1,000,000
n. Senior Contract Specialist, Region X only	1,000,000

2. In Part VII, Section B, paragraph 2., subparagraph e. is removed and subparagraphs a. through o. are revised and redesignated as subparagraphs a. through n. to read as follows:

a. Regional Administrator	Unlimited
b. Deputy Regional Administrator	Unlimited
c. Assistant Regional Administrator for MSB/COD	Unlimited
d. Deputy Assistant Regional Administrator for MSB/COD, Region II	Unlimited
e. Chief, Business Development, Region III R/O only	$250,000
f. District Directors and Deputy District Directors, Washington, Denver, Richmond, Philadelphia, Baltimore and all Region VI and Region VII D/O's only	Unlimited
g. District Directors and Deputy District Directors, Detroit, Cleveland, Indianapolis, Fargo, Salt Lake City and Sioux Falls D/O's only	350,000
h. District Directors and Deputy District Directors, all Region IX, all Region X, Columbia, Chicago and Columbus D/O's only	500,000
i. Assistant District Director for MSB/COD, Columbia D/O only	500,000
j. Assistant District Director for MSB/COD, San Francisco, Los Angeles, Washington, Richmond, Philadelphia & Baltimore D/O's only	100,000
k. All District Contract Specialists in Region X only	250,000
l. Chief of Contract Negotiation and Administration, Regional Office, Region VII only	1,000,000
m. Branch Managers, Corpus Christi and El Paso B/O's only	Unlimited
n. Senior Contract Specialists, Region X only	1,000,000

3. In Part VII, Section B, paragraph 3., subparagraph e. is removed and subparagraphs a. through p. are revised and redesignated as subparagraphs a. through o. to read as follows:

a. Regional Administrator	Unlimited
b. Deputy Regional Administrator	Unlimited
c. Assistant Regional Administrator for MSB/COD	Unlimited
d. Deputy Assistant Regional Administrator for MSB/COD, Region II only	Unlimited
e. Chief, Business Development, Region III, R/O only	Unlimited
f. District Directors and Deputy District Directors, Washington, Denver, Philadelphia, Richmond, Baltimore, and all Region VI and Region VII D/O's only	Unlimited
g. District Directors and Deputy District Directors, New York, Newark, Syracuse, Puerto Rico, Detroit, Cleveland, Indianapolis, Fargo, Salt Lake City, and Sioux Falls D/O's only	$250,000
h. District Directors and Deputy District Directors, all Region IX, all Region X, Columbia, Chicago and Columbus D/O's only	500,000
i. Assistant District Director for MSB/COD, Columbia D/O only	500,000
j. Assistant District Director for PA, Region IX	500,000
k. Assistant District Directors for MSB/COD, Washington, Richmond, Philadelphia, and Baltimore D/O's only	100,000
l. All District Contract Specialists in Region X only	250,000
m. Branch Managers, Corpus Christi and El Paso B/O's only	Unlimited
n. Chief of Contract Negotiation and Administration Regional Office, Region VII only	1,000,000
o. Senior Contract Specialists, Region X only	1,000,000

Dated: September 13, 1982.

James C. Sanders,

Administrator.

BILLING CODE 8025–01–M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 175

[Docket No. 81F-0224]

Indirect Food Additives: Adhesive Coatings and Components

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the food additive regulations to provide for the safe use of butadiene-styrene-divinylbenzene copolymer in can end cements. This action responds to a food additive petition filed by W. R. Grace & Co.

DATES: Effective September 17, 1982; objections by October 18, 1982.

ADDRESS: Written objections to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Blondell Anderson, Bureau of Foods (HFF-334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-472-5740.

SUPPLEMENTARY INFORMATION: In a notice published in the Federal Register of August 7, 1981 (46 FR 40330), FDA announced that a food additive petition (FAP 1B3569) had been filed by W. R. Grace & Co., 55 Hayden Ave., Lexington, MA 02173, proposing to amend § 175.300(b)(3)(xxxi) (21 CFR 175.300(b)(3)(xxxi)) to provide for the safe use of butadiene-styrene-divinylbenzene copolymer in can end cements.

FDA has evaluated the data in the petition and other relevant material and concludes that the proposed food additive use is safe, and that § 175.300(b)(3)(xxxi) should be amended as set forth below.

In accordance with § 171.1(h) (21 CFR 171.1(h)), the petition and the documents that FDA considered and relied upon in reaching its decision to approve the petition are available for inspection at the Bureau of Foods (address above) by appointment with the information contact person listed above. As provided in 21 CFR 171.1(h)(2), the agency will delete from the documents any materials that are not available for public disclosure before making the documents available for inspection.

The agency has carefully considered the potential environmental effects of this action and has concluded that the action will not have a significant impact on the human environment, and that an environmental impact statement is not required. The agency's finding of no significant impact and the evidence supporting that finding may be seen in the Dockets Management Branch (address above), between 9 a.m. and 4 p.m., Monday through Friday.

List of Subjects in 21 CFR Part 175

Adhesives; Food additives; Food packaging.

PART 175—INDIRECT FOOD ADDITIVES: ADHESIVE COATINGS AND COMPONENTS

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409, 72 Stat. 1784-1788 as amended (21 U.S.C. 321(s), 348)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), Part 175 is amended in § 175.300(b)(3)(xxxi) by alphabetically adding a new item in the list of substances to read as follows:

§ 175.300 Resinous and polymeric coatings.

* * * * *

(b) * * *

(3) * * *

(xxxi) * * *

Butadiene-styrene-divinylbenzene copolymer (CAS Reg. No. 26471-45-4) for use only at levels not to exceed 23.8 percent by weight of the cement solids in can end cements.

* * * * *

Any person who will be adversely affected by the foregoing regulation may at any time on or before October 18, 1982 submit to the Dockets Management Branch (address above), written objections thereto and may make a written request for a public hearing on the stated objections. Each objection shall be separately numbered and each numbered objection shall specify with particularity the provision of the regulation to which objection is made. Each numbered objection on which a hearing is requested shall specifically so state; failure to request a hearing for any particular objection shall constitute a waiver of the right to a hearing on that objection. Each numbered objection for which a hearing is requested shall include a detailed description and analysis of the specific factual information intended to be presented in support of the objection in the event that a hearing is held; failure to include such a description and analysis for any particular objection shall constitute a waiver of the right to a hearing on the objection. Three copies of all documents shall be submitted and shall be identified with the docket number found in brackets in the heading of this regulation. Received objections may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Effective date. This regulation shall become effective September 17, 1982.

(Secs. 201(s), 409, 72 Stat. 1784-1788 as amended (21 U.S.C. 321(s), 348))

Dated: September 8, 1982.

Joseph P. Hile,

Associate Commissioner for Regulatory Affairs.

BILLING CODE 4160-01-M

21 CFR Parts 175 and 176

[Docket No. 81F-0247]

Indirect Food Additives: Adhesive Coatings and Components; Paper and Paperboard Components

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the food additive regulations to provide for the safe use of (2-alkenyl) succinic anhydrides in which the alkenyl groups are derived from olefins which contain not less than 78 percent C_{30} and higher groups as a component of adhesives and paper and paperboard coating systems. This action is in response to a petition filed by the Gulf Science and Technology Co.

DATES: Effective September 17, 1982; objections by October 18, 1982.

ADDRESS: Written objections to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Geraldine E. Harris, Bureau of Foods (HFF-334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-472-5690.

SUPPLEMENTARY INFORMATION: In a notice published in the Federal Register of October 18, 1981 (46 FR 51036), FDA announced that a petition (FAP 1B3578) had been filed by the Gulf Science and Technology Co., Pittsburgh, PA 15230, proposing that §§ 175.105 and 176.180 (21 CFR 175.105 and 176.180) be amended to provide for the safe use of a 2-alkenyl succinic anhydride mixture as a component of adhesives and paper and paperboard coating systems intended for food-contact use.

FDA has evaluated data in the petition and other relevant material and concludes that the proposed food

additive use is safe and that §§ 175.105 and 176.180 should be amended as set forth below.

In accordance with § 171.1(h) (21 CFR 171.1(h)), the petition and the documents that FDA considered and relied upon in reaching its decision to approve the petition are available for inspection at the Bureau of Foods (address above) by appointment with the information contact person listed above. As provided in § 171.1(h)(2), the agency will delete from the documents any materials that are not available for public disclosure before making the documents available for inspection.

The agency has carefully considered the potential environmental effects of this action and has concluded that the action will not have a significant impact on the human environment and that an environmental impact statement is not required. The agency's finding of no significant impact and the evidence supporting that finding may be seen in the Dockets Management Branch (address above), between 9 a.m. and 4 p.m., Monday through Friday.

List of Subjects

21 CFR Part 175

Adhesives; Food additives; Food packaging.

21 CFR Part 176

Food additives; Food packaging; Paper and paperboard.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 348)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), Parts 175 and 176 are amended as follows:

PART 175—INDIRECT FOOD ADDITIVES: ADHESIVE COATINGS AND COMPONENTS

1. Part 175 is amended in § 175.105(c)(5) by alphabetically inserting a new item in the list of substances to read as follows:

§ 175.105 Adhesives.

* * * * *

BILLING CODE 4160-01-M

21 CFR Part 176

[Docket No. 80F-0130]

Indirect Food Additives: Paper and Paperboard Components; Terpolymer of Diallyldimethyl Ammonium Chloride, Acrylamide and Potassium Acrylate

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the food additive regulations to provide for the safe use of a terpolymer of diallyldimethyl ammonium chloride, acrylamide and potassium acrylate as a drainage and retention aid in the manufacture of paper and paperboard in contact with aqueous and fatty foods. This action is in response to a petition filed by the Calgon Corp.

DATES: Effective September 17, 1982; objections by October 18, 1982.

ADDRESS: Written objections may be sent to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Garnett R. Higginbotham, Bureau of Foods (HFF–334), Food and Drug Administration, 200 C St. SW., Washington, D.C. 20204, 202–472–5690.

SUPPLEMENTARY INFORMATION: In a notice published in the **Federal Register** of May 6, 1980 (45 FR 29892), FDA announced that a petition (FAP 8B3400) had been filed by the Calgon Corp., Pittsburgh, PA 15230, proposing that § 176.170 (21 CFR 176.170) be amended to provide for the use of a terpolymer of diallyldimethyl ammonium chloride, acrylamide and potassium acrylate as a retention and drainage aid in the manufacture of paper and paperboard for food-contact use.

FDA has evaluated the data in the petition and other relevant material and concludes that the proposed food additive use is safe and that the regulations should be amended as set forth below.

In accordance with § 171.1(h) (21 CFR 171.1(h)), the petition and the documents that FDA considered and relied upon in reaching its decision to approve the petition are available for inspection at the Bureau of Foods (address above) by

appointment with the information contact person listed above. As provided in 21 CFR 171.1(h)(2), the agency will remove from the documents any materials that are not available for public disclosure before making the documents available for inspection.

The agency previously considered the potential environmental effects of this rule as announced in the notice of filing published in the **Federal Register**. No new information or comment has been received that would alter the agency's previous determination that there is no significant impact on the human environment and that an environmental impact statement is not required.

List of Subjects in 21 CFR Part 176

Food additives, Food packaging, Paper and paperboard.

PART 176—INDIRECT FOOD ADDITIVES; PAPER AND PAPERBOARD COMPONENTS

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 348)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), Part 176 is amended in § 176.170(a)(5) by alphabetically inserting a new item in the list of substances to read as follows:

§ 176.170 Components of paper and paperboard in contact with aqueous and fatty foods.

* * * * *

(a) * * *

(5) * * *

List of substances	Limitations
* * *	* * *
Diallyldimethyl ammonium chloride polymer with acrylamide and potassium acrylate, produced by copolymerizing either (1) diallyldimethyl ammonium chloride and acrylamide in a weight ratio of 50/50, with 4.4 percent of the acrylamide subsequently hydrolyzed to potassium acrylate or (2) polymerized diallyldimethyl ammonium chloride, acrylamide and potassium acrylate (as acrylic acid) in a weight ratio of 50/47.8/2.2, respectively, so that the finished resin in a 1 percent by weight aqueous solution (active polymer) has a viscosity of more than 22 centipoises at 22° C (72° F) as determined by LVF series, Brookfield Viscometer using No. 1 spindle at 60 RPM (or by other equivalent method) (CAS Reg. No. 25136-75-8).	For use only as a retention and/or drainage aid employed prior to the sheet-forming operations in the manufacture of paper and paperboard and limited to use at a level not to exceed 0.05 percent by weight of the finished paper and paperboard.
* * *	* * *

* * * * *

Any person who will be adversely affected by the foregoing regulation may at any time on or before October 18, 1982 submit to the Dockets Management Branch (address above) written objections thereto and may make a written request for a public hearing on the stated objections. Each objection shall be separately numbered and each numbered objection shall specify with particularity the provision of the regulation to which objection is made. Each numbered objection on which a hearing is requested shall specifically so state; failure to request a hearing for any particular objection shall constitute a waiver of the right to a hearing on that objection. Each numbered objection for which a hearing is requested shall include a detailed description and analysis of the specific factual information intended to be presented in support of the objection in the event that a hearing is held; failure to include such a description and analysis for any particular objection shall constitute a waiver of the right to a hearing on the objection. Three copies of all documents shall be submitted and shall be identified with the docket number found in brackets in the heading of this regulation. Received objections may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Effective date. This regulation shall become effective September 17, 1982.

(Secs. 201(s), 409, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 348))

BILLING CODE 4160-01-M

21 CFR Part 178

[Docket No. 82F-0171]

Indirect Food Additives: Adjuvants, Production Aids, and Sanitizers; Lubricants With Incidental Food Contact

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the food additive regulations to provide for the safe use of phosphoric acid, mono- and dihexyl esters, compounds with tetramethylnonylamines and C_{11-14} alkylamines as an adjuvant in lubricants with incidental food contact. This action responds to a petition filed by the Ciba-Geigy Corp.

DATES: Effective September 17, 1982; objections by October 18, 1982.

ADDRESS: Written objections to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Vir Anand, Bureau of Foods (HFF-334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-472-5690.

SUPPLEMENTARY INFORMATION: In a notice published in the **Federal Register** of June 25, 1982 (47 FR 27614), FDA announced that a petition (FAP 2B3631) had been filed by the Ciba-Geigy Corp., Three Skyline Dr., Hawthorne, NY 10352, proposing that the food additive regulations be amended to provide for the safe use of phosphoric acid, mono- and dihexyl esters, compounds with tetramethylnonylamines and C_{11-14} alkylamines as an adjuvant in lubricants with incidental food contact.

FDA has evaluated data in the petition and other relevant material and concludes that the proposed food additive use is safe and that the regulations should be amended as set forth below.

In accordance with § 171.1(h) (21 CFR 171.1(h)), the petition and the documents that FDA considered and relied upon in reaching its decision to approve the petition are available for inspection at the Bureau of Foods (address above) by appointment with the information contact person listed above. As provided in 21 CFR 171.1(h)(2), the agency will remove from the documents any materials that are not available for public disclosure before making the documents available for inspection.

The agency has previously considered the potential environmental effects of this regulation as announced in the notice of filing published in the **Federal Register**. No new information or comments have been received that would alter the agency's previous determination that there is no significant impact on the human environment and that an environmental impact statement is not required.

List of Subjects in 21 CFR Part 178

Food additives, Food packaging.

PART 178—INDIRECT FOOD ADDITIVES: ADJUVANTS, PRODUCTION AIDS, AND SANITIZERS

Therefore, under the Federal Food, Drug, and Cosmetic Act (Secs. 201(s), 409, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 348)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), Part 178 is amended in § 178.3570(a)(3) by inserting alphabetically a new item in the list of substances, to read as follows:

§ 178.3570 Lubricants with incidental food contact.

* * * * * *

(a) * * *

(3) * * *

Substances	Limitations
* * * * *	
Phosphoric acid, mono- and dihexyl esters, compounds with tetramethylnonylamines and C_{11-14} alkylamines.	For use only as an adjuvant at levels not to exceed 0.5 percent by weight of the lubricant.
* * * * *	

Any person who will be adversely affected by the foregoing regulation may at any time on or before October 18, 1982 submit to the Dockets Management Branch (address above), written objections thereto and may make a written request for a public hearing on the stated objections. Each objection shall be separately numbered and each numbered objection shall specify with particularity the provision of the regulation to which objection is made. Each numbered objection on which a hearing is requested shall specifically so state; failure to request a hearing for any particular objection shall constitute a waiver of the right to a hearing on that objection. Each numbered objection for which a hearing is requested shall include a detailed description and analysis of the specific factual information intended to be presented in support of the objection in the event that a hearing is held; failure to include such a description and analysis for any particular objection shall constitute a waiver of the right to a hearing on the objection. Three copies of all documents shall be submitted and shall be identified with the docket number found in brackets in the heading of this regulation. Received objections may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Effective date. This regulation shall become effective September 17, 1982.

(Secs. 201(s), 409, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 348))

Joseph P. Hile,

Associate Commissioner for Regulatory Affairs.

[FR Doc. 82-25341 Filed 9-16-82; 8:45 am]
BILLING CODE 4160-01-M

21 CFR Part 520

Oral Dosage Form New Animal Drugs Not Subject to Certification; Cefadroxil

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect approval of a new animal drug application (NADA) filed by Bristol Laboratories providing for safe and effective use of cefadroxil tablets for dogs as an antibacterial.

EFFECTIVE DATE: September 17, 1982.

FOR FURTHER INFORMATION CONTACT: Sandra K. Woods, Bureau of Veterinary Medicine (HFV–114), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–3420.

SUPPLEMENTARY INFORMATION: Bristol Laboratories, Division of Bristol-Meyers Co., P.O. Box 657, Syracuse, NY 13201, filed NADA 119–688 providing for safe and effective oral use of 50-, 100-, and 200-milligram cefadroxil tablets as an antibacterial in dogs for the treatment of certain conditions caused by *Staphylococcus aureus*. This approval is supported by controlled effectiveness studies and safety studies, which establish that the drug is safe and effective for the intended use. This NADA is approved and the regulations are amended to reflect the approval.

In accordance with the freedom of information provisions of Part 20 (21 CFR Part 20) and § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)), a summary of safety and effectiveness data and information submitted to support approval of this application may be seen in the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857, from 9 a.m. to 4 p.m., Monday through Friday.

The Bureau of Veterinary Medicine has carefully considered the potential environmental effects of this action and has concluded that the action will not have a significant impact on the human environment and that an environmental impact statement therefore will not be prepared. The Director's finding of no significant impact and the evidence supporting this finding, contained in a statement of exemption (pursuant to 21 CFR 25.1(f)(1)(ii)(*e*)(*1*) and (*2*)), may be seen in the Dockets Management Branch (address above).

This action is governed by the provisions of 5 U.S.C. 556 and 557 and is therefore excluded from Executive Order 12291 by section 1(a)(1) of the Order.

List of Subjects in 21 CFR Part 520

Animal drugs, Oral use.

PART 520—ORAL DOSAGE FORM NEW ANIMAL DRUGS NOT SUBJECT TO CERTIFICATION

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10 (formerly 5.1; see 46 FR 26052; May 11, 1981)) and redelegated to the Bureau of Veterinary Medicine (21 CFR 5.83), Part 520 is amended by adding new § 520.314 to read as follows:

§ 520.314 Cefadroxil tablets.

(a) *Specifications.* Each tablet contains 50, 100, or 200 milligrams of cefadroxil.

(b) *Sponsor.* See No. 000015 in § 510.600(c) of this chapter.

(c) *Conditions of use.* For use in dogs as follows:

(1) *Indications for use.* For the treatment of skin and soft tissue infections including cellulitis, pyoderma, dermatitis, wound infections, and abcesses when such conditions are caused by *Staphylococcus aureus*.

(2) *Amount.* Ten milligrams per pound of body weight twice daily.

(3) *Limitations.* The drug is administered orally. Treatment should be continued for a minimum of 3 days and for at least 48 hours after the dog has become afebrile or asymptomatic. If no response is seen after 3 days of treatment, therapy should be discontinued and the case reevaluated. Do not treat for more than 30 days. Safety for use in pregnant bitches or stud dogs has not been determined. Federal law restricts this drug to use by or on the order of a licensed veterinarian.

Effective date: September 17, 1982.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)))

Dated: September 9, 1982.

Gerald B. Guest,

Acting Director, Bureau of Veterinary Medicine.

AGENCY: Food and Drug Administration.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the food additive regulations to provide for the safe use of mineral oil for the removal of water from substances intended for use in animal feed. This action is being taken in response to a petition filed by Dehydro-Tech Corp.

DATES: Effective September 17, 1982; objections by October 18, 1982.

ADDRESSES: Written objections to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: William D. Price, Bureau of Veterinary Medicine (HFV-123), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-3442.

SUPPLEMENTARY INFORMATION: In a notice published in the **Federal Register** of December 9, 1980 (45 FR 81125), FDA announced that a food additive petition (FAP-2183) had been filed by Dehydro-Tech Corp., 6 Great Meadow Lane, East Hanover, NJ 07936, proposing that § 573.680 *Mineral oil* be amended to provide for the safe use of the additive for the removal of water from substances intended for use as components of animal feed.

FDA has evaluated the data in the petition and other relevant material and concluded that mineral oil is safe under the proposed conditions of use and that the food additive regulations should be amended accordingly.

In accordance with § 571.1(h) (21 CFR 571.1(h)), the petition and the documents that FDA considered and relied upon in reaching its decision to approve the petition are available for inspection at the Bureau of Veterinary Medicine (address above) by appointment with the information contact person listed above. As provided in 21 CFR 571.1(h)(2), the agency will delete from the documents any materials that are not available for public disclosure before making the documents available for inspection.

The Bureau of Veterinary Medicine has carefully considered the potential environmental effects of this action and has concluded that the action will not have a significant impact on the human environment and that an environmental impact statement therefore will not be prepared. The Bureau's finding of no significant impact and the evidence supporting this finding, contained in 21 CFR 25.1(f)(1)(iv) may be seen in the Dockets Management Branch (address above).

List of Subjects in 21 CFR Part 573

Animal feeds, Food additives.

PART 573—FOOD ADDITIVES PERMITTED IN FEED AND DRINKING WATER OF ANIMALS

Therefore, under the Federal Food, Drug, and Comestic Act (sec. 409, 72 Stat. 1784-1788 as amended (21 U.S.C. 348)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), Part 573 is amended in § 573.680 by adding new paragraph (b)(5) to read as follows:

§ 573.680 Mineral oil.

* * * * *

(b) * * *

(5) For the removal of water from substances intended as ingredients of animal feed.

* * * * *

Any person who will be adversely affected by the foregoing regulation may at any time on or before October 18, 1982 submit to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857, written objections thereto and may make a written request for a public hearing on the stated objections. Each objection shall be separately numbered and each numbered objection shall specify with particularity the provision of the regulation to which objection is made. Each numbered objection on which a hearing is requested shall specifically so state; failure to request a hearing for any particular objection shall constitute a waiver of the right to a hearing on that objection. Each numbered objection for which a hearing is requested shall include a detailed description and analysis of the specific factual information intended to be presented in support of the objection in the event that a hearing is held; failure to include such a description and analysis for any particular objection shall constitute a waiver of the right to a hearing on the objection. Three copies of all documents shall be submitted and shall be identified with the docket number found in brackets in the heading of this regulation. Received objections may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Effective date. This regulation shall become effective September 17, 1982.

(Sec. 409, 72 Stat. 1784-1788 as amended (21 U.S.C. 348))

Dated: September 9, 1982.

Joseph P. Hile,

Associate Commissioner for Regulatory Affairs.

21 CFR Part 868

[Docket No. 78N-1648]

Anesthesiology Devices; General Provisions and Classification of 134 Devices; Correction

AGENCY: Food and Drug Administration.

ACTION: Final rule; correction.

SUMMARY: The Food and Drug Administration (FDA) issued in the **Federal Register** a final rule classifying anesthesiology devices. The document inadvertently omitted four sections: 21 CFR 868.5530, 868.5540, 868.5550, and 868.5560. This document adds those sections.

EFFECTIVE DATE: August 16, 1982.

FOR FURTHER INFORMATION CONTACT: Agnes Black, Federal Register Writer (HFC-11), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-2994.

SUMMARY: In FR Doc. 82-18941 at page 31130 in the **Federal Register** of Friday, July 16, 1982, FDA issued a rule classifying anesthesiology devices. Four sections were inadvertently omitted. Therefore, the following additions are made.

PART 868—ANESTHESIOLOGY DEVICES

At page 31148 in the first column, after § 868.5470 *Hyperbaric chamber,* the following four sections are added:

§ 868.5530 Flexible laryngoscope.

(a) *Identification.* A flexible laryngoscope is a fiberoptic device used to examine and visualize a patient's upper airway and aid placement of a tracheal tube.

(b) *Classification.* Class II (performance standards).

§ 868.5540 Rigid laryngoscope.

(a) *Identification.* A rigid laryngoscope is a device used to examine and visualize a patient's upper airway and aid placement of a tracheal tube.

(b) *Classification.* Class II (performance standards).

§ 868.5550 Anesthetic gas mask.

(a) *Identification.* An anesthetic gas mask is a device, usually made of conductive rubber, that is positioned over a patient's nose or mouth to direct anesthetic gases to the upper airway.

(b) *Classification.* Class II (performance standards).

§ 868.5560 Gas mask head strap.

(a) *Identification.* A gas mask head strap is a device used to hold an anesthetic gas mask in position on a patient's face.

(b) *Classification.* Class I (general controls).

Dated: September 8, 1982.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 81

[A-5-FRL 2188-1]

Approval and Promulgation of Implementation Plans; Ohio

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; Amendment.

SUMMARY: On January 12, 1982, the State of Ohio submitted a request to revise the attainment status designations for fifteen counties relative to the total suspended particulate (TSP) National Ambient Air Quality Standards (NAAQS). On June 9, 1982 (47 FR 25016) EPA approved the changes to the attainment status designations for the fifteen counties. The approval included Lucas County in which the TSP primary nonattainment area was reduced in size to include only the City of Toledo, east of the Maumee River and the remainder of the County designated attainment. During the thirty day notification period EPA received a request for an opportunity to submit an adverse or critical comment on the approval of the Lucas County designation. The purpose of this notice is to withdraw the June 9, 1982 approval of the Lucas County designation. The June 9, 1982, approval of the other fourteen counties remains effective. Elsewhere in today's **Federal Register** EPA is proposing to approve the Lucas County designation request and is providing an opportunity to comment on its proposed action.

DATE: This action is effective on September 17, 1982.

ADDRESSES: Copies of the redesignation request and supporting air quality data are available at the following addresses:

Environmental Protection Agency, Region V, Air Programs Branch, 230 S. Dearborn Street, Chicago, Illinois 60604.

Environmental Protection Agency, Public Information Reference Unit, 401 M Street, SW., Washington, D.C. 20460

Ohio Environmental Protection Agency, Office of Air Pollution Control, 361 East Broad Street, Columbus, Ohio 43216

Written comments should be sent to: Gary Gulezian, Chief, Regulatory Analysis Section, Air Programs Branch, Environmental Protection Agency, 230 South Dearborn Street, Chicago, Illinois 60604.

FOR FURTHER INFORMATION CONTACT: Delores Sieja, (312) 886-6038.

SUPPLEMENTARY INFORMATION: On January 12, 1982, the State of Ohio submitted a request to revise the attainment status designation for fifteen counties relative to the TSP NAAQS. On June 9, 1982 (47 FR 25016), in a notice of final rulemaking, EPA: discussed its criteria for redesignation; discussed the monitoring data submitted by the state to support its fifteen county redesignation request; and approved the redesignation request for the fifteen counties. The approval included Lucas County in which the TSP primary nonattainment area was reduced in size to include only the City of Toledo, east of the Maumee River and the remainder of the County designated attainment.

In the approval notice EPA advised the public that it was deferring the effective date of its approval until August 9, 1982. EPA announced that, if by July 9, 1982, it received notice that someone wanted to submit an adverse or critical comment, it would withdraw its approval and begin a new rulemaking by proposing the action and establishing a thirty-day comment period. EPA published a general notice explaining this special procedure on September 4, 1981 (46 FR 44477).

On July 8, 1982, EPA received notice that a member of the public wished to submit an adverse or critical comment on the approval of the Lucas County designation. Therefore, in accordance with the procedure described above, EPA is withdrawing its June 9, 1982, approval of the Lucas County designation. The June 9, 1982, approval of the other fourteen counties remains effective. Elsewhere in today's **Federal Register**, EPA is proposing to approve the Lucas County designation and soliciting comments on its proposed approval.

EPA is withdrawing this action without providing prior notice and opportunity to comment. EPA finds that it has good cause within the meaning of 5 U.S.C. 553(b) to proceed without notice and comment. Notice and comment would be impracticable because EPA needs to withdraw its approval as quickly as possible in order to consider the comments which members of the public want to submit. Moreover, further notice is not necessary because EPA has already informed the public that it would follow this procedure if it received a request for an opportunity to comment. (See 46 FR 41061 and 46 FR 44477). For the same reasons EPA finds it has good cause under 5 U.S.C. 553(d) to make this withdrawal immediately effective.

The Office of Management and Budget has exempted this rule from the requirements of Section 3 of Executive Order 12291.

Under Section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by November 16, 1982. This action may not be challenged later in proceedings to enforce its requirements. (See Sec. 307(b)(2).)

BILLING CODE 6560-50-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Social Security Administration

45 CFR Parts 206, 232, 233, 234, 238, and 240

Aid to Families With Dependent Children

AGENCY: Social Security Administration, HHS.

ACTION: Interim rule.

SUMMARY: These interim regulations implement changes made in the Aid to Families with Dependent Children (AFDC) program by the Tax Equity and Fiscal Responsibility Act of 1982 (Pub. L. 97-248). The major statutory changes reflected in these regulations:

(1) Strengthen work requirements by permitting employment search activities for applicants and recipients;

(2) Target assistance to the most needy by:

Permitting proration of amounts for shelter, utilities and similar needs when AFDC families live with other individuals in the same household; and

Prohibiting payments when absence of a parent is due solely to active duty in a uniformed service of the United States of America;

(3) Improve program administration by:

Providing that assistance payments are not made for any period prior to the date of application; and

Rounding both the standard of need and the benefit amount, when not a whole dollar, to the next lower whole dollar.

Changes made by these regulations are limited to the AFDC program.

DATES: These interim regulations are effective October 1, 1982 except where the Secretary determines that State legislation is required in order to conform the State plan to these requirements. In such an event, the State plan shall not be regarded as failing to comply with these requirements solely by reason of its failure to meet the requirements prior to the end of the first session (whether regular, special, budget or other session) of the State legislature which begins after October 1, 1982 or which began prior to October 1, 1982, and remained in session until at least October 26, 1982. This is in accordance with section 161 of Pub. L. 97-248. Requests for extension of the effective

date must be sent to the Regional Commissioner, SSA, and a copy of the request to the Secretary, Department of Health and Human Services.

All comments received by November 16, 1982 will be considered in developing final regulations.

ADDRESSES: Comments should be submitted in writing to the Commissioner of Social Security, Department of Health and Human Services, P.O. Box 1585, Baltimore, Md. 21235, or delivered to the Office of Family Assistance, Social Security Administration, Room B-442, Transpoint Building, 2100 Second Street, S.W., Washington, D.C. 20201, between 8:00 a.m. and 4:30 p.m. on regular business days. Comments received may be inspected during these same hours by making arrangements with the contact person shown below.

FOR FURTHER INFORMATION CONTACT: Mr. David Siegel, Transpoint Building, 2100 Second Street, S.W., Washington, D.C. 20201, (202) 245-2736.

SUPPLEMENTARY INFORMATION:

Regulatory Procedures

Justification for Dispensing With Notice of Proposed Rulemaking

These interim regulations are effective October 1, 1982, the effective date generally required by Pub. L. 97-248 for the changes in the AFDC program. Since the legislation was not signed into law until September 3, 1982, it was not feasible to issue these regulations under a Notice of Proposed Rulemaking, as this would have delayed the issuance of final regulations until well past October 1, 1982. Since the amendments made by Pub. L. 97-248 will require many changes in States' ADFC plans and agency procedures, States must have some reasonable assurance that new Federal regulations under which these changes are to be implemented will not change in "mid-stream." Furthermore, costs of sequential changes in the program to States and resulting confusion to applicants and recipients because of abrupt changes in Federal regulations would be significantly higher than if the changes are made by States in a planned and orderly manner. The only way to assure States that significant changes in Federal policy will not be made after they have begun to implement the provisions of the new statute is to issue interim regulations.

In addition, Congress clearly intended that the statutory provisions affecting savings under the AFDC program go into effect on October 1, 1982, unless the Secretary determines that State legislation is required for implementation.

Finally, publishing interim regulations will permit State and Federal governments to capture the greatest amount of cost savings from these provisions and this will be to the benefit of the public. We anticipate that the savings to Federal and State governments from prompt implementation of these amendments will be about $181 million during fiscal year 1983 and represent a substantial factor in the effort to curb inflation and revitalize the economy.

Accordingly, we believe that under 5 U.S.C. 553(b)(B) good cause exists for waiver of Notice of Proposed Rulemaking since issuance of proposed regulations would be impracticable and contrary to the public interest.

While Notice of Proposed Rulemaking is being waived, we are interested in comments and advice regarding changes which should be made to these interim regulations. We will review any comments on these regulations which we receive on or before November 16, 1982 and will publish the final regulations with any necessary changes.

Consultation

Prior to publication of these interim regulations, we solicited comments on the legislation and suggestions for the regulations from interested parties. These parties included associations representing Governors, State legislatures, and State and county welfare administrators and legal service groups, professional and labor organizations, welfare rights groups and public assistance-related organizations. The views of these parties were considered in the development of the regulations and are sought during the comment period as well.

Regulatory Burden

Regulatory Impact Analysis

The legislation and regulations, viewed together, may have an annual effect on the economy of more than $100 million. However, the discretionary latitude exercised by the Secretary under these regulations does not exceed $100 million, and therefore these regulations do not constitute a "major rule" as defined in Executive Order 12291. Thus, a regulatory impact analysis, describing potential benefits of the regulations and alternative approaches and their costs and benefits, is not required. Nevertheless, where appropriate to a particular provision, we have voluntarily prepared such an analysis and included it in the discussion of the provision.

Regulatory Flexibility Analysis

The Regulatory Flexibility Act (Pub. I 96-354) requires the Federal government to anticipate and reduce the impact of regulations and paperwork requirements on small businesses. For each particular regulation with a "significant impact on a substantial number of small entities" (e.g., small businesses) we must publish an initial analysis describing the regulation's impact on small business. This analysis is to indicate the purpose and reason for the regulation and the number of small businesses to which it would apply, to anticipate reporting and recordkeeping requirements, to identify possible overlap and conflict with other Federal regulations, and to describe possible alternative means of accomplishing the stated objectives which would minimize the impact on small businesses.

The primary impact of these regulations are on State governments and individuals. We do not believe that any provision will have direct impact on small businesses or other small entities within the intent of the Regulatory Flexibility Act and therefore do not believe a regulatory flexibility analysis is required.

Recordkeeping/Reporting Burden

In accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. 3507), the reporting or recordkeeping provisions that are included in this interim regulation have been approved by the Office of Management and Budget (OMB). These provisions are the State Plan requirements discussed throughout the regulation and the Employment Search provision (Section 240.64).

Discussion of Major Provisions

A discussion follows of the AFDC provisions of Pub. L. 97-248 and the options we considered in developing the implementing regulations.

Proration of Initial Assistance Payment (Section 206.10 of the Interim Regulations)

Prior to enactment of the new provision, States could make an initial AFDC payment effective as of the first day of the month in which an application was received. States could receive Federal financial participation (FFP) for these payments provided the State plan specified this as the method of determining the initial payment.

The new statutory provision does not allow payment to be made for any period prior to the date of application. Therefore, States may not claim FFP for any assistance provided prior to the

date of application. However, the new provision does not preclude FFP for any of the other effective date options (under § 206.10(c)(6)) available to States which are later than the date of application. For example, States may continue the practice of making assistance payments beginning with the first day of the month in which payment is authorized (provided it is not the month of application) or the date of authorization.

For States which choose to pay for the month in which the application was filed, the payment for that month is (1) the amount that would be payable if payment were made for the entire month including special needs in accordance with prospective accounting under § 233.34, multiplied by (2) the ratio of the number of days in the month including and following the date of application (or, at State option, the date of authorization of payment) to the total number of days in the month. For administrative efficiency, States may use a standard 30-day month in determining prorated payments.

If an individual is added to an existing assistance unit during a month and the State considers the individual's claim for assistance to constitute a new application, the State may not make a payment for that individual to the assistance unit which includes the needs of that individual for any period prior to the date of application. If the State's administrative procedures do not require a new application under such circumstances, the State may make a payment which considers that individual's needs in accordance with its established procedures.

The interim regulations include a definition of "date of application." We have defined "date of application" in the regulations at this time to assist in understanding the new provision.

Retention by State of Support Payment That Causes Ineligibility (Section 232.20(a)(1) of the Interim Regulations)

Prior to the new statute, when the amount collected on the monthy support obligation caused ineligibility for an AFDC assistance payment, that amount was to be paid to the assistance unit in the month for which the unit was determined to be ineligible. Under this requirement, the assistance unit would receive two support collections in the first month in which it was ineligible. The assistance unit would receive the support collection that caused ineligibility and also the support collection for the first month of ineligibility. As a result, the State and Federal governments could not be reimbursed for the assistance paid in the month that the support collection that caused ineligibility was made.

The amendment to § 232.20 deletes the requirement that the IV–D agency pay the support collection that caused ineligibility to the assistance unit. However, the IV–A agency must still inform the IV–D agency when an assistance unit loses eligibility regardless of the reason.

Rounding of Need Standard and Payment Amounts (Section 233.20 (a)(2)(iv) and (a)(3)(viii) of the Interim Regulations)

The new statutory provision requires States to round the need standard and payment amount, when not a whole dollar amount, to the next lower whole dollar amount. For the need standard, rounding is required after completing all steps necessary to determine the applicable standard of need (including special needs); then the payment amount is computed, prorated for the first month under §206.10(c)(6)(i)(D) if necessary, and rounded, if not already a whole dollar.

In developing these regulations, we considered whether members of an assistance unit whose payment amount was computed as 99 cents or less (but greater than zero) and was then rounded down to zero would still be considered AFDC recipients for purposes of categorical eligibility for other assistance programs. We decided that these individuals, as in the case of individuals who receive no payment because their payment amount is less than $10, would be considered recipients for all other purposes. This means that the family would still be eligible for Medicaid, Social Services, and where appropriate, be required to register for work activities other than CWEP and submit monthly reports.

Some additional savings are foregone by allowing categorical eligibility where no payment is made. However, these savings are insignificant because very few cases would have been affected. Furthermore, the decision is consistent with the earlier provisions regarding payment amounts under $10, and the small cost involved will be somewhat offset by lower administrative costs for case closings and processing reapplications and requests for fair hearings.

Exclusion From Income of Certain Payments From State-Only Funds (Section 233.20(a)(3)(iv) of the Interim Regulations)

The new statute provides that payments made to meet certain needs of children receiving AFDC will be excluded from income for all purposes in the AFDC program (including determining whether the assistance unit has income in excess of the need standard under § 233.20(a)(3)(ii)(D)), if all the following conditions are met: (1) The payments are made from State-only funds; (2) the payments are made under a statutorily established State program which has been continuously in effect since before January 1, 1979; and (3) the payments are made by the State agency that administers the AFDC program.

Exclusion From Income of Certain State Payments (Section 233.20(a)(4)(iv) of the Interim Regulations)

In addition to the provisions under § 233.20(a)(3)(iv) of the interim regulations, the new statute provides that a State can also exclude from income supplementary State-only payments made to an assistance unit in recognition that a decrease in the assistance unit's income is not reflected in the AFDC benefit amount for up to two months under a retrospective budgeting system. For example, in a 2-month retrospective State, if an assistance unit whose monthly payment standard is $300 has monthly income in January (after disregards) of $280, the regular monthly payment for March would be $20. If the unit loses the income after January, the monthly payment for March would still be $20. Under this provision, the State may pay up to the difference between the computed payment ($20) and the anticipated or current need (i.e., the payment standard for that month). Any such State-only payment does not count as income in determining the matchable payment for May, to the extent that the total of the State-only payment made in March, the AFDC payment for March and other countable income received in March did not exceed what the State pays to a comparable family with no income. Federal matching for the State payment is expressly prohibited in accordance with § 233.20(b)(4).

Proration of Standard Amount for Shelter, Utilities and Similar Needs (Section 233.20(a)(5) of the Interim Regulations)

The new statute allows States to prorate the shelter, utilities, and similar needs portions of the need standard and payment amount whenever the AFDC assistance unit lives with other individuals as a household. Proration must be accomplished on a reasonable basis and in a manner and under circumstances prescribed by the State. States cannot prorate, however, for a recipient of Supplemental Security Income benefits to whom the one-third

reduction is applied because he or she lives in the household of another and receives support and maintenance in-kind (as required under section 1612(a)(2)(A)(i) of the Social Security Act).

In enacting this provision, Congress intended each State to establish a reasonable basis for proration depending on its own policy and administrative considerations. For example, a State may wish to prorate under narrow circumstances and not prorate where non-AFDC household members have little or no income or are unrelated. On the other hand, a State may wish to prorate in all circumstances where the assistance unit shares shelter, utilities and similar needs with other individuals. States may also choose to prorate only the payment standard, or to prorate only for shelter or utilities.

Under these interim regulations, States must define "household" for purposes of applying the proration provision and must specify in their plans the chosen method for prorating. The new legislation allows the Secretary of HHS to define "household." However, in keeping with the President's commitment to assure States adequate flexibility in developing their own programs, we have decided to leave this to each State. This approach is consistent with the position we took in developing the regulations implementing the Omnibus Budget Reconciliation Act of 1981 (Pub. L. 97–35) where the statute authorized the Secretary to prescribe definitions. However, while we have provided States with great flexibility, we believe that it would be unreasonable for a State to include landlords and bona fide tenants in the definition of "household", as the statute refers to individuals living with the AFDC unit as a household. As landlords and bona fide tenants are in a commercial relationship rather than a household relationship, their inclusion would be contrary to the intent of the statute. Accordingly, we will not approve any State plan which permits proration in these situations.

In developing these regulations, we considered whether including persons in the proration computation who are not included in the assistance unit but whose income is counted as available to the assistance unit (i.e., stepparents and sponsors) is double counting of the same income. We determined that it is not. In determining the amount of income available to the assistance unit, an amount is disregarded which is equal to the State need standard for a family of the same composition as the person's whose income is counted. Therefore, it would be reasonable for a State to recognize that the need for these items is reduced as a result of sharing.

We have amended § 233.20(a)(2)(viii) which prohibited proration in all assistance programs in accordance with the statutory change allowing proration in AFDC.

Absence Due to Uniformed Service (Section 233.90(c)(1)(iii) of the Interim Regulations)

In June 1972, the Supreme Court ruled in *Carleson* v. *Remillard* that a State, in determining entitlement for AFDC benefits, could not determine that a child was not deprived because the parent's absence was due to military service. The Court held that, under the existing Social Security Act and regulations, the eligibility criterion of "continued absence" of a parent from the home meant that the parent may be absent for any reason. This law amends the Act to provide that a parent whose absence is occasioned *solely* by reason of the performance of active duty in a uniformed service of the United States is *not* considered absent from the home.

One issue considered in developing the regulations was whether we should provide Federal criteria for determining when absence is not solely due to active duty in a uniformed service. We decided that each State should develop criteria and specify what evidence an individual must provide to establish that continued absence would exist irrespective of the parent's performance of active duty in the uniformed service of the United States.

The interim regulation provides that the definition of "uniformed services" at section 101(3) of title 37, United States Code, applies. "Uniformed services" is defined in that section to mean the Army, Navy, Air Force, Marine Corps, Coast Guard, National Oceanographic and Atmospheric Administration and Public Health Service of the United States.

Employment Search Programs (Part 240 of the Interim Regulations)

The new statute permits States to require, as a condition of eligibility for AFDC, that certain applicants and recipients participate in a program of employment search, beginning at the time they file an application. Only those individuals who are required to participate in WIN and those who are exempt from WIN because of remoteness from a WIN site can be required to participate. The statute, however, allows States to further limit the employment search requirement to certain groups, types or classes of these individuals. A State may also permit volunteers to participate.

The initial employment search period begins at the time of application and continues for a period, prescribed by the State, of not more than 8 weeks. The State can also require a recipient to participate in employment search for up to 8 weeks after the close of the initial 8-week period, but not to exceed a total of 8 weeks in any period of 12 consecutive months. The first such period of 12 consecutive months begins at any time the State designates following the close of the initial employment search period.

If a State chooses to have an employment search program under this part, the State must include in its plan the requirements that must be met by individuals participating in this program. For example, a State may require a certain number of job-seeking contacts each week, attendance at a job-seeking club, and require that an individual must accept a bona fide job offer.

An applicant is not eligible for assistance as long as he fails without good cause to satisfy the State's requirements for participation in employment search. The application for the rest of the assistance unit must still be processed. However, if it is either the only dependent child or the principal earner who does not satisfy the State's requirements, then the entire assistance unit is ineligible for assistance.

Recipients who, without good cause, do not satisfy the State's requirements for participation are subject to the sanctions at § 240.22(a). Under § 240.22(a), when a sanction is applied, the individual's needs cannot be included in determining the assistance unit's need for a period of 3 payment months for the first failure and 6 payment months for each subsequent failure, effective no later than the first day of the corresponding payment month. In an AFDC–UP case, when the principal earner is sanctioned, the entire family is denied aid for the duration of the sanction period. The new statute permits States to shorten the sanction period for any failure to participate in employment search.

Section 240.22(c) of the regulations requires States to define good cause for failure of applicants and recipients to participate. The AFDC hearings and appeal procedures (§ 205.10) apply to individuals whom the State requires to participate in employment search under these provisions. Current rules on protective and vendor payments for sanctioned individuals (§ 234.60) apply to individuals sanctioned under these provisions as well.

Under the interim regulations, States may make preliminary assessments of eligibility and may exempt from employment search applicants who appear ineligible for AFDC based on the information they supplied. However, such a preliminary screening process cannot substitute for a formal denial of eligibility for assistance nor can it result in a delay in processing the individual's application. The only effect of such a decision under a preliminary screening process is that the individual is temporarily exempt from participating in employment search until the State determines otherwise.

We estimate some savings from allowing States to screen applicants before requiring them to participate in employment search. These savings derive primarily from ensuring that employment search participation expenses are incurred only on behalf of individuals who the State considers likely to be eligible for AFDC.

In addition, the new statutory provision specifically provides that the employment search program may not be used as a reason for delay in making a determination of eligibility or in issuing a payment to or on behalf of an individual who is otherwise eligible for aid. A State may, of course, require reasonable verification that employment search requirements are being met, in circumstances where the applicant or recipient is not participating in a supervised job club setting. For example, a State may require that a participant have potential employers sign a form indicating that an interview was conducted. If no verification has been received at the time the State is prepared to make an eligibility decision, the State may provide additional time for verification of employment search requirements, rather than finding the individual ineligible for failure to meet those requirements. The State may not, however, impose any additional work requirememts or have a fixed-length pre-eligibility employment search requirement at the point that all other eligibility requirements are met.

For efficient administration of the program, the new statute requires that the employment search program be coordianted with CWEP and WIN in order to ensure that job placement is the highest priority. This provision is implemented in parts 238 and 240 of the regulations.

Allowable Administrative Costs

Previously, employment search activities—to the extent they existed—were funded primarily under the WIN program. The new provision requires that any individual participating in an employment search program must be furnished transportation and other services or paid (in advance or by way of reimbursement) any amounts to cover transportation costs and other expenses reasonably incurred in order to enable the individual to participate in the employment search program. Under these interim regulations, Federal matching at the 50 percent administrative rate is available for costs necessary for the proper and efficient administration of the employment search program. These costs include the development and operation of job-finding clubs, resume development, interview training, determining skill levels and experience and providing transportation, child care and other services to employment search participants whether as direct advance payments or reimbursement of out-of-pocket employment search participation costs or as services provided in kind.

Costs are matchable only when identified as a covered expense in the State plan, reasonable in relation to their expected benefits and cost-effectiveness and necessary to enable individuals to participate effectively in the program. Services and payments are matchable when provided to individuals who are either applicants for or recipients of assistance at the time the costs are incurred. Such costs are matchable only under this provision and not as special needs in the State payment. Federal matching funds are not available for longer range remedial services and expenditures not essential to job seeking. Such unmatchable costs include psychological counseling, education or training (except short-term training as identified above), health care or medical care. We view this provision as focusing on immediate employment search and rapid job placement.

The State may operate job search activities directly or may contract with outside agencies to provide them.

The asterisks used throughout the regulatory text represent material within a codified paragraph or section that is not being amended by these interim regulations.

These regulations are issued under the authority of section 1102 of the Social Security Act, as amended, 42 U.S.C. 1302 and Pub. L. 97-248, 96 Stat. 324.

PART 206—APPLICATION, DETERMINATION OF ELIGIBILITY AND FURNISHING OF ASSISTANCE—PUBLIC ASSISTANCE PROGRAMS

Part 206 of Chapter II, Title 45, Code of Federal Regulations is amended as set forth below:

1. Section 206.10 is amended by revising paragraph (c)(6)(i)(B), adding new paragraphs (c)(6)(i) (C) and (D), by redesignating paragraph (b) headed "Definitions" to be paragraph (d), and by adding a new definition as paragraph (d)(3) to read as follows:

§ 206.10 Application, determination of eligibility, and furnishing assistance.

(a) *State plan requirements.* * * *

(b) * * *

(c) * * *

(6) Assistance shall begin as specified in the State plan, which:

(i) For financial assistance,

(A) Must be no later than:

(*1*) The date of authorization of payment, or

(*2*) Thirty days in OAA, AFDC, AB, and AABD (as to the aged and blind), and 60 days in APTD and AABD (as to

the disabled), from the date of receipt of a signed and completed application form, whichever is earlier: *Provided,* That the individuals then met all the eligibility conditions, and

(B) For purposes of Federal financial participation in OAA, AB, APTD, and AABD, may be as early as the first of the month in which an application has been received and the individual meets all the eligibility conditions; and

(C) In AFDC, for purposes of Federal financial participation, may be as early as the date of application provided that the assistance unit meets all the eligibility conditions; and

(D) In AFDC, States that pay for the month of application must prorate the payment for that month by multiplying the amount payable if payment were made for the entire month including special needs in accordance with § 233.34 by the ratio of the days in the month including and following the date of application (or, at State option, the date of authorization of payment) to the total number of days in such month. The State plan may provide for using a standard 30-day month to determine the prorated amount.

* * * * *

(d) *Definitions.* For purposes of this section:

(1) "Applicant" is a person who has, directly, or through his authorized representative, or where incompetent or incapacitated, through someone acting responsibly for him, made application for public assistance from the agency administering the program, and whose application has not been terminated.

(2) "Application" is the action by which an individual indicates in writing to the agency administering public assistance his desire to receive assistance. The relative with whom a child is living or will live ordinarily makes application for the child for AFDC. An application is distinguished from an inquiry, which is simply a request for information about eligibility requirements for public assistance.

Such inquiry may be followed by an application.

(3) "Date of Application" is the date on which the action described in (d)(2) occurs.

PART 232—SPECIAL PROVISIONS APPLICABLE TO TITLE IV–A OF THE SOCIAL SECURITY ACT

Part 232 of Chapter II, Title 45, Code of Federal Regulations is amended as set forth below:

2. Section 232.20 is amended by revising paragraph (a)(1) to read as follows:

§ 232.20 Treatment of child support collections made in the Child Support Enforcement Program as income and resources in the Title IV–A Program.

(a) * * *

(1) Upon notification to the IV–A agency by the IV–D agency of the amount of a support collection, such amount will be used to redetermine eligibility for an assistance payment under § 206.10(a)(9). This use of these amounts so collected shall not be later than the second month after the month in which the IV–A agency received a report of the monthly collections from the IV–D agency. In determining whether a support collection made by the State's IV–D agency, which represents support amounts for a month as determined pursuant to § 302.51(a) of this title, is sufficient to make the family ineligible for an assistance payment for the month to which the redetermination applies, the State will determine if such collection, when treated as if it were income, makes the family ineligible for an assistance payment. If such treatment makes the family ineligible, the IV–A agency will notify the family and the IV–D agency. If such treatment does not make the family ineligible for an assistance payment, the assistance payment will be calculated without regard to such collection.

* * * * *

PART 233—COVERAGE AND CONDITIONS OF ELIGIBILITY IN FINANCIAL ASSISTANCE PROGRAMS

Part 233 of Chapter II, Title 45, Code of Federal Regulations is amended as set forth below:

3. Section 233.20 is amended by revising paragraphs (a)(2) (iv) and (v) to read as follows:

§ 233.20 Need and amount of assistance.

(a) *Requirements for State plans.*

* * *

(2) *Standards of assistance.* * * *

(iv) Include the method used in determining need and the amount of the assistance payment. For AFDC, the method must provide for rounding down to the next lower whole dollar when the result of determining the standard of need or the payment amount is not a whole dollar. Proration under § 206.10(c)(6)(i)(D) to determine the amount of payment for the month of application must occur before rounding to determine the payment amount for that month.

(v) If the State agency includes special need items in its standard, (A) describe those that will be recognized and the circumstances under which they will be included, and (B) provide that they will be considered for all applicants and recipients requiring them; except that under AFDC, work expenses and child care (or care of incapacitated adults living in the same home and receiving AFDC) resulting from employment or participation in either a CWEP or an employment search program cannot be special needs.

* * * * *

4. Section 233.20 is amended by revising paragraph (a)(2)(viii) to read as follows:

§ 233.20 Need and amount of assistance.

(a) *Requirements for State plans.*

* * *

(2) *Standards of assistance.* * * *

(viii) In OAA, AB, APTD, and AABD only, provide that the money amount of any need item included in the standard will not be prorated or otherwise reduced solely because of the presence in the household of a non-legally responsible individual; and the agency will not assume any contribution from such individual for the support of the assistance unit.

* * * * *

5. Section 233.20 is amended by revising paragraph (a)(3)(iv) and adding a new subparagraph (D) to read as follows:

(a) *Requirements for State plans.*

* * *

(3) *Income and resources.* * * *

(iv) Provide that in determining the availability of income and resources, the following will not be included as income (A) Except for AFDC, income equal to expenses reasonably attributable to the earning of income (including earnings from public service employment); (B) loans and grants, such as scholarships, obtained and used under conditions that preclude their use for current living costs; (C) home produce of an applicant or recipient, utilized by him and his household for their own consumption; and (D) for AFDC, any amounts paid by a State IV–A agency from State-only funds to meet needs of children receiving AFDC, if the payments are made under a statutorily-established State program which has been continuously in effect since before January 1, 1979.

* * * * *

6. Section 233.20 is amended by revising paragraph (a)(3)(viii) to read as follows:

(a) *Requirements for State plans.*

* * *

(3) *Income and resources.* * * *

(viii) Provide that: (A) payment will be based on the determination of the amount of assistance needed; (B) if full

individual payments are precluded by maximums or insufficient funds, adjustments will be made by methods applied uniformly statewide; (C) in the case of AFDC no payment of aid shall be made to an assistance unit in any month in which the amount of aid prior to any adjustments is determined to be less than $10; and (D) an individual who is denied aid because of the limitation specified in (C) of this paragraph, or because the payment amount is determined to be zero as a result of rounding the payment amount as required by § 233.20(a)(2)(iv), shall be deemed a recipient of aid for all other purposes except participation in the Community Work Experience Program.

* * * * *

7. Section 233.20 is amended by adding a new paragraph (a)(4)(iv) to read as follows:

(a) *Requirements for State Plans.*

* * *

(4) *Disregard of income in OAA, AFDC, AB, APTD, or AABD.* * * *

(iv) For AFDC, any amounts determined to have been paid by a State from State-only funds to supplement or otherwise increase the amount of aid paid to an assistance unit as computed under § 233.35 for a month in recognition of current or anticipated needs of the assistance unit for that same month shall not be counted as income—to the extent that the total of the State supplemental payment, the AFDC payment and actual income received in that month are not in excess of what the State would have paid for that month to an assistance unit of the same size and composition with no income—in computing the assistance payment under § 233.35 for the corresponding payment month.

* * * * *

8. Section 233.20 is amended by adding a new paragraph (a)(5) to read as follows:

(a) *Requirements for State plans.*

* * *

(5) *Proration of shelter, utilities, and similar needs in AFDC.* (i) Provide that the State agency may prorate allowances in the need and payment standards for shelter, utilities, and similar needs when the AFDC assistance unit lives together with other individuals as a household; except that, the State shall not prorate with respect to any person receiving SSI to whom the statutory one-third reduction (section 1612(a)(2)(A)(i) of the Act) is applied.

(ii) If the State agency elects to prorate allowances for shelter, utilities, and similar needs, the State plan must:

(A) Define shelter, utilities, and similar needs and describe the procedure which will be used to prorate the allowances;

(B) Provide that the allowances will be prorated on a reasonable basis; and

(C) Specify the circumstances under which proration will occur, including a description of which individuals are considered to be living with an AFDC assistance unit as a household.

* * * * *

9. Section 233.90 is amended by revising paragraph (c)(1)(iii) to read as follows:

§ 233.90 Factors specific to AFDC.

* * * * *

(c) *Federal financial participation.* (1) Federal financial participation under title IV–A of the Social Security Act in payments with respect to a "dependent child," as defined in section 406(a) of the Act, is available within the following interpretations: * * *

(iii) *Continued absence of the parent from the home.* Continued absence of the parent from the home constitutes the reason for deprivation of parental support or care when the parent is out of the home, the nature of the absence is such as either to interrupt or to terminate the parent's functioning as a provider of maintenance, physical care, or guidance for the child, and the known or indefinite duration of the absence precludes counting on the parent's performance of the function of planning for the present support or care of the child. If these conditions exist, the parent may be absent for any reason, and may have left only recently or some time previously; except that a parent whose absence is occasioned solely by reason of the performance of active duty in the uniformed services of the United States (as defined in section 101(3) of title 37, United States Code) is not considered absent from the home. A parent who is a convicted offender but is permitted to live at home while serving a court-imposed sentence by performing unpaid public work or unpaid community service during the workday is considered absent from the home.

* * * * *

10. Section 233.100 is amended by revising paragraphs (a)(3), (a)(5)(ii), (c)(2)(ii), and (c)(2)(iii), and adding paragraphs (a)(3)(vii), (a)(5)(iii), and (c)(2)(iv) to read as follows:

§ 233.100 Dependent children of unemployed parents.

(a) *Requirements for State Plans.*

* * *

(3) Provide for payment of aid with respect to any dependent child (as defined by the State pursuant to paragraph (a)(2) of this section) when the conditions set forth in paragraphs (a)(3) (i), (ii), (iii), and (vii) of this section are met: * * *

(vii) The parent who is the principal earner (unless exempt under § 240.14) has met the requirements for participation in an employment search program under Part 240 of this chapter.

* * * * *

(5) * * *

(ii) With respect to any week for which such child's parent qualifies for unemployment compensation under an unemployment compensation law of the State or of the United States but refuses to apply for or accept such unemployment compensation, and

(iii) If the parent who is the principal earner (unless exempt under § 240.14) fails to meet the requirements for participation in a program of employment search established under Part 240 of this chapter.

* * * * *

(b) *Exception.* * * *

(c) *Federal financial participation.*

* * *

(2) * * *

(ii) For such 30-day period if during that period the parent refused without good cause a bona fide offer of employment or training for employment;

(iii) For any period beginning with the 31st day after the receipt of aid, if and for as long as no action is taken during the period to certify the parent for participation in the Work Incentive Program as provided in section 402(a)(19) of the Act and the regulations relating thereto; and

(iv) For any part of the sanction period imposed under § 240.22 (for failure to meet the requirements for participation in the employment search program).

PART 234—FINANCIAL ASSISTANCE TO INDIVIDUALS

Part 234 of Chapter II, Title 45, Code of Federal Regulations is amended as set forth below:

11. Section 234.60 is amended by revising paragraphs (a)(1) and (a)(12) to read as follows:

§ 234.60 Protective, vendor and two-party payments for dependent children.

(a) *State plan requirements.* (1) If a State plan for AFDC under title IV–A of the Social Security Act provides for protective, vendor and two-party payments for cases other than failure to participate in WIN, employment search, or Community Work Experience Programs (CWEP), or failure by the caretaker relative to meet the eligibility requirements of §§ 232.11 or 232.12 of

this chapter, it must meet the requirements in paragraphs (a) (2) through (11) of this section. In addition, the plan may provide for protective, vendor, and two-party payments at the request of the recipient as provided in paragraph (a)(14) of this section.

* * * * *

(12) In cases where an individual is sanctioned for failure to participate in WIN, employment search, or CWEP, the State plan must provide that when protective or vendor payments are made pursuant to § 224.51(a)(1), § 238.22, § 240.22(a)(1), and §240.22(b)(1) of this chapter, only paragraphs (a)(7), (9)(ii), and (11) (i) and (ii) of this section will be applicable. Under these circumstances, when protective payments are made, the entire payment will be made to the protective payee; and when vendor payments are made, at least the greater part of the payment will be through this method. Provision will be made for termination of protective payments, or payments to a person furnishing goods or services, with return to money payment status when adults who refused training, employment, or participation in employment search without good cause either accept training, employment, or employment search or agree to do so. In the case of continuing refusal of the relative to participate, payments will be continued for the children in the home in accordance with this paragraph.

* * * * *

PART 238—COMMUNITY WORK EXPERIENCE PROGRAM

Part 238 of Chapter II, Title 45, Code of Federal Regulations is amended as set forth below:

12. Section 238.20 is amended by revising paragraph (c) to read as follows:

§ 238.20 Participation requirements.

* * * * *

(c) The State must have procedures under which there is coordination among CWEP, the employment search program, and WIN to ensure that job placement will have priority.

* * * * *

13. Section 238.26 is amended by revising paragraphs (a) and (b) to read as follows:

§ 238.26 Chief Executive Officer.

The Chief Executive Officer of the State:

(a) Shall provide for coordination among CWEP, the program of employment search and WIN to ensure that:

(1) Job placement will have priority; and

(2) An individual who is required to participate in more than one of the programs identified in this section may not be denied aid under the State plan on the grounds of "failure to participate" in one such program if he is actively and satisfactorily participating in another.

(b) May require that a participant who satisfactorily meets the requirements of CWEP may be required to participate in a program of employment search or WIN during such time as he is not participating in CWEP.

14. A new Part 240 is added to Chapter II, Title 45, Code of Federal Regulations to read as follows:

PART 240—EMPLOYMENT SEARCH PROGRAM

Subpart A—Introduction

Sec.
240.01 Scope of this part.

Subpart B—Administration and Program Requirements

240.10 Agency administering the program.
240.12 Statewideness.
240.14 Establishment of mandatory participant groups.
240.20 Program requirements.
240.22 Conditions of eligibility and sanctions.
240.24 Hearings and notices.

Subpart C—Federal Financial Participation

240.60 Allowable administrative expenses.
240.62 Expenses not matchable.
240.64 Fiscal recordkeeping requirements.

Subpart A—Introduction

§ 240.01 Scope of this part.

Each State may operate a program of employment search and require certain AFDC applicants and recipients to participate in it as a condition of AFDC eligibility. The purpose of this employment search program is to reduce welfare dependency by assisting individuals in obtaining regular unsubsidized employment. Allowable costs to operate a program of employment search are matched by the Federal government at the AFDC administrative match level.

Subpart B—Administration and Program Requirements

§ 240.10 Agency administering the program.

Each State with a plan approved under title IV–A of the Social Security Act may establish a program of employment search in accordance with the requirements in this part. The single State agency designated in the State plan to administer or supervise the AFDC program must administer the employment search program.

§ 240.12 Statewideness.

The employment search program must be statewide. It may provide different employment search activities or impose different participation requirements in different areas depending on the specific conditions in each such area affecting employment.

§ 240.14 Establishment of mandatory participant groups.

(a) The State plan shall specify the groups, types, and classes of applicants and recipients who will be mandatory participants in the employment search program. These categories may only include individuals who would be required to register for WIN under § 224.20, and those excluded from registration requirements because of remoteness from a WIN site under § 224.20(b)(6).

(b) A State plan may also provide for voluntary participation in an employment search program by those not required to participate under (a). If the plan provides for voluntary participation, it shall identify any conditions which attach to voluntary participation including what sanctions, if any, are imposed. States must inform voluntary participants of these conditions, if any.

(c) The State agency may exempt from employment search any appplicant who does not appear to meet eligibility criteria for AFDC based upon a preliminary assessment it makes at the time the individual files his application. This process must not constitute informal denial of eligibility for assistance nor delay the processing of the application.

§ 240.20 Program Requirements.

(a) The State plan must specify the requirements for participation (such as a minimal number of employer contacts a week or that a bona fide job offer cannot be refused without good cause). However, these requirements may vary for different categories of individuals depending on factors such as the economic conditions in an area and an individual's work history, etc. States must not impose requirements which would delay processing of an application. States may require that an individual participate in the employment search program from the time he files an application for aid for an initial period, prescribed in the State plan, of up to 8 weeks. Following this initial period, the States may require additional participation in employment search, not

in excess of 8 weeks (or its equivalent) in any period of 12 consecutive months. The first such period of 12 consecutive months shall begin at any time following the close of the initial period.

(b) The State plan must specify procedures for coordination among CWEP, WIN, and the employment search program to ensure that job placement will have priority.

(c) The State plan must also provide for methods to ensure that requirements for participation in employment search are met. The State must establish procedures enabling it to verify participation in the program.

§ 240.22 Conditions of eligibility and sanctions.

(a) The State plan shall provide for sanctions when a recipient, who is required to participate in the program of employment search, fails to meet the requirements for participation in that program. If a recipient fails to meet State requirements for participation in employment search, the sanctions specified below shall remain in effect for a period (effective no later than the first day of the corresponding payment month) up to 3 payment months for the first such failure and up to 6 payment months for any subsequent such failure.

(1) If the individual is a caretaker relative receiving benefits (other than a principal earner), the State shall not take into account his needs in determining the assistance unit's need for assistance. The State shall provide assistance in the form of protective or vendor payments;

(2) If the individual is one of several dependent children in the assistance unit, the State shall not take into account the child's needs in determining the assistance unit's need for assistance; if the individual is the only dependent child in the assistance unit, the State shall deny assistance to the entire unit; and

(3) If the individual is a principal earner, the State shall deny assistance to the entire assistance unit.

(b) The State plan shall provide that an applicant will remain ineligible for assistance for so long as he fails to meet the State requirements for participation in the employment search program:

(1) If the individual is a caretaker relative, the State shall not take into account his needs in determining the assistance unit's need for assistance. The State shall provide assistance in the form of protective or vendor payments;

(2) If the individual is one of several dependent children in the assistance unit, the State shall not take into account the child's needs in determining the assistance unit's need for assistance; if the individual is the only dependent child in the assistance unit, the State shall deny assistance to the entire unit; and

(3) If the individual is a principal earner, the State shall deny assistance to the entire assistance unit.

(c) The State plan shall specify the criteria to be used in determining whether applicants and recipients have "good cause" for failing to meet State requirements for participation in employment search.

§ 240.24 Hearings and notices.

The State plan shall specify that the hearings and notice procedures at § 205.10 apply to applicants and recipients who are required to participate in employment search under this part.

Subpart C—Federal Financial Participation

§ 240.60 Allowable administrative expenses.

(a) Federal financial participation (FFP) is available at 50 percent for reasonable expenditures which a State makes in implementing an employment search program. The State plan must specify the services and activities for which FFP will be claimed. Under this requirement, the plan must include those services and activities:

(i) For which direct payment will be made to participants, whether in advance or by way of reimbursement;

(ii) For which payment will be made to third-party providers; and

(iii) Which the agency will provide directly to participants.

(b) FFP is available for direct payments to employment search participants for expenditures for transportation, child care, and other costs reasonably incurred by participants in meeting the requirements of the program.

(c) FFP is available for reasonable expenses incurred by the single State agency in providing services or in contracting with third-parties to provide services for its employment search program if the expenses are consistent with the approved employment search program. FFP is available for expenditures in employment search activities for applicants and recipients such as group jobseeking, job development, exposure the labor market information, work orientation, and referral which are necessary to assist individuals in locating unsubsidized employment.

§ 240.62 Expenses not matchable.

FFP is not available for expenditures for services or activities which are not essential to immediate job seeking, such as longer range remedial care and services, training or psychological counseling.

§ 240.64 Fiscal recordkeeping requirements.

To support claims for FFP, States shall identify all participants in their employment search program, the activities in which each individual participates, and any services or direct payments for expenses provided to individual participants.

BILLING CODE 4190-11-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Ch. I

[CC Docket No. 80-634; FCC 82-372]

Changes in the Corporate Structure and Operations of the Communications Satellite Corporation

AGENCY: Federal Communications Commission.

ACTION: Policy statement (Memorandum Opinion and Order).

SUMMARY: This Memorandum Opinion and Order resolves certain legal and policy issues concerning the corporate structure and operations of the Communications Satellite Corporation (Comsat). It also requires Comsat to report to the Commission and adhere to the directives on accounting, information flow, research and development and financial support of affiliates as set forth in the Order. This action is necessary to clearly set forth certain determinations.

EFFECTIVE DATE: 3:00 p.m., E.T., September 20, 1982.

FOR FURTHER INFORMATION CONTACT: James L. Ball, Chief, International Facilities Licensing and Authorization Division, Common Carrier Bureau, Federal Communications Commission, Washington, D.C. 20554 (202) 632-7265.

SUPPLEMENTARY INFORMATION:

In the matter of changes in the corporate structure and operations of the Communications Satellite Corp.; CC Docket No. 80-634; (October 29, 1980; 45 FR 71628).

Memorandum Opinion and Order

Adopted: August 5, 1982.

Released: August 13, 1982.

By the Commission: Commissioner Jones concurring in part and dissenting in part.

I. Introduction

1. This rulemaking proceeding was initiated to provide an opportunity for public comment on the tentative porposal set forth in the Comsat Study [1] for changes in the corporate structure and operations of the Communications Satellite Corporation (Comsat). *Communications Satellite Corporation* (hereafter *Comsat Structure Rulemaking*), 81 FCC 2d 287 (1980). It has also provided an opportunity to consider alternative approaches to deal more effectively with the problems we identified in the Comsat Study regarding Comsat's structure and operations. In this regard, we indicated that we would carefully consider the voluntary organizational changes undertaken by Comsat in response to the Comsat Study. Appendix A contains a list of the parties filing comments and reply comments in response to our Notice.

2. In the Comsat Study we proposed the restructuring of Comsat in order to separate its monopoly and competitive activities. In this proceeding, we affirm our prior determination that no legal bar exists to Comsat's participation in non-INTELSAT/INMARSAT businesses so long as they are not inconsistent with Comsat's statutory responsibilities. We also affirm our prior determination that as a matter of regulatory policy Comsat should not be limited to its INTELSAT/INMARSAT role. Finally, we assess the adequacy of the voluntary organizational changes undertaken by Comsat in light of the regulatory concerns raised in the Comsat Study. We find in essence that Comsat's voluntary changes do not go far enough and fail to address adequately our stated concerns.

3. As we will discuss, the voluntary organizational changes undertaken by Comsat are consistent with the basic thrust of our Comsat Study proposal; i.e., to structurally separate Comsat's monopoly and competitive activities. Within the framework of its modified structure, however, we find several substantial deficiencies in the manner in which Comsat seeks to satisfy the regulatory concerns which we identified as arising from its greater diversification into competitive activities. Comsat fails to address adequately our stated concerns with respect to Comsat Labs, the potential for misallocation of costs, and greater public dissemination of INTELSAT/INMARSAT information. We conclude that if it is to retain Comsat Labs in the parent organization as it desires, Comsat must modify the way it currently accounts for research and development costs. We also conclude that Comsat must correct deficiencies in how it accounts for administrative and support services shared between the parent organization and affiliated entities. Finally, we conclude that Comsat must take steps to provide for greater public dissemination of INTELSAT/INMARSAT information, and set forth a mechanism to provide the public greater acces to this information.

4. We conclude that before we prescribe structural separation beyond what Comsat has voluntarily undertaken, Comsat should have the opportunity to establish and implement appropriate control mechanisms which will satisfy the regulatory concerns we have raised. We delegate to the Chief, Common Carrier Bureau, authority to assess proposals made by Comsat in response to this decision. We direct the Bureau to report back to the Commission within nine months on the extent to which Comsat has satisfactorily addressed the problems we raise, including a recommendation as to what, if any, further structural separation is warranted.

II. Background

A. Comsat Study

5. The Comsat Study was undertaken pursuant to Section 505 of the International Maritime Satellite Telecommunications Act, 47 U.S.C. 751 (1979). Section 505 directed the Commission to determine whether any changes are required in Comsat's structure or operations to ensure that the corporation is able to fulfill effectively its obligations and carry out its funcitions under the Communications Satellite Act of 1962 and the Communications Act of 1934. The Comsat Study was transmitted to Congress on May 1, 1980.

6. The issues raised in the Comsat Study and in this proceeding result from Comsat's pursuit of non-INTELSAT/INMARSAT activities through business acquisitions and exploitation of its satellite-related technology and expertise. In the Comsat Study, we identified a number of problems as adversely impacting Comsat's continued ability to carry out its statutory functions effectively. We concluded that changes are required in Comsat's corporate structure and operations in view of these problems and we set forth a proposal to effect such changes. We indicated that we viewed the stated proposal as tentative and that it warranted further consideration in the context of a rulemaking proceeding.

7. We stated that the paramount reason for Comsat's existence is the fulfillment of its statutory missions as the U.S. representative to INTELSAT and INMARSAT. See *Implementation of INMARSAT*, 74 FCC 2d 59 at 64 (1979). As a matter of policy, however, we found that Comsat should not be foreclosed from applying its corporate technology and expertise to the development of new lines of business which will result in public benefit. *Comsat Study* at 607.

8. We premised this policy determination on the fact that Comsat's involvement in diversified satellite-related activities would contribute to the overall development of satellite communications technology and therefore be in the public interest. We indicated, however, that Comsat's involvement in diversified businesses may also detrimentally affect its ability to carry out its statutory functions. The various regulatory issues that we identified fall within four general areas: (a) Comsat's legal authority to enter into non-INTELSAT/INMARSAT businesses; (b) the potential for conflicts of interest to arise from its involvement in such activities; (c) Comsat's competitive advantage in non-INTELSAT/INMARSAT markets flowing from its unique status as U.S. Signatory to INTELSAT and INMARSAT; and (d) cross-subsidization of monopoly and competitive services to the detriment of the international ratepayer.

9. First, as to any statutory bar that may limit the Scope of its activities, we concluded that Comsat is permitted under the 1962 Satellite Act to engage in any activities which are not inconsistent with its statutory mission. *Id.* at 615. However, we recognized that Comsat's legal authority to engage in a broad range of activities will probably remain controversial. Therefore, we recommended to Congress that the 1962 Act be amended to clearly define the extent to which Comsat may engage in non-INTELSAT/INMARSAT businesses.

10. Second, we found that Comsat's involvement in diversified businesses presents opportunities for conflicts of interest. *Id.* at 619–620. Conflicts may occur whenever the outcome of a matter before INTELSAT or INMARSAT will have direct or indirect financial effect on a non-INTELSAT/INMARSAT business in which Comsat or one of its subsidiaries is involved. Under such circumstances, Comsat is in a position to weigh its other corporate interests in light of overall corporate profitability in voting as the U.S. representative to INTELSAT or INMARSAT. The potential for such conflicts was

[1] Communications Satellite Corporation (hereafter Comsat Study), 77 FCC 2d 564 (1980).

considered in not unduly restricting Comsat's involvement in non-INTELSAT/INMARSAT activities.

11. Third, we found that Comsat's unique INTELSAT/INMARSAT role provides it with opportunities to gain advantages over U.S. competitors in the markets in which it seeks to participate. *Id.* at 648. As the U.S. Signatory in INTELSAT, Comsat both learns from and contributes to INTELSAT/INMARSAT technology development and can exploit this relationship to its benefit in competitive markets. The competitive advantages it can enjoy flow from two practices: (a) Comsat's use of INTELSAT-funded technology to support other lines of business; and (b) its ability to integrate INTELSAT/INMARSAT market and system planning information with its other businesses.

12. Fourth, we found that Comsat's involvement in diversified businesses will increasingly provide it with opportunities to engage in cross-subsidization through misallocation of costs to the detriment of INTELSAT ratepayers. We noted that allocation of research and development costs posed a particular problem in this regard. *Id.* at 667–73.

13. In light of these concerns, we proposed that Comsat be separated into two distinct corporate elements (called COMSAT Global and COMSAT National for purposes of discussion, the former being the parent corporation and the latter the subsidiary). COMSAT Global would be limited to INTELSAT/INMARSAT functions. COMSAT National would handle all present and future non-INTELSAT/INMARSAT businesses. The two entities would have separate officers, facilities, advertising and marketing, records and books of accounts, procurement and operating personnel. In addition, Comsat Labs would be located in COMSAT National. COMSAT National would utilize the facilities of Comsat Labs to support its various non-INTELSAT/INMARSAT lines of business and assist COMSAT Global in carrying out its role as the U.S. Signatory in INTELSAT and INMARSAT.

14. We also proposed controls on how COMSAT Global and COMSAT National would transact business with one another, including the circumstances under which technology transfer and information flow would be permitted between them. First, we proposed that COMSAT Global be required to procure any research and development and other technology support services from COMSAT National pursuant to competitive bidding procedures. Second, COMSAT Global would not be allowed to treat as proprietory or confidential any technology and information to which it has access by virtue of its unique INTELSAT/INMARSAT roles and which it makes available to COMSAT National. Third, mandatory licensing would be required of technology and information generated through ratepayer-funded research and development which is not done pursuant to competitive bidding.

B. Organizational Changes Undertaken by Comsat in Response to the Comsat Study

15. As a result of changes undertaken in response to the Comsat Study, Comsat's corporate structure now consists of the parent company and three wholly-owned subsidiaries which engage in non-INTELSAT/INMARSAT lines of business. According to Comsat, the parent company is responsible for three tasks. First, its newly-created World Systems Division (WSD) performs international common carrier functions and related duties with respect to the INTELSAT and INMARSAT systems. WSD also undertakes corporate research and development, engineering, and systems integration. Second, the parent company provides administrative and support services to both WSD and elements of the corporation's subsidiaries. Third, the parent company has ultimate policy control over various subsidiaries of and divisions within the corporation. Comsat states that such control involves overseeing major program decisions and formulating broad corporate plans and positions (rather than control of day-to-day operations).

16. The parent company has organized WSD into three operating units: (a) International Communications Services; (b) INTELSAT Technical Services; and (c) Comsat Laboratories. International Communications Services provides INTELSAT and INMARSAT communications services to U.S. customers, and it carries out related functions with respect to Comsat's participation in those organizations (space and ground segment technological and operational planning, project management, facilities design, and earth station operation and management.) INTELSAT Technical Services performs the technology application and system development services that INTELSAT requests of Comsat. Comsat Labs is responsible for the research and development of new technologies for satellite communications, experimental earth station and spacecraft equipment, various engineering services, and special projects. Comsat states that the Labs will also provide these services to affiliates that engage in non-INTELSAT/INMARSAT businesses. Comsat states that administrative groups (legal, contracts and procurement, finance, and personnel) within WSD provide "most" of the services necessary to carry out Comsat's day-to-day INTELSAT and INMARSAT responsibilities.

17. Comsat's three subsidiaries are COMSAT General Corporation, Environmental and Technology, Inc. (ERT), and Satellite Television Corporation (STC). Comsat states that each subsidiary has specific areas of responsibility, individual management, supporting staff and personnel. COMSAT General is involved in a variety of activities including the provision of domestic and maritime satellite service. COMSAT General is involved in Satellite Business Systems (SBS), a joint venture created to provide all-digital domestic satellite services. COMSAT General also leases the entire capacity of its COMSTAR domestic satellite system to AT&T for use in the domestic nationwide switched telephone system. It also provides maritime satellite service to the U.S. Navy through MARISAT and leases MARISAT space segment to INMARSAT for the provision of commercial maritime services. In addition to these activities, COMSAT General is engaged in a worldwide technical services program encompassing a broad range of management and engineering activities in various phases of telecommunications planning, construction, and operation. These technical assistance services have involved satellite communications earth stations, microwave links, intracity connecting systems, switching centers, and construction of telex and telephone exchanges.

18. COMSAT General has several subsidiaries. COMSAT General Telesystems, Inc. develops and manufactures specialized communications equipment. Telesystems manufactures equipment for use in connection with domestic and regional satellite systems. It also manufactures and markets shipboard terminal equipment for use in connection with the INMARSAT system. As it moves into new markets, Comsat foresees a need for the manufacture of special equipment to be used in the provision of new services. It therefore recently expanded its manufacturing operation by purchase through COMSAT General of Amplica, Inc., a manufacturer of microwave amplifiers. Comsat has stated that the goal of its

manufacturing operations ". . . is to exploit [its] technical expertise more widely to ensure that the desired equipment will be available for new services." [2]

19. COMSAT General Integrated Systems (CGIS) develops, supports and markets integrated computer-aided design, manufacturing and test products used for the production of complex electronics equipment. Since release of the Comsat Study, COMSAT General has acquired Compac Engineering, Inc., Comprehensive Computing Systems Services, Inc., Applied Silicon Technology, Inc. and Graphic Software Corporation. Compac Engineering, Inc. supplies computer-aided design software used primarily for the design and optimization of high frequency and microwave circuits. Comprehensive Computing Systems Services, Inc. supplies computer-aided design software used for analysis of digital circuits. Applied Silicon Technology, Inc. designs integrated circuits for microprocessor and other advanced electronic devices. And Graphic Software Corporation specializes in development of computer-aided software products.

20. ERT offers consulting services in the environmental area, including environmental monitoring, analysis, and prediction services, and environmental and ecological consulting services. ERT is planned to be a cornerstone for the establishment of a more diversified information services program which will provide expanded environmental monitoring and data collection services by means of a network using satellites for the transmission of information. This expanded service is to be achieved through both internal development and external acquisitions. Comsat has recently indicated that ERT will be expanding its operations into the environmental resource and management market, an effort which is expected to be complemented by the development of satellite-based information networks.[3]

21. Finally, Comsat created STC to provide a direct satellite-to-home subscription television service. STC has filed an application with the Commission requesting authority to construct the first phase of such a system. The satellite TV service would offer programming over several channels simultaneously. The programs would be broadcast via satellite directly to small antennas on the roof-tops of subscribers' homes. Comsat's proposed investment in the system is significant.

C. Notice of Proposed Rulemaking

22. This proceeding was initiated because of the regulatory concerns raised as a result of Comsat's increasing diversification into non-INTELSAT/INMARSAT lines of business. While Comsat's initial diversification ventures involved the provision of satellite communications services which required our regulatory approval, this is certainly no longer the case. Comsat's diversification into new lines of business has become substantial and increasingly involves ventures into unregulated areas.

23. Essentially, Comsat is diversifying into unregulated areas through acquistions and exploitation of its corporate technology and expertise. It is focusing on ventures in unregulated areas because of the limitations it perceives as placed on its regulated businesses. *Comsat Study* at 599–607. Its stated goal is to increase the value of the corporation and opportunities for profit by expanding its business horizons. This is to be achieved by applying its technology to new activities which either relate to the corporation's basic business, or have satellite comunications as an integral part. Comsat stated recently that its basic satellite service business "is now mature enough to enable us to branch out and apply our technological experience in new areas." [4] Comsat's policy of increased diversification warrants a comprehensive assessment of the need for changes in Comsat's corporate structure and operations in light of this Commission's statutory mandate and Comsat's statutory role in INTELSAT/INMARSAT activities. As a follow-on to the Comsat Study this proceeding provides us with a timely opportunity to do so.

24. In instituting this proceeding, we indicated that the structural changes undertaken by Comsat in response to the Comsat Study appear consistent with the general intent of our proposals for structural changes. We noted, however, several shortcomings with Comsat's voluntary changes and sought comment on them. We specifically pointed out that Comsat seeks to maintain Comsat Labs within the parent company. We therefore invited comment on how to treat the problem of allocation of common research and development costs between Comsat's monopoly activities and its other lines of business. In addition, should the Labs remain in the parent company, we requested comment on how to remedy the technology and information flow problems arising from COMSAT Labs' use of INTELSAT-provided technical and system planning information to support the corporation's other lines of business. We also requested Comsat to identify those administrative and central suport services to be shared among its monopoly and competitive ventures and how such costs are to be allocated among the respective activities.

25. Parties in this proceeding express a broad range of concerns about Comsat's increasing diversification into non-INTELSAT/INMARSAT activities. Some challenge Comsat's legal authority to engage on such activities. ABC asks the Commission to (a) conclude, as a matter of law, that Comsat may engage only in the provision of common carriage via satellite and in reasonably related activities, and (b) issue an order directing Comsat to so limit its activities. RCA believes that Comsat should not be allowed to involve itself in ventures, whether regulated or unregulated, not necessary to or in furtherance of its statutory mandate. WUI similarly maintains that all of Comsat's activities must be in direct furtherance of its limited statutorily-mandated INTELSAT/INMARSAT activities.

26. Most parties agree with our assessment in the Comsat Study that Comsat's diversification will be accompanied by opportunity for conflicts of interest, misallocation of costs and other anticompetitive behavior. Some of these parties believe the problems presented by Comsat's potential to engage in anticompetitive conduct are so insurmountable as to warrant preclusion of Comsat's participation in non-INTELSAT/INMARSAT activities as a matter of policy. Others would not have us prohibit Comsat's participation altogether, but they question the effectiveness both of Comsat's voluntary structural changes and of the proposals we set forth in the Comsat Study.

27. Among the principal concerns raised is the ability of Comsat to engage in non-INTELSAT/INMARSAT activities without compromising or abusing its role as U.S. Signatory to INTELSAT and INMARSAT to gain advantages for its subsidiaries in competitive markets. RCA and Teleconsult view Comsat's voluntary changes as cosmetic. RCA argues that Comsat's non-INTELSAT ventures should not be permitted to reach such levels that they obscure or endanger the conduct of statutory obligations.

[2] 1981 Comsat Annual Report to Stockholders at page 4.

[3] 1981 Comsat Annual Report to Stockholders at page 12.

[4] 1981 Comsat Annual Report to Stockholders, page 4.

Teleconsult alleges that Comsat's involvement in satellite equipment manufacturing compromises its independence and ability to exercise professional judgment in the procurement of hardware for the international systems. Hawaiian Telephone Company suggests that Comsat will not fully represent the interests of U.S. international carriers in INTELSAT if those interests are inconsistent with the interests of Comsat's affiliated entities. Hawaiian states that our proposed structural changes, combined with effective Commission oversight and responsiveness, could mitigate many conflicts, but it believes that Comsat's role as a U.S. representative in INTELSAT at least requires greater attention and control. The Electronic Industries Association (EIA) is concerned about potential conflicts resulting from Comsat's decision to engage in manufacturing activities. EIA submits that the close working relationship between INTELSAT and Comsat Labs puts Comsat in a position to influence technical specifications for future INTELSAT systems and equipment and provides its manufacturing affiliates with the opportunity to initiate production and field testing of new INTELSAT equipment before its competitors know of INTELSAT's plans. EIA further submits that, in a short procurement cycle, Comsat's affiliates may be the only U.S. supplies able to meet specified time constraints. American Satellite Company (ASC) is concerned that its business plans will be frustrated by Comsat's conflicts of interest. ASC asserts that this problem is evidenced by Comsat's past opposition to ASC's application to provide cross-border data services to Canada using domestic satellites. Parties express a general view that even under its new corporate structure, Comsat retains the capacity to use its unique status to the advantage of both the parent company and its corporate subsidiaries.

28. Several parties are particularly concerned that our Comsat Study proposals will not prevent anticompetitive conduct by Comsat if we modify our Authorized Users policy [5] as proposed in Docket No. 80–170. *Aeronautical Radio, Inc.*, 77 FCC 2d 535 (1980). These parties assert that if Comsat is permitted to provide INTELSAT services directly to the public, Comsat will have significant incentives to use its monopoly INTELSAT role to engage in anticompetitive conduct in a number of areas. They argue that Comsat will be able to (a) grant preferential treatment to its subsidiary in the form of faster responses to orders for new circuits or requests for maintenance, (b) use a bundled tariff structure to manipulate competitive bids for satellite service contract awards, (c) treat as proprietary INTELSAT-derived information and data having competitive significance, and (d) avoid advancing the interests of competing U.S. carriers in INTELSAT meetings if such interests are not entirely consistent with those of Comsat's subsidiary. They assert that our proposed structural remedies will not provide a guarantee against such predatory conduct. They therefore argue for additional measures if we permit Comsat to enter the end-user market for INTELSAT services.[6]

29. Our proposal to relocate Comsat Labs on the competitive side of the corporation and to require competitive bidding generated a variety of comments. NTIA, ITT, Hawaiian, ASC and EIA support locating the Labs in the competitive side of the corporation and oppose Comsat's placement of the Labs in the World System Division. They believe that location of the Labs in WSD will perpetuate opportunities for misallocation of costs and other anticompetitive behavior (such as the exclusive use of INTELSAT-derived technical information and data). WUI believes that Comsat Labs presents an insolvable dilemma. WUI maintains that locating the Labs in the competitive side of the corporation will provide Comsat's competitive activities with a substantial technological advantage over its competitors because of the quality of the management, research and development, and engineering personnel available from the Labs. On the other hand, WUI asserts that permitting the Labs to remain in the parent company will lead to serious cost allocation difficulties. The Department of State does not take a position as to where the Labs should be placed in the corporation. However, it emphasizes that the growth and success of INTELSAT remain dependent upon the availability of new technology and maintains that Comsat's continued ability to respond imaginatively and decisively to INTELSAT's research and development requirements will have a significant bearing on our ability to maintain an important and purposeful U.S. presence in the INTELSAT organization. AT&T does not specifically address the issue of relocation of the Labs, but it does express concern about our proposed measures regarding intracorporate dealing with respect to research and development.

30. Parties generally agree that there is need for greater access to INTELSAT/INMARSAT-related documents and information. NTIA suggests that all ratepayer-supported research and development performed for INTELSAT be made available to U.S. manufacturers both as completed projects and as periodic status reports. NTIA also points out that while it has been the general practice of INTELSAT Board of Governors' members to pass along to manufacturers in their respective countries technical, financial and operating data and INTELSAT plans for new technology, systems design and operation, Comsat has refused to supply such information to U.S. equipment manufacturers. As a result, U.S. manufacturers find themselves at a disadvantage with respect to foreign manufacturers. NTIA, RCA AT&T and Hawaiian also support wider dissemination of non-technical information. According to AT&T, INTELSAT/INMARSAT facilities planning and design information is necessary to the development of long-term plans for international telecommunications services. Without such information, U.S. carriers are at a disadvantage vis-a-vis carriers in other countries, with whom the U.S. carriers must coordinate and to whom such information is currently made available through their respective Signatories. In sum, these parties believe that we should require the broadest possible dissemination of the entire range of INTELSAT/INMARSAT-related documents and information.

31. In its pleadings, Comsat maintains that its new corporate organization and other measures that it is taking satisfy our concerns about the potential for it to misallocate costs and engage in anticompetitive conduct. Comsat states

[5] *See* Authorized Entities and Authorized Users, 4 FCC 2d 421 (1966); *reconsideration*, 6 FCC 2d 593 (1967).

[6] These measures include: (a) limiting Comsat's participation in the end-user market to an arms' length separate subsidiary; (b) granting U.S. international carriers some form of "direct economic", "equitable" or "cost-based" access to INTELSAT space segment; (c) permitting optional decompositing of international rates; (d) unbundling Comsat's rate structure to provide separate charges for space segment access and ground segment access; (e) revising our earth station ownership policy to end Comsat's dominance of ESOC, to permit carrier ownership of earth stations independent of ESOC, and to allow the carriers operational presence at ESOC stations; (f) granting U.S. international carriers observer status at INTELSAT meetings; (g) terminating Commission involvement in the facilities planning and consultative processes; and (h) removing all existing activation restrictions on cable facilities. Many of these issues are being addressed in companion orders adopted today.

the establishment of WSD provides a discrete cost center for its INTELSAT/INMARSAT activities. It asserts that this arrangement also increases its ability to assign directly a greater portion of staff and support costs associated with those activities—in addition to capital costs (investments in satellites, earth station facilities, and other jurisdictional property and equipment). Comsat states such capital costs have always been directly assigned.

32. Comsat also maintains that relocation of the Labs in an affiliate would have "substantial adverse consequences." First, Comsat claims that it would be managerially inefficient. According to Comsat, most of the Labs' current resources are devoted to problems related to the global systems and a significant portion of Labs research will continue to be related to the global systems. Second, Comsat argues that relocation of the Labs would engender unnecessary difficulties with its foreign colleagues in INTELSAT since they would be reluctant to use the Labs as often or as intensively as they have in the past. Comsat states that these representatives fear that a subsidiary will not respond to the needs of the global systems as readily or efficiently as the parent company. In addition, Comsat believes that the proposed relocation would neither ensure better cost allocation nor improve the Commission's ability to review the general terms and conditions of research performed on behalf of the ratepayer. Comsat argues that the Commission now has the regulatory authority to investigate any allegations of abuse and remedy any wrongdoing that might occur. It states that such an investigation would rely primarily upon an audit—the performance of which would be based upon the corporation's accounting system. Any improprieties that were discovered would be remedied through the ratemaking process.

33. Comsat acknowledges the "theoretical possiblity" of misallocation of costs arising as a result of its ratepayer-funded research and development programs. Comsat asserts that it has adopted a system of task classification and cost assignment that will minimize the possibility of such problems. It states that it has divided its corporate research and development account into two sub-accounts—a sub-account which encompasses all research and development undertaken by the corporation to benefit its INTELSAT/INMARSAT activities, and a separate sub-account which encompasses corporate research and development related to Comsat's other endeavors.

34. Finally, Comsat asserts that it has taken steps to accommodate the Commission's concerns regarding access to INTELSAT/INMARSAT-related documents and information. Comsat maintains that it has responded to the concerns about fairness in dissemination of INTELSAT/INMARSAT technology and information. It states that it has adopted policies designed to assure that such documents will be publicly available at the same time they are made available to Comsat affiliates. It also states that its current licensing policy satisfies our mandatory licensing proposal.

III. Discussion

35. The issues raised in this proceeding fall into several general categories. First we are asked to find, as a matter of law, that Comsat is restricted in its business ventures to satellite-related activities. In essence we are asked to alter the findings of the Comsat Study on this point. Second, assuming no legal impediment exists to Comsat's participation in competitive enterprises, we are asked to restrict the scope of its activities because of the potential detrimental effect on its INTELSAT/INMARSAT obligations and the potential for anticompetitive conduct. Third, we must assess whether further changes in Comsat's corporate structure or operations are warranted to separate INTELSAT/INMARSAT operations from competitive ventures.

36. Before addressing these issues, however, it is necessary to state those issues which we are not deciding in this proceeding. As we have noted, many comments address various regulatory and competitive concerns that relate to modification of our Authorized Users policy. We are today addressing these matters as part of a separate proceeding in CC Docket No. 80–170. Requests by parties for measures such as "direct economic" access to the INTELSAT system and modification of our earth station ownership policy are being handled in other proceedings before us today. We have already addressed the question of observer status for U.S. carriers in INTELSAT meetings. *Comsat Study* at 732. In addition, we have previously severed and disposed of those issues relating to Comsat's participation in the ship earth station market.[7] Finally, we do not believe that this is an appropriate proceeding to consider whether the Commission's involvement in facilities planning and the consultative processes should be terminated.

A. Comsat's Scope of Authority

37. None of the parties challenging Comsat's legal authority to engage in non-INTELSAT/INMARSAT activities offers any new information or presents any arguments that we did not consider in the Comsat Study. We therefore need not repeat our Comsat Study analysis of this issue. We incorporate this analysis by reference and reaffirm our conclusion that Comsat is permitted under the 1962 Satellite Act to engage in activities which are not inconsistent with its statutory mission. *Comsat Study* at 618. The 1962 Satellite Act and Comsat's Articles of Incorporation make it clear that Comsat must engage in activities that are necessary to the establishment of the global system contemplated by Section 102 of the Act. By the same token, Comsat may not engage in activities that are inconsistent with the Act's purposes and objectives. With respect to other activities, the 1962 Act and the Articles of Incorporation are neutral. We therefore conclude that there is no legal bar, either in the 1962 Act or in the Articles, to Comsat's involvement in non-INTELSAT/INMARSAT activities so long as such activities are not inconsistent with and do not hinder or interfere with the Act's purposes and objectives. This view reflects the broad interpretation that properly should be given to the 1962 Act. It is consistent with past Commission actions in authorizing COMSAT to engage in non-INTELSAT/INMARSAT activities.[8]

B. Policy Considerations

38. Even if there are no legal restrictions to Comsat's participation in non-INTELSAT/INMARSAT activities, various parties argue that as a matter of sound regulatory policy, Comsat should be foreclosed from participating in them. In the Comsat Study we concluded that the public would benefit from Comsat's applying its expertise in diversified businesses and that Comsat should not be foreclosed from entry into

---

[7] On May 13, 1982, we severed this particular issue from the other issues raised in this proceeding and determined that Comsat could engage in such activities through a separate subsidiary under certain conditions. See In the Matter of Changes in the Corporate Structure and Operations of the Communications Satellite Corporation (Ship Earth Stations), FCC 82–219, released May 18, 1982.

[8] *See* Domestic Communications-Satellite Facilities, 22 FCC 2d 86 (1970); Domestic Communications-Satellite Facilities, 35 FCC 2d 844 (1972); Satellite Business Systems, 62 FCC 2d 997 (1977), *aff'd. en banc sub nom.* United States v. FCC, No. 77–1249 (D.C. Cir. March 7, 1980); *see also* In the Matter of Magnavox Government and Electronics Company, FCC 79–463 (July 31, 1979).

competitive areas.[9] This determination was not made in a vacuum. We considered at length the regulatory implications of Comsat's participation in competitive ventures. In so doing we proposed a structure under which Comsat should participate in these activities so as to ameliorate potential regulatory problems. Simply stated, we concluded that, as a matter of policy, Comsat should be allowed to participate in competitive ventures. In so doing, however, its conduct and operations must take into account and satisfy the regulatory concerns raised in the Comsat Study.

39. We incorporate our Comsat Study analysis and reaffirm our conclusion that Comsat should not be foreclosed from applying its corporate technology and expertise to the development of competitive businesses which will result in public benefit. Nothing presented by the parties in this proceeding persuades us that Comsat's involvement in diversified satellite-related ventures would not contribute to the overall development of satellite technology and its original applications. We are unable to conclude, as matter of sound regulatory policy, that Comsat should be limited to its INTELSAT and INMARSAT roles if it can satisfy the concerns we have raised with respect to potential for misallocation of costs and anticompetitive behavoir.

40. In this respect, various mechanisms are available to serve as regulatory safeguards as Comsat moves into competitive ventures. Rather than foreclose entry through divestiture, we concluded in the Comsat Study that requiring structural separation between Comsat's INTELSAT/INMARSAT services and its competitive business ventures would meet our objective of finding an "optimal solution to our concerns, while preserving beneficial aspects of Comsat's present integrated structure." *Comsat Study* at 698.

41. Our Comsat Study proposal to impose structural and related measures on Comsat was premised on two factors. First, Comsat is granted by statute monopoly control in the U.S. over international satellite transmission via the INTELSAT and INMARSAT systems. Comsat therefore has monopoly ratepayers to whom it can pass on the costs of competitive services. The potential for misallocation of costs to the detriment of the ratepayer exists not only in the conduct of day-to-day operations associated with monopoly and competitive activities, but also in Comsat's use of its research and development capability in support of diversified business objectives. Second, Comsat is the recipient of information derived through its role in INTELSAT and INMARSAT. This information relates to satellite communications technology development, market opportunities for products or services resulting from such development, and market capabilities of potential foreign and domestic competitors. Comsat can gain competitive advantages through the use of this information in support of its competitive ventures.

42. Structural remedies provide a tool with which to pursue our regulatory responsibilities. Generally, structural separation reduces the ability of a firm to engage in anticompetitive behavior and enhances the ability of regulatory bodies to detect such abuses should they occur. It does this in part by reducing joint and common costs between affiliated firms. In *Computer II*, for example, structural separation was utilized to separate certain unregulated activities engaged in by AT&T from its provision of common carrier communications services.[10] The use of structural separation in conjunction with accounting provided a sufficient safeguard to permit AT&T to provide certain services and equipment on an unregulated basis.

43. With respect to Comsat, structural separation serves to separate the day-to-day operation of competitive ventures from INTELSAT/INMARSAT activities. At the same time, we recognize that structural separation will not eliminate Comsat's incentive or opportunity to engage in anticompetitive behavior. We recognize the legitimate concern expressed by various parties that, even under structural separation, Comsat may seek to weigh the interests of its competitive ventures in considering INTELSAT/INMARSAT matters and to use its special INTELSAT/INMARSAT roles to gain advantages over competitors. However, the current instructional process serves as a means for the U.S. Government to monitor Comsat's behavior within INTELSAT and INMARSAT in areas where potential self-dealing may arise because of conflicts of interest with its competitive ventures.

44. The comments in this proceeding affirm the need for structural safeguards to address our stated concerns. Upon consideration of these comments, we conclude that such safeguards should be established. If appropriate regulatory safeguards, structural and otherwise, cannot be established, consideration must be given to restricting Comsat's participation in competitive markets. It is within this context that we affirm our policy determination that Comsat should be allowed to participate in competitive ventures which are not inconsistent with its INTELSAT/INMARSAT obligations.

C. Assessment of Comsat's Response to the Comsat Study Proposal

45. We find that Comsat's voluntary structural changes constitute a starting point from which to separate Comsat's INTELSAT/INMARSAT activities from its competitive ventures. The changes undertaken by Comsat are consistent with the basic intent of our proposal that Comsat be separated into two distinct corporate elements for the handling of its INTELSAT/INMARSAT functions and its competitive activities. Under Comsat's reorganization, the parent company will provide INTELSAT and INMARSAT services through the World Systems Division. Non-INTELSAT/INMARSAT business ventures will be conducted through separate subsidiaries. These changes result in the separation of day-to-day operations of INTELSAT/INMARSAT activities from competitive activities except where administrative and support services are shared between affiliated entities. In addition, as we will discuss, Comsat has made some efforts in increasing the availability of INTELSAT and INMARSAT information and technology and data generated by ratepayer-funded research and development.

46. The steps taken by Comsat to date, however, fall short of satisfactorily resolving several fundamental issues raised in the Comsat Study. These issues involve research and development performed by Comsat Labs, allocation of costs for shared administrative and support services, and third-party access to INTELSAT/INMARSAT information. We shall focus on these specific areas and in so doing indicate what further action is required of Comsat to adequately address our concerns.

(1) Comsat Labs

47. Research and development undertaken by Comsat Labs can be divided into three categories. The first category involves work done specifically for INTELSAT on a contractual basis. The second category consists of basic research that Comsat does on its own behalf and which is

[9] We use the term "competitive" in this document to refer to existing and future non-INTELSAT/INMARSAT activities engaged in by Comsat.

[10] Second Computer Inquiry, 77 FCC 2d 384 (1980); *reconsideration* 84 FCC 2d 50 (1980); *further reconsideration*, 88 FCC 2d 512 (1981), *appeal pending sub nom.* Computer Inquiry Associations v. FCC (D.C. Cir. No. 80-1471, filed May 5, 1980).

generally expensed to the ratepayer. We shall refer to this second category as "corporate R&D." The purpose of Comsat's corporate R&D program is to do research and development in areas which Comsat sees as necessary or promising, but which are not funded by INTELSAT or other external sources. We described the scope of its corporate R&D program in the Comsat Study. The third category consists of work done specifically for a corporate affiliate in support of a non-INTELSAT/INMARSAT activity. *Comsat Study* at 656–658. Both INTELSAT-funded and ratepayer-funded Comsat research provide a technological base for Comsat's activities in competitive markets.[11]

48. In the Comsat Study, we set forth how Comsat is able to use technology developed through corporate R&D to benefit its competitive activities. Comsat's ratepayer-funded corporate R&D has multiple benefits and applications. The technology developed either is general purpose and inherently applicable to most satellite communications needs, or can be intentionally designed for adaptability to diverse satellite communications needs. It is often built upon INTELSAT-funded research performed by Comsat Labs and/or data and information received in connection therewith. We described how Comsat allocates corporate R&D costs solely to its monopoly ratepayers even though such R&D also benefits its competitive activities.

49. In view of the increasing application of Comsat Labs-developed technology to competitive activities, we proposed a change in Comsat's corporate structure whereby Comsat Labs would be located on the competitive side of the corporation. Comsat's corporate affiliates would use the Labs to support various competitive ventures. The Labs would assist the parent company in carrying out its INTELSAT/INMARSAT roles by handling all present and future INTELSAT/INMARSAT-awarded technical services contracts for design and development of succeeding generations of the global systems and laboratory services contracts for research and development support services. It would also carry out ratepayer-funded basic research and development as the parent company deemed necessary. Under this structure Comsat would be permitted to procure research and development from the Labs on a sole-source basis only pursuant to criteria similar to that used by INTELSAT in awarding sole-source contracts. This would require that Comsat procure all ratepayer-funded research under competitive bidding procedures in order to keep costs at market value and isolate them for purposes of regulatory scrutiny. We also proposed to require that any transaction between the parent company and an affiliate which involves a sole-source research arrangement be reduced to writing and filed with the Commission for public inspection.

50. Our proposal to relocate the Labs was premised on the need to ensure that the ratepayer does not improperly bear costs associated with research and development. However, as we have indicated, Comsat's voluntary restructuring does not include relocating the Labs on the competitive side of its corporate structure. Comsat maintains that relocation of the Labs within an affiliate would have "substantial adverse consequences." It contends that improper cross-subsidization may be prevented by "proper management and auditable accounting" through the task classification and cost assignment scheme that it has developed. Comsat would have us investigate potential abuses through an audit of the corporation's accounting system and remedy any problems through the ratemaking process.

51. While stringent accounting and cost allocation mechanisms may ultimately prove satisfactory if properly implemented, the accounting measures Comsat has taken to date in the research and development area do not adequately address our concerns. We do not agree with Comsat that its task classification and cost assignment approach provides sufficient assurance that ratepayers will not bear a disproportionate share of Comsat's research and development costs.

52. Comsat's current approach to allocating research and development expenses has two deficiences. First, this scheme is intended only to allocate "corporate R&D" expenses and does not affect Comsat's capital investment in Comsat Labs plant and equipment. Comsat would leave in place the arrangement in existence since the termination of the 1976 Comsat Rate Case under which Comsat includes in its rate base 75 percent of its net investment in the Labs for rate setting purposes. *Communications Satellite Corporation*, 68 FCC 2d 941, 948 (1978). Our Comsat Study proposal to place the Labs in a corporate affiliate would have required Comsat to change its accounting practices insofar as it directly attributes a fixed percentage of the net investment in the Labs to the ratepayer. Under our proposal, Comsat Labs' investment costs and operating expenses would be recovered through charges to INTELSAT, COMSAT Global, or other corporate affiliates on whose behalf specific research and development work was performed. The extent of ratepayer support of the Labs would be reflected in contractual arrangements between Comsat Labs and the parent company.

53. Regardless of where Comsat Labs is located within Comsat's corporate structure, we question whether 75 percent of the investment in Comsat Labs should be borne by the ratepayer. We found in the Comsat Study that Comsat is commercially exploiting ratepayer-funded technology through specific product lines and services and is focusing its main marketing efforts on developing non-INTELSAT uses for these product lines and services. *Comsat Study* at 669–673. Moreover, information supplied by Comsat in a letter to the Commission shows a budget for Comsat Labs for 1981 of $38.5 million (see Appendix B). In our review of this budget, we calculated that at a minimum, 54 percent of the Labs' efforts in 1981 were to be devoted to non-INTELSAT/INMARSAT work. We realize, however, that budget information is an estimate of future activity and may not track exactly to the actual costs of non-INTELSAT/INMARSAT activities that were incurred in 1981, but it serves as an indicator of the corporation's plans for research and development expenses for 1981.

54. The second deficiency with Comsat's task classification and cost assignment scheme is that it does not accomplish even the limited purpose for which it is designed; i.e., to allocate corporate R&D expenses on a reasonable cost-causative basis. Comsat allocates corporate R&D expenses on the basis of "an initial determination as to the primary benefitting entity of a project." Under this approach, Comsat makes an initial determination as to whether a research project will primarily benefit its INTELSAT/INMARSAT activities or its competitive ventures.[12] According to Comsat, the

[11] In the Comsat Study, we identified a number of specific, ratepayer-funded Comsat Labs research and development projects which provide a technological base or support for various product lines which Comsat is marketing or is considering developing, such as the echo canceller, low cost TDMA, torus antenna, small earth stations and earth station components, and circuit multiplication equipment. Comsat Study at 669–671.

[12] Comsat indicated that this classification scheme does not involve research and development

costs incurred in the latter are not charged to INTELSAT/INMARSAT activities. Rather, these projects are funded by other elements of the corporation, and Comsat's shareholders assume the risk that the results of this research will be applied successfully in competitive ventures.

55. Comsat contends that the "primary benefitting entity" test adequately ensures that ratepayers will bear only those costs that are legitimately incurred on their behalf. However, Comsat recognizes that research charged to the ratepayer may "ultimately prove useful in unregulated competitive endeavors." It further recognizes the "interrelated nature of satellite technology" and that "some research charged to INTELSAT/INMARSAT activities may ultimately prove useful in an unregulated competitive endeavor * * *"[13] Comsat states that a task classification and cost assignment scheme which relies on an initial determination as to the primary benefitting entity of a project "presents the only practicable means of allocating research and development costs." Comsat submits that retroactive revisitation of research projects to determine ultimate beneficiaries would be difficult, if not impossible, to administer.

56. We view the "primary benefitting entity" test as overly broad for regulatory purposes. It allows Comsat to allocate to its international ratepayers the total cost of a particular research project even though substantial benefits and applications to competitive ventures are reasonably foreseeable. The cost of a project which theoretically may be 51 percent beneficial to Comsat's INTELSAT functions but 49 percent beneficial to one of its competitive businesses would be totally assigned to the international ratepayer. Thus, from a conceptual standpoint alone, the "primary benefitting entity" test cannot ensure that the ratepayers will bear only those costs that are legitimately incurred on their behalf. The potential for abuse of the test cannot be easily overcome by regulatory oversight since the initial determination of primary beneficiary is made without respect to other benefitting corporate segments.

57. The allocation of the cost of a research project to only one corporate segment is unnecessary. It is clear that the benefits and applications of Comsat Labs research to competitive ventures can be reasonably foreseen. In the Comsat Study, we disagreed with Comsat that any non-INTELSAT benefits or applications of that research are merely "incidental." *Comsat Study* at 704. We stated that such a characterization ". . . is simply inconsistent with the pattern that has evolved in connection with Comsat's commercial exploitation of technology developed pursuant to this program." *Id.* We described the general applicability of Comsat's ratepayer-funded research and noted that Comsat publicly indicated as early as 1973 its intention to explore the potential for commercial exploitation of ratepayer-funded technology.[14] We showed that Comsat is indeed commercially exploiting this technology through a number of specific product lines and services and that it focuses its main marketing efforts on developing non-INTELSAT uses for these product lines and services. *Id.* at 669–673. We concluded that:

> The non-INTELSAT benefits that can be derived from Comsat's ratepayer research therefore cannot be termed merely as "incidental." They are impressive. And, it is clear that the future application of research and development, however basic, can reasonably be foreseen. For these reasons, we cannot agree with Comsat that its INTELSAT ratepayers should bear the full costs of corporate research and development. *Id.* at 705.

58. It is not at all evident that the "primary benefitting entity" test will achieve results significantly different from the manner in which Comsat allocated research costs prior to the Comsat Study. We found in the Comsat Study that Comsat's policy for allocating research costs—expensing all general "corporate R & D" costs to the international ratepayer notwithstanding the benefits of "corporate R & D" to competitive ventures—places an unfair burden on the ratepayer. *Id.* at 668. In our Notice in this proceeding, we suggested that Comsat's current assignment scheme continues this old policy. *Comsat Structure Rulemaking* at 300–301. This in fact appears to be the case. Comsat's current task classification and cost assignment scheme continues to allocate totally to the international ratepayer the expenses for the same "corporate R & D" projects that we identified in the Comsat Study as being commercially exploitable by Comsat. This result is the product of Comsat's ability to allocate to the ratepayer, under the "primary benefitting entity" test, the entire costs of a research project to the ratepayer despite identifiable or reasonably foreseeable benefits to competitive ventures. We therefore reject the "primary benefitting entity" test because it continues to place an unfair burden on the ratepayer.

59. We recognize the difficulties involved in allocating research and development costs which can benefit both monopoly and competitive services. However, these difficulties do not relieve us of our statutory responsibility to ensure that Comsat's participation in competitive ventures is not at the expense of the ratepayer. Effective regulatory review requires accountability for Comsat's decisions to allocate investment in the Labs and research and development expenses to the ratepayer. Any task classification and cost assignment plan employed by Comsat must result in a more reasonable allocation of research costs between Comsat's monopoly and competitive lines of business.

60. Comsat's position that this Commission should rely on accounting rather than applying structural remedies to Comsat Labs can only have merit if Comsat has in place an accounting and cost allocation system that adequately meets our stated concerns. We are unable to find that Comsat presently has such a system. First, unlike our practice for telephone companies, the Commission has not prescribed a system of accounts for Comsat. Comsat designed and implemented its own accounting system.[15] Second, the manner in which the information for Comsat Labs is currently reported to this Commission does not provide adequate data for regulatory purposes. Comsat currently files Annual Report Form M and the monthly report Form 901.[16] Based on these reports, we cannot distinguish between work performed by the Labs that is legitimately charged to the ratepayer, that which should be charged only to competitive ventures, or that which may be charged to both in some appropriate proportion. The current reporting system is so inadequate that we cannot determine the total volume of work done by the Labs from Comsat's reports. Most important, we cannot determine how

---

requested and funded by INTELSAT and INMARSAT.

[13] Comsat asserts that the flow of benefits is not unilateral. It argues that given the interrelated nature of satellite technology, the benefits to the INTELSAT and INMARSAT systems that derive from Comsat's competitive research and development activities will reasonably balance those that accrue to Comsat's other endeavors.

[14] *See* Comsat's 1973 Annual Report to the Shareholders.

[15] Comsat has generally attempted to comply with the general accounting principles set forth in Part 31 of the Commission's Rules and Regulations.

[16] Form M contains financial statements and supporting details about company investment, revenues, and expenses as well as supporting details about plant accounts, depreciation and taxes. Form 901 is a monthly reporting of revenues, expenses and selected items of investment.

much of the total was actually for the ratepayer, INTELSAT/INMARSAT contracts, COMSAT General, or other Comsat subsidiaries. In both reports the investment, revenues, and expenses of the Labs are reported in categories that are recognized as regulated activities.

61. In view of these deficiencies, it would be irresponsible and premature for us to accept Comsat's proposal and to rely on its accounting system as sufficient to address the concerns raised in the Comsat Study. If Comsat is to engage in competitive ventures under a corporate structure that does not separate out Comsat Labs, then it must establish appropriate cost allocation standards and an appropriate accounting and reporting system. Whether or not Comsat is willing to make the necessary changes to satisfactorily address our concerns remains to be seen. However, before we require relocation of the Labs, we believe that Comsat should have an opportunity to develop an accounting and reporting system that properly identifies and allocates costs associated with research and development within Comsat Labs.

62. In developing such a system, Comsat must adhere to certain guidelines. Comsat should account for Comsat Labs as if it were a separate corporate entity and in so doing identify and maintain separate accounts for all investment, revenues and expenses directly applicable to the Labs. Comsat Labs' investment, revenues and expenses should be excluded from regulated operating account classifications in reports filed with the Commission and accounted for in below-the-line accounts which are not considered for ratemaking purposes.

63. This approach constitutes a departure from the existing practice whereby Comsat attributes a fixed percentage of its investment in Comsat Labs to regulated accounts to be borne by ratepayers. In the future, Comsat must justify the inclusion of any Comsat Labs investment and expenses in above-the-line regulated accounts.[17] We do not regard costs associated with work that Comsat Labs does for the specific benefit of corporate affiliates (category three research) as eligible to be reported in regulated accounts. Neither do we regard costs associated with work that Comsat Labs does for INTELSAT or INMARSAT (category one research) as eligible to be reported in regulated accounts. Costs associated with the Labs activities conducted for affiliates are to be recovered from those affiliates. Similarly, costs associated with the Lab work to fulfill contracts with INTELSAT or INMARSAT are to be recovered from those organizations.[18] We see no reason for U.S. ratepayers to bear costs associated with either of these categories. Comsat may only report in regulated accounts costs associated with basic corporate R&D (category two research) which was incurred in doing work for the ratepayer. In doing so it may not attribute all costs to the ratepayer for work that will also have reasonably foreseen benefits to its competitive ventures as it now does under the "primary benefitting entity" concept. Comsat should maintain work orders for each research and development project done by Comsat Labs which is charged in whole or in part to the ratepayer. This requirement will provide the Commission with an ongoing record of ratepayer-funded projects for review during the ratemaking process. We do not preclude a return component for that portion of investment in Comsat Labs reflective of work that is justifiably charged to the ratepayer. Such a return component is to be included in operating expenses when developing costs for ratemaking purposes. However, it is not to exceed Comsat's authorized rate of return.

64. We direct Comsat to file within 90 days of the release of this Order a detailed plan as to (a) how it intends to allocate research and development costs; (b) the system to be employed to account for Comsat Labs investment and expenses; and (c) a detailed justification for including any current research and development costs in regulated accounts. Comsat shall also obtain from its independent auditors an assessment of the extent to which Comsat's allocation methodology and accounting system comport with the guidelines we have set forth.

(2) Shared Administrative and Support Services

65. In response to our Notice, Comsat described those services which the parent organization would share with WSD and competitive subsidiaries. It also indicated how it would account for any shared activities. While sharing of administrative and support services raises the potential for misallocation of costs, Comsat asserts that the potential for misallocation is minimized by the accounting safeguards it has undertaken. Needless to say, any cost allocation process requires close scrutiny. In implementing *Computer II*, for example, we specifically reviewed AT&T's accounting proposals for shared administrative services and how it proposed to allocate common costs.[19] Various deficiencies were discovered and AT&T was required to make certain modifications. Upon review of the cost allocation process employed by Comsat to allocate shared costs between INTELSAT/INMARSAT activities and its competitive ventures, we find substantial deficiencies in Comsat's cost allocation methodology.

66. Comsat allocates between its monopoly and competitive activities common general and administrative costs incurred by the corporate "home office" and also certain common costs incurred by the World Systems Division in performance of both INTELSAT/INMARSAT activities and support functions for corporate affiliates. As described in Appendix C, Comsat apportions home office costs in a manner comparable to direct assignment by measuring costs applicable to a corporate entity on the basis of the output of the function performed. It then accumulates those expense costs not allocable by direct assignment into a "residual pool" and apportions them by means of a "three-factor formula." This formula is based on calculating the ratio to total of: (1) salary expenses; (2) operating revenues, including amounts charged to and net of amounts received from affiliated entities; and (3) average net book value of tangible capital assets plus inventories (excluding property held primarily for leasing to others) of the entities that are to share costs. The resulting percentages for the three factors are averaged, and the expenses are then apportioned to each entity on the basis of this average.

67. We find that, while application of certain aspects of this methodology is acceptable from a regulatory standpoint, Comsat's use of the the three-factor formula to allocate the home office residual expense pool raises serious problems. The question of whether Comsat's use of the three-factor formula will result in a reasonable assignment of the residual expense pool is important because the Commission's authority to audit a carrier's assignment of common costs will not remedy any distortions that result from the three-factor formula.

[17] A reasonable share of corporate overhead and applicable loadings for the Labs is to be excluded from Comsat's operating expenses when developing costs for ratemaking purposes.

[18] Comsat ratepayers bear some portion of the cost incurred by Comsat Labs for the Labs' work on INTELSAT contract projects. INTELSAT's total operating costs are recovered from all of its member organizations and Comsat, as an INTELSAT member, is responsible for a portion of INTELSAT's costs. INTELSAT costs incurred by Comsat are passed on to the U.S. ratepayers.

[19] Shared Services Order, FCC 82-282, released June 16, 1982.

Approval of the three-factor formula as part of Comsat's cost-allocation methodology means acceptance of any distortions which are inherent in the application of the formula to the carrier. We faced a similar problem in acting on AT&T's shared administrative proposal in *Computer II* because subsequent auditing will not reveal misallocations of costs caused by distortions. As Comsat has indicated, the application of the three-factor formula is a mechanical process subject to revenue, investment, and salary variables. A Commission audit can only determine whether the formula is being properly applied. It cannot challenge the results if the formula itself is deficient for the purposes being used.

68. In general, a formula based upon revenues, investments and salaries will allocate the residual expense pool in a manner reasonably consistent with the incursion of those costs when corporate lines of business are similarly mature in development. That is, the averaging of these three factors will most accurately reflect the incursion of common costs among corporate segments when lines of business are in comparable stages of development. The use of revenues as an allocative factor, however, can yield distorted results when the lines of business within the various corporate segments are at different stages of development. As discussed in Appendix C, distortions may occur when a corporation having mature lines of business with large operating revenues and substantial investment in plant and equipment diversifies into new ventures. Distortions will be perpetuated as long as the corporation is involved in developing new business ventures while maintaining mature businesses that have comparatively large operating revenues and plant and equipment investment.

69. Comsat's corporate make-up contains all of the elements necessary to cause distortions in the application of the formula. Comsat has a mature line of business in providing international satellite services through INTELSAT. This business accounts for the largest portion of corporate operating revenues, investment and salaries. Comsat is actively pursuing a policy of diversifying into new lines of business. These new businesses are at various stages of development and not fully mature in terms of either investment in plant or generation of revenues. Because of the potential for distortion, we find that Comsat's use of the three-factor formula to apportion the residual expenses will not ensure a reasonable result. Accordingly, we reject it.[20]

70. The conceptual deficiencies of the three-factor formula notwithstanding, we find that Comsat's cost allocation methodology raises two specific problems. First, use of budgeted rather than actual data to estimate entries into the three-factor formula adds a subjective element to the allocation process. Comsat budgets revenues, property and salary projections at the beginning and middle of the year and uses these budgets for six months. No correction is made at the end of the six month period for deviations of the budget figures from actual figures. We have noted substantial deviations of this kind in the property, revenue, and salary budgets for 1980.[21] We find that the use of estimates during the year are permissible only if the final allocation to the ratepayer is based on actual figures. Comsat should revise its allocation at least once a year to bring it into conformity with actual figures.

71. Second, Comsat excludes substantial capital investments of its subsidiaries from computation of the capital investment factor in the three-factor formula. Comsat fails to account for most of the tangible assets of Comsat General in the three-factor formula. Comsat excludes 100 percent of the assets of the COMSTAR satellite system and 75 percent of the assets fo the MARISAT satellite system. We find that Comsat's exclusion of its COMSTAR and MARISAT investments is unreasonable, that it distorts the three-factor formula and that it results in more costs being allocated to Comsat's INTELSAT/INMARSAT businesses than warranted.

72. An allocation methodology specifically tailored to Comsat's unique organization and complement of businesses is necessary to assure cost apportionment reflective of what is happening in the corporation. Comsat should consider allocating residual expenses based on gross operating expenses. Under such a methodology Comsat would spread residual expenses between corporate segments on the basis of each segment's gross operating expenses as a percent of the corporation's gross operating expenses.

73. In sum, Comsat must remedy the deficiencies of its proposal for allocating common administrative and support services. We direct Comsat to file within 90 days of the release of this order a report on the measures it intends to take to remedy these deficiencies and to clearly state how it intends to account for all administrative and common support activities to be shared between the parent organization and its competitive subsidiaries. Comsat must also demonstrate that it tracks costs in a manner which is auditable by Commission staff.

(3) Information Flow

74. Another fundamental concern raised in the Comsat Study is Comsat's access to INTELSAT/INMARSAT information and its use of this information to its advantage in competitive ventures. This information includes not only information and data about satellite communications-related technology developments, but also knowledge of when and where a market could exist for its products or services. We described how, as the U.S. Signatory in INTELSAT, Comsat both learns from and contributes to INTELSAT technology development and can exploit this relationship to the commercial benefit of its competitive business activities. *Comsat Study* at 648. These competitive advantages flow from (a) intracorporate transfer of INTELSAT-provided technology and information to support competitive activities, and (b) integration of Comsat's INTELSAT system planning and technology development functions with competitive activities. Access to this information can provide Comsat's competitive affiliates with "lead time" advantages in particular markets. In addition, Comsat's role in INTELSAT/INMARSAT system planning and technology development provides it with the opportunity to influence specifications of technical parameters for equipment used in connection with the global system, and to set performance standards for the INTELSAT system. These standards have importance beyond the INTELSAT system to the extent other systems seek compatibility with INTELSAT.

75. We proposed in the Comsat Study that Comsat not be allowed to treat as proprietary or confidential any technology and information to which it has access by virtue of its unique INTELSAT/INMARSAT roles and which it makes available to its affiliates.

[20] In our Shared Services Order we required AT&T to remove revenues as a factor in its composite accounts because it would serve to understate costs attributable to the subsidiary. FCC 82-202 at para. 53.

[21] For example, while Comsat budgeted WSD's net property as $283.1 million for 1980, the actual net property shown on Comsat's Form 901, December 1980, was $228.3 million. Similarly, Comsat budgeted $212.2 million for WSD's revenue in 1980, while the Comsat Annual Report shows only $161.1 million of INTELSAT/INMARSAT operating revenue for the same year. The differences between actual and budgeted figures appear to have increased the amount of home office costs allocated to WSD for 1980.

Essentially, our approach was to broaden information flow to U.S. industry rather than preventing information flow between Comsat and its affiliates. We suggested that as a general rule any such technology and information made available to affiliates would have to be made immediately and fully available to the public.

76. This proposal drew a variety of comments. Many parties support it, but ask that the requirement be expanded to include certain information which they allege it fails to cover. NTIA agrees with our general approach. However, it asks that we also consider requiring Comsat to make planning, marketing and financial data available to the public because it believes that such information might be of assistance to U.S. industry in participating in INTELSAT procurement. AT&T and other carriers similarly ask that we both expand and modify our proposed requirement. AT&T maintains that Comsat should be required to make INTELSAT/INMARSAT facilities planning information publicly available even if such information is not provided to a Comsat affiliate. RCA and Hawaiian support AT&T's contention. The Electronic Industries Association states that other INTELSAT members pass INTELSAT technical and planning information to manufacturers in the members' countries. EIA maintains that withholding such information from U.S. manufacturers puts them at a disadvantage with respect to foreign manufacturers as well as Comsat's competitive equipment manufacturing affiliates. Finally, the Department of State points out that it, together with NTIA and the Commission, has been discussing with Comsat the establishment of a framework that will afford the greatest possible public access to INTELSAT documents while protecting important public and private interests.

77. Comsat believes that procedures which it has adopted or intends to adopt will satisfy our concerns in this area. Comsat indicates that certain INTELSAT information is already distributed by both itself and INTELSAT (INTELSAT RFP's annual summary of research and development contracts, INTELSAT Satellite System Operations Guide, *Comsat Technical Review*, *Report to the President and Congress*, and summaries of Comsat Labs' R&D accomplishments). Comsat states that it is taking additional steps to make information available in view of the concerns that we expressed in the Comsat Study. First, Comsat states that in conjunction with the Department of State, NTIA and the Commission, it is developing procedures to broaden the availability of INTELSAT information. Second, Comsat states that it "is in the process of implementing internal procedures to assure that corporate affiliates are not given access to INTELSAT and INMARSAT documents except on the same basis as unaffiliated entities." According to Comsat, documents will be made publicly available at the same time and on the same terms and conditions as they are made available to affiliates. Comsat opposes the distribution of planning documents because it believes that such distribution will jeopardize INTELSAT/INMARSAT interests. Comsat states that these documents contain information about proposals for system evolution, operational plans, business plans, contracts, budgets, charges and terms of services procurement, intersystem coordination, and new facilities. It believes that public scrutiny of this material before final action is taken by the international organizations will constrain decision-making within these organizations. Comsat also opposes EIA's proposal that it be required to make information available without charge.

78. Hawaiian believes that Comsat's proposal for broadening the availability of INTELSAT documents is "a step in the right direction," but asserts that it must be expanded to provide for dissemination of planning information and meeting agendas and minutes. Hawaiian asserts that this information should be made available whether or not it is provided to Comsat's affiliates. AT&T states that its concern about the current unavailability of INTELSAT and INMARSAT planning and design information may be satisfied by Comsat's proposal. However, AT&T made this statement prior to Comsat filing its reply comments opposing the distribution of such information. Finally, NTIA believes that in view of the controversy surrounding the proper extent of distribution of INTELSAT documents, the Commission should establish guidelines for such distribution. NTIA states that it will continue to work with the Commission, as well as with the Department of State and Comsat, to define the types of documents that are appropriate for distribution.

79. *General approach.* In this proceeding, we adopt measures to broaden public access to INTELSAT information consistent with U.S. law and INTELSAT procedures. We deal with three categories of information. The first category consists of INTELSAT Board of Governors documents. We take the position that once Board of Governors documents are provided to the Commission they become agency records which are subject to disclosure under the Freedom of Information Act (FOIA). Because the FOIA was enacted to permit greater public access to government information, we are establishing a framework under which a threshhold determination is made as to those categories of documents which should be made available to the public and those which should be withheld when they are received by the Commission. As to documents which Comsat believes should not be routinely available for public inspection, Comsat must demonstrate that confidential treatment is warranted under the FOIA. The second category encompasses INTELSAT facilities planning documents. Rather than adopt a blanket requirement for public release of this information, as some parties have urged, we adhere to the above framework as set forth for category one documents without imposing special disclosure requirements. The third category consists of inventions and technical data which arise out of or are utilized in work performed at INTELSAT's expense. INTELSAT has established procedures for the dissemination of this information. For purposes of accessing this information, we are requiring Comsat to treat as its designee any U.S. firm which complies with these established procedures.

80. There may be some information which is not routinely available to Comsat's potential competitors. We recognize, for example, that INTELSAT and INMARSAT may require protection of information or data that they or their other contractors provide to Comsat Labs in connection with sole-source research performed by Labs on behalf of these organizations. In such cases, the Labs should not be permitted to provide this information to corporate affiliates or otherwise use it in developing products or services for Comsat's affiliated subsidiaries. Therefore, as a general rule, neither Comsat's World Systems Division nor any other unit within the parent company may make INTELSAT information available to a corporate affiliate that is not otherwise available to the general public under the same terms and conditions. Comsat must establish control mechanisms sufficient to ensure that entities within the parent organization, including Comsat Labs, do not disclose to any of its competitive subsidiaries technical data or information generated by INTELSAT or INMARSAT-funded work unless it

makes such information available to non-affiliated entities under the same terms and conditions. Such control mechanisms must also assure that Comsat and Comsat Labs do not utilize for competitive purposes any proprietary information which a non-affiliated entity must submit directly to INTELSAT or INMARSAT or to Comsat as U.S. Signatory in these organizations. Comsat is directed to file with the Commission within 90 days of the release of this order a detailed description of such control mechanisms.

81. *Board of Governors documents.* INTELSAT Board of Governors documents are prepared by INTELSAT management to assist the Board of Governors in the planning and operation of the global system. These documents include system status reports and operating data, system planning, design and technical information, and financial and other administrative information. This Commission, NTIA and the State Department receive them from Comsat as a necessary aid in carrying out governmental oversight of Comsat's participation in INTELSAT as required by Section 201 of the Communications Satellite Act.

82. Comsat has historically requested each agency to accord confidentiality to Board of Governors documents and not release them to the public. However, in 1978, the Commission, NTIA and the State Department began a joint effort to broaden their availability to the public where confidentiality is unwarranted under applicable law. The goal of this joint effort has been to establish a framework for the identification and protection of limited categories of INTELSAT information which may warrant confidential treatment. The agencies have made it clear that the fundamental principle established by the Freedom of Information Act and other legislation is that "information in the possession of the government must be made available to the public unless it falls under one of the statutory exemptions to disclosure." [22] We restated this principle in the Comsat Study. *Comsat Study* at 804. Pending establishment of a framework for protection of limited categories of INTELSAT information, we have accorded confidentiality to Board of Governors documents and released them to the public on an *ad hoc* basis upon request made under the Freedom of Information Act.

83. The administrative burden on the Commission to date in treating requests for Board of Governors documents has not been great. These requests have come from U.S. carriers for facility planning documents.[23] However, as Comsat increasingly expands into competitive markets, it is likely that greater public demand for Board of Governors' documents will evolve. Comsat's access to evolutionary planning and technical Board of Governors documents can provide it with advance knowledge of technical specifications and marketing information which can provide Comsat with lead-time advantages over U.S. firms in specialized communications equipment and special user-oriented service markets. The Electronics Industries Association, for example, has expressed particular concern regarding these types of advantages and indicated a need for greater dissemination of INTELSAT information to U.S. firms.

84. Comsat has proposed to divide Board of Governors documents into three categories: (a) status/reports documents and approved specifications; (b) evolutionary/planning documents; and (c) confidential internal financial and competitive documents. Comsat would disseminate all documents in the first category. It would also disseminate those in the second category on which the Board of Governors has taken decisive action. It would develop a list of parties interested in obtaining INTELSAT documents and periodically provide to each party information as to what documents are available on a cost-reimbursable basis. Comsat believes that 80 percent of the Board of Governors documents could be made available in this manner. Documents in the third category would not be made publicly available. Comast maintains that these documents contain confidential information, the dissemination of which "might jeopardize INTELSAT's operations." Comsat would continue to request privileged treatment of all INTELSAT documents provided to the U.S. government to assist in the performance of its responsibility to provide guidance and instructions to the U.S. Signatory. Comsat expects the Commission to treat INTELSAT documents as working papers and not place them in public files.

85. Comsat recently announced implementation of its proposal.[24] It stated that it would make certain documents immediately available for release on a cost-reimbursable basis; but remaining documents which it said contain confidential information would not be made available. Through the State Department, the U.S. Government imposed no objection to public dissemination of those documents Comsat proposed to be available for release.[25] However, Comsat's action was viewed as an "interim measure" while the status of remaining documents was still under consideration.

86. We believe that a framework should be established which provides for increased public access to those documents while at the same time protecting documents which merit confidential treatment. Accordingly, we intend to render a threshold determination as to those general categories of Board of Governors documents which should be made available to the public and those which should be withheld on a continuing basis. Within this framework Comsat would have an opportunity to satisfy the Commission as to those general categories of documents which should be withheld under FOIA standards. All other general categories of documents would be made available for public inspection as they are received by the Commission.

87. It is clear that once Board of Governors documents are provided to the Commission they become agency records subject to the Freedom of Information Act. The underlying policy of the Freedom of Information Act governs distribution of documents in the government's possession. The FOIA is a broadly conceived statute which was enacted to permit access by the public to official government information. The FOIA places a general obligation on an agency to make information available to the public, and sets out specific procedures for disclosure of certain types of information. Information subject to the FOIA can be withheld only pursuant to one of nine exemptions listed in the Act. As an agency, we are obligated to comply with the Act's requirements and face litigation if we improperly withhold records.

88. Certain aspects of Comsat's proposal conflict with our responsibilities under the FOIA. First, Comsat proposes to be the sole

---

[22] *See* letter from Director, Office of International Communications Policy, Department of State, to Vice President and General Manager, International Division, Communictions Satellite Corporation; November 21, 1978.

[23] In the Comsat Study, carriers indicated that they have been receiving documents from overseas sources, thus obviating the need to request them from the Commission pursuant to the FOIA.

[24] *See* letter from Vice President and General Counsel, COMSAT World Division, to Secretary, FCC; February 11, 1982; and Comsat news release and public notice; January 12, 1982.

[25] *See* letter form Director, Office of International Communications Policy, Department of State, to Edward J. Martin, Vice President, Maritime Services, COMSAT World Systems Division; January 4, 1982.

distributor of INTELSAT documents for which it claims no confidentiality under an FOIA exemption. Notwithstanding its admission that approximately 80 percent of all Board of Governors documents will be suitable for public dissemination under its proposal, Comsat would have the Commission refrain from placing these documents in the Commission's public files. Parties would have to obtain these documents from Comsat by first getting placed on a list Comsat would keep of parties interested in receiving documents and then ordering desired documents from a list of available documents provided by Comsat on a periodic basis. We reject this procedure as inconsistent with our obligations under the FOIA. The FOIA requires us to honor requests for information not subject to a claim of exemption. This responsibility does not change because of Comsat's willingness to serve as the source of distribution. Moreover, Comsat's scheme could cause unnecessary delay to Comsat's competition in obtaining information from category one documents that the Commission otherwise would make immediately available. Therefore, we are of the view that INTELSAT documents for which Comsat does not claim a specific FOIA exemption should be placed in the Commission's public file and made available without resort to Comsat.

89. Second, Comsat's proposal that categories two and three documents be identified as Commission "work papers" is also inconsistent with the provisions of the FOIA. There is no FOIA exemption which protects agency "work papers" *per se*. The only exemptions which could be construed as addressing "work papers" are the fifth (interagency or intraagency memorandum) and seventh (investigatory files). The language of the fifth exemption clearly limits its application to internal government-generated documents. INTELSAT Board of Governors documents are not government-generated documents. The application of the seventh exemption requires a showing that the records have been collected for "law enforcement purposes." An agency's broad regulatory or monitoring responsibilities do not qualify as "law enforcement." *Sears, Roebuck & Co. v. GSA*, 509 F. 2d 527 (D.C. Cir. 1974); *Lamont v. Dept. of Justice*, 475 F. Supp. 761 (S.D.N.Y. 1979). Even if records have been compiled for law enforcement purposes, the agency wishing to withhold must show that the release of the particular records is likely to cause demonstrable harm to its investigatory effort. Therefore, neither the fifth nor the seventh exemption could be used to withhold INTELSAT documents.

90. It appears that the only FOIA exemption which may be applied to category two and three documents is the fourth, the exemption which protects "trade secrets and commercial or financial information obtained from a person and privileged or confidential."[26] Interpretation of this provision has turned on the words "privileged" and "confidential". In applying these terms and attendant exemption four status, courts have found that an agency must first show that the company whose records are at issue actually faces competition. *National Parks Conservation Association v. Kleppe* ("National Parks II"), 547 F. 2d 673 (D.C. Cir. 1976). Secondly, the agency must demonstrate a likelihood that release will damage the government's ability to obtain such information in the future or cause substantial competitive harm to the company which generated the records. *National Parks and Conservation Association v. Morton* ("National Parks I"), 498 F. 2d 765 at 770 (D.C. Cir. 1974). Comsat does not attempt to show in its comments in this proceeding that either it or INTELSAT faces competition and that its competitive position would likely be harmed were categories two and three to be disclosed.[27]

91. In light of the foregoing, Comsat's proposal must be modified. Consistent with our determination to render a threshold determination on the status of INTELSAT and INMARSAT documents, Comsat is directed to report to the Commission within 90 days of release of this order. In its report, Comsat is to identify and list the types of INTELSAT Board of Governors and INMARSAT Counsel documents which it considers falling within category one and available for public dissemination. These documents will be made available for public inspection at the Commission. Board of Governors documents containing the agenda of each Board of Governors meeting and INMARSAT documents containing the agenda of each INMARSAT Council meeting should be included in category one. Comsat is also to identify and list the types of INTELSAT and INMARSAT documents which it believes fall under categories two and three and require confidential treatment. For these types of documents, Comsat must show that confidential treatment is permitted under the FOIA. Comsat is to provide a description of the information contained in each type of document as required by Sections 0.457(d) and 0.459 of the Commission's Rules and indicate under which FOIA exemption the document should be treated as confidential.

92. A threshold determination will be made as to which types of category two and three documents, as general classes, merit confidential treatment. In doing so, we will give weight to the views of NTIA and the State Department. Through this process we will not have to review each individual document issued after every Board of Governors meeting. For those types of documents that we determine merit confidential treatment, we will issue a letter to Comsat confirming that they will be held as non-routinely available and stating that Comsat's future filings of like documents will be treated similarly. All other category two and three documents will be made available to the public along with category one documents. If the Commission receives an FOIA request for any non-routinely available category two or three documents, the specific documents must be reviewed to determine whether continued withholding is appropriate. We believe that this procedure respects the rights of both Comsat and its competitors and meets the requirements of the FOIA, while avoiding the time-consuming process of ruling on each and every document submitted by Comsat.[28] We instruct the Chief, Common Carrier Bureau, to take such steps as may be necessary for its implementation.

---

[26] Exemption one, concerning national security and foreign policy interests permits withholding only when documents have been classified pursuant to executive order.

[27] However, where the documents contain information which "concerns or relates to the trade secrets, processes, operations style of work, or apparatus, or to the identity, confidential statistical data, amount or source of any income, profits, losses, or expenditures * * *", 18 USC 1905, the Commission may not disclose the information irrespective of its determination of competitive harm under the *National Parks* test, without specific statutory authority implemented by notice and comment rulemaking. *Chrysler Corp. v. Brown*, 441 U.S. 281 (1979).

[28] We will not apply this process to the Board of Governors documents now in the possession of the Commission. It is unclear that the large number of documents accumulated since 1964 (including ICSC documents) will be in such demand as to justify commitment of Commission resources to determine which documents should continue to be withheld. In the alternative, we will make available those accumulated documents which Comsat has determined by its own review process belong in category one and no longer require confidential treatment. All other documents will be subject to release upon specific request under the Freedom of Information Act. If there evolves a significant demand for Board of Governors documents that are now in the Commission's possession, but for which Comsat continues to claim confidentiality, we instruct the Chief, Common Carrier Bureau, to develop an administrative process for their release consistent with the FOIA.

93. *Facilities planning information.* We note that AT&T and other parties do not elaborate on the types of documents which they regard as falling within the area of facilities planning information. The Commission receives INTELSAT planning information from Comsat for use in the facilities planning process. This information is generally contained in Board of Governors documents. Some parties apparently seek imposition of a blanket requirement for the public release of these documents because of their relevance to the facilities planning process. However, such a requirement would ignore Comsat's rights under the FOIA to seek confidentiality of facilities planning documents. Consequently, we cannot agree with such an approach. Under the FOIA, Comsat must be accorded the same opportunity to seek confidential status for INTELSAT facilities planning documents as it does for other INTELSAT documents which it believes fall within an FOIA exemption. We believe that the procedures that we have proposed above will afford such an opportunity. No special requirements for the dissemination of facilities planning documents need be imposed.

94. *Inventions and technical data.* We face different circumstances regarding inventions and technical data resulting from or utilized in work performed at INTELSAT expense. Intellectual property of this type is not routinely supplied to the Commission.[29] Dissemination of INTELSAT inventions and technical data is governed by specific INTELSAT principles and procedures. Article 17 of the INTELSAT Operating Agreement provides for the identification and distribution to Signatories and their designees of rights acquired by INTELSAT in inventions and technical data. INTELSAT implements this provision through procedures for publication and distribution of inventions and data reports to Signatories and their designees.

95. Article 17 also provides that INTELSAT technical data and patent rights be licensed royalty-free for INTELSAT purposes, and under reasonable terms and conditions to be determined by the Board of Governors for non-INTELSAT purposes. The primary rights to INTELSAT technology generally rest in the contractor. INTELSAT acquires license rights to such technology. Signatories and their designees may acquire license rights on a royalty-free basis for INTELSAT purposes and under reasonable terms and conditions for other purposes.[30]

96. INTELSAT maintains a Patent Portfolio that contains over 500 patents and patent applications on nearly 100 separate inventions. Most of these inventions are the result of work performed by Comsat as INTELSAT manager and later as the Management Services Contractor.[31] Comsat retains title to these inventions. Comsat states that, as the U.S. Signatory, it will designate all qualified applicants in the United States as eligible to obtain rights to patented inventions that result from research undertaken by either Comsat or any other contractor on behalf of INTELSAT. However, we believe that public availability of the INTELSAT Patent Portfolio at the Commission is necessary to inform interested U.S. parties of the full range of opportunities to obtain rights in INTELSAT-funded inventions. As we have stated, the Portfolio contains information concerning inventions resulting from work done by contractors other than Comsat Labs. Therefore, we require Comsat to provide the Patent Portfolio to the Commission for public inspection during normal business hours.

97. The INTELSAT Data Handbook identifies technical data and information (reports, drawings, computer programs and technical papers) generated or utilized in INTELSAT-funded work and outlines the procedures for obtaining such information. The Data Handbook contains a cumulative listing by subject matter of such technical data and information. The stated purpose of the Handbook "is to provide increased access" for INTELSAT Signatories and their designees to such information. It sets forth the procedures by which these parties can obtain this information.

98. The Data Handbook provides a useful tool by which to assure that U.S. firms competing with Comsat in non-INTELSAT activities will have access to INTELSAT technology and information in a manner consistent with INTELSAT policy and contractual restrictions. In view of Comsat's increasing activities in competitive markets, there is a need for exposure of the opportunities available to Comsat's potential competitors to obtain licenses to the INTELSAT technology to which Comsat has access as the U.S. Signatory. In this respect, Comsat has returned to its former practice of providing the Handbook to the Commission for public inspection. Comsat is directed to provide all supplements and revisions to the Handbook to the Commission on a timely basis.

99. The availability of the Data Handbook to Comsat's competitors will not assure their access to the technical data and information listed therein. Neither the Handbook, nor Article 17 of the Operating Agreement or INTELSAT's Data and Distribution Procedures define the term "designee" of a Signatory or otherwise limit its application. INTELSAT policy encourages the broad dissemination of INTELSAT-funded technology not only to promote its use in connection with the global system, but also for other purposes in order to stimulate independent development and improvement of the technology. In view of this policy, Comsat, as the U.S. Signatory to INTELSAT, shall treat as its designee for obtaining such technology any U.S. firm which can comply with the requirements of such procedures. Comsat has a responsibility to assist U.S. industry in obtaining such technology for use consistent with INTELSAT policy by representing qualified U.S. firms to the Director General as designees and rendering reasonable assistance to them in obtaining the technical data or information that they desire.

D. Other Measures

(1) Mandatory Licensing

100. In the Comsat Study, we proposed mandatory licensing to give Comsat the incentive not to allocate research costs to the ratepayer if it wishes the benefits of such research to apply exclusively to its competitive activities. We proposed that when the parent company enters into a sole-source arrangement with the Labs for research and development, the primary rights (title) to inventions and data generated by such research are to reside in the parent company. If the parent company grants license rights to an affiliate, it must make license rights available to competitors at the same time and under the same conditions. We stated that we would not require mandatory licensing with respect to inventions and data generated by ratepayer-funded research done pursuant to competitive bidding. In such

[29] The Commission does receive Board of Governors annotated reports on the status of INTELSAT research projects. These reports are documents which are subject to the classification process discussed above.

[30] The exception to this arrangement pertains to work performed by Comsat as the Management Services Contractor to INTELSAT from 1974 through 1978. Under the terms of Comsat's MSC contract, INTELSAT obtained primary rights to inventions and data generated by research that Comsat performed as the MSC.

[31] A few inventions are included in the Portfolio as a result of contractual arrangements with other entities in which INTELSAT obtained primary rights to these inventions. Others are included because some INTELSAT contractors under current policy elected not to file patent applications.

cases, the parent company would be free to specify in the RFP where title to inventions and data would reside. For inventions and data generated by ratepayer-funded research done by other contractors, the parent company could follow normal practices which would place primary rights (title) to inventions and data with the contractor.

101. Comsat maintains that its current licensing policy satisfies the objectives of our proposal. Comsat states that it owns or has rights to license all technical data and patented inventions that result from research and development undertaken and funded by it as part of its INTELSAT/INMARSAT activities. Comsat further states that it will continue its current policy of licensing all such technology on a nondiscriminatory basis. Comsat indicates that it normally licenses technology to all financially qualified applicants (including affiliate), but reserves the right to grant exclusive licenses in such situations "in order to ensure that the products involved are promptly manufactured and marketed." In addition, Comsat indicates that it will periodically (at least annually) publish a catalogue listing "all technical documentation and patented inventions available for licensing through Comsat".

102. The primary concern behind our licensing proposal is the opportunity Comsat has to make inventions and data generated by ratepayer-funded research and development available to an affiliate on an exclusive basis. Our proposal to require Comsat to make available to the public license rights to inventions and data generated by ratepayer-funded, sole-source research conducted by Comsat Labs was intended to minimize the opportunity for such conduct. We find that Comsat's licensing policy goes beyond our Comsat Study proposal by licensing all ratepayer-funded inventions and data whether or not made available to corporate affiliates. It provides a framework for regulatory oversight of Comsat's licensing practices and a benchmark from which Comsat's competitors can base complaints to the Commission if they believe that they are not getting access to ratepayer-funded research on an equal basis with Comsat affiliates. We retain jurisdiction to review Comsat's grant of exclusive licenses to assure that this mechanism is not used to unreasonably deny access to ratepayer-funded research products.

103. Comsat has recently announced the availability of the COMSAT Data Catalog which identifies documentation and patents that result from ratepayer-funded research and development. According to Comsat, the Data Catalog lists and describes specific data items presently available which have resulted from previous and ongoing ratepayer-funded research and development. In addition, the Data Catalog lists and describes current projects which are a likely source of new documentation. Comsat states that rights of use of the data items will in many instances be without additional cost but in certain cases may be subject to payment of a reasonable royalty and nondiscriminatory terms and conditions. Comsat indicates that the Data Catalog is available for a fee, with an additional charge for semi-annual updates. It has filed a copy with the Commission and we have made the Data Catalog available for public inspection.

104. Annual publication of a catalogue that lists patents available for licensing through Comsat is helpful in attaining our objectives. However, semi-annual updates do not provide sufficient notice to the public of the opportunity to obtain licenses. Comsat's affiliates will have knowledge of the availability of ratepayer-funded technology long before an annual catalogue is compiled and published. We therefore will require Comsat to notify the Commission about the availability of ratepayer-funded technology for licensing at the time such technology becomes available. The Commission's staff will publish this information in a Commission public release. In this way, Comsat's competitors will have a faster means of learning of the availability of ratepayer-funded technology.

(2) Limitations on Financial Support of Affiliates

105. Two parties in this proceeding call for limitations on the extent to which Comsat provides financial support for investment in an affiliate's competitive ventures. ABC asserts that we should require Comsat to submit a plan for consideration and approval, after public notice and comment, which would: (a) set forth Comsat's capitalization plans for existing and planned non-INTELSAT/INMARSAT activities; (b) establish limits on the amount of parent company investment in such activities; (c) limit direct and indirect liabilities undertaken by the parent company on behalf of its affiliates; and (d) limit the amount of credit the parent company can extend to its affiliates. WUI argues that Comsat will manipulate what it terms "unfairly obtained capitalization and asset valuation" in an anticompetitive fashion. WUI states that Comsat will be able to use surplus capital funds not applied to its original statutory mission to support competitive ventures by manipulation of asset valuation.

106. In response to ABC, Comsat contends that it demonstrated in the Comsat Study that it will be able to meet its INTELSAT and INMARSAT financial obligations notwithstanding investment in competitive ventures. As for WUI's contentions, Comsat first maintains that capital initially raised by Comsat but not invested in its jurisdictional enterprises was derived solely from the shareholders and may be used by the corporation for the shareholders' benefit. Second, with regard to investment of profits from its INTELSAT operations, Comsat implies that it has the same right as any regulated firm "to use and invest lawfully earned net income as it sees fit, subject to certain legal constraints."

107. The requirements that ABC seeks to have imposed on Comsat are similar to those that we imposed on Comsat when it created COMSAT General. In 1973, we required Comsat to form COMSAT General to pursue domestic satellite ventures and any other non-INTELSAT related activities to assure that it would continue to be able to discharge its financial obligations to INTELSAT. *Domestic Communications Satellite Facilities*, 35 FCC 2d 844 at 853 (1972). We required that the establishment of COMSAT General be supported by a plan providing for its eventual financial independence from the parent company. We placed limits on the amount of investment that the parent company could make in its new subsidiary and on the liabilities which the parent could assume on behalf of the new subsidiary. We required COMSAT General to exhaust all available opportunities for outside financing before seeking additional funding from the parent company. And we required Comsat to seek prior Commission approval for any additional funding of COMSAT General. *Communications Satellite Corporation*, 45 FCC 2d 444, 450–51 (1974).

108. It is not evident that prior approval of a comprehensive capitalization plan at this time is essential for meeting our statutory responsibilities. The same can be said for any action that would impose across-the-board limitations on the future investments of the parent company in support of its competitive activities. Of course, Comsat is free to file such a plan if it so desires. In the absence of a comprehensive plan, however, we can fulfill our statutory responsibilities through *ad hoc* Commission oversight of Comsat's individual investment decisions. This

can be accomplished through Commission review of Comsat's Title II or Title III applications filed with the Commission. Moreover, with respect to Comsat's ability to issue shares of capital stock, to borrow moneys or "to assume any obligation in respect of the securities of any other person", Congress has already mandated under Section 201(c)(8) of the 1962 Satellite Act that Comsat may be authorized to engage in such issuance, borrowing or assumption only upon a Commission finding, in each instance, that the action contemplated is compatible with the public interest and "necessary or appropriate for or consistent with carrying out the purposes and objectives" of the 1962 Satellite Act by Comsat.[32]

109. In those instances where approval under Title II, Title III or Section 201(c)(8) is not required, the only requirement we impose on Comsat at this time is that it must provide the Commission with at least 90 days advance notice of any expenditures related to a competitive venture which would necessitate or result in Comsat having to seek additional debt or equity financing for other corporate activities. The Commission's staff will then have an opportunity to assess the impact on both the ratepayer and on Comsat's ability to meet its INTELSAT/INMARSAT financial obligations. If the Commission, or the Common Carrier Bureau pursuant to delegated authority, takes no action within this period, Comsat may proceed with its plans without prior Commission authorization. We reserve the right, however, to approve such expenditures depending upon the complexity of the issue at hand. Such approval may take more than 90 days. We believe that this requirement will give us sufficient opportunity to assess the impact of parent company support of affiliates and enable us to protect monopoly ratepayers and to insure Comsat's ability to meet its INTELSAT/INMARSAT financial obligations.

IV. Conclusions

110. The issues in this proceeding have focused on Comsat's pursuit of diversified business opportunities through the application of corporate technology and expertise. The paramount reason for Comsat's existence must be fulfillment of its statutory missions as the U.S. representative in INTELSAT and in INMARSAT. Nevertheless, we reaffirm our Comsat Study determination that, as a matter of policy, Comsat should not be foreclosed from applying its corporate technology and expertise to the development of new lines of business which will result in public benefit. Comsat's involvement in diversified satellite-related activities will contribute to the overall development of satellite communications technology in the public interest. However, we also reaffirm our Comsat Study finding that Comsat's involvement in diversified businesses provides opportunities for anticompetitive behavior which require regulatory safeguards. These safeguards involve both structural separation of Comsat's monopoly INTELSAT/INMARSAT activities from its competitive activities and the imposition of certain non-structural measures.

111. We have considered Comsat's response to the proposals set forth in the Comsat Study. We have found Comsat's response to be deficient in several significant areas. However, before we prescribe further structural separation, we believe that Comsat should have an opportunity to remedy the problems we have raised. If Comsat is unable to establish or implement appropriate accounting and information flow control mechanisms, then we must consider whether further structural separation is warranted. Comsat is required to file various reports in response to this order. The Chief, Common Carrier Bureau, is directed to assess the proposals submitted by Comsat which are intended to remedy the problems we have raised. The Bureau should apprise Comsat of any deficiencies warranting its consideration. The Bureau is directed to report back to the Commission within nine months as to what further action may be appropriate, including a recommendation as to what, if any, further structural separation is warranted.

V. Ordering Clauses

112. In view of the foregoing, it is ordered, that, pursuant to Sections 4(i), 4(j), 201–205, 214, 215, 218, 220, 303, 309, and 403 of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 154(j), 201–205, 214, 215, 218, 220, 303, 309, and 403 (1976), Sections 102(c), 201(c), and 401 of the Communications Satellite Act of 1962, as amended, 47 U.S.C. 701(c), 721(c) and 741 (1976), and Section 553(b) of the Administrative Procedure Act, 5 U.S.C. 553(b) (1970):

(1) Comsat shall provide the Commission with 90 days advance notice if it intends to alter the structural separation it has undertaken in response to the Comsat Study as set forth in paragraphs 15–21, *supra;*

(2) Comsat shall report to the Commission and adhere to the directives as set forth herein.

113. It is further ordered that the Chief, Common Carrier Bureau is directed to report back to the Commission within nine months on what further action, if any, is warranted to satisfactorily address the issues raised in this proceeding.

114. It is further ordered, that this proceeding is subject to further order of the Commission.[33]

Federal Communications Commission.

William J. Tricarico,

Secretary.

Appendix A

1. Comments in this proceeding were filed by:

(1) American Broadcasting Companies, Inc. (ABC)
(2) American Satellite Company (ASC)
(3) American Telephone and Telegraph Company (AT&T)
(4) Communications Satellite Corporation (Comsat)
(5) Department of Defense (DOD)
(6) Department of State (State)
(7) Hawaiian Telephone Company (Hawaiian)
(8) ITT World Communications, Inc. (ITT)
(9) Magnavox Government and Industrial Electronics Company (Magnavox)
(10) Maritel, Inc. (Maritel)
(11) National Telecommunications and Information Administration (NTIA)
(12) RCA Global Communications, Inc. (RCA)
(13) Satellite Communications Section, Communications Division, of the Electronic Industries Association (EIA)
(14) Teleconsult, Inc. (Teleconsult)
(15) Western Union International, Inc. (WUI).

2. Reply comments were filed by:

(1) American Broadcasting Company, Inc.
(2) American Telephone and Telegraph Company
(3) Communications Satellite Corporation
(4) Department of Defense
(5) Hawaiian Telephone Company
(6) ITT World Communications, Inc.
(7) Magnavox Government and Electronics Company
(8) RCA Global Communications, Inc.
(9) Western Union International, Inc.

3. Additional pleadings were filed by Magnavox and, also by Comsat jointly

[32] Even though this explicit statutory requirement did not govern our decision in *Computer II*, we have required AT&T to obtain Commission approval as to how it intends to capitalize its separate subsidiary. Our review there extended beyond financial obligations and focuses on preoperational expenses and asset transfers associated with the provision of enhanced service and customer-premises equipment by its separate subsidiary.

[33] Although Section 601(2) applies the Regulatory Flexibility Act of 1980 (RFA) (P.L. 96-354) to rules adopted pursuant to Section 553 of the Administrative Procedure Act, the RFA is inapplicable where, as here, the underlying Notice of Proposed Rulemaking was adopted prior to January 1, 1981. 5 U.S.C. 601 note (1980 Supp.)

with its subsidiary, with respect to COMSAT General's January 19, 1981 letter to the Commission indicating its intention to manufacture and sell shipboard terminals for use in connection with the INMARSAT system. Comsat and COMSAT General filed a response to Magnavox's reply comments and a motion to file such response. Thereafter, Magnavox filed a reply to Comsat's response, a motion to sever the shipboard terminal issue from the other issues in this proceeding, and a motion to issue an order against Comsat directing a halt to its shipboard terminal marketing activity pending a decision in this proceeding.

4. Western Union International filed supplemental comments in which it argued for continued exclusion of Comsat and its competitive subsidiaries from the international retail communications market, and a motion to file such comments. Comsat and ASC filed responses.

Appendix C

Comsat's Application of the Three-Factor Formula

1. Comsat's cost allocation procedures are based on its interpretation of Cost Accounting Standards Board (CASB) methodology. The CASB was established by a 1970 amendment to the Defense Production Act. 50 U.S.C. 2168 (1976). It was empowered to develop cost accounting standards for firms bidding for U.S. Government defense prime contracts. The overall purpose of these standards is to safeguard against excess profits and promote more favorable contract terms for the government. Comsat maintains that through creation of WSD and use of CASB methodology it has limited any opportunity for misallocation of costs and increased the detectability of improper cross-subsidization. It also argues that common costs are minimized by WSD having its own support capabilities.

2. A fundamental requirement of CASB standards is that home office expenses be allocated on the basis of the beneficial or causal relationship between supporting and receiving activities. "Home Office" is defined as an office responsible for directing or managing two or more, but not necessarily all, segments of an organization reporting directly to a home office, and is usually identified with responsibility for profit and/or producing a product or service. A "home office" typically establishes policy for, and provides guidance to the segments of their operations. It usually performs management, supervisory and administrative functions, and may also perform services in support of the operations of the various segments. CASB standards require that home office expenses be allocated directly to specific corporate segments to the maximum extent practicable. Expenses not directly allocated to a specific segment, if significant in amount and in relation to home office expenses, must be grouped in logical and homogeneous expense pools and allocated in accordance with specific procedures. Expenses that cannot be so grouped are to be considered residual expenses and allocated to corporate segments by means of a base representative of the total activity of such segments. One such base is an average of investment, revenue and salary.

3. Comsat uses a budgetary process to estimate entries in the three-factor formula. For 1980, Comsat used the following breakdown as unadjusted entries in the three-factor formula.[1]

[Figures in percent]

	World systems	Comsat general	ERT	Satellite Television Corp.
Revenue	58	25	17	
Property	89	8	3	
Salaries	51	25	23	1
Average	80	15	14	1

It adjusted these percentages to exclude amounts from those organizational units which do not benefit from certain general and administrative service areas to determine its initial 1980 allocation factors for application of the three-factor formula.

	Percent
World System Division	69
COMSAT General	20
ERT	10
Satellite Television	1

4. Comsat applied these allocation factors in the following manner. Comsat's total 1980 operating expenses were $219.1 million. Of this amount, $14.4 million was the home office general and administrative costs apportioned over the entire corporation pursuant to CASB methodology. Of this $14.4 million, Comsat apportioned $3.3 million in one-time expenses and overhead to WSD by direct transfer and $5.0 million in a manner comparable to direct assignment by measuring costs applicable to a corporate segment on the basis of the function performed.[2] WSD's share of home office costs under these methods was $5.9 million. Comsat accumulated the remaining $6.1 million in a residual pool and apportioned this amount among corporate lines of business using the three-factor formula (after making two adjustments). It made an adjustment to the residual pool by adding the Personnel and General Services "cost/service" overheads which also are allocated to general and administrative headquarters functions.[3]

[1] Letter from Comptroller, Communications Satellite Corporation to Acting Chief, Audits Branch, Common Carrier Bureau dated May 1, 1981, Attachment 1 "Summary Description of Cost Allocation Process, April 1981."

[2] Comsat labeled this method "cost/service relationship." This method is used when no direct relationship exists between costs and lines of business. In such a case, Comsat reviews its general and administrative costs to identify, if possible, a meaningful cost/service relationship from which an allocation factor can be derived. Comsat allocated a total of $5.0 million in 1980 on cost/service relationship basis—$2.6 million of which was assigned to WSD. *See* letter from George Skinner, Comptroller, Comsat Corporation; August 26, 1981.

[3] *Id.* Comsat states that the costs of Personnel and General Services are allocated to each unit based upon the headcount in the department served.

	Millions
Residual G & A pool	$6.1
Add: Personnel and General Services allocated to G & A departments	0.8
Total	6.9

It further adjusted the pool to remove certain home office financial functions which do not provide services to ERT (primarily Treasury and Management Systems). According to Comsat, a portion of the pool was then allocated by using a three-factor formula to all units including ERT and the remainder of the adjusted pool was allocated by using a three-factor formula for all units except ERT.

	Millions
To all units	$5.7
To all units, except ERT	1.2
Total residual pool	6.9

WSD's share of the total residual pool was then derived.

	Millions
From all units allocation	$3.8
From all units, except ERT	0.9
Total WSD share	4.7

5. Thus, according to Comsat's application of CASB standards, WSD's share of residual home office expenses was $4.7 million or about 68% of the residual pool. WSD's share of total allocable home office expenses for 1980 was $10.6 million, or about 74% of the total.[4] The remaining $3.8 million was assigned to other corporate segments.

6. Comsat's use of the three-factor formula to apportion residual home office expenses presents both conceptual and specific problems.

7. *Conceptual Problems.* A three-factor formula for the allocation of residual home office expenses can yield distorted results when corporate lines of business within the various corporate segments are at different stages of development. The differences in the maturity of Comsat's various lines of business is reflected in the following comparison of its major corporate segments.

CALENDAR YEAR 1980

[Dollars in thousands]

	Jurisdictional (Intelsat)	Comsat General	ERT	Satellite Television Corp.
Revenues	161,066	85,162	36,506	
Net property	228,362	130,156	9,267	
Operating expenses	87,530	75,771	33,146	2,372

Source: December, 1980 Form 901; December, 1980 Financial Statements of COMSAT General, ERT, Satellite Television Corporation.

8. Distortions may occur when a corporation having mature lines of business with large operating revenues and substantial investment in plant and equipment diversifies into new ventures. In their early stages of development, new ventures are likely to require significant corporate home office general and administrative support as well as executive officer attention. While these new ventures incur salary expenses and other administrative costs, they generally do not have substantial operating revenues. This occurs in later stages of development. Ventures in the early stages of development, however, require significant corporate home office general and administrative support. For a company with new ventures in either stages of development, the use of revenues as an allocative factor will result in more costs being allocated to corporate segments with more mature lines of business. This effect is magnified if those mature segments actually perform many of their own general and administrative support functions rather than obtain them from the corporate home office. As a result, much of the common expense pool will be apportioned for those segments with the more mature businesses and proportionately less to segments with a significant number of developing lines of business. This result may not accurately reflect the extent to which developing businesses rely on corporate home office services.

9. Distortions will be perpetuated as long as the corporation is involved in developing new business ventures while maintaining mature businesses that have comparatively large operating revenues and plant and equipment investment. Arguably, the distortions that result may be remedied as the new business ventures reach maturity — at which time revenue and investment amounts will be such that the formula will more accurately reflect the incursion of common costs over the entire corporation. However, this logic presumes that the new business ventures will become successful. And it ignores the potential that exists in the meantime for misallocation of expense pool costs through the mechanical application of a three-factor formula.

10. *Specific Problems.* Comsat's use of budgeted rather than actual data to estimate entries into the three-factor formula distorts the allocation process. Comsat budgets revenue, property and salary projections at the beginning and middle of the year and uses these budgets for six months. No correction is made at the end of the six-month period for deviations of the budget figures from actual figures. We have noted substantial deviations of this kind in the property, revenue, and salary budgets for 1980. For example, while Comsat budgeted WSD's net property as $283.1 million for 1980, the actual net property shown on Comsat's Form 901, December 1980, was $228.3 million. Similarly, Comsat budgeted $212.2 million for WSD's revenue in 1980, while the Comsat Annual Report shows only $161.1 million of jurisdictional operating revenue for the same year. The differences between actual and budgeted figures appear to have increased the amount of home office costs allocated to WSD for 1980.

11. In addition, Comsat interprets CASB standards so as to exclude substantial capital investments of its subsidiaries from computation of the capital investment factor in the three-factor formula. The CASB defines the capital investment factor as:

> The average net book value of the sum of the segment's tangible capital assets to the total average net book value of such assets of all segments. Property held primarily for leasing to others shall be excluded from the computation. 4 CFR 403.50(c)(1)(iii).

The CASB defines a segment as "[o]ne of two or more divisions, product departments, plants, or other subdivisions of an organization reporting directly to a home office; usually identified with responsibility for profit and/or producing a product or service." The term includes Government-owned, contractor-operated facilities, and joint ventures and subsidiaries (domestic and foreign) in which the organization has a majority ownership. The term also includes those joint ventures and subsidiaries (domestic and foreign) in which the organization has "less than a majority of ownership, but over which it exercises control." 4 CFR 403.40(4).

12. Under the guise of these definitions, Comsat fails to account for most of the tangible assets of COMSAT General in the three-factor formula. Comsat broadly excludes 100% of the assets of the COMSTAR satellite system and 75% of the assets of the MARISAT

[4] According to Comsat, the $10.6 million represents 15% of WSD's total labor-related 1980 expenses. The remaining $61.2 million are costs directly assigned to WSD, coming to a total of $71.8 million in labor-related operating expenses for WDS in 1980.

satellite system. Comsat excludes these tangible capital assets on the theory that they are "property held primarily for leasing to others" under 4 CFR 403.50. We find Comsat's exclusion of its COMSTAR and MARISAT investments to be unreasonable. First, we see no compelling reason for excluding capital investment in assets used by COMSAT General to provide domestic satellite telecommunications services to AT&T and maritime satellite services to the U.S. Navy. COMSAT General owns, either in whole or in part, and is involved in the operation of, the COMSTAR and MARISAT satellite systems. We do not believe that the fact that these services are provided on yearly or long term agreements to a single customer, rather than on a message basis to the general public, is relevant in rationally allocating home office expenses. In its annual reports, Comsat does not treat either the COMSTAR or MARISAT satellites at leased property. To the contrary, both are shown on the balance sheets as property in service without any notation as to a leased nature. In sum, the COMSTAR and MARISAT service agreements are not capital leases and, therefore, they do not fall within the CASB exclusion. (We would also point out that the Commission's Rules and Regulations do not even recognize capital leases for regulatory purposes.) In light of the foregoing, we find that exclusion of COMSAT General's COMSTAR and MARISAT investments from computation of the capital investment factor in the three-factor formula distorts the formula and results in more costs being allocated to Comsat's jurisdictional businesses than warranted.

BILLING CODE 6712-01-M

Proposed Rules

Federal Register
Vol. 47, No. 181
Friday, September 17, 1982

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

OFFICE OF PERSONNEL MANAGEMENT

5 CFR Parts 610, 620, and 630

Hours of Duty; Alternative Work Schedules

AGENCY: Office of Personnel Management.

ACTION: Proposed rulemaking, with request for comments.

SUMMARY: The Congress has passed legislation authorizing the Alternative Work Schedules (AWS) program for another three years. Public Law 95–390, the Federal Employees Flexible and Compressed Work Schedules Act of 1978, previously providing for the AWS experimental program, has been replaced by this non-experimental three-year progrm. The proposed regulations are similar to the regulations covering Pub. L. 95–390, containing only a few technical changes, and will provide necessary direction to the agencies for administration of this law.

DATE: Comments must be received on or before November 16, 1982.

ADDRESS: Comments may be mailed to Mr. Craig B. Pettibone, Assistant Director for Pay and Benefits Policy, P.O. Box 57, Compensation Group, Office of Personnel Management, Washington, D.C. 20044, or delivered to Room 4351, Office of Personnel Management, 1900 E Street, N.W., Washington, D.C.

FOR FURTHER INFORMATION CONTACT: Dr. Raymond J. Kirk, (202) 632–4614.

SUPPLEMENTARY INFORMATION: The three-year experimental program for alternative work schedules, authorized by Pub. L. 95–390, has been replaced by Pub. L. 97–221, the Federal Employees Flexible and Compressed Work Schedules Act of 1982, continuing the alternative work schedules program for another three years from date of enactment of the law. The legislation continues existing flexible and compressed work schedules uninterrupted, unless stated provisions for termination have been met, and also permits the establishment of new programs. The types of schedules permitted have not changed, so agencies will not have to redesign or revise successful existing programs.

There are several technical and substantive changes in the AWS program as a result of the enactment of Pub. L. 97–221.

. (1) Under the proposed regulations, Part 620 of Title 5, Code of Federal Regulations, will be removed and Part 610 will be amended to include a subpart D-Alternative Work Schedules.

(2) Public Law 97–221 increases the maximum credit hour carryover from one pay period to another from 10 hours to 24 hours. An agency may prescribe lower limits within its organization than the maximum allowed by law.

(3) The basic work requirement for part-time employees on an AWS program has been changed to a biweekly requirement of 32–64 hours from a weekly work requirement of 16–32 hours, thereby allowing part-time employees to work compressed and certain flexible schedules from which they were previously excluded under Section 3401(2) of 5 U.S.C.

(4) The method of determining entitlement of pay for part-time employees when relieved or prevented from working on a holiday has been changed based on findings from administration of the procedures in Pub. L. 95–390 regulations. The regulations implementing Pub. L. 95–390 required dividing the number of hours the employee was scheduled to work over the biweekly pay period by the number of days which comprised the employee's tour of duty to determine the pay entitlement for the holiday. Under the proposed regulations, a part-time employee will now be entitled to the number of hours for which he or she is scheduled to work on that day, up to a maximum of 8 hours, the number of hours for which a full-time employee is entitled.

(5) Public Law 97–221 changes the definition of part-time employment. Part-time employees under an alternative work schedule may work fewer than 16 or more than 32 hours in a week so long as they work 32 to 64 hours in a biweekly period. Therefore, the requirement that part-time employees be scheduled to work on at least one day each week in order to accrue leave is no longer applicable under alternative work schedules. Under the proposed regulations, part-time employees whose alternative work schedules have biweekly rather than daily or weekly work requirements will be entitiled to accrue leave even though they may not be scheduled to work in one of the weeks of a pay period.

(6) The 10-hour limit on the accrual of compensatory time for both wage grade and General Schedule employees, stipulated in the regulations under Pub. L. 95–390, has been eliminated. The change was made because OPM found in administering programs provided for under Pub. L. 95–390 that the 10-hour limit was an unnecessary and inhibiting protection against abuse for both agencies and employees. Agencies and individual employees wishing to structure workload accomplishment most efficiently frequently were stymied by the 10-hour limit. Any limit on accrual of compensatory time is left to the discretion of the agency.

E.O. 12291, Federal Regulation

OPM has determined that this is not a major rule as defined under Section 1(b) of E.O. 12291, Federal Regulation.

Regulatory Flexibility Act

I certify that this regulation will not have a significant economic impact on a substantial number of small entities because the regulation concerns the pay and hours of duty of Federal employees only.

List of Subjects in 5 CFR Part 610

Government employees, Holidays, Wages.

Office of Personnel Management.

Donald J. Devine,

Director.

Accordingly, the Office of Personnel Management proposes to amend Title 5 of the Code of Federal Regulations as follows:

PART 610—HOURS OF DUTY

1. Subpart D, §§ 610.401 through 610.408, is added to read as follows:

Subpart D—Flexible and Compressed Work Schedules

Sec.
610.401 General.
610.402 Coverage.
610.403 Definitions.
610.404 Requirement for time-accounting method.
610.405 Holiday for part-time employees on flexible work schedules.
610.406 Holiday for employees on compressed work schedules.
610.407 Premium pay for holiday work for employees on compressed work schedules.
610.408 Leave accural for part-time employees.

Authority: 5 U.S.C. 6133(a).

Subpart D—Flexible and Compressed Work Schedules

§ 610.401 General.

This subpart contains regulatory requirements prescribed by the Office of Personnel Management to implement certain provisions of subchapter II of chapter 61 of title 5, United States Code. These regulations supplement that subchapter and must be read together with it.

§ 610.402 Coverage.

The regulations contained in this subpart apply only to flexible work schedules and compressed work schedules established under subchapter II of chapter 61 of title 5, United States Code.

§ 610.403 Definitions.

In this subpart "Agency" and "Employee" have the meaning given these terms in section 6121 of title 5, United States Code.

§ 610.404 Requirement for time-accounting method.

An agency that authorizes a flexible work schedule or a compressed work schedule under this subpart shall establish a time-accounting method that will provide affirmative evidence that each employee subject to the schedule has worked the proper number of hours in a biweekly pay period.

§ 610.405 Holiday for part-time employees on flexible work schedules.

If a part-time employee is relieved or prevented from working on a day within the employee's scheduled tour of duty that is designated as a holiday by Federal statute or Executive order, the employee is entitled to basic pay with respect to the holiday for the number of hours the employee is scheduled to work on that day, not to exceed 8 hours.

§ 610.406 Holiday for employees on compressed work schedules.

(a) If a full-time employee is relieved or prevented from working on a day designated as a holiday by Federal statute or Executive order, the employee is entitled to basic pay for the number of hours of the compressed work schedule on that day.

(b) If a holiday occurs on a day within a part-time employee's scheduled tour of duty, the employee is entitled to basic pay with respect to that holiday for the number of hours the employee is schedule to work on that day.

§ 610.407 Premium pay for holiday work for employees on compressed work schedules.

An employee on a compressed schedule who performs work on a holiday is entitled to basic pay, plus premium pay at a rate equal to basic pay, for the work that is not in excess of the employee's compressed work schedule for that day. For hours worked on holiday in excess of the compressed work schedule, a full-time employee is entitled to overtime pay under applicable provisions of law and a part-time employee is entitled to straight time pay or overtime pay, depending on whether the excess hours are non-overtime hours or overtime hours.

§ 610.408 Leave accrual for part-time employees.

Under alternative work schedules, a part-time employee for whom there is established a biweekly work requirement is entitled to earn leave in accordance with § 630.303.

PART 620—ALTERNATIVE WORK SCHEDULES EXPERIMENTS [REMOVED]

2. Part 620 is removed from 5 CFR.

PART 630—ABSENCE AND LEAVE

3. The introductory text to § 630.303 is revised to read as follows:

§ 630.303 Part-time employees; earnings.

A part-time employee for whom there has been established in advance a regular tour of duty on one or more days during each administrative work week, or a part-time employee for whom there has been established in advance a biweekly work requirement under an alternative work schedule, and an hourly employee in the field service of the U.S. Postal Service, earn annual leave as follows:

* * * * *

GRAS Status of Sodium Dithionite and Zinc Dithionite

AGENCY: Food and Drug Administration.

ACTION: Tentative final rule.

SUMMARY: The Food and Drug Administration (FDA) is tentatively affirming that sodium dithionite (hydrosulfite) is generally recognized as safe (GRAS) as a direct human food ingredient, and that zinc dithionite (hydrosulfite) is GRAS as an indirect human food ingredient. The safety of these ingredients has been evaluated under the comprehensive safety review conducted by the agency. FDA is publishing this document as a tentative final rule because the agency is not including the level of use for sodium dithionite that appeared in the proposal. The agency is offering an opportunity to comment on this change.

DATE: Comments on the revisions made to the proposed regulation and issued as part of this tentative final rule by November 16, 1982.

ADDRESS: Written comments may be sent to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Hortense S. Macon, Bureau of Foods (HFF-335), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-426-5487.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of January 25, 1980 (45 FR 6117), FDA published a proposal to affirm that sodium dithionite is GRAS for use as a direct human food ingredient, and that zinc dithionite is GRAS for use as an indirect human food ingredient. The proposal was published in accordance with the announced FDA review of the safety of GRAS and prior-sanctioned food ingredients.

In accordance with § 170.35 (21 CFR 170.35), copies of the scientific literature review on dithionites and the report of the Select Committee on GRAS Substances (the Select Committee) on dithionites have been made available for public review in the Dockets Management Branch (address above). Copies of these documents have also been made available for public purchase from the National Technical Information Service, as announced in the proposal.

In addition to proposing to affirm the GRAS status of sodium dithionite and zinc dithionite, FDA gave public notice that it was unaware of any prior-sanctioned food ingredient uses for these substances, other than for the proposed conditions of use. Persons asserting additional or extended uses, in accordance with approvals granted by the U.S. Department of Agriculture or FDA before September 6, 1958, were given notice to submit proof of those sanctions, so that the safety of the prior-sanctioned uses could be determined. That notice was also an opportunity to have prior-sanctioned uses of dithionites recognized by issuance of an appropriate final rule under Part 181—Prior-Sanctioned Food Ingredients (21 CFR Part 181) or affirmed as GRAS under Part 184 or 186 (21 CFR Part 184 or 186), as appropriate.

FDA also gave notice that failure to submit proof of an applicable prior sanction in response to the proposal would constitute a waiver of the right to assert that sanction at any future time.

No reports of prior-sanctioned uses for sodium dithionite and zinc dithionite were submitted in response to the proposal. Therefore, in accordance with the proposal, any right to assert a prior sanction for uses of these ingredients under conditions different from those set forth in this tentative final rule has been waived.

One comment was submitted in response to the proposal. It was cosigned by two trade associations and concerned the level of use of sodium dithionite in the brewing of malt beverages. The comment requested elevation of the current good manufacturing practice (CGMP) level of use of sodium dithionite from 0.002 percent to 0.004 percent. The result was based on recognition of the use of this level by the Bureau of Alcohol, Tobacco and Firearms of the U.S. Department of the Treasury, as documented in a brewing industry circular. The comment reported that levels up to 0.0078 percent had been used in the past.

The agency has considered the request for expanded levels of use of sodium dithionite in the manufacture of malt beverages and finds that the requested levels are consistent with those previously reported by industry to be current good manufacturing practice. The agency observes that sodium dithionite shows relatively low toxicity in dogs and rats, and that it readily decomposes in water to other sulfur-containing substances (sulfate, sulfite and sulfur dioxide, and colloidal sulfur). At the current level of use in the manufacture of beer, these decomposition products do not pose significant health problems. In addition, toxicity from its use in food is also unlikely because beer is the only food in which sodium dithionite is being used. FDA has reconsidered its proposal to list the level of use for this substance. Contrary to the interpretation underlying the comments, FDA has never intended to establish specific limits on the use of sodium dithionite.

Additionally, FDA has decided not to include in the GRAS regulation for sodium dithionite the level of use reported in the National Academy of Sciences/National Research Council food survey for this ingredient. Both the Federation of American Societies for Experimental Biology and the agency have concluded that a large margin of safety exists for this substance, and that a reasonably foreseeable increase in the level of consumption of sodium dithionite will not adversely affect human health. Therefore, the agency has decided to affirm tentatively the GRAS status of sodium dithionite when it is used under current good manufacturing practice conditions of use in accordance with § 184.1(b)(1) (21 CFR 184.1(b)(1)). To make clear, however, that the tentative affirmation of the GRAS status of sodium dithionite is based on the evaluation of limited uses, the regulation sets forth the technical effect and food category that FDA evaluated.

In the judgment of FDA, its decision not to include the level of use does not represent a major departure from the proposed regulation. The level of use included in the proposal was never intended to be a specific limitation. However, to afford interested persons the opportunity to comment on the agency's decision, FDA is issuing this tentative final rule under § 10.40(f)(6) (21 CFR 10.40(f)(6)). FDA will review any comments relevant to the removal of the level of use that it receives within the 60-day comment period and will issue in the **Federal Register** either an announcement that this tentative final rule has become final or an announcement of modification to this regulation made on the basis of the new comments.

In the **Federal Register** of September 7, 1982 (47 FR 39199), FDA proposed to adopt a general policy restricting the circumstances in which it will specifically describe conditions of use in regulations affirming substances as GRAS under 21 CFR 184.1(b)(1) or 186.1(b)(1). The agency proposed to amend its regulations to indicate clearly that it will specify one or more of the current good manufacturing practice conditions of use in regulations for substances affirmed as GRAS with no limitations other than current good manufacturing practice only when the agency determines that is appropriate to do so.

Additionally, FDA is withdrawing the proposed specifications for sodium dithionite in the GRAS affirmation regulation. The agency concludes that it is not appropriate to establish food-grade specifications based on the limited information available to it at this time. The affirmation of sodium dithionite as GRAS without detailed specifications does not pose a significant health problem. FDA will work with the Committee on Codex Specifications of the National Academy of Sciences to develop acceptable specifications for this ingredient. If acceptable specifications are developed and are still considered necessary, the agency will incorporate them into this regulation at a later date. Until any such specifications are developed, FDA has determined that the public health will be adequately protected if commercial sodium dithionite complies with the description in this tentative final rule and is of food-grade purity (21 CFR 170.30(h)(1) and 182.1(b)(3)).

The format of the regulations included in this tentative final rule is different from that in previous GRAS affirmation regulations. FDA has modified paragraph (c) of § 184.1755 and paragraph (b) of § 186.1987 to make clear the agency's determination that GRAS affirmation is based upon current good manufacturing practice conditions of use, which includes the technical effects for both substances and the food category for sodium dithionite. This change has no substantive effect but is made merely for clarity.

The agency has determined pursuant to CFR 25.24(d)(6) (proposed December 11, 1979; 44 FR 71742) that this action is of a type that does not individually or cumulatively have a significant impact on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

FDA, in accordance with the Regulatory Flexibility Act, has considered the effect this tentative final rule would have on small entities including small businesses. Because the tentative final rule imposes no new restrictions on the use of these ingredients, FDA certifies in accordance with section 605(b) of the Regulatory Flexibility Act that no significant economic impact on a substantial number of small entities will derive from this action.

In accordance with Executive Order 12291, FDA has carefully analyzed the economic effects of this tentative final

rule, and the agency has determined that the final rule, if promulgated from this tentative final rule, would not be a major rule as defined by the Order.

List of Subjects

21 CFR Part 182

Generally recognized as safe (GRAS) food ingredients, Spices and flavorings.

21 CFR Part 184

Direct food ingredients, Food ingredients, Generally recognized as safe (GRAS) food ingredients.

21 CFR Part 186

Food ingredients, Generally recognized as safe (GRAS) food ingredients, Indirect food ingredients.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409, 701(a), 52 Stat. 1055, 72 Stat. 1784–1788 as amended (21 U.S.C. 321(s), 348, 371(a))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), it is proposed that Parts 182, 184, and 186 be amended as follows:

PART 182—SUBSTANCES GENERALLY RECOGNIZED AS SAFE

§ 182.90 [Amended]

1. In Part 182, § 182.90 *Substances migrating to food from paper and paperboard products* is amended by removing the entries for "Sodium hydrosulfite" and "Zinc hydrosulfite" from the list of substances.

PART 184—DIRECT FOOD SUBSTANCES AFFIRMED AS GENERALLY RECOGNIZED AS SAFE

2. In Part 184, by adding new § 184.1755 to read as follows:

§ 184.1755 Sodium dithionite.

(a) Sodium dithionite ($Na_2S_2O_4$, CAS Reg. No. 7775–14–6), also referred to as sodium hydrosulfite and sodium hyposulfite, is a fine white power that is extremely soluble in water. It is prepared by the reduction of sulfur dioxide with zinc power followed by alkali treatment or by the reaction of sodium formate, sodium hydroxide, and sulfur dioxide.

(b) FDA is developing food-grade specifications for sodium dithionite in cooperation with the National Academy of Sciences. In the interim, the ingredient must be of a purity suitable for its intended use.

(c) In accordance with § 184.1(b)(1), the ingredient is used in food with no limitation other than current good manufacturing practice. The affirmation of this ingredient as generally recognized as safe (GRAS) as a direct human food ingredient is based upon the following current good manufacturing conditions of use:

(1) The ingredient is used as an antioxidant as defined in § 170.3(o)(3) of this chapter.

(2) The ingredient is used in the manufacture of beer at levels not to exceed current good manufacturing practice.

(d) Prior sanctions for sodium dithionite different from the use established in this section do not exist or have been waived.

PART 186—INDIRECT FOOD SUBSTANCES AFFIRMED AS GENERALLY RECOGNIZED AS SAFE

3. In Part 186, by adding new § 186.1987 to read as follows:

§ 186.1987 Zinc dithionite.

(a) Zinc dithionite (ZnS_2O_4, CAS Reg. No. 7779–86–4), also referred to as zinc hydrosulfite and zinc hyposulfite, is a fine white powder that is extremely soluble in water. It is prepared by the reduction of sulfur dioxide with zinc powder.

(b) In accordance with § 186.1(b)(1), the ingredient is used as an indirect human food ingredient with no limitation other than current good manufacturing practice. The affirmation of this ingredient as generally recognized as safe (GRAS) as an indirect human food ingredient would be based upon the following current good manufacturing conditions of use:

(1) The ingredient is used as a constituent of paper and paperboard used for food packaging.

(2) The ingredient is used at levels not to exceed current good manufacturing practice.

(c) Prior sanctions for zinc dithionite different from the use established in this section do not exist or have been waived.

Interested persons may on or before November 16, 1982, file with the Dockets Management Branch (address above), written comments regarding this tentative final rule. Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: August 30, 1982.

Joseph P. Hile,

Associate Commissioner for Regulatory Affairs.

[Docket Nos. 78N–1990, 78N–2749, and 78N–2799]

Medical Devices; Proposed Rules for Device Classification; Withdrawal of Proposed Rules

AGENCY: Food and Drug Administration.

ACTION: Withdrawal of proposed rules.

SUMMARY: The Food and Drug Administration (FDA) is withdrawing proposed rules related to classification of a gastroenterology-urology device and two radiology devices to eliminate unnecessary regulations.

FOR FURTHER INFORMATION CONTACT: For gastroenterology-urology devices: Norman T. Welford, Bureau of Medical Devices (HFK–420), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 301–427–7750, or

For radiology devices: Lillian L. Yin, Bureau of Medical Devices (HFK–470), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 301–427–7555.

SUPPLEMENTARY INFORMATION: In the Federal Register of January 23, 1981 (46 FR 7562 and 7582) and January 29, 1982 (47 FR 4406), FDA proposed that a gastroenterology-urology device and two radiology devices be classified. These actions were taken as part of the agency's overall implementation of the Medical Device Amendments of 1976 (the amendments) that established a system for the regulation of medical devices for human use. One provision of the amendments, section 513 of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 360c), establishes three categories (classes) of devices, depending on the regulatory controls needed to provide reasonable assurance of their safety and effectiveness: class I (general controls), class II (performance standards), and class III (premarket

approval). The amendments also established a procedure for the agency to promulgate regulations classifying each generic type of device into one of these three classes. Persons who disagree with a final classification of a device may petition for reclassification of the device under Subpart C of Part 860 (21 CFR Part 860). Because the same generic type of device may be used in different medical specialty areas (anesthesiology, neurology, general and plastic surgery, etc.) under different names, the agency continues to consolidate its list of generic types of devices.

Docket No. 78N-1990; Circumcision Instrument

After publication of the proposal (46 FR 7562 and 7582; January 23, 1981) to classify the circumcision instrument as part of the gastroenterology-urology device classification processing, the agency determined that the circumcision instrument is essentially the same as another generic type of device, the circumcision clamp, that has been classified into class II as part of the classification proceeding for obstetrics-gynecology devices (21 CFR 884.4530).

The one comment received on the proposal to classify the circumcision instrument suggested that the device be classified into class I rather than class II as proposed. The comment stated that the skill of the user is more essential to the safe use of the device than its design or construction. FDA partially agrees with the comment regarding the need for skillful users but has determined that the device already has been properly classified into class II. A performance standard is necessary to assure the shape, surface finish, tensile strength, biocompatibility, and adequate labeling of the circumcision clamp.

The agency has determined that the circumcision instrument is essentially the same as the circumcision clamp. Accordingly, to avoid unnecessary device classification regulations, the agency withdraws the January 23, 1981 proposal to classify the circumcision instrument. The administrative record for the January 23, 1981 proposal shall be included in the administrative record (Docket No. 78N-1153) for the proceeding to classify the circumcision clamp into class II.

Docket No. 78N-2749; Radionuclide Generator

After publication of the proposal (47 FR 4406; January 29, 1982) to classify the radionuclide generator as part of the radiology device classification proceeding, the agency determined that the radionuclide generator is regulated as a radiopharmaceutical drug by FDA's National Center for Biologics and Drugs.

In response to the proposal to classify the radionuclide generator into class II as a device, FDA received several comments. The comments stated that the product is regulated appropriately and effectively as a radiopharmaceutical drug product and classification as a medical device is unnecessary. FDA agrees with the comments. The agency advises that a radionuclide generator, such as the Molybdenum-99/Technetium-99m generator, that produces a radionuclide intended for use in medical diagnosis or therapy is regulated as a drug. Accordingly, the agency withdraws the January 29, 1982 proposal classifying radionuclide generators into class II.

Docket No. 78N-2799; Automatic Contrast Medium Injector

After publication of the proposal (47 FR 4435; January 29, 1982) to classify the automatic contrast medium injector as part of the radiology device classification proceeding, the agency determined that the automatic contrast medium injector is essentially the same as another generic type of device, the angiographic injector and syringe, that has been classified into class II as part of the classification proceeding for cardiovascular devices (21 CFR 870.1650).

No comments were received on the proposal to classify the automatic contrast medium injector.

The agency has determined that the automatic contrast medium injector is essentially the same as, or is included in, the angiographic injector and syringe. Accordingly, to avoid unnecessary device classification regulations, the agency withdraws the January 29, 1982 proposal to classify the automatic contrast medium injector. The administrative record for the January 29, 1982 proposal shall be included in the administrative record (Docket No. 78N-1436) for the proceeding to classify the angiographic injector and syringe into Class II.

Therefore, under the Federal Food, Drug, and Cosmetic Act (secs. 513, 701(a), 52 Stat. 1055, 90 Stat. 540-546 (21 U.S.C. 360c, 371(a))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10), the following proposals are withdrawn: Circumcision instrument (Docket No. 78N-1990) published January 23, 1981 and the radionuclide generator (Docket No. 78N-2749) and the automatic contrast medium injector (Docket No. 78N-2799) published January 29, 1982.

Dated: September 9, 1982.

Joseph P. Hile,

Associate Commissioner for Regulatory Affairs.

BILLING CODE 4160-01-M

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

21 CFR Part 1306

Dispensing Controlled Substances in Institutional Practitioner Emergency Rooms

AGENCY: Drug Enforcement Administration, Justice.

ACTION: Notice of proposed rulemaking.

SUMMARY: This is a proposal to amend Part 1306 of Title 21 of the Code of Federal Regulations to permit hospital emergency room personnel to dispense controlled substances to nonpatients when alternative pharmacy services are not available. Only persons authorized to dispense under state law would be permitted to dispense under the proposed regulation.

Under current DEA regulations only physicians, medical or other persons acting as agents or employees under their direct supervision, or pharmacists filling their prescriptions, may dispense controlled substances. A physician may not call a local hospital emergency room and ask that personnel there dispense controlled substances to a patient whom the physician is sending over for that purpose alone. DEA has received numerous comments from members of the medical community and from state regulatory agencies concerning this matter. This proposal seeks to remedy the situation.

DATE: Written comments and objections should be received on or before November 16, 1982.

ADDRESS: Comments and objections should be submitted in quintuplicate to the Acting Administrator, Drug Enforcement Administration, United States Department of Justice, 1405 I Street, Northwest, Washington, D.C. 20537, Attention: DEA Federal Register Representative.

FOR FURTHER INFORMATION CONTACT: Ronald W. Buzzeo, Chief of Operations, Diversion Operations Section, Office of Diversion Control, Drug Enforcement Administration, 1405 I Street, Northwest, Washington, D.C. 20537, Telephone Number (202) 633-1321.

SUPPLEMENTARY INFORMATION: The issue of dispensing controlled

substances in hospital emergency rooms is not specifically addressed by regulation or official policy. Nevertheless, a reading of the relevant statutory and regulatory provisions, 21 U.S.C. 829 and 21 CFR 1306.06, does lead to the conclusion that hospital emergency room personnel cannot administer or dispense controlled substances to anyone other than their patients. This interpretation has restricted, with respect to controlled substances, what is otherwise a common practice in the medical community, particularly in rural areas where 24-hour pharmacy services are not available. To eliminate this problem, DEA proposes to permit hospital emergency room personnel to dispense controlled substances pursuant to prescriptions issued by practitioners outside the hospital, provided that certain conditions are met.

These conditions are as follows: First, the dispensing authorized by this regulation must be done by those permitted to do so under state law. Second, normal pharmacy services must not be available. It is not the intention of this regulation to substitute emergency services for those of pharmacies, where the latter are available to serve the needs of the community. Third, the outside physicians must be properly registered to authorize the dispensing of the medication in question and, finally, all Federal and state requirements for the issuing and filling of prescriptions and the maintenance of records thereon must be followed.

List of Subjects in 21 CFR Part 1306

Drug traffic control, Health professions, Hospitals, Prescription drugs.

Pursuant to Section 3(c)(3) of Executive Order 12291, the Director of the Office of Management and Budget has been consulted with respect to this proposed rulemaking.

This regulatory amendment is intended to allow for the efficient dispensing of controlled substances in certain limited situations in which normal pharmacy services are unavailable. The Acting Administrator has considered the effect that this amendment will have upon entities such as pharmacies, physicians and hospitals, whose interests must be considered under the Regulatory Flexibility Act, 5 U.S.C. 601, et seq. It is anticipated that the impact upon any such entities affected will be positive. Accordingly, the Acting Administrator certifies that there will be no significant impact upon these entities.

PART 1306—PRESCRIPTIONS

Accordingly, pursuant to the authority vested in the Attorney General by 21 U.S.C. 821 and 871 and delegated to the Administrator of the Drug Enforcement Administration by regulations of the Department of Justice (28 CFR 0.100), the Acting Administrator hereby proposes that Title 21 of the Code of Federal Regulations, Part 1306 be amended as follows:

1. Section 1306.06 is revised to read as follows:

§ 1306.06 Persons to fill prescriptions.

A prescription for controlled substances may only be filled by:

(a) A pharmacist acting in the usual course of his professional practice and either employed in a registered pharmacy or employed in a registered institutional practitioner, or

(b) Emergency room medical personnel located within a facility registered as an institutional practitioner, if such personnel are so authorized in the jurisdiction in which they practice, and only if pharmacy services are not available. Controlled substances may only be dispensed pursuant to the prescription order of a properly registered practitioner. Requirements for filling such prescriptions are the same as those required of a pharmacist.

§§ 1306.03, 1306.04, 1306.05, 1306.11, 1306.13, 1306.14, 1306.21, 1306.22, 1306.24, 1306.31, 1306.32 [Amended]

2. In addition to the amendment set forth in 1 above, 21 CFR Part 1306 is amended by removing the word "pharmacist" and inserting, in its place, the phrase "individual authorized under Section 1306.06" in the following places:

(a) 1306.03(b).
(b) 1306.04(a).
(c) 1306.05(a).
(d) 1306.11(a) and (d).
(e) 1306.13(a) and (b).
(f) 1306.14(a) and (b).
(g) 1306.21(a) and (c).
(h) 1306.22(a) and (b).
(i) 1306.24(a) and (b).
(j) 1306.31(a) and (c).
(k) 1306.32(a), (d) and (e).

* * * * *

Dated: September 7, 1982.

Francis M. Mullen, Jr.,

Acting Administrator, Drug Enforcement Administration.

BILLING CODE 4410-09-M

DEPARTMENT OF THE TREASURY

Internal Revenue Service

26 CFR Part 31

[LR-23-82]

Withholding Social Security or Railroad Retirement Tax From Sick Pay; Public Hearing on Proposed Regulations

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of public hearing on proposed regulations.

SUMMARY: This document provides notice of a public hearing on proposed regulations relating to withholding social security or railroad retirement tax from sick pay.

DATES: The public hearing will be held on October 28, 1982, beginning at 10:00 a.m. Outlines of oral comments must be delivered or mailed by October 14, 1982.

ADDRESS: The public hearing will be held in the I.R.S. Auditorium, Seventh Floor, 7400 Corridor, Internal Revenue Building, 1111 Constitution Avenue, NW., Washington, D.C. The outlines should be submitted to the Commissioner of Internal Revenue, Attn: CC:LR:T (LR-23-82), Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: Charles Hayden, of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, 202-566-3935, not a toll-free call.

SUPPLEMENTARY INFORMATION: The subject of the public hearing is proposed regulations under sections 3121 and 3231 of the Internal Revenue Code of 1954. The proposed regulations appeared in the **Federal Register** for Tuesday, July 6, 1982 (47 FR 29266).

The rules of § 601.601(a)(3) of the "Statement of Procedural Rules" (26 CFR Part 601) shall apply with respect to the public hearing. Persons who have submitted written comments within the time prescribed in the notice of proposed rulemaking and also desire to present oral comments at the hearing on the proposed regulations should submit an outline of the comments to be presented at the hearing and the time they wish to devote to each subject by October 14, 1982. Each speaker will be limited to 10 minutes for oral presentation exclusive of time consumed by questions from the panel for the government and answers to these questions.

Because of controlled access restrictions, attendees cannot be admitted beyond the lobby of the Internal Revenue Building until 9:45 a.m.

An agenda showing the scheduling of the speakers will be made after outlines are received from the speakers. Copies of the agenda will be available free of charge at the hearing.

This document does not meet the criteria for significant regulations set forth in paragraph 8 of the Treasury Directive for improving government regulations appearing in the **Federal Register** for Wednesday, Novermber 8, 1978.

By direction of the Commissioner of Internal Revenue.

Fred T. Goldberg, Jr.,

Acting Director, Legislation and Regulations Division.

BILLING CODE 4830-01-M

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 941

Surface Mining and Reclamation Operation Under a Federal Program for South Dakota

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Notice of postponement of public hearing, and extension of public comment period.

SUMMARY: On August 10, 1982 (47 FR 34760), OSM published the proposed Federal program for the State of South Dakota for public comment that would regulate coal exploration and surface coal mining and reclamation operations on non-Federal and non-Indian lands in Washington. OSM is extending the public comment period and postponing the public hearing for the convenience of commenters who have indicated that additional time is needed to adequately review and comment on the proposed Federal Program.

DATES:

Written Comments: The close of the comment period on the proposed Federal program is extended to 5:00 p.m. on October 12, 1982.

Public Hearing: The public hearing on the proposed Federal program has been changed from September 20, 1982, to October 5, 1982.

ADDRESSES:

Written Comments: Hand-delivered to the Office of Surface Mining, Wyoming State Office, Freden Bldg. 935 Pendell Blvd., Mills, Wyoming 82244, or mail to Administrative Record (R&I–25), Office of Surface Mining, Wyoming State Office, P.O. Box 1420, Mills, Wyoming 82644.

Public Hearing: Joe Foss Building, Room 216, Pierre, South Dakota 57201 beginning at 1:30 p.m.

FOR FURTHER INFORMATION CONTACT: James M. Kress, Office of Surface Mining, U.S. Department of the Interior, 1951 Constitution Avenue, N.W., Washington, D.C. 20240, 202–343–5866.

Dated: September 16, 1982.

Donald Willen,

Acting Assistant Director, Program Operations and Inspection, Office of Surface Mining.

BILLING CODE 4310-05-M

30 CFR Part 946

Cancellation of Public Hearing on Modified Portion of the Virginia Permanent Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Cancellation of public hearing.

SUMMARY: The Office of Surface Mining (OSM) is announcing the cancellation of a public hearing on the substantive adequacy of program amendments submitted by Virginia to satisfy 16 conditions imposed by the Secretary of the Interior on the approval of the Virginia permanent regulatory program (hereinafter referred to as the Virginia program) pursuant to the Surface Mining Control and Reclamation Act of 1977 (SMCRA) and 30 CFR 732.17.

This notice cancels the public hearing because no one expressed an interest in attending the hearing by September 10, 1982, but does not alter the time and location at which the Virginia program and proposed amendments are available for public inspection, or the comment period during which interested persons may submit written comments on the proposed program elements.

DATES: The following hearing is cancelled: The public hearing on the proposed amendments to the Virginia program, September 21, 1982.

ADDRESS: Written comments should be mailed or hand delivered to: Ralph Cox, Field Office Director, Virginia Field Office, Office of Surface Mining Reclamation and Enforcement, P.O. Box 626, Big Stone Gap, Virginia 24219.

Copies of the Virginia program, the proposed amendments to the program, a listing of scheduled public meetings, and all written comments are available for review at the OSM Offices and the Office of the State regulatory authority listed below, Monday through Friday 8:00 a.m. to 4:00 p.m., excluding holidays.

Office of surface Mining Reclamation and Enforcement, Room 5315, 1100 "L" Street, NW., Washington, D.C.

Office of Surface Mining Reclamation and Enforcement, Highway 23, South, Big Stone Gap, Virginia 24219

Office of Surface Mining Reclamation and Enforcement, Flannagan and Carroll Streets, Lebanon, Virginia 24266

Virginia Division of Mined Land Reclamation, 620 Powell Avenue, Big Stone Gap, Virginia 24219

FOR FURTHER INFORMATION CONTACT: Ralph Cox, Field Office Director, Virginia Field Office, Office of Surface Mining, P.O. Box 626, Big Stone Gap, Virginia 24219, Telephone: (703) 523–4303.

SUPPLEMENTARY INFORMATION: On August 13, 1982, Virginia submitted promulgated revisions to the Virginia Coal Surface Mining Regulations to satisfy conditions (a), (b), (c), (d), (e), (f), (g), (h), (i), (j), (l), (m), (n), (o), (p) and (s) set by the Secretary in his conditional approval of the Virginia program (Administrative Record No. VA 411). Also, in the August 13, 1982 letter, Virginia submitted proposed revisions to the Virginia Coal Surface Mining Control and Reclamation Act and its regulations which are non-substantive corrections.

On August 30, 1982, notice of opportunity for public hearing on the proposed amendments to the Virginia program, was published in the **Federal Register** (47 FR 38150–38152). The notice stated that any person interested in making an oral or written presentation at the hearing should contact Mr. Cox by September 10, 1982, and that if no person contact Mr. Cox to express an interest in participating in the hearing by the above date, the hearing would be cancelled.

Because no one expressed an interest in attending the hearing by September 10, 1982, the hearing has been cancelled.

While there is no public hearing, interested persons may still submit written comments on the proposed program elements. Written comments not received on or before 4:00 p.m., or September 29, 1982, may not necessarily be considered in the Secretary's decision on whether the proposed amendments are acceptable.

Dated: September 15, 1982.

William B. Schmidt,

Assistant Director, Program Operations and Inspection, Office of Surface Mining.

BILLING CODE 4310-05-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 60

[AD-FRL-2208-5]

Standards of Performance for New Stationary Sources; Metallic Mineral Processing Plants

AGENCY: Environmental Protection Agency (EPA).

ACTION: Amended notice of public hearing and extension of public comment period.

SUMMARY: The public hearing has been postponed 14 days and the end of the public comment period extended 14 days for the proposed new source performance standards for metallic mineral processing plants. This will allow additional time for interested persons to review the background information document, for which there has been a 2-week delay in printing.

DATES: Written comments to be included in the record on the proposed standards must be postmarked no later than November 8, 1982. Persons wishing to present oral testimony must contact EPA by September 30. The public hearing will be held on October 7 beginning at 9:00 a.m.

ADDRESSES: Comments on the proposed standards should be submitted (in duplicate, if possible) to: Central Docket Section (A-130), Attention: Docket Number A-81-03, Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460

The public hearing will be held at the EPA Office of Administration Auditorium, Research Triangle Park, North Carolina. Persons wishing to present oral testimony should notify Ms. Naomi Durkee, Emission Standards and Engineering Division (MD-13), U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711, telephone number (919) 541-5578.

SUPPLEMENTARY INFORMATION: On August 24, 1982, EPA proposed in the **Federal Register** (47 FR 36859) new source performance standards for metallic mineral processing plants. In that notice, EPA announced the date ending the public comment period and the date and location of the public hearing to receive public comment on the proposed standards. This notice amends the date of the public hearing and extends the end of the public comment period.

The background information document has been printed in two volumes because of the length. Volume 1 contains Chapters 1-9 (EPA-450/3-81-009a) and Volume 2 contains the appendices (EPA-450/3-81-009b). Only the first document number was referenced in the August 24 **Federal Register**.

Dated: September 9, 1982.

Kathleen M. Bennett,

Assistant Administrator for Air, Noise, and Radiation.

[FR Doc. 82-25628 Filed 9-16-82; 8:45 am]

BILLING CODE 6560-50-M

40 CFR Part 81

[A-5-FRL 2188-2]

Approval and Promulgation of Implementation Plans; Ohio

AGENCY: Environmental Protection Agency.

ACTION: Proposed rulemaking.

SUMMARY: On January 12, 1982, the State of Ohio submitted a request to revise the attainment status designation for Lucas County, Ohio, relative to the total suspended particulate (TSP) National Ambient Air Quality Standard (NAAQS). The State requested that the TSP primary nonattainment area be reduced in size to include only the City of Toledo, east of the Maumee River and that the remainder of the County be designated attainment. EPA is proposing to approve this designation. The purpose of this notice is to notify the public of this proposed approval and solicit comments on this rulemaking action.

DATE: Comments must be received by October 18, 1982.

ADDRESSES: Copies of the redesignation request and supporting air quality data are available at the following addresses:

Environmental Protection Agency, Region V. Air Programs Branch, 230 S. Dearborn Street, Chicago, Illinois 60604

Ohio Environmental Protection Agency, Office of Air Pollution Control, 361 East Broad Street, Columbus, Ohio 43216

Written comments should be sent to: Gary Gulezian, Chief, Regulatory Analysis Section, Air Programs Branch, Environmental Protection Agency, 230 South Dearborn Street, Chicago, Illinois 60604.

FOR FURTHER INFORMATION CONTACT: Delores Sieja (312) 886-6038.

SUPPLEMENTARY INFORMATION: On January 12, 1982, the State of Ohio submitted a request to revise the attainment status designations for 15 counties relative to the TSP NAAQS. On June 9, 1982 (47 FR 25016) in a notice of final rulemaking, EPA: discussed its criteria for redesignation; discussed the monitoring data submitted by the State to support their 15 county redesignation request; and approved the redesignation request for the 15 counties. The approval included Lucas County in which the TSP primary nonattainment area was reduced in size to include only the City of Toledo, east of the Maumee River and the remainder of the County designated attainment.

In the approval notice, EPA advised the public that it was deferring the effective date of its approval until August 9, 1982. EPA announced that, if by July 9, 1982, it received notice that someone wanted to submit an adverse or critical comment it would withdraw its approval and begin a new rulemaking by proposing the action and establishing a 30 day comment period. EPA published a general notice explaining this special procedure on September 4, 1981 (46 FR 44477).

On July 8, 1982, EPA received notice that a member of the public wished to submit an adverse or critical comment on the approval of the Lucas County designation. Therefore, in accordance with the procedures described above, EPA is today (1) taking final action elsewhere in today's **Federal Register** to withdraw its June 9, 1982, approval of the Lucas County designation (the June 9, 1982, approval of the other 14 counties remains effective); and (2) in this notice is proposing to approve the Lucas County designation. A detailed description of EPA's rationale for proposing approval of the Lucas County designation are found at 47 FR 25016 (June 9, 1982). Interested parties are invited to submit comments on this proposed approval. EPA will consider all comments received within 30 days of publication of this notice.

The Office of Management and Budget has exempted this rule from the requirements of Section 3 of Executive Order 12291.

Under 5 U.S.C. Section 605(b), the Administrator has certified that redesignations do not have a significant economic impact on a substantial number of small entities. (See 46 FR 8709).

BILLING CODE 6560-50-M

INTERSTATE COMMERCE COMMISSION

49 CFR Part 1033

[Service Order 1473 (Sub-1)]

Various Railroads Authorized To Use Tracks and/or Facilities of the Chicago, Rock Island and Pacific Railroad Co., Debtor (William M. Gibbons, Trustee)

AGENCY: Interstate Commerce Commission.

ACTION: Notice of proposed changes in reporting requirements.

SUMMARY: In a decision served January 27, 1982 [47 FR 4261, January 29, 1982], the Commission determined that interim service over lines of the Chicago, Rock Island and Pacific Railroad Company, Debtor (William M. Gibbons, Trustee), should be continued and that the compensation to be paid the Trustee for the use of Rock Island lines should be increased. In addition, the decision established reporting requirements for interim operators under Section 122 of the Rock Island Railroad Transition and Employee Assistance Act (RITEA) relating to the new compensation formula. This notice proposes changes in those reporting requirements and will allow interim operators to annualize their operating results under certain conditions.

The changes proposed should improve the ability of the operator to report results of its operations, increase the equity in the formula used to determine the amount of payments due the Trustee from the interim operator and enhance the prospect of continued rail service over Rock Island lines.

DATE: Information from all parties shall be filed by October 15, 1982.

ADDRESS: Fifteen copies of such documents shall be filed with the Secretary of the Commission, 12th and Constitution Ave. NW., Washington, DC 20423, and a copy served on the Rock Island. Rock Island shall serve a copy of its comments on any respondent providing comments on this notice and which serves its comments on the Rock Island. Each filing with the Commission shall have appearing in the lower left front corner of the envelope in large lettering—RSB–7115.

FOR FURTHER INFORMATION CONTACT: Melvin F. Clemens, Jr., (202) 275–1559.

SUPPLEMENTAL INFORMATION: Under Section 122 of the Rock Island Railroad Transition and Employee Assistance Act (RITEA), Pub. L. 96–254, we have been authorizing a number of carriers to provide service to shippers on Rock Island's lines. This is an interim measure designed, at least in part, to ensure continued transportation service pending the implemention of long-term solutions.

In a notice served September 21, 1981 [46 FR 47101, September 24, 1981], we indicated our intent to consider whether, and for how long, this service over Rock Island lines should be permitted to continue and the compensation formula to be applied, where the Rock Island and operating carriers have not agreed on a compensation amount, and requested carriers and interested parties to comment in this regard.

By decision served January 27, 1982, in Service Order No. 1473 and Service Order No. 1495 [1] [47 FR 4261, January 29, 1982], the Commission established a policy with respect to how long service over the Rock Island should be permitted to continue under the authority of Section 122 of RITEA. Further, the decision established the compensation to be paid to the Trustee for the use of Rock Island lines where interim operators utilizing those lines do not have a lease or purchase agreement with the Trustee. Essentially, the decision assured shippers that Section 122 authorities would continue without interruption at least until the Trustee provides the Commission and the public with a definitive statement describing his plans for carrying out the court ordered liquidation; and established the Rock Island Formula which replaced the Frisco Formula and set a new base for calculating compensation to be paid to the Trustee for the use of his property. The new formula assures the Trustee of a substantially higher rental rate, including additional compensation from net revenues derived from interim operations. The formula also establishes a reporting requirement to determine whether net revenues exist. It is this reporting, and the ultimate determination of net revenues, which is the subject of this notice.

Specifically, interim operations utilizing the Rock Island Formula are required to report to the Trustee and the Commission monthly by the 15th day following the month in which operations are performed. That reporting consists of an analysis of expenses and revenues solely attributable to the interim operations, sufficient to determine how much, if any, net revenue exists. The Rock Island Trustee is entitled to 14.4 percent of any net revenues as part of the monthly rental.

Two problems associated with the reporting have been brought to the Commission's attention by interim operators. The first is the reporting time limit. Reports are due to the Trustee and the Commission by the 15th day following the month in which operations are performed. The Norfolk and Western Railway (NW) has indicated that it is unable to complete its revenue accounting by the 15th of the month as required. Its reports thus far have reflected operational activity, in terms of numbers of cars handled, but do not reflect the associated revenues. NW further indicates that it will supplement its reports with a revenue statement as soon as possible. However, to date none has been received. Cadillac and Lake City Railway (CLK), another operator utilizing the Rock Island Formula, has been reporting reasonably on schedule. A third carrier, the North Central Oklahoma Railway (NCOK), is utilizing the formula for a portion of its operation, and to date has reported on its operations only through April 1982.

The interim operations of these three carriers are substantially different in scope and nature. In the case of NW, it is far more difficult for that carrier to identify the interim operations which are integrated into its system operations in terms of revenues and expenses solely attributable to those operations. Thus the delayed reporting. In the case of CLK and NCOK which both serve grain producing areas, the interim operations are their only rail operations and, therefore, a total accountability is considerably easier.

The second and more serious problem brought to our attention is that of coping with the seasonal nature of business on certain of the lines. In essence, an interim operator (most of which serve short unconnected line segments) may have to sustain a substantial loss in an off-season in order to survive until a more profitable time. This is especially true for operators in the grain producing areas.

With this in mind, it is proposed that carriers should be able to annualize revenues and expenses. To the extent that this occurs, the negative earnings or loss could be carried forward, thus permitting a more balanced revenue

[1] By April 30, 1982, the authorities for the Burlington Northern and Fort Worth and Denver in Service Order No. 1495 were substantially reduced and the order was vacated [47 FR 19150, May 4, 1982] and the remaining authorizations were included in Appendix A of Service Order No. 1473 at Items 26 and 27 [47 FR 18509, April 30, 1982].

picture and greater equity in applying the revenue related part of the formula. As proposed, the reporting requirement would remain unchanged with respect to traffic volumes, however, the accounting for the percentage of net revenues (14.4 percent) would occur annually. This annualization of expenses would be permitted only when operations are continuous and rental payments under the formula are current, and when a showing is made to the Commission's Railroad Service Board that there is a need for such authorization.

The changes proposed should improve the ability of the operator to report results of its operations, increase the equity in the formula used to determine the amount of payments due the Trustee from the interim operator and enhance the prospect of continued rail service over Rock Island lines. Further, we propose that the reporting requirements become a permanent part of the Service Order No. 1473, which authorizes the interim operations over the Rock Island.

In order for us to reexamine the reporting requirements, the various carriers utilizing the Rock Island Formula and authorized to provide service on the Rock Island in Forty-first Revised Service Order No. 1473 and any interested person (particularly shippers and communities on the lines) should file comments or provide information and argument relating to the necessity and appropriateness of such a change.

Fish and Wildlife Service

50 CFR Part 17

Endangered and Threatened Wildlife and Plants: Notice of Withdrawal of an Expired Proposal for Listing of the U.S. Populations of the Thick-Billed Parrot, Short-Tailed Albatross, Margay Cat, and Jaguar

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of withdrawal of an expired proposed rule.

SUMMARY: As amended November 10, 1978, the Endangered Species Act mandates withdrawal of proposed rules to list species which have not been finalized within 2 years of the proposal. The time limit has expired for the proposed rulemaking regarding the U.S. populations of the thick-billed parrot (*Rhynchopsitta pachyrhynchus*), short-tailed albatross (*Diomedea albatrus*), margay cat (*Felis wiedii*), and jaguar (*Pantheraonca*), which were orginally proposed for listing as Endangered on July 25, 1980 (45 FR 49844–47). The listing of the U.S. population of the ocelot (*Felis pardalis*), which was proposed at the same time as the above species, was finalized on July 21, 1982 (47 FR 31670–72). This notice constitutes the formal withdrawal of the listing proposal for the U.S. populations of the thick-billed parrot, short-tailed albatross, margay cat, and jaguar.

FOR FURTHER INFORMATION CONTACT: Mr. John L. Spinks, Jr. Chief, Office of Endangered Species, U.S. Fish and Wildlife Service, Washington, D.C. 20240 (703/235–2771).

SUPPLEMENTARY INFORMATION:

Background. Section 4(f)(5) of the Endangered Species Act of 1973, as amended November 10, 1978, states that:

> A final regulation adding a species to any list published pursuant to Subsection (c) shall be published in the **Federal Register** not later than 2 years after date of publication of notice of the regulation proposing listing under paragraph (B)(i)(1). If a final regulation is not adopted within such 2 year period, the Secretary shall withdraw the proposed regulation and shall publish notice of such withdrawal in the **Federal Register** not later than 30 days after the end of such period.

The 2 year time limit on proposals which was established in this section has expired for the U.S. populations of the thick-billed parrot, short-tailed albatross, margay cat, and jaguar, which were proposed for listing on July 25, 1980 (45 FR 49844–47). In accordance with Section 4(f)(5), this notice officially withdraws the proposed rulemaking to list these species as Endangered.

This notice is issued under the authority contained in the endangered Species Act of 1973, as amended (16 U.S.C. 1531 et seq.; 87 Stat. 884; 92 St. 3751).

The primary author of this notice is John L Paradiso, Office of Endangered Species, U.S. Fish and Wildlife Service, Washington, D.C. 20240 (703/235–1975).

Dated: August 13, 1982.

G. Ray Arnett,

Assistant Secretary for Fish and Wildlife and Parks.

BILLING CODE 3410-02-M

Rural Electrification Administration

Soyland Power Cooperative, Inc.; Final Environmental Impact Statement

AGENCY: Rural Electrification Administration (REA), USDA.

ACTION: Availability of Final Environmental Impact Statement (FEIS).

SUMMARY: REA has prepared a FEIS in connection with potential financing assistance to Soyland Power Cooperative, Inc., (Soyland) P.O. Box A1606, Decatur, Illinois 62525, for construction of a 450 MW coal-fired generating facility, 138 kV and 345 kV transmission lines and related facilities.

FOR FURTHER INFORMATION CONTACT: Mr. Frank W. Bennett, Director, Power Supply Division, Rural Electrification Administration, 14th St., and Independence Ave., SW., Washington, D.C. 20250.

SUPPLEMENTARY INFORMATION: In connection with the project described above, REA has prepared a FEIS. The FEIS may be examined during regular business hours at the following locations and at local libraries in the project area.

Rural Electrification Administration, USDA, 14th St., and Independence Ave., SW., Room 0230, Washington, D.C.

Soyland Power Cooperative, 675 Imboden Drive, Decatur, Illinois

The alternatives considered in the FEIS are no action, purchasing additional power from existing sources, alternative energy sources, energy conservation and load management, alternative transmission line corridors, and alternative construction methods.

The alternative sites for the project were Pike County near Florence, Wabash County near Mt. Carmel and Randolph County near Evansville, all in Illinois.

The preferred alternative is the construction of a coal-fired generating facility to be located on the west bluffs of the Illinois River in Pike County, south of Florence, Illinois. The project consists of a 450 MW (net) coal-fired generating unit scheduled for operation in summer of 1987 and ancillary facilities. The proposed electric transmission associated with this proposed plant involves two 345 kV lines and one 138 kV line. One of the 345 kV lines and the 138 kV line would be constructed on a double circuit tower line 16.1 km (10 mi) east from the Pike County Site to an existing substation in the vicinity of Winchester, Illinois, where the 138 kV line will terminate. The 345 kV line will continue east for another 72.4 km (45 mi) and terminate at an existing substation at Pawnee, Illinois. The second 345 kV line will be constructed 25.7 km (16 mi) north from the Pike County Plant to a proposed substation in the vicinity of Chambersburg, then west for 61.1 km (38 mi) to a proposed substation in the area southeast of Quincy, Illinois, and then 17.7 km (11 mi) southwest to terminate at an existing substation at Palmyra, Missouri.

Transmission line structures may be constructed in the floodplains of the Mississippi and Illinois Rivers. REA has concluded that there is not practicable alternative to crossing the floodplain. Further information concerning this matter can be found in the FEIS.

Copies of the FEIS have been sent to various Federal, State and local agencies as outlined in the Council on Environmental Quality regulations. The FEIS is available upon request to: Mr. Frank W. Bennett, Director, Power Supply Division, at the address above.

Final REA action concerning the project, including any release of funds for construction, will be taken only after REA has reached satisfactory conclusions with respect to its environmental effects and compliance with the National Environmental Policy Act of 1969, and with other environmentally related statutes,

regulations, Executive Orders, and Secretary's Memoranda.

The Federal assistance program is listed in the Catalog of Federal Domestic Assistance as 10.850—Rural Electrification Loans and Loan Guarantees.

Dated: September 13, 1982.

Jack Van Mark,

Acting Administrator.

BILLING CODE 3410-15-M

Office of the Secretary

White or Irish Potato Production

AGENCY: Foreign Agricultural Service, USDA.

ACTION: Estimates with respect to 1982 white or Irish potato production Headnote 2 of Subpart A of Part 8 Schedule 1 of the Tariff Schedules of the United States (TSUS) provides that, if for any calendar year the production in the United States of white or Irish potatoes, including seed potatoes, according to the estimate of the Department of Agriculture made as of September 1, is less than 21 billion pounds, an additional quantity of potatoes equal to the amount by which such estimated production is less than 21 billion pounds shall be added to the 45 million pounds for which duty at 36.5 cents per 100 pounds is provided by TSUS item 137.25 for the 12-month period beginning September 15.

The estimate of the Department of Agriculture, made as of September 1, 1982, is that for the calendar year 1982 the production in the United States of white or Irish potatoes, including seed potatoes, will exceed 21 billion pounds.

Issued at Washington, D.C. this 14th day of September 1982.

Richard E. Lyng,

Acting Secretary of Agriculture.

BILLING CODE 3410-01-M

Soil Conservation Service

Berry-Smith Group Irrigation RC&D Measure, South Carolina

AGENCY: Soil Conservation Service.

ACTION: Notice of a finding of no significant impact.

SUMMARY: Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969; the Council on Environmental Quality Guidelines (40 CFR Part 1500); and the Soil Conservation Service Guidelines (7 CFR Part 650); the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for the Berry-Smith Group Irrigation RC&D Measure, Edgefield County, South Carolina.

FOR FURTHER INFORMATION CONTACT: George E. Huey, State Conservationist, Soil Conservation Service, 1835 Assembly Street, Room 950, Columbia, South Carolina 29201, telephone (803-765-5681).

SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates that the project will not cause significant local, regional, or national impacts on the environment. As a result of these findings, George E. Huey, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The project concerns a plan for the construction of a small water supply reservoir to provide irrigation. The planned works of improvement include a small water supply reservoir.

The Notice of a Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various Federal, State, and local agencies and interested parties. A limited number of copies of the FONSI are available to fill single copy requests at the above address. Basic data developed during the environmental assessment are on file and may be reviewed by contacting George E. Huey.

No administrative action on implementation of the proposal will be taken until 30 days after the date of this publication in the **Federal Register**.

(Catalog of Federal Domestic Assistance Program No. 10.901, Resource Conservation and Development Program. Office of Management and Budget Circular A-95 regarding State and local clearinghouse review of Federal and federally assisted programs and projects is applicable)

G. E. Huey,

State Conservationist.

The due date for answers, conforming application, or motions to modify scope are set forth below for each application. Following the answer period the Board may process the application by expedited procedures. Such procedures may consist of the adoption of a show-cause order, a tentative order, or in appropriate cases a final order without further proceedings.

Date filed	Docket No.	Description
Sept. 7, 1982	40966	Bidzy Ta Hot' Aana, Inc. d/b/a/ Tanana Air Service, c/o John B. Patterson, Strachan, Kelly & Patterson, 310 K Street, Suite 407, Anchorage, Alaska 99501. Application of Bidzy Ta Hot' AAna d/b/a/ Tanana Air Service, pursuant to Section 401 of the Act and Subpart Q of the Board's Procedural Regulations, requests issuance of a certificate of public convenience and necessity which would authorize it to engage in scheduled air transportation of passengers, property, and mail as follows between: Fairbanks Nenana Manley Hot Springs Minto Rampart Tanana Conforming Applications, motions to modify scope, and Answers may be filed by October 5, 1982.
Sept. 7, 1982	40970	Altair Airlines, Inc., c/o James M. Burger, Shaw, Pittman, Potts & Trowbridge, Suite 900 South, 1800 M Street, N.W., Washington, D.C. 20036. Application of Altair Airlines, Inc. pursuant to Section 401 of the Act and Subpart Q of the Board's Procedural Regulations requests authority to provide scheduled foreign air transportation of persons, property, and mail as follows: Between a point or points in the United States and a point or points in the Bahamas.

Date filed	Docket No.	Description
		Conforming Applications, motions to modify scope, and Answers may be filed by October 5, 1982.
Sept. 8, 1982	40972	Western Air Lines, Inc., P.O. Box 92005, World Way Postal Center, Los Angeles, California 90009. Application of Western Air Lines, Inc. pursuant to Section 401 of the Act and Subpart Q of the Board's Procedural Regulations, requests an amendment of its certificate of public convenience and necessity for Route 152 authorizing it to engage in foreign air transportation with respect to persons, property and mail: Between the terminal point Los Angeles, California, and the coterminal points Puerto Vallarta and Mazatlan, Mexico. Western requests it be authorized to integrate this new authority with its other Mexico authority on Route 152 subject, to such route authority integration being consistent with applicable local regulations and bilateral agreements. Conforming Applications, motions to modify scope, and Answers may be filed by October 6, 1982.
Sept. 8, 1982	40975	Northern Air Cargo, Inc., c/o William J. Miller, Bill Miller Associates, Suite 301, 1341 G Street, N.W., Washington, D.C. 20005. Application of Northern Air Cargo, Inc. pursuant to Section 401 of the Act, and Subpart Q of the Board's Procedural Regulations requests a certificate of public convenience and necessity for an indefinite term to engage in unrestricted interstate air transportation of property and mail in all-cargo service within the State of Alaska between and among the terminal point Adak, Alaska, the 160 intermediate points listed in Exhibit B (Proposed Service Area) and the terminal point Yakutat, Alaska. Conforming Applications, motions to modify scope, and Answers may be filed by October 6, 1982.
Sept. 9, 1982	40976	Transamerica Airlines, Inc., c/o Jeffrey A. Manley, Burwell, Hansen, Manley & Peters, 1706 New Hampshire Avenue, N.W., Washington, D.C. 20009. Conforming Application of Transamerica Airlines, Inc. pursuant to Section 401 of the Act and Subpart Q of the Board's Procedural Regulations, with respect to the application of Capitol Air, Inc., Docket 40921. Transamerica requests issuance of a certificate of public convenience and necessity to engage in foreign air transportation of persons, property and mail, as follows: Between the terminal point Miami, Florida, and the terminal point London, United Kingdom. Answers may be filed by September 23, 1982.
Sept. 10, 1982	40979	Continental Air Lines, Inc. and Texas International Airlines, Inc., c/o Emory N. Ellis, Fulbright & Jaworski, 1150 Connecticut Avenue, N.W., Washington, D.C. 20036. Joint Application of Continental Air Lines, Inc. and Texas International Airlines, Inc. apply to the Board for coextensive certificates for routes between the United States and Mexico. Conforming Applications, motions to modify scope, and Answers may be filed by October 8, 1982.
Sept. 7, 1982	40822	Northeastern International Airways, Inc., c/o James Lawrence Smith, 1600 S.E. 10th Terrace, Ft. Lauderdale, Florida 33316. Amendment No. 1 to the Application of Northeastern International Airways, Inc. amends its application in the following respects: 1. Section I, paragraph 3 is amended to read as follows: "Northeastern hereby requests authorization to provide scheduled air transportation of persons, property and mail (a) 'Between the terminal point Albany, New York and the terminal point Montreal, Canada; and (b) 'Between the terminal point Erie, Pennsylvania and the terminal point Toronto, Canada' subject to such terms, conditions and limitations as the Board may find required by the Public Convenience and Necessity." 2. Section I, paragraph 9 is amended as follows: "The number 1,600,000 is deleted and the number 1,554,400 is inserted in lieu thereof." 3. Section II, paragraph 3 is amended as follows: "The number 1,600,000 is deleted and the number 1,554,400 is inserted in lieu thereof." 4. Revised Exhibit A is substituted for Exhibit A. Answers may be filed by October 5, 1982.

Phyllis T. Kaylor,
Secretary.

[Order 82-9-40]

Fitness Determination of Grand Canyon Airlines, Inc.; Order To Show Cause

AGENCY: Civil Aeronautics Board.

ACTION: Notice of Commuter Air Carrier Fitness Determination—Order 82-9-40, Order To Show Cause.

SUMMARY: The Board is proposing to find that Grand Canyon Airlines, Inc. is fit, willing, and able to provide commuter air carrier service under section 419(c)(2) of the Federal Aviation Act, as amended, and that the aircraft used in this service will conform to applicable safety standards. The complete text of this order is available, as noted below.

DATES: Responses: All interested persons wishing to respond to the Board's tentative fitness determination shall serve their responses on all persons listed below no later than October 4, 1982, together with a summary of the testimony, statistical data, and other material relied upon to support the allegations.

ADDRESSES: Responses or additional data should be filed with Special Authorities Division, Room 915, Civil Aeronautics Board, Washington, D.C. 20428, and with all persons listed in Attachment A to Order 82-9-40.

FOR FURTHER INFORMATION CONTACT: Ms. Anne W. Stockvis, Bureau of Domestic Aviation, Civil Aeronautics Board, 1825 Connecticut Avenue, NW., Washington, D.C. 20428, (202) 673-5088.

SUPPLEMENTARY INFORMATION: The complete text of Order 82-9-40 is available from the Distribution Section, Room 100, 1825 Connecticut Avenue, NW., Washington, D.C. 20428. Persons outside the metropolitan area may send a postcard request for Order 82-9-40 to that address.

By the Civil Aeronautics Board, September 14, 1982.

Phyllis T. Kaylor,
Secretary.

Consolidated Decision on Applications for Duty-Free Entry of Scientific Articles

The following is consolidated decision on applications for duty-free entry of scientific articles published pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-561, 80 Stat. 897) and the regulations issued pursuant thereto (15 CFR Part 301 as amended by 47 FR 32517).

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review between 8:30 a.m. and 5:00 p.m. in Room 2097, Statutory Import

Programs Staff, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

Decision: Applications Denied. Applicants have failed to establish that instruments or apparatus of equivalent scientific value to the foreign articles for such purposes as the foreign articles are intended to be used are not being manufactured in the United States.

Reasons: The requirements for the resubmission of applications that have been denied without prejudice to resubmission are contained in § 301.5(e) of the regulations. Each of the applicants has failed to resubmit its application within the specified time period. Pursuant to § 301.5(e)(4), this failure shall result in a denial of the application.

In accordance with § 301.5(f), notice of these decisions is forwarded to the **Federal Register** for publication.

Duke University; Decision on Application for Duty-Free Entry of Scientific Instrument

The following is a decision on an application for duty-free entry of a scientific instrument pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89–651, 80 Stat. 897) and the regulations issued pursuant thereto (15 CFR Part 301 as amended by 47 FR 32517).

A copy of the record pertaining to this decision is available for public review between 8:30 AM and 5:00 PM in Room 2097, Statutory Import Programs Staff, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

Docket No. 82–00192. Applicant: Duke University, Marine Laboratory, Pivers Island, Beaufort, NC 28516. Article: Lipoprep Apparatus, 110 Volts AC, 60 Hz. Manufacturer: Dianorm-Gerate, West Germany. Intended use of article: See Notice on page 27389 in the **Federal Register** of June 24, 1982.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, is being manufactured in the United States. Reasons: The foreign instrument provides for the formation of uniform vesicles of different sizes in the range of 25 to 200 nanometers and uniform composition. The Department of Health and Human Services advises in its memorandum dated July 20, 1982 that (1) the capability of the foreign instrument described above is pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, which is being manufactured in the United States.

BILLING CODE 3510–25–M

Initiation of Antidumping Investigation; Shop Towels of Cotton From the People's Republic of China

AGENCY: International Trade Administration, Commerce.

ACTION: Initiation of antidumping investigation.

SUMMARY: On the basis of a petition filed in proper form with the United States Department of Commerce, we are initiating an antidumping investigation to determine whether shop towels of cotton from the People's Republic of China (PRC) are being, or are likely to be, sold in the United States at less than fair value. We are notifying the United States International Trade Commission (ITC) of this action so that it may determine whether imports of this merchandise are materially injuring, or threatening to materially injure, a United States industry. If the investigation proceeds normally, the ITC will make its preliminary determination on or before October 11, 1982, and we will make ours on or before January 31, 1983.

EFFECTIVE DATE: September 17, 1982.

FOR FURTHER INFORMATION CONTACT: Lou Apple, Office of Investigation, Import Administration, International

Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230, telephone (202) 377–3962.

The Petition

On August 24, 1982, we received a petition from counsel for Milliken and Company on behalf of all United States producers of shop towels. In compliance with the filing requirements of § 353.36 of the Commerce Regulations (19 CFR 353.36), the petition alleges that imports of the subject merchandise from the PRC are being, or are likely to be, sold in the United States at less than fair value within the meaning of section 731 of the Act, and that these imports are materially injuring, or are threatening to materially injure, a United States industry. The allegation of sales at less than fair value is supported by comparisons of United States prices (based on quoted prices adjusted for freight, brokerage fees, insurance, bonding, cartage and U.S. tariffs) on sales of this merchandise from the PRC with a constructed value based on U.S. production costs adjusted to match the estimated PRC cost structure.

Initiation of Investigation

Under section 732(c) of the Tariff Act of 1930, as amended (19 U.S.C. 1673a) (the Act), we must determine, within 20 days after the petition is filed, whether it sets forth the allegations necessary for the initiation of an antidumping investigation and whether it contains information reasonably available to the petitioner supporting the allegations. We have examined the petition filed by the industry, and we have found that it meets the requirements of section 732(b) of the Act. Therefore, we are initiating an antidumping dumping investigation to determine whether shop towels from the People's Republic of China are being, or are likely to be, sold at less than fair value in the United States. If our investigation proceeds normally, we will make our preliminary determination by February 1, 1983.

Scope of the Investigation

The merchandise covered by this investigation is shop towels of cotton from the People's Republic of China which are currently classified under item number 366.2740, and which falls within Textile and Apparel Category 369, of the Tariff Schedules of the United States (TSUS). Shop towels are generally used for wiping in industrial and commercial facilities. Although some towels in the market may contain as much as 40% acrylic in a cotton-acrylic blend, virtually all shop towels imported from the PRC are made from 100% woven cotton fabric.

Notification to ITC

Section 732(d) of the Act requires us to notify the United States International Trade Commission of this action and to provide it with the information we used to arrive at this determination. We will notify the ITC and make available to it all non-privileged and non-confidential information. We will also allow the ITC access to all privileged and confidential information in our files, provided it confirms that it will not disclose such information either publicly or under an administrative protective order without the written consent of the Deputy Assistant Secretary for Import Administration.

Preliminary Determination By ITC

The ITC will determine within 45 days whether there is a reasonable indication that imports of shop towels from the People's Republic of China are materially injuring, or are likely to materially injure, a United States industry. If its determination is negative, this investigation will terminate; otherwise, it will proceed according to the statutory procedures.

Gary N. Horlick,

Deputy Assistant Secretary for Import Administration.

Stainless Steel Plate From Sweden; Final Results of Administrative Review of Antidumping Finding

AGENCY: International Trade Administration, Commerce.

ACTION: Notice of final results of administrative review of antidumping finding.

SUMMARY: On April 19, 1982, the Department of Commerce published the preliminary results of its administrative review of the antidumping finding on stainless steel plate from Sweden. The review covers one of the two known exporters of this merchandise to the United States, Uddeholm/Nyby Uddeholm AB, and the period January 1, 1980 through May 31, 1980.

Interested parties were given an opportunity to submit oral or written comments. One domestic party submitted written comments. As a result of our analysis of the comments we have made no changes in the final results from those contained in our preliminary results of review.

EFFECTIVE DATE: September 17, 1982.

FOR FURTHER INFORMATION CONTACT: Valerie Newkirk or Susan Crawford, Office of Compliance, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230 (202-377-3601).

SUPPLEMENTARY INFORMATION:

Background

On June 8, 1973, a dumping finding with respect to stainless steel plate from Sweden was published in the Federal Register as Treasury Decision 73-157 (38 FR 15079). On April 19, 1982, the Department of Commerce ("the Department") published in the Federal Register the preliminary results of its administrative review of the finding (47 FR 16666). The Department has now completed that administrative review.

Scope of the Review

Imports covered by the review are shipments of stainless steel plate which is commonly used in scientific and industrial equipment because of its resistance to staining, rusting and pitting. Stainless steel plate is currently classifiable under item 607.9005 of the Tariff Schedules of the United States Annotated (TSUSA).

The review covers one of the two known firms exporting stainless steel plate to the United States, Uddeholm/Nyby Uddeholm AB ("Uddeholm"), and the period January 1, 1980 through May 31, 1980. The Department will cover shipments by Uddeholm in earlier periods, unreviewed by the Treasury Department, in a subsequent review.

Analysis of Comments Received

Interested parties were given an opportunity to submit oral or written comments on the preliminary results. We received the following written comments from the petitioner, Jessop Steel Company ("Jessop").

(1) Comment: Jessop informed the Department that the notice of preliminary results erroneously stated that Uddeholm no longer shipped stainless steel plate to the United States.

Position

The Department agrees with this statement. The Department corroborated that Uddeholm continues to make infrequent shipments on a special order basis.

(2) Comment: Jessop contended that the adjustment to the U.S. price for "landed costs" was understated.

Position

The Department is satisfied, based on its receipt of supporting documentation, that Uddeholm submitted accurate information.

(3) Comment:

Jessop contended that adjustments to the U.S. price for selling expenses were understated and that comparable home market selling expenses were overstated.

Position

The Department has no evidence, and none has been submitted by Jessop, to support the above allegation.

Final Results of the Review

As a result of our analysis of the comments received, the final results of our review are the same as those presented in our preliminary reults of review, and we determine that no margins exist for sales during the review period.

Because there are no margins for the review period, the Department shall not require a cash deposit of estimated antidumping duties, as provided for in § 353.48(b) of the Commerce Regulations, on shipments of stainless steel plate manufactured and exported by Uddeholm entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice. For any shipment from a new exporter not covered in this administrative review, unrelated to the covered firm, a cash deposit shall be required at the rate for the other exporter, Avesta Jernverks Aktiebolag, of 5.22 percent. These deposit requirements shall remain in effect until publication of the final results of the next administrative review. The Department intends to begin the next administrative review immediately after publication of this notice. The Department encourages interested parties to review the public record and submit applications for protective orders, if desired, as early as possible after the Department's receipt of the information during the next administrative review.

This administrative review and notice are in accordance with sections 751(a)(1) of the Tariff Act of 1930 (19 U.S.C. 1675(a)(1)) and § 353.53 of the Commerce Regulations (19 CFR 353.53).

Gary N. Horlick,

Deputy Assistant Secretary for Import Administration.

September 10, 1982.

[FR Doc. 82-25658 Filed 9-16-82; 8:45 am]

BILLING CODE 3510-25-M

State University of New York at Stony Brook; Decision on Application for Duty-Free Entry of Scientific Instrument

The following is a decision on an application for duty-free entry of a scientific instrument pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89–651, 80 Stat. 897) and the regulations issued pursuant thereto (15 CFR Part 301 as amended by 47 FR 32517).

A copy of the record pertaining to this decision is available for public review between 8:30 AM and 5:00 PM in Room 2097, Statutory Import Programs Staff, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Docket No. 82–00126. Applicant: State University of New York at Stony Brook, Stony Brook, N.Y. 11794. Article: Temperature-Jump Spectrophotometer System. Manufacturer: Dialog, Gesellschaft Fur Digital-Analoge Datentechnik GMBH, West Germany. Intended Use of Article: See Notice on page 15819 in the **Federal Register** of April 13, 1982.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign instrument, for such pruposes as this instrument is intended to be used, is being manufactured in the United States. Reasons: The foreign instrument provides a sensitivity of 10^{-5} to 10^{-4} absorbance units and a response time of one to two microseconds. The Department of Health and Human Services advises in its memorandum dated June 10, 1982 that (1) the capabilities of the foreign instrument described above are pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, which is being manufactured in the United States.

The following is a decision on an application for duty-free entry of a scientific instrument pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89–651, 80 Stat. 897) and the regulations issued pursuant thereto (15 CFR Part 301 as amended by 47 FR 32517).

A copy of the record pertaining to this decision is available for public review between 8:30 AM and 5:00 PM in Room 2097, Statutory Import Programs Staff, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, DC. 20230.

Docket No. 82–00190. Applicant: University of Hawaii at Manoa, Procurement and Property Management Office, Bachman Hall Annex #3, 2444 Dole Street, Honolulu, Hawaii 96822. Article: Miniature Propeller Flowmeter. Manufacturer: Delft Hydraulic Laboratory, The Netherland. Intended Use of Article: See Notice of page 27389 in the **Federal Register** of June 24, 1982.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, is being manufactured in the United States. Reasons: The foreign instrument provides for the measuring of rapidly varying currents in a wave flume and current direction (positive and negative). The National Bureau of Standards advises in its memorandum dated August 5, 1982 that (1) the capabilities of the foreign instrument described above are pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign instrument, for such purposes as this instrument is intended to be used, which is being manufactured in the United States.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials)

Richard M. Seppa,

Director, Statutory Import Programs Staff.

BILLING CODE 3510-25-M

National Oceanic and Atmospheric Administration

Civil Remote Sensing Satellites; Request for Information and Notice of Meeting

AGENCY: National Oceanic and Atmospheric Administration, Commerce.

ACTION: Request for Information/Notice of meeting.

SUMMARY: The Secretary of Commerce is requesting the views of private industry with regard to the nation's civil remote sensing satellites. A request for information was published in the *Commerce Business Daily* on September 10, 1982.

DATE: A conference for industry will be held at 9:30 a.m. on September 17, 1982.

ADDRESS: Room 4830 of the Herbert C. Hoover Building (formerly the Commerce Building), 14th and Constitution Avenue, N.W., Washington, D.C.

FOR FURTHER INFORMATION CONTACT: Dr. John H. Mc Elroy, Assistant Administrator for Satellites, National Earth Satellite Service, National Oceanic and Atmospheric Administration, Washington, D.C. 20233 (202–763–5240).

SUPPLEMENTARY INFORMATION: Preamble to *Commerce Business Daily* Notice. It is the policy of this Administration to seek commercialization of Governmental activities which are not uniquely Governmental in nature since private enterprise is the primary source of our national economic strength.

The United States Government currently operates civil satellite systems to collect and disseminate remotely sensed weather and land satellite data. This data is used by numerous departments and agencies to perform Government services and is used by the private sector to extract information valuable in that sector. Civil satellite remote sensing is an activity which has a potential for substantially greater commercialization. Private entities have expressed interest in providing the remotely sensed satellite data that is needed by the Government and non-Government users on a commercial basis. The Land Remote Sensing Advisory Committee is currently soliciting other expressions of interest from the private sector for ownership and/or operation.

While it is the current policy of the Administration to seek prompt commercialization of land satellite remote sensing and to retain the civil

weather satellites in the Government, that policy will be reexamined if commercialization of both systems is shown to produce cost savings to Federal agencies.

The Secretary of Commerce is examining two issues with regard to the nation's civil remote sensing satellites:

1. What is the best mechanism to implement the current policy of transfer of civil land remote sensing systems (LANDSAT) to the private sector as soon as possible?

2. Should the Administration consider simultaneously private sector transfer of both civil weather and land remote sensing systems? (At this time, Administration policy is that civil weather satellite systems should remain in the Government.)

To assist in the process, the Secretary is requesting that the views of private industry be obtained. These views will be analyzed by the Administration and its advisory committee. This committee includes private sector representatives. Based in part on the results of this process, it is planned that a formal Request for Proposals will be prepared.

Private sector representatives are invited to present their views and expressions of interest on ownership and/or operation of the land and weather satellites and the likelihood of Government savings in either mode and the mechanisms for transfer of these systems to the private sector. All or part of the information provided will be treated as confidential to the extent permitted by law. Offerors should clearly mark those pages of their response that contain proprietary information. The response may include both, either, or any part of either system. The desired information includes:

1. A statement of the recommendations and rationale for transfer of all or any part of these satellite systems.

2. A discussion of the technical and business aspects of any proposed transfer, with particular emphasis on continuity of service and the cost savings to the Government.

3. A description of the terms and conditions that are necessary for a successful transfer. This should include, but not necessarily be limited to:

a. Any desirable or undesirable Government regulation.

b. Any need for legislation.

c. Use of Government facilities, ground stations, and equipment.

d. Services to be provided to the Government and public.

e. Time frame in which transfer is considered feasible.

4. A description of the proposed remote sensing system and its capabilities (area of coverage, spatial resolution, sensor frequency bands, interval between repeat coverages of a ground site, etc.), including plans regarding direct transmission of data of foreign ground stations and distribution of data to international and domestic customers.

5. Anticipated evolutaion of new or improved sensing capabilities under the proposed transfer, and recommendations for a means to assure that evolution in any contractual or regulatory vehicle.

6. Response to foreign competition and its effects.

7. Potential for commercial international joint ventures in remote sensing and their implications in the areas of export control and national security.

8. If transfer is recommended for all or part of the civil weather satellite systems, information should be supplied on:

a. Assumption of command and control by the Department of Defense in emergencies.

b. Effect of providing selected priority service to defense needs when required.

c. Feasibility and savings associated with combining weather and land satellite functions (space and/or ground segment), and recommendation.

d. Use of existing Government facilities, ground stations, and equipment inventory.

e. Use of existing industry facilities, ground stations, and equipment inventory.

f. Proposed criteria for launching replacement satellites and selection of orbital parameters.

g. Weather satellite service costs under the proposed transfer to permit comparisons with current costs.

h. A statment of the pricing and data distribution practice (domestically and internationally) that would be employed for weather data.

i. Intended approach to the evolution of sensor systems still in an R&D stage, such as the VAS on the geostationary weather satellites.

j. Approach to be used with foreign-supplied instruments, such as the ARGOS and SSU on the polar-orbiting weather satellites.

k. Approach to respond to the National Weather Service priorities for severe storm data (National Severe Storms Forecast Center in Kansas City and National Hurricane Center in Miami) and for major forecast operations (National Meteorological Center in Camp Springs, Maryland).

A briefing package on civil remote sensing satellites has been prepared and interested parties may obtain it from Mr. Robert L. Birchfield, Director of Resources and Management Services, National Earth Satellite Service/NOAA, Washington, D.C. 20233. His telephone number is (301) 763-2690. Firms planning to attend the conference should notify Mr. Robert L. Birchfield of their intent and the number of persons attending.

Offerors should submit 25 copies of their response to Dr. John H. McElroy, Assistant Administrator for Satellites, National Earth Satellite Service/NOAA, Washington, D.C. 20233, no later than October 22, 1982. This request for information does not commit the Government to pay any costs incurred for the preparation of a response.

Queries may be addressed to either of the above.

This request for information is not subject to the normal clearance functions required in Sec. 3506(c)(5) of P.L. 96-511 (Paperwork Reduction Act).

John H. McElroy,

Assistant Administrator for Satellites, National Oceanic and Atmospheric Administration.

BILLING CODE 3510-22-M

Travel and Tourism Administration

Travel and Tourism Advisory Board; Notice of Meeting

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. (App. 1976) notice is hereby given that the Travel and Tourism Advisory Board of the U.S. Department of Commerce will meet on October 7, 1982, at 10:45 a.m., in Room 5859 of the Main Commerce Building, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

Established March 19, 1982, the Travel and Tourism Advisory Board consists of 15 members, representing the major segments of the travel and tourism industry and state tourism interests, and includes one member of a travel labor organization, a consumer advocate, an academician and a financial expert.

Members advise the Secretary of Commerce on matters pertinent to the Department's responsibilities to accomplish the purpose of the National Tourism Policy Act (Pub. L. 97-63), and provide guidance to the Assistant Secretary for Tourism marketing in the preparation of annual marketing plans. A detailed agenda will be published in the **Federal Register** in advance of the meeting.

A limited number of seats will be available to observers from the public and the press. The public will be permitted to file written statements with

the Committee before or after the meeting. To the extent time is available, the presentation of oral statements is allowed.

Christine Hathaway, Committee Control Officer, United States Travel and Tourism Administration, Room 1865, U.S. Department of Commerce, Washington, D.C. 20230 (telephone: 202–377–0136) will respond to public requests for information about the meeting.

Peter McCoy,

Under Secretary for Travel and Tourism, Department of Commerce.

BILLING CODE 3510-11-M

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

Procurement List 1982, Proposed Additions

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Proposed additions to procurement list.

SUMMARY: The Committee has received proposals to add to Procurement List 1982 commodities to be produced by and a service to be provided by workshops for the blind and other severely handicapped.

Comments must be received on or before: October 20, 1982.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, Crystal Square 5, Suite 1107, 1755 Jefferson Davis Highway, Arlington, Virginia 22202.

FOR FURTHER INFORMATION CONTACT: C. W. Fletcher, (703) 557–1145.

SUPPLEMENTARY INFORMATION:

This notice is published pursuant to 41 U.S.C. 47(a)(2), 85 Stat. 77. Its purpose is to provide interested persons an opportunity to submit comments on the possible impact of the proposed actions.

If the Committee approves the proposed additions, all entities of the Federal Government will be required to procure the commodities and service listed below from workshops for the blind or other severely handicapped.

It is proposed to add the following commodities and service to Procurement List 1982, November 12, 1981 (46 FR 55740):

Class 7520

Stand, Calendar Pad
7520–00–162–6156
(GSA Regions 4 through 10)

Class 8455

Scarf, Branch of Service, Camouflage
8455–01–078–0745

Class 8465

Binding Assembly, Snowshoe Universal
8465–00–965–2175

SIC 7349

Janitorial Service
Scotia Depot Complex
Buildings 2, 3, 12, 13, 14, 22
Scotia, New York

C. W. Fletcher,

Executive Director.

BILLING CODE 6820-33-M

Procurement List 1982; Additions

AGENCY: Committee for Purchase from the Blind and Other Severely Handicapped.

ACTION: Additions to Procurement List.

SUMMARY: This action adds to Procurement List 1982 commodities to be produced by workshops for the blind and other severely handicapped.

EFFECTIVE DATE: September 17, 1982.

ADDRESS: Committee for Purchase from the Blind and Other Severely Handicapped, Crystal Square 5, Suite 1107, 1755 Jefferson Davis Highway, Arlington, Virginia 22202.

FOR FURTHER INFORMATION CONTACT: C. W. Fletcher, (703) 557–1145.

On May 21, 1982, July 9, 1982, and March 19, 1982, the Committee for Purchase from the Blind and Other Severely Handicapped published notices (47 FR 22141, 47 FR 29870, and 47 FR 11918) of proposed additions to Procurement List 1982, November 12, 1981 (46 FR 55740).

After consideration of the revelant matter presented, the Committee has determined that the commodities listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46–48c, 85 Stat. 77.

Accordingly, the following commodities are hereby added to Procurement List 1982:

Class 6532

Gown, Hospital
6532–00–104–9895

Class 7530

Jacket, Filing, Wallet
7530–00–285–2915

Class 8105

Coin Bags
Size 9 (11 x 17¼")
8105–00–NSH–0005 (1 cent)
8105–00–NSH–0006 (5 cents)
8105–00–NSH–0008 (unmarked)
Size 1 (12¼ x 19")
8105–00–NSH–0009 (10 cents)
8105–00–NSH–0010 (25 cents)
8105–00–NSH–0011 (50 cents)
8105–00–NSH–0012 (unmarked)
(50% of the Government's requirement for the above items)

C. W. Fletcher,

Executive Director.

BILLING CODE 3910-01-M

Department of the Army

Board of Visitors, United States Military Academy; Open Meeting

In accordance with Section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), announcement is made of the following meeting.

Name of committee: Board of Visitors, United States Military Academy
Date of meeting: 4–6 November 1982
Place of meeting: West Point, New York
Time: At West Point:
2000–2300, 4 November, Board Discussions (Hotel Thayer)

0630–1530, 5 November, Board Discussions (Bldg 600)
0800–1030, 6 November, Board Discussions (Cadet Library)
1100–1130, 6 November, Attend Cadet Review (The Plain)
1130–1700, 6 November, Attend Army-Air Force Football Game Activities (Michie Stadium)

Proposed agenda: Inquire into the optional academic majors program; the preparation of Graduates to meet initial leadership challenges to include a report from the Leadership Development Committee; excellence in athletics, the Command Operating Budget and other matters that the Board decides to consider. The Board will also draft conclusions and recommendations for their Report to the President.

All proceedings are open. For further information, contact COL D. P. Tillar, Jr., United States Military Academy, West Point, New York, telephone (914) 938–4723/2785.

For the Board of Visitors.

D. P. Tillar,

Col. GS, Executive Secretary, USMA Board of Visitors.

BILLING CODE 3710-08-M

Medical Research and Development Advisory Committee, Subcommittee on Medical Entomology; Partially Closed Meeting

In accordance with Section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), announcement is made of the following Subcommittee meeting:

Name of committee: Army Medical Research and Development Advisory Committee, Subcommittee on Medical Entomology.
Date of meeting: October 18–19, 1982.
Time and place: 0630 hrs, Conference Room US Army Medical Research Institute of Infectious Diseases, Fort Detrick, Frederick, MD.

Proposed agenda: This meeting will be open to the public from 0630 to 1330 hrs on October 18, for the administrative review and discussion of the scientific research program of the Medical Entomology Branch, Walter Reed Army Institute of Research. Attendance by the public at open sessions will be limited to space available.

In accordance with the provisions set forth in Section 552b(c)(6), US Code, Title 5 and Section 10(d) of Pub. L. 92–463, the meeting will be closed to the public from 1330 to 1630 hrs on October 18, and from 0900 to 1200 hrs on October 19, for the review, discussion and evaluation of individual programs and projects conducted by the U.S. Army Medical Research and Development Command, including consideration of personnel qualifications and performance, the competence of individual investigators, medical files of individual research subjects, and similar items, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Dr. Howard Noyes, Associate Director for Research Management, Walter Reed Army Institute of Research, Bldg. 40, Room 1111, Walter Reed Army Medical Center, Washington, DC 20012 (202/576–2436) will furnish summary minutes, roster of Subcommittee members and substantive program information.

Harry G. Dangerfield,

Colonel, MC, Deputy Commander.

Medical Research and Development Advisory Committee, Subcommittee on Bacterial Diseases; Partially Closed Meeting

In accordance with Section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), announcement is made of the following Subcommittee meeting:

Name of committee: Army Medical Research and Development Advisory Committee, Subcommittee on Bacterial Diseases.
Date of meeting: October 25–26, 1982.
Time and place: 0630 hrs, Room 3092, Walter Reed Army Institute of Research, Washington, DC.

Proposed agenda: This meeting will be open to the public from 0630 to 1330 hrs on October 25, for the administrative review and discussion of the scientific research program of the Bacterial Diseases Branch, Walter Reed Army Institute of Research. Attendance by the public at open sessions will be limited to space available.

In accordance with the provisions set forth in Section 552b(c)(6), US Code, Title 5 and Section 10(d) of Pub. L. 92–463, the meeting will be closed to the public from 1330 to 1630 hrs on October 25, and from 0900 to 1200 hrs on October 26 for the review, discussion and evaluation of individual programs and projects conducted by the U.S. Army Medical Research and Development Command, including consideration of personnel qualifications and performance, the competence of individual investigators, medical files of individual research subjects, and similar items, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Dr. Howard Noyes, Associate Director for Research Management, Walter Reed Army Institute of Research, Bldg., 40, Room 1111, Walter Reed Army Medical Center, Washington, DC 20012 (202/576–2436) will furnish summary minutes, roster of Subcommittee members and substantive program information.

Defense Nuclear Agency

Membership of the Defense Nuclear Agency Performance Review Boards

AGENCY: Defense Nuclear Agency, DOD.

ACTION: Notice of membership of the Defense Nuclear Agency Performance Review Boards.

SUMMARY: This notice announces the appointment of the members of the Performance Review Boards (PRBs) of the Defense Nuclear Agency. The publication of PRB membership is required by 5 U.S.C. 4314(c)(4). The Performance Review Boards provide fair and impartial review of Senior Executive Service performance appraisals and make recommendations regarding performance and performance awards to the Director, Defense Nuclear Agency.

EFFECTIVE DATE: The effective date of service for appointees of the DNA PRBs is September 14, 1982.

FOR FURTHER INFORMATION CONTACT: J. David Woodend, Chief, Civilian Personnel Management Division (MPCV), Defense Nuclear Agency, Washington, D.C. 20305, (202) 325–7591/92.

SUPPLEMENTARY INFORMATION: The names and titles of the members of the DNA PRBs are set forth below. All are DNA officials unless otherwise identified.

Board 1

Carew, Paul H., Comptroller.
Myers, Lawrence S., Jr., Scientific Advisor to Director, Armed Forces Radiobiology Research Institute (AFRRI).
Reid, John E., Director, Acquisition Managaement Directorate.
Brown, S. E., Brig. Gen., USAF, Commander, Field Command.
Vaughn, John R., Comptroller, Defense Mapping Agency (DMA).
Levine, Robert H., Assistant Deputy Director, Defense Communications System Directorate, Defense Communications Agency (DCA).
Dellas, Ray W., Staff Director, Office of Small and Disadvantaged Business Utilization, Defense Logistics Agency (DLA).

Board 2

Sevin, Eugene, Assistant to Deputy Director (Science & Technology) for Experimental Research.
Mansfield, John E., Assistant to Deputy Director (Science & Technology) for Theoretical Research.
Knowles, Cyrus P., Assistant to Deputy Director (Science & Technology) for Testing.
Soper, Gordon K., Scientific Assistant to the Deputy Director (Science & Technology).
Rubenstein, Morton J., Technical Programs Manager, Nuclear Assessment Directorate.
Slaughter, John I., Chief, Aerospace Systems Division, Shock Physics Directorate.
Linger, Don A., Chief, Strategic Structures Division, Shock Physics Directorate.
Fitz, Harold C., Jr., Chief, Atmospheric Effects Division, Radiation Directorate.
Brown, S. E., Brig. Gen., USAF, Commander, Field Command.
Vaughn, John R., Comptroller, Defense Mapping Agency (DMA).
Levine, Robert H., Assistant Deputy Director, Defense Communications System Directorate, Defense Communications Agency (DCA).

Office of the Secretary

Privacy Act of 1974; Amendments to Notices for Systems of Records

AGENCY: Defense Department.

ACTION: Amendments to notices for systems of records.

SUMMARY: This notice makes several administrative amendments to the notices for five systems of records maintained by the Office of the Secretary of Defense (OSD). The changes to the five system notices are set forth below, followed by the system notices as amended in their entirety.

DATES: These amendments shall become effective on October 18, 1982.

FOR FURTHER INFORMATION CONTACT: Norma Cook, Privacy Act Officer, ODASD(A), Room 5C–315, The Pentagon, Washington, D.C. 20301, Telephone: 202/695–0970.

SUPPLEMENTARY INFORMATION: The Office of the Secretary of Defense (OSD) system notices for systems of records subject to the Privacy Act of 1974, Title 5 United States Code, Section 552a (Pub. L. 93–579; 88 Stat. 1896 *et seq.)* have been published in the **Federal Register** at:

FR Doc. 82–674 (47 FR 2544) January 18, 1982
FR Doc. 82–3758 (47 FR 6462) February 12, 1982
FR Doc. 82–21537 (47 FR 34441) August 9, 1982
FR Doc. 82–23920 (47 FR 38574) September 1, 1982

The proposed amendments are not within the purview of the provisions of 5 U.S.C. 552a(o) of the Act which requires the submission of an altered system report.

M. S. Healy,
OSD Federal Register Liaison Officer, Department of Defense.

Second line, delete "Review."

Notification procedure:

Third line, delete "Review."

Record access procedures:

Third line, delete "Review."

Third last line, remove "(PR)" and insert "(P)."

DGC 04

SYSTEM NAME:

Industrial Personnel Security Clearance Case Files.

SYSTEM LOCATION:

Primary System and Decentralized Segments—Active case files, Directorate for Industrial Security Clearance Review (DISCR), Office of the Assistant General Legal Counsel, OAGC(LC), Office of the General Counsel (OGC), Department of Defense, (DoD), Pentagon, Washington, D.C. 20301.

Inactive case files, U.S. Army Investigative Records Repository, Ft. Meade, Maryland 20755.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Government contractor employees whose industrial security clearance cases were referred to the OAGC(LC), DISCR, for adjudication under Executive Order 10865, as amended by Executive Order 10909, as implemented by DoD

Directive 5220.6; these cases pertain only to the individuals who cannot be granted clearance by the Defense Industrial Security Clearance Office (DISCO), Defense Investigative Service (DIS), Columbus, Ohio.

CATEGORIES OF RECORDS IN THE SYSTEM:

Alphabetical card index files for identification and location of case files within the DISCR.

Individual case files include general correspondence relating to case, investigative reports prepared by various investigative agencies conducting security clearance investigations. DISCO referral recommendation, determinations of the Screening Board, Examiners and the Appeal Board, DISCR, with implementing documents, including but not limited to, Statement of Reasons (SOR) issued to individual, his answer to the SOR, transcripts of hearings and exhibits.

DISCR case correspondence files maintained by case number, including case correspondence initiated by DISCR, with individuals, employers, attorneys, congressmen and investigative agencies.

Additionally, correspondence files include copies of Screening Board determinations and Appeal Board determinations from July 1967 to date in order to furnish an index and register of administrative determinations under the Freedom of Information Act (FOIA), Pub. L. 93–502, § 552.a(2)(C) of Title 5, United States Code.

All final decisions in cases arising under DOD Directive 5220.6, since 1967, are published and indexed for public perusal. Names of applicants, witnesses, sources of information, etc., and identifying information, relative to those persons are deleted from these records to protect the privacy of persons involved.

DISCR Reader Files including DISCR-initiated correspondence, Screening Board determinations and Appeal Board determinations.

Decentralized Reader File segments of copies of Examiner's determinations and Appeal Board determinations to Department Counsel's Office and Screening Board, DISCR.

Chronological correspondence file of letters from assigned trial counsel to individuals, attorneys or counsel, and other Federal offices for hearing arrangements.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Executive Order 10865, "Safeguarding Classified Information Within Industry," dated February 20, 1960, as amended by Executive Order 10909, dated January 17, 1961, and DOD Directive 5220.6, "Industrial Personnel Security Clearance Program" dated December 20, 1976.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The purpose and use of this record system is to determine whether it is clearly consistent with the national interest to grant or continue an individual's access to classified information.

Internal users, uses and purposes:

DISCO, DIS, initiates investigation at request of employer and may grant but not deny clearance.

OAGC(LC), DISCR, determines individual's eligibility for security clearance and notifies the individuals, and DISCO, DIS, of final decision.

U.S. Army, JAG, U.S. Army, Claims Services, Ft. Meade, Maryland 20755 in cases where claims for reimbursement are requested by an applicant.

External users, uses, and purposes:

Department of Justice in cases where individual seeks Federal court review of adverse administration determinations under the Industrial Security Clearance Program.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

File folders, vertical file cards.

RETRIEVABILITY:

Active files alphabetically by name or by case number.

Inactive files by individual's name, date and place of birth, and Social Security Number (SSN).

SAFEGUARDS:

Records are stored in security combination locked file containers accessible only to DISCR authorized personnel.

RETENTION AND DISPOSAL:

Destroyed 25 years after file is no longer active.

Primary alphabetical card index files are retained permanently in Central Office, DISCR. Alphabetical Index Cards for case control purposes in sub-offices, i.e., Screening Board, Department Counsel's Office and Appeal Board are retained during active processing of cases and then destroyed.

All Reader Files are destroyed within 60 days of issue.

SYSTEM MANAGER(S) AND ADDRESS:

The Assistant General Legal Counsel, AGC(LC), Directorate for Industrial Security Clearance Review (DISCR), Pentagon, Washington, D.C. 20301.

NOTIFICATION PROCEDURE:

Information may be obtained from: OAGC(LC), DISCR, Room 3D282, Pentagon, Washington, D.C. 20301. Telephone: 202–697–6350.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to OAGC(LC), DISCR, Room 3D282, Pentagon, Washington, D.C. 20301.

Written requests should include the individual's full name, date and place of birth, Social Security Number (SSN), and notarized signature.

The records requested and available, subject to statutory exemptions, may be made available to the record subject for review at the following locations:

Directorate for Industrial Security Clearance Review (DISCR), Office of the General Counsel, DoD, Room 3D282, Pentagon, Washington, D.C. 20301

Administrative Director, Eastern Hearing Office, DISCR, Office of the General Counsel, DoD, 26 Federal Plaza, Room 36–112, New York, New York 10007

Administrative Director, Western Hearing Office, DISCR, Office of the General Counsel, DoD, 9920 S. LaCienega Blvd., Suite 1026, Inglewood, California 90301

Administrative Director, Washington Hearing Office, DISCR, Office of the General Counsel, DoD, 710 Commonwealth Building, 1300 Wilson Blvd., Arlington, Virginia 22209

Fees for copies must be borne by the record subject or his authorized representative requesting the review of the records.

CONTESTING RECORD PROCEDURES:

The Agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned are contained in 32 CFR Part 286b and OSD Administrative Instruction No. 81.

RECORD SOURCE CATEGORIES:

Defense Investigative Service (DIS); Office of the Secretary of Defense (OSD); Defense Industrial Security Clearance Office (DISCO); U.S. Army Investigative Records Repository; record subjects; attorneys or representatives.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Parts of this record system may be exempt under 5 U.S.C. 522a(k)(5).

DGC 05

SYSTEM NAME:

Administrative Files on Active Psychiatric Consultants to Department of Defense (DoD).

SYSTEM LOCATION:

Directorate for Industrial Security Clearance Review (DISCR), Office of the Assistant General Legal Counsel, OAGC (LC), Office of the General Counsel, DoD.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Psychiatric consultants who have entered into agreement with the Department of Defense to conduct psychiatric examinations of individuals applying for industrial security clearance for access to classified information required in the performance of their work for classified Government contractors.

CATEGORIES OF RECORDS IN THE SYSTEM:

Records filed alphabetically by last name of psychiatrist, consisting of correspondence concerning agreement to conduct psychiatric examinations requested by the Government; and initiation and confirmation of security clearance issued to psychiatrists.

Current list of active DoD psychiatric consultants.

Alphabetical card index file for identification and address of active psychiatric consultants.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

DoD Directive 5220.6, "Industrial Personnel Security Clearance Program," December 20, 1976; Executive Order 10865, February 20, 1960, and Executive Order 1090, January 17, 1961.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The purpose of this system is to maintain a record of active psychiatric consultants available to conduct psychiatric examinations of individual applicants for industrial personnel security clearance in convenient geographical areas.

Internal users, uses, and purposes:

Psychiatric consultants having active professional service agreements with and having been granted security clearance by the Department of Defense (DoD) are used by DISCR, OAGC(LC), and Defense Industrial Security Clearance Office (DISCO), Defense Investigative Service, (DIS), in processing requests for industrial personnel security clearance of individuals.

External users, uses, and purposes:

See Office of the Secretary of Defense (OSD) Blanket Routine Uses at the head of this Component's published system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders, vertical file cards.

RETRIEVABILITY:

Alphabetically by surname.

SAFEGUARDS:

Records are stored in security combination locked file cabinets accessible only to DISCR authorized personnel.

RETENTION AND DISPOSAL:

Destroy six months after agreement between consultant and DoD has been terminated.

SYSTEM MANAGER(S) AND ADDRESS:

The Assistant General Legal Counsel, AGC(LC), Directorate for Industrial Security Clearance Review, Pentagon, Washington, D.C. 20301.

NOTIFICATION PROCEDURE:

Information may be obtained from: OAGC(LC), DISCR, Room 3D282, Pentagon, Washington, D.C. 20301, Telephone: 202-697-8350.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to OAGC(LC), DISCR, Room 3D282, Pentagon, Washington, D.C. 20301.

Written requests should include the individual's full name, date and place of birth, and notarized signature.

The records requested may be made available to individuals for review at the following location: DISCR, OAGC(LC), Room 3D282, Pentagon, Washington, D.C. 20301.

CONTESTING RECORD PROCEDURES:

The Agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned are contained in 32 CFR Part 286b and OSD Administrative Instruction No. 81.

RECORD SOURCE CATEGORIES:

Copy of Letter of Consent (for security clearance), DISCO Form 560, and correspondence with individual psychiatrists.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

DPA&E 02

SYSTEM NAME:

Administrative Files for Office of the Director, Program Analysis and Evaluation.

SYSTEM LOCATION:

Office of the Director, Program Analysis and Evaluation, Pentagon, Washington, D.C. 20301.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All current and former military and civilian personnel employed by or assigned to PA&E since 1965.

Current and some past applicants or prospects for civilian or military jobs.

Some contractor personnel.

Other DoD or outside personnel currently or previously assigned, or under consideration, to provide support or work with PA&A.

CATEGORIES OF RECORDS IN THE SYSTEM:

System contains individual application forms; biographical data; employment history; professional and military experience; schooling and academic records; performance effectiveness data; honors; awards and decorations; security forms; security clearances; security violations publications; training and career development information; telephone rosters; certain financial interest and medical history data; information used to evaluate individuals for employment, promotion, reassignment, training, retention and awards; job descriptions; letters of commendation or appreciation; overtime pay records; travel orders; certain travel vouchers; retirement application papers; tenure data; next employment information; savings bond and Combined Federal Campaign (CFC) data (current year only); and miscellaneous personnel and administrative data of like nature.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C. 136.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Internal users, uses, and purposes:

ODPA&E—To evaluate current and prospective employees; to locate former personnel and prospects; to analyze

professional staff background; to make decisions on hiring, promotion, training, awards, or disciplinary actions; to make comparative analyses of personnel data such as turnover rates, awards, academic degrees, average age, travel, and overtime; to determine level of security access permissible; to evaluate conformance with standards of conduct rules; to evaluate contractor capabilities; to provide information on current or former personnel to authorized investigators and potential outside employers; to make campaign reports; to evaluate effectiveness of PA&E personnel operations; to input selected data to computer systems; to perform computer analyses of the data; and to prepare reports, rosters and statistical data.

External users, uses and purposes:

See Office of the Secretary of Defense (OSD) Blanket Routine Uses at the head of this Component's published system notices.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders, biography book, computer disks, computer paper printouts, microfiche; charts.

RETRIEVABILITY:

Information accessed by last name of individual.

Individual user codes and passwords required to access information stored in computer.

SAFEGUARDS:

Building employs security guards.

Sensitive manually stored data kept in locked cabinets or safes and may be accessed only by authorized personnel.

Computer stored data is kept in a secure computer facility and may be accessed only by authorized, properly trained personnel who have access codes and passwords.

RETENTION AND DISPOSAL:

Records on current and former personnel are permanent. Travel orders, overtime authorizations and similar fiscal records kept for three years. Applicant files are screened about once a year and information outdated or no longer needed is destroyed. Campaign data for other than current year is destroyed annually.

SYSTEM MANAGER(S) AND ADDRESS:

Office of the Director, program Analysis and Evaluation, Room 2D321, Pentagon, Washington, D.C. 20301.

NOTIFICATION PROCEDURE:

Information may be obtained from: ODPA&E, Assistant for Management, Room 2D321, Pentagon, Washington, D.C. 20301, Telephone: 202-697-9189.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: ODPA&E, Assistant for Management, Room 2D321, Pentagon, Washington, D.C. 20301.

Written request must contain full name and identification of the individual. Visitors may be required to provide identification.

CONTESTING RECORD PROCEDURES:

The Agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned are contained in 32 CFR Part 286b, and OSD Administrative Instruction No. 81.

RECORD SOURCE CATEGORIES:

Current and previous employers, instructors, associates and contacts; DoD civilian and military personnel offices; DoD security offices; DoD payroll, travel and fiscal offices; Civil Service Commission; contractors; Air Force Data Services Center (AFDSC); PA&E personnel; educational institutions; and financial institutions.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

DUSDP 01

SYSTEM NAME:

DoD Motions for Discovery of Electronic Surveillance Files.

SYSTEM LOCATION:

Primary System—Counterintelligence and Investigative Program Directorate, Office of the Deputy Under Secretary of Defense for Policy, Room 3C 290, Pentagon, Washington, D.C. 20301.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Those individuals and/or organizations on which the Department of Justice has requested information upon which to base their reply to court-approved motions for discovery of electronic surveillance.

CATEGORIES OF RECORDS IN THE SYSTEM:

Chronological listing for identification and location of files. Individual case files to include original and subsequent requests from the Department of Justice; file copy of memorandum to the DoD Components directing search of their records, indices, etc.; copies of DoD Components' responses to the Office of the Secretary of Defense (OSD), and copies of OSD's responses to the Department of Justice.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 28, United States Code, Section 526, "Conduct of Litigation Reserved to Department of Justice".

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Internal users, uses and purposes:

Preparation of response to Department of Justice, as well as any subsequent inquiries from that office.

External users, uses, and purposes:

Department of Justice's response to court-approved motion for discovery.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Filed by year by case name.

SAFEGUARDS:

Records are stored in security combination lock file containers accessible only by Counterintelligence and Investigative Programs Directorate personnel.

RETENTION AND DISPOSAL:

Records are permanent. They are retained in active file until end of calendar year in which project is completed, held one additional year in inactive file and subsequently retired to Washington National Records Center (WNRC).

SYSTEM MANAGER(S) AND ADDRESS:

Director, Counterintelligence and Investigative Programs, Office of the Deputy Under Secretary of Defense for Policy, Pentagon, Washington, D.C. 20301.

NOTIFICATION PROCEDURES:

Information may be obtained from: Office of the Director, Counterintelligence and Investigative Programs, Office of the Deputy Under Secretary of Defense for Policy, Room 3C290, Pentagon, Washington, D.C. 20301, Telephone: 202-697-9678.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Director, Counterintelligence and Investigative Programs, Office of the Deputy Under Secretary of Defense for Policy, Room

3C290, Pentagon, Washington, D.C. 20301.

Written requests for information should contain the full name of the individual, date and place of birth, Social Security Number (SSN), and notarized signature.

The records requested may be made available to individuals for review at the following location: Office of the Director, Counterintelligence and Investigative Programs, Office of the Deputy Under Secretary of Defense for Policy, Room 3C290, Pentagon, Washington, D.C. 20301.

CONTESTING RECORD PROCEDURES:

The Agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned are contained in 32 CFR Part 286b, and OSD Administrative Instruction No. 81.

RECORD SOURCE CATEGORIES:

Department of Justice formal written inquiries, and internal correspondence necessary to gather information to make replies to such inquiries.

SYSTEM EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

DUSDP 02

SYSTEM NAME:

Special Personnel Security Cases.

SYSTEM LOCATION:

Security Plans and Programs Directorate, Office of the Deputy Under Secretary of Defense (Policy), ODUSD(P), Washington, D.C. 20301.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals affiliated with the DoD, upon whom an investigation has been conducted by a Department of Defense (DoD) Component investigative organization authorized to conduct personnel security investigations; other investigative organizations of the Federal Government, or individuals who have been the subject of a DoD Component personnel security determination, or who have had access to DoD classified information, whenever the investigation, personnel security determination, or access involves unique circumstances having special significance with respect to DoD personnel security policy. Also, individuals for whom waivers have been granted from specific provisions of the Industrial Security Regulation (5220.22-R) and/or Industrial Security Manual (5220.22-M).

CATEGORIES OF RECORDS IN THE SYSTEM:

Statements of personal history; investigative reports; adjudicative findings; intra-office memoranda; policy interpretation; memoranda recommending courses of action; legal opinions, etc.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 5, United States Code, Section 301.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS, AND THE PURPOSES OF SUCH USES:

Internal users, uses, and purposes:

This system will be used as basis for Security Plans and Programs Directorate staff access to determine the need for overall personnel security policy revision or adjustment; to ensure that component personnel security determinations are consistent with DoD personnel security program policy; to assure that personnel security investigations conducted by the Defense Investigative Service (DIS), the National Security Agency (NSA), and the Military Departments are in compliance with DoD personnel security investigative policy; and to provide precedents for use in determining whether to grant waivers of the provisions of the Industrial Security Regulation and/or Industrial Security Manual.

External users, uses, and purposes:

See Office of the Secretary of Defense (OSD) Blanket Routine Uses at the head of this Component's published system notices.

RECORDS MANAGEMENT POLICIES AND PROCEDURES:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Records are filed alphabetically by last name of the subject of the investigation or personnel security determination having special significance with respect to DoD personnel security policy. Also, records are filed alphabetically by last name of the personnel for whom waivers have been granted under the Industrial Security Program.

SAFEGUARDS:

Records are stored in security combination lock file containers, and are accessible only by Security Plans and Programs personnel who are properly cleared and who are the official authorized users.

RETENTION AND DISPOSAL:

Routine investigations are destroyed 15 years after the date of the last action. Those involving significant incidents are destroyed 25 years after the date of the last action.

SYSTEMS MANAGER(S) AND ADDRESS:

Director, Security Plans and Programs Directorate, Office of the Deputy Under Secretary of Defense (Policy), Pentagon, Washington, D.C. 20301.

NOTIFICATION PROCEDURE:

Information may be obtained from: Office of the Deputy Under Secretary of Defense (Policy), Security Plans and Programs Directorate, Room 3C277, Pentagon, Washington, D.C. 20301, Telephone: 202-697-3969.

RECORD ACCESS PROCEDURES:

Requests from individuals should be addressed to: Office of the Deputy Under Secretary of Defense (Policy), Security Plans and Programs Directorate, Room 3C277, Pentagon, Washington, D.C. 20301.

Written requests for information should contain the full name of the individual, date and place of birth, Social Security Number (SSN), and notarized signature.

The records requested may be made available to individuals for review at the following location: Security Plans and Programs Directorate, ODUSD(P), Room 3C271, Pentagon, Washington, D.C. 20301.

CONTESTING RECORD PROCEDURES:

The Agency's rules for access to records and for contesting contents and appealing initial determination by the individual concerned are contained in 32 CFR Part 286b, and OSD Administrative Instruction No. 81.

RECORD SOURCE CATEGORIES:

Information is obtained from record subjects; Federal Bureau of Investigation; Office of the Secretary of Defense; Organization of the Joint Chiefs of Staff; DoD Defense Agencies; and the Military Departments, including investigative reports, inter and intra Department memoranda and letters, case analyses, memoranda for the record, and other correspondence related to the cases.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

Parts of this record system may be exempt under 5 U.S.C. 552a(k)(5).

[FR Doc. 82-25038 Filed 9-16-82; 8:45 am]
BILLING CODE 3810-01-M

Privacy Act of 1974; Deletion of System Notices

AGENCY: Defense Department.

ACTION: Deletion of system notices.

SUMMARY: The Office of the Secretary of Defense proposes to delete the notice for two systems of records. This system of records is no longer being maintained.

DATES: These deletions shall be effective October 18, 1982.

FOR FURTHER INFORMATION CONTACT: Norma Cook, Privacy Act Officer, ODASD(A), Room 5c–315, Pentagon, Washington, D.C. 20301. Telephone: 202/695–0970.

SUPPLEMENTARY INFORMATION: The Office of the Secretary of Defense (OSD) proposes to delete the system notice for system of records DWHS P02, entitled: "Job Opportunity Announcements." The records in this system are not retrieved by name or any other identifier assigned to an individual. Therefore, the system does not qualify as a system of records under the Privacy Act of 1974, Title 5 United States Code, Section 552a (Pub. L. 93–579, 88 Stat. 1896, *et seq.*).

In addition OSD proposes to delete the notice for DWHS SPM001, entitled: "Application for Pentagon Parking Permits." This system of records is no longer being maintained. The OSD system notices for systems of records subject to the Privacy Act of 1974, have been published in the **Federal Register** at:

FR Doc. 82–674 (47 FR 2544) January 18, 1982
FR Doc. 82–3758 (47 FR 6462) February 12, 1982
FR Doc. 82–21537 (47 FR 34441) August 9, 1982
FR Doc. 82–23920 (47 FR 38574) September 1, 1982

M. S. Healy,

OSD Federal Register Liaison Officer, Department of Defense.

September 13, 1982.

[FR Doc. 82-25630 Filed 9-16-82; 8:45 am]

BILLING CODE 3810-01-M

DEPARTMENT OF EDUCATION

National Advisory Council on Vocational Education; Changed Meeting

ACTION: Amendment of notice.

SUMMARY: This document is intended to notify the general public of change in Notice of Public Meeting of the National Advisory Council on Vocational Education published September 3, 1982, on **Federal Register** page 38964.

The times, location, and agenda remain the same, except that, at the September 22, 1982 session, the hours from 9:30 to 11:30 A.M. will be closed to the public. Discussions will be held on issues related to the selection of the Executive Director position, including the qualifications and fitness of individually identified candidates for the position. These discussions will touch upon matters that would disclose information of a personal nature, which disclosure would constitute a clearly unwarranted invasion of personal privacy if conducted in open session. This session will be closed under the authority of Section 10(d) of the Federal Advisory Committee Act (Pub. L. 92–463; 5 U.S.C. Appendix I) and under exemptions (2) and (6) contained in the Government in the Sunshine Act (Pub. L. 94–409, 5 U.S.C. 552b(c) (2) and (6).

A summary of the activities of the closed session and related matters which would be informative to the public consistent with the policy of Title 5 U.S.C. 552b(c) will be available to the public within 14 days of the meeting at the Council's offices, 425 13th Street NW, Suite 412, Washington, DC from 9:00 A.M. to 5:00 P.M. daily.

Signed at Washington, DC on September 14, 1982.

George Wallrodt,

Acting Executive Director.

[FR Doc. 82-25680 Filed 9-16-82; 8:45 am]

BILLING CODE 4000-01-M

National Commission on Excellence in Education; Meetings

AGENCY: National Commission on Excellence in Education.

ACTION: Notice of meetings.

SUMMARY: This notice amends the announcement of the hearings of the National Commission on Excellence in Education published in the **Federal Register** on March 4, 1982 on page 9271, and sets forth the schedule of the fifth and sixth full commission meeting. Notice of these meetings is required under Section 10(a) (2) of the Federal Advisory Committee Act.

DATES: September 16, 1982 (8:30 a.m. until 5:00 p.m.); September 28 & 29, 1982 (8:30 a.m. until 5:00 p.m.); October 15, 1982 (8:30 a.m. until 5:00 p.m.); November 15 & 16, 1982 (8:30 a.m. until 5:00 p.m.).

LOCATIONS:

September 16, 1982 (Hearing—EDucation & Work), Auraria Higher Education Center, St. Cajetan's Center, Ninth and Lawrence Streets, Denver, Colorado.

September 28, 1982 (Full Commision Meeting), Exxon Education Foundation, Exxon Corporation, C–1 Conference Center, 1251 Avenue of the Americas, New York, New York.

September 29, 1982 (Full Commission Meeting), Marriott's Essex House, 160 Central Park South, New York, New York 10019.

October 15,1982, Hearing—Education for the Gifted and Talented, Harvard University Graduate School of Education, Gutman Library—Conference Area, 6 Appian Way, Cambridge, Mass.

November 15 & 16, 1982, Full Commission Meeting, Washington, D.C.

FOR FURTHER INFORMATION CONTACT: Milton Goldberg, Executive Director, (202) 254–7920 or Betty Baten, Administrative Officer, (202) 254–7920, 1200 19th Street, N.W. Washington, D.C. 20208

The National Commission on Excellence in Education is governed by the provisions of Part D of the General Education Provisions Act (Pub. L. 90–247 as amended; 20 U.S.C. 1233 *et seq.*) and the Federal Advisory Committee Act (Pub. L. 92–463; 5 U.S.C. Appendix I) which set forth standards for the formation and use of advisory commitees. The Commission is established to advise and make recommendations to the nation and to the Secretary of Education.

On September 16, 1982, the hearing on Education and Work will be chaired by Commission member Anne Campbell, Commissioner of Education, Nebraska, and hosted by the Education Commission of the States, Robert C. Andringa, Executive Director. In the morning, the Commission members will hear three panel discussions on such topics as education and the changing workplace, and employer needs and training programs. In the afternoon, special attention will be paid to secondary and postsecondary programs and their roles in preparing students for work.

On September 28 and September 29, the full commission will address Educational Standards.

On October 15, 1982, the hearing on Education for the Gifted and Talented will examine issues related to human intelligence as it is challenged by the educational experience.

The topic for the full Commission meeting on November 15 & 16 will be published later.

In addition to the testimony the Commission receives the day of the hearings, individuals and organizations across the country are invited to submit 2–5 pages of written testimony that will assist the Commission in developing recommendations for the final report.

The records will remain open for one month following each hearing.

Testimony should be submitted to: Commission Hearings, National Commission on Excellence in Education, Washington, D.C. 20208 (202) 254–7920.

All meetings of the Commision are open to the public.

Records are kept of all Commission proceedings, and are available for public inspection at the office of the National Commission on Excellence in Education, 1200 19th Street, N.W. room 222, from the hours of 8:00 a.m. to 5:00 p.m.

Dated: September 13, 1982.

Donald J. Senese,

Assistant Secretary for Educational Research and Improvement.

BILLING CODE 4000-01-M

DEPARTMENT OF ENERGY

National Petroleum Council, Coordinating Subcommittee of the Committee on Third World Petroleum Development; Meeting

Notice is hereby given that the Coordinating Subcommittee of the Committee on Third World Petroleum Development will meet in October 1982. The National Petroleum Council was established to provide advice, information, and recommendations to the Secretary of Energy on matters relating to oil and natural gas or the oil and natural gas industries. The Committee on Third World Petroleum Development will investigate the petroleum resource potential of Third World countries and analyze those factors impacting the development of these resources. Its analysis and findings will be based on information and data to be gathered by the various task groups. The time, location and agenda of the Coordinating Subcommittee meeting follows:

The Coordinating Subcommittee will hold its third meeting on Monday and Tuesday, October 4 and 5, 1982, beginning at 9:00 a.m. each day, in the Mount Vernon Room, The Madison Hotel, 15th and M Street, NW., Washington, D.C.

The tentative agenda for the Coordinating Subcommittee meeting follows:

1. Review preliminary final draft.
2. Discuss any other matters pertinent to the overall assignment of the Coordinating Subcommittee.

The meeting is open to the public. The Chairman of the Coordinating Subcommittee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Coordinating Subcommittee will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements should inform G. J. Parker, Office of Oil, Gas, Shale and Coal Liquids, Fossil Energy, 301/353–3032, prior to the meeting and reasonable provision will be made for their appearance on the agenda.

Summary minutes of the meeting will be available for public review at the Freedom of Information Public Reading Room, Room 1E–190, DOE, Forrestal Building, 1000 Independence Avenue, SW., Washington, D.C., between the hours of 8:00 a.m. and 4:00 p.m., Monday through Friday, except Federal holidays.

Issued at Washington, D.C., on September 13, 1982.

Donald L. Bauer,

Deputy Assistant Secretary for Fossil Energy.

BILLING CODE 6450-01-M

Economic Regulatory Administration

[Docket No. ERA-FC-82-023]

Powerplant and Industrial Fuel Use Act of 1978; Electric Utility Conservation Plans

AGENCY: Economic Regulatory Administration, DOE.

ACTION: Notice of receipt of proposed electric utility conservation plans.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) has received a number of electric utility conservation plans developed and submitted for DOE approval pursuant to Section 808 of the Powerplant and Industrial Fuel Use Act of 1978, 42 U.S.C. 8301 *et seq.*, as amended (FUA or the Act).

Pursuant to 10 CFR 508.4(b), DOE hereby gives Notice of Receipt of Proposed Conservation Plans from the electric utility owners or operators listed in the **SUPPLEMENTARY INFORMATION** section below. The publication of this notice commences a thirty (30) day public comment period during which interested persons are invited to submit written comments concerning the content of any such proposed conservation plan.

The public file for each of the listed electric utility owners or operators containing the proposed conservation plan and any other pertinent documents is available at the Department of Energy, Freedom of Information Reading Room, 1000 Independence Avenue, SW., Room 1E–190, Washington, D.C. 20585, telephone (202) 252–6020. ERA will approve or non-approve the proposed plan of each electric utility within 120 days of the receipt of each plan. Approval or non-approval of a conservation plan will be based on the entire record of the proceeding including any comments received during the public comment period provided herein. Notice of Approval or Non-approval of each conservation plan will be published in the **Federal Register.**

DATE: Written comments on any proposed conservation plan identified in the **SUPPLEMENTARY INFORMATION** section of this notice are due on or before October 18, 1982.

ADDRESS: Five copies of written comments shall be submitted to: Case Control Unit, Fuels Conversion Division, Forrestal Building, Room GA–093, 1000 Independence Avenue, S.W., Washington, D.C. 20585.

The name of the subject utility and the identifying case number should be printed on the outside of the envelope and on the documents contained therein.

FOR FURTHER INFORMATION CONTACT:

Clifford Tomaszewski, Office of Fuels Programs, Economic Regulatory Administration, Forrestal Building, Room GA–073 F, 1000 Independence Avenue, S.W., Washington, D.C. 20585, (202) 252–1251.

Henry Garson, Esq., Acting Assistant General Counsel for Coal Regulations, Office of General Counsel, Forrestal Building, Room 6D–033, 1000 Independence Avenue, S.W., Washington, D.C. 20585, (202) 252–6947.

SUPPLEMENTARY INFORMATION: Section 1023 of the Omnibus Budget Reconciliation Act of 1981, Pub. L. 97–35 (OBRA) amended the Powerplant and Industrial Fuel Use Act of 1978, 42 U.S.C. 8301 *et seq.* (FUA or the Act) by adding a new section 808, entitled "Electric Utility Conservation Plan."

Section 808 requires utilities which own or operate any existing electric powerplant which used natural gas as a primary energy source between August 14, 1980 and August 13, 1981, and which also plan to use natural gas in any electric powerplant, to develop and submit to DOE for approval a conservation plan to conserve electric energy. The plan must set forth the means to achieve the conservation of electric energy at a level equal to 10 percent of the electric energy output of the utility sold within its own system which was attributable to natural gas during the four calendar quarters ending on June 30, 1981. The plan must be fully

implemented during the five year period following DOE approval.

Proposed conservation plans must be submitted to DOE on or before August 13, 1982. DOE will, within 120 days of the receipt of a proposed plan, approve each plan meeting the requirements of 10 CFR 508.8. If a proposed plan, as originally submitted, fails to meet the requirements for approval, DOE will notify the utility submitting the plan by letter, setting forth the reasons therefore, and provide a reasonable time for the submission of a modified conservation plan. If an acceptable modified plan is not submitted within the specified time period, a Notice of Non-approval will be published in the Federal Register together with the basis for the determination that the proposed plan fails to meet the requirements of 10 CFR 508.8. The following list of utilities have submitted proposed conservation plans to DOE for approval. Publication of this notice does not constitute approval of such plans.

Utilities	FC Case No.	Date filed
Dallas Power and Light Co., Dallas, Tex.	50736-9999-99-49	Aug. 11, 1982.

BILLING CODE 6450-01-M

ENVIRONMENTAL PROTECTION AGENCY

[ORD-FRL-2208]

Critical Assessment Document: The Acidic Deposition Phenomenon and its Effects

AGENCY: Environmental Protection Agency, Acid Precipitation Program.

ACTION: Notice of public meeting.

SUMMARY: A series of peer-review workshops will be held in Raleigh, North Carolina, on November 1 and 2, 1982, to facilitate scientific and technical evaluation of draft chapters of the *Critical Assessment Document.* The workshops, each of three to four hours and dealing with one chapter of the Document, will be held in the McKimmon Center, North Carolina State University, Raleigh, N.C. Individual workshop sessions will occur in the period from 8:00 a.m. to 9:00 p.m. on November 1 and from 7:00 a.m. to 5:30 p.m. on November 2, 1982. The public is invited to attend as observers.

DATE: The workships on November 1 and 2, 1982, will be held at McKimmon Center at North Carolina State University, intersection of Western Blvd. and Gorman Street, Raleigh, N.C. Any changes in date or location will be announced in a subsequent **Federal Register** notice. On Monday, November 1, following an introductory session from 8:00 a.m. to 9:00 a.m., four workshops, on Natural and Anthropogenic Sources, Soils, Deposition Models, and Materials chapters, will be held in parallel from 9:00 a.m. until 12:30 p.m. Two afternoon sessions, on Vegetation and Aquatic Chemistry chapters, will run from 1:30 p.m. until 6:00 p.m. Two other afternoon sessions, on Atmospheric Concentration and Distribution and Transformation Processes chapters, will run from 3:00 p.m. until 6:00 p.m. An evening general session is planned from 6:00 p.m. to 9:00 p.m. On Tuesday, November 2, activities begin with a general session from 7:00 a.m. until 7:30 a.m. followed by parallel workshops from 7:30 a.m. until noon on Dry Deposition Transport Processes, Aquatic Biology, Indirect Health Effects, and Processes chapters. Three parallel afternoon sessions from 1:00 p.m. until 4:30 p.m. will consider Deposition Monitoring, Precipitation Scavenging Processes, and Economics chapters. The workshop will end with a general session from 4:30 p.m. until 5:30 p.m. The public is invited to attend as observers.

FOR FURTHER INFORMATION CONTACT: Ms. Betsy Hood, Critical Assessment Document Assistant Coordinator, EPA/NCSU Acid Precipitation Program, Department of Botany, P.O. Box 5186, North Carolina State University at Raleigh, NC 27650. Telephone (919) 737-3520.

SUPPLEMENTARY INFORMATION: The *Critical Assessment Document,* developed at the request of EPA's Clean Air Science Advisory Committee and the Federal Interagency Task Force on Acid Precipitation, is being prepared through the North Carolina State Acid Precipitation Program (EPA/NCSU) and cooperating scientists. This document will be an evaluation of the state of knowledge of the acidic deposition phenomenon and its effects. The current draft of the document consists of 17 chapters dealing with atmospheric sciences (9 chapters) and effects (8 chapters) with chapter summaries plus an executive Summary.

As part of the review process, EPA/NCSU is assembling a panel consisting of its editors and contributors, EPA personnel and other scientific and technically qualified persons selected by EPA to facilitate scientific and technical evaluation of draft document chapters.

Persons wishing to attend these workshops as observers must contact Betsy Hood (see "Further Information" above) by October 8, 1982. Copies of the draft chapters will be provided to registered observers, who will have an oppotunity to submit writen comments or to make a brief oral statement at the end of the meeting. Ample opportunity for public review of the revised chapters and submission of written comments will be provided when the external review draft of the entire document is submitted in February for EPA Clean Air Science Advisory Committee review. EPA will publish a notice of availability at that time.

A facilitator will chair each session. Any materials submitted or resulting from the meeting will be included in the record established for the review of the *Critical Assessment Document.*

Dated: September 10, 1982.

Courtney Riordan,

Acting Assistant Administrator for Research and Development

[OPTS-51431; TSH-FRL-2208-3]

Certain Chemicals; Premanufacture Notices

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5(a)(1) of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture or import a new chemical substance to submit a premanufacture notice (PMN) to EPA at least 90 days before manufacture or import commences. Statutory requirements for section 5(a)(1) premanufacture notices are discussed in EPA statements of interim policy published in the **Federal Register** of May 15, 1979 (44 FR 28558) and November 7, 1980 (45 FR 74378). This notice announces receipt of sixteen PMNs and provides a summary of each.

DATES: Close of Review Period: PMN 82-642, 82-643, 82-644, 82-645, 82-646, 82-647, 82-648, 82-649 and 82-650, December 1, 1982. PMN 82-651, 82-652, 82-653, 82-654 and 82-655, December 5, 1982. PMN 82-656 and 82-657, December 7, 1982. Written comments by: PMN 82-642, 82-643, 82-644, 82-645, 82-646, 82-647, 82-648, 82-649 and 82-650, November 1, 1982. PMN 82-651, 82-652, 82-653, 82-654 and 82-655, November 5, 1982. PMN 82-656 and 82-657, November 7, 1982.

ADDRESS: Written comments, identified by the document control number "[OPTS-51431]" and the specific PMN number should be sent to: Document Control Officer (TS-793), Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E-409, 401 M St., SW., Washington, DC 20460 (202-382-3532).

FOR FURTHER INFORMATION CONTACT: David Dull, Chief, Notice Review Branch, Chemical Control Division (TS-794), Office of Toxic Substances, Environmental Protection Agency, Rm. E-216, 401 M St., SW., Washington, DC 20460 (202-382-3729).

SUPPLEMENTARY INFORMATION: The following notice contains information extracted from the non-confidential version of the submission provided by the manufacturer on the PMNs received by EPA. The complete non-confidential document is available in the public reading room E-107.

PMN 82-642

Manufacturer. FMC Corporation.

Chemical. (G) Oryanophosphorous compound.

Use/Production. (S) Site-limited intermediate. Prod. range: Confidential.

Toxicity Data. Acute oral: >50 mg/kg, but <500 mg/kg; Skin irritation: Severe irritant; Eye irritation: Minimal irritant.

Exposure. Minimal exposure.

Environmental Release/Disposal. No release.

PMN 82-643

Manufacturer. FMC Corporation.
Chemical. (G) Organophosphorous compound.
Use/Production. (S) Site-limited intermediate. Prod. range: Confidential.
Toxicity Data. Acute oral: Males—>150 mg/kg, females—<150 mg/kg; Skin irritation: Severe irritant; Eye irritation: Extreme irritant (unwashed), severe irritant (washed).
Exposure. Minimal exposure.
Environmental Release/Disposal. No release.

PMN 82-644

Manufacturer. Confidential.
Chemical. (G) Alkylene ether diol.
Use/Production. (S) Reaction intermediate. Prod. range: Confidential.
Toxicity Data. No data submitted.
Exposure. Manufacture and processing: dermal, inhalation and eye, a total of 10 workers, up to 8 hrs/da, up to 80 da/yr.
Environmental Release/Disposal. No release. Disposal by incineration.

PMN 82-645

Importer. Confidential.
Chemical. (G) Condensate of formaldehyde and an organic base.
Use/Import. (S) Retanning agent for leather. Import range: Confidential.
Toxicity Data. Acute oral: 5,000 mg/kg; Skin irritation: Slight irritant; Eye irritation: Non-irritant.
Exposure. Use: dermal and inhalation, a total of 2 workers, up to 2 hrs/da, up to 200 da/yr.
Environmental Release/Disposal. Less than 10 kg/yr released to air and water. Disposal by approved landfill.

PMN 82-646

Importer. Confidential.
Chemical. (G) Cobalt complex-[(hydroxynitrophenyl-azo)-(substituted)phenyl pyrazolones], sodium salt.
Use/Import. (S) Dye for leather and paper. Import range: Confidential.
Toxicity Data. Acute oral: >5 g/kg; Skin irritation: Non-irritant; Eye irritation: Non-irritant.
Exposure. Processing, use and disposal: dermal, a total of 8 workers, up to 2 hrs/da, up to 100 da/yr.
Environmental Release/Disposal. Less than 100 kg/yr released to water. Disposal by incineration and approved landfill.

PMN 82-647

Importer. Confidential.
Chemical. (G) [(benzoquinolinyl)-(imidazolyl methylene)]-indenedione derivate, mixed salt.
Use/Import. (S) Dye for paper. Import range: Confidential.
Toxicity Data. Acute oral: >5 g/kg; Acute dermal: 1.5–2 g/kg; Skin irritation: Non-irritant; Eye irritation: Moderate irritant; LC_{50} 96 hr. (minnow): >500 mg/l; Ames Test: Negative.
Exposure. Processing, use and disposal: dermal, a total of 4 workers, up to 2 hrs/da, up to 60 da/yr.
Environmental Release/Disposal. 100–1,000 kg/yr released to water with 10–100 kg/yr to land. Disposal by biological treatment system and incineration.

PMN 82-648

Importer. Confidential
Chemical. (G) [(benzoquinolinyl)-(imidazolyl methylene)]-indenedione derivative, mixed salt.
Use/Import. (S) Dye for paper. Import range: Confidential.
Toxicity Data. Acute oral: >5 g/kg; Acute dermal: ~1.5–2 g/kg; Skin irritation: Non-irritant; Eye irritation: Moderate irritant; LC_{50} 96 hr. (minnow): >500 mg/l; Ames Test: Negative.
Exposure. Processing, use and disposal: dermal, a total of 4 workers, up to 2 hrs/da, up to 60 da/yr.
Environmental Release/Disposal. 100–1,000 kg/yr released to water with 10–100 kg/yr to land. Disposal by biological treatment system and incineration.

PMN 82-649

Manufacturer. Confidential.
Chemical. (G) Benzene dicarboxylic acid polyester.
Use/Production. (G) Open use. Prod. range: Confidential.
Toxicity Data. No data submitted.
Exposure. Confidential.
Environmental Release/Disposal. Confidential. Disposal by incineration.

PMN 82-650

Manufacturer. Confidential.
Chemical. (G) Pentasubstituted pentanamide.
Use/Production. (G) Site-limited intermediate. Prod. range: 300–600 kg/yr.
Toxicity Data. No data submitted.
Exposure. Manufacture and use: minimal dermal, a total of 10 workers, up to 2 hrs/da, up to 20 da/yr.
Environmental Release/Disposal. No release.

PMN 82-651

Importer. Sandoz Colors and Chemicals.
Chemical. (G) Metal complexed substituted aromatic salt.
Use/Import. (S) Industrial colorant for paper and writing ink. Import range: Confidential.
Toxicity Data. Acute oral: >5,000 mg/kg; Skin irritation: Non-irritant; Eye irritation: Non-irritant.
Exposure. Import and processing: dermal and inhalation, a total of 1 worker per plant, up to 1 hr/da max.
Environmental Release/Disposal. 10–100 kg/yr released to air and water. Disposal by on-site biological waste treatment.

PMN 82-652

Importer. Sandoz Colors and Chemicals.
Chemical. (G) Metal complexed substituted aromatic salt.
Use/Import. (S) Industrial colorant for paper. Import range: Confidential.
Toxicity Data. Acute oral: >5,000 mg/kg; Skin irritation: >5,000 mg/kg; Eye irritation: Non-irritant.
Exposure. Import and processing: dermal, a total of 1 worker per plant, up to 1 hr/da max.
Environmental Release/Disposal. 10–100 kg/yr released to water. Disposal by on-site biological waste treatment.

PMN 82-653

Importer. Sandoz Colors and Chemicals.
Chemical. (G) Metal complexed substituted aromatic salt.
Use/Import. (S) Industrial colorant for paper. Import range: Confidential.
Toxicity Data. Acute oral: >5,000 mg/kg; Skin irritation: >5,000 mg/kg; Eye irritation: Non-irritant.
Exposure. Import and processing: dermal, a total of 1 worker per plant, up to 1 hr/da max.
Environmental Release/Disposal. 10–100 kg/yr released to water. Disposal by on-site biological waste treatment.

PMN 82-654

Importer. Sandoz Colors and Chemicals.
Chemical. (G) Mixed complexed substituted aromatic salt.
Use/Import. (S) Industrial colorant for paper and writing ink. Import range: Confidential.
Toxicity Data. Acute oral: >5,000 mg/kg; Skin irritation: Non-irritant; Eye irritation: Non-irritant.
Exposure. Import and processing: dermal and inhalation, a total of 1 worker per plant, up to 1 hr/da max.
Environmental Release/Disposal. 10–100 kg/yr released to air and water. Disposal by on-site biological waste treatment.

PMN 82-655

Manufacturer. American Cyanamid Company.

Chemical. (G) Substituted acrylamide copolymer.

Use/Production. (S) Waste water flocculant. Prod. range: Confidential.

Toxicity Data. No data submitted.

Exposure. Manufacture: dermal, a total of 25 workers, up to 24 hrs/da, up to 365 da/yr.

Environmental Release/Disposal. Disposal by publicly owned treatment works (POTW).

PMN 82-656

Manufacturer. Confidential.

Chemical. (G) Polymer of disubstituted benzenes and disubstituted alkane.

Use/Production. (S) Minor constituent of an article for commercial use. Prod. range: 3,000–5,000 kg/yr.

Toxicity Data. Acute oral: >3,000 mg/kg; Acute dermal: >1,000 mg/kg; Skin irritation: Slight irritant.

Exposure. Manufacture and use: dermal and inhalation, a total of 80 workers, up to 2 hrs/da, up to 80 da/yr.

Environmental Release/Disposal. Minimal release to air. Disposal by incineration.

PMN 82-657

Manufacturer. Confidential.

Chemical. (G) Sulfonated vinylic polymer.

Use/Production. Confidential. Prod. range: Confidential.

Toxicity Data. No data submitted.

Exposure. Manufacture and processing: a total of 35 workers, up to 4 hrs/da, up to 365 da/yr.

Environmental Release/Disposal. Minimal release. Disposal by POTW and approved landfill.

Dated: September 13, 1982.

[OPTS-59100; TSH-FRL-2206-2]

Polymer of Alkyl and Heteromonocyclic Amines and An Alkanedioic Acid; Premanufacture Exemption Application

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA may upon application exempt any person from the premanufacturing notification requirements of section 5(a) or (b) of the Toxic Substances Control Act (TSCA) to permit the person to manufacture or process a chemical for test marketing purposes under section 5(h)(1) of TSCA. Requirements for test marketing exemption (TME) applications, which must either be approved or denied within 45 days of receipt, are discussed in EPA's revised statement of interim policy published in the Federal Register of November 7, 1980 (45 FR 74378). This notice, issued under section 5(h)(6) of TSCA, announces receipt of one application for an exemption, provides a summary, and requests comments on the appropriateness of granting the exemption.

DATE: Written comments by: October 4, 1982.

ADDRESS: Written comments, identified by the document control number "[OPTS-59100]" and the specific TME number should be sent to:

82T-2752

Documents Control Officer (TS-793), Office of Pesticides and Toxic Substances, Management Support Division, Environmental Protection Agency, Rm. E-401, 401 M Street, SW, Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: David Dull, Chief, Notice Review Branch, Chemical Control Division (TS-794), Office of Toxic Substances, Environmental Protection Agency, Rm. E-216, 401 M Street, SW, Washington, DC 20460.

SUPPLEMENTARY INFORMATION: The following notice contains information extracted from the non-confidential version of the submission provided by the manufacturer on the TME received by EPA. The complete non-confidential document is available in the Public Reading Room E-107.

TME 82-47

Close of Review Period. October 17, 1982.

Manufacture. Diamond Shamrock.

Chemical. (G) Polymer of alkyl and heteromonocyclic amines and an alkanedioic acid.

Use/Production. (S) Epoxy hardener. Prod. range: 10/82-6/30/83 —10,000 kg (max).

Toxicity Data. No data submitted.

Exposure. Manufacture: dermal and inhalation, a total of 8 workers at 2 sites, up to 6-24 hrs/da, up to 4 da/yr; processing: dermal and inhalation, a total of 4 workers at 2 sites, 8-24 hrs/da, 4 da/yr.

Environmental Release/Disposal. Less than 10 kg/yr released to air and land with 10-100 kg/yr to water.

Dated: September 13, 1982.

Denise F. Swink,

Acting Director, Management Support Division.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. CI82-46-000, et al.]

Energy Reserves Group, Inc., et al.; Applications for Certificates, Abandonment of Service and Petitions To Amend Certificates [1]

September 9, 1982.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to Section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before September 24, 1982, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or to be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[1] This notice does not provide for consolidation for hearing of the several matters covered herein.

(1) Lease on acreage in Section 24-8N-20W, Jefferson Davis County, Mississippi expired of its own terms in February, 1975.
(2) Wells plugged and abandoned and lease expired under its own terms.
(3) This well was released by Equitable as part of a court settlement and WACO wishes to sell the gas to another purchaser.
(4) Applicant is willing to accept an initial rate consistent with that prescribed by the Natural Gas Policy Act of 1978.
(5) Applicant is filing under Gas Purchase Contract dated August 10, 1982.
(6) Applicant is willing to accept a certificate of public convenience and necessity conditioned in price to the applicable ceiling rates as established by the Natural Gas Act of 1978.
(7) Applicant is filing under Gas Purchase and Sales Agreement dated August 12, 1982.
(8) Contract was cancelled on May 20, 1979. The three tracts involved in this lease were assigned. ARCO has no remaining reserves or production.
(9) The last producing well, the T. L. Scarborough No. 1 was plugged and abandoned on January 28, 1971.

Filing Code: A—Initial Service. B—Abandonment. C—Amendment to add acreage. D—Amendment to delete acreage. E—Total Succession. F—Partial Succession.

BILLING CODE 6717-01-C

The above notices of determination were received from the indicated jurisdictional agencies by the Federal Energy Regulatory Commission pursuant to the Natural Gas Policy Act of 1978 and 18 CFR 274.104. Negative determinations are indicated by a "D" before the section code. Estimated annual production (PROD) is in million cubic feet (MMCF). An (*) before the Control (JD) number denotes additional purchasers listed at the end of the notice.

The applications for determination are available for inspection except to the extent such material is confidential under 18 CFR 275.206, at the Commission's Division of Public Information, Room 1000, 825 North Capitol St., Washington, D.C. Persons objecting to any of these determinations may, in accordance with 18 CFR 275.203 and 275.204, file a protest with the Commission within fifteen days after publication of notice in the **Federal Register.**

Categories within each NGPA are indicated by the following codes:

Section 102–1: New OCS lease
102–2: New well (2,5 mile rule)
102–3: New well (1000 ft rule)
102–4: New on shore reservoir
102–5: New reservoir on old OCS lease
Section 107–DP: OCS 15,000 feet or deeper
107–FB: Geopressered brine
107–CS: Coal seams
107–DV: Devonian shale
107–PE: Production enhancement
107–TF: New tight Formation
107–RT: Recompletion tight formation
Section 108: Stripper well
108–SA: Seasonally affected
108–ER: Enhanced recovery
108–PB: Pressure buildup

Kenneth F. Plumb

Secretary.

Office of Hearings and Appeals

Issuance of Proposed Decision and Order; Week of August 23 Through August 27, 1982

During the week of August 23 through August 27, 1982, the proposed decision and order summarized below was issued by the Office of Hearings and Appeals of the Department of Energy with regard to an application for exception.

Under the procedural regulations that apply to exception proceedings (10 CFR Part 205, Subpart D), any person who will be aggrieved by the issuance of a proposed decision and order in final form may file a written notice of objection within ten days of service. For purposes of the procedural regulations, the date of service of notice is deemed to be the date of publication of this Notice or the date an aggrieved person receives actual notice, whichever occurs first.

The procedural regulations provide that an aggrieved party who fails to file a Notice of Objection within the time period specified in the regulations will be deemed to consent to the issuance of the proposed decision and order in final form. An aggrieved party who wishes to contest a determination made in a proposed decision and order must also file a detailed statement of objections within 30 days of the date of service of the proposed decision and order. In the statement of objections, the aggrieved party must specify each issue of fact or law that it intends to contest in any further proceeding involving the exception matter.

Copies of the full text of the proposed decision and order are available in the Public Docket Room of the Office of Hearings and Appeals, Room 1111, New Post Office Building, 12th and Pennsylvania Ave. NW., Washington, D.C. 20461, Monday through Friday, between the hours of 1:00 p.m. and 5:00 p.m., except federal holidays.

Dated: September 13, 1982.

George B. Breznay,

Director, Office of Hearings and Appeals.

State of Connecticut, Hartford, Connecticut, HEE–0032, conservation

The State of Connecticut filed an Application for Exception from the provisions of 10 CFR Part 455. The exception request, if granted, would permit Connecticut to use 45% (instead of 15%) of the federal funds allocated for conservation programs for schools and hospitals in Cycle IV of the DOE Institutional Building Grant Program for technical assistance programs. On August 27, 1982, the Department of Energy issued a Proposed Decision and Order which determined that the exception request be denied.

FEDERAL RESERVE SYSTEM

Agency Forms Under Review

September 10, 1982.

Background

When executive departments and agencies proposed public use forms, reporting, or recordkeeping requirements, the Office of Management and Budget (OMB) reviews and acts on those requirements under the Paperwork Reduction Act [44 U.S.C. Chapter 35]. Departments andagencies use a number of techniques including public hearings to consult with the public on significant reporting requirements before seeking OMB approval. OMB in carrying out its responsibilities under the act also considers comments on the forms and recordkeeping requirements that will affect the public. Reporting or recordkeeping requirements that appear to raise no significant issues are approved promptly. OMB's usual practice is not to take any action on proposed reporting requirements until at least ten working days after notice in the **Federal Register**, but occasionally the public interest requires more rapid action.

List of Forms Under Review

Immediately following the submission of a request by the Federal Reserve for OMB approval of a reporting or recordkeeping requirement, a description of the report is published in the **Federal Register**. This information contains the name and telephone number of the Federal Reserve Board clearance officer (from whom a copy of the form and supporting documents is available). The entries are grouped by type of submission—i.e., new forms, revisions, extensions (burden change), extensions (no change), and reinstatements.

Copies of the proposed forms and supporting documents may be obtained from the Federal Reserve Board clearance officer whose name, address, and telephone number appears below. The agency clearance officer will send you a copy of the proposed form, the request for clearance (SF 83), supporting statement, instructions, transmittal letters, and other documents that are submitted to OMB for review.

FOR FURTHER INFORMATION CONTACT:
Federal Reserve Board Clearance Officer—Cynthia Glassman—Division of Research and Statistics, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 (202–452–3829).

OMB Reviewer—Richard Sheppard—Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 3208, Washington, D.C. 20503 (202–395–6880).

Request for Extension Without Revision

1. Report title: Monthly Bankers' Acceptance Survey.

Agency form number: FR 2006.

Frequency: Monthly.

Reporters: Commercial banks, U.S. branches and agencies of foreign banks and Edge Act Corporations whose bankers' acceptances are traded in the New York market.

SIC Code: 602, 605.

Small businesses are not affected.

General description of report: approximately 4,080 responses; approximately 27,744 hours needed to complete the form on an annual basis; average response time of 6.8 hours; respondent's obligation to reply is voluntary; a pledge of confidentiality is promised; cost to the public is approximately $416,160 annually; cost to the Federal Government is approximately $11,450; 1 form submitted for approval; the report is not being reviewed under Section 3504(h) of Pub. L. 96–511.

Data obtained from this survey are used to construct estimates of monetary aggregates and bank credit. These data are also needed to monitor developments in the acceptance market for analytical and monetary policy purposes.

2. Report title: Weekly Report of Assets and Liabilities for Large U.S. Branches and Agencies of Foreign Banks.

Agency form number: FR 2069.

Frequency: Weekly.

Reporters: U.S. branches and agencies of foreign banks with assets of $750 million or more as of 6/30/80.

SIC code: 605 pt.

Small businesses are not affected.

General description of report: approximately 2,548 responses; approximately 8,918 hours needed to complete the form on an annual basis; average response time of 3.5 hours; respondent's obligation to reply is voluntary; a pledge of confidentiality is promised; cost to the public is approximately $133,770 annually; cost to the Federal Government is approximately $54,475; 1 form submitted

for approval; the report is not being reviewed under Section 3504(h) of Pub. L. 96–511.

The report provides current information on credit developments and sources of funds at U.S. branches and agencies of foreign banks. The data are used to analyze current banking and monetary conditions.

3. Report title: Quarterly Reports of International Banking Facilities.

Agency form numbers: FR 2073 a, b, c; 2074; 2075.

Frequency: Quarterly.

Reporters: International Banking Facilities established by U.S. depository institutions, U.S. branches and agencies of foreign banks or Edge Act Agreement Corporations.

SIC code: 602 pt; 605 pt.

Small businesses are not affected.

General description of reports: approximately 1,444 responses; approximately 1,640 hours needed to complete the form on an annual basis; average response time of approximately 1 hour; respondent's obligation to reply is mandatory (12 U.S.C. 248(a), 3105(h), 602, 625); a pledge of confidentiality is not promised; cost to the public is approximately $32,800 annually; cost to the Federal Government is approximately $110,464; 5 forms submitted for approval; the reports are not being reviewed under section 3504(h) of Pub. L. 96–511.

The reports provide information needed by the Federal Reserve to monitor International Banking Facilities (IBFs). These reports enable the user to adjust the establishing entity's consolidated Report of Condition information for IBF assets and liabilities.

Board of Governors of the Federal Reserve System, September 10, 1982.

Dolores S. Smith,

Assistant Secretary of the Board.

Correction

In FR Doc. 82–23934 beginning on page 38424 in the issue of Tuesday, August 31, 1982, make the following corrections:

1. On page 38426, middle column, in the second full paragraph under *Application Procedure*, the room number in the address now given as "Room 125" should have read "Room 124".

2. In the next column, under **Schedule for Receipt and Review of Applications**, the dates for Initial Review Group now reading "December 1982 or January 1982" should have read "December 1982 or January 1983", and the date for Earliest Award Date now reading "April 1982" should have read "April 1983".

BILLING CODE 1505-01-M

Neurotoxicity of Straight-Chain Carbon Compounds; Open Meeting

The following meeting will be convened by the National Institute for Occupational Safety and Health of the Centers for Disease Control and will be open to the public for observation and participation, limited only by space available.

Date: September 29, 1982
Time: 10:30 a.m. to 4:00 p.m.
Place: Robert A. Taft Laboratories, 4676 Columbia Parkway, Room B36, Cincinnati, Ohio 45226
Purpose: This meeting is intended to review an intramural research project to evaluate the comparative neurotoxicity of selected carbon-based compounds varying in chemical structure and functional characteristics. Neurobehavioral tests of nerve conduction, reflex responding, and general excitability of the central nervous system will be used in a laboratory investigation of animals exposed to the selected compounds in both subchronic and acute schedules. Viewpoints and suggestions from industry, organized labor, academia, other government agencies, and the public are invited

Additional information may be obtained from: John Russo, Ph. D., Division of Biomedical and Behavioral Science, National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control (CDC), 4676 Columbia Parkway, Cincinnati, Ohio 45226, Telephone: (513) 684–8383.

Dated: September 9, 1982.

William H. Foege, M.D.,

Director, Centers for Disease Control.

BILLING CODE 4160-19-M

Cooperative Agreements; Preventive Health Services-Tuberculosis Control; Availability of Funds for Fiscal Year 1982

The Centers for Disease Control (CDC) announces the availability of funds in Fiscal Year 1982 for Cooperative Agreements for Tuberculosis Control Programs, Catalog of Federal Domestic Assistance Number 13.283. This program is authorized by Section 317(a) of the Public Health Service Act (42 U.S.C. 247b), as amended. Regulations governing programs for preventive health services are codified at 42 CFR Part 51b. Subpart A contains general provisions relating to these programs. A new subpart governing tuberculosis control programs is being developed.

Eligible applicants for this program are the official public health agencies of State and local governments, including the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, the Trust Territory of the Pacific Islands, the Northern Mariana Islands, and American Samoa. However, because of the limited funds available in Fiscal Year 1982, awards will be limited to support of programs in high-priority urban areas with a city of at least 250,000 population which have reported an average of more than 250 new cases of tuberculosis per year over the past 2 years and had an incidence rate greater than the national tuberculosis incidence rate reported in 1981 (11.9 per 100,000 population) during each of the past 2 years.

Applications meeing these requirements will be evaluated and priority for funding of new projects established, based upon the following factors: (1) The total number of cases reported in the past 2 years; (2) the number of bacteriologically confirmed cases reported in the past 2 years; (3) the bacteriologically substantiated incidence of disease reported during the past 2 years; (4) the number of tuberculosis cases among children under 15 years of age; (5) the community impact of tuberculosis among individuals who were born in countries with high rates of tuberculosis; (6) the prevalence of drug resistant tuberculosis within the area; (7) a significant increase in tuberculosis morbidity within the past 2 years; and (8) the overall potential effectiveness of the applicant's plan of operation in meeting the objectives of the proposed project. These factors were chosen to establish the extent of an area's tuberculosis problem and to incorporate the intent of Congress for expenditure of these funds.

Purpose and Cooperative Activities

A. Purpose

The national goal in tuberculosis control is to reestablish an annual reduction of reported tuberculosis cases of at least 5 percent. The minimum

short-term objectives needed to meet this goal include:

1. At least 75 percent of all initially infectious patients will become noninfectious (convert their sputum from positive to negative) within 3 months of starting treatment and at least 95 percent will become noninfectious within 6 months.

2. At least 90 percent of all reported cases of tuberculosis will complete an Amercian Thoracic Society/Centers for Disease Control (ATS/CDC) recommended regimen of antituberculosis drug therapy.

At least 95 percent of all close contacts to infectious cases will receive examinations, with at least 95 percent of all those under 15 years of age and 75 percent of all infected persons over 15 years of age placed on preventive treatment.

4. For close contacts and recently infected individuals placed on preventive therapy, at least 90 percent of those persons under 15 years of age and 75 percent of those persons who are infected and over 15 years of age will complete a recommended course of preventive therapy.

B. Cooperative Activities

The collaborative and programmatic involvement of CDC and recipients of funds is as follows:

1. *Recipient Public Health Agency Activities.*

a. Improvement in the reporting of all tuberculosis cases, suspects, and significant laboratory results by health care providers and laboratories in both the public and private sectors and the analysis of reporting trends. Implementation of updated public health record systems needed to monitor the current care status of patients, suspects, contacts, and high-risk infected persons in the community.

b. Deployment of outreach personnel for followup of patients and their contacts and application or intensification of directly administered daily or intermittent drug treatment.

c. Tuberculosis diagnostic, treatment, and prevention services that are available and effectively adapted to the characteristics of tuberculosis population subgroups. Implementation of special approaches to meet the needs of immigrants with inherent language and cultural barriers.

d. Development or continuation of cost effective, medically sound tuberculosis medical care and public health policies. A major policy component should be the use of recommended ATS/CDC treatment regimens.

e. Epidemiological analysis and rapid followup for laboratory reports of drug resistant organisms.

f. Special epidemiological direction and assistance for the investigation and analysis of special tuberculosis problems such as tuberculosis in foreign born, etc. This should include detailed investigation of all cases in children to identify causes of community control failure and to design more effective prevention and control actions.

2. *Centers for Disease Control Activities.*

a. Collaboration in the development and operation of tuberculosis case reporting and program management record systems. Assistance in analysis and evaluation of morbidity, mortality, and program management information.

b. Assistance in the development of program personnel through onsite assistance and the provision of training materials for use by project staff.

c. Provision of onsite technical assistance in the planning, operation, and evaluation of program activities.

d. Provision of medical and programmatic consultation from headquaters through telephone and written consultation.

e. Development and dissemination of public health and medical policies and recommendations for the diagnosis, treatment, and prevention of tuberculosis (including the development of joint ATS/CDC statements). Development of patient education and motivation materials.

Quarterly and/or semiannual narrative and performance statistical reports may be required subject to approval by the Office of Management and Budget (OMB). Financial status reports are required no later than 90 days after the end of each budget period. Final financial status and progress reports are required 90 days after the end of a project period.

It is expected that $1 million will be available in Fiscal Year 1982 to award between 5 and 10 cooperative agreements with individual projects ranging from $50,000 to $250,000.

Applications should be submitted for a 1 year budget period and a 1 to 3 year project period. Continuation awards within the project period will be made by CDC on the basis of satisfactory progress in meeting project objectives and on the availability of funds. Funding estimates outlined above may vary and are subject to change due to the uncertainties in the appropriation process.

Cooperative agreement funds may be used to support both local personnel and the employment of individuals in direct (i.e., "in lieu of cash") assistance positions under Section 317 of the Public Health service Act; and to purchase supplies and services directly related to public health tuberculosis outpatient activities, including morbidity surveillance, outreach, training, assessment, and expanded prevention activities. Project funds may not be used to supplant funds supporting existing tuberculosis control services provided by a State or locality, or to support construction costs or inpatient care.

The application for a new cooperative agreement must include a *brief* narrative which summarizes: (1) A description of the background and need for project support including information (not previously submitted) that relates to factors by which the application will be evaluated; (2) a listing to both long- and short-term objectives of the proposed project which are consistent with the national goal outlined above and which are specific, measurable, realistic, and time-framed; (3) the activities and methods which will be employed to accomplish the objectives (of special importance will be the employment of outreach workers in high incidence areas for use in patient followup and directly administered therapy programs); (4) the methods which will be employed to evaluate program activities; (5) fiscal information of the applicant pursuant to provisions of Section 317(b)(2), although there are no matching or cost participation requirements; and (6) any other information which will support the request for assistance.

In order to supplement information provided in the application, a more detailed narrative expanding the six project elements listed in the previous paragraph may be required to be submitted for review and approval of the awarding agency within 90 days after the cooperative agreement has been awarded.

The original and one copy of the application must be submitted to the address in 1.a. below on or before 4:30 p.m. (e.d.t.) on September 27, 1982. Applications may meet the deadline by either delivering or mailing the application on or before that date provided the following conditions are met:

1. *Mailed applications.* Applications mailed through the U.S. Postal Service shall be considered as meeting the deadline if they are either:

a. Received on or before the deadline date by Leo A. Sanders, Chief, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control 255 E. Paces Ferry Road, N.E., Room 107A, Atlanta, Georgia 30305, or

b. Sent by first class mail, postmarked on or before the deadline date, and received by the granting agency in time for submission to the independent review group. (Applicants must be cautioned to request a legible U.S. Postal Service postmark or to use express mail or certified or registered mail and obtain a legible dated mailing receipt from the U.S. Postal Service. Private metered postmarks shall not be acceptable as proof of timely mailing.)

2. *Applications submitted by other means.* Applications submitted by any means except mailing first class through the U.S. Postal Service shall be considered as meeting the deadline only if they are physically received at the place specified in paragraph 1 above before the close of business on or before the deadline date (4:30 p.m., e.d.t., on September 27, 1982).

3. *Late applications.* Applications which do not meet the criteria in either paragraphs 1 or 2, are considered late applications. In that event an application will not be considered in the current competition.

4. *Copies of Applications.* A copy of the application should be simultaneously submitted to the appropriate Department of Health and Human Services Regional Office listed below. For applicants who are other than State agencies, a copy of the application should be sent to the appropriate State health agency.

Applications are subject to review as governed by OMB Circular A–95 and regulations (42 CFR Part 122—amendment published 47 FR 3551, January 26, 1982, and Part 123) implementing the National Health Planning and Resources Development Act of 1974. Information on application procedures, copies of application forms, and other material may be obtained from Leo A. Sanders, Chief, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control, 255 E. Paces Ferry Road, N.E., Room 107A, Atlanta, Georgia 30305, telephone (404) 262–6575, or FTS: 236–6575. Technical assistance may be obtained from Mr. John J. Seggerson, Tuberculosis Control Division, Center for Prevention Services, Centers for Disease Control, Atlanta, Georgia 30333, telephone (404) 329–2508, or FTS: 236–2508. Both application information and technical assistance are also available from the appropriate Department of Health and Human Services Regional Office listed below.

Dated: September 15, 1982.

BILLING CODE 4160-18-M

Food and Drug Administration

Advisory Committee; Notice of Meetings

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This notice announces forthcoming meetings of public advisory committees of the Food and Drug Administration (FDA). This notice also sets forth a summary of the procedures governing committee meetings and methods by which interested persons may participate in open public hearings conducted by the committees and is issued under section 10(a) (1) and (2) of the Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770–776 (5 U.S.C. App. I)), and FDA regulations (21 CFR Part 14) relating to advisory committees. The following advisory committee meetings are announced:

Ophthalmic Device Section of the Ophthalmic; Ear, Nose, and Throat; and Dental Devices Panel

Date, time, and place. October 15, 9 a.m., Auditorium, 200 Independence Ave. SW., Washington, D.C.

Type of meeting and executive secretary. Open public hearing, 9 a.m. to 10 a.m.; open committee discussion, 10 a.m. to 5 p.m.; George C. Murray, Bureau of Medical Devices (HFK–460), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 301–427–7940.

General function of committee. The committee reviews and evaluates available data on the safety and effectiveness of devices currently in use and makes recommendations for their regulation. The committee also reviews data on new devices and makes recommendations regarding their safety and effectiveness and their suitability for marketing.

Agenda—Open public hearing. Interested persons may present data, information, or views, orally or in writing, on issues pending before the committee. Those desiring to make formal presentations should notify the executive secretary before October 1 and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, and an indication of the approximate time required to make their comments.

Open committee discussion. The committee will discuss premarket approval applications or general issues relating to contact lens or other ophthalmic products.

Science Advisory Board—Logistics Systems Subcommittee

Date, time, and place. October 21 and 22, 9 a.m., Conference Room, Bldg. 13, National Center for Toxicological Research, Jefferson, AR.

Type of meeting and contact person. Open public hearing, 9 a.m. to 10 a.m., open committee discussion, 10 a.m. to 4:30 p.m.; Lawrence L. Fishbein, National Center for Toxicological Research (HFT–30), Jefferson, AR 72079, 501–541–4390.

General function of the committee. To assist the Director, National Center for Toxicological Research, in establishing and implementing as well as reviewing a

research program including support areas that will assist the Commissioner of Food and Drugs and the Administrator, Environmental Protection Agency, in fulfulling their regulatory responsibilities. The Board, as a whole or under the subcommittee structure, provides the extra-agency review in ensuring that research programs and methodology development at National Center for Toxicological Research are scientifically sound and pertient to environmental problems.

Agenda—Open public hearing. Any interested persons may present data, information, or views, orally or in writing, on issues pending before the committee.

Agenda—Open committee discussion. The Subcommittee will hear reports and make recommendations on the following agenda items: (a) Review of existing facilities: (1) Recommendations as to equipment requirements for diet preparation and animal husbandry; (2) renovations of existing facilities for diet preparation and animal care areas; and (3) controls for maintaining good laboratory practice standards in diet preparation and animal care areas. (b) Review of flow processes in animal husbandry, diet preparation, and pathology. (c) Review of the science management tracking system: (1) administrative systems; (2) experimental tracking systems; and (3) computerization of systems.

Fertility and Maternal Health Drugs Advisory Committee

Date, time, and place. October 28 and 29, 9 a.m., Conference Rms. G and H, Parklawn Bldg., 5600 Fishers Lane, Rockville, MD.

Type of meeting and executive secretary. Open public hearing, October 28, 9 a.m. to 10 a.m.; open committee discussion, October 28, 10 a.m. to 5 p.m.; October 29, 9 a.m. to 5 p.m.; A. T. Gregoire, National Center for Drugs and Biologics (HFD–130), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–1889.

General function of the committee. The committee reviews and evaluates available data concerning the safety and effectiveness of marketed and investigational prescription drug products for use in obstetrics, gynecology, and contraception.

Agenda—Open public hearing. Interested persons who wish to present data, information, or views, orally or in writing, on issues pending before the committee should contact the committee executive secretary.

Open committee discussion. On October 28, the committee will discuss (1) the safety and efficacy of the small Cu7 intrauterine device (NDA 18–601) and (2) the efficacy and labeling of "Secure", a vaginal contraceptive sponge (NDA 18–683). On October 29, the Committee will discuss (1) the FDA action report, (2) animal testing requirements for new parenteral formulations of previously approved oral progestagens, and (3) draft guidelines for the testing of GnRH and its analogues.

FDA public advisory committee meetings may have as many as four separable portions: (1) An open public hearing, (2) an open committee discussion, (3) a closed presentation of data, and (4) a closed committee deliberation. Every advisory committee meeting shall have an open public hearing portion. Whether or not it also includes any of the other three portions will depend upon the specific meeting involved. There are no closed portions for the meetings announced in this notice. The dates and times reserved for the open portions of each committee meeting are listed above.

The open public hearing portion of each meeting shall be at least 1 hour long unless public participation does not last that long. It is emphasized, however, that the 1 hour time limit for an open public hearing represents a minimum rather than a maximum time for public participation, and an open public hearing may last for whatever longer period the committee chairman determines will facilitate the committee's work.

Meetings of advisory committees shall be conducted, insofar as is practical, in accordance with the agenda published in this **Federal Register** notice. Changes in the agenda will be announced at the beginning of the open portion of a meeting.

Any interested person who wishes to be assured of the right to make an oral presentation at the open public hearing portion of a meeting shall inform the contact person listed above, either orally or in writing, prior to the meeting. Any person attending the hearing who does not in advance of the meeting request an opportunity to speak will be allowed to make an oral presentation at the hearing's conclusion, if time permits, at the chairman's discretion.

Persons interested in specific agenda items to be discussed in open session may ascertain from the contact person the approximate time of discussion.

A list of committee members and summary minutes of meetings may be requested from the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857, between 9 a.m. and 4 p.m., Monday through Friday. The FDA regulations relating to public advisory committees may be found in 21 CFR Part 14.

Dated: September 9, 1982.

Joseph P. Hile,

Associate Commissioner for Regulatory Affairs.

BILLING CODE 4160-01-M

[Docket No. 80N–0382; DESI Nos. 64, 6340, 7337, 8658, 10996, and 11792]

Prescription and Over-the-Counter Drug Products Containing Phenacetin; Opportunity for Hearing on Proposal To Withdraw Approval of New Drug Applications

Correction

In FR Doc. 82–21740, published at page 34636, on Tuesday, August 10, 1982, on page 34639, in the third column, in the third full paragraph, in the first line "L. NDA 12–365" should be corrected to read "L. NDA 12–366".

BILLING CODE 1505-01-M

Consumer Participation; Notice of Open Meeting

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing the following consumer exchange meeting: Newark District Office, chaired by Matthew H. Lewis, District Director.

DATE: Tuesday, September 28, 1982, 12:30 p.m. to 2:30 p.m.

ADDRESS: St. Paul's Episcopal Church, 11 York Rd., North Arlington, NJ.

FOR FURTHER INFORMATION CONTACT: Joan Godal, Consumer Affairs Officer, Food and Drug Administration, 20 Evergreen Place, East Orange, NJ 07018, 201–645–6365.

SUPPLEMENTARY INFORMATION: The purpose of this meeting is to encourage dialogue between consumers and FDA officials, to identify and set priorities for current and future health concerns, to enhance understanding and exchange information between local consumers and FDA's District Offices, and to contribute to the agency's policymaking decisions on vital issues.

Dated: September 14, 1982.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

[FR Doc. 82-25288 Filed 9-16-82; 9:45 am]

BILLING CODE 4160-01-M

Burroughs Wellcome Co., Oxytocin Injection and Pentobarbital Solution; Withdrawal of Approval of NADA's

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is withdrawing approval of new animal drug applications (NADA's) sponsored by Burroughs Wellcome Co. for pentobarbital sodium and oxytocin double strength solution. The firm requested withdrawal of approval.

EFFECTIVE DATE: September 27, 1982.

FOR FURTHER INFORMATION CONTACT: David N. Scarr, Bureau of Veterinary Medicine (HFV–214), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–1846.

SUPPLEMENTARY INFORMATION: Wellcome Animal Health Division, Burroughs Wellcome Co., Kansas City, MO 64108, is the sponsor of NADA 2–562 for Toxital Solution (pentobarbital sodium) for intravenous administration in dogs, and NADA 9–147 Oxytocin (double U.S.P. strength) for intravenous, intramuscular, or subcutaneous administration in cats, dogs, ewes, sows, cows, and horses. The firm, by letter dated May 6, 1982, requested withdrawal of approval of these applications because the products have not been manufactured or marketed for many years.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(e), 82 Stat. 345–347 (21 U.S.C. 360b(e))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelegated to the Bureau of Veterinary Medicine (21 CFR 5.84) and in accordance with § 514.115 *Withdrawal of approval of applications* (21 CFR 514.115), notice is given that approval of NADA's 2–562 and 9–147 and all supplements thereto are hereby withdrawn effective September 27, 1982.

Dated: September 9, 1982.

Gerald B. Guest,

Acting Director, Bureau of Veterinary Medicine.

[FR Doc. 82–25502 Filed 9–16–82; 8:45 am]

BILLING CODE 4160–01–M

[Docket No. 82F–0271]

Ciba-Geigy Corp.; Filing of Food Additive Petition

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) announces that Ciba-Geigy Corp. has filed a petition proposing that the food additive regulations be amended to provide for the safe use of polymaleic acid and/or its sodium salt to control mineral scale in beet sugar juice and liquor, or cane sugar juice and liquor.

FOR FURTHER INFORMATION CONTACT: Andrew D. Laumbach, Bureau of Foods (HFF–334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202–472–5690.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786 (21 U.S.C. 348(b)(5))), notice is given that a petition (FAP 2A3652) has been filed by Ciba-Geigy Corp., Hawthorne, NY 10532, proposing that Part 173 (21 CFR Part 173), Subpart A—Polymer Substances for Food Treatment, be amended to provide for the safe use of polymaleic acid and/or its sodium salt to control mineral scale in beet sugar juice and liquor, or cane sugar juice and liquor.

The potential environmental impact of this action is being reviewed. If the agency finds that an environmental impact statement is not required and this petition results in a regulation, the notice of availability of the agency's finding of no significant impact and the evidence supporting that finding will be published with the regulation in the **Federal Register** in accordance with 21 CFR 25.40(c) (proposed December 11, 1979; 44 FR 71742).

Dated: September 9, 1982.

Sanford A. Miller,

Director, Bureau of Foods.

BILLING CODE 4160–01–M

[Docket No.82D–0049

Defect Action Levels for Insect Fragments and Rodent Hairs in Macaroni and Noodle Products; Availability of Guide

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) announces the availability of compliance Policy Guide 7102.06 that revises the established defect action levels for insect fragments and rodent hairs in macaroni and noodle products.

DATE: Comments, data, and information may be submitted by September 19, 1983.

ADDRESS: Written comments, data, and information on the defect action levels and requests for single copies of FDA's Compliance Policy Guide 7102.06 may be submitted to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Elizabeth J. Campbell, Bureau of Foods (HFF–312), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202–245–3092.

SUPPLEMENTARY INFORMATION: FDA collected 1,500 samples of macaroni and noodle products from the retail market and analyzed them for insect and rodent filth. As a result of this analysis, FDA established defect action levels for insect and rodent filth in macaroni and products as an average of 25 or more insect fragments per 225 grams or an average of 1.2 rodent hairs per 225 grams. After these action levels were published, the agency discovered that they conflicted with the action levels established for insect and rodent filth in soft wheat flour.

Macaroni and noodle products are normally made from hard flours (durum flour, semolina, and farina), which are not included in the action levels for flour (soft wheat flour). However, the standards of identity for macaroni and products (21 CFR Part 139) also allow the use of soft wheat flour for which defect action levels have been established.

The defect action levels for macaroni and noodle products are lower than those for soft wheat flour. Thus, macaroni or noodle products manufactured from nonviolative soft wheat flour may violate the action levels set for macaroni and noodle products. Therefore, although the results of the retail market survey indicate that soft wheat flour is not commonly used in the manufacture of macaroni and noodle products, the action levels for macaroni and noodle products have been revised to permit the use of nonviolative soft wheat flour in such products.

The revised action levels for macaroni and noodle products are based on those established for soft wheat flour. Under the standards of identity, macaroni and noodle products may be made entirely of soft wheat flour. Therefore, the action levels for macaroni products have been established by extrapolation from the action levels for flour. The resulting action levels for macaroni products, as set forth in revised Compliance Policy Guide 7102.06, are an average of 225 insect fragments or more per 225 grams of product or an average of 4.5 rodent hairs or more per 225 grams of product.

Background data and information concerning the establishment of these defect action levels have been filed with the Dockets Management Branch (address above), along with a copy of

Compliance Policy Guide 7102.06, and are available in that office for public examination between 9 a.m. and 4 p.m., Monday through Friday. Requests for single copies of Compliance Policy Guide 7102.06 should be submitted in writing to the Dockets Management Branch. During the year following publication of this notice in the Federal Register, FDA invites interested persons to submit any relevant data and information showing why these revised levels should be changed. These action levels will remain in effect until FDA has evaluated all the available data and has published its decision in the Federal Register.

Interested persons may submit to the Dockets Management Branch written comments, data, and information regarding these defect action levels. Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: September 9, 1982.

Joseph P. Hile,

Associate Commissioner for Regulatory Affairs.

[FR Doc. 82-25866 Filed 9-16-82; 8:45 am]

BILLING CODE 4160-01-M

[Docket No. 82D-0233]

Defect Action Level for Mold in Apricot, Peach, and Pear Nectars; Revision of Guide

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is revising defect action levels for apricot, peach, and pear nectars that are contaminated by mold.

DATE: Comments, data, and information may be submitted by September 19, 1983.

ADDRESS: Written comments, data, and information on the revised defect action levels and requests for single copies of FDA Compliance Policy Guide 7110.31 should be submitted to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Elizabeth J. Campbell, Bureau of Foods (HFF-312), Food and Drug Administration, 200 C St. SW., Washington, D.C. 20204, 202-245-3092.

SUPPLEMENTARY INFORMATION: Defect action levels are guidelines that, although not promulgated in a rulemaking proceeding, are evaluated by FDA for any potential impact on the affected industry. In some instances in the past, FDA has set action levels on the basis of studies of the actual levels of defects found in correlation with the attendant natural variables manufacturing practices, and sanitary conditions. Although FDA recognizes that the actual level of defects constitutes the best data on which to base defect action levels, the agency lacks the manpower and resources to obtain these kinds of data. In some cases, the agency may obtain data on which to base a defect action level from a retail survey, an alternative procedure that is also adequate.

A defect in a food may have been introduced during growth, processing, storage, or shipment. When defects are present at levels that meet or exceed defect action levels, FDA considers the condition of the products sufficiently defective, even with no attendant history of production, to justify regulatory action. When there is, or FDA has, evidence of insanitary conditions of production of storage, the agency may initiate regulatory action even when the adulteration is below the action level.

In the Federal Register of July 31, 1981 (46 FR 39222), FDA announced the availability of FDA Compliance Policy Guide (CPG) 7110.31 "Apricot, Peach, and Pear Nectars—Adulteration with Mold." The guide, which was based on data from a retail survey, established a defect action level that anticipated regulatory action when the average Howard mold count for six or more subsamples is 5 percent or above or if the Howard mold count for any one subsample is 20 percent or above. The notice invited comments on the defect action level. In response to the invitation, the National Food Processors Association (NFPA) submitted comments to the agency and submitted data stating that the action level would have adverse economic effects on the affected industry. The NFPA said that the action level should be far less stringent and that the sample preparation procedures specified in CPG 7110.31 were inappropriate.

As discussed above, the agency believes that the retail survey it used to obtain data is appropriate for the purpose of establishing the defect action level. However, after reviewing the comments and the summary of data presented, FDA agrees that there may be a greater adverse economic impact on the fruit nectar industry than the agency originally estimated. Accordingly, FDA has revised Compliance Policy Guide 7110.31 to provide a less stringent defect action level. Under revised CPG 7110.31, FDA will initiate regulatory action when the average Howard mold count for six or more subsamples is 12 percent or above. Regulatory actions will not be taken when only one subsample exceeds the action level. Further, the revised defect action level specifies that for the next 12 months, mold counts will be made on samples without further treatment (i.e., centrifuging). However, as discussed subsequently, after the 12-month period, samples will be subjected to the preparation procedures in official methodology. FDA believes that the new action level is still stringent enough to ensure that industry will produce apricot, peach, and pear nectars with only trivial and harmless levels of mold. Although FDA does not agree with the comments that the sample preparation procedures of CPG 7110.31 are inappropriate, the agency concludes that affected firms should have ample time to review and comment on the procedures before they are implemented. Accordingly, FDA is instructing its personnel not to use the new procedures for 12 months because many firms do not have the equipment required.

Background data and information concerning the revised defect action levels are on file in the Dockets Management Branch, along with a copy of Compliance Policy Guide 7110.31 and are available in that office for public examination between 9 a.m. and 4 p.m., Monday through Friday. Requests for single copies of FDA Compliance Policy Guide 7110.31 should refer to the docket number found in brackets in the heading of this document and should be submitted to the Dockets Management Branch, Food and Drug Administration (address above). During the year following publication of this notice in the Federal Register, FDA invites interested persons to submit any relevant data and information showing why these revised levels should be changed.

Interested persons may submit to the Dockets Management Branch, Food and Drug Administration, written comments, data, and information regarding these revised defect action levels. Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: September 9, 1982.

Joseph P. Hile,

Associate Commissioner for Regulatory Affairs.

BILLING CODE 4160-01-M

Hess & Clark, Inc.; PŌL Solution; Withdrawal of Approval of NADA

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is withdrawing approval of a new animal drug application (NADA) sponsored by Hess & Clark, Inc., providing for use of PŌL Solution for removing horns from calves and kids. The firm requested the withdrawal of approval.

EFFECTIVE DATE: September 27, 1982.

FOR FURTHER INFORMATION CONTACT: David N. Scarr, Bureau of Veterinary Medicine (HFV–214), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–3183.

SUPPLEMENTARY INFORMATION: Hess & Clark, Inc., Seventh and Orange Sts., Ashland, OH 44805, is sponsor of NADA 6–074 which provides for use of the preparation PŌL Solution (antimony trichloride 26.5 percent and salicylic acid 6.75 percent) for removing horns from calves and kids.

The product was approved November 4, 1940. In their submission of May 4, 1982 to the Bureau of Veterinary Medicine, Hess & Clark requested withdrawal of approval of the NADA because the product is not being marketed. Approval of this NADA has not been codified in the Code of Federal Regulations.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(e), 82 Stat. 345–347 (21 U.S.C. 360b(e))) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.10) and redelegated to the Bureau of Veterinary Medicine (21 CFR 5.84), and in accordance with § 514.115 *Withdrawal of approval of applications* (21 CFR 514.115), notice is given that approval of NADA 6–074 and all supplements for Hess & Clark's PŌL Solution is hereby withdrawn, effective September 27, 1982.

Dated: September 9, 1982.

Gerald B. Guest,

Acting Director, Bureau of Veterinary Medicine.

BILLING CODE 4160-01-M

[Docket No. 82M-0198]

Sof-Form, Inc.; Premarket Approval of SOF-FORM® II (Polymacon) Hydrophilic Contact Lenses

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing its approval of the application for premarket approval under the Medical Device Amendments of 1976 of SOF-FORM® II (polymacon) Hydrophilic Contact Lenses, sponsored by Sof-Form Inc., Sarasota, FL. The lenses are to be manufactured under an agreement with National Patent Development Corp., New Brunswick, NJ, which has authorized Sof-Form, Inc., to incorporate by reference information contained in its approved premarket approval application for the Hydron® (polymacon) Hydrophilic Contact Lens. After reviewing the recommendation of the Ophthalmic Device Section of the Ophthalmic; Ear, Nose, and Throat; and Dental Devices Panel, FDA notified the sponsor that the application was approved because the device had been shown to be safe and effective for use as recommended in the submitted labeling.

DATE: Petitions for administrative review by October 18, 1982.

ADDRESS: Requests for copies of the summary of safety and effectiveness data and petitions for administrative review may be sent to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Charles Kyper, Bureau of Medical Devices (HFK–402), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 301–427–7445.

SUPPLEMENTARY INFORMATION: On March 5, 1982, Sof-Form, Inc., Sarasota, FL, submitted to FDA an application for premarket approval of SOF-FORM® II (polymacon) Hydrophilic Contact Lenses for daily wear. The application included authorization from the National Patent Development Corp., New Brunswick, NJ, to incorporate by reference the information contained in its approved premarket approval application for the Hydron® (polymacon) Hydrophilic Contact Lens (Docket No. 79M–0244). The application was reviewed by the Ophthalmic Device Section of the Ophthalmic; Ear, Nose, and Throat; and Dental Devices Panel, an FDA advisory committee, which recommended approval of the application for this device. On June 1, 1982, FDA approved the application by a letter to the sponsor from the Acting Director of the Bureau of Medical Devices.

Before enactment of the Medical Device Amendments of 1976 (the amendments) (Pub. L. 94–295, 90 Stat. 539–583), soft contact lenses and solutions were regulated as new drugs. Because the amendments broadened the definition of the term "device" in section 201(h) of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 321(h)), soft contact lenses and solutions are now regulated as class III devices (premarket approval). As FDA explained in a notice published in the Federal Register of December 16, 1977 (42 FR 63472), the amendments provide transitional provisions to ensure continuation of premarket approval requirements for class III devices formerly regulated as new drugs. Furthermore, FDA requires, as a condition to approval, that sponsors of applications for premarket approval of soft contact lenses or solutions comply with the records and reports provisions of Subpart D of Part 310 (21 CFR Part 310) until these provisions are replaced by similar requirements under the amendments.

A summary of the safety and effectiveness data on which FDA's approval is based is on file with the Dockets Management Branch (address above) and is available upon request from that office. A copy of all approved final labeling is available for public inspection at the Bureau of Medical Devices. Contact Charles Kyper (HFK–402), address above. Requests should be identified with the name of the device and the docket number found in brackets in the heading of this document.

The labeling of approved contact lenses states that the lenses are to be used only with certain solutions for disinfection and other purposes. The restrictive labeling informs new users that they must avoid using certain products, such as solutions intended for use with hard contact lenses. However, the restrictive labeling needs to be updated periodically to refer to new lens solutions that FDA approves for use with approved contact lens. A sponsor who fails to update the restrictive labeling may violate the misbranding provisions of section 502 of the act (21 U.S.C. 352) as well as the Federal Trade Commission Act (15 U.S.C. 41–58), as amended by the Magnuson-Moss Warranty-Federal Trade Commission Improvement Act (Pub. L. 93–637). Furthermore, failure to update restrictive labeling to refer to new solutions that may be used with an approved lens may be grounds for withdrawing approval of

the application for the lens, under section 515(e)(1)(F) of the act (21 U.S.C. 360e(e)(1)(F)). Accordingly, whenever FDA publishes a notice in the **Federal Register** of the agency's approval of a new solution for use with an approved lens, the sponsor of the lens shall correct its labeling to refer to the new solution at the next printing or at any other time FDA prescribes by letter to the sponsor.

Opportunity for Administrative Review

Section 515(d)(3) of the act (21 U.S.C. 360e(d)(3)) authorizes any interested person to petition under section 515(g) of the act (21 U.S.C. 360e(g)) for administrative review of FDA's decision to approve this application. A petitioner may request either a formal hearing under Part 12 (21 CFR Part 12) of FDA's administrative practices and procedures regulations or a review of the application and FDA's action by an independent advisory committee of experts. A petition is to be in the form of a petition for reconsideration of FDA action under § 10.33(b) (21 CFR 10.33(b)). A petitioner shall identify the form of review requested (hearing or independent advisory committee) and shall submit with the petition supporting data and information showing that there is a genuine and substantial issue of material fact for resolution through administrative review. After reviewing the petition, FDA will decide whether to grant or deny the petition and will publish a notice of its decision in the **Federal Register**. If FDA grants the petition, the notice will state the issues to be reviewed, the form of review to be used, the persons who may participate in the review, the time and place where the review will occur, and other details.

Petitioners may, at any time on or before October 18, 1982, file with the Dockets Management Branch (address above) four copies of each petition and supporting data and information, identified with the name of the device and the docket number found in brackets in the heading of this document. Received petitions may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: September 13, 1982.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

[FR Doc. 82-25300 Filed 9-16-82; 8:45 am]

BILLING CODE 4160-01-M

[Docket No. 82F-0272]

Sun Chemical Corp.; Filing of Food Additive Petition

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that Sun Chemical Corp. has filed a petition proposing that the food additive regulations be amended to provide for the safe use of propylene glycolated poly(*N*-1',2'-dihydroxyethylene-4-hydroxy-5-methylpyrimid-2-one) copolymer as a starch insolubilizer in paper coatings intended to contact dry food.

FOR FURTHER INFORMATION CONTACT: Vir Anand, Bureau of Foods (HFF-334), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-472-5690.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5), 72 Stat. 1786 (21 U.S.C. 348(b)(5))), notice is given that a petition (FAP 2B3651) has been filed by Sun Chemical Corp., P.O. Box 70, Chester, SC 29706, proposing that the food additive regulations be amended to provide for the safe use of propylene glycolated poly(*N*-1',2'-dihydroxyethylene-4-hydroxy-5-methylpyrimid-2-one) copolymer as a starch insolubilizer in paper coatings intended to contact dry food.

The potential environmental impact of this action is being reviewed. If the agency finds that an environmental impact statement is not required and this petition results in a regulation, the notice of availability of the agency's finding of no significant impact and the evidence supporting that finding will be published with the regulation in the **Federal Register** in accordance with 21 CFR 25.40(c) (proposed December 11, 1979; 44 FR 71742).

Dated: September 8, 1982.

Sanford A. Miller,

Director, Bureau of Foods.

BILLING CODE 4160-01-M

[Docket No. 82M-0242]

Teledyne Industries, Inc., Teledyne Avionics Division; Premarket Approval of Sleep Sentry®

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing its approval of the application for premarket approval under the Medical Device Amendments of 1976 of the Sleep Sentry® sponsored by Teledyne Industries, Inc., Teledyne Avionics Division, Charlottesville, VA. After reviewing the recommendation of the General Hospital and Personal Use Device Section of the General Medical Devices Panel, FDA notified the sponsor that the application was approved because the device had been shown to be safe and effective for use as recommended in the submitted labeling.

DATE: Petitions for administrative review by October 18, 1982.

ADDRESS: Requests for copies of the summary of safety and effectiveness data and petitions for administrative review may be sent to the Dockets Management Branch (HFA-305), Food and Drug Administration, Rm. 4-62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Charles Kyper, Bureau of Medical Devices (HFK-402), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 301-427-7445.

SUPPLEMENTARY INFORMATION: On August 28, 1981, Teledyne Industries, Inc., Teledyne Avionics Division, Charlottesville, VA, submitted to FDA an application for premarket approval of the Sleep Sentry®, a monitor for skin temperature drop or a galvanic skin resistance drop in the area of the wrist to warn diabetics between the ages of 7 and 55 that one of two common symptoms of hypoglycemia is present. The application was reviewed by the General Hospital and Personal Use Device Section of the General Medical Devices Panel, an FDA advisory committee, which recommended approval of the application for this device. On July 8, 1982, FDA approved the application by a letter to the sponsor from the Acting Associate Director for Device Evaluation for the Bureau of Medical Devices.

A summary of the safety and effectiveness data on which FDA's approval is based is on file in the Dockets Management Branch (address above) and is available upon request from that office. A copy of all approved final labeling is available for public inspection at the Bureau of Medical Devices. Contact Charles Kyper (HFK-402), address above. Requests should be identified with the name of the device and the docket number found in brackets in the heading of this document.

Opportunity for Administrative Review

Section 515(d)(3) of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 360e(d)(3)) authorizes any interested person to petition under

section 515(g) of the act (21 U.S.C. 360e(g)) for administrative review of FDA's decision to approve this application. A petitioner may request either a formal hearing under Part 12 (21 CFR Part 12) of FDA's administrative practices and procedures regulations or a review of the application and of FDA's action by an independent advisory committee of experts. A petition is to be in the form of a petition for reconsideration of FDA action under § 10.33(b) (21 CFR 10.33(b)). A petitioner shall identify the form of review requested (hearing or independent advisory committee) and shall submit with the petition supporting data and information showing that there is a genuine and substantial issue of material fact for resolution through administrative review. After reviewing the petition, FDA will decide whether to grant or deny the petition and will publish a notice of its decision in the **Federal Register.** If FDA grants the petition, the notice will state the issue to be reviewed, the form of review to be used, the persons who may participate in the review, the time and place where the review will occur, and other details.

Petitioners may, at any time on or before October 18, 1982, file with the Dockets Management Branch (address above), four copies of each petition and supporting data and information, identified with the name of the device and the docket number found in brackets in the heading of this document. Received petitions may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: September 13, 1982.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

BILLING CODE 4160-01-M

National Institutes of Health

Clinical Applications and Prevention Advisory Committee; Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Clinical Applications and Prevention Advisory Committee, Division of Heart and Vascular Diseases, National Heart, Lung, and Blood Institute, National Institutes of Health, November 8, 1982. The meeting will be held at the Federal Building, 7550 Wisconsin Avenue, Conference Room B119, Bethesda, Maryland 20205.

This meeting will be open to the public from 8:30 a.m. to adjournment to discuss new initiatives and program policies and issues. Attendance by the public is limited to space available.

Ms. Terry Bellicha, Chief, Public Inquiry Reports Branch, National Heart, Lung, and Blood Institute, Building 31, Room 4A21, National Institutes of Health, Bethesda, Maryland 20205, phone (301) 496-4236, will provide summaries of meetings and rosters of committee members. Dr. William Friedewald, Executive Secretary of the Committee, Federal Building, Room 212, Bethesda, Maryland 20205, Phone (301) 496-2533, will furnish substantive program information.

Note.—NIH programs are not covered by OMB Circular A-95 because they fit the description of "programs not considered appropriate" in Section 8(b) (4) and (5) of that Circular.

Dated: September 1, 1982.

(Catalog of Federal Domestic Assistance Program No. 13.837, Heart and Vascular Diseases Research, National Institutes of Health)

Betty J. Beveridge,

NIH Committee Management Officer.

BILLING CODE 4140-01-M

Division of Research Grants; Meetings

Pursuant to Pub. L. 92-463, notice is hereby given of the meetings of the following study sections for October through December 1982, and the individuals from whom summaries of meetings and rosters of committee members may be obtained.

These meetings will be open to the public to discuss administrative details relating to study section business for approximately one hour at the beginning of the first session of the first day of the meeting. Attendance by the public will be limited to space available. These meetings will be closed thereafter in accordance with the provisions set forth in Sections 552b(c)(4) and 552b(c)(6), Title 5, U.S. Code and Section 10(d) of Pub. L. 92-463, for the review, discussion and evaluation of individual grant applications. These applications and the discussions could reveal confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

The Grants Inquiries Office, Division of Research Grants, Westwood Building, National Institutes of Health, Bethesda, Maryland 20205, telephone 301-496-7441 will furnish summaries of the meetings and rosters of committee members. Substantive program information may be obtained from each executive secretary whose name, room number, and telephone number are listed below each study section. Since it is necessary to schedule study section meetings months in advance, it is suggested that anyone planning to attend a meeting contact the executive secretary to confirm the exact date, time and location. All times are A.M. unless otherwise specified.

BILLING CODE 4140-01-M

Health Resources and Services Administration

Redesignation; Iowa Health Service Area No. 1

AGENCY: Health Resources and Services Administration, Public Health Service, HHS.

ACTION: Notice Regarding Redesignation of Iowa Health Service Area 1.

SUMMARY: In accordance with Section 1511(b)(4) of the Public Health Service Act, as amended by Pub. L. 96–79, the Secretary of Health and Human Services has determined that Iowa Health Service Area 1 should be revised to include the Iowa counties of Harrison, Shelby, Pottawattamie, Mills, Montgomery, Adams, Fremont, Page, and Taylor. This revision constitutes approval of a redesignation request initiated by the Governor of Iowa on February 11, 1982. The request complied with all of the requirements of the Interim Regulations on the Revision of Health Service Area Boundaries published in the **Federal Register**, Vol. 47, No. 136, July 15, 1982.

Accordingly, Iowa Health Service Area 1 is revised to comprise the following counties: Lyon, Osceola, Dickinson, Emmet, Kossuth, Winnebago, Worth, Mitchell, Howard, Winneshiek, Allamakee, Sioux, O'Brien, Clay, Palo Alto, Hancock, Cerro Gordo, Floyd, Chickasaw, Plymouth, Cherokee, Buena Vista, Pocahontas, Humboldt, Wright, Franklin, Butler, Bremer, Fayette, Clayton, Woodbury, Ida, Sac, Calhoun, Webster, Hamilton, Hardin, Grundy, Black Hawk, Buchanan, Delaware, Dubuque, Monona, Crawford, Carroll, Green, Boone, Story, Marshall, Tama, Benton, Linn, Jones, Jackson, Harrison, Shelby, Audubon, Guthrie; Dallas, Polk, Jasper, Poweshiek, Iowa, Johnson, Cedar, Clinton, Pottawattamie, Cass, Adair, Madison, Warren, Marion, Mahhaska, Keokuk, Washington, Louisia, Mills, Montgomery, Adams, Union, Clarke, Lucas, Monroe, Wapello, Jefferson, Henry, Des Moines, Fremont, Page, Taylor, Ringgold, Decatur, Wayne, Appanoose, Davis, Van Buren, and Lee. Dakota County, Nebraska (population 16,573) is deleted from Iowa Health Service Area 1. The redesignation increases the population of Iowa Health

Service Area 1 to 2,712,979 (1980 estimate).

FOR FURTHER INFORMATION CONTACT: William R. Berry, Acting Associate Director for Health Planning, Bureau of Health Maintenance Organizations and Resources Development, 3700 East-West Highway, Room 6–22, Hyattsville, Maryland 20782, (301) 436–6850.

Dated: September 15, 1982.

Robert Graham,

Administrator, Assistant Surgeon General.

BILLING CODE 4160–15–M

Office of the Secretary

Agency Forms Submitted to the Office of Management and Budget for Clearance

Each Friday the Department of Health and Human Services (HHS) publishes a list of information collection packages it has submitted to the Office of Management and Budget (OMB) for clearance in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). The following are those packages submitted to OMB since the last list was published on September 10.

Public Health Service

Health Resources Administration

Subject: Health Professions Student Loan and Nursing Student Loan Programs Administrative Forms (0915–0044)—Revision.

Respondents: Educational institutions.

OMB Desk Officer: Richard Eisinger.

Centers for Disease Control

Subject: Application for Approval of Respiratory Protective Devices (0920–0109)—Extension.

Respondents: Manufacturers of respirators.

OMB Desk Officer: Richard Eisinger.

Food and Drug Administration

Subject: Medicated Feed Application (0910–0011)—Extension.

Respondents: Manufacturers of medicated feed.

OMB Desk Officer: Fay S. Iudicello.

Office of the Secretary

Subject: Recipient Earnings Per Month—New.

Respondents: Employers of 300 randomly selected SSI recipients.

OMB Desk Officer: Richard Eisinger.

Subject: A Study of the Financing of Graduate Medical Education (0990–0082)—Revision.

Respondents: Nurses, physicians, physician extenders.

OMB Desk Officer: Milo Sunderhauf.

Copies of the above information collection clearance packages can be obtained by calling the HHS Reports Clearance Officer on 202–245–6511.

Written comments and recommendations for the proposed information collections should be sent directly to both the HHS Reports Clearance Officer and the appropriate OMB Desk Officer designated above at the following addresses:

J. J. Strnad, HHS Reports Clearance Officer, Hubert H. Humphrey Building, Room 524–F, Washington, D.C. 20201.

OMB Reports Management Branch, New Executive Office Building, Room 3208, Washington, D.C. 20503.

ATTN: (Name of OMB Desk Officer).

Dated: September 12, 1982.

Dale W. Sopper,

Assistant Secretary for Management and Budget.

BILLING CODE 4150–04–M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Community Planning and Development

[Docket No. N–82–1164]

Community Development Block Grant Program

AGENCY: Assistant Secretary for Community Planning and Development, HUD.

ACTION: Notice.

SUMMARY: HUD is issuing a Notice of the dates for submission of applications to HUD Area Offices for the HUD-operated Small Cities Program under the Community Development Block Grant Program for Fiscal Year 1982.

FOR FURTHER INFORMATION CONTACT: Helen Duncan, Small Cities Division, Office of Community Planning and Development, Department of Housing and Urban Development, Washington, D.C. 20410, (202) 755–6322. (This is not a toll free number.)

SUPPLEMENTARY INFORMATION: Notice is hereby given that in accordance with 24 CFR 570.420(h)(3) the Department of Housing and Urban Development (HUD) has established dates for submission of applications for Small Cities Program Grants in those States where HUD is administering the program, to be accepted by HUD for Fiscal Year 1982.

For all applicants, from both metropolitan and nonmetropolitan areas, the earliest and latest date for submission are dates established below for each State. Applications for funding under the Single Purpose and Comprehensive Grant provisions of the HUD-operated Small Cities Program will be accepted only during the designated time period. Applications received in the Area Office after the deadline must be postmarded no later than the applicable deadline submission date. Any applications postmarked after that date are unacceptable and will be returned.

Applicants are hereby advised to submit their applications for Single Purpose Grants pursuant to 24 CFR 570.430, or their applications for Comprehensive Grants pursuant to 24 CFR 570.426, to the appropriate HUD Area Office serving the applicant's jurisdiction.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[INT FEIS 82-30]

Final Brothers Grazing Management Environmental Impact Statement; Availability of FEIS

AGENCY: Bureau of Land Management, Interior.

SUMMARY: Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a Final Environmental Impact Statement for the Brothers EIS area. The proposal involves implementing a livestock grazing program on public lands within the Brothers EIS area of the Prineville District in central Oregon.

Public reading copies will be available for review at the following locations:

Bureau of Land Management, Office of Public Affairs, 825 N.E. Multnomah Street, Portland, Oregon
Bureau of Land Management, Prineville District Office, 185 East Fourth St., Prineville, Oregon
Library, University of Oregon, Eugene, Oregon
Central Oregon Community College, College Way, Bend, Oregon
Library, Portland State University, 727 SW Harrison, Portland, Oregon
Harney County Library, 80 West D, Burns, Oregon
Crook County Library, 200 East 2nd, Prineville, Oregon
Deschutes County Library, 507 N.W. Wall, Bend, Oregon
Library, Oregon State University, Corvallis, Oregon

A limited number of copies are available upon request to the BLM Oregon State Office or the Prineville District Office.

Comments for the District Manager's consideration in development of the decision will be accepted until October 30, 1982.

Written comments may be sent to: Prineville District Manager, Bureau of Land Management, P.O. Box 550, Prineville, Oregon 97754.

Dated: August 24, 1982.

Stanley D. Butzer,

Chief, Division of Resources.

BILLING CODE 4310-84-M

[F-14931-A, F-14931-B]

Alaska Native Claims Selection

On September 27, 1974, and November 19, 1974, Zho-Tse, Incorporated, for the Native village of Shageluk, filed selection applications F-14931-A and F-14931-B, respectiveley, under the provisions of section 12 of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1611 (1976)) (ANCSA), as amended, for the surface estate of certain lands in the vicinity of Shageluk.

Zho-Tse, Incorporated, in its applications excluded several bodies of water. Because certain of those water bodies have been determined to be nonnavigable, they are considered to be public lands withdrawn under section 11(a)(1) and available for selection by the village pursuant to section 12(a) of ANCSA.

Section 12(a) and 43 CFR 2651.4 (b) and (c) provide that the village corporation shall select all available lands within the township or townships within which the village is located. The regulations also provide that the area selected will not be considered to be reasonably compact if it excludes other lands available for selection within its exterior boundaries.

For these reasons, the water bodies which were improperly excluded in Zho-Tse, Incorporated's applications are considered selected.

As to the lands described below, the applications, as amended, are properly filed and meet the requirements of ANCSA, as amended, and of the regulations issued pursuant thereto. These lands do not include any lawful entry perfected under or being maintained in compliance with laws leading to acquisition of title.

In view of the foregoing, the surface estate of the following described lands, selected pursuant to section 12(a) of ANCSA, as amended, aggregating approximately 86,358 acres, is considered proper for acquisition by Zho-Tse, Incorporated, and is hereby approved for conveyance pursuant to section 14(a) of ANCSA.

U.S. Survey No. 2045, of the School Reserve, reserved under Executive Order No. 5289, dated March 4, 1930, situated in the unsurveyed village of Shageluk, Alaska.
Containing 3.10 acres.
Lots 1 and 4 of U.S. Survey No. 4086, Alaska, situated at Shageluk.
Containing 5.01 acres.
Block 9, lot 3 of U.S. Survey No. 4493, Alaska, Shageluk Addition Townsite, situated on the left bank of the Innoko River, approximately one and one-half miles downstream from the old village of Shageluk.
Containing 4.84 acres.
Aggregating 12.95 acres.

Seward Meridian, Alaska (Surveyed)

Sec. 12;
Sec. 13, excluding Native allotment F–15480.

Containing approximately 1,723 acres.
Aggregating approximately 66,345 acres.
Total aggregated acreage approximately 66,350 acres.

Excluded from the above-described lands herein approved for conveyance are the submerged lands, up to the ordinary high water mark, beneath all water bodies determined by the Bureau of Land Management to be navigable because they have been or could be used in connection with travel, trade and commerce. Those water bodies are identified on the attached navigability maps, the original of which will be found in easement case file F–14931–EE.

All other water bodies not depicted as navigable on the attached maps, within the lands to be conveyed, were reviewed. Based on existing evidence, they were determined to be nonnavigable.

The lands excluded in the above description are not being approved for conveyance at this time and have been excluded for one of the following reasons: Lands are no longer under Federal jurisdiction; or lands are under applications pending further adjudication. Lands within U.S. Surveys which are excluded are described separately in this decision if they are available for conveyance. These exclusions *do not* constitute a rejection of the selection application unless specifically so stated.

The conveyance issued for the surface estate of the lands described above shall contain the following reservations to the United States:

1. The subsurface estate therein, and all rights, privileges, immunities, and appurtenances, of whatsoever nature, accruing unto said estate pursuant to the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1613(f)), as amended; and

2. Pursuant to section 17(b) of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1616(b)), as amended, the following public easements, referenced by easement identification number (EIN) on the easement maps attached to this document, copies of which will be found in case file F–14931–EE, are reserved to the United States. All easements are subject to applicable Federal, State, or Municipal corporation regulations. The following is a listing of uses allowed for each type of easement. Any uses which are not specifically listed are prohibited.

25 Foot Trail—The uses allowed on a twenty-five (25) foot wide trail easement are: travel by foot, dogsleds, animals, snowmobiles, two- and three-wheel vehicles, and small all-terrain vehicles (less than 3,000 lbs. Gross Vehicle Weight (GVW)).

a. (EIN 3 C3, D1, D9) An easement for an existing access trail twenty-five (25) feet in width from Sec. 25, T. 30 N., R. 53 W., Seward Meridian, westerly to the village of Shageluk and from Shageluk westerly toward the village of Anvik. The uses allowed are those listed above for a twenty-five (25) foot wide trail easement. The season of use will be limited to winter.

b. (EIN 11a C5) An easement for a proposed access trail twenty-five (25) feet in width from the left bank of the Innoko River in Sec. 17, T. 31 N., R. 54 W., Seward Meridian, easterly to public land. The uses allowed are those listed above for a twenty-five (25) foot wide trail easement.

The grant of the above-described lands shall be subject to:

1. Issuance of a patent after approval and filing by the Bureau of Land Management of the official supplemental plat of survey confirming the boundary description and acreage of the lands hereinabove granted;

2. Valid existing rights therein, if any, including but not limited to those created by any lease (including a lease issued under Sec. 6(g) of the Alaska Statehood Act of July 7, 1958 (48 U.S.C. Ch. 2, Sec. 6(g))), contract, permit, right-of-way, or easement, and the right of the lessee, contractee, permittee, or grantee to the complete enjoyment of all rights, privileges, and benefits thereby granted to him. Further, pursuant to Sec. 17(b)(2) of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1616(b)(2)) (ANCSA), as amended, any valid existing right recognized by ANCSA shall continue to have whatever

right of access as is now provided for under existing law;

3. Airport lease F–030056, located in Secs. 10 and 15, T. 30 N., R. 55 W., Seward Meridian, issued to the State of Alaska, Division of Aviation, under the provisions of the act of May 24, 1928 (49 U.S.C. 211–214), as amended;

4. A right-of-way, AA–13869, fifty (50) feet in width, issued to the State of Alaska for a road from the new Shageluk townsite to the Shageluk airport, traversing lands in Secs. 15, 22, 26, and 27, T. 30 N., R. 55 W., Seward Meridian, issued pursuant to Public Law 94–579, October 21, 1976, Title V (43 U.S.C. 1701, 1761); and

5. Requirements of Sec. 14(c) of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1613(c)), that the grantee hereunder convey those portions, if any, of the lands hereinabove granted, as are prescribed in said section.

Zho-Tse, Incorporated, is entitled to conveyance of 92,160 acres of land selected pursuant to Sec. 12(a) of ANCSA. Together with the lands herein approved, the total acreage conveyed or approved for conveyance is approximately 86,358 acres. The remaining entitlement of approximately 5,802 acres will be conveyed at a later date.

Pursuant to Sec. 14(f) of ANCSA and Departmental regulation 43 CFR 2652.4, conveyance of the subsurface estate shall be issued to Doyon, Limited when the surface estate is conveyed to Zho-Tse, Incorporated, and shall be subject to the same conditions as the surface conveyance, except for those provisions under Sec. 14(c) of ANCSA; also the right to explore, develop or remove mineral materials from the subsurface estate in lands within the boundaries of the Native Village of Shageluk shall be subject to the consent of Zho-Tse, Incorporated.

In accordance with Departmental regulation 43 CFR 2650.7(d), notice of this decision is being published once in the **Federal Register** and once a week for four (4) consecutive weeks, in the Tundra Times.

Any party claiming a property interest in lands affected by this decision, an agency of the Federal government, or regional corporation may appeal the decision to the Interior Board of Land Appeals, Office of Hearings and Appeals, in accordance with the attached regulations in Title 43 Code of Federal Regulations (CFR), Part 4, Subpart E, as revised. However, pursuant to Pub. L. 96–487, this decision constitutes the final administrative determination of the Bureau of Land Management concerning navigability of water bodies.

If an appeal is taken the notice of appeal must be filed in the Bureau of Land Management, Alaska State Office, Division of ANCSA and State Conveyances, (960), 701 C Street, Box 13, Anchorage, Alaska 99513. Do not send the appeal directly to the Interior Board of Land Appeals. The appeal and copies of pertinent case files will be sent to the Board from this office. A copy of the appeal must be served upon the Regional Solicitor, 510 L Street, Suite 100, Anchorage, Alaska 99501.

The time limits for filing an appeal are:

1. Parties receiving service of this decision shall have 30 days from the receipt of this decision to file an appeal.

2. Unknown parties, parties unable to be located after reasonable efforts have been expended to locate, and parties who failed or refused to sign the return receipt shall have until October 18, 1982 to file an appeal.

Any party known or unknown who is adversely affected by this decision shall be deemed to have waived those rights which were adversely affected unless an appeal is timely filed with the Bureau of Land Management, Alaska State Office, Division of ANCSA and State Conveyances.

To avoid summary dismissal of the appeal, there must be strict compliance with the regulations governing such appeal. Further information on the manner of and requirements for filing an appeal may be obtained from the Bureau of Land Management, 701 C Street, Box 13, Anchorage, Alaska 99513.

If an appeal is taken, the parties to be served with a copy of the notice of appeal are:

Zho-Tse, Incorporated, Shageluk, Alaska 99665.

Doyon, Limited, Land Department, Doyon Building, 201 First Avenue, Fairbanks, Alaska 99701.

Ann Johnson,

Chief, Branch of ANCSA Adjudication.

BILLING CODE 4310-84-M

[AA–8103–5]

Alaska Native Claims Selection

On April 2, 1975, Doyon, Limited, filed selection application AA–8103–5, as amended under the provisions of section 12(c) of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1611(c) (1976)) (ANCSA), as amended, for the surface and subsurface estates of certain lands withdrawn pursuant to section 11 (a)(1) in the vicinity of Grayling.

The application excluded the Yellow River as being navigable. As the Yellow River is considered nonnavigable and as section 12(c)(3) of ANCSA and Departmental regulation 43 CFR 2652.3(c) require the region to select all available lands within the township, the bed of this water body is considered selected.

As to the lands described below, the application, as amended, is properly filed and meets the requirements of ANCSA, as amended, and of the regulations issued pursuant thereto. These lands do not include any lawful entry perfected under or being maintained in compliance with laws leading to acquisition of title.

In view of the foregoing, the surface and subsurface estates of the following described lands, selected pursuant to section 12(c) of ANCSA, as amended, aggregating approximately 74,733 acres, are considered proper for acquisition by Doyon, Limited, and are hereby approved for conveyance pursuant to Sec. 14(e) of ANCSA.

Kateel River Meridian, Alaska (Surveyed)

T. 29 S., R. 7 W.
Sec. 1.
Containing approximately 362 acres.

Kateel River Meridian, Alaska (Unsurveyed)

T. 29 S., R. 9 W.
Secs. 1 to 6, inclusive.
Containing approximately 3,373 acres.

Seward Meridian, Alaska (Surveyed)

T. 33 N., R. 55 W.
Secs. 1 to 5, inclusive;
Secs. 7 to 14, inclusive;
Sec. 15, excluding Native allotment F–17786 Parcel A;
Secs. 16 to 21, inclusive;
Sec. 22, excluding Native allotment F–17786 Parcel B;
Secs. 23 to 32, inclusive;
Secs. 33 and 34, excluding U.S. Survey No. 6606 and Native allotment F–027929 Parcel A;
Secs. 35 and 36.
Containing approximately 21,557 acres.

Seward Meridian, Alaska (Unsurveyed)

T. 34 N., R. 58 W.
Secs. 31 to 36, inclusive.
Containing approximately 3,030 acres.
T. 33 N., R. 59 W.
Secs. 1 to 36, inclusive.
Containing approximately 23,005 acres.
T. 32 N., R. 60 W.
Secs. 1 to 36, inclusive.
Containing approximately 22,806 acres.
Aggregating approximately 74,733 acres.

Excluded from the above-described lands herein approved for conveyance are the submerged lands, up to the ordinary high water mark, beneath all

water bodies determined by the Bureau of Land Management to be navigable because they have been or could be used in connection with travel, trade and commerce. Those water bodies are identified on the attached navigability maps, the orignal of which will be found in easement case file AA–16630–5.

All other water bodies not depicted as navigable on the attached maps within the lands to be conveyed were reviewed. Based on existing evidence, they were determined to be nonnavigable.

The lands excluded in the above description are not being approved for conveyance at this time and have been excluded because lands are under applications pending further adjudication. Lands within U.S. Surveys which are excluded are described separately in this decision if they are available for conveyance. These exclusions *do not* constitute a rejection of the selection application, unless specifically so stated.

The conveyance issued for the surface and subsurface estates of the lands described above shall contain the following reservation to the United States:

Pursuant to section 17(b) of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1616(b)), as amended, the following public easements, referenced by easement identification number (EIN) on the easement maps attached to this document, copies of which will be found in case file AA–16630–5, are reserved to the United States. All easements are subject to applicable Federal, State, or Municipal corporation regulation. The following is a listing of uses allowed for each type of easement. Any uses which are not specifically listed are prohibited.

25 Foot Trail—The uses allowed on a twenty-five (25) foot wide trail easement are: travel by foot, dogsleds, animals, snowmobiles, two- and three-wheel vehicles, and small all-terrain vehicles (less than 3,000 lbs. Gross Vehicle Weight (GVW)).

a. (EIN 23 C5) An easement for a proposed access trail twenty-five (25) feet in width from Sec. 31, T. 32 N., R. 59 W., Seward Meridian, southwesterly to Sec. 1, T. 31 N., R. 60 W., Seward Meridian. The uses allowed are those listed above for a twenty-five (25) foot wide trail easement.

b. (EIN 24 C5) An easement for a proposed access trail twenty-five (25) feet in width from Sec. 36, T. 34 N., R. 59 W., Seward Meridian, southeasterly to Sec. 6, T. 33 N, R. 58 W., Seward Meridian. The uses allowed are those listed above for a twenty-five (25) foot wide trail easement.

c. (EIN 25 C5) An easement for a proposed access trail twenty-five (25) feet in width from Sec. 3, T. 29 S., R 6 W., Kateel River Meridian, southwesterly to Sec. 1, T. 33 N., R. 58 W., Seward Meridian. The uses allowed are those listed above for a twenty-five (25) foot wide trail easement.

The grant of the above-described lands shall be subject to:

1. Issuance of a patent after approval and filing by the Bureau of Land Management of the official plat, or supplemental plat, of survey confirming the boundary description and acreage of the lands hereinabove granted; and

2. Valid existing rights therein, if any, including but not limited to those created by any lease (including a lease issued under section 6(g) of the Alaska Statehood Act of July 7, 1958 (48 U.S.C. Ch. 2, section 6(g))), contract, permit, right-of-way, or easement, and the right of the lessee, contractee, permittee, or grantee to complete enjoyment of all rights, privileges, and benefits thereby granted to him. Further, pursuant to section 17(b)(2) of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1616(b)(2) (ANCSA), as amended, any valid existing right recognized by ANCSA shall continue to have whatever right of access as is now provided for under existing law.

To date, approximately 3,617,758 acres of land, selected pursuant to section 12(c) of ANCSA, have been approved for conveyance to Doyon, Limited.

In accordance with Departmental regulation 43 CFR 2650.7(d), notice of this decision is being published once in the **Federal Register** and once a week, for four (4) consecutive weeks, in the Tundra Times.

Any party claiming a property interest in lands affected by this decision, an agency of the Federal government, or regional corporation may appeal the decision to the Interior Board of Land Appeals, Office of Hearing and Appeals, in accordance with the attached regulations in Title 43 Code of Federal Regulations (CFR), Part 4, Subpart E as revised. However, pursuant to Pub. L. 96–487, this decision constitutes the final administrative determination of the Bureau of Land Management concerning navigability of water bodies.

If an appeal is taken the notice of appeal must be filed in the Bureau of Land Management, Alaska State Office, Division of ANCSA and State Conveyances (960), 701 C Street, Box 13, Anchorage, Alaska 99513. Do not send the appeal directly to the Interior Board of Land Appeals. The appeal and copies of pertinent case files will be sent to the Board from this office. A copy of the appeal must be served upon the Regional Solicitor, 510 L Street, Suite 100, Anchorage, Alaska 99501.

The time limits for filing an appeal are:

1. Parties receiving service of this decision shall have 30 days from the receipt of this decision to file an appeal.

2. Unknown parties, parties unable to be located after reasonable efforts have been expended to locate, and parties who failed or refused to sign the return receipt shall have until October 18, 1982 to file an appeal.

Any party known or unknown who is adversely affected by this decision shall be deemed to have waived those rights which were adversely affected unless an appeal is timely filed with the Bureau of Land Management, Alaska State Office, Division of ANCSA and State Conveyances.

To avoid summary dismissal of the appeal, there must be strict compliance with the regulations governing such appeals. Further information on the manner of and requirements for filling an appeal may be obtained from the Bureau of Land Management, 701 C Street, Box 13, Anchorage, Alaska 99513.

If an appeal is taken, the party to be served with a copy of the notice of appeal is: Doyon, Limited, Land Department, Doyon Building, 201 First Avenue, Fairbanks, Alaska 99701.

Ann Johnson,

Chief, Branch of Alaska Native Claims Settlement Act Adjudication.

BILLING CODE 4310–84–M

[F–19155–2]

Alaska Native Claims Selection

On March 31, 1975, Doyon, Limited, filed selection application F–19155–2, as amended, under the provisions of section 12(c) of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1611(c) (1976)) (ANCSA), as amended, for the surface and subsurface estates of certain lands withdrawn pursuant to section 11(a)(1) for the Native village of Beaver. The application excluded several water bodies as being navigable. As these are considered nonnavigable and as section 12(c)(3) of ANCSA and Departmental regulation 43 CFR 2652.3(c) require the region to select all available lands within the township, the beds of these water bodies are considered selected.

As to the lands described below, the application, as amended, is properly filed and meets the requirements of ANCSA, as amended, and of the regulations issued pursuant thereto.

These lands do not include any lawful entry perfected under or being maintained in compliance with laws leading to acquisition of title.

In view of the foregoing, the surface and subsurface estates of the following described lands, selected pursuant to section 12(c) of ANCSA, as amended, aggregating approximately 229,194 acres, are considered proper for acquisition by Doyon, Limited, and are hereby approved for conveyance pursuant to section 14(e) of ANCSA.

Fairbanks Meridian, Alaska (Unsurveyed)

T. 17 N., R. 1 E.
Sec. 1, excluding Native allotment F–026102;
Sec. 2;
Sec. 3, excluding Native allotment F–026098;
Secs. 4, 5, and 6;
Sec. 7, excluding Native allotment F–14654;
Secs. 8 to 17, inclusive;
Sec. 18, excluding Native allotment F–14654;
Secs. 19 to 34, inclusive;
Secs. 35 and 36, excluding Native allotment F–14411 Parcel B.
Containing approximately 15,580 acres.

T. 19 N., R. 1 E.
Secs. 1 to 36, inclusive.
Containing approximately 22,843 acres.

T. 16 N., R. 2 E.
Secs. 1 to 16, inclusive;
Secs. 17 and 18, excluding Native allotments F–14411 Parcel C and F–102094;
Secs. 19 and 20, excluding Native allotment F–020094;
Secs. 21 to 36, inclusive.
Containing approximately 21,892 acres.

T. 20 N., R. 2 E.
Secs. 1 to 36, inclusive.
Containing approximately 22,763 acres.

T. 17 N., R. 3 E.

Secs. 18 and 19;
Sec. 20, excluding Native allotment F–14377 Parcel A;
Sec. 21, excluding Native allotments F–13663 Parcels A and B, and F–13667;
Sec. 22;
Sec. 23, excluding Native allotment F–14651 Parcel B;
Secs. 24 to 36, inclusive.
Containing approximately 16,407 acres.

T. 19 N., R. 1 W.
Secs. 1 and 2;
Sec. 3, excluding Native allotment F–026100 Parcel C;
Secs. 4 to 9, inclusive;
Sec. 10, excluding Native allotments F–14651 Parcel A and F–026100 Parcel C;
Secs. 11 to 36, inclusive.
Containing approximately 22,298 acres.
Aggregating approximately 229,194 acres.

Excluded from the above-described lands herein approved for conveyance are the submerged lands, up to the ordinary high water mark, beneath all water bodies determined by the Bureau of Land Management to be navigable because they have been or could be used in connection with travel, trade and commerce. Those water bodies are identified on the attached navigability maps, the original of which will be found in easement case file F–21779–2.

All other water bodies not depicted as navigable on the attached maps within the lands to be conveyed were reviewed. Based on existing evidence, they were determined to be nonnavigable.

The lands excluded in the above description are not being approved for conveyance at this time and have been excluded because they are under applications pending further adjudication. These exclusions *do not* constitute a rejection of the selection application, unless specifically so stated.

The conveyance issued for the surface and subsurface estates of the lands described above shall contain the following reservation to the United States:

Pursuant to section 17(b) of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1616(b)), as amended, the following public easements, referenced by easement identification number (EIN) on the easement maps attached to this document, copies of which will be found in case file F–21779–2, are reserved to the United States. All easements are subject to applicable Federal, State, or municipal corporation regulation. The following is a listing of uses allowed for each type of easement. Any uses which are not specifically listed are prohibited.

25 Foot Trail—The uses allowed on a twenty-five (25) foot wide trail easement are: travel by foot, dogsled, animals, snowmobiles, two- and three-wheel vehicles, and small all-terrain vehicles (less than 3,000 lbs. Gross Vehicle Weight (GVW)).

a. (EIN 15 D9) An easement twenty-five (25) feet in width for an existing access trail from public lands in Sec. 32, T. 20 N., R. 3 E., Fairbanks Meridian, southerly to Beaver and then on to public lands to the southwest. The uses allowed are those listed above for a twenty-five (25) foot wide trail easement. The season of use will be limited to winter.

b. (EIN 16 C5) An easement twenty-five (25) feet in width for an existing access trail from the village of Beaver in Secs. 29 and 30, T. 18 N., R. 2 E., Fairbanks Meridian, southeasterly to public lands. The uses allowed are those listed above for a twenty-five (25) foot wide trail easement.

c. (EIN 20 D1) An easement twenty-five (25) feet in width for an existing access trail from trail easement EIN 15 D9 in Sec. 20, T. 18 N., R. 2 E., Fairbanks Meridian, northwesterly to public lands. The uses allowed are those listed above for a twenty-five (25) foot wide trail easement.

The grant of the above-described lands shall be subject to:

1. Issuance of a patent after approval and filing by the Bureau of Land Management of the official plat of survey confirming the boundary description and acreage of the lands hereinabove granted; and

2. Valid existing rights therein, if any,

including but not limited to those created by any lease (including a lease issued under section 6(g) of the Alaska Statehood Act of July 7, 1958 (48 U.S.C. Ch. 2, section 6(g))), contract, permit, right-of-way, or easement, and the right of the lessee, contractee, permittee, or grantee to the complete enjoyment of all rights, privileges, and benefits thereby granted to him. Further, pursuant to section 17(b)(2) of the Alaska Native Claims Settlement Act of December 18, 1971 (43 U.S.C. 1601, 1616(b)(2)) (ANCSA), as amended, any valid existing right recognized by ANCSA shall continue to have whatever right of access as is now provided for under existing law.

To date, approximately 3,846,952 acres of land, selected pursuant to section 12(c) of ANCSA, have been approved for conveyance to Doyon, Limited.

In accordance with Departmental regulation 43 CFR 2650.7(d), notice of this decision is being published once in the **Federal Register** and once a week, for four (4) consecutive weeks, in the Fairbanks Daily News-Miner.

Any party claiming a property interest in lands affected by this decision, an agency of the Federal government, or regional corporation may appeal the decision to the Interior Board of Land Appeals, Office of Hearings and Appeals, in accordance with the attached regulations in Title 43 Code of Federal Regulations (CFR), Part 4, Subpart E, as revised. However, pursuant to Pub. L. 96–487, this decision constitutes the final administrative determination of the Bureau of Land Management concerning navigability of water bodies.

If an appeal is taken the notice of appeal must be filed in the Bureau of Land Management, Alaska State Office, Division of ANCSA and State Conveyances, (960), 701 C Street, Box 13, Anchorage, Alaska 99513. Do not send the appeal directly to the Interior Board of Land Appeals. The appeal and copies of pertinent case files will be sent to the Board from this office. A copy of the appeal must be served upon the Regional Solicitor, 510 L Street, Suite 100, Anchorage, Alaska 99501.

The time limits for filing an appeal are:

1. Parties receiving service of this decision shall have 30 days from the receipt of this decision to file an appeal.

2. Unknown parties, parties unable to be located after reasonable efforts have been expended to locate, and parties who failed or refused to sign the return receipt shall have until October 18, 1982 to file an appeal.

Any party known or unknown who is adversely affected by this decision shall be deemed to have waived those rights which were adversely affected unless an appeal is timely filed with the Bureau of Land Management, Alaska State Office, Division of ANCSA and State Conveyances.

To avoid summary dismissal of the appeal, there must be strict compliance with the regulations governing such appeals. Further information on the manner of and requirements for filing an appeal may be obtained from the Bureau of Land Management, 701 C Street, Box 13, Anchorage, Alaska 99513.

If an appeal is taken, the party to be served with a copy of the notice of appeal is: Doyon, Limited, Land Department, Doyon Building, 201 First Avenue, Fairbanks, Alaska 99701.

Ann Johnson,

Chief, Branch of ANCSA Adjudication.

Office of the Secretary

Federal-State Task Force on the Hawaiian Homes Commission Act; Establishment

Pursuant to Pub. L. 92–463, notice is hereby given of the establishment of the Federal-State Task Force on the Hawaiian Homes Commission Act. Following consultation with the General Services Administration, the Secretary is establishing the Task Force to advise the Secretary of the Interior and the Governor of Hawaii on ways to better effectuate the purposes of the Hawaiian Homes Commission Act (HHCA).

Further information regarding the Task Force may be obtained from Stephen P. Shipley, Executive Assistant to the Secretary, U.S. Department of the Interior, 18th and C Sts., N.W., Washington, D.C. 20240; (202) 343–7351.

The certification of establishment is published below.

Certification

I hereby certify that the Federal-State Task Force on the Hawaiian Homes Commission Act is in the public interest in connection with the performance of duties imposed on the Department of the Interior by the Hawaiian Homes Commission Act, 42 Stat. 108 and the Hawaii Statehood Act, Pub. L. 86–3.

Dated: September 15, 1982.

James G. Watt,

Secretary of the Interior.

BILLING CODE 4310–10–M

INTERSTATE COMMERCE COMMISSION

[Docket No. AB–167 (Sub-380N)]

Conrail Abandonment Between Rittman and Burbank, OH; Findings

Notice is hereby given to Section 308(e) of the Regional Rail Reorganization Act of 1973 that the Commission, Review Board Number 3 has issued certificates and decisions authorizing the Consolidated Rail Corporation to abandon its rail lines between (1) Rittman, milepost 226.2 and Burbank, milepost 231.6 effective on March 12, 1982, and between (2) Rittman, milepost 220.5 and Creston, milepost 226.2 effective on June 10, 1982, a total distance of 11.1 miles, in the Counties of Wayne and Medina, OH.

The net liquidation value of the line between (1) mileposts 226.2 and 231.6 is $344,257 and (2) mileposts 220.5 and 226.2 is $404,128. If, within 120 days from the date of this publication, Conrail receives bona fide offers for the sale, for 75 percent of the net liquidation value, of these lines it shall sell such lines and the Commission shall, unless the parties otherwise agree, establish an equitable division of joint rates for through routes over such lines.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

Motor Carriers; Finance Applications; Decision-Notice

The following applications, filed on or after July 3, 1980, seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control of motor carriers pursuant to 49 U.S.C. 11343 or 11344. Also, applications directly related to these motor finance applications (such as conversions, gateway eliminations, and securities issuances) may be involved.

The applications are governed by Special Rule 240 of the Commission's Rules of Practice (49 CFR 1100.240). See Ex Parte 55 (Sub-No. 44). *Rules Governing Applications Filed By Motor Carriers Under 49 U.S.C. 11344 and 11349*, 363 I.C.C. 740 (1981). These rules provide among other things, that opposition to the granting of an application must be filed with the Commission in the form of verified statements within 45 days after the date of notice of filing of the application is published in the **Federal Register**. Failure seasonably to oppose will be construed as a waiver of opposition and participation in the proceeding. If the protest includes a request for oral hearing, the request shall meet the requirements of Rule 242 of the special rules and shall include the certification required.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.241. A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00, in accordance with 49 CFR 1100.241(d).

Amendments to the request for authority will not be accepted after the date of this publication. However, the Commission may modify the operating authority involved in the application to conform to the Commission's policy of simplifying grants of operating authority.

We find, with the exception of those applications involving impediments (e.g., jurisdictional problems, unresolved fitness questions, questions involving possible unlawful control, or improper divisions of operating rights) that each applicant has demonstrated, in accordance with the applicable provisions of 49 U.S.C. 11301, 11302, 11343, 11344, and 11349, and with the Commission's rules and regulations, that the proposed transaction should be authorized as stated below. Except where specifically noted this decision is neither a major Federal action significantly affecting the quality of the human environment nor does it appear to qualify as a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient protests as to the finance application *or* to any application directly related thereto filed within 45 days of publication (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (unless the application involves impediments) upon compliance with certain requirements which will be set forth in a notification of effectiveness of this decision-notice. To the extent that the authority sought below may duplicate an applicant's existing authority, the duplication shall not be construed as conferring more than a single operating right.

Applicant(s) must comply with all conditionss et forth in the grant or grants of authority within the time period specified in the notice of effectiveness of this decision-notice, or the application of a non-complying applicant shall stand denied.

Dated: September 13, 1982.

By the Commission, Review Board Number 3, Members Krock, Joyce and Dowell.

Agatha L. Mergenovich,

Secretary.

MC-F-14936, authority is sought by HOHENWALD TRUCK LINES, INC. (HTL), a Tennessee Corporation, of P.O. Box 196, Hwy 99, Hohenwald, TN, to purchase the operating authority of PULASKI HIGHWAY EXPRESS, INC., also a Tennessee Corporation, of 640 Hamilton Ave., Nashville, TN, under Certificate No. MC-56553 (Sub-No. 34)X, Robert V. Gafford, P.O. Box 196, Hwy 99, Hohenwald, TN, who controls HTL through ownership of all its outstanding capital stock, seeks authority to control the operating rights through the purchase. Representative: Henry E. Seaton, 1024 Pennsylvania Bldg., 425 13th St., NW., Washington, DC 20004. The operating rights involved authorize the transportation of *general commodities* (except classes A and B explosives, household goods as defined by the Commission and commodities in bulk), over regular routes, generally between Nashville, on the one hand, and, on the other, Pulaski, Lawrenceburg and Memphis, TN, Tuscumbia and Sheffield, AL, and Russellville and Cadiz, KY, serving various intermediate and off-route points. Application has been filed for temporary authority.

MC-F-14944, BROOKS INTERNATIONAL, INC., d.b.a. HARPER'S/AERO DISTRIBUTION SERVICE, and KEYSTONE DELIVERY SERVICE, INC., Seek authority under 49 U.S.C. §§ 11343 and 11344 for approval of the merger of Keystone Delivery Service, Inc. into Brooks International, Inc. with Brooks International, Inc., the surviving corporation. Henry Brooks, who controls Brooks International, seeks authority to control the merged operating rights through the transaction. Brooks International holds nationwide authority (excluding AK and HI) (permits) to transport various commodities for five contractual shippers and one contractual shipper in the Southern United States. It also holds nationwide small package authority and general commodity authority between GA and eight southern states. Keystone holds nationwide contract authority for one shipper and nationwide small package authority. No temporary authority is sought.

BILLING CODE 7035-01-M

[I.C.C. Order P-43]

Passenger Train Operation; Kansas City Southern Railway Co.

It appearing, That the National Railroad Passenger Corporation (Amtrak) has established through passenger train service between Chicago, Illinois, and Laredo, Texas. The operation of these trains requires the use of the tracks and other facilities of the Missouri Pacific Railroad Company (MP). A portion of the MP tracks between Jefferson and Dallas, Texas, are temporarily out of service because of a derailment. An alternate route is available via The Kansas City Southern Railway Company (KCS) between Jefferson and Greenville, Texas.

It is the opinion of the Commission that the use of such alternate route is necessary in the interest of the public and the commerce of the people; that notice and public procedure herein are impracticable and contrary to the public interest; and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered,

(a) Pursuant to the authority vested in me by order of the Commission decided April 29, 1982, and of the authority vested in the Commission by Section 402(c) of the Rail Passenger Service Act of 1970 (45 U.S.C. 562(c)), The Kansas City Southern Railway Company (KCS) is directed to operate trains of the National Railroad Passenger Corporation (Amtrak) between Jefferson and Greenville, Texas, in order to connect with Missouri-Kansas-Texas Railroad Company (MKT) at Greenville, Texas, and thence the MP at Dallas, Texas.

(b) In executing the provisions of this order, the common carriers involved shall proceed even though no agreements or arrangements now exist between them with reference to the compensation terms and conditions applicable to said transportation. The compensation terms and conditions shall be, during the time this order remains in force, those which are voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, the compensation terms and conditions shall be as hereafter fixed by the Commission upon petition of any or all of the said carriers in accordance with pertinent authority conferred upon it by the Interstate Commerce Act and by the Rail Passenger Service Act of 1970, as amended.

(c) *Application.* The provisions of this order shall apply to intrastate, interstate and foreign commerce.

(d) *Effective date.* This order shall become effective at 11:30 a.m., September 1, 1982.

(e) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., September 1, 1982, unless otherwise modified, amended, or vacated by order of this Commission.

This order shall be served upon The Kansas City Southern Railway Company (KCS) and upon the National Railroad Passenger Corporation (Amtrak), and a copy of this order shall be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., September 1, 1982.

Interstate Commerce Commission.

J. Warren McFarland,

Agent.

BILLING CODE 7035-01-M

[Finance Docket No. 30006]

Rail Carriers; Illinois Central Gulf Railroad Co.; Exemption; Abandonment in Cook County, IL

AGENCY: Interstate Commerce Commission.

ACTION: Notice of exemption.

SUMMARY: The Commission exempts Illinois Central Gulf Railroad Company from the requirements of prior review and approval under 49 U.S.C. 10903 *et seq.* concerning its abandonment of a 0.43-mile segment of line in Cook County, IL.

DATES:

Exemption effective on October 18, 1982. Petitions for reconsideration must be filed by October 7, 1982. Petitions for stay must be filed by September 27, 1982.

Send pleadings to:

(1) Section of Finance, Room 5349, Interstate Commerce Commission, Washington, DC 20423.

(2) Petitioner's representative: Howard D. Koontz, Illinois Central Gulf Railroad Company, 233 North Michigan Avenue, Chicago, IL 60601.

FOR FURTHER INFORMATION CONTACT:

Louis E. Gitomer, (202) 275-7245.

SUPPLEMENTARY INFORMATION: For further information, see the decision served concurrently in Finance Docket No. 30006. To purchase a copy of the full decision, contact T.S. InfoSystems, Inc., Room 2227, Interstate Commerce Commission, Washington, DC 20423, or call 289-4357 in the D.C. Metropolitan Area, or toll free (800) 424-5403.

BILLING CODE 7035-01-M

[Finance Docket No. 30003]

Rail Carriers; Norfolk and Western Railway Company and Consolidated Rail Corporation—Acquisition and Trackage Rights Exemption

September 13, 1982.

On July 30, 1982, Norfolk and Western Railway Company (N&W) filed a notice of its proposed acquisition of 1.1 miles of a line of rail of the Consolidated Rail Corporation (Conrail) under 49 CFR 1111.2(d)(5). See *Railroad Consolidation Procedures,* 366 I.C.C. 75, 94 (1982). Conrail, which will retain trackage rights on the segment, submitted a confirmatory letter on August 23, 1982.

The purpose of the proposed acquisition is to complete a relocation project which will reduce congestion over N&W's Front Street line located along the Ohio River in Cincinnati, OH. N&W will purchase Conrail's Oakley Wye, which extends approximately 1.1 miles between East Norwood and Oakley Junction, in Cincinnati. The Commission previously approved N&W's proposed acquisition of trackage rights over Conrail's line in *CSX Corp.—Control—Chessie and Seaboard C.L.I.,* 363 I.C.C. 518, 582 (1980), but the parties have determined that a purchase of the line by N&W, with Conrail retaining trackage rights, is preferable. N&W will continue to maintain its Front Street line for use in emergencies.

As a condition to use of the exemption, any N&W employees affected by its acquisition of the line will be protected by the conditions set forth in *New York Dock Ry.—Control—Brooklyn Eastern Dist.,* 360 I.C.C. 60 (1979), and any Conrail employees affected by its retention of trackage rights will be protected by the conditions set forth in *Norfolk and Western Ry. Co.—Trackage Rights—BN,* 354 I.C.C. 605 (1978), as modified by *Mendocino Coast Ry., Inc.—Lease and Operate,* 360 I.C.C. 653 (1980).

This will satisfy the statutory requirement of 49 U.S.C. 10505(g)(2).

By the Commission, Heber P. Hardy, Director, Office of Proceedings.

Agatha L. Mergenovich,

Secretary.

[FR Doc. 82-25585 Filed 9-16-82; 8:45 am]

BILLING CODE 7035-01-M

[Finance Docket No. 30023]

Rail Carriers; Southern Pacific Transportation Company; Abandonment and Acquisition of Trackage Rights Over the Western Pacific Railroad Co.; Exemption

September 13, 1982.

On September 2, 1982, Southern Pacific Transportation Company (SPT) and Western Pacific Railroad Company (WP) filed a notice of exemption concerning a relocation project proposed by them under 49 CFR 1111.2(d)(5). See *Railroad Consolidation Procedures*, 366 I.C.C. 75, 94 (1982).

The purpose of the transaction is to eliminate redundant parallel trackage and share the costs of the remaining trackage. Under the proposed relocation project SPT will abandon its line of railroad from milepost 29.09 at Niles, CA, to milepost 66.5 near Tracy in Alameda and San Joaquin, CA (Niles line). Concurrently, SPT will acquire trackage rights over the parallel WP track which will allow SPT to operate between Niles and Lathrop, CA. SPT shippers on the Niles line will continue to receive service. The relocation will enhance the efficiency of SPT's operations, for the reason that redundant facilities will be eliminated.

As a condition to use of the exemption, SPT has proposed that any employees affected by the transaction be protected by the conditions set forth in *Oregon Short Line R. Co.—Abandonment Goshen*, 360 I.C.C. 91 (1979). However, since the relocation project involves not only an abandonment but a trackage rights transaction, we must also impose the conditions set forth in *Norfolk and Western Ry. Co—Trackage Rights—CN*, 354 I.C.C. 605 (1978), as modified by *Mendocino Coast Ry., Inc.—Lease and Operate*, 360 I.C.C. 653 (1980). Together these conditions satisfy the statutory requirements of 49 U.S.C. 10505(g)(2).

By the Commission, Heber P. Hardy, Director, Office of Proceedings.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

[Section 5b Application 2]

Western Railroads—Agreement

AGENCY: Interstate Commerce Commission.

ACTION: Notice of proposed amendments to rate bureau agreement.

SUMMARY: The Western Railroad Traffic Association requests approval of amendments to its articles of organization and procedure to transfer the headquarters of its: (1) North Pacific Coast Freight Bureau and Pacific Southcoast Freight Bureau from San Francisco, CA, to Chicago, IL; and (2) Southwestern Freight Bureau from St. Louis, MO, to Chicago. All regular meetings and ratemaking activities of these bureaus would be in Chicago.

DATES: Comments are due 20 days from publication of this notice in the **Federal Register.**

ADDRESSES: An original and 10 copies of comments should be sent to: Room 5340, Interstate Commerce Commission, Washington, D.C. 20423.

FOR FURTHER INFORMATION CONTACT: Douglas Galloway, (202) 275-7278, or Tom Smerdon, (202) 275-7277.

SUPPLEMENTARY INFORMATION: By petitions dated December 11, 1981, March 5, 1982, and July 13, 1982, the Western Railroad Traffic Association (Association) requested approval of amendments to its Articles of Organization and Procedure (agreement) to transfer the headquarters of its: (1) North Pacific Coast Freight Bureau (NPCFB) and Pacific Southcoast Freight Bureau (PSFB) from San Francisco, CA, to Chicago, IL, and (2) Southwestern Freight Bureau (SWFB) from St. Louis, MO, to Chicago.[1] The Association also states its intention to transfer all regular meetings and ratemaking activities of these bureaus to Chicago.[2] However, to reduce any inconvenience to shippers, NPCFB and SWFB will continue to schedule some public hearings in San Francisco. The effect of the proposed amendments would be to centralize staff functions and tariff publication activities of the NPCFB, PSFB, and SWFB with those of the Association's. The Association has served copies of the petitions upon the regulatory bodies of each State having jurisdiction over the rates, fares, and charges embraced within the scope of the amendments to the agreement.

The amendments are proposed to apply to the Association's ratemaking agreement, under which the member Western Railroads have derived their immunity for collective activity in the past, and the Association's proposed agreement, which has been under consideration by the Commission.[3] The Commission, in a recent decision in Section 5b Application No. 2, *Western Railroads—Agreement* 365 I.C.C. 918, served August 17, 1982, denied approval of the Association's proposed agreement. Nonetheless, the Commission has extended antitrust immunity to the operations of the Association insofar as they conform with the decision. Where the Association's activities do not conform with the decision, no antitrust immunity has been given.[4]

In support of its proposal, the Association submits that the proposed change of headquarters to Chicago will have no adverse effect on the shipping public. It emphasizes that the existing jurisdictional or ratemaking procedures of the NPCFC, PSFB, and SWFB would be unaffected. It further argues that the transfer will effectuate savings by reducing fixed overhead expenses, since centralized tariff publishing, mailing and distribution, and legal and managerial supervision would be consolidated and enhanced. Finally, the Association states that agreements have been entered into with the Allied Services Division/Brotherhood of Railway, Airline and Steamship Clerks, Freight Handlers, Express and Station Employees (BRAC) providing for the protection of their members at St. Louis adversely affected by the centralization in accordance with the terms of *New York Dock Railway—Control—Brooklyn Eastern District Terminal*, 360 I.C.C. 60 (1979). This agreement has been ratified by the labor organization membership and the carriers members of the Western Railroad Traffic Association. The Association also contends that non-contract employees, those who are not members of a labor organization, have been advised that to the extent any of them will be adversely affected by the centralization they will be protected on the same basis as employees represented by BRAC.

We invite any interested party to address the proposed amendments.

---

[1] NPCFB, PSFB, and SWFB are regional organizations of the Association.

[2] The Association proposes to amend its agreement to provide that regular meetings of the Freight Traffic Managers Committee of the NPCFB and PSFB would convene in Chicago and that the location of joint NPCFB/PSFB meetings would be in Chicago or at any other place as may be agreed upon, rather than San Francisco. No specific amendment is proposed with regard to SWFB, since the agreement does not designate a specific location for meetings and ratemaking activities.

[3] In *Western Railroads-Agreement*, 364 I.C.C. 635 (1981), the Commission interpreted 49 U.S.C. 10706(a) as it was amended by Section 219 of the Staggers Rail Act of 1980 (Staggers Act), Pub. L. 96-448, 94 Stat. 1926-1928 and described the system of ratemaking contemplated by the new law. In response, the Western Railroad Traffic Association and other rate bureaus filed amended agreements. The Commission, while considering these proposed agreements, granted interim immunity.

[4] The Association has been directed to file new or amended agreements within 45 days from the date of service of the decision. Comments are due by the 65th day.

It does not appear that this decision will significantly affect either the quality of the human environment or conservation of energy resources.

(49 U.S.C. 10706)

Decided: September 9, 1982.

By the Commission, Chairman Taylor, Vice-Chairman Gilliam, Commissioners Sterrett, Andre, Simmons, and Gradison.

Agatha L. Mergenovich,

Secretary.

DEPARTMENT OF JUSTICE

Justice-Treasury Advisory Committee on State and Local Law Enforcement Training; Meeting

The Justice-Treasury Advisory Committee on State and Local Law Enforcement Training will meet from 9:00 a.m. until 4:00 p.m. on Wednesday, October 6, 1982 and 9:00 a.m. until 12 noon Thursday, October 7, 1982 in the Tom Steed Building, Room S-9, at the Federal Law Enforcement Training Center, Glynco, Georgia.

The Committee will be provided an update of the Justice-Treasury State and Local Law Enforcement Training Program, including the selection and scheduling of courses offered. Also, the Committee will review and discuss a process for certification of training. In addition, the Committee will be given formal presentations on other potential courses that could be offered to state and local law enforcement personnel through FLETC. Further, the Committee will discuss law enforcement training programs currently offered by educational institutions and professional associations and review methods to coordinate the delivery of that training with public agencies.

The meeting will be open to the public. Approximately 100 seats will be available for the public and the media representation on a first-come first-served basis.

Inquiries or comments may be addressed to the Committee Management Liaison Officer, Justice-Treasury State and Local Law Enforcement Training Program, Office of the Associate Attorney General, U.S. Department of Justice, Room 4119, Washington, D.C. 20530. (Committee Management Liaison Officer's telephone number is 202/566-4086 or the FLETC Coordinator's telephone number is 912/267-2226.)

George H. Bohlinger III,

Executive Director, Justice-Treasury Advisory Committee.

BILLING CODE 4410-01-M

Proposed Amended Consent Decree in Action to Enjoin Emission of Air Pollutants

In accordance with Departmental Policy, 28 CFR 50.7, 38 FR 19020, notice is hereby given that a proposed amended consent decree in *United States* v. *United States Steel Corporation* (Geneva Works) (D. Utah, Civ. No. C-80-661W), has been lodged with the United States District Court for the District of Utah. This proposal would amend the consent decree entered in the same case in January of 1981.

The Department of Justice will receive for thirty (30) days from the date of publication of this notice written comments relating to the proposed consent decree. Comments should be addressed to the Assistant Attorney General, Land and Natural Resources Division, Department of Justice, Washington, D.C. 20530, and should refer to *United States* v. *United States Steel Corporation*, D.J. Ref. 90-5-2-1-326.

The proposed consent decree may be examined at the office of the United States Attorney, 200 Post Office and Courthouse Building, 350 South Main Street, Salt Lake City, Utah 84101; at the Region VIII office of the Environmental Protection Agency, 1860 Lincoln Street, Denver, Colorado 80203; and at the office of the Environmental Enforcement Section, Land and Natural Resources Division of the Department of Justice, Room 1517, Ninth Street and Pennsylvania Avenue, NW., Washington, D.C. 20530. A copy of the proposed consent decree may be obtained in person or by mail from the Environmental Enforcement Section, Land and Natural Resources Division of the Department of Justice. A check or money order in the amount of $18.30 and payable to the Treasurer of the United States, covering the cost of reproduction, must accompany any request for a copy of the amendment. No request which is not accompanied by a check or money order in the required amount will be honored.

Mary Walker,

Deputy Assistant Attorney General, Land and Natural Resources Division.

BILLING CODE 4410-01-M

National Institute of Justice

Visiting Fellowship Program for Fiscal Year 1983; Solicitation

The National Institute of Justice announces its Visiting Fellowship Program for Fiscal Year 1983. The purpose of this program is to enable senior level policy-makers and advanced researchers to establish residence at NIJ for periods up to 15 months to work on research projects of their design, research that will contribute creative new ideas toward greater understanding of crime and the operation of the criminal justice system.

Fellowships are awarded to single individuals rather than to pubic or private organizations. Preliminary research proposals that meet basic

eligibility criteria will be evaluated by a peer review panel; selection criteria include the significance of the problem to be addressed, the soundness of the proposal's design and methodology, project feasibility and overall cost.

Excluded from consideration are projects that are action oriented (such as training or demonstration projects) in which research is a relatively minor component, part-time research efforts, students seeking educational assistance and persons previously awarded Visiting Fellowship grants. It is anticipated that up to three Fellowships will be awarded in Fiscal Year 1983. Applications post marked later than November 15, 1982, will not be considered.

A complete explanation of the program, its residency requirements and application procedures, can be obtained by sending a self addressed mailing label to: Solicitation—Visiting Fellowship Program, National Criminal Justice Reference Service, Box 6000, Rockville, Maryland 20850.

Dated: September 9, 1982.

James K. Stewart,

Acting Director, National Institute of Justice.

BILLING CODE 4510-24-M

Employment and Training Administration

Federal-State Unemployment Compensation Program; Extended Benefits; Ending of Extended Benefit Period in Kentucky

This notice announces the ending of the Extended Benefit Period in the State of Kentucky, effective on September 4, 1982.

Background

The Federal-State Extended Unemployment Compensation Act of 1970 (26 U.S.C. 3304 note) established the Extended Benefit Program as a part of the Federal-State Unemployment Compensation Program. The Extended Benefit Program takes effect during periods of high unemployment in a State, to furnish up to 13 weeks of extended unemployment benefits to eligible individuals who have exhausted their rights to regular unemployment benefits under permanent State and Federal unemployment compensation Laws. The Act is implemented by State unemployment compensation laws and by Part 615 of Title 20 of the Code of Federal Regulations (20 CFR Part 615).

Extended Benefits are payable in a State during an Extended Benefit Period, which is triggered "on" when the rate of insured unemployment in the State reaches the State trigger rate set in the Act and the State law. During an Extended Benefit Period individuals are eligible for a maximum of up to 13 weeks of benefits, but the total of Extended Benefits and regular benefits together may not exceed 39 weeks.

The Act and the State unemployment compensation laws also provide that an Extended Benefit Period in a State will trigger "off" when the rate of insured unemployment in the State is no longer at the trigger rate set in the law. A benefit period actually terminates at the end of the third week after the week for which there is an off indicator, but not less than 13 weeks after the benefit period began.

An Extended Benefit Period commenced in the State of Kentucky on June 6, 1982 and has now triggered off.

Determination of "Off" Indicator

The head of the employment security agency of the State named above has

determined that the rate of insured unemployment in the State for the period consisting of the week ending on August 14, 1982, and the immediately preceding twelve weeks, fell below the State trigger rate, so that for that week there was an "off" indicator in the State.

Therefore, the Extended Benefit Period in the State terminated with the week ending on September 4, 1982.

Information for Claimants

The State employment security agency will furnish a written notice to each individual who is filing claims for Extended Benefits of the end of the Extended Benefit Period and its effect on the individuals's right to Extended Benefits. 20 CFR 615.13(d)(3)

Persons who wish information about their rights to Extended Benefits in the State named above should contact the nearest State employment service office or unemployment compensation claims office in their locality.

Signed at Washington, D.C. on September 10, 1982.

Albert Angrisani,

Assistant Secretary of Labor.

[FR Doc. 82-25675 Filed 9-16-82; 8:45 am]

BILLING CODE 4510-30-M

Federal-State Unemployment Compensation Program; Extended Benefits; New Extended Benefit Period in the State of New Mexico

This notice announces the beginning of a new Extended Benefit Period in the State of New Mexico, effective on August 29, 1982.

Background

The Federal-State Extended Unemployment Compensation Act of 1970 (26 U.S.C. 3304 note) established the Extended Benefit Program as a part of the Federal-State Unemployment Compensation Program. The Extended Benefit Program takes effect during periods of high unemployment in a State, to furnish up to 13 weeks of extended unemployment benefits to eligible individuals who have exhausted their rights to regular unemployment benefits under permanent State and Federal unemployment compensation laws. The Act is implemented by State unemployment compensation laws and by Part 615 of Title 20 of the Code of Federal Regulations (20 CFR Part 615).

In accordance with section 203(d) of the Act, each State unemployment compensation law provides that there is a State "on" indicator in the State for a week if the head of the State employment security agency determines that, for the period consisting of that week and the immediately preceding 12 weeks, the rate of insured employment under the State unemployment compensation law equalled or exceeded the State trigger rate. The Extended Benefit Period actually begins with the third week following the week for which there is an "on" indicator. A benefit period will be in effect for a minimum of 13 consecutive weeks, and will end the third week after there is an "off" indicator.

Determination of "on" Indicator

The head of the employment security agency of the State named above has determined tha the rate of insured unemployment in the State, for the period consisting of the week ending on August 14, 1982, and the immediately preceding 12 weeks, rose to a point that equals or exceeds the State trigger rate, so that for that week there was an "on" indicator in the State.

Therefore, a new Extended Benefit Period commenced in the State with the week beginning on August 29, 1982.

Information for Claimants

The duration of extended benefits payable in the new Extended Benefit Period, and the terms and conditions on which they are payable, are governed by the Act and the State unemployment compensation law. The State employment security agency will furnish a written notice of potential entitlement to extended benefits to each individual who has established a benefit year in the State that will expire after the new Extended Benefit Period begins, and who has exhausted all rights under the State unemployment compensation law to regular benefits before the beginning of the new Extended Benefit Period. 20 CFR 615.13(d)(1). The State employment security agency also will provide such notice promptly to each individual who exhausts all rights under the State unemployment compensation law to regular benefits during the Extended Benefit Period, including exhaustion by reason of the expiration of the individual's benefit year. 20 CFR 615.13(d)(2).

Persons who believe they may be entitled to extended benefits in the State named above, or who wish to inquire about their rights under the Extended Benefit Program, should contact the nearest State employment office or unemployment compensation claims office in their locality.

Signed at Washington, D.C., on September 9, 1982.

Albert Angrisani,

Assistant Secretary of Labor.

BILLING CODE 4510-30-M

[TA-W-12,666]

Western Electric Co., Inc., Kansas City Works, Lee's Summit, Missouri; Affirmative Determination Regarding Application for Reconsideration

By an application dated June 15, 1982, counsel for the union requested administrative reconsideration of the Department of Labor's Negative Determination Regarding Eligibility to Apply for Worker Adjustment Assistance for workers and former workers of Western Electric Company, Inc., Kansas City Works, Lee's Summit, Missouri. The determination was published in the **Federal Register** on June 1, 1982 (47 FR 23828).

The application for reconsideration claims that Western Electric is not the exclusive supplier of telephone transmission equipment for the Bell System of AT&T; Western Electric's purchases of imports are larger than negligible and that Western Electric's sales, in terme of quantity, decreased in 1981 compared to 1980.

Conclusion

After review of the application, I conclude that the claim is of sufficient weight to justify reconsideration of the Department of Labor's prior decision. The application is, therefore, granted.

Signed at Washington, D.C., this 30th day of July 1982.

Stephen A. Wandner,

Deputy Director, Office of Research, Legislation and Program Policies.

BILLING CODE 4510-30-M

Occupational Safety and Health Administration

Federal Advisory Council on Occupational Safety and Health; Meeting

Notice is hereby given that the Federal Advisory Council on Occupational Safety and Health, established under Section 1–5 of Executive Order 12196 of February 26, 1980, published in the **Federal Register** February 27, 1980 (45 FR 12769), will meet on October 6, 1982 starting at 10:00 a.m. in Rooms N5437 A, B, C, of the Frances Perkins Department of Labor Building, 200 Constitution Avenue, NW.,

Washington, D.C. The meeting will be open to the public.

The agenda provides for:

I. Call to Order.

II. Announcement of Appointments and Reappointments.

III. Approval of Minutes of June 30, 1982 Meeting.

IV. Progress Report on "New Initiatives".

V. Safety Belt Program.

VI. Reports.

VII. New Business.

VIII. Adjournment.

The Council welcomes written data, views or comments concerning safety and health programs for Federal employees, including comments on the agenda items. All such submissions received by close of business October 1, 1982, will be provided to the members of the Council and included in the record of the meeting.

The Council will consider oral presentations relating to agenda items. Persons wishing to orally address the Council at the meeting should submit a written request to be heard by close of business October 1, 1982. The request must include the name and address of the person wishing to appear, the capacity in which appearance will be made, a short summary of the intended presentation and an estimate of the amount of time needed.

All communications regarding this Advisory Council should be addressed to John E. Plummer, Director, Office of Federal Agency Programs, Department of Labor, OSHA, Bicentennial Building, 600 E Street, NW., Suite 500, Washington, D.C. 20210, telephone (202) 376–3005.

Signed at Washington, D.C. this 14th day of September 1982.

Thorne G. Auchter,

Assistant Secretary of Labor.

NATIONAL FOUNDATION FOR THE ARTS AND THE HUMANITIES

Literature Advisory Panel (Creative Writing Fellowships); Meeting

Pursuant to Section 10 (a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), as amended, notice is hereby given that a meeting of the Literature Advisory Panel (Creative Writing Fellowships) to the National Council on the Arts will be held on October 4 and 5, from 9:00 a.m.–6:00 p.m. and on October 6, from 9:00 a.m.–12:30 p.m. in room 1340 of the Columbia Plaza Office Complex, 2401 E Street, NW. Washington, D.C. 20506

A portion of this meeting will be open to the public on October 6, from 11:00 a.m.–12:30 p.m. to discuss fellowship policy.

The remaining sessions of this meeting on October 4 and 5 from 9:00 a.m.–6:00 p.m. and on October 6 from 9:00 a.m.–11:00 a.m. are for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the Federal Register of February 13, 1980, these sessions will be closed to the public pursuant to subsections (c)(4), (6) and 9(b) of section 552b of Title 5, United States Code.

Further information with reference to this meeting can be obtained from Mr. John H. Clark, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call (202) 634–6070.

John H. Clark,

Director, Office of Council and Panel Operations, National Endowment for the Arts.

BILLING CODE 7537-01-M

DEPARTMENT OF STATE

[Public Notice CM–8/558]

Presidential Commission on Broadcasting to Cuba; Notice of Partially Closed Meeting

In accordance with Section 10(d) of the Federal Advisory Committee Act (Pub. L. 92–463) as amended by Pub. L. 94–409 Section 5(c), notice is hereby given that the Presidential Commission on Broadcasting to Cuba will meet in open and closed sessions on September 30, 1982.

The open session will convene at 1:30 p.m. in Room 6909, Department of State, Washington, D.C. The open session of the Commission meeting will allow public discussion of programming, technical, and other aspects of radio broadcasting to Cuba. The general public attending the open session may participate in the discussion or submit statements subject to instructions of the Chairman.

The purpose of the closed session is to discuss aspects of radio broadcasting to Cuba that should not be prematurely disclosed to the public. Documents classified under the provisions of Executive Order 12356 will also be discussed. Accordingly, it has been determined that it is in the public interest to close this meeting pursuant to 5 U.S.C. 552b(c)(1) and 5 U.S.C. 552b(c)(9).

Because entry to the State Department is controlled, members of the public who wish to attend the open session should contact the Commission in advance in order to provide their names and affiliation and to facilitate their attendance. Its telephone number is (202) 632–3998 or 632–4189. Attendees should use the Diplomatic Entrance located on C Street, NW., between 21st and 23rd Streets.

This notice of meeting is being published with less than 15 days advance notice because of the need for

the Commission to hold a meeting before its current term ends on October 1.

Myles R. R. Frechette,

Acting Executive Director, Presidential Commission on Broadcasting to Cuba.

September 15, 1982.

Treasury Department Announces Upcoming Income Tax Treaty Negotiations With Ireland

The Treasury Department announced that representatives of the United States and Ireland will be meeting in Washington, in late September, 1982, to renegotiate the income tax treaty between the two countries which was signed in 1949.

The discussions will take into account changes in the tax laws of both countries and developments with respect to the model income tax treaties published by the Organization for Economic Cooperation and Development (OECD) and by the United States.

Anyone wishing to provide information or comments on tax matters related to the upcoming negotiations may submit such information or comments in writing to A. W. Granwell, Room 3064, Washington, D.C. 20220.

Dated: September 14, 1982.

FEDERAL COMMUNICATIONS COMMISSION

Deletion of Agenda Item From September 14th Open Meeting

September 13, 1982.

The following item has been deleted at the request of the Office of the Chairman from the list of agenda items scheduled for consideration at the September 14, 1982, Open Meeting, and previously listed in the Commission's Notice of September 7, 1982 (47 FR 39934; September 10, 1982).

Agenda, Item No., and Subject

General—2—*Title:* Petitions filed by the American Telecommunications Corporation (ATC) and Electronics Industries Association (EIA) for waiver of Section 15.7 of the FCC Rules for cordless telephones. This action considers whether to grant the ATC and EIA requests for waiver of Section 15.7 for cordless phones to allow them to operate under a more practical technical standard.

Issued: September 13, 1982.

William J. Tricarico,

Secretary, Federal Communications Commission.

federal register

Friday
September 17, 1982

Part II

Department of Labor

Employment Standards Administration, Wage and Hour Division

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

DEPARTMENT OF LABOR

Employment Standards Administration, Wage and Hour Division

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of part 1 of subtitle A of title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions are effective from their date of publication in the **Federal Register** without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Modifications and Supersedeas Decisions to General Wage Determination Decisions

Modifications and supersedeas decisions to general wage determination decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the modifications and supersedeas decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of part 1 of subtitle A of title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing general wage determination decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and supersedeas decisions are effective from their date of publication in the **Federal Register** without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Office of Government Contract Wage Standards, Division of Government Contract Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rulemaking procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Determination Decision.

Modifications to General Wage Determination Decisions

The numbers of the decisions being modified and their dates of publication in the **Federal Register** are listed with each State.

Alabama: AL82–1035	July 30, 1982.
Mississippi: MS81–1297	Oct. 16, 1981
New York: NY81–3024	Apr. 3, 1981
Texas: TX82–4026	June 18, 1982
Washington: WA82–5117	Aug. 13, 1982
Wisconsin: WI82–2043	Aug. 27, 1982.

Supersedeas Decisions to General Wage Determination Decisions

The numbers of the decisions being superseded and their dates of publication in the **Federal Register** are listed with each State. Supersedeas decision numbers are in parentheses following the numbers of the decisions being superseded.

Alabama: AL81–1296 (AL82–1047)	Oct. 9, 1981.
Georgia: GA79–1156 (GA82–1046)	Dec. 7, 1979.

Please note that we are changing the format for **Federal Register** wage decisions to coincide with the provisions of All Agency Memorandum No. 132 dated January 29, 1980, which provides that the Department of Labor will discontinue identifying fringe benefits separately. Rather, they will be stated as a composite figure which is the total hourly equivalent value of fringe benefits found to be prevailing. Fringe benefits which can not be stated in monetary terms will be shown in footnotes. This procedure is being phased in gradually.

Signed at Washington, D.C., this 10th day of September 1982.

Dorthy P. Come,

Assistant Administrator, Wage and Hour Division.

Part III

Department of the Interior

Fish and Wildlife Service

Final Frameworks for Late Season Migratory Bird Hunting Regulations

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 20

Final Frameworks for Late Season Migratory Bird Hunting Regulations

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final rule.

SUMMARY: This rule prescribes final late season frameworks (i.e., the outer limits for dates and times when shooting may occur, hunting areas, and the number of birds which may be taken and possessed) from which States may select season dates, limits, and other options for the 1982–83 migratory bird hunting season. The earliest of these seasons generally commence on or about October 1, 1982, and include most of those for waterfowl.

Except as noted, the frameworks are similar to those in effect last hunting season. The Service continues its program of stabilized duck hunting regulations into the 1982–83 hunting season as the third year of a 5-year cooperative study with Canada.

The Service annually prescribes hunting regulations frameworks to the States. The effects of this final rule are to facilitate the selection of hunting seasons by the States and to further the establishment of the late season migratory bird hunting regulations for the 1982–83 season. State selections will be published in the **Federal Register** as amendments to §§ 20.104 through 20.107 and § 20.109 of Title 50 CFR Part 20.

EFFECTIVE DATE: This rule takes effect on September 17, 1982. Tentative State selections of seasons and other options based on the proposed frameworks were due by September 3, 1982.

ADDRESSES: State season selections to: Director (FWS/MBMO), U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240. Comments received on the proposed late season frameworks are available for public inspection during normal business hours in Room 525–B, Matomic Building, 1717 H Street, NW., Washington, D.C. Copies of the environmental assessment on stabilized duck hunting regulations are available from the Office of Migratory Bird Management, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C.

FOR FURTHER INFORMATION CONTACT: John P. Rogers, Chief, Office of Migratory Bird Management, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240 (202–254–3207).

SUPPLEMENTARY INFORMATION: The Migratory Bird Treaty Act of July 3, 1918 (40 Stat. 755; 16 U.S.C. 703 et seq.), as amended, authorizes and directs the Secretary of the Interior, having due regard for the zones of temperature and for the distribution, abundance, economic value, breeding habits, and times and lines of flight of migratory game birds, to determine when, to what extent, and by what means such birds or any part, nest, or egg thereof may be taken, hunted, captured, killed, possessed, sold, purchased, shipped, carried, exported, or transported.

On April 19, 1982, the U.S. Fish and Wildlife Service (hereinafter the Service) published for public comment in the **Federal Register** (47 FR 16718) proposals to amend 50 CFR Part 20, with comment periods ending June 23, July 16, and August 23 (later extended to August 30), 1982, respectively, for the 1982–83 Alaska, Puerto Rico, and Virgin Islands; other early hunting seasons; and the late hunting seasons frameworks. That document dealt with the establishment of hunting seasons, hours, areas, and limits for migratory game birds under §§ 20.101 through 20.107 and 20.109 of Subpart K. A supplemental proposed rulemaking for both the early and late season frameworks appeared in the **Federal Register** dated June 15, 1982 (47 FR 25922).

On July 12, 1982, the Service published for public comment in the **Federal Register** (47 FR 30162) a third document consisting of a proposed rulemaking dealing specifically with frameworks for early season migratory bird hunting regulations. On July 19, 1982, the Service published in the **Federal Register** (47 FR 31282) a fourth document containing final frameworks for Alaska, Puerto Rico, and the Virgin Islands, and on August 9, 1982 (47 FR 34498), a fifth document containing final frameworks for other early seasons for migratory bird hunting regulations from which State wildlife conservation agency officials selected early season hunting dates, hours, areas, and limits for the 1982–83 season. On August 20, 1982, the Service published in the **Federal Register** (47 FR 36578), a sixth document containing proposed frameworks for late season migratory bird hunting regulations. On August 30, 1982, the Service published in the **Federal Register** (47 FR 38246) a seventh document consisting of a final rule amending Subpart K of Title 50 CFR Part 20 to set hunting seasons, hours, areas, and limits for mourning doves, white-winged doves, band-tailed pigeons, rails, woodcock, snipe, and gallinules; September teal seasons; sea ducks in certain defined areas of the Atlantic Flyway; ducks in September in Florida, Iowa, Kentucky, and Tennessee; sandhill cranes in the Central Flyway and Arizona; sandhill cranes and Canada geese in southwestern Wyoming; migratory game birds in Alaska, Hawaii, Puerto Rico, and the Virgin Islands, and special falconry seasons. This document is the eighth in the series and establishes final frameworks for late season migratory bird hunting regulations for the 1982–83 season.

These proposed regulations contain no information collections subject to Office of Management and Budget review under the Paperwork Reduction Act of 1980.

Review of Public Comments and the Service's Response

Written Comments Received

In the **Federal Register** dated June 15, 1982 (at 47 FR 25923), the Service responded to comments on proposed late season frameworks which had been received up to that time. Twenty additional written comments and 13 statements made at the public hearing on proposed late hunting season frameworks were summarized and responded to in the **Federal Register** dated August 20, 1982 (at 47 FR 36578). Since then, 44 written comments have been received. These are summarized and responded to following the numbered list of regulatory topics which appeared in the **Federal Register** dated April 19, 1982 (at 47 FR 16718). In several cases, more than one comment was received from the same respondent, and in some other cases a commentor offered views on more than one regulatory subject. The new comments originated from 16 States, 3 waterfowl flyway councils, 4 national conservation organizations, 1 regional organization, 14 individuals, 3 State legislators, and 3 congressional representatives. The latter originated from individuals and States that had also written the Service separately.

Black ducks. Three comments were received on the Service's proposal that no changes be made in the frameworks for this species. Maine expressed disappointment that the Service had not proposed measures to curtail the take of black ducks throughout the Atlantic Flyway. The letter noted that the species had declined to a very low level in Maine. The International Council for Bird Preservation, United States Section, Inc. (ICBP) noted that the black duck

winter inventory indicated a population decrease from 429,000 in 1976 to 309,000 in 1982, a decline of about 4 percent annually. Trend data for black ducks in Maine and Massachusetts, information on the infiltration of the black duck's range by mallards, hybridization between the two species, and high mortality rates of the black duck were cited. Included were recommendations for a significant reduction in harvest or a temporary total closure of the black duck season so that the relative importance of hunting mortality as compared with mallard incursion can be viewed with needed clarity, and so that management can be put back on sound biological footing.

Covington and Burling, attorneys for the Humane Society of the United States (HSUS), submitted a voluminous statement on the black duck. It is comprised of a 9-page transmittal summarizing major concerns of the HSUS, and supporting affidavits by Joseph A. Hagar (7 pp.), an ornithologist and long time student of black ducks; Reverend Robert A. Bryan, a hunter and observer of black ducks over extensive areas of New England and eastern Canada (7 pp.); and Dr. John W. Grandy IV, presently HSUS Vice-President for Wildlife and Environment (45 pp. plus references). All 3 stated that black duck hunting should be prohibited or severely restricted this year.

The HSUS summary alleges that the black duck population is declining drastically and that hunting is contributing substantially to the decline. According to HSUS, the Service has delayed implementing protective measures for the black duck for many years. HSUS urges the Service to develop a national plan for the species "inasmuch as it is the federal agency delegated the duty to protect the species under mandate by the Migratory Bird Treaty Act." HSUS opposed any delay in action to permit development and coordination of a management program with the Atlantic and Mississippi Flyway Councils and Canada, and to familiarize hunters with the status of the black duck and its need for greater protection from hunting. HSUS notes that the Service has had ample opportunity to inform hunters of the critical plight of the black duck and the need for a hunting moratorium this year. According to HSUS, "* * * The Service's failure to close the hunting season or to take any other immediate action to protect the black duck is unlawful, irresponsible, and will severely damage the species."

Response. The Service has responded to the HSUS assertion that it has delayed protective measures for the black duck for many years, at 47 FR 36561. That response is incorporated here by reference. The HSUS assertion that the black duck is presently undergoing a precipitous decline in population is not correct. An examination of winter survey data on which this assertion is apparently based, clearly shows that 65 percent of the observed decline in black ducks since 1955 occurred during the period 1955–1962 for reasons that are not entirely clear. Since that time, during the 20-year period 1963–1982, winter survey data show a decline averaging about 1.6 percent annually. Although a long-term decline is evident from the winter survey data, except for the early 1955–1962 period, it has been gradual and does not indicate an immediate crisis for the species' welfare. The HSUS cites winter survey data as suggesting that the black duck population was at a low point of only 309,000 birds in 1980. However recent winter survey indices which show that the status of the black duck has been slightly better overall in the past two years than it was in 1980 indicate that no immediate "crisis" condition pertains to black ducks in 1982.

Winter survey data is used for trend analysis and does not reflect the true size of the population. Data in Service files indicate that only one-third to one-fifth of the wintering population is observed in the winter survey. Indirect estimates of black duck populations based on an analysis of banding and harvest data showed an average annual wintering population of 1.4 million black ducks for the 1967–70 period, and 1.5 million black ducks for the 1971–76 period. In addition, indirect estimates of preseason (just prior to the hunting season) black duck populations since 1967 indicate a relatively stable fall flight population of black ducks that averages about 2.7 million birds annually. These estimates of the current size of the black duck population provide no reason to believe that unless a black duck season closure or severe harvest restrictions are imposed this year, the future of the black duck is in jeopardy.

The Service has stated on a number of occasions that a decline in numbers of black ducks has been underway for many years. While hunting has frequently been alleged to be the principal factor involved and is recognized as a factor, the precise cause of the decline is not clear. Observations and investigations in both Canada and the United States in recent years indicate that a combination of factors is most likely involved. These include land use changes that affect black duck breeding in important segments of the breeding grounds, deterioration and loss of habitat there and elsewhere, competition with mallards, and hybridization with mallards. Comprehensive analyses of banding and other data recently conducted by the Service indicate that hunting is a contributing factor and that the greatest effect may be on the number of immatures that survive to enter the breeding population. The Service has concluded, therefore, that a management program for black ducks should include harvest restrictions with attention given to increasing the number of immatures that survive to enter the breeding population.

The Service has previously explained its belief (47 FR 36561) that it is undesirable to restrict black duck hunting regulations this year. The claim by HSUS that this explanation is specious demonstrates a lack of appreciation for factors which must exist before a change in managment can have its most beneficial effect. There is need to develop a comprehensive, coordinated international black duck management program involving the Canadian Wildlife Service (CWS) and Provincial wildlife agencies in Canada, and State wildlife agencies in the Atlantic and Mississippi Flyways through their respective Flyway Councils. These agencies all have management responsibilities for waterfowl including black ducks and contribute substantially to such management programs in connection with habitat management, law enforcement, management of hunting, population monitoring, research, and other investigations. Involvement of CWS and Provincial agencies is important because Canada contains the bulk of black duck breeding habitat and, in recent years, has accounted for about 50 percent of the harvest of black ducks. Therefore, an attempt to reach agreement on a coordinated comprehensive program will, given the current population status of the black duck, have more beneficial results in the long run than immediately and unilaterally closing the season, as HSUS suggests.

It is necessary to allow adequate time to determine the most appropriate measures to take in restricting harvest, and how best to apply and coordinate them in the many different jurisdictions within the range of the black duck. A number of options for restrictive measures have been identified in the Atlantic Waterfowl Council's Black

Duck Management Plan. However, not all may apply equally well flywaywide or throughout the black duck's range. Further, it may be desirable to apply different measures in different parts of the range. Time is needed to evaluate the relative merits of several regulatory options and to determine which are most appropriate in various geographical areas in the eastern United States. In essence, the Service's duties to manage the resource require that the Service determine the most efficacious means of restricting the black duck harvest. This determination can only be made after analysis of the various regulatory options mentioned above and full public involvement. Prior to implementing hunting restrictions, hunters need to be informed about the status of the black duck, and, to the extent possible, the reasons why restrictive measures are required, the nature of those measures, and what they are intended to accomplish. Service experience with canvasback and steel shot regulations indicates that full understanding and cooperation by hunters and other interested groups are vital to actual accomplishment of a regulatory objective like this one.

The Service wishes to announce that it is committed to a program to effect necessary hunting restrictions on black ducks beginning in the 1983–84 hunting season. Ideally, this program will be initiated jointly in the United States and Canada with the full cooperation of State, Provincial, and Federal wildlife agencies, and other concerned parties. Discussions already in progress with these groups will continue toward that end. However, if agreement on a hunting program cannot be reached, the Service will proceed with a 1983–84 program of harvest restrictions based on its assessment of what actions are necessary and desirable to effectively reduce hunting pressure on black ducks. This program has already begun with the assignment of the following tasks to Service staff:

1. Develop an analysis of regulatory options for consideration by the Director for implementation in 1983.
2. Develop an environmental assessment on the regulatory options.
3. Develop a program of hunter information about the black duck situation, restrictions to be initiated in 1983 based on 1 and 2 above, and the need for those restrictions. This program will be implemented as soon as possible.

Canvasbacks. Michigan amended its earlier request regarding canvasback closure areas, reporting that 5,000 or fewer canvasbacks are regularly observed in six counties (Arenac, Bay, Huron, Monroe, Tuscola, and Wayne) closed to hunting of this species. It recommended that these closures be abolished.

Response: In the **Federal Register** dated August 20, 1982, the Service responded to proposals to abolish certain canvasback closed areas. On page 36582, the Service announced its intention to undertake a comprehensive review of canvasback management strategies and objectives which have been in place since 1976. In consideration of these plans, the Service believes that the requested change should be deferred pending completion of the review.

Goose and brant seasons. Both Maryland and Massachusetts reiterated their requests that Canada goose seasons in their respective States be increased from 70 to 90 days. In the case of Maryland the request was that a 90-day goose season similar to that on the eastern shore be provided in the portion of Maryland west of Chesapeake Bay. Three Maryland legislators, in a single letter, and a sportsman supported the request. The request had initially appeared in the **Federal Register** dated April 19, 1982 (at 47 FR 16726). The Massachusetts request was published in the **Federal Register** dated June 15, 1982 (at 47 FR 25923). In both cases justification for the extended seasons was based on the need to control populations of locally breeding, non-migratory Canada geese that have become nuisances, and to reduced crop depredations and other complaints. A recent letter provided additional information on the distribution of these geese and documentation of specific agricultural depredations complaints.

Response. In the **Federal Register** dated August 20, 1982 (at 47 FR 36582) the Service explained reasons for not favoring the changes requested. For convenience, the portion of the Service's reply relating to the two States is repeated:

> The Service is of the view that the western shore of Maryland is outside the areas of the Atlantic Flyway where 90-day seasons and 4-bird bag limits are permitted for Canada geese for the purpose of stabilizing these goose populations or limiting the rate of increase which, in the past, has been judged excessive. No formal proposal and supporting information has been submitted by Maryland or the Atlantic Flyway Council to document the need for further expansion of the 90-day, 4-bird area. In this regard the Service notes that the Atlantic Flyway Canada goose population in the Delmarva Peninsula area where the population problem was most acute is presently significantly below the levels of previous years. Thus, the need for further increase in harvest opportunity at present is unclear. Also, such further increases appear to be inconsistent with the intention of the AFC to seek ways of adjusting harvest regulation to promote improved distribution of the population especially in regard to increasing the proportion of the population in more southerly wintering areas. For these reasons, the Service does not believe that the proposed change is desirable at this time. The Service does not favor the Massachusetts request for many of the same reasons, including the need to better document need for the season extension.
>
> At the request of the two States involved the Service has reviewed this matter again. Massachusetts provided additional information on the distribution of its breeding Canada geese and further details about goose damage to agricultural crops, including cranberries. A recent Maryland letter indicated that the number of geese in the area surveyed along the Western Shore (of Chesapeake Bay) has increased from an average of 8,400 during 1970–72 to an average of 38,900 during 1980–82, and reported on the capture and transfer of nuisance geese to areas outside the State, and problems associated with geese near Dulles Airport in Virginia.
>
> The Service is aware of problems caused by so-called nuisance geese in New England and New York, and has cooperated with State officials in capturing and transferring geese to other locations where there is a demand for these geese. Also, the Service has undertaken research on biological measures to limit the growth of "nuisance" goose populations. These approaches have been taken because additional hunting pressure during the regular hunting season is usually not a practical approach to limiting or reducing such local populations. The birds are often not accessible to hunting because of local restrictions or other factors. It is necessary to make distinctions between problems associated with local vs. migrant Canada geese. In this respect, the population of geese wintering along the Western Shore of Maryland appears to include both local and migrant Canada geese. The situation in Massachusetts may be different but it is not clear that the solution lies with extending the hunting season. The Service wishes to avoid unnecessary increases in the harvest of Atlantic Flyway Canada geese pending decisions on an effort to rebuild populations of Canada geese in southern areas presently under consideration by the Atlantic Flyway Council. For this reason the Service continues to believe that it is not desirable to make the requested changes at this time. However, this matter will be pursued further during the coming

year in consultation with Maryland and Massachusetts in an effort to find an appropriate solution to these local goose problems.

The proposed frameworks relating to the Mississippi Valley Population of Canada geese were the subject of 31 comments. Of these, 6 originated from State conservation agencies, 5 from conservation organizations, 2 from State legislators, 2 from the Mississippi Flyway Council, 14 from individuals, and 2 from members of Congress. Most expressed views on the harvest quotas assigned to Wisconsin and Illinois; 19 comments originated from Wisconsin while 3 came from Illinois.

Response. In the **Federal Register** dated August 20, 1982 (at 47 FR 36580), the Service provided a detailed explanation of how the proposed harvest quotas were developed this year. Because of the widely differing views on appropriate regulations for these geese, expressed during the comment period, the proposed regulations were re-examined and the suggested changes carefully evaluated in the light of information available on the likely status of MVP geese in 1982. No significant new information or data were presented which would suggest a change in any of the information previously available to the Service or in the desirability of changing the harvest regulations proposed in the August 20, 1982 **Federal Register**. Therefore, the Service believes that the regulation should remain as proposed. No change is made in the following final frameworks.

An exception to this relates to the proposed area where the Canada goose season would be restricted to 40 days for MVP Canada geese in Kentucky. The Service proposed expanding the area to all or parts of 14 western counties, compared to 4 counties previously used to delineate the harvest area of Mississippi Valley Population (MVP) Canada geese on recommendation of the Upper Region of the Mississippi Flyway Council. Kentucky noted that much of the enlarged area had been considered as within the range of Tennessee Valley Population Canada geese, and provided limited band recovery data to support that contention. In a second letter, Kentucky noted that the proposed new boundary would result in a 70-day season on that portion of Kentucky Lake which is in Tennessee but only a 40-day season on the Kentucky portion of the lake.

Response. The Service, after consideration of Kentucky's comments and supporting information and examination of additional information, has modified and shifted the boundary separating the 70- and 40-day season areas westward. The reduced area in which the 40-day season applies should continue to give adequate protection to MVP Canada geese. It also eliminates a season length incongruity between Kentucky and Tennessee. The revised boundary is shown in the final frameworks.

Michigan reiterates its interest in a framework that would permit a September 26 opening for waterfowl in the Upper Peninsula, specifically for a three year experimental early season for Canada geese.

Response. The Service addressed the question of earlier waterfowl season frameworks in Michigan in the **Federal Register** dated June 15, 1982 (at 47 FR 25923) and repeated in the **Federal Register** dated August 20, 1982 (at 47 FR 36581), and gave reasons why it did not favor these requests. Insofar as the earlier goose season is concerned, the Service finds it inconsistent to implement measures to increase the harvest of Mississippi Valley Population Canada geese in Michigan while relatively severe harvest restrictions are being implemented elsewhere in the U.S. range of these geese.

Nontoxic Shot Regulations

On August 13, 1981, the Service published in the **Federal Register** (46 FR 40879) final rules describing nontoxic shot zones for waterfowl hunting. When eaten by waterfowl, spent lead pellets can have a toxic effect Nontoxic shot zones reduce availability of lead pellets in selected waterfowl feeding areas.

Amendments to these regulations were published in the **Federal Register** (47 FR 32546; July 28, 1982). These amendments relate to changes in Indiana, Maine, Massachusetts, and Nebraska. Colorado, South Dakota, and Texas have regulations requiring steel shot for waterfowl hunting in areas that are not included in the Federal regulations published in the **Federal Register** on August 13, 1981 (46 FR 40879). Zones in other States will remain as they were described on August 13, 1981 (46 FR 40879).

Some national wildlife refuges require use of steel shot on hunting areas within their boundaries, and these rules are published with other regulations regarding public use of the refuges (Title 50 CFR Part 32—Hunting).

Waterfowl hunters are advised to become familar with State and local regulations regarding the use of nontoxic shot for waterfowl hunting.

NEPA Consideration

The "Final Environmental Statement for the Issuance of Annual Regulations Permitting the Sport Hunting of Migratory Birds (FES 75-54)" was filed with the Council of Environmental Quality on June 6, 1975, and notice of availability was published in the **Federal Register** on June 13, 1975 (40 FR 25241). In addition, several environmental assessments have been prepared on specific matters which serve to supplement the material in the Final Environmental Statement. Copies of these documents are available from the Service.

Endangered Species Act Consideration

Section 7 of the Endangered Species Act provides that, "The Secretary shall review other programs administered by him and utilize such programs in furtherance of the purposes of this Act" [and] ". . . by taking such action necessary to insure that any action authorized, funded, or carried out . . . is not likely to jeopardize the continued existence of such endangered or threatened species or result in the destruction or modification of habitat of such species . . . which is determined to be critical." The Service therefore initiated Section 7 consultation under the Endangered Species Act for the proposed hunting season frameworks.

On July 1, 1982, Mr. John L. Spinks, Jr., Chief, Office of Endangered Species, concluded:

"Therefore, it is my biological opinion that your action, as proposed, is not likely to jeopardize the continued existence of the above listed species or result in the destruction or adverse modification of the American peregrine falcon, whooping crane, or Everglade kite Critical Habitat.

As in the past, hunting regulations this year are designed, among other things, to remove or alleviate chances of conflict between seasons for migratory game birds and the protection and conservation of endangered and threatened species.

The Service's biological opinion resulting from its consultation under Section 7 is considered a public document and is available for public inspection in or available from the Office of Endangered Species and the Office of Migratory Bird Management, Department of the Interior, Washington, D.C.

Regulatory Flexibility Act and Executive Order 12291

In the **Federal Register** dated April 19, 1982 (at 47 FR 16722), the Service reported measures it had undertaken to comply with requirements of the Regulatory Flexibility Act and the Executive Order. These included preparing a Determination of Effects and

an updated Final Regulatory Impact Analysis, and publication of a summary of the latter. These regulations have been determined to be major under Executive Order 12291 and they have a significant economic impact on substantial numbers of small entities under the Regulatory Flexibility Act. This determination is detailed in the aforementioned documents which are available upon request from the Office of Migratory Bird Management, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240.

Memorandum of Law

The Service published its Memorandum of Law, required by Section 4 of Executive Order 12291, in the **Federal Register** dated July 19, 1982 (at 47 FR 31283).

Authorship

The primary author of this final rule is Henry M. Reeves, Office of Migratory Bird Management, working under the direction of John P. Rogers, Chief.

Regulations Promulgation

The rulemaking process for migratory bird hunting must, by its nature, operate under severe time constraints. However, the Service is of the view that every attempt should be made to give the public the greatest possible opportunity to comment on the regulations. Thus, when the proposed late hunting season rulemakings were published on April 19, June 15, and August 20, the Service established what it believed were the longest periods possible for public comment. In doing this, the Service recognized that at the periods' close, time would be of the essence. That is, if there were a delay in the effective date of these regulations after this final rulemaking, the Service is of the opinion that the States would have insufficient time to select their season dates, shooting hours, and limits; to communicate those selections to the Service; and finally establish and publicize the necessary regulations and procedures to implement their decisions.

Therefore, the Service under authority of the Migratory Bird Treaty Act of July 3, 1918, as amended, (40 Stat. 755; 16 U.S.C. 701–711), prescribes final frameworks setting forth the species to be hunted, the daily bag and possession limits, the shooting hours, the season lengths, the earliest opening and latest closing season dates, and hunting areas, from which State conservation agency officials may select hunting season dates and other options. Upon receipt of season and option selections from State officials, the Service will publish in the **Federal Register** final rulemaking amending 50 CFR Part 20 (§§ 20.104 through 20.107 and § 20.109) to reflect seasons, limits, and shooting hours for the contiguous United States for the 1982–83 season.

The Service therefore finds that "good cause" exists, within the terms of 5 U.S.C. 553(d)(3) of the Administrative Procedure Act, and these frameworks will, therefore, take effect immediately upon publication.

List of Subjects in 50 CFR Part 20

Exports, Hunting, Imports, Transportation, Wildlife.

BILLING CODE 4310-55-M

3. The season must be limited to areas mutually agreed upon between

Final Regulations Frameworks for 1982–83 Late Hunting Seasons

Final Regulations Frameworks for 1982-83 Late Hunting Seasons on Certain Migratory Game Birds

Pursuant to the Migratory Bird Treaty Act, the Secretary of the Interior has approved final frameworks for season lengths, shooting hours, bag and possession limits, and outside dates within which States may select seasons for hunting waterfowl, coots, and gallinules; and common snipe in the Pacific Flyway. Frameworks are summarized below. States may be more restrictive in selecting season regulations, but may not exceed the framework provisions.

GENERAL

Split Season: States in all Flyways may split their season for ducks, geese, or brant into two segments of equal or unequal lengths. States in the Atlantic and Central Flyways may, in lieu of zoning, split their season for ducks or geese into three segments of equal or unequal lengths. Exceptions are noted in appropriate sections.

Shooting Hours: Between one-half hour before sunrise and sunset daily in all States, for all species, and for all seasons. The hours noted here also apply to hawking (taking by falconry).

Extra Blue-winged Teal: States in the Mississippi and Central Flyways selecting neither a teal or early duck season in September nor the point system may select an extra daily bag and possession limit of 2 and 4 blue-winged teal, respectively, for 9 consecutive days designated during the regular duck season. These extra limits are in addition to the regular duck bag and possession limits.

Extra teal: States in the Atlantic Flyway (except Florida) not selecting the point system may select an extra teal limit for 9 consecutive days during the regular duck season of no more than 2 blue-winged teal or 2 green-winged teal or 1 of each daily and no more than 4 singly or in the aggregate in possession.

Special Scaup-only Season: States in the Atlantic, Mississippi, and Central Flyways may select a special scaup-only hunting season not to exceed 16 consecutive days, with daily bag and possession limits of 5 and 10 scaup, respectively, subject to the following conditions:

1. The season must fall between October 1, 1982, and January 31, 1983, all dates inclusive.

2. The season must fall outside the open season for any other ducks except sea ducks.

3. The season must be limited to areas mutually agreed upon between the State and the Service prior to September 1, 1982.

4. These areas must be described and delineated in State hunting regulations.

OR

Extra Scaup: As an alternative, States in the Atlantic, Mississippi, and Central Flyways, except those selecting a point system, may select an extra daily bag and possession limit of 2 and 4 scaup, respectively, during the regular duck hunting season, subject to conditions 3 and 4 listed above. These extra limits are in addition to the regular duck limits and apply during the entire regular duck season.

Point System: Selection of the point system for any State entirely within a flyway must be on a statewide basis, except if New York selects the point system, conventional regulations may be retained for the Long Island Area. New York may not select the point system within the Upstate zoning option, and Maine, New Hampshire, Massachusetts, Connecticut, Pennsylvania, and West Virginia may not select the point system pending completion of zoning studies.

Deferred Season Selections: States that did not select their rail, woodcock, snipe, sandhill crane, gallinule, and sea duck seasons in July should do so at the time they make their waterfowl selections.

Frameworks for open seasons and season lengths, bag and possession limit options, and other special provisions are listed below by Flyway.

ATLANTIC FLYWAY

Ducks, Coots, and Mergansers

Outside Dates: Between October 1, 1982, and January 20, 1983.

Hunting Season: 50 days.

Daily Bag and Possession Limits (including restrictions on black ducks): (a) basic daily bag and possession limits of 4 and 8 ducks, respectively, of which no more than 2 in the daily bag and 4 in possession may be black ducks; or (b) basic daily bag and possession limits of 5 and 10 ducks, respectively, of which no more than 1 in the daily bag and 2 in possession may be black ducks.

Canvasbacks and Redheads: Except in closed areas, the limit on canvasbacks is 1 daily and 1 in possession. The limit on redheads throughout the flyway is 2 daily, except that in areas open to canvasback harvest the daily bag limit is 2 redheads, or 1 redhead and 1 canvasback. The possession limit on redheads is twice the daily bag limit under conventional regulations. The canvasback possession limit is equal to the daily bag limit. Under the point system, canvasbacks (except in closed areas) count 100 points each and redheads flywaywide count 70 points each. Areas closed to canvasback hunting are:

New York - Upper Niagara River between the Peace Bridge at Buffalo, New York, and the Niagara Falls. All waters of Lake Cayuga.

New Jersey - Those portions of Monmouth County and Ocean County lying east of the Garden State Parkway.

Maryland, Virginia and North Carolina - Those portions of each State lying east of U.S. Highway 1.

Restrictions on Wood Ducks: Under conventional and point system options, the daily bag and possession limits may not include more than 2 and 4 wood ducks, respectively.

Early Wood Duck Season Option: Virginia, North Carolina, South Carolina, and Georgia may split their regular hunting season so that a hunting season not to exceed 9 consecutive days occurs between October 1 and October 15. During this period under conventional regulations, no special restrictions within the regular daily bag and possession limits established for the flyway shall apply to wood ducks. Under the point system, wood ducks shall be 25 points. For other ducks, daily bag and possession limits shall be the same as established for the flyway under conventional or point system regulations. For those States using conventional regulations, the extra teal option may be selected concurrent with the early wood duck season option. This exception to the daily bag and possession limits for wood ducks shall not apply to that portion of the duck hunting season that occurs after October 15.

Merganser Limits: The daily bag limit on mergansers is 5, only 1 of which may be a hooded merganser. The possession limit is 10, only 2 of which may be hooded mergansers.

Coot Limits: The daily bag and possession limits of coots are 15 and 30, respectively.

Lake Champlain Area, New York Follows Vermont: The Lake Champlain Area of New York must follow the waterfowl seasons, daily bag and possession limits, and shooting hours selected by Vermont. This area includes that part of New York lying east and north of a boundary running south from the Canadian border along U.S. Highway 9 to New York Route 22 south of Keeseville, along New York Route 22 to South Bay, along and around the shoreline of South Bay to New York Route 22, along New York Route 22 to U.S. Highway 4 at Whitehall, and along U.S. Highway 4 to the Vermont border.

Special Scaup and Goldeneye Season: In lieu of a special scaup season, Vermont may, for the Lake Champlain Area, select a special scaup and goldeneye season not to exceed 16 consecutive days, with a daily bag limit of 3 scaup or 3 goldeneyes or 3 in the aggregate and a possession limit of 6 scaup or 6 goldeneyes or 6 in the aggregate, subject to the same provisions that apply to the special scaup season elsewhere.

Zoning:

Long Island: New York may, for Long Island, select season dates and daily bag and possession limits which differ from those in the remainder of the State.

Upstate New York: Upstate New York (excluding the Lake Champlain area) may be divided into three zones (West, North, South) on an operational basis for the purpose of setting separate duck, coot and merganser seasons. Option (a) or (b) for seasons and bag limits is applicable to the zones in the Upstate area within the Flyway framework; only conventional regulations may be selected. Each zone will be permitted the full number of days offered under options (a) or (b). In addition, a 2-segment split season without penalty may be selected in each zone. The basic daily bag limit on ducks in each zone and the restrictions applicable to
options (a) and (b) of the regular season for the Flyway also apply. Teal and scaup bonus bird options shall be applicable to the Upstate zones, but the 16-day special scaup season will not be allowed.

New York Zone Definitions: The zones are defined as follows:

The West Zone is that portion of Upstate New York lying west of a line commencing at the north shore of the Salmon River and its junction with Lake Ontario and extending easterly along the north shore of the Salmon River to its intersection with Interstate Highway 81, then southerly along Interstate Highway 81 to the Pennsylvania border.

The North and South Zones are bordered on the west by the boundary described above and are separated from each other as follows: starting at the intersection of Interstate Highway 81 and State Route 49 and extending easterly along State Route 49 to its junction with State Route 365 at Rome, then easterly along State Route 365 to its junction with State Route 28 at Trenton, then easterly along State Route 28 to its junction with State Route 29 at Middleville, then easterly along State Route 29 to its intersection with Interstate Highway 87 at Saratoga Springs, then northerly along Interstate Highway 87 to its junction with State Route 9, then northerly along State Route 9 to its junction with State Route 149, then easterly along State

New Hampshire

Route 9 to its junction with State Route 149, then easterly along State Route 149 to its junction with State Route 4 at Fort Ann, then northerly along State Route 4 to its intersection with the New York/Vermont boundary.

Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, Pennsylvania, and West Virginia: Maine and Connecticut may implement their current zoned season programs on an operational basis. New Hampshire, Massachusetts, and West Virginia each may be divided into two zones on an experimental basis for the purpose of setting separate duck, coot and merganser seasons. New Jersey may be divided into three zones and Pennsylvania may be divided into four zones for the same purpose. Option (a) or (b) for seasons and bag limits is applicable to the zones within the Flyway framework. Only conventional regulations may be selected in Maine, New Hampshire, Massachusetts, Connecticut, West Virginia, and Pennsylvania. New Jersey must select the point system. Each zone will be permitted the full number of days offered under options (a) or (b). In addition, a two-segment split season without penalty may be selected. The basic daily bag limit on ducks in each zone and the restrictions applicable to options (a) and (b) of the regular season for the Flyway also apply. Teal and scaup bonus bird options, and the 16-day special scaup season shall be allowed.

Zone definitions:

Connecticut

North Zone - That portion of the State north of Interstate 95.

South Zone - That portion of the State south of Interstate 95.

Maine

North Zone - Game Management Zones 1 through 5.

South Zone - Game Management Zones 6 through 8.

Massachusetts

Coastal Zone - Beginning at the New Hampshire-Massachusetts border, that portion of the State east and south of a boundary formed by Interstate 95, south to U.S. Route 1, south to Interstate 93, south to Route 3, south to U.S. Route 6, southwest to Route 28, northwest to Interstate 195, and west to the Rhode Island line.

Inland Zone - That portion of the State west and north of the above boundary.

New Hampshire

Coastal Zone — Beginning at the Maine-New Hampshire line in Rollinsford, that portion of the State east of a boundary formed by State Highway 4 west to the city of Dover, south to the intersection of State Highway 108, south along State Highway 108 through Madbury, Durham, and Newmarket to the junction of State Highway 85 in Newfields, south to State Highway 101 in Exeter, east to State Highway 51 (Exeter-Hampton Expressway), east to Interstate 95 (New Hampshire Turnpike) in Hampton, and south to the Massachusetts line.

Inland Zone — That portion of the State west of the above boundary.

New Jersey

Coastal Zone — That portion of New Jersey seaward of a continuous line beginning at the New York State boundary line in Raritan Bay; then west along the New York boundary line to its intersection with Route 440 at Perth Amboy; then west on Route 440 to its intersection with the Garden State Parkway; then south on the Garden State Parkway to the shoreline at Cape May City and continuing to the Delaware boundary in Delaware Bay.

North Zone - That portion of New Jersey west of the Coastal Zone and north of a boundary formed by Route 70, west to the New Jersey Turnpike, north on the turnpike to Route 206, north on Route 206 to Route 1, Trenton, west on Route 1 to the Pennsylvania State boundary in the Delaware River.

South Zone - That portion of New Jersey not within the North Zone or the Coastal Zone.

Pennsylvania

Lake Erie Zone - The Lake Erie waters of Pennsylvania and a shoreline margin along Lake Erie from New York on the east to Ohio on the west extending 150 yards inland, but including all of Presque Isle Peninsula.

North Zone - That portion of the State north of I-80 from the New Jersey State line west to the junction of State Route 147, then north on State Route 147 to the junction of Route 220, then west and/or south on Route 220 to the junction of I-80, then west on I-80 to its junction with the Allegheny River, and then north along but not including the Allegheny River to the New York border.

Northwest Zone - That portion of the State bounded on the north by the Lake Erie Zone and the New York line, on the east by and including the Allegheny River, on the south by Interstate Highway I-80, and on the west by the Ohio line.

South Zone - The remaining portion of the State.

West Virginia

Allegheny Mountain Upland Zone (contained within the circumscribed boundaries below).

The north boundary is the State line adjacent to Pennsylvania and Maryland. The eastern boundary extends south along U.S. Route 220 through Keyser, West Virginia, to the intersection of U.S. Route 50, and follows U.S. Route 50 to the intersection with State Route 93. The boundary follows State Route 93 south to the intersection with State Route 42 and continues south on State Route 42 to Petersburg. At Petersburg, the boundary follows State Route 28 south to Minnehaha Springs, and then follows State Route 39 west to U.S. Route 219 and follows 219 south to the intersection of Interstate 64. The southern boundary follows I-64 west to the intersection with U.S. Route 60, and follows Route 60 west to the intersection of U.S. Route 19. The western boundary follows Route 19 north to the intersection of I-79, and follows I-79 north to the Pennsylvania State line.

Remainder of the State - That portion outside the above boundaries.

Point System Option for all States in the Atlantic Flyway: As an alternative to conventional bag limits for ducks, a 50-day season with a point-system bag limit may be selected by States in the Atlantic Flyway during the framework dates prescribed. Point values for species and sexes taken are as follows: in Florida only, the fulvous tree duck counts 100 points each; in all States the canvasback counts 100 points each (except in closed areas); the female mallard, black duck, mottled duck, wood duck (except in Virginia, North Carolina, South Carolina, and Georgia during the early wood duck season option), redhead, and hooded merganser count 70 points each; the blue-winged teal, green-winged teal, pintail, gadwall, wigeon, shoveler, scaup, sea ducks, and mergansers (except hooded) count 10 points each; the male mallard, the wood duck during the early wood duck season option in Virginia, North Carolina, South Carolina, and Georgia, and all other species of ducks count 25 points each. The daily bag limit is reached when the point value of the last bird taken, added to the sum of the point values of the other birds already taken during that day, reaches or exceeds 100 points. The possession limit is the maximum number of birds which legally could have been taken in 2 days.

Sea Ducks: In any State in the Atlantic Flyway selecting both point-system regulations and a special sea duck season, sea ducks count 10 points each during the point-system season, but during any part of the sea duck season falling outside the point-system season, sea duck daily bag and possession limits of 7 and 14, respectively, apply.

Coot Limits: Coots have a point value of zero, but the daily bag and possession limits are 15 and 30, respectively, as under the conventional limits.

Canada Geese

Outside Dates, Season Lengths, and Limits: Between October 1, 1982, and January 20, 1983, Maine, New Hampshire, Vermont, Massachusetts, Pennsylvania, West Virginia, Maryland, and Virginia (excluding those portions of the cities of Virginia Beach and Chesapeake lying east of Interstate 64 and U.S. Highway 17) may select 70-day seasons on Canada geese; the daily bag and possession limits are 3 and 6 geese, respectively. However, in the area comprised of New York (including Long Island), Rhode Island, Connecticut, New Jersey, Delaware, the Delmarva Peninsula portions of Maryland and Virginia, and that portion of Pennsylvania lying east and south of a boundary beginning at Interstate Highway 83 at the Maryland border and extending north to Harrisburg, then east on U.S. Highway 22 to the New Jersey border, the Canada goose season length may be 90 days with the closing framework date extended to January 31, 1983. The daily bag limit within this area (except New York, Rhode Island, and Connecticut) will be 4 birds with a possession limit of 8 birds. The daily bag and possession limits in New York, Rhode Island, and Connecticut will be 3 and 6, respectively. Those portions of the cities of Virginia Beach and Chesapeake lying east of Interstate 64 and U.S. Highway 17 in Virginia may select a 50-day season on Canada geese within the October 1, 1982, to January 20, 1983, framework; the daily bag and possession limits are 2 and 4 Canada geese, respectively. North Carolina and South Carolina may select a 43-day season on Canada geese within a December 20, 1982, to January 31, 1983, framework; the daily bag and possession limits are 1 and 2 Canada geese, respectively.

Closures on Canada Geese: The season is closed on Canada geese in Florida and Georgia.

Snow Geese

Outside Dates, Season Lengths, and Limits: Between October 1, 1982, and January 31, 1983, States in the Atlantic Flyway may select 90-day seasons on snow geese (including blue geese); the daily bag and possession limits are 4 and 8 geese, respectively.

Atlantic Brant

Outside Dates, Season Lengths, and Limits: Between October 1, 1982, and January 20, 1983, States in the Atlantic Flyway may select 30-day seasons on Atlantic brant; the daily bag and possession limits are 2 and 4 brant, respectively.

MISSISSIPPI FLYWAY

Wisconsin - In the Mississippi River Zone, all that part of Wisconsin west

MISSISSIPPI FLYWAY

Ducks, Coots, and Mergansers

Outside Dates: Between October 2, 1982, and January 20, 1983, in all States, except that the framework opening date is September 18 in Iowa and October 1 in Wisconsin, and the framework closing date is January 31 in Mississippi.

Hunting Season: Not more than 50 days.

Limits: The daily bag limit for ducks is 5, and may include no more than 3 mallards (no more than 2 of which may be female mallards), 1 black duck, and 2 wood ducks (except as noted below). The possession limit is 10, including no more than 6 mallards (no more than 4 of which may be female mallards), 2 black ducks, and 4 wood ducks (except as noted below).

Canvasback and Redhead Limits: Except in closed areas, the conventional limit on canvasbacks and redheads is 1 daily and 2 in possession for each species. Under the point system, canvasbacks count 100 points each (except in closed areas) and redheads count 70 points each.

Closed Areas for Canvasback Hunting:

Mississippi River - Entire river, both sides, from Alton Dam upstream to Prescott, Wisconsin, at confluence of St. Croix River.

Alabama - Baldwin and Mobile Counties.

Louisiana - Caddo, St. Charles, and St. Mary Parishes; that portion of Ward 1 formerly designated as Ward 6 of St. Martin Parish; and Catahoula Lake in LaSalle and Rapides Parishes.

Michigan - Arenac, Bay, Huron, Macomb, Monroe, St. Clair, Tuscola, and Wayne Counties, and those adjacent waters of Saginaw Bay south of a line extending from Point au Gres in Sec. 6, T18N, R7E (Arenac County) to Sand Point in Sec. 11, T17N, R9E (Huron County), the St. Clair River, Lake St. Clair, the Detroit River and Lake Erie, under jurisdiction of the State of Michigan.

Minnesota - Douglas, Mahnomen, Polk, Pope, and Sibley Counties. Where the county line of any of the above counties crosses any portion of a lake, that entire lake is closed. In addition, all land in Sec. 13, T130N, R31W (i.e., land between Lake Christina and Pelican Lake) is closed.

Ohio - Land and water areas comprising Erie, Ottawa, and Sandusky Counties.

Tennessee - Kentucky Lake lying north of Interstate Highway 40.

Wisconsin - In the Mississippi River Zone, all that part of Wisconsin west of the Burlington-Northern Railroad in Grant, Crawford, Vernon, LaCrosse, Trempealeau, Buffalo, Pepin, and Pierce Counties. Also, the following lakes and waters, including a strip of land 100 yards wide adjacent to the shorelines thereof: Lake Poygan in Winnebago and Waushara Counties and Lakes Winneconne and Butte des Morts, including the connecting waters thereof, in Winnebago County.

Merganser Limits: The daily bag limit on mergansers is 5, only 1 of which may be a hooded merganser. The possession limit is 10, only 2 of which may be hooded mergansers.

Coot Limits: The daily bag and possession limits on coots are 15 and 30, respectively.

Point System Option: As an alternative to conventional bag limits for ducks, a 50-day season with point-system bag and possession limits may be selected by States in the Mississippi Flyway during the framework dates prescribed. Point values for species and sexes taken are as follows: except in closed areas, the canvasback counts 100 points; the redhead, female mallard, wood duck (except as noted below), black duck, and hooded merganser count 70 points each; the pintail, blue-winged teal, cinnamon teal, wigeon, gadwall, shoveler, scaup, green-winged teal, and mergansers (except hooded merganser) count 10 points each; the male mallard and all other species of ducks count 25 points each. The daily bag limit is reached when the point value of the last bird taken, added to the sum of the point values of the other birds already taken during that day, reaches or exceeds 100 points. The possession limit is the maximum number of birds which legally could have been taken in 2 days.

Coot Limits—Point System: Coots have a point value of zero, but the daily bag and possession limits are 15 and 30, respectively, as under the conventional limits.

Early Wood Duck Season Option: Arkansas, Louisiana, Mississippi, and Alabama may split their regular duck hunting seasons in such a way that a hunting season not to exceed 9 consecutive days may occur between October 2 and October 15. During this period, under conventional regulations, no special restrictions within the regular daily bag and possession limits established for the Flyway shall apply to wood ducks, and under the point system, the point value for wood ducks shall be 25 points. For other species of ducks, daily bag and possession limits shall be the same as established for the Flyway under conventional or point system regulations. In addition, the extra blue-winged teal option available to States in this Flyway that select conventional regula-

tions and do not have a September teal season may be selected during this period. This exception to the daily bag and possession limits for wood ducks shall not apply to that portion of the duck hunting season that occurs after October 15.

Western Louisiana: In that portion of Louisiana west of a boundary beginning at the Arkansas-Louisiana border on Louisiana Highway 3; then south along Louisiana Highway 3 to Bossier City; then east along Interstate 20 to Minden; then south along Louisiana Highway 7 to Ringgold; then east along Louisiana Highway 4 to Jonesboro; then south along U.S. Highway 167 to Lafayette; then southeast along U.S. Highway 90 to Houma; then south along the Houma Navigation Channel to the Gulf of Mexico through Cat Island Pass—the season on ducks, coots and mergansers may extend 5 additional days, provided that the season opens no later than November 6, 1982. If the 5-day extension is selected, and if point-system regulations are selected for the State, point values will be the same as for the rest of the State.

Pymatuning Reservoir Area, Ohio: The waterfowl seasons, limits, and shooting hours in the Pymatuning Reservoir area of Ohio will be the same as those selected by Pennsylvania. The area includes Pymatuning Reservoir and that part of Ohio bounded on the north by County Road 306 known as Woodward Road, on the west by Pymatuning Lake Road, and on the south by U.S. Highway 322.

Zoning: Alabama, Illinois, Indiana, Michigan, Missouri, Ohio, and Tennessee may select hunting seasons on ducks, coots, and mergansers by zones described as follows:

Alabama: South Zone - Mobile and Baldwin Counties. North Zone - The remainder of Alabama. The season in the South Zone may be split.

Illinois: North Zone - That portion of the State north of a line running east from the Iowa border along Illinois Highway 17 to I-74, north along I-74 to I-80, then east along I-80 to the Indiana border. Central Zone - That portion of the State between the North and South Zone boundaries. South Zone - That portion of the State south of a line running east from the Missouri border along Illinois Highway 150 to Illinois Highway 4, north along Illinois Highway 4 to Illinois Highway 15, east along Illinois Highway 15 to I-57, north along I-57 to I-70, then east along I-70 to the Indiana border.

Indiana: North Zone - That portion of Indiana north of State Highway 18. South Zone - The remainder of Indiana.

Michigan: North Zone - That portion of the State north of a line extending east from the mouth of the Manistee River along the south bank to the U.S. 31 bridge, south on old U.S. 31 to East Preuss Road, east on East Preuss Road to Huer Road, north on Huer Road to County 591 in Stronach, east on County 591 to M-55, east on M-55 to M-37, south on M-37 to M-82, east on M-82 to U.S. 131, north on U.S. 131, then east on M-46 to Port Sanilac. South Zone - The remainder of Michigan.

Missouri: North Zone - That portion of Missouri north of a line running east from the Kansas border along U.S. Highway 54 to U.S. Highway 65, south along U.S. Highway 65 to State Highway 32, east along State Highway 32 to State Highway 72, east along State Highway 72 to State Highway 34, then east along State Highway 34 to the Illinois border. South Zone - The remainder of Missouri. Missouri may split its season in each zone into two segments.

Ohio: North Zone - The counties of Darke, Miami, Clark, Champaign, Union, Delaware, Licking, Muskingum, Guernsey, Harrison, and Jefferson and all counties north thereof. In addition, the North Zone also includes that portion of the Buckeye Lake area in Fairfield and Perry Counties bounded on the west by State Highway 37, on the south by State Highway 204, and on the east by State Highway 13. South Zone - The remainder of Ohio. Ohio may split its season in each zone into two segments.

Tennessee: Reelfoot Zone - Lake and Obion Counties, or a designated portion of that area. State Zone - The remainder of Tennessee.

Within each State: (1) the same bag limit option must be selected for both zones; and (2) if a special scaup season is selected for a zone, it shall not begin until after the regular season closing date in that zone.

Geese

Definition: For the purpose of hunting regulations listed below, the term "geese" also includes brant.

Outside Dates, Season Lengths, and Limits: Between October 2, 1982, and January 20, 1983, States in this Flyway may select 70-day seasons on geese, with a daily bag limit of 5 geese, to include no more than 2 white-fronted geese. The possession limit is 10 geese, to include no more than 4 white-fronted geese. Regulations for Canada geese and exceptions to the above general provisions are shown below by State.

Outside Dates and Limits on Snow and White-fronted Geese in Louisiana: Between October 2, 1982, and February 14, 1983, Louisiana may select 70-day seasons on snow (including blue) and white-fronted geese by zones established for duck hunting seasons, with daily bag and possession limits as described in the above paragraph.

Minnesota. In the:

(b) Mississippi River Zone (that portion of the State west of the Burlington-

Minnesota. In the:

(a) Lac Qui Parle Zone (described in State Regulations)—the season on Canada geese closes after 50 days or when 5,500 birds have been harvested, whichever occurs first. The daily bag limit is 1 Canada goose and the possession limit is 4.

(b) Southeastern Zone (described in State regulations)—the season for Canada geese may extend for 70 consecutive days. The daily bag limit is 2 Canada geese and the possession limit is 4.

(c) Remainder of the State—the season on Canada geese will be concurrent with the duck season. The daily bag limit is 2 Canada geese and the possession limit is 4.

Iowa: The season may extend for 70 consecutive days. The daily bag limit is 2 Canada geese and the possession limit is 4.

Missouri. In the:

(a) Swan Lake Zone (described in State regulations)—the season on Canada geese closes after 70 days or when 20,000 birds have been harvested, whichever occurs first. Through November 21, the daily bag limit is 1 Canada goose and the possession limit is 4. After November 21, the daily bag limit is 2 Canada geese and the possession limit is 4.

(b) Southeastern Area (east of U.S. Highway 67 and south of Crystal City)—State may select a 50-day season on Canada geese between December 1, 1982, and January 20, 1983, with a daily bag limit of 2 Canada geese and a possession limit of 4.

(c) Remainder of the State—the season on Canada geese will be concurrent with the duck season in the respective duck hunting zones. The daily bag limit is 2 Canada geese, and the possession limit is 4.

Wisconsin: The framework opening date for geese is October 1. The harvest of Canada geese is limited to 18,000 birds. In the:

(a) Horicon and Central Zones (described in State regulations)—the season for Canada geese may not exceed 40 days and the season bag and possession limit is 1 bird.

(b) Mississippi River Zone (that portion of the State west of the Burlington-Northern Railroad in Grant, Crawford, Vernon, LaCrosse, Trempealeau, Buffalo, Pepin, and Pierce Counties)—the season for Canada geese may not exceed 70 days. Through November 24, the daily bag limit is 1 Canada goose and the possession limit is 2. After November 24, the daily bag limit is 2 Canada geese and the possession limit is 4.

(c) Remainder of the State—the season for Canada geese may not exceed 30 days. The daily bag limit is 1 Canada goose and the possession limit is 2.

Illinois: Seasons on geese up to 40 days may be selected by zones established for duck hunting seasons, except that in the South Zone the season will close no later than December 31. The harvest of Canada geese is limited to 27,000, with 17,500 birds allocated to the Southern Illinois Zone (described in State regulations). In the Southern Illinois Zone, the daily bag limit is 2 Canada geese and the possession limit is 4. Elsewhere in Illinois, the daily bag limit is 1 Canada goose and the possession limit is 4.

In the Tri-County Area (all of Knox County; in Fulton County the townships of Buckhart, Canton, Cass, Deerfield, Fairview, Farmington, Joshua, Orion, Putnam, and that portion of Banner Township bounded on the north by Illinois Route 9 and on the east by U.S. 24; in Henry County the townships of Alba, Annawan, Atkinson, and Cornwall), the season for Canada geese may extend for 10 days or until a quota of 700 birds is reached, whichever occurs first. The daily bag limit is 1 Canada goose and the possession limit is 4.

Michigan. In the:

(a) Counties of Baraga, Dickinson, Delta, Gogebic, Houghton, Iron, Keweenaw, Marquette, Menominee, and Ontonagon—the season for Canada geese may extend for 40 days. The daily bag limit is 2 Canada geese and the possession limit is 4.

(b) Southeastern Canada Goose Management Area (described in State regulations)—the season for Canada geese may not exceed 107 days between October 2, 1982, and February 15, 1983. During that portion of the season which coincides with the duck hunting season in the South Zone, the daily bag limit is 2 Canada geese and the possession limit is 4. During that portion of the season which occurs after the close of the duck season in the South Zone, the daily bag limit is 3 Canada geese and the possession limit is 6.

(c) Remainder of the State—the daily bag limit is 2 Canada geese and the possession limit is 4.

Ohio: The daily bag limit is 2 Canada geese and the possession limit is 4, except that in the counties of Ashtabula, Trumbull, Marion, Wyandot, Lucas, Ottawa, Erie, Sandusky, Mercer, and Auglaize, the daily bag limit is 1 Canada goose and the possession limit is 2.

Indiana: The season for Canada geese may extend for 70 days, except in Posey County, where the season may not exceed 40 days. The daily bag limit is 2 Canada geese and the possession limit is 4. The goose seasons may be set by zones established for duck hunting.

Kentucky: The season for Canada geese may extend for 70 days, except in the area west of the following boundary where the season may not exceed 40 days: Starting at the Kentucky-Tennessee border at Fulton, Kentucky, extending northerly along the Purchase Parkway to I-24, east on I-24 to U.S. 641; northerly on U.S. 641 to U.S. 60; northeasterly on U.S. 60 to U.S. 41; and then northerly on U.S. 41 to the Kentucky-Indiana border. The daily bag limit is 2 Canada geese and the possession limit is 4.

Tennessee: The season for Canada geese may extend for 70 days, except in Lake, Obion, Weakley, and Carroll Counties, and those portions of Gibson and Dyer Counties north of State Highways 20 and 104 and east of U.S. Highway 45W, where the season may not exceed 40 days. The daily bag limit is 1 Canada goose and the possession limit is 2, except in that portion of the State west of State Highway 13, where the daily bag limit is 2 Canada geese and the possession limit is 4. In that portion of Tennessee bounded on the north by State Highways 20 and 104, and on the east by U.S. Highways 45W and 45, the season for Canada geese may extend for 40 days, with bag and possession limits of 2 and 4 birds, respectively.

Arkansas, Louisiana, and Mississippi: the season for Canada geese may extend for 40 days, with bag and possession limits of 2 and 4 birds, respectively.

Alabama: The season is closed on all geese in the counties of Henry, Russell, and Barbour. Elsewhere in Alabama, the daily bag limit is 2 Canada geese and the possession limit is 4.

Missouri and Illinois Quota Zone Closures: When it has been determined that the quota of Canada geese allotted to the Southern Illinois Zone, the Tri-County Area of Illinois, and the Swan Lake Zone of Missouri will have been filled, the season for taking Canada geese in the respective area will be closed by the Director upon giving public notice through local information media at least 48 hours in advance of the time and date of closing.

Shipping Restrictions: Geese taken in Illinois and Missouri and in the Kentucky counties of Ballard, Hickman, Fulton, and Carlisle may not be transported, shipped or delivered for transportation or shipment by common carrier, the Postal Service, or by any person except as the personal baggage of licensed waterfowl hunters, provided that no hunter shall possess or transport more than the legally-prescribed possession limit of geese. Geese possessed or transported by persons other than the taker must be labeled with the name and address of the taker and the date taken.

CENTRAL FLYWAY

The Central Flyway includes Colorado (east of the Continental Divide), Kansas, Montana (Blaine, Carbon, Fergus, Judith Basin, Stillwater, Sweetgrass, Wheatland, and all counties east thereof), Nebraska, New Mexico (east of the Continental Divide and the Jicarilla Apache Indian Reservation), North Dakota, Oklahoma, South Dakota, Texas, and Wyoming (east of the Continental Divide).

Ducks (including mergansers) and Coots

Outside Dates: October 2, 1982, through January 23, 1983.

Hunting Season: The basic season in the Low Plains Unit may include no more than 60 days and in the High Plains Mallard Management Unit may include no more than 83 days provided that the last 23 days of such season must begin on or after December 11, 1982. The High Plains Unit, roughly defined as that portion of the Central Flyway which lies west of the 100th meridian, shall be described in State regulations. States may split their seasons into 2 or, in lieu of zoning, 3 segments.

Daily Bag and Possession Limits: Conventional limits on ducks (including mergansers), singly or in the aggregate, are 5 daily and 10 in possession. The aggregate daily bag limit on ducks (including mergansers) may include no more than 1 canvasback (note areas closed to canvasback hunting), 1 redhead, 1 female mallard, 1 hooded merganser, and 2 wood ducks. The possession limit may include no more than 1 canvasback (note areas closed to canvasback hunting), 2 redheads, 2 female mallards, 2 hooded mergansers, and 4 wood ducks. The daily bag and possession limits on coots are 15 and 30, respectively.

As an alternative to conventional bag and possession limits for ducks, States may select point system regulations.

Point Values: Canvasbacks count 100 points each (note areas closed to canvasback hunting); female mallards, Mexican-like ducks, mottled ducks (Texas only), wood ducks, redheads, and hooded mergansers count 70 points each; blue-winged teal, green-winged teal, cinnamon teal, scaup, pintails, gadwalls, wigeon, shovelers, and mergansers (except the hooded merganser) count 10 points each; all other species and sexes of ducks count 20 points each. The daily bag limit is reached when the point value of the last bird taken, when added to the sum of the point values of other birds already taken during that day, reaches or exceeds 100 points. The possession limit is the maximum number of birds which legally could have been taken in 2 days. Coots have a point value of zero, but the daily bag and possession limits are 15 and 30, respectively, as under the conventional limits.

Closures. Areas closed to canvasback hunting are:

Zone 3. The Low Plains portions of Brown, Blaine, and Custer Counties and all of Rock, Holt, Loup, Garfield, Valley, Greeley, Sherman,

Closures. Areas closed to canvasback hunting are:

North Dakota - that portion lying east of State Highway 3, including all or portions of 27 counties.

South Dakota - all of Marshall County; that portion of Day County east of State Highway 25; that portion of Codington County south of State Highway 20 and west of U.S. Highway 81; that portion of Hamlin County west of U.S. Highway 81; and that portion of Kingsbury County east of State Highway 25 and north of U.S. Highway 14.

Zoning: Kansas, Montana, Nebraska, New Mexico, South Dakota, Oklahoma, and Wyoming may select hunting seasons on ducks, coots, and mergansers by zones described as follows:

Kansas: Two zones in the Low Plains portion of the State as follows:

Zone 1. That portion of south-central Kansas bounded by the State line and the following highways: on the west by U.S. 283; on the north by K-4, U.S. 81, U.S. 56, K-150, and U.S. 50; and on the east by K-99.

Zone 2. The remaining area within the Low Plains of Kansas.

Montana: Two zones in the Central Flyway portion as follows:

Zone 1. The counties of Bighorn, Blaine, Carbon, Daniels, Fergus, Garfield, Golden Valley, Judith Basin, McCone, Musselshell, Petroleum, Phillips, Richland, Roosevelt, Sheridan, Stillwater, Sweetgrass, Valley, Wheatland, and Yellowstone.

Zone 2. The counties of Carter, Custer, Dawson, Fallon, Powder River, Prairie, Rosebud, Treasure, and Wibaux.

Nebraska: Four zones within the Low Plains portion of the State as follows:

Zone 1. Keya Paha County east of U.S. Highway 183 and all of Boyd, Knox, Cedar, and Dixon Counties, including the adjacent waters of the Niobrara River.

Zone 2. The Low Plains portions of Dawson, Gosper, Frontier, and Furnas Counties and all of Boone, Buffalo, Phelps, Harlan, Hall, Kearney, Franklin, Merrick, Nance, Hamilton, Platte, Polk, Colfax, Butler, Dodge, Saunders, Douglas, Washington, and Wheeler Counties, including the adjacent waters of the Platte River.

Zone 3. The Low Plains portions of Brown, Blaine, and Custer Counties and all of Rock, Holt, Loup, Garfield, Valley, Greeley, Sherman, Howard, Antelope, Pierce, Madison, Wayne, Stanton, Cuming, Dakota, Thurston, and Burt Counties.

Zone 4. Adams, Webster, Clay, Nuckolls, York, Fillmore, Thayer, Seward, Saline, Jefferson, Lancaster, Gage, Sarpy, Cass, Otoe, Johnson, Nemaha, Pawnee, and Richardson Counties.

New Mexico: Two zones as follows:

Zone 1. That portion of northern New Mexico east of the Continental Divide and the Jicarilla Apache Indian Reservation and north of Interstate Highway 40 and U.S. Highway 54.

Zone 2. The remainder of the Central Flyway portion of New Mexico.

Oklahoma: Two zones in the Low Plains portion of the State as follows:

Zone 1. That portion of northwestern Oklahoma, except the Panhandle, bounded by the following highways: starting at the Texas-Oklahoma border, OK 33 to OK 47, OK 47 to U.S. 183, U.S. 183 to I-40, I-40 to U.S. 177, U.S. 177 to OK 51, OK 51 to I-35, I-35 to U.S. 60, U.S. 60 to U.S. 64, U.S. 64 to OK 132, and OK 132 to the Oklahoma-Kansas state line.

Zone 2. The remainder of the Low Plains portion of Oklahoma.

South Dakota: Two zones within the Low Plains portion of the State as follows:

South Zone. Bon Homme, Charles Mix, Clay, Gregory, Union, and Yankton Counties.

North Zone. The remainder of the Low Plains portion of South Dakota.

Wyoming: Four zones in the Central Flyway portion as follows:

Zone 1. Sheridan, Johnson, Natrona, Campbell, Crook, Weston, Converse, and Niobrara Counties.

Zone 2. Platte, Goshen, and Laramie Counties.

Zone 3. Carbon and Albany Counties.

Zone 4. Park, Big Horn, Hot Springs, Washakie, and Fremont Counties.

Geese

Definitions: In the Central Flyway, the terms "geese" include all species of geese and brant, "dark geese" include Canada and white-fronted geese and black brant, and "light geese" include all other species.

Outside Dates: October 2, 1982, through January 23, 1983, (except as noted for New Mexico).

Possession Limits: Goose possession limits are twice the daily bag limits.

West Tier States.

Montana: For its Central Flyway portion, Montana may select a season of 93 days. The daily bag limits are 2 geese in Sheridan County and 3 geese in the remainder of the Central Flyway portion.

Wyoming: Wyoming may select seasons of 93 days with daily bag limits of 2 geese for each of four Goose Management Units, which coincide with management zones for ducks, in the Central Flyway portion.

Colorado: Colorado may select, for the Central Flyway portion, a season of 93 days with a daily bag limit of 2 geese.

New Mexico: New Mexico, for the Central Flyway portion, may select a season for dark geese of 93 days with a daily bag limit of 2 during the period October 2, 1982, through January 23, 1983; and a season for light geese of 93 days with a daily bag limit of 5 during the period October 2, 1982, through February 13, 1983.

Texas (west of U.S. 81): Texas, for that portion west of U.S. Highway 81, may select a season of 93 days with a daily bag limit of 5 geese which may include no more than 2 dark geese.

East Tier States - Light geese.

North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas (for that portion east of U.S. Highway 81) may select seasons for light geese of 86 days with daily bag limits of 5 geese.

East Tier States - Dark geese. States in this tier may select seasons, statewide or in designated management units, on dark geese of 72 days (except in Nebraska and South Dakota as noted) as follows:

North Dakota: The daily bag limits may include no more than 1 Canada goose and 1 white-fronted goose or 2 white-fronted geese through October 31, 1982, and no more than 2 Canada geese or 2 white-fronted geese or 1 of each during the remainder of the season.

South Dakota: In Bon Homme, Brule, Buffalo, Campbell, Charles Mix, Corson (east of SD Highway 65), Dewey, Gregory, Hughes, Hyde, Lyman, Potter, Stanley, Sully, Tripp (east of U.S. Highway 183), Walworth, and Yankton (west of U.S. Highway 81) Counties, the season length may not exceed 79 days and the daily bag limit may include no more than 1 Canada goose and 1 white-fronted goose through November 12, 1982, and no more than 2 Canada geese or 1 Canada goose and 1 white-fronted goose for the remainder of the season. In the remainder of the State, the season length may not exceed 72 days and the daily bag limit may include no more than 1 Canada goose and 1 white-fronted goose.

Nebraska: In Goose Management Unit 1 comprised of Boyd, Cedar (west of U.S. Highway 81), Keya Paha (east of U.S. Highway 183), and Knox Counties, the season length may not exceed 79 days and the daily bag limits may include no more than 1 Canada goose and 1 white-fronted goose through November 12, 1982, and no more than 2 Canada geese or 1 Canada goose and 1 white-fronted goose for the remainder of the season.

In Goose Management Unit 2, the remainder of Nebraska east of U.S. Highway 183, and in Goose Management Unit 3, that portion of Nebraska west of U.S. Highway 183, the daily bag limits may include no more than 2 Canada geese or 1 Canada goose and 1 white-fronted goose through November 21, 1982, and no more than 1 Canada goose and 1 white-fronted goose for the remainder of the season.

Kansas: The daily bag limit may include no more than 2 Canada geese or 1 Canada goose and 1 white-fronted goose through November 28 and no more than 1 Canada goose and 1 white-fronted goose during the remainder of the season.

Oklahoma: In Goose Management Unit 1 (that portion of western and southern Oklahoma bounded by the following highways: starting at the Kansas-Oklahoma line, U.S. 77 to U.S. 177, U.S. 177 to OK 33, OK 33 to U.S. 75, U.S. 75 to Indian Nation Turnpike, Indian Nation Turnpike to U.S. 271, and U.S. 271 to the Oklahoma-Texas line) and in Goose Management Unit 2 (the remainder of Oklahoma), the daily bag limits may include no more than 2 Canada geese or 1 Canada goose and 1 white-fronted goose.

Texas: In that portion east of U.S. Highway 81, the bag limit may include no more than 1 Canada goose and 1 white-fronted goose daily.

PACIFIC FLYWAY

Colorado, Montana, New Mexico, and Wyoming — Common Snipe: For States partially within the Flyway 93-day seasons on common snipe may be selected to

PACIFIC FLYWAY

The Pacific Flyway includes the States of Arizona, California, Idaho, Nevada, Oregon, Utah, Washington, those portions of Colorado, Wyoming (including the Great Divide Basin), and New Mexico (including the Jicarilla Apache Indian Reservation) lying west of the Continental Divide, and that portion of Montana including and to the west of Hill, Chouteau, Cascade, Meagher, and Park Counties.

Ducks (including Mergansers), Coots, Gallinules, and Common Snipe

Outside Dates: Between October 2, 1982, and January 23, 1983.

Hunting Seasons: Concurrent 93-day seasons on ducks (including mergansers), coots, gallinules, and common snipe may be selected in Pacific Flyway States except as subsequently noted.

Duck Limits: Basic daily bag and possession limits on ducks (including mergansers) are 7 and 14, respectively. No more than 2 redheads or 2 canvasbacks or 1 of each may be taken daily and no more than 4 singly or in the aggregate may be possessed.

Coot and Gallinule Limits: The daily bag and possession limits on coots and gallinules are 25 singly or in the aggregate.

Common Snipe Limits: The daily bag and possession limits on common snipe are 8 and 16, respectively.

California—Waterfowl Zones: Season dates for the Colorado River Zone of California must coincide with season dates selected by Arizona. Season dates for the Northeastern Zone of California must coincide with season dates selected by Oregon. For the Southern Zone of California, the State may designate season dates differing from those in the remainder of the State.

Nevada—Clark County Waterfowl Zone: Nevada may designate season dates for Clark County differing from those in the remainder of the State.

"Columbia Basin" Portions of Washington, Oregon, and Idaho: In the Idaho counties of Ada, Bannock, Benewah, Blaine, Bonner, Boundary, Camas, Canyon, Cassia, Elmore, Gem, Gooding, Jerome, Kootenai, Latah, Lewis, Lincoln, Minidoka, Nez Perce, Owyhee, Payette, Power, Shoshone, Twin Falls, Washington, and that portion of Bingham County lying outside the Blackfoot Reservoir drainage; the Oregon counties of Baker, Gilliam, Malheur, Morrow, Sherman, Umatilla, Union, Wallowa, and Wasco; and in Washington all areas lying east of the summit of the Cascade Mountains and east of the Big White Salmon River in Klickitat County, the seasons may be 100 days and must run concurrently.

Colorado, Montana, New Mexico, and Wyoming — Common Snipe: For States partially within the Flyway 93-day seasons on common snipe may be selected to occur between September 1, 1982, and February 28, 1983, and which need not be concurrent with the duck season.

Geese

Outside dates, season lengths, and limits on geese: Between October 2, 1982, and January 23, 1983, 93-day seasons on geese (except brant) may be selected in the Pacific Flyway States, except as subsequently noted. The basic daily bag and possession limits are 6, provided that the daily bag limit includes no more than 3 white geese (snow, including blue, and Ross' geese) and 3 dark geese (Canada and white-fronted geese); the daily bag and possession limits are proportionately reduced in those areas where special restrictions apply to Canada geese. In Washington and Idaho, the daily bag and possession limits are 3 and 6 geese, respectively.

Aleutian Canada goose closure: The season is closed on the Aleutian Canada goose. Emergency closures may be invoked for all Canada geese should Aleutian Canada goose distribution patterns or other circumstances justify such actions.

Canada goose closures in California: Three areas in California, described as follows, are restricted in the hunting of all Canada geese:

(1) In the counties of Del Norte and Humboldt there will be no open season on any Canada geese during the 1982-83 waterfowl hunting season.

(2) In the Sacramento Valley in that area bounded by a line beginning at Willows in Glenn County proceeding south on Interstate Highway 5 to the junction with Hahn Road north of Arbuckle in Colusa County; then easterly on Hahn Road and the Grimes-Arbuckle Road to Grimes on the Sacramento River; then southerly on the Sacramento River to the Tisdale By-pass; then easterly on the Tisdale By-pass to where it meets O'Banion Road; then easterly on O'Banion Road to State Highway 99; then northerly on State Highway 99 to its junction with the Gridley-Colusa Highway in Gridley in Butte County; then westerly on the Gridley-Colusa Highway to its junction with the River Road; then northerly on the River Road to the Princeton Ferry; then westerly across the Sacramento River to State Highway 45; then northerly on State Highway 45 to its junction with State Highway 162; then continuing northerly on State Highway 45-162 to Glenn; then westerly on State Highway 162 to the point of beginning in Willows, the hunting season for taking any Canada geese will not open until December 15, 1982, and may continue to the end of the 1982-83 waterfowl hunting season.

(3) In the San Joaquin Valley in that area bounded by a line beginning at Modesto in Stanislaus County proceeding west on State Highway 132 to the junction of Interstate Highway 5; then southerly on Interstate Highway 5 to the junction of State Highway 152 in Merced County; then easterly on State Highway 152 to the junction of State Highway 59; then northerly on State Highway 59 to the junction of State Highway 99 at Merced; then northerly and westerly to the point of beginning; the hunting season for taking any Canada geese will close on November 23, 1982.

Canada goose closures in Oregon: Those portions of Coos and Curry counties lying west of U.S. Highway 101 and that portion of Tillamook County lying south of an east-west line passing through the most westerly point of Cape Lookout shall be closed to the hunting of all Canada geese.

"Columbia Basin" Portions of Washington and Oregon—geese: In the Washington counties of Adams, Benton, Douglas, Franklin, Grant, Kittitas, Klickitat, Lincoln, Walla Walla, and Yakima, and in the Oregon counties of Gilliam, Morrow, Sherman, Umatilla, Union, Wallowa, and Wasco, the goose season may be of 100 days duration and must run concurrently with the duck season.

Oregon (Lake and Klamath Counties) — geese: In the Oregon counties of Lake and Klamath the daily bag and possession limits through October 29 are reduced to 2 and 4 geese, respectively, with no more than 1 and 2, respectively, being dark geese. Thereafter, the limits may be increased to those which are allowed for the Flyway.

California (Northeastern Zone) — geese: In the Northeastern Zone of California through October 29, the limits are 1 dark goose or 1 white goose in the daily bag and 2 geese in possession. Thereafter, the limits may be increased to 4 geese in bag and possession with not more than 2 dark geese or 3 white geese being in either the daily bag or possession.

California (Balance of the State Zone) — geese: In the Balance of the State Zone the season shall not exceed 79 days. The daily bag and possession limits are 5, with not more than 2 dark geese or 3 white geese in either the daily bag or possession.

Pacific Population of Canada geese—Idaho, Oregon, and Montana: In that portion of Idaho lying west of the line formed by U.S. Highway 93 north from the Nevada border to Shoshone, thence northerly on Idaho State Highway 75 (formerly U.S. Highway 93) to Challis, thence northerly on U.S. Highway 93 to the Montana border (except Boundary, Bonner, Kootenai, Benewah, Shoshone, Latah, Nez Perce, Lewis, Clearwater and Idaho Counties); in the Oregon counties of Baker and Malheur; and in Montana (Pacific Flyway portion west of the Continental Divide), the daily bag and possession limits are 2 Canada geese and the season on Canada geese may not extend beyond January 2, 1982.

Rocky Mountain Population of Canada Geese—Montana and Wyoming: In Montana (Pacific Flyway portion east of the Continental Divide) and Wyoming the season may not extend beyond January 2, 1982. In Lincoln County, Wyoming, the combined special sandhill crane-Canada goose season and the regular regular goose season shall not exceed 93 days.

Idaho, Colorado, and Utah: In that portion of Idaho lying east of the line formed by U.S. Highway 93 north from the Nevada border to Shoshone, thence northerly on Idaho State Highway 75 (formerly U.S. Highway 93) to Challis, thence northerly on U.S. Highway 93 to the Montana border; in Colorado; and in Utah, except Washington County, the daily bag and possession limits are 2 and 4 Canada geese, respectively, and the season on Canada geese may be no more than 86 days and may not extend beyond January 2, 1983.

Nevada—experimental zoning: Nevada may experimentally designate season dates on geese in Clark County, in Elko County, and in that portion of White Pine County within Ruby Lake National Wildlife Refuge differing from those in the remainder of the State. The daily bag and possession limits are 2 Canada geese throughout the State.

Arizona, Nevada, California, Utah, and New Mexico: In California, the Colorado River Zone where the season must be the same as that selected by Arizona and the Southern Zone; in Arizona; in New Mexico; in Clark County, Nevada; and in Washington County, Utah; the season on Canada geese may be no more than 86 days. The daily bag and possession limits are 2 Canada geese except in that portion of California Department of Fish and Game District 22 within the Southern Zone (i.e. Imperial Valley) the daily bag and possession limits on Canada geese are 1 and 2, respectively.

Washington—snow geese: In the Washington counties of Island, Skagit, Snohomish, and Whatcom, the seasons on snow geese may not extend beyond January 2, 1983.

Pacific Brant

Between October 23, 1982, and February 20, 1983, States in this Flyway may select an open season on Pacific brant of 93 days with daily bag and possession limits of 4 and 8 brant, respectively.

Whistling Swans

Whistling Swans

In Utah, Nevada and Montana, an open season for taking a limited number of whistling swans may be selected subject to the following conditions: (a) the season must run concurrently with the duck season; (b) in Utah, no more than 2,500 permits may be issued, authorizing each permittee to take 1 whistling swan; (c) in Nevada, no more than 500 permits may be issued, authorizing each permittee to take 1 whistling swan in Churchill County; (d) in Montana, no more than 500 permits may be issued authorizing each permittee to take 1 whistling swan in either Teton or Cascade Counties; and (e) the appropriate State agency must issue permits, obtain harvest and hunter participation data, and require successful hunters to immediately validate their harvests.

Sandhill Cranes

Arizona may select an experimental sandhill crane season subject to the conditions specified in the frameworks for early seasons.

SPECIAL FALCONRY FRAMEWORKS

Extended Seasons: Falconry is a permitted means of taking migratory game birds in any State meeting Federal falconry standards in 50 CFR 21.29(k). These States
may select an extended season for taking migratory game birds in accordance with the following:

Framework Dates: Seasons must fall within the regular season framework dates and, if offered and accepted, other special season framework dates for hunting.

Daily Bag and Possession Limits: Falconry daily bag and possession limits for all permitted migratory game birds shall not exceed 3 and 6 birds, respectively, singly or in the aggregate, during both regular hunting seasons and extended falconry seasons.

Regulations Publication: Each State selecting the special season must inform the Service of the season dates and publish said regulations.

Regular Seasons: General hunting regulations, including seasons, hours, and limits, apply to falconry in each State listed in 50 CFR 21.29(k) which does not select an extended falconry season.

NOTE: In no instance shall the total number of days in any combination of duck seasons (regular duck season, sea duck season, September teal season, special scaup season, special scaup and goldeneye season, or falconry season) exceed 107 days for a species in one geographical area.

Dated: September 2, 1982.

J. Craig Potter,

Acting Assistant Secretary for Fish and Wildlife and Parks.

Part IV

Department of Commerce

Patent and Trademark Office

Revision of Patent and Trademark Fees Confirmation

DEPARTMENT OF COMMERCE

Patent and Trademark Office

37 CFR Parts 1 and 2

[Docket No. 2714-129]

Revision of Patent and Trademark Fees Confirmation

AGENCY: Patent and Trademark Office, Commerce.

ACTION: Confirmation of rules.

SUMMARY: This document confirms certain rule changes for patent and trademark fees and fee-related procedures which take effect on October 1, 1982. These rule changes implement H.R. 6260 which was enacted as Pub. L. 97-247 on August 27, 1982.

EFFECTIVE DATE: October 1, 1982.

FOR FURTHER INFORMATION CONTACT:

As to the patent rules contact: R. Franklin Burnett, by telephone at (703) 557-3054 or by mail addressed to the Commissioner of Patents and Trademarks, Attention: R. Franklin Burnett, Room 3-11A13, Washington, D.C. 20231.

As to the trademark rules contact: Miss Maude Williams, by telephone at (703) 557-2222 or by mail addressed to the Commissioner of Patents and Trademarks, Attention: Miss Maude Williams, Room 3-11C17, Washington, D.C. 20231.

SUPPLEMENTARY INFORMATION: The Patent and Trademark Office is required by law to publish a notice in the **Federal Register** of its fees at least 60 days before the effective date thereof (35 U.S.C. 41 (g)). Thus, on July 30, 1982 a final rule document was published at 47 FR 33086 setting forth rule changes for patent and trademark fees and procedures which take effect on October 1, 1982. The document was based on the public law in effect at that time, Pub. L. 96-517 and on H.R. 6260, which was then pending but is now Pub. L. 97-247. The final rule document published on July 30, 1982, in the **Federal Register** sets out—

(1) Rules that are common to both Pub. L. 96-517 and H.R. 6260 (now Pub. L. 97-247);

(2) Alternative A which contains rule changes implementing Pub. L. 96-517 alone; and

(3) Alternative B which contains rule changes implementing H.R. 6260 (now Pub. L. 97-247).

H.R. 6260 was enacted as Public Law 97-247 on August 27, 1982, and the Patent and Trademark Office hereby confirms that the rule changes common to both Pub. L. 96-517 and H.R. 6260 and Alternative B are those which go into effect on October 1, 1982. The rules under Alternative A are hereby withdrawn. Additional rule changes required by Pub. L. 97-247 will be made the subject of separate rulemakings.

List of Subjects in 37 CFR Parts 1 and 2

Administrative practice and procedure, Courts, Inventions and patents, Lawyers, Nonprofit organizations, Small businesses, Trademarks.

Amendment of Regulations

For the reasons set out in the preamble, 37 CFR Parts 1 and 2 are confirmed as being amended by the final rule published on July 30, 1982 at 47 FR 33086 as set forth below.

Dated: September 14, 1982.

Gerald J. Mossinghoff,

Commissioner of Patents and Trademarks.

1. The rule changes made in Alternative A relating to patents which begin at 47 FR 33107 and in Alternative A relating to trademarks which begin at 47 FR 33112 are hereby withdrawn.

2. Confirmed as effective October 1, 1982 are the rule changes published July 30, 1982 common to Pub. L. 96-517 and H.R. 6260 (now Pub. L. 97-247) and Alternative B. The rule changes relating to patents common to Pub. L. 96-517 and H.R. 6260 (now Pub. L. 97-247) were published on July 30, 1982 at 47 FR 33089. The rule changes relating to patents under Alternative B were published at 47 FR 33108. The rule changes relating to trademarks common to Pub. L. 96-517 and H.R. 6260 (now Pub. L. 97-247) were published on July 30, 1982 at 47 FR 33111. The rule changes relating to trademarks under Alternative B were published at 47 FR 33112. Corrections to the July 30, 1982 publication were published on August 4 and 5, 1982 at 47 FR 33668 and 33959.

3. For the convenience of the user, the rule changes common to Pub. L. 96-517 and H.R. 6260 and Alternative B have been integrated into numerical order and are reprinted below:

For the reasons indicated above and pursuant to the authority given to the Commissioner of Patents and Trademarks by 35 U.S.C. 6, and under Sections 31 and 41 of the Trademark Act of July 5, 1946, 15 U.S.C. 1113, and 1123, Parts 1 and 2 of Title 37, Code of Federal Regulations, are amended as set forth below.

PART 1—RULES OF PRACTICE IN PATENT CASES

1. Section 1.11 is amended by revising paragraph (c) to read as follows:

§ 1.11 Files open to the public.

* * * * *

(c) All requests for reexamination for which the fee under § 1.20(c) has been paid, will be announced in the *Official Gazette*. Any reexaminations at the initiative of the Commissioner pursuant to § 1.520 will also be announced in the *Official Gazette*. The announcement shall include at least the date of the request, if any, the reexamination request control number or the Commissioner initiated order control number, patent number, title, class and subclass, name of the inventor, name of the patent owner of record, and the examining group to which the reexamination is assigned.

* * * * *

2. Section 1.12 is revised to read as follows:

§ 1.12 Assignment records open to public inspection.

(a) The assignment records, relating to original or reissue patents, including digests and indexes, and assignment records relating to pending or abandoned trademark applications and to trademark registrations, are open to public inspection and copies of any instrument recorded may be obtained upon request and payment of the fee set forth in § 1.19(a)(5).

(b) Assignment records, digests, and indexes, relating to any pending or abandoned patent application are not available to the public. Copies of any such assignment records and information with respect thereto shall be obtainable only upon written authority of the applicant or applicant's assignee or attorney or agent or upon a showing that the person seeking such information is a bona fide prospective or actual purchaser, mortgagee, or licensee of such application, unless it shall be necessary to the proper conduct of business before the Office or as provided by these rules.

(c) Any request by a member of the public seeking copies of any assignment records of any pending or abandoned patent application preserved in secrecy under § 1.14, or any information with respect thereto, must (1) be in the form of a petition accompanied by the petition fee set forth in § 1.17(i) or (2) include written authority granting access to the member of the public to the particular assignment records from the applicant or applicant's assignee or attorney or agent of record.

(d) An order for a copy of an assignment should give the identification of the record. If identified only by the name of the patentee and number of the patent, or in the case of a

trademark registration by the name of the registrant and number of the registration, or by name of the applicant and serial number or international application number of the application, an extra charge as set forth in § 1.21(f) will be made for the time consumed in making a search for such assignment.

3. Section 1.14 is amended by adding a new paragraph (e) to read as follows:

§ 1.14 Patent applications preserved in secrecy.

* * * * *

(e) Any request by a member of the public seeking access to, or copies of, any pending or abandoned application preserved in secrecy pursuant to paragraphs (a) and (b) of this section, or of any papers relating thereto, must (1) be in the form of a petition and be accompanied by the petition fee set forth in § 1.17(i) or (2) include written authority granting access to the member of the public in that particular application from the applicant or the applicant's assignee or attorney or agent of record.

4. A new § 1.16 is added which reads as follows:

§ 1.16 National application filing fees.

(a) Basic fee for filing each application for an original patent, except design or plant cases:	
By a small entity (§ 1.9(f))	$150.00
By other than a small entity	300.00
(b) In addition to the basic filing fee in an original application, for filing or later presentation of each independent claim in excess of 3:	
By a small entity (§ 1.9(f))	15.00
By other than a small entity	30.00
(c) In addition to the basic filing fee in an original application, for filing or later presentation of each claim (whether independent or dependent) in excess of 20 (Note that § 1.75(c) indicates how multiple dependent claims are considered for fee calculation purposes.):	
By a small entity (§ 1.9(f))	5.00
By other than a small entity	10.00
(d) In addition to the basic filing fee in an original application, if the application contains, or is amended to contain, a multiple dependent claim(s), per application:	
By a small entity (§ 1.9(f))	50.00
By other than a small entity	100.00
(If the additional fees required by paragraphs (b), (c) and (d) are not paid on filing or on later presentation of the claims for which the additional fees are due, they must be paid or the claims cancelled by amendment, prior to the expiration of the time period set for response by the Office in any notice of fee deficiency.)	
(e) Surcharge for filing the basic filing fee or oath or declaration on a date later than the filing date of the application:	
By a small entity (§ 1.9(f))	50.00
By other than a small entity	100.00
(f) For filing each design application:	
By a small entity (§ 1.9(f))	62.50
By other than a small entity	125.00
(g) Basic fee for filing each plant application:	
By a small entity (§ 1.9(f))	100.00
By other than a small entity	200.00
(h) Basic fee for filing each reissue application:	
By a small entity (§ 1.9(f))	150.00
By other than a small entity	300.00
(i) In addition to the basic filing fee in a reissue application, for filing or later presentation of each independent claim which is in excess of the number of independent claims in the original patent:	
By a small entity (§ 1.9(f))	15.00
By other than a small entity	30.00
(j) In addition to the basic filing fee in a reissue application, for filing or later presentation of each claim (whether independent or dependent) in excess of 20 and also in excess of the number of claims in the original patent. (Note that § 1.75(c) indicates how multiple dependent claims are considered for fee purposes.):	
By a small entity (§ 1.9(f))	5.00
By other than a small entity	10.00
(Note, see § 1.445 for international application filing and processing fees.)	

5. A new § 1.17 is added which reads as follows:

§ 1.17 Patent application processing fees.

(a) Extension fee for response within first month pursuant to § 1.136(a):	
By a small entity (§ 1.9(f))	$25.00
By other than a small entity	50.00
(b) Extension fee for response within second month pursuant to § 1.136(a):	
By a small entity (§ 1.9(f))	75.00
By other than a small entity	150.00
(c) Extension fee for response within third month pursuant to § 1.136(a):	
By a small entity (§ 1.9(f))	175.00
By other than a small entity	350.00
(d) Extension fee for response within fourth month pursuant to § 1.136(a):	
By a small entity (§ 1.9(f))	275.00
By other than a small entity	550.00
(e) For filing a notice of appeal from the examiner to the Board of Appeals:	
By a small entity (§ 1.9(f))	57.50
By other than a small entity	115.00
(f) In addition to the fee for filing a notice of appeal, for filing a brief in support of an appeal:	
By a small entity (§ 1.9(f))	57.50
By other than a small entity	115.00
(g) For filing a request for an oral hearing before the Board of Appeals:	
By a small entity (§ 1.9(f))	50.00
By other than a small entity	100.00
(h) For filing a petition to the Commissioner under a section of this part listed below which refers to this paragraph:	130.00
§ 1.45—for correction of inventorship	
§ 1.47—for filing by other than all the inventors or a person not the inventor	
§ 1.182—for decision on questions not specifically provided for	
§ 1.183—to suspend the rules	
§ 1.266—for late filing of interference settlement agreement	
(i) For filing a petition to the Commissioner under a section of this part listed below which refers to this paragraph:	50.00
§ 1.12—for access to an assignment record	
§ 1.14—for access to an application	
§ 1.55—for entry of late priority papers	
§ 1.102—to make application special	
§ 1.103—to suspend action in application	
§ 1.177—for divisional reissues to issue separately	
§ 1.266—for access to interference settlement agreement	
§ 1.312—for amendment after payment of issue fee	
§ 1.313—to withdraw an application from issue	
§ 1.314—to defer issuance of a patent	
§ 1.334—for patent to issue to assignee, assignment recorded late	
(j) For filing a petition to institute a public use proceeding under § 1.292	750.00
(k) For processing an application filed with a specification in a non-English language (§ 1.52(d))	20.00
(l) For filing a petition (1) for the revival of an abandoned application under 35 U.S.C. 133, or (2) for delayed payment of the issue fee under 35 U.S.C. 151:	
By a small entity (§ 1.9(f))	25.00
By other than a small entity	50.00
(m) For filing a petition (1) for revival of an unintentionally abandoned application or (2) for the unintentionally delayed payment of the fee for issuing a patent:	
By a small entity (§ 1.9(f))	250.00
By other than a small entity	500.00

6. A new § 1.18 is added which reads as follows:

§ 1.18 Patent issue fees.

(a) Issue fee for issuing each original or reissue patent, except a design or plant patent:	
By a small entity (§ 1.9(f))	$250.00
By other than a small entity	500.00
(b) Issue fee for issuing a design patent:	
By a small entity (§ 1.9(f))	87.50
By other than a small entity	175.00
(c) Issue fee for issuing a plant patent:	
By a small entity (§ 1.9(f))	125.00
By other than a small entity	250.00

7. A new § 1.19 is added which reads as follows:

§ 1.19 Document supply fees.

The Patent and Trademark Office will supply copies of the following documents upon payment of the fees indicated:

(a) Uncertified copies of Office documents:	
(1) Printed copy of a patent, including a design patent, or defensive publication document, except color plant patent	$1.00
(2) Printed copy of a plant patent in color	8.00
(3) Copy of patent application as filed, each 50 pages or fraction thereof	10.00
(4) Copy of patent file wrapper and contents, each 100 pages or fraction thereof	30.00
(5) Copy of Office records, except as provided in paragraphs (a) (1) through (4) of this section, per page	0.20
(6) Microfiche copy of microfiche, per microfiche	0.50
(b) Certified copies of Office documents:	
(1) For certifying Office records, per certificate	3.00
(2) For a search of assignment records, abstract of title and certification, per patent	12.00
(3) For comparing copies not prepared by the Office with the original, prior to certification of the copies, per page	0.10
(c) Subscription services:	
(1) Subscription orders for printed copies of patents as issued, annual service charge for entry of order and one subclass	4.00
(2) For annual subscription to each additional subclass in addition to the one covered by the fee under paragraph (c)(1) of this section, per subclass	0.40
(d) Library service (35 U.S.C. 13): For providing to libraries copies of all patents issued annually, per annum	50.00
(e) Lists of patents in subclass:	
(1) For list of all United States patents in a subclass, per 100 patent numbers or fraction thereof	1.00
(2) For list of United States patents in a subclass limited by date or patent number, per 50 patent numbers or fraction thereof	1.00

8. A new § 1.20 is added which reads as follows:

§ 1.20 Post-issuance fees.

(a) For providing a certificate of correction of applicant's mistake (§ 1.323)	$40.00
(b) Petition for correction of inventorship in patent (§ 1.324)	120.00
(c) For filing a request for reexamination (§ 1.510(a))	1,500.00
(d) For filing each statutory disclaimer (§ 1.321):	
By a small entity (§ 1.9(f))	25.00
By other than a small entity	50.00
(e) For maintaining an original or reissue patent, except a design patent, based on an application filed on or after December 12, 1980 and before August 27, 1982, in force beyond 4 years; the fee is due by three years and six months after the original grant	200.00
(f) For maintaining an original or reissue patent, except a design patent, based on an application filed on or after December 12, 1980 and before August 27, 1982, in force beyond 8 years; the fee is due by seven years and six months after the original grant	400.00
(g) For maintaining an original or reissue patent, except a design patent, based on an application filed on or after December 12, 1980 and before August 27, 1982, in force beyond 12 years; the fee is due by eleven years and six months after the original grant	600.00
(h) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after August 27, 1982, in force beyond 4 years; the fee is due by three years and six months after the original grant:	
By a small entity (§ 1.9(f))	200.00
By other than a small entity	400.00
(i) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after August 27, 1982, in force beyond 8 years; the fee is due by seven years and six months after the original grant:	
By a small entity (§ 1.9(f))	400.00
By other than a small entity	800.00
(j) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after August 27, 1982, in force beyond 12 years; the fee is due by eleven years and six months after the original grant:	
By a small entity (§ 1.9(f))	600.00
By other than a small entity	1200.00

9. Section 1.21 is revised to read as follows:

§ 1.21 Miscellaneous fees and charges.

The Patent and Trademark Office has established the following fees for the services indicated:

(a) Registration of attorneys and agents:	
(1) For admission to examination for registration to practice, fee payable upon application	$75.00
(2) On registration to practice	50.00
(3) For reinstatement to practice	25.00
(4) For certificate of good standing as an attorney or agent	10.00
(b) Deposit accounts:	
(1) For establishing or reinstating a deposit account	10.00
(2) Service charge for each month when the balance at the end of the month is below $40	2.00
(c) Disclosure document: For filing a disclosure document	10.00
(d) Delivery box: Local delivery box rental, per annum	24.00
(e) International-type search reports: For preparing an international-type search report of an international-type search made at the time of the first action on the merits in a national patent application	25.00
(f) Search of Office records: For searching Patent and Trademark Office records for purposes not otherwise specified, per one-half hour or fraction thereof	10.00
(g) Copy machine tokens: Token for copying machine, each	0.20
(h) Recording of documents:	
(1) For recording each assignment, agreement or other paper relating to the property in a patent or application	20.00
(2) Where a document to be recorded under paragraph (h)(1) of this section refers to more than one patent or application, for each additional patent or application	5.00
(i) Publication in *Official Gazette*: For publication in the *Official Gazette* of a notice of the availability of an application or a patent for licensing or sale, each application or patent	8.00
(j) For a duplicate or replacement of a permanent Office user pass (There is no charge for the first permanent user pass)	5.00
(k) For items and services, that the Commissioner finds may be supplied, for which fees are not specified by statute or by this section, such charges as may be determined by the Commissioner with respect to each such item or service	actual cost

10. Section 1.24 is revised to read as follows:

§ 1.24 Coupons.

Coupons in denominations of forty cents and one dollar are sold by the Patent and Trademark Office for the convenience of regular purchasers of U.S. patents and trademark registrations; these coupons may not be used for any other purpose. The 40-cent coupons are sold individually and in books of 50 with stubs for record for $20. The one dollar coupons are sold individually and in books of 50 with stubs for record for $50. These coupons are good until used; they may be transferred but cannot be redeemed.

11. Section 1.25 is revised to read as follows:

§ 1.25 Deposit accounts.

(a) For the convenience of attorneys, agents, and the general public in paying any fees due, in ordering services offered by the Office, copies of records, etc., deposit accounts may be established in the Patent and Trademark Office upon payment of the fee for establishing a deposit account (§ 1.21(b)(1)). A minimum deposit of $50 or more, depending on the activity of the individual account, is required. At the close of each month's business, a statement will be rendered. A remittance must be made promptly upon receipt of the statement to cover the value of items or services charged to the account and thus restore the account to its established normal deposit value. An amount sufficient to cover all services, copies, etc., requested must always be on deposit. A service charge (§ 1.21(b)(2)) will be assessed for each month that the balance at the end of the month is below $40.

(b) Filing, issue, appeal, international-type search report, international application processing, petition, and post-issuance fees may be charged against these accounts. A general authorization to charge all fees, or only certain fees, set forth in §§ 1.16 to 1.18 to a deposit account may be filed in an individual application, either for the entire pendency of the application or with respect to a particular paper filed. An authorization to charge to a deposit account the fee for a request for reexamination pursuant to § 1.510 and any other fees required in a reexamination proceeding in a patent may also be filed with the request for reexamination.

12. Section 1.26 is revised to read as follows:

§ 1.26 Refunds.

(a) Money paid by actual mistake or in excess, such as a payment not required by law, will be refunded, but a mere change of purpose after the payment of money, as when a party desires to withdraw an application, an appeal, or a request for oral hearing, will not entitle a party to demand such a return. Amounts of one dollar or less will not be returned unless specifically demanded within a reasonable time, nor will the payer be notified of such amount; amounts over one dollar may be returned by check or, if requested, by credit to a deposit account.

(b) [Reserved]

(c) If the Commissioner decides not to institute a reexamination proceeding, a refund of $1,200.00 will be made to the requester of the proceeding. Reexamination requesters should indicate whether any refund should be made by check or by credit to a deposit account.

13. Section 1.45 is amended by revising paragraphs (b) and (c) to read as follows:

§ 1.45 Joint inventors.

* * * * *

(b) If an application for patent has been made through error and without any deceptive intention by two or more persons as joint inventors when they were not in fact joint inventors, the application may be amended to remove the names of those not inventors upon filing of a petition including a statement of the facts verified by all of the original applicants, the required fee (§ 1.17(h)), and an oath or declaration as required by § 1.65 by the applicant who is the actual inventor, provided the amendment is diligently made. Such amendment must have the written consent of any assignee.

(c) If an application for patent has been made through error and without any deceptive intention by less than all the actual joint inventors, the

application may be amended to include all the joint inventors upon filing of a petition including a statement of the facts verified by, and an oath or declaration as required by § 1.65 executed by all the actual joint inventors, along with the required fee (§ 1.17(h)), provided the amendment is diligently made. Such amendment must have the written consent of any assignee.

14. Section 1.47 is revised to read as follows:

§ 1.47 Filing when an inventor refuses to sign or cannot be reached.

(a) If a joint inventor refuses to join in an application for patent or cannot be found or reached after diligent effort, the application may be made by the other inventor on behalf of himself or herself and the omitted inventor. The oath or declaration in such an application must be accompanied by a petition including proof of the pertinent facts and by the required fee (§ 1.17(h)) and must state the last known address of the omitted inventor. The Patent and Trademark Office shall forward notice of the filing of the application to the omitted inventor at said address. Should such notice be returned to the Office undelivered, or should the address of the omitted inventor be unknown, notice of the filing of the application shall be published in the *Official Gazette*. The omitted inventor may subsequently join in the application on filing an oath or declaration of the character required by § 1.65. A patent may be granted to the inventor making the application, upon a showing satisfactory to the Commissioner, subject to the same rights which the omitted inventor would have had if he or she had been joined.

(b) Whenever an inventor refuses to execute an application for patent, or cannot be found or reached after diligent effort, a person to whom the inventor has assigned or agreed in writing to assign the invention or who otherwise shows sufficient proprietary interest in the matter justifying such action may make application for patent on behalf of and as agent for the inventor. The oath or declaration in such an application must be accompanied by a petition including proof of the pertinent facts and a showing that such action is necessary to preserve the rights of the parties or to prevent irreparable damage, and by the required fee (§ 1.17(h)) and must state the last known address of the inventor. The assignment, written agreement to assign or other evidence of proprietary interest, or a verified copy thereof, must be filed in the Patent and Trademark Office. The Office shall forward notice of the filing of the application to the inventor at the address stated in the application. Should such notice be returned to the Office undelivered, or should the address of the inventor be unknown, notice of the filing of the application shall be published in the *Official Gazette*. The inventor may subsequently join in the application on filing an oath or declaration of the character required by § 1.65. A patent may be granted to the inventor upon a showing satisfactory to the Commissioner.

15. Section 1.51 is amended by revising paragraph (a)(4) and by adding a new paragraph (c) to read as follows:

§ 1.51 General requisites of an application.

(a) * * *

(4) The prescribed filing fee, see § 1.16.

* * * * *

(c) Applicants may desire and are permitted to file with, or in, the application an authorization to charge, at any time during the pendency of the application, any fees required under any of §§ 1.16 to 1.18 to a deposit account established and maintained in accordance with § 1.25.

16. Section 1.52 is amended by revising paragraph (a) and by adding a new paragraph (d) to read as follows:

§ 1.52 Language, paper, writing, margins.

(a) The application, any amendments or corrections thereto, and the oath or declaration must be in the English language except as provided for in § 1.69 and paragraph (d) of this section, or be accompanied by a verified translation of the application and a translation of any corrections or amendments into the English language. All papers which are to become a part of the permanent records of the Patent and Trademark Office must be legibly written, typed, or printed in permanent ink or its equivalent in quality. All of the application papers must be presented in a form having sufficient clarity and contrast between the paper and the writing, typing, or printing thereon to permit the direct reproduction of readily legible copies in any number by use of photographic, electrostatic, photo-offset, and microfilming processes. If the papers are not of the required quality, substitute typewritten or printed papers of suitable quality may be required.

* * * * *

(d) An application including a signed oath or declaration may be filed in a language other than English if it is accompanied by the fee set forth in § 1.17(k). A verified English translation of the non-English language application is required to be filed with the application or within such time as may be set by the Office.

17. Section 1.55 is amended by revising paragraph (b) to read as follows:

§ 1.55 Serial number and filing date of application.

* * * * *

(b) An applicant may claim the benefit of the filing date of a prior foreign application under the conditions specified in 35 U.S.C. 119. The claim to priority need be in no special form and may be made by the attorney or agent if the foreign application is referred to in the oath or declaration as required by § 1.65. The claim for priority and the certified copy of the foreign application specified in the second paragraph of 35 U.S.C. 119 must be filed in the case of interference (§ 1.224); when necessary to overcome the date of a reference relied upon by the examiner; or when specifically required by the examiner; and in all other cases they must be filed not later than the date the issue fee is paid. If the papers filed are not in the English language, a translation need not be filed except in the three particular instances specified in the preceding sentence, in which event a sworn translation or a translation certified as accurate by a sworn or official translator must be filed. If the priority papers are submitted after the date the issue fee is paid, they must be accompanied by a petition requesting their entry and the fee set forth in § 1.17(i).

* * * * *

18. Section 1.66 is revised to read as follows:

§ 1.66 Officers authorized to administer oaths.

(a) The oath or affirmation may be made before any person within the United States authorized by law to administer oaths. An oath made in a foreign country may be made before any diplomatic or consular officer of the United States authorized to administer oaths, or before any officer having an official seal and authorized to administer oaths in the foreign country in which the applicant may be, whose authority shall be proved by a certificate of a diplomatic or consular officer of the United States, or by an apostille of an official designated by a foreign country which, by treaty or convention, accords like effect to apostilles of designated officials in the United States. The oath shall be attested in all cases in this and other countries, by the proper official seal of the officer before whom the oath or affirmation is made. Such oath or

affirmation shall be valid as to execution if it complies with the laws of the State or country where made. When the person before whom the oath or affirmation is made in this country is not provided with a seal, his official character shall be established by competent evidence, as by a certificate from a clerk of a court of record or other proper officer having a seal.

(b) When the oath is taken before an officer in a country foreign to the United States, any accompanying application papers, except the drawings, must be attached together with the oath and a ribbon passed one or more times through all the sheets of the application, except the drawings, and the ends of said ribbon brought together under the seal before the latter is affixed and impressed, or each sheet must be impressed with the official seal of the officer before whom the oath is taken. If the papers as filed are not properly ribboned or each sheet impressed with the seal, the case will be accepted for examination, but before it is allowed, duplicate papers, prepared in compliance with the foregoing sentence, must be filed.

19. Section 1.75 is amended by revising paragraph (c) to read as follows:

§ 1.75 Claim(s).

* * * * *

(c) One or more claims may be presented in dependent form, referring back to and further limiting another claim or claims in the same application. Any dependent claim which refers to more than one other claim ("multiple dependent claim") shall refer to such other claims in the alternative only. A multiple dependent claim shall not serve as a basis for any other multiple dependent claim. For fee calculation purposes under § 1.16, a multiple dependent claim will be considered to be that number of claims to which direct reference is made therein. For fee calculation purposes, also, any claim depending from a multiple dependent claim will be considered to be that number of claims to which direct reference is made in that multiple dependent claim. In addition to the other filing fees, any original application which is filed with, or is amended to include, multiple dependent claims must have paid therein the fee set forth in § 1.16(d). Claims in dependent form shall be construed to include all the limitations of the claim incorporated by reference into the dependent claim. A multiple dependent claim shall be construed to incorporate by reference all the limitations of each of the particular claims in relation to which it is being considered.

* * * * *

20. Section 1.85 is revised to read as follows:

§ 1.85 Informal drawings.

The requirements of § 1.84 relating to drawings will be strictly enforced. A drawing not executed in conformity thereto, if suitable for reproduction, may be admitted but in such case the drawing must be corrected or a new one furnished, as required.

§ 1.86 [Removed]

21. Section 1.86 is removed.

22. Section 1.102 is amended by revising paragraph (a) and adding new paragraphs (c) and (d) to read as follows:

§ 1.102 Advancement of examination.

(a) Applications will not be advanced out of turn for examination or for further action except as provided by this part, or upon order of the Commissioner to expedite the business of the Office, or upon filing of a request under paragraph (b) of this section or upon filing a petition under paragraphs (c) or (d) of this section with a verified showing which, in the opinion of the Commissioner, will justify so advancing it.

* * * * *

(c) A petition to make an application special may be filed without a fee if the basis for the petition is the applicant's age or health or that the invention will materially enhance the quality of the environment or materially contribute to the development or conservation of energy resources.

(d) A petition to make an application special on grounds other than those referred to in paragraph (c) of this section must be accompanied by the petition fee set forth in § 1.17(i).

23. Section 1.103 is amended by revising paragraphs (a) and (b) to read as follows:

§ 1.103 Suspension of action.

(a) Suspension of action by the Office will be granted for good and sufficient cause and for a reasonable time specified upon petition by the applicant and, if such cause is not the fault of the Office, the payment of the fee set forth in § 1.17(i). Action will not be suspended when a response by the applicant to an Office action is required.

(b) If action by the Office on an application is suspended when not requested by the applicant, the applicant shall be notified of the reasons therefor.

* * * * *

24. Section 1.104 is amended by revising paragraph (d) to read as follows:

§ 1.104 Nature of examination; examiner's action.

* * * * *

(d) Any national application may also have an international-type search report prepared thereon at the time of the national examination on the merits, upon specific written request therefor and payment of the international-type search report fee. See § 1.21(e) for amount of fee for preparation of international-type search report.

* * * * *

25. Section 1.134 is added and reads as follows:

§ 1.134 Time period for response to an Office action.

An Office action will notify the applicant of any non-statutory or shortened statutory time period set for response to an Office action. Unless the applicant is notified in writing that response is required in less than six months, a maximum period of six months is allowed.

26. Section 1.135 is amended by revising paragraphs (a), (b) and (c) to read as follows:

§ 1.135 Abandonment for failure to respond within time period.

(a) If an applicant of a patent application fails to respond within the time period provided under §§ 1.134 and 1.136, the application will become abandoned unless an Office action indicates otherwise.

(b) Prosecution of an application to save it from abandonment pursuant to paragraph (a) of this section must include such complete and proper action as the condition of the case may require. The admission of an amendment not responsive to the last Office action, or refusal to admit the same, and any proceedings relative thereto, shall not operate to save the application from abandonment.

(c) When action by the applicant is a bona fide attempt to respond and to advance the case to final action, and is substantially a complete response to the Office action, but consideration of some matter or compliance with some requirement has been inadvertently omitted, opportunity to explain and supply the omission may be given before the question of abandonment is considered.

* * * * *

27. Section 1.136 is revised to read as follows:

§ 1.136 Filing of timely responses with petition and fee for extension of time and extensions of time for cause.

(a) If an applicant is required to respond within a non-statutory or shortened statutory time period, applicant may respond up to four months after the time period set if a petition for an extension of time and the fee set in §1.17 are filed prior to or with the response, unless (1) applicant is notified otherwise in an Office action or (2) the application is involved in an interference declared pursuant to § 1.207. The date on which the response, the petition, and the fee have been filed is the date of the response and also the date for purposes of determining the period of extension and the corresponding amount of the fee. The expiration of the time period is determined by the amount of the fee paid. In no case may an applicant respond later than the maximum time period set by statute, or be granted an extension of time under paragraph (b) of this section when the provisions of this paragraph are available.

(b) When a response with petition and fee for extension of time cannot be filed pursuant to paragraph (a) of this section, the time for response will be extended only for sufficient cause, and for a reasonable time specified. Any request for such extension must be filed on or before the day on which action by the applicant is due, but in no case will the mere filing of the request effect any extension. In no case can any extension carry the date on which response to an Office action is due beyond the maximum time period set by statute or be granted when the provisions of paragraph (a) of this section are available. See § 1.245 for extension of time in interference proceedings.

28. Section 1.137 is revised to read as follows:

§ 1.137 Revival of abandoned application.

(a) An application abandoned for failure to prosecute may be revived as a pending application if it is shown to the satisfaction of the Commissioner that the delay was unavoidable. A petition to revive an abandoned application must be promptly filed after the applicant is notified of, or otherwise becomes aware of, the abandonment, and must be accompanied by a showing of the causes of the delay, by the proposed response unless it has been previously filed, and by the petition fee set forth in § 1.17(l). Such showing must be a verified showing if made by a person not registered to practice before the Patent and Trademark Office.

(b) An application unintentionally abandoned for failure to prosecute may be revived as a pending application if the delay was unintentional. A petition to revive an unintentionally abandoned application must be filed within one year of the date on which the application became abandoned or be filed within three months of the date of the first decision on a petition to revive under paragraph (a) of this section which was filed within one year of the date of abandonment of the application. A petition to revive an unintentionally abandoned application must be accompanied by (1) a statement that the abandonment was unintentional, (2) a proposed response unless it has been previously filed, and (3) a petition fee as set forth in § 1.17(m). Such statement must be a verified statement if made by a person not registered to practice before the Patent and Trademark Office. The Commissioner may require additional information where there is a question whether the abandonment was unintentional. The three month period set forth in this paragraph may be extended under the provisions of § 1.136(a), but no further extensions under § 1.136(b) will be granted. Petitions to the Commissioner under § 1.183 to waive any time periods for requesting revival of an unintentionally abandoned application will not be considered, but will be returned to the applicant.

(c) Any petition pursuant to paragraph (a) of this section not filed within six months of the date of abandonment must be accompanied by a terminal disclaimer with fee under § 1.321 dedicating to the public a terminal part of the term of any patent granted thereon equivalent to the period of abandonment of the application.

29. Section 1.155 is revised to read as follows:

§ 1.155 Issue and term of design patents.

(a) If, on examination, it shall appear that the applicant is entitled to a design patent under the law, a notice of allowance will be sent to the applicant, or applicant's attorney or agent, calling for the payment of the issue fee (§ 1.18(b)). If this issue fee is not paid within 3 months of the date of the notice of allowance, the application shall be regarded as abandoned.

(b) The Commissioner may accept the payment of the issue fee later than three months after the mailing of the notice of allowance as though no abandonment had ever occurred if upon petition the delay in payment is shown to have been unavoidable. The petition to accept the delayed payment must be promptly filed after the applicant is notified of, or otherwise becomes aware of, the abandonment, and must be accompanied by (1) the issue fee, unless it has been previously submitted, (2) the fee for delayed payment (§ 1.17(1)), and (3) a showing that the delay was unavoidable. Such showing must be a verified showing if made by a person not registered to practice before the Patent and Trademark Office.

(c) The Commissioner may, upon petition, accept the payment of the issue fee later than three months after the mailing of the notice of allowance as though no abandonment had ever occurred if the delay in payment was unintentional. The petition to accept the delayed payment must be filed within one year of the date on which the application became abandoned or be filed within three months of the date of the first decision on a petition under paragraph (b) of this section which was filed within one year of the date of abandonment of the application. The petition to accept the delayed payment must be accompanied by (1) the issue fee, unless it has been previously submitted, (2) the fee for unintentionally delayed payment (§ 1.17(m)), and (3) a statement that the delay was unintentional. Such statement must be a verified statement if made by a person not registered to practice before the Patent and Trademark Office. The Commissioner may require additional information where there is a question whether the abandonment was unintentional. The three-month period from the date of the first decision referred to in this paragraph may be extended under the provisions of § 1.136(a), but no further extensions under § 1.136(b) will be granted. Petitions to the Commissioner under § 1.183 to waive any time periods for requesting revival of an unintentionally abandoned application will not be considered, but will be returned to the applicant.

(d) Any petition pursuant to paragraph (b) of this section not filed within six months of the date of abandonment must be accompanied by a terminal disclaimer with fee under §1.321 dedicating to the public a terminal part of the term of any patent granted thereon equivalent to the period of abandonment of the application.

30. Section 1.165 is amended by revising paragraph (b) to read as follows:

§ 1.165 Drawings.

* * * * *

(b) The drawing may be in color and when color is a distinguishing characteristic of the new variety, the drawing must be in color. Two copies of color drawings must be submitted. Color drawings may be made either in permanent water color or oil, or in lieu thereof may be photographs made by color photography or properly colored on sensitized paper. Permanently mounted color photographs are acceptable. The paper in any case must correspond in size, weight and quality to the paper required for other drawings. See § 1.84.

31. Section 1.171 is revised to read as follows:

§ 1.171 Application for reissue.

An application for reissue must contain the same parts required for an application for an original patent, complying with all the rules relating thereto except as otherwise provided, and in addition, must comply with the requirements of the rules relating to reissue applications. The application must be accompanied by a certified copy of an abstract of title or an order for a title report accompanied by the fee set forth in § 1.19(b)(2), to be placed in the file, and by an offer to surrender the original patent (§ 1.178).

32. Section 1.177 is revised to read as follows:

§ 1.177 Reissue in divisions.

The Commissioner may, in his or her discretion, cause several patents to be issued for distinct and separate parts of the thing patented, upon demand of the applicant, and upon payment of the required fee for each division. Each division of a reissue constitutes the subject of a separate specification descriptive of the part or parts of the invention claimed in such division; and the drawing may represent only such part or parts, subject to the provisions of §§ 1.83 and 1.84. On filing divisional reissue applications, they shall be referred to the Commissioner. Unless otherwise ordered by the Commissioner upon petition and payment of the fee set forth in § 1.17(i), all the divisions of a reissue will issue simultaneously; if there be any controversy as to one division, the others will be withheld from issue until the controversy is ended, unless the Commissioner shall otherwise order.

33. Section 1.181 is amended by revising paragraphs (d) and (g) to read as follows:

§ 1.181 Petition to the Commissioner.

* * * * *

(d) Where a fee is required for a petition to the Commissioner the appropriate section of this part will so indicate. If any required fee does not accompany the petition, the petition will be dismissed.

* * * * *

(g) The Commissioner may delegate to appropriate Patent and Trademark Office officials the determination of petitions.

34. Section 1.182 is revised to read as follows:

§ 1.182 Questions not specifically provided for.

All cases not specifically provided for in the regulations of this part will be decided in accordance with the merits of each case by or under the authority of the Commissioner, and such decision will be communicated to the interested parties in writing. Any petition seeking a decision under this section must be accompanied by the petition fee set forth in § 1.17(h).

35. Section 1.183 is revised to read as follows:

§ 1.183 Suspension of rules.

In an extraordinary situation, when justice requires, any requirement of the regulations in this part which is not a requirement of the statutes may be suspended or waived by the Commissioner or the Commissioner's designee, sua sponte, or on petition of the interested party, subject to such other requirements as may be imposed. Any petition under this section must be accompanied by the petition fee set forth in § 1.17(h).

36. Section 1.191 is amended by revising paragraph (a) to read as follows:

§ 1.191 Appeal to Board of Appeals.

(a) Every applicant for a patent or for reissue of a patent, or every owner of a patent under reexamination, any of the claims of which have been twice rejected, or who has been given a final rejection (§ 1.113), may, upon the payment of the fee set forth in § 1.17(e), appeal from the decision of the examiner to the Board of Appeals within the time allowed for response.

* * * * *

37. Section 1.192 is amended by revising paragraph (a) to read as follows:

§ 1.192 Appellant's brief.

(a) The appellant shall, within 2 months from the date of the notice of appeal under § 1.191 in an application, reissue application, or patent under reexamination, or within the time allowed for response to the action appealed from, if such time is later, file a brief in triplicate. The brief must be accompanied by the requisite fee set forth in § 1.17(f) and must set forth the authorities and arguments on which the appellant will rely to maintain the appeal. The brief must include a concise explanation of the invention which should refer to the drawing by reference characters, and a copy of the claims involved. The time periods set forth herein are subject to the provisions of § 1.136.

* * * * *

38. Section 1.194 is amended by revising paragraphs (b) and (c) to read as follows:

§ 1.194 Oral hearing.

* * * * *

(b) If appellant desires an oral hearing, appellant must file a written request for such hearing accompanied by the fee set forth in § 1.17(g) within one month after the date of the examiner's answer. If appellant requests an oral hearing and submits therewith the fee set forth in § 1.17(g), an oral argument may be presented by, or on behalf of, the primary examiner if considered desirable by either the primary examiner or the Board.

(c) If no request and fee for oral hearing have been timely filed by the appellant, the appeal will be assigned for consideration and decision. If the appellant has requested an oral hearing and has submitted the fee set forth in § 1.17(g), a day of hearing will be set, and due notice thereof given to the appellant and to the primary examiner. Hearing will be held as stated in the notice, and oral argument will be limited to twenty minutes for the appellant and fifteen minutes for the primary examiner unless otherwise ordered before the hearing begins.

39. Section 1.197 is amended by revising paragraph (b) to read as follows:

§ 1.197 Action following decision.

* * * * *

(b) A single request for rehearing or reconsideration, or modification of the decision, may be made if filed within thirty days from the date of the original decision, unless that decision is so modified as to become, in effect, a new decision, and the Board of Appeals so states. Such time may be extended under the provisions of § 1.136.

* * * * *

40. Section 1.231 is amended by revising paragraph (a)(1) to read as follows:

§ 1.231 Motions before the primary examiner.

(a) Within the period set in the notice of interference for filing motions any party to an interference may file a motion seeking:

(1) To dissolve as to one or more counts, except that such motion based on facts sought to be established by affidavits, declarations or evidence outside of official records and printed publications will not normally be considered. A motion to dissolve an interference in which a patentee is a party on the ground that the claims corresponding to the counts are unpatentable to the patentee over patents or printed publications will be considered through reexamination if it complies with the requirements of § 1.510(b) and is accompanied by the fee for requesting reexamination set in § 1.20(c). Otherwise, a motion to dissolve an interference in which a patentee is a party will not be considered if it would necessarily result in the conclusion that the claims of the patent which correspond to the counts are unpatentable to the patentee on a ground which is not ancillary to priority. Where a motion to dissolve is based on prior art, service on opposing parties must include copies of such prior art. A motion to dissolve on the ground that there is no interference in fact will not be considered unless the interference involves a design or plant patent or application or unless it relates to a count which differs from the corresponding claim of an involved patent or of one or more of the involved applications as provided in §§ 1.203(a) and 1.205(a).

* * * * *

41. Section 1.245 is revised to read as follows:

§ 1.245 Extension of time.

Extensions of time in any interference proceeding not otherwise provided for may be had by stipulation of the parties, subject to approval, or on motion duly brought, sufficient cause being shown for such extension. The provisions of § 1.136 do not apply to time periods in interferences.

42. Section 1.246 is revised to read as follows:

§ 1.246 Late papers.

A motion or other paper belatedly filed will not normally be considered except upon a showing, under oath or in the form of a declaration (§ 1.68), of sufficient cause as to why such motion or paper was not timely presented. The provisions of § 1.136 do not apply to time periods in interferences.

43. Section 1.263 is revised to read as follows:

§ 1.263 Statutory disclaimer by patentee.

The disclaimer referred to in § 1.262, when made by a patentee in interference is not a disclaimer under 35 U.S.C. 253. If a disclaimer under the statute and the fee set forth in § 1.20(d) (see § 1.321) cancelling claims involved in the interference from the patent, is made by the patentee, including all assignees as shown by the records of the Patent and Trademark Office, the interference will be dissolved pro forma as to such claims.

44. Section 1.268 is added to read as follows:

§ 1.268 Filing of interference settlement agreements.

(a) Any agreement or understanding between parties to an interference, including any collateral agreements referred to therein, made in connection with or in contemplation of the termination of the interference, must be in writing and a true copy thereof filed in the Patent and Trademark Office, directed to the Board of Patent Interferences, before the termination of the interference as between the said parties to the agreement or understanding.

(b) If any party filing the agreement or understanding pursuant to paragraph (a) of this section so requests, the copy will be kept separate from the file of the interference, and made available only to Government agencies on written request, or to any person upon petition accompanied by the fee set forth in § 1.17(i) and on a showing of good cause.

(c) Failure to file the copy of the agreement or understanding pursuant to paragraph (a) of this section, will render permanently unenforceable such agreement or understanding and any patent of the parties involved in the interference or any patent subsequently issued on any application of the parties so involved. The Commissioner may, however, upon petition accompanied by the fee set forth in § 1.17(h) and on a showing of good cause for failure to file within the time prescribed, permit the filing of the agreement or understanding during the six-month period subsequent to the termination of the interference as between the parties to the agreement or understanding.

45. Section 1.292 is amended by revising paragraph (a) to read as follows:

§ 1.292 Public use proceedings.

(a) When a petition for the institution of public use proceedings, supported by affidavits or declarations and the fee set forth in § 1.17(j) is filed by one having information of the pendency of an application and is found, on reference to the primary examiner, to make a prima facie showing that the invention involved in an interference or claimed in an application believed to be on file had been in public use or on sale one year before the filing of the application, or before the date alleged by an interfering party in his or her preliminary statement or the date of invention established by such party, a hearing may be had before the Commissioner to determine whether a public use proceeding should be instituted. If instituted, times may be set for taking testimony, which shall be taken as provided by §§ 1.271 to 1.286. The petitioner will be heard in the proceedings but after decision therein will not be heard further in the prosecution of the application for patent.

* * * * *

46. Section 1.304 is amended by revising paragraph (a) to read as follows:

§ 1.304 Time for appeal or civil action.

(a) The time for filing the notice and reasons of appeal to the U.S. Court of Appeals for the Federal Circuit (§ 1.302) or for commencing a civil action (§ 1.303) is sixty days from the date of the decision of the Board of Appeals or the Board of Patent Interferences. If a request for rehearing or reconsideration, or modification of the decision, is filed within the time provided pursuant to § 1.197(b) or § 1.256(b), the time for filing an appeal or commencing a civil action shall expire at the end of the sixty-day period or thirty days after action on the request, whichever is later. The time periods set forth herein are subject to the provisions of § 1.136.

* * * * *

47. Section 1.311 is revised to read as follows:

§ 1.311 Notice of allowance.

(a) If, on examination, it shall appear that the applicant is entitled to a patent under the law, a notice of allowance will be sent to applicant at the correspondence address indicated in § 1.33, calling for the payment of a specified sum constituting the issue fee (§ 1.18), which shall be paid within 3 months from the date of the mailing of the notice of allowance.

(b) An authorization to charge the issue fee (§ 1.18) to a deposit account may be filed in an individual application, either before or after

mailing of the notice of allowance. Where an authorization to charge the issue fee to a deposit account has been filed before the mailing of the notice of allowance, the issue fee will be automatically charged to the deposit account at the time of mailing the notice of allowance.

48. Section 1.312 is revised to read as follows:

§ 1.312 Amendments after allowance.

(a) No amendment may be made as a matter of right in an application after the mailing of the notice of allowance. Any amendment pursuant to this paragraph filed before the payment of the issue fee may be entered on the recommendation of the primary examiner, approved by the Commissioner, without withdrawing the case from issue.

(b) Any amendment pursuant to paragraph (a) of this section filed after the date the issue fee is paid must be accompanied by a petition including the fee set forth in § 1.17(i) and a showing of good and sufficient reasons why the amendment is necessary and was not earlier presented.

49. Section 1.313 is revised to read as follows:

§ 1.313 Withdrawal from issue.

(a) Applications may be withdrawn from issue for further action at the initiative of the Office or upon petition by the applicant. Any such petition by the applicant must include a showing of good and sufficient reasons why withdrawal of the application is necessary and, if the reason for the withdrawal is not the fault of the Office, must be accompanied by the fee set forth in § 1.17(i). If the application is withdrawn from issue, a new notice of allowance will be sent if the application is again allowed. Any amendment accompanying a petition to withdraw an application from issue must comply with the requirements of § 1.312.

(b) When the issue fee has been paid, and the patent to be issued has received its issue date and patent number, the application will not be withdrawn from issue for any reason except (1) mistake on the part of the Office, (2) a violation of § 1.56 or illegality in the application, (3) unpatentability of one or more claims, or (4) for interference.

50. Section 1.314 is revised to read as follows:

§ 1.314 Issuance of patent.

If payment of the issue fee is timely made, the patent will issue in regular course unless (a) the application is withdrawn from issue (§ 1.313) or (b) issuance of the patent is deferred. Any petition by the applicant requesting deferral of the issuance of a patent must be accompanied by the fee set forth in § 1.17(i) and must include a showing of good and sufficient reasons why it is necessary to defer issuance of the patent.

51. Section 1.316 is revised to read as follows:

§ 1.316 Application abandoned for failure to pay issue fee.

(a) If the issue fee is not paid within 3 months from the date of the notice of allowance, the application will be regarded as abandoned. Such an abandoned application will not be considered as pending before the Patent and Trademark Office.

(b) The Commissioner may accept the payment of the issue fee later than three months after the mailing of the notice of allowance as though no abandonment had ever occurred if upon petition the delay in payment is shown to have been unavoidable. The petition to accept the delayed payment must be promptly filed after the applicant is notified of, or otherwise becomes aware of, the abandonment, and must be accompanied by (1) the issue fee, unless it has been previously submitted, (2) the fee for delayed payment (§ 1.17(1)), and (3) a showing that the delay was unavoidable. Such showing must be a verified showing if made by a person not registered to practice before the Patent and Trademark Office.

(c) The Commissioner may, upon petition, accept the payment of the issue fee later than three months after the mailing of the notice of allowance as though no abandonment had ever occurred if the delay in payment was unintentional. The petition to accept the delayed payment must be filed within one year of the date on which the application became abandoned or be filed within three months of the date of the first decision on a petition under paragraph (b) of this section which was filed within one year of the date of abandonment of the application. The petition to accept the delayed payment must be accompanied by (1) the issue fee, unless it has been previously submitted, (2) the fee for unintentionally delayed payment (§ 1.17(m)), and (3) a statement that the delay was unintentional. Such statement must be a verified statement if made by a person not registered to practice before the Patent and Trademark Office. The Commissioner may require additional information where there is a question whether the abandonment was unintentional. The three-month period from the date of the first decision referred to in this paragraph may be extended under the provisions of § 1.136(a), but no further extensions under § 1.136(b) will be granted. Petitions to the Commissioner under § 1.183 to waive any time periods for requesting revival of an unintentionally abandoned application will not be considered, but will be returned to the applicant.

(d) Any petition pursuant to paragraph (b) of this section not filed within six months of the date of abandonment must be accompanied by a terminal disclaimer with fee under § 1.321 dedicating to the public a terminal part of the term of any patent granted thereon equivalent to the period of abandonment of the application.

52. Section 1.317 is revised to read as follows:

§ 1.317 Lapsed patents; delayed payment of balance of issue fee.

(a) If the issue fee was paid prior to October 1, 1982, any remaining balance of the issue fee is to be paid within three months from the date of notice thereof and, if not paid, the patent will lapse at the termination of the three month period.

(b) The Commissioner may accept the payment of the remaining balance of the issue fee later than three months after the mailing of the notice thereof as though no lapse had ever occurred if upon petition the delay in payment is shown to have been unavoidable. The petition to accept the delayed payment must be promptly filed after the applicant is notified of, or otherwise becomes aware of, the lapse, and must be accompanied by (1) the remaining balance of the issue fee, unless it has been previously submitted, (2) the fee for delayed payment (§ 1.17(1)), and (3) a showing that the delay was unavoidable. Such showing must be a verified showing if made by a person not registered to practice before the Patent and Trademark Office.

(c) The Commissioner may, upon petition, accept the payment of the remaining balance of the fee later than three months after the mailing of the notice thereof as though no lapse had ever occurred if the delay in payment was unintentional. The petition to accept the delayed payment must be filed within one year of the date on which the patent lapsed or be filed within three months of the date of the first decision on a petition under paragraph (b) of this section which was filed within one year of the date of lapse of the patent. The petition to accept the delayed payment must be accompanied by (1) the remaining balance of the issue fee, unless it has been previously

submitted, (2) the fee for unintentionally delayed payment (§ 1.17(m)), and (3) a statement that the delay was unintentional. Such statement must be a verified statement if made by a person not registered to practice before the Patent and Trademark Office. The Commissioner may require additional information where there is a question whether the delay in payment was unintentional. The three-month period from the date of the first decision referred to in this paragraph may be extended under the provisions of § 1.136(a), but no further extensions under § 1.136(b) will be granted. Petitions to the Commissioner under § 1.183 to waive any time periods for requesting acceptance of an unintentionally delayed payment will not be considered, but will be returned to the applicant.

(d) Any petition pursuant to paragraph (b) of this section not filed within six months of the date of lapse must be accompanied by a terminal disclaimer with fee under § 1.321 dedicating to the public a terminal part of the term of the patent equivalent to the period of lapse of the patent.

53. Section 1.321 is revised to read as follows:

§ 1.321 Statutory disclaimer.

(a) A disclaimer under 35 U.S.C. 253 must be accompanied by the fee set forth in § 1.20(d) and identify the patent and the claim or claims which are disclaimed, and be signed by the person making the disclaimer, who shall state therein the extent of his or her interest in the patent. A disclaimer which is not a disclaimer of a complete claim or claims may be refused recordation. A notice of the disclaimer is published in the *Official Gazette* and attached to the printed copies of the specification. In like manner any patentee or applicant may disclaim or dedicate to the public the entire term, or any terminal part of the term, of the patent granted or to be granted.

(b) A terminal disclaimer, when filed in an application to obviate a double patenting rejection, must be accompanied by the fee set forth in § 1.20(d) and include a provision that any patent granted on that application shall be enforceable only for and during such period that said patent is commonly owned with the application or patent which formed the basis for the rejection.

54. Section 1.324 is revised to read as follows:

§ 1.324 Correction of inventorship in patent.

Whenever a patent is issued and it appears that there was a misjoinder or nonjoinder of inventors and that such misjoinder or omission occurred by error and without deceptive intention, the Commissioner may, on petition of all the parties and the assignees and satisfactory proof of the facts and payment of the fee set forth in § 1.20(b), or on order of a court before which such matter is called in question, issue a certificate deleting the misjoined inventor from the patent or adding the non-joined inventor to the patent.

55. Section 1.331 is amended by revising paragraph (a) to read as follows:

§ 1.331 Recording of assignments.

(a) Assignments, including grants and conveyances, of patents, national applications, or international applications which designate the United States of America, will be recorded in the Patent and Trademark Office under 35 U.S.C. 261. Other instruments affecting title to a patent, a national application, or an international application which designates the United States of America, and licenses, even though the recording thereof may not serve as constructive notice under 35 U.S.C. 261, will be recorded as provided in this section or at the discretion of the Commissioner. Any instrument to be recorded, except those under Part 7 of this title, must be accompanied by the fee set forth in § 1.21(h).

* * * * *

56. Section 1.332 is revised to read as follows:

§ 1.332 Receipt and recording.

Assignments are recorded in regular order as promptly as possible, and then transmitted with the date and identification of the record stamped thereon to the persons entitled to them. The date of the record is the date of the receipt of the assignment at the Office in proper form and accompanied by the fee set forth in § 1.21(h).

57. Section 1.334 is revised to read as follows:

§ 1.334 Issue of patent to assignee.

(a) In case of an assignment of the entire interest in the invention and application, or of the entire interest in the patent to be granted, the patent will normally issue to the assignee. If the assignee should hold an undivided part interest, the patent will normally issue jointly to the inventor and the assignee. If it is desired that the patent so issue, the assignment in either case must first have been recorded, and at a day not later than the date payment is made of the issue fee.

(b) At the time of payment of the issue fee, a statement must be furnished indicating whether or not an assignment has been filed with the Patent and Trademark Office. In the event an assignment has been filed, such statement must include the name and address of the assignee and indicate whether or not an acknowledgement of a recorded assignment has been received from the Patent and Trademark Office.

(c) If the assignment is recorded after the date of payment of the issue fee, the assignee may petition that the patent issue to the assignee as recorded. Any such petition must be accompanied by the fee set forth in § 1.17(i).

58. Section 1.341 is amended by revising paragraph (h) to read as follows:

§ 1.341 Registration of attorneys and agents.

* * * * *

(h) *Oath and registration fee.* Before his or her name may be entered on the register of attorneys or on the register of agents, every applicant for registration must, after his or her application is approved, subscribe and swear to an oath or make a declaration prescribed by the Commissioner of Patents and Trademarks and pay the prescribed registration fee. (See § 1.21(a)(2).)

* * * * *

59. Section 1.347 is revised to read as follows:

§ 1.347 Removing names from registers.

Attorneys and agents, registered to practice before the Patent and Trademark Office, should notify the Office of any change of address for entry on the register, by letter separate from any notice of change of address filed in individual applications. The Office may address a letter to any person on the registers, at the address of which separate notice for the register was last received, for the purpose of ascertaining whether such person desires to remain on the register. The name of any person failing to reply and give the information requested within a time limit specified will be removed from the register, and the names so removed published in the *Official Gazette*. Any name so removed may be reinstated, either on the register of attorneys or the register of agents, as may be appropriate. Any request for reinstatement must be accompanied by the fee set forth in § 1.21(a)(3).

60. Section 1.445 is amended by revising paragraphs (a) (1) through (4) to read as follows:

§ 1.445 International application filing and processing fees.

(a) * * *

(1) A transmittal fee (see 35 U.S.C. 361(d) and PCT Rule 14)	$125.00
(2) A search fee (see 35 U.S.C. 361(d) and PCT Rule 16) where:	
(i) No corresponding prior United States national application with fee has been filed	$500.00
(ii) Corresponding prior United States national application with fee has been filed	250.00
(3) A supplemental search fee when required (see PCT Art. 17(3)(a) and PCT Rule 40.2)	[1]$125.00
(4) The national fee, that is, the amount set forth as the filing fee under § 1.16 (a) through (d) credited by an amount of $250 where an international search fee has been paid on the corresponding international application to the United States as an International Searching Authority. Where the amount of the credit is in excess of that required for the national fee, a request for a refund of the excess under § 1.446(b) may be filed at the time of paying the national fee. Only one such credit is permitted based on a single international search fee.	

[1]Per additional invention.

* * * * *

61. Section 1.446 is amended by revising paragraph (b) to read as follows:

§ 1.446 Refund of international application filing and processing fees.

* * * * *

(b) Refund of a portion of the search fee may be made to the extent set forth in § 1.445(a)(4) if requested at the time of paying the national fee.

* * * * *

62. Section 1.451 is amended by revising paragraph (b) to read as follows:

§ 1.451 The priority claim and priority document in an international application.

* * * * *

(b) Whenever the priority of an earlier United States national application is claimed in an international application, the applicant may request in a letter of transmittal accompanying the international application upon filing with the United States Receiving Office, that the Patent and Trademark Office prepare a certified copy of the national application for transmittal to the International Bureau (PCT Art. 8 and PCT Rule 17). The fee for preparing a certified copy is stated in § 1.19(a)(4) and (b)(1).

* * * * *

63. Section 1.510 is amended by revising paragraph (a) to read as follows:

§ 1.510 Request for reexamination.

(a) Any person may, at any time during the period of enforceability of a patent, file a request for reexamination by the Patent and Trademark Office of any claim of the patent on the basis of prior art patents or printed publications cited under § 1.501. The request must be accompanied by the fee for requesting reexamination set in § 1.20(c).

* * * * *

PART 2—RULES OF PRACTICE IN TRADEMARK CASES

64. Section 2.6 is revised to read as follows:

§ 2.6 Trademark fees.

The following fees and charges are established by the Patent and Trademark Office for trademark cases:

(a) For filing an application, per class	$175.00
(b) For filing an application for renewal of a registration, per class	300.00
(c) For filing to publish a mark under section 12(c), per class	100.00
(d) For issuing a new certificate of registration upon request of assignee	100.00
(e) For a certificate of correction of registrant's error	100.00
(f) For filing a disclaimer to a registration	100.00
(g) For filing an amendment to a registration	100.00
(h) For filing an affidavit under §8 of the Act, per class	100.00
(i) For filing an affidavit under §15 of the Act, per class	100.00
(j) For filing a combined affidavit under §§8 and 15 of the Act, per class	200.00
(k) For petitions to the Commissioner	100.00
(l) For filing petition to cancel or notice of opposition, per class	200.00
(m) For ex parte appeal to the Trademark Trial and Appeal Board, per class	100.00
(n) For printed copy of registered mark	
Copy only	1.00
Copy showing title and/or status	6.50
(o) For certifying trademark records, per certificate	3.50
(p) For photocopies or other reproductions of records, drawings, or printed material, per page of the material copied	0.30
(q) For recording trademark assignments, per document	100.00
For each mark in addition to one assigned in the same document	20.00
(r) For abstracts of title to each registration or application, including the search	12.00
(s) For special service handling of late filed fees in connection with a renewal	100.00
(t) For items and services that the Commissioner finds may be supplied, for which fees are not specified, such charges as may be determined by the Commissioner with respect to each such item or service	actual cost.

65. Section 2.85 is amended by revising paragraph (e) to read as follows:

§ 2.85 Classification schedules.

* * * * *

(e) Where the amount of the fee received on filing an appeal in connection with an application or on an application for renewal or in connection with a petition for cancellation is sufficient for at least one class of goods or services but is less than the required amount because multiple classes in an application or registration are involved, the appeal or renewal application or petition for cancellation will not be refused on the ground that the amount of the fee was insufficient if the required additional amount of the fee is received in the Patent and Trademark Office within the time limit set forth in the notification of this defect by the Office, or if action is sought only for the number of classes equal to the number of fees submitted.

* * * * *

66. Section 2.101 is amended by revising paragraph (c) to read as follows:

§ 2.101 Filing an opposition.

* * * * *

(c) If no fee, or a fee insufficient to cover at least one class, is filed within 30 days after publication of the mark to be opposed or within an extension of the time for filing an opposition, the opposition will not be refused if the required fee(s) (See § 2.6) are filed in the Patent and Trademark Office within the time limit set forth in the notification of this defect by the Office.

* * * * *

67. Section 2.146 is amended by revising paragraph (b) to read as follows, and by removing paragraph (f):

§ 2.146 Petition to the Commissioner.

* * * * *

(b) Any such petition must contain a statement of the facts involved and the point or points to be reviewed and the action requested and the requisite fee (See § 2.6). Any brief in support thereof should accompany or be embodied in the petition; in contested cases any brief in opposition shall be filed within fifteen days after service of the petition. Where facts are to be proved in ex parte cases (as in petition to revive an abandoned application), the proof in the form of affidavits or declarations in accordance with § 2.20 (and exhibits, if any) must accompany the petition.

* * * * *

68. Section 2.162 is amended by revising paragraph (d) to read as follows:

§ 2.162 Requirements for affidavit or declaration during sixth year.

* * * * *

(d) Include the required fee for each class to which the affidavit or declaration pertains in the registration. If no fee, or a fee insufficient to cover at least one class, is filed before the expiration of the sixth year following the date of registration or of publication under Section 12(c) of the Act, the affidavit or declaration will not be refused if the required fee(s) (See § 2.6) are filed in the Patent and Trademark Office within the time limit set forth in the notification of this defect by the

Office. If insufficient fees are included to cover all classes in the registration, the particular class or classes to which the affidavit or declaration pertains should be specified.

* * * * *

89. Section 2.167 is amended by adding a paragraph (g) as follows:

§ 2.167 Affidavit or declaration under Section 15.

* * * * *

(g) Include the required fee for each class to which the affidavit or declaration pertains in the registration. If no fee, or a fee insufficient to cover at least one class, is filed at an appropriate time, the affidavit or declaration will not be refused if the required fee(s) (See § 2.6) are filed in the Patent and Trademark Office within the time limit set forth in the notification of this defect by the Office. If insufficient fees are included to cover all classes in the registration, the particular class or classes to which the affidavit or declaration pertains should be specified.

Office of Management and Budget

Cumulative Report on Rescissions and Deferrals

OFFICE OF MANAGEMENT AND BUDGET

Cumulative Report on Rescissions and Deferrals

September 1, 1982.

This report is submitted in fulfillment of the requirements of Section 1014(e) of the Impoundment Control Act of 1974 (Pub. L. 93-344). Section 1014(e) provides for a monthly report listing all budget authority for this fiscal year with respect to which, as of the first day of the month, a special message has been transmitted to the Congress.

This report gives the status as of September 1, 1982 of 31 rescission proposals and 252 deferrals contained in the first seventeen messages of fiscal year 1982. These messages were transmitted to the Congress on October 1, 20, 23, and 29, and November 6, and 13, 1981, January 22, February 8, and 19, March 18, April 23, May 18, June 3, and 23, July 16, and 28, 1982, and August 23, 1982.

Rescissions (Table A and Attachment A)

Seven rescission proposals totaling $393.2 million are currently pending before the Congress. Table A summarizes the status of rescissions proposed by the President as of September 1, 1982 while Attachment A shows the history and status of each rescission proposed during fiscal year 1982.

Deferrals (Table B and Attachment B)

As of September 1, 1982, $2,440.4 million in 1982 budget authority was being deferred from obligation and another $7.9 million in 1982 obligations was being deferred from expenditure. Attachment B shows the history and status of each deferral reported during fiscal year 1982.

Information from Special Messages

The special messages containing information on the rescissions and the deferrals covered by the cumulative report are printed in the **Federal Registers** of: Vol. 46, No. 194, FR p. 49793, Wednesday, October 7, 1981; Vol. 46, No. 206, FR p. 52289, Monday, October 26, 1981; Vol. 46, No. 210, FR p. 54259, Friday, October 30, 1981; Vol. 46, No. 212, FR p. 54691, Tuesday, November 3, 1981; Vol. 46, No. 218, FR p. 55905, Thursday, November 12, 1981; Vol. 46, No. 223, FR p. 57019, Thursday, November 19, 1981; Vol. 47, No. 18, FR p. 4021, Wednesday, January 27, 1982; Vol. 47, No. 28, FR p. 6193, Wednesday, February 10, 1982; Vol. 47, No. 37, FR p. 8145, Wednesday, February 24, 1982; Vol. 47, No. 57, FR p. 12751, Wednesday, March 24, 1982; Vol. 47, No. 82, FR p. 18301, Wednesday, April 28, 1982; Vol. 47, No. 100, FR p. 22483, Monday, May 24, 1982. Vol. 47, No. 110, FR p. 24992, Thursday, June 8, 1982; Vol. 47, No. 127, FR p. 28891, Thursday, July 1, 1982; Vol. 47, No. 141, FR p. 31835, Thursday, July 22, 1982; Vol. 47 No. 149, FR p. 33662, Tuesday, August 3, 1982; Vol. 47, No. 166, FR p. 37846, Thursday, August 26, 1982.

David Stockeman.

Director.

BILLING CODE 3110-01-M

TABLE A

STATUS OF 1982 RESCISSIONS

	Amount (In millions of dollars)*
Rescissions proposed by the President	$ 7,734.5
Accepted by the Congress	4,098.6
Rejected by the Congress	3,242.6
Pending before the Congress	$ 393.2 a.

* Detail does not add to total due to rounding.

* *

TABLE B

STATUS OF 1982 DEFERRALS

	Amount (In millions of dollars)*
Deferrals proposed by the President	$ 8,207.5
Routine Executive releases (-$5,423.4 million) and adjustments ($16.9 million) through September 1, 1982.	-5,406.5
Overturned by the Congress	-352.7
Currently before the Congress	$ 2,448.4 b.

a. This amount includes $20.5 million in FY 1983 funds (R82-3).

b. This amount includes $7.9 million in outlays for a Department of the Treasury deferral (D82-23A).

* Detail does not add to total due to rounding.

29 CFR Part 220

Airline Employee Protection Program

AGENCY: Office of the Assistant Secretary for Labor-Management Relations and Labor-Management Services Administration, Labor.

ACTION: Proposed rule.

SUMMARY: The Department of Labor, through the Labor-Management Services Administration (LMSA), is proposing regulations to implement the Airline Employee Protection Program established by Section 43 of the Airline Deregulation Act of 1978 (Public Law 95–504). By Secretary's Order Number 1–79, the LMSA has been assigned responsibility for provisions concerning protected employees' priority hire rights, air carriers' duty to hire and the comprehensive job listing. These proposed rules are designed to effectuate those provisions.

DATE: Written comments in duplicate must be received by the Department of Labor by close of business on October 18, 1982.

ADDRESS: Written comments should be submitted to the Airline Employee Protection Program, Division of Employee Protections, Room N–5633, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20210.

FOR FURTHER INFORMATION CONTACT: Mr. Jeffrey Salzman, 202–357–0473.

SUPPLEMENTARY INFORMATION:

Background

On October 24, 1978, the Airline Deregulation Act of 1978, Pub. L. 95–504 (the Act), was signed into law to bring to a close economic regulation of the airline industry. Although airline deregulation is expected to result in expanded overall employment opportunities over the long term, Congress recognized the possibility of reductions in the labor force of one or more air carriers as they make the adjustment from government regulation to an economic environment governed by market forces. Section 43 of the Act provides in general terms for certain employee protective provisions to be administered by the Secretary of Labor, which provisions include both a legal hiring preference for certain unemployed airline workers and, under certain defined circumstances, a benefit program. These proposed regulations apply only to the first right of hire and job list provisions contained in Section 43 of the Act (the Rehire Program).

Under the Act those persons (other than members of the board of directors or corporate officers) who as of October 24, 1978 (the Trigger Date) had been employed for at least four years by an air carrier which had been certificated under section 401 of the Federal Aviation Act of 1958 on or before that date (any such carrier being hereinafter called a covered carrier) are protected employees for purposes of the Rehire Program. All protected employees who are furloughed or terminated (other than for cause) by their employer during the ten year period subsequent to the Trigger Date (hereinafter called "designated employees") are entitled to a first right of hire in their occupational specialty by any covered air carrier which is hiring new employees, although any such covered air carrier is specifically entitled to recall its own furloughed or terminated employees or promote existing employees before hiring a designated employee. Air carriers which are not covered carriers for purposes of the Act do not have any duty to hire designated employees. In addition, the Act requires the Secretary to compile and publish a comprehensive list of jobs available with certificated air carriers, whether or not such carriers are subject to the duty to hire designated employees.

In January of 1979, public meetings were held with interested parties from the airline industry to receive their views concerning development of this program. Proposed regulations were published in March of 1979 in the **Federal Register** and public comments were received. However, a final rule was never published.

Summary of Proposed Rule

The proposed regulations are divided into six subparts:

Subpart A contains the purpose, scope, responsibilitites and definitions applicable to this Part 220. It should be noted that a number of these provisions embody significant administrative interpretations of the Act. Of particular importance is the definition of a protected employee contained in § 220.01(j). This definition limits the scope of the Rehire Program to an employee who occupies a position which entitles the individual to accrue seniority rights or to possess recall rights under the applicable collective bargaining agreement or company policy. Specifically, this definition exempts a seasonal or temporary employee who does not occupy such a position.

Particular attention is called to the fact that a protected employee is defined as one who on October 24, 1978 had four years of actual service or had four years accrued seniority with a single covered carrier. Specific comments are requested on the proposal to include accrued seniority in computing an employee's length of service. Comments are requested on the expected impact of this proposal, i.e. the number of employees that may be expected to meet the definition if accrued seniority is counted, as opposed to those that would be covered if only actual service were counted; the different effect, if any on employees in the various occupational specialties; the industry practice of counting seniority as actual time worked with regard to compensation and benefits such as hospitalization and pensions; and the difficulty, if any, of determining an employee's length of service based upon present employment records if accrued seniority is counted.

Similarly, positions which are seasonal or temporary and do not confer seniority or recall rights have been exempted from the vacancy filing requirements contained in proposed section 220.22. This interpretation recognizes the industry practice of hiring temporary or seasonal workers, such as college students and military personnel, over Christmas holidays and periods of peak summer travel. Many carriers utilize seasonal employees who do not accrue any seniority rights and whose employment is terminable at will without recall rights. Because the Rehire Program is intended to facilitate the permanent re-employment of employees with a long-term commitment to the industry, the Department believes that coverage of seasonal and temporary employees and positions, so long as they do not confer seniority or recall rights, was not intended by the Act. However, while air carriers are free to hire non-protected employees to fill seasonal and temporary positions, proposed § 220.20(b) prohibits an air carrier from filling a vacancy which would otherwise be available to a designated employee by promoting a seasonal or temporary employee until the carrier has made the vacancy available to designated employees in accordance with the regulations.

It should also be noted that under the proposed regulations the Rehire Program is applicable only to certain protected employees. A "designated employee" is defined in § 220.01(f) as a protected employee who meets certain statutory

eligibility tests as set forth in these rules. Only designated employees are entitled to exercise the first-right-of-hire.

Subpart B prescribes the eligibility requirements for, as well as the rights of, designated employees under the Rehire Program.

Proposed § 220.10 implements the statutory limitation that only designated employees are eligible for the first-right-of-hire. Specifically excluded from eligibility as designated employees are protected employees who retire, voluntarily quit, strike, withhold services in support of other employees on strike or are terminated for being on strike.

Proposed § 220.11 provides that designated employees shall have a first-right-of-hire, regardless of age, in their occupational specialty and protects existing seniority and recall rights with their former air carriers. This section also permits covered carriers to establish job qualifications or other hiring criteria which applicants must satisfy, subject to the limitations on such criteria set forth in § 220.21.

Subpart C enumerates the duties of covered air carriers under the Rehire Program.

Proposed § 220.20 implements the statutory duty of covered air carriers to hire qualified designated employees before any other applicant from outside the furloughed or existing work force of the hiring carrier. This section also explicitly recognizes a covered carrier's right to select the applicant of its choice from among the designated employees who apply for a given position.

Proposed § 220.21 provides that, solely with respect to the Rehire Program, employment opportunities for designated employees may not be limited by a covered air carrier on the basis of initial hiring age or the absence of seniority, recall rights or previous experience with another air carrier. This provision implements the express language of the Act that protected employees have a first-right-of-hire "regardless of age", thereby invalidating existing initial hiring age criteria of covered air carriers as they apply to designated employees in the Rehire Program. Further, the Department believes that air carriers may not require the absence of seniority, recall rights or previous experience as a condition of employment for protected employees in the Rehire Program. However, these regulations are not intended to affect in any manner the hiring practices of covered air carriers regarding persons who are not designated employees or retirement policies of such carriers which do not discriminate against designated employees.

Proposed § 220.22 provides that all certificated air carriers, irrespective of whether they were certificated before or after the passage of the Act, must list their job vacancies with a Center established by the Secretary which will maintain and publish a National Listing of available airline jobs (See proposed § 220.40). This requirement was established in order to insure that the National Listing contains a comprehensive listing of available jobs, even if some listed jobs are not subject to the express duty to hire imposed under the Rehire Program. In addition, the availability of such a comprehensive list should provide the maximum opportunity for unemployed airline workers to obtain reasonably comparable employment at the soonest possible time.

Proposed § 220.23 prescribes the content of vacancy listings which must be filed by air carriers.

Proposed § 220.24 prohibits a covered air carrier from filling a vacancy (other than on a temporary basis) with anyone other than a designated employee until the vacancy has been listed with the Center pursuant to § 220.22 for at least 30 days.

Proposed § 220.25 establishes a list of protected employees to be published by the Department. Covered air carriers are required to report the specified identifying information for all persons who qualify as protected employees. Additionally, air carriers are required to notify each employee as to whether or not that employee has been designated as a protected employee. It should be emphasized that the employer is not required to use any particular form in notifying employees as to whether or not they are protected. Thus, for example, the carrier is free to notify current employees of their status by placing a statement to the effect on their paystub.

An employee who the air carrier determines is not a protected employee may submit evidence in support of his or her claim to protected employee status to the air carrier, and under procedures outlined in § 220.26 the employee may appeal any adverse final determination by the air carrier to the Secretary. Any air carrier contemplating hiring a designated employee will be able to verify the employee's initial status as a protected employee by contacting the Department.

Proposed § 220.27 requires an air carrier to furnish each protected employee who is furloughed or terminated, other than for cause, during the ten years following the Trigger Date with appropriate evidence of this occurrence at the time of such action. This requirement applies unless the furlough is for a specific period of less than 90 days. This requirement applies to all such furloughs or terminations between the effective date of the regulations and October 24, 1988. In addition, covered air carriers are required to make a reasonable effort to provide comparable evidence to protected employees who were furloughed or terminated by such carrier between October 24, 1978 and the effective date of the regulations. As with the notice under § 220.25, the proposed regulations do not contemplate any particular form to be used by the carriers in notifying employees of their status under this section. Carriers may furnish the employee with a statement or add such information to any letters or forms presently given to an employee upon termination.

Proposed § 220.28 requires covered air carriers to report the filling of vacancies to the Department semi-annually. If the vacancy was filled by a non-designated employee such report must contain a certification that no qualified designated employee filed a timely application.

Proposed § 220.29 provides that the duty to hire a qualified designated employee supercedes any goal, timetable, consent decree or comparable requirement emanating from the general application of civil rights statutes or executive orders. The Act explicitly requires covered air carriers to hire qualified designated employees above all other persons, without exception. Of course, air carriers are still required to carry out their equal employment obligations to the maximum extent possible consistent with their duty to hire under the Act. As covered air carriers remain free to select any applicant from among the pool of designated employees, the Department believes that the duty to hire designated employees and equal employment obligations can be accommodated in most cases.

Subpart D prescribes the obligations of designated employees in seeking to exercise the first-right-of-hire, including seeking suitable employment, making application for specific positions with covered air carriers and providing proof of eligibility for the first-right-of-hire.

Subpart E prescribes the responsibilities of the Department of Labor under the Rehire Program.

Proposed § 220.40 provides that the comprehensive list of jobs available with air carriers will be established and maintained at the Center established by the Secretary. Jobs may be listed with

this facility by air carriers, by telephone, or in writing. The comprehensive list of vacancies will be published on a periodic basis as determined necessary by the Secretary.

Proposed § 220.41 provides for the list of protected employees to be published by the Department.

Subpart F prescribes the beginning and ending dates of the effectiveness of these regulations and provides for the disclosure of information, collected by the Department, consistent with the Privacy Act (5 U.S.C. 552a).

Enforcement

The Act and its legislative history are silent on the existence of a means to enforce the Rehire Program, whether by seeking damages for failure to carry out requirements of the Act or any accompanying regulations or otherwise. After careful study the Department has concluded that it is without specific enforcement authority under the Act. However, it would appear possible that a private right of action may be available to qualified designated employees who actually applied for job vacancies during the effective period of the Rehire Program (see *Cort. v. Ash*, 442 U.S. 66, 78 (1975).

Drafting Information

This document was prepared under the direction and control of Hugh Reilly, Executive Assistant to the Assistant Secretary for Labor-Management Relations, Labor-Management Services Administration, U.S. Department of Labor, Room S–2203, 200 Constitution Avenue, NW., Washington, D.C. 20210.

Consultation with the Equal Employment Opportunity Commission

Pursuant to to Executive Order 12067, this proposal has been submitted to the Equal Employment Opportunity Commission for review. A discussion of the present status of that review is set forth in Appendix II to this document.

Executive Order 12291

The proposed regulations being published today contain several provisions which could have an economic impact on certificated air carriers, unemployed airline personnel and the Federal Government. In particular, today's proposal established: (1) Eligibility requirements and procedures for implementing the first-right-of-hire provisions under the Act; (2) a National Listing of airline job openings for all air carriers, including those certificated after the Trigger Date; (3) a list of protected employees to be published by the Department; (4) a one-time notice to all employees of covered carriers as to whether or not they qualify for protected status under the Act; and (5) semi-annual reporting of any new hires to the Department, which includes certifications for all jobs filled by someone other than a designated employee.

However, for several reasons the Department expects the actual economic impact of these regulations to be minimal. First, the proposed rule does not interfere with covered air carriers' internal promotion and recall practices regarding existing employees. Many job vacancies are filled internally through promotions of existing employees, while the Act and today's proposal are limited to outside hiring to fill job vacancies. This reduces substantially the number of actual job openings where first-right-of-hire provisions will apply. The only aspect of these regulations which will affect internal personnel practices of covered air carriers is the prohibition against promoting temporary or seasonal workers (if the positions held by them do not confer seniority or recall rights) without first offering any permanent job to which such persons might have been promoted to designated employees. Although this prohibition may affect the internal practices of covered carriers slightly, it is counter-balanced by the exemption contained in the regulations for carrier hiring of temporary and seasonal employees, so long as such persons do not acquire seniority or recall rights, This exemption will further reduce the number of job openings affected by the proposed regulations. Finally, covered carriers are entitled to recall their own furloughed or terminated employees prior to offering positions to designated employees.

Thus, the proposed regulations will affect neither existing seniority, promotion, and layoff policies nor short-term hiring practices. Additionally, the proposed exemption of seasonal and temporary positions recognizes a prevalent practice in the industry and allows employers maximum flexibility in meeting workforce requirements during peak demand periods.

A second reason the Department expects the economic impact of the regulations to be minimal is that the proposed regulations recognize the right of covered carriers to impose their own qualifications and hiring criteria (subject to certain prohibitions) on job applicants and to freely select from among all designated employee applicants who possess the requisite qualifications. Thus, the proposed regulations maintain existing employer personnel policies and job criteria intact, and they do not impose dual personnel systems for qualified designated employees and other applicants. The only change from present carrier practices is that they will be required to give preference to qualified designated employees in any outside hiring. Even this requirement is not a new burden imposed by the proposed regulations, but rather is a direct statutory obligation. For many occupations, particularly those where skill requirements are important, the Rehire Program may have no impact at all as covered air carriers would have hired these same employees, who possess substantial experience, even in the absence of this regulation.

The Department does recognize that covered air carriers may experience some increased training costs because of the statute's prohibitions against age restrictions or other criteria designed to minimize the employment of workers with accrued seniority or layoff rights. Since investments in training are amortized over a number of years, employers incur higher training costs for short tenure workers, everything else being equal. The designated employee pool may have a shorter tenure horizon on average than other applicants, because it includes some older workers close to retirement or those who may be recalled back to their previous employer with their seniority rights intact. However, this is not a cost of the regulation, but is a direct statutory limitation. In addition, such costs may be mitigated by the fact that designated employees will tend to be more experienced than other applicants, and hence may require less training. Moreover, any increased training costs could also be further offset by higher productivity from these experienced employees, and hence lower labor costs. At equal wages, the incentive would be for employers to hire more experienced workers even in the absence of these regulations because of the lower labor costs.

Third, the National Listing of openings and list of protected employees will increase the efficiency of the labor market in the airline industry by facilitating the matching of job vacancies with qualified applicants. Employers may find this hiring system preferable to more traditional listing methods, which tend to be haphazard.

In theory, there could be some added costs associated with the proposed requirement that employers not fill a vacancy on a permanent basis with other than a qualified designated employee until the vacancy or anticipated vacancy has been listed for at least 30 days; however, this is highly unlikely in practice. Because of formal training programs in the industry,

airlines doing outside hiring generally hire entire classes of employees rather than isolated individuals. This type of hiring decision takes place well in advance, at which time employers may list the anticipated vacancies. Similarly, under negotiated contracts many jobs must be bid to existing employees for a period of time before outside hiring can take place. These may be simultaneously placed on the National Listing, thereby permitting the 30 day waiting period to run simultaneously with internal bidding procedures. Finally, given the high unemployment-to-job vacancy ratio in the industry at this time, few, if any, job vacancies would require the full 30-day listing. The Department believes that this proposed requirement is necessary to insure the effective operation of the National Listing of job openings and to provide maximum opportunity for the re-employment of protected employees.

Fourth, today's proposal limits employers' paperwork burdens to the minimum necessary to insure effective rehire and job listing programs. Proposed reporting requirements include only a one-time notice to each employee as to his or her protected status, and semi-annual reports to the Department on all jobs filled, including certifications in those cases where the new job did not go to a designated employee. Moreover, the proposed rule allows employers to list job vacancies entirely by telephone, rather than through written job orders. This increases the efficiency of the job listing program and reduces unnecessary employer delays in filling job vacancies.

Finally, the increased administrative costs imposed on air carriers and the Federal Government as a result of the job listing program and the filing and processing of one-time notices and semi-annual reports should not be major. While the precise costs of the proposed reporting requirements on air carriers cannot be estimated because the number of jobs to be filled through outside hiring by covered carriers is not known, they are expected to be minimal. For example, the 36 covered air carriers are expected to require at most one clerical hour annually at $5.94 (Bureau of Labor Statistics, 1981 average hourly rates for a typist class B) to complete the reports. There will be no additional costs associated with the job listing program for the Federal Government if telephone listings average under 100 per week. If the volume is higher, the Department estimates that the increased costs will run in the neighborhood of $50,000 to $100,000 per year.

For the above reasons, the Department has concluded that this proposed rule does not meet the tests for a "major rule" under Executive Order 12291 on Federal Regulations. It is not likely to result in (1) an annual effect on the economy of $100 million or more; (2) a major increase in cost or prices for consumers, individual industries, Federal, State or local government agencies, or geographic regions; or (3) significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets. Accordingly, no regulatory impact analysis is required.

Paperwork Reduction Act

The information collection requirements set forth in these rules, as well as the forms necessary to implement them are being submitted to the Office of Management and Budget for its review and approval as required by the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*).

Regulatory Flexibility Act

Although all certificated carriers will be required to list their job vacancies under these regulations, the proposed rehire program itself applies to only 36 U.S. air carriers certificated as of October 23, 1978. According to CAB figures, this represents 52 percent of the total universe of 69 certificated non-commuter air carriers, including those certified after the Trigger Date. Based on annual revenues, only 4 of the 36 covered air carriers affected by today's proposal qualify as small entities (annual revenues of less than $10 million). These small carriers employed a total of 260 full-time workers in May 1982. The remaining covered air carriers affected by the proposed rule include: 8 large regional carriers (annual revenues of $10–$75 million); 13 national airlines (annual revenues of $75 million–$1 billion); and 11 major airlines (annual revenues of over $1 billion). The major airlines carry approximately 80 percent of the airline traffic, and the nationals carry an additional 10–12 percent. Together, these larger affected carriers had 301,527 full-time employees as of May 1982.

The small carriers covered under this proposal are approximately 21 percent of all small certificated air carriers (excluding commuter airlines) and 16 percent of the total full-time employees working for small certificated carriers. In contrast, a much higher percentage of larger air carriers are affected by today's proposal. Larger air carriers certificated as of October 23, 1978 represent 64 percent of the total air carriers in this size group and 95 percent of full-time employment with such carriers. These affected carriers include all of the major airlines, 77 percent of the national airlines, and 44 percent of the large regional air carriers. Thus, the proposed rule does not disproportionately impact on small air carriers.

In addition to the relatively smaller proportion of these carriers affected by today's proposal, the economic impacts of both the job listing requirement and the Rehire Program are not expected to be significant for the reasons previously discussed.

As a result, the Department of Labor believes that the proposed rule will not have a "significant economic impact upon a substantial number of small entities" within the meaning of section 3(a) of the Regulatory Flexibility Act (Public Law No. 96–354, 91 Stat. 1164 (5 U.S.C. 605(b)). The Secretary of Labor has certified this to the Chief Counsel for Advocacy of the Small Business Administration. Accordingly, a regulatory flexibility analysis is not required.

Regulatory Flexibility Act Certification

I, Raymond J. Donovan, Secretary of Labor, hereby certify pursuant to 5 U.S.C. 605(b) that the proposed rule published hereinafter (29 CFR Part 220), Proposed Rule for the Airline Employee Protection Program, will not have a significant economic impact on a substantial number of small entities. This conclusion is reached because this proposed rule only has a minimal economic impact on a limited number of small air carriers certificated under section 401 of the Federal Aviaton Act of 1958.

Signed at Washington, D.C. this 14th day of September 1982.

Raymond J. Donovan,

Secretary of Labor

List of Subjects in 29 CFR Part 220

Labor, Airline employees and air carriers.

Accordingly, a new 29 CFR Part 220 is proposed to read as set forth below.

Signed at Washington, D.C. this 14th day of September 1982.

Raymond J. Donovan,

Secretary of Labor.

PART 220—AIRLINE EMPLOYEE PROTECTION PROGRAM

Subpart A—Purpose and Scope of the Airline Employee Protection Program

Sec.

220.01 Definitions.
220.02 Purpose.
220.03 Scope.

Sec.
220.04 Responsibilities of the Secretary of Labor.

Subpart B—Designated Employee First-Right-of-Hire Program
220.10 Eligibility requirements.
220.11 Designated employees' rights.

Subpart C—Carrier Responsibilities
220.20 Duty to hire.
220.21 Criteria for employment.
220.22 Listing a vacancy.
220.23 Content of vacancy listing.
220.24 Filling a vacancy.
220.25 List of protected employees.
220.26 Appeals to the Secretary.
220.27 Notice of rights.
220.28 Air carrier actions to be reported to the Secretary.
220.29 Affirmative action.

Subpart D—Designated Employee Responsibilities
220.30 Designated employee responsibilities.

Subpart E—Department of Labor Responsibilities
220.40 Comprehensive job list.
220.41 List of protected employees.

Subpart F—Administration
220.50 Effective period of the program.
220.51 Disclosure of information.
Appendix I U.S. Carriers certificated as of October 23, 1978 under section 401 of the Federal Aviation Act of 1958 as amended.

Authority: Section 43(f) of the Airline Deregulation Act of 1978, Pub. L. No. 95–504, 92 Stat. 1750 (49 U.S.C. 1552). Secretary Order No. 1–79, 44 FR 13093.

Subpart A—Purpose and Scope of the Airline Employee Protection Program

§ 220.01 Definitions.

As used in this Part, unless the content otherwise indicates:

(a) "Act" means the Airline Deregulation Act of 1978, Pub. L. 95–504, 92 Stat. 1705.

(b) "Air carrier" means an air carrier certificated under Section 401 of the Federal Aviation Act of 1958 (49 U.S.C. 1371).

(c) "Center" means the entity or location which from time to time may be designated by the Secretary to receive, maintain and distribute the job listing information required by this Part.

(d) "Corporate officer" means an individual who holds any officer's position established pursuant to the Articles of Incorporation or by-laws of any air carrier, or who is otherwise identified as an officer by any air carrier in filings with the Federal Aviation Administration, Civil Aeronautics Board or Securities and Exchange Commission or in any reports to stockholders or any public communications of an air carrier.

(e) "Covered air carrier" means an air carrier which was certificated prior to October 24, 1978. (A listing of such carriers appears as an appendix to these regulations.)

(f) "Designated Employee" means a protected employee who meets the eligibility requirements set forth in § 220.10.

(g) "Effective Period" means the period commencing on the effective date of these regulations and ending on the earlier of (1) December 31, 1994, or (2) the last day of the final month in which the Secretary is required to make a payment under Section 43 of the Act.

(h) "Eligibility Period" means the ten-year period beginning on October 24, 1978.

(i) "Occupational specialty" means the class, craft, or field of endeavor in which an individual was employed at the time of separation from a covered air carrier or in which the employee was employed during the 12 months immediately preceding the date of separation.

(j) "Protected employee" means a person other than a member of the Board of Directors or corporate officer of an air carrier who on October 24, 1978 had (1) four years of employment or (2) four years accrued seniority with a single covered air carrier. The term employee shall include any full or part time employee other than an employee in seasonal or temporary employment as defined herein. As used herein four years of employment shall mean not less than 48 months (whether or not consecutive) in which the employee actually completed the minimum number of hours of regular employment required for such employee's craft, class or position under the then applicable requirements of the employing carrier.

(k) "Seasonal employment" means employment during limited periods of the year due to peak market conditions or other factors which are periodic in nature, and in positions which do not confer seniority or recall rights.

(l) "Secretary" means the Secretary of Labor of the United States.

(m) "Temporary employment" means employment of limited duration which does not confer seniority or recall rights.

(n) "Terminated", unless expressly provided to the contrary, means termination of employment other than for cause.

(o) "Terminated for cause" means the separation of an individual from employment initiated by an air carrier for violation of such carrier's rules, policies, procedures, or practices pertaining to employee standards of conduct, job performance, or dependability.

(p) "Vacancy" means an employment opportunity other than seasonal or temporary employment, which an air carrier seeks to fill from outside its existing or furloughed workforce.

§ 220.02 Purpose.

Section 43(d) of the Act provides a first-right-of-hire for designated employees of covered air carriers. The regulations in this Part are issued to effectuate section 43(d)(1) and (2) of the Act (hereinafter referred to as the Rehire Program).

§ 220.03 Scope.

(a) The Rehire Program is applicable only to designated employees, as more fully set forth herein, and only those employees who are expressly granted a hiring preference under the Act and these regulations have any rights under the Rehire Program. The Secretary of Labor will also publish a comprehensive list of jobs available with air carriers.

§ 220.04 Responsibilities of the Secretary of Labor.

The Secretary of Labor is responsible for administering the Rehire Program, and the Assistant Secretary for Labor-Management Relations, Labor-Management Services Administration (LMSA), has been delegated responsibility for the following:

(a) The development and promulgation of policies, regulations and procedures covering the first-right-of-hire provisions of Section 43(d)(1) of the Act;

(b) The development and promulgation of policies, regulations, and procedures covering the comprehensive job list required under Section 43(d)(2) of the Act; and

(c) The establishment and implementation of reporting requirements for air carriers to obtain pertinent information necessary for fulfilling the Secretary's responsibilities under Section 43(d)(2) of the Act.

Subpart B—Designated Employee First-Right-of-Hire Program

§ 220.10 Eligibility requirements.

(a) To qualify as a designated employee eligible for rights under this Part 220, an applicant must be a protected employee who is involuntarily placed on furlough or is terminated by a covered air carrier during the eligibility period.

(b) A protected employee shall not be deemed to be furloughed or terminated if such employee:

(1) Retired voluntarily;

(2) Was required to retire by virtue of reaching the mandatory retirement age, if any, established by a covered air carrier or as prescribed by any

government agency with regulatory authority over a covered air carrier;

(3) Retired due to a disability;

(4) Is on strike or has withheld services in support of other employees who have struck the covered air carrier;

(5) Is terminated for being on strike;

(6) Resigned or voluntarily quit for any reason.

(c) A designated employee who is recalled by his former carrier is no longer eligible under this section to exercise the first-right-of-hire. Such a person may become a designated employee in the future due to a subsequent termination or furlough which occurs on or prior to the expiration of the eligibility period.

§ 220.11 Designated employees' rights.

(a) A designated employee shall have a first-right-of-hire in such employee's occupational specialty, regardless of age, with any covered air carrier hiring additional employees; *Provided, however,* That each designated employee must satisfy all qualifications or other requirements established by the hiring carrier (subject to the limitations contained in § 220.21) and must make a timely application in accordance with normal carrier procedures for any particular job vacancy.

(b) A designated employee hired by any covered air carrier pursuant to the provisions of the Act shall not be required, as a condition of employment or in any other manner, to relinquish, waive or forfeit any seniority or recall rights which such person may possess with any other air carrier; *Provided, however,* That the provisions of this part shall not be deemed to create or prolong any such seniority or recall rights.

Subpart C—Carrier Responsibilities

§ 220.20 Duty to hire.

(a) Subject to § 220.24 hereof, a covered air carrier shall have the duty to hire a designated employee, regardless of age, who otherwise meets the qualification requirements established by such carrier before it hires any other applicant when such carrier is seeking to fill a vacancy in the designated employee's occupational specialty from outside its workforce. As used herein "workforce" shall include all present employees and any furloughed or terminated employees who, at the time of furlough or termination, possessed recall or seniority rights.

(b) Subject to the provisions of § 220.24 hereof, a covered air carrier shall not fill a vacancy, which would otherwise be available to a designated employee, by promoting a seasonal or temporary employee.

(c) When considering applications from more than one designated employee for a particular vacancy, a covered air carrier shall be entitled to offer employment to any such designated employee in its absolute discretion.

§ 220.21 Criteria for employment.

(a) A covered air carrier shall be entitled to apply any prerequisites or qualifications determined by it for any vacancy, except that, solely with respect to the duty to hire created by the Act, a covered air carrier shall not be entitled to limit employment opportunities for designated employees on the basis of:

(1) initial hiring age (provided that such prohibition shall not be applicable to retirement ages applicable to all of any class or craft of such air carrier's employees); or

(2) the existence of any seniority, recall rights or previous experience with any other air carrier; *Provided, however,* That covered air carriers shall be entitled to require prospective employees to disclose the existence of any such seniority or recall rights in making application for employment and to take the existence or non-existence of such rights into account in selecting from among those qualified designated employees who have applied for a particular job vacancy.

(b) In filling job vacancies during the effective period covered air carriers shall be entitled to require applicants to furnish evidence that they are designated employees.

§ 220.22 Listing a vacancy.

(a) During the effective period all air carriers shall be required to list each vacancy with the Center at the earliest practicable time. In addition, any air carrier shall be entitled to list anticipated vacancies with the Center at any time.

§ 220.23 Content of vacancy listing.

Air carriers shall provide the Center with a description for each job listing, which shall include, but need not be limited to, the following:

(a) Job title;

(b) Type of position (full or part-time);

(c) Salary;

(d) Basic qualifications and/or training requirements;

(e) Brief description of duties;

(f) Location of vacancy (if known);

(g) Special requirements such as type rating, licensing, skill requirements, etc.;

(h) Whether the vacancy is subject to the duty to hire; and

(i) Information on how to apply, such as contact person, mailing address, and any special application procedures.

§ 220.24 Filling a vacancy.

(a) A covered air carrier may fill a vacancy with someone who is not a designated employee after the vacancy has been listed with the Center for a least thirty calender days; if:

(1) no designated employee with the requisite occupational specialty has applied for the vacancy in accordance with § 220.30 within that time; or

(2) no designated employee who did apply within that time period meets the carrier's criteria for employment as set forth in § 220.21.

(b) A covered air carrier may fill a vacancy on a temporary basis with someone who is not a designated employee while the carrier is considering applications for the vacancy which were received from designated employees during the listing period.

§ 220.25 List of protected employees.

(a) Within 60 days of the effective date of these regulations, each covered air carrier shall provide the Secretary with a list of all protected employees who were employed by it on October 24, 1978.

(b) The list shall contain the following information:

(1) Protected employee's name;

(2) Social security number (if available); and

(3) Current occupational specialty for present employees or occupational specialty at the time of separation from employment for former employees.

(c)(1) Not later than ninety days after the effective date of these regulations, each convered air carrier shall provide a one-time notice to each employee as to whether or not the carrier has determined that employee to be a protected employee within the meaning of these regulations, and if so that the carrier has reported his or her name to the Secretary.

(2) An employee who disputes the carrier's determination of protected status may submit evidence to the covered air carrier within sixty days of receiving the notice required by paragraph (c)(1) as to the employee's basis for such dispute.

(3) The covered air carrier shall consider the evidence submitted by the employee and shall inform the employee of its final determination. In the event the carrier determines that the employee qualifies as a protected employee it shall forward the employee's name to the Secretary.

§ 220.26 Appeals to the Secretary.

(a) If the employee disagrees with the carrier's final determination under § 220.25 that he or she is not a protected

employee within the meaning of this part the employee may appeal such determination to the Secretary within 60 days of the carrier's final decision.

(b) An appeal must be written, dated, and signed by the employee. It must set forth:

(1) The full name and address of the carrier making the determination;

(2) A summary of the pertinent events and circumstances concerning the employee's status and the basis of the disagreement, including the original date of hire, dates of all periods of furlough, leave or termination, the full name of the individual(s) who made the determination for the carrier, and the date of the carrier's final determination.

(3) The full name, address, and telephone number of the employee; and

(4) Such other information as may be required by the LMSA.

(b) Any appeal hereunder may be filed with any office of the Labor-Management Services Administration (LMSA) (LMSA Area offices and their respective jurisdictions are listed as an appendix to these regulations.). Upon receipt of an appeal by an LMSA Regional Office, the Regional Administrator will make a preliminary review of the appeal, and if warranted, request information from the parties or conduct such other investigation as may be required. If the matter cannot be resolved informally, the Regional Administrator will forward the file to the Secretary for review.

(c) If upon review of an appeal hereunder the Secretary determines that further action is not appropriate he will so advise the parties. If upon review of the entire record the Secretary determines that the employee qualities for protected status the Secretary will take appropriate steps to add the employee's name to the list of protected employees and will so notify the parties.

§ 220.27 Notice of rights.

(a) Not later than the date of separation from employment, a covered air carrrier which furloughs or terminates a protected employee during the eligibility period, unless such furlough is limited to a specific period of less than 90 days, shall furnish such protected employee with a letter or other written documentation that such employee is a designated employee and thereby is entitled to exercise a first-right-of-hire. Such letter or other written documentation shall include, but need not be limited to, the following information:

(1) Name;

(2) Social Security Number (if available);

(2) Occupational specialty;

(4) Date of furlough or termination;

(5) An official of the covered air carrier who can verify the individual's status as a designated employee; and

(6) Signature, name, and location of the certifying official.

(b) As soon as practicable, but in any event not later than 180 days following the effective date of these regulations, each covered air carrier shall make a reasonable effort to provide a letter or other written documentation as required in subparagraph (a) to any designated employee as set forth in section 220.10 of this part who was furloughed or terminated by such carrier subsequent to October 24, 1978 and prior to the effective date of these regulations and who has not been previously recalled to employment by such covered air carrier.

§ 220.28 Air carrier actions to be reported to the Secretary.

(a) A covered air carrier shall report to the Secretary:

(1) The names and social security numbers (if available) of all designated employees hired by it, and

(2) The filling of any vacancy with other than a designated employee.

With respect to any occurrences reported under paragraph (a)(2) of this section, the report of the covered air carrier shall contain the job order number assigned to that vacancy by the Center, the date of hire, and a certification by a corporate officer that the carrier complied with the provisions of this part and that no qualified designated employee with the requisite occupational specialty applied in a timely manner.

(b) The reports required by this section shall be filed with the Secretary covering the six month periods ending June 30 and December 31 of each calendar year in which these regulations are in effect and shall be submitted within sixty days of the end of the reporting period.

§ 220.29 Affirmative action.

The duty to hire a qualified designated employee supersedes any goal, timetable, consent decree or comparable requirement emanating from general application civil rights statutes, executive orders or judicial decrees. However, to the extent possible a covered air carrier remains required to satisfy its equal employment obligations, so long as it does not violate the carrier's duty to hire under this part, by hiring from among qualified designated employees applying for a particular position.

Subpart D—Designated Employee Responsibilities

§ 220.30 Designated employee responsibilities.

It is the responsibility of each designated employee to:

(a) Make application to any covered air carrier for whom the designated employee desires to work in the time and manner reqired by such carrier.

(b) To insure that an application previously submitted to a covered air carrier which currently lists a vacancy is in an active status so as to be considered for such vacancy;

(c) To provide a copy, if requested, of the documentation of designated employee status to a potential employing air carriers; and

(d) To retain the original of the documentation of designated employee status for future use.

Subpart E—Department of Labor Responsibilities

§ 220.40 Comprehensive job list

(a) The Secretary shall establish a Center to maintain a national Listing of all vacancies listed by air carriers in accordance with 220.23 of this part.

(b) The Center will be accessible by telephone throughout the United States to facilitate the listing or modifying of vacancy information by air carriers.

(c) The Center shall provide an air carrier with an identifying number for each vacancy listed on the National Listing.

(d) The National Listing shall be compiled, published and distributed to each local office of the State Employment Security Agencies on a periodic basis as determined necessary by the Secretary, and it shall be distributed to such other individuals or organizations as may desire to receive copies therof in accordance with criteria established by the Secretary from time to time.

§ 220.41 List of protected employees.

The Secretary shall establish and publish a list of protected employees as reported by covered air carriers under § 220.25 of this part. A copy of this list shall be sent to all covered air carriers as soon as available.

Subpart F—Administration

§ 220.50 Effective period

(a) *Beginning date.* The requirements set forth in this past shall be effective on [60 days from publication of these regulations].

(b) *Ending date.* This program and these regulations terminate on the last day of the effective period.

§ 220.51 Disclosure of information.

The Department of Labor shall make available to covered air carriers, and to designated employees, or their representatives, all reports, certifications, or lists collected under this Part to the extent permitted by the Privacy Act (5 U.S.C. 552a) and the Department's regulations issued pursuant to that Act (29 CFR Part 70a).

Appendix I.—U.S. Carriers Certificated as of October 23, 1978 Under Section 401 of the Federal Aviation Act of 1958, as Amended [1]

Note.—This appendix will not appear in the Code of Federal Regulations.

1. Airlift International, Inc.

51. Zantop International Airlines, Inc.

[1] This list does not reflect the current operating status of certain of these carriers. Some have merged, ceased operating or have been renamed. The Department of Labor intends to publish an updated list reflecting the current status of these carriers.

Appendix II.—Consultation With Equal Employment Opportunity Commission

A draft of this rule was forwarded to the Equal Employment Opportunity Commission for review pursuant to Executive Order 12067, 43 FR 28967. The Commission's Staff Committee on Interagency Policy raised reservations about Section 220.29 as proposed within. The concern was raised that as between a legal obligation specific to a particular carrier and the more general obligations of Section 43(d), the former should prevail. The Commission's Policy Committee agrees with proposed Section 220.29 that, to the extent possible a covered air carrier should satisfy its equal employment obligations by hiring from among qualified designated employees applying for a particular position. However, it believes that where a carrier is under a specific equal employment requirement, such as a court order (including a consent decree), an administrative order, a conciliation agreement, etc., requiring that named individuals or a certain percentage or ratio of a class of individuals be hired, and the carrier cannot meet its obligation by hiring from the pool of protected employees, the carrier should fulfill its obligation with non-protected employees. In those situations, the Committee believes that it is appropriate to conclude that there are no vacanices under the Airline Deregulation Act. Specific comment addressing this issue is requested.

Part VII

Department of Labor

Office of the Secretary

Unemployment Compensation Agencies; Hearings

DEPARTMENT OF LABOR

Office of the Secretary

State of California Employment Development Department, State of Illinois Department of Labor, State of Ohio Bureau of Employment Services, U.S. Virgin Islands Employment Security Agency Hearing

This notice announces an opportunity for a hearing for the unemployment compensation agencies of the States of California, Illinois, Ohio, and the U.S. Virgin Islands, pursuant to the last sentence of section 3304(c) of the Internal Revenue Code of 1954, 26 U.S.C. section 3304(c), and sections 2403 and 2404 of Pub. L. 97–35, 95 Stat. 875, to be held at 10:00 o'clock in the morning on September 28, 1982, in Courtroom A, 8th Floor, Vanguard Building, 1111 20th Street, N.W., Washington D.C.

The hearing will be on the following issues:

Issue 1: Whether, with respect to the certification of the States on October 31, 1982, under section 3304(c) of the Internal Revenue Code of 1954, 26 U.S.C. section 3304(c), the unemployment compensation laws of the States identified in the caption of this notice have been amended so as to contain the provisions required by section 203(d) of the Federal-State Extended Unemployment Compensation Act of 1970 EUCA), 26 U.S.C. section 3304(c) note, with respect to the beginning and the ending of extended benefit periods in the respective States, as is required by section 3304(a)(11) of the Internal Revenue Code of 1954, 26 U.S.C. section 3304(a)(11), and section 2403 of Pub. L. 97–35, 95 Stat. 875, approved August 13, 1981.

Basis for Issue: Section 3304(c) of the Code provides as a condition of certification of the States on October 31 of any taxable year that their unemployment compensation laws must contain "each of the provisions required by law to be included therein (including provisions relating to the Federal-State Extended Unemployment Compensation Act of 1970 (or any amendments thereto) as required under subsection of (a) (11)) * * *."

Section 2403 (a) of Pub. L. 97–35 (the Omnibus Budget Reconciliation Act of 1981) amended section 203(d) of the EUCA by raising the standard beginning and ending triggers for an extended benefit period from 4 to 5 (if the insured unemployment rate in the State equalled or exceeded 120 percent of the average of such rates for the corresponding 13-week periods in each of the preceding two calendar years), and by raising the optional triggers from 5 to 6 (exclusive of the 120 percent factor). Section 2408 (b) of Public Law 97–35 requires States to include the provisions of section 203 (d), as amended, in their unemployment compensation laws for any week which begins after September 25, 1982. The States identified in the caption of this notice have failed to amend their unemployment compensation laws so as to include the revised triggers for beginning and ending extended benefit periods.

Issue 2: Whether, with respect to the certification of the States on October 31, 1982, under section 3304 (c) of the Internal Revenue Code of 1954, 26 U.S.C. section 3304 (c), the unemployment compensation laws of the States identified in the caption of this notice have been amended so as to contain the provisions of section 202 (a)(5) of the EUCA, 26 U.S.C. section 3304 (c) note, with respect to the requirement of 20 weeks of work or the equivalent in the base period, as is required by section 3304 (a)(11) of the Internal Revenue Code of 1954, 26 U.S.C. section 3304 (a)(11), and section 2404 of Pub. L. 97–35, 95 Stat. 875, approved August 13, 1981.

Basis for Issue: section 3304(c) of the Code provides as a condition of certification of the States on October 31 of any taxable year that their unemployment compensation laws must contain "each of the provisions required by law to be included therein (including provisions relating to the Federal-State Extended Unemployment Compensation Act of 1970 (or any amendments thereto) as required under subsection (a)(11)) * * *."

Section 2404(a) of Pub. L. 97–35 amended section 202(a) of the EUCA by adding new paragraph (5) which requires as a condition of eligibility for extended benefits that an individual have worked 20 weeks or the equivalent in the base period. The State law is required to provide the method to be used of the alternatives allowed of measuring employment and wages for that purpose. Section 2404 (b) of Pub. L. 97–35 requires States to include the provisions of section 202 (a)(5) in their unemployment compensation laws for any week which begins after September 25, 1982. The States identified in the caption of this notice have failed to amend their unemployment compensation laws so as to include the work and earnings requirements for extended benefit eligibility.

The respective State unemployment compensation laws, therefore, appear not to be in conformity with the provisions of section 3304 (a)(11) of the Code, and the last sentence of section 3304(c) of the Code is applicable to the issues.

Following the hearing, a decision will be made with respect to each State. Such a decision will have a bearing on whether or not the State is certifiable on October 31, 1982, with respect to normal and additional credits allowable to the State's employers pursuant to subsections (a) and (b) of section 3302 of the Code, 26 U.S.C. section 3302, for the taxable year 1982, and will also have a bearing on other benefits available to the State under the unemployment compensation program.

The proceedings in this matter shall be conducted in accordance with the Rules of Procedure set out after this notice.

For the purposes of this hearing, all motions, briefs, and other documents shall be filed, pursuant to the Rules of Procedure referenced above, with the presiding Administrative Law Judge, U.S. Department of Labor, Suite 700, Vanguard Building, 1111 20th Street, N.W., Washington, D.C. 20036, who will be designated in accordance with such Rules of Procedure.

Signed at Washington, D.C., on September 15, 1982.

Raymond J. Donovan,

Secretary of Labor.

[FR Doc. 82–25665 Filed 9–16–82; 8:45 am]

BILLING CODE 4510–30–M

State of Maryland Department of Human Resources; Hearing

This notice announces an opportunity for a hearing for the unemployment compensation agency of the State of Maryland pursuant to the last sentence of section 3304(c) of the Internal Revenue Code of 1954, 26 U.S.C. section 3304(c), and section 414 of Pub. L. 96–364, 94 Stat. 1310, to be held at 2:00 o'clock in the afternoon on September 28, 1982, in Courtroom A, 8th Floor, Vanguard Building, 1111 20th Street, NW., Washington, D.C.

The hearing will be on the following issue:

Issue: Whether, with respect to the certification of the States on October 31, 1982, under section 3304(c) of the Internal Revenue Code of 1954, 26 U.S.C. section 3304(c), the unemployment compensation law of the State of Maryland has been amended so as to contain provisions permitted by section 3304(a)(15)(B) of the Code with respect to a limitation on the amount or proportion of a pension payment to be deducted from unemployment benefits otherwise payable, as is required by such section 3304(a)(15)(B).

Basis for Issue: Section 3304(a)(15)(B) of the Code permits States to limit the pension deduction otherwise required by subparagraph (A) by reducing the amount to be offset against unemployment benefits otherwise payable for a week of unemployment to an amount that is no larger than the ratio of the unemployed individual's contributions, as an employee, to total contributions to the pension plan or system by both the individual and the employer. The unemployment compensation law of the State of Maryland provides a limitation on pension deduction that is larger, in certain circumstances, than the ratio of the individual's contributions to total contributions to the pension plan or system. Section 414 of Pub. L. 96–364 permits the States to adopt a limitation on pension deductions consistent with subparagraph (B) of section 3304(a)(15), effective on September 26, 1980.

The unemployment compensation law of the State of Maryland, therefore, appears not to be in conformity with the provisions of section 3304(a)(15)(B) of the Code, and the last sentence of section 3304(c) of the Code is applicable to the issue.

Following the hearing, a decision will be made with respect to the State. Such a decision will have a bearing on whether or not the State is certifiable on October 31, 1982, with respect to normal and additional credits allowable to the State's employers pursuant to subsections (a) and (b) of section 3302 of the Code, 26 U.S.C. section 3302, for the taxable year 1982, and will also have a bearing on other benefits available to the State under the unemployment compensation program. (The hearing will not be held if the injunction imposed by the U.S. District Court for the District of Columbia in *Cabais* v. *Egger*, No. 80–2470 (August 27, 1981) is not lifted by September 23, 1982. The State agency will then be notified appropriately.)

The proceedings in this matter shall be conducted in accordance with the Rules of Procedure set out after this notice.

For the purposes of this hearing, all motions, briefs, and other documents shall be filed, pursuant to the Rules of Procedure referenced above, with the presiding Administrative Law Judge, U.S. Department of Labor, Suite 700, Vanguard Building, 1111 20th Street, NW., Washington, D.C. 20036, who will be designated in accordance with such Rules of Procedure.

Signed at Washington, D.C. on September 15, 1982.

Raymond J. Donovan,

Secretary of Labor.

[FR Doc. 82-25988 Filed 9-16-82; 8:45 am]

BILLING CODE 4510-30-M

State of Massachusetts Department of Labor and Industries, State of Michigan Employment Security Commission, State of New Jersey Department of Labor and Industry; Hearing

This notice announces an opportunity for a hearing for the unemployment compensation agencies of the States of Massachusetts, Michigan, and New Jersey, pursuant to the last sentence of section 3304(c) of the Internal Revenue Code of 1954, 26 U.S.C. section 3304(c), sections 2403 and 2404 of Public Law 97–35, 95 Stat. 875, and section 414 of Pub. L. 96–364, 94 Stat. 1310, to be held at 2:00 o'clock in the afternoon on September 28, 1982, in Courtroom A, 8th Floor, Vanguard Building, 1111 20th Street, N.W., Washington, D.C.

The hearing will be on the following issues:

Issue 1: Whether, with respect to the certification of the States on October 31, 1982, under section 3304(c) of the Internal Revenue Code of 1954, 26 U.S.C. section 3304(c), the unemployment compensation laws of the States identified in the caption of this notice have been amended so as to contain the provisions required by section 203(d) of the Federal-State Extended Unemployment Compensation Act of 1970 (EUCA), 26 U.S.C. section 3304(c) note, with respect to the beginning and the ending of extended benefit periods in the respective States, as is required by section 3304(a)(11) of the Internal Revenue Code of 1954, 26 U.S.C. section 3304(a)(11), and section 2403 of Pub. L. 97–35, 95 Stat. 875, approved August 13, 1981.

Basis for issue: Section 3304(c) of the Code provides as a condition of certification of the States on October 31 of any taxable year that their unemployment compensation laws must contain "each of the provisions required by law to be included therein (including provisions relating to the Federal-State Extended Unemployment Compensation Act of 1970 (or any amendments thereto) as required under subsection (a)(11))
* * *"

Section 2403(a) of Public Law 97–35 (the Omnibus Budget Reconciliation Act of 1981) amended section 203(d) of the EUCA by raising the standard beginning and ending triggers for an extended benefit period from 4 to 5 (if the insured unemployment rate in the State equalled or exceeded 120 percent of the average of such rates for the corresponding 13-week periods in each of the preceding two calendar years), and by raising the optional triggers from 5 to 6 (exclusive of the 120 percent factor). Section 2403(b) of Pub. L. 97–35 requires States to include the provisions of section 203(d), as amended, in their unemployment compensation laws for any week which begins after September 25, 1982. The States identified in the caption of this notice have failed to amend their unemployment compensation laws so as to include the revised triggers for beginning and ending extended benefit periods.

Issue 2: Whether, with respect to the certification of the States on October 31, 1982, under section 3304(c) of the Internal Revenue Code of 1954, 26 U.S.C. section 3304(c), the unemployment compensation laws of the States identified in the caption of this notice have been amended so as to contain the provisions of section 202(a)(5) of the EUCA, 26 U.S.C. section 3304(c) note, with respect to the requirement of 20 weeks of work or the equivalent in the base period, as is required by section 3304(a)(11) of the Internal Revenue Code of 1954, 26 U.S.C. section 3304(a)(11), and section 2404 of Pub. L. 97–35, 95 Stat. 875, approved August 13, 1981.

Basis for issue: Section 3304(c) of the Code provides as a condition of certification of the States on October 31 on any taxable year that their unemployment compensation laws must contain "each of the provisions required by law to be included therein (including provisions relating to the Federal-State Extended Unemployment Compensation Act of 1970 (or any amendments thereto) as required under subsection (a)(11))
* * *"

Section 2404(a) of Pub. L. 97–35 amended section 202(a) of the EUCA by adding new paragraph (5) which requires as a condition of eligibility for extended benefits that an individual has worked 20 weeks or the equivalent in the base period. The State law is required to provide the method to be used of the alternatives allowed of measuring employment and wages for that purpose. Section 2404(b) of Pub. L. 97–35 requires States to include the provisions of section 202(a)(5) in their unemployment compensation laws for any week which begins after September 25, 1982. The States identified in the caption of this notice have failed to amend their unemployment compensation laws so as to include the work and earnings requirements for extended benefit eligibility.

Issue 3: Whether, with respect to the certification of the States on October 31, 1982, under section 3304(c) of the Internal Revenue Code of 1954, 26 U.S.C. section 3304(c), the unemployment compensation laws of the States identified in the caption of this notice have been amended so as to contain provisions permitted by section 3304(a)(15)(B) of the Code with respect to a limitation on the amount or proportion of a pension payment to be deducted from unemployment benefits otherwise payable, as is required by such section 3304(a)(15)(B).

Basis for issue: Section 3304(a)(15)(B) of the Code permits States to limit the pension deduction otherwise required by subparagraph (A) by reducing the amount to be offset against unemployment benefits otherwise payable for a week of unemployment to an amount that is no larger than the ratio of the unemployed individual's contributions, as an employee, to total contributions to the pension plan or system by both the individual and the employer. The unemployment compensation laws of the States identified in the caption of this notice provide a limitation on pension deduction that is larger, in certain circumstances, than the ratio of the individual's contributions to total contributions to the pension plan or system. Section 414 of Public Law 96-364 permits the States to adopt a limitation on pension deductions consistent with subparagraph (B) of section 3304(a)(15), effective on September 26, 1980.

The respective State unemployment compensation laws, therefore, appear not to be in conformity with the provisions of section 3304(a)(11) of the Code with respect to the first two issues and the provisions of section 3304(a)(15)(B) of the Code with respect to the third issue, and the last sentence of section 3304(c) of the Code is applicable to all of the issues.

Following the hearing, a decision will be made with respect to each State. Such a decision will have a bearing on whether or not the State is certifiable on October 31, 1982, with respect to normal and additional credits allowable to the State's employers pursuant to subsections (a) and (b) of section 3302 of the Code, 26 U.S.C. section 3302, for the taxable year 1982, and will also have a bearing on other benefits available to the State under the unemployment compensation program. (The hearing with respect to Issue 3 will not be held if the injunction imposed by the U.S. District Court for the District of Columbia in *Cabais* v. *Egger*, No. 80-2470 (August 27, 1981) is not lifted by September 23, 1982. The State agency will then be notified appropriately.)

The proceedings in this matter shall be conducted in accordance with the Rules of Procedure set out after this notice.

For the purposes of this hearing, all motions, briefs, and other documents shall be filed, pursuant to the Rules of Procedure referenced above, with the presiding Administrative Law Judge, U.S. Department of Labor, Suite 700, Vanguard Building, 1111 20th Street, N.W., Washington, D.C. 20036, who will be designated in accordance with such Rules of Procedure.

Signed at Washington, D.C., on September 15, 1982.

Raymond J. Donovan,

Secretary of Labor.

Rules of Procedure

1. An Administrative Law Judge will be designated by the Chief Administrative Law Judge, United States Department of Labor, to preside over the hearing and perform the functions required by these Rules.

2. The parties of record shall be the State agencies (as defined in 26 U.S.C. section 3306(e)) named in the Notices of Hearing and the U.S. Department of Labor.

3. Any non-party State agency, individual worker, employer, or organization, association of workers or employers, or the public, asserting an interest in the proceedings, may be permitted by the presiding Administrative Law Judge, upon motion granted, to participate in the hearing as amicus curiae only. Participation by any such amicus curiae shall be limited to the submittal of a brief as provided in Rule 14 below. A motion of an amicus curiae to participate in the oral argument will be granted only for extraordinary reasons. All motions contemplated by this Rule shall be filed with the presiding Administrative Law Judge no later than seven days prior to the scheduled hearing, and shall be served promptly upon each party. The presiding Administrative Law Judge shall rule on all such motions and inform the applicants and the parties of the rulings.

4. The presiding Administrative Law Judge may issue an appropriate prehearing order governing all issues to be raised in the proceedings, discovery, and designation of evidence to be offered at the hearing.

5. The Administrative Law Judge shall be authorized to entertain motions for full or partial Summary Judgment filed by any party.

6. (a) The hearing will be conducted in an informal but orderly and expeditious manner. The presiding Administrative Law Judge will regulate all matters pertaining to the course and conduct of the proceedings and, subject to the limitation expressed in Rule 6(b) below, may grant extensions of time regarding the submission of briefs and other papers, and may reschedule the hearing for another time or date for good cause shown.

(b) The annual October 31 certification date under the Federal Unemployment Tax Act imposes time constraints for the issuance of the Administrative Law Judge's recommended decisions, and requires the granting of extensions of time, inclusive of continuances, be limited to the extent necessary to ensure that the recommended decisions are forwarded to the Secretary of Labor no later than 15 days prior to the October 31 certification date.

7. Upon the commencement of the hearing, the U.S. Department of Labor will be offered an opportunity to make an opening statement as to the nature of the hearing and the matter(s) in issue. Each other party to the proceedings shall then be offered a similar opportunity to make an opening statement.

8. The order of the presentation of evidence will be as follows:

(a) The U.S. Department of Labor will proceed first by presenting any evidence it may wish to offer which is relevant to the issue(s) specified in the Notice of Hearing.

(b) Each other party will proceed next to offer any evidence it may wish to present which is relevant to the issue(s) referred to in Rule 8(a) above, followed by any evidence relevant to any additional issue, except that evidence regarding any issue other than the issue(s) referred to in the Notice of Hearing may be admitted only if the party offering such evidence has provided notice of such issue and a summary of such evidence, including a copy of any document to be offered, to each other party of record, a reasonable time prior to the hearing.

(c) The U.S. Department of Labor may next present relevant evidence in rebuttal to any of the issues(s), and the trial record shall thereafter be closed, except as provided for by Rule 10 below.

9. Technical rules of evidence shall not apply to the hearing. The presiding Administrative Law Judge will rule upon offers of proof and the admissibility of evidence, and may exclude irrelevant, immaterial, or unduly repetitious evidence or any other evidence

excludable under these Rules, and may examine witnesses. All writings, charts, tabulations, and similar data offered in evidence at the hearing shall, upon a satisfactory showing of their authenticity, relevancy, materiality, and admissibility under these Rules, be received in evidence.

10. During the hearing, the presiding Administrative Law Judge may require the production and introduction of further evidence upon any relevant matter and may provide for the later receipt of such evidence for the record.

11. The proceedings at the hearing shall be recorded verbatim. The original and one copy of the transcript of the record of the hearing shall be furnished to the presiding Administrative Law Judge. The parties of record and any amicus curiae shall be entitled to secure a copy of the transcript from the reporter upon such terms as the party or amicus may arrange.

12. When any document is offered in evidence, one additional copy thereof shall be furnished to the presiding Administrative Law Judge and, unless previously provided, a copy shall be furnished to each party of record.

13. (a) At the conclusion of the receipt of evidence, the presiding Administrative Law Judge shall hear oral arguments presented by the parties of record and any amicus curiae authorized to present oral argument.

(b) Oral arguments shall be in the following order: Opening argument for the U.S. Department of Labor, unless waived; opening argument for every other party, unless waived; argument of any amicus curiae authorized to present oral argument; closing argument for each of the State agency parties, unless waived; and closing argument for the U.S. Department of Labor, unless waived.

14. The parties of record shall file pre-hearing briefs describing the issues which are the subjects of the hearing no later than the Friday preceding the hearing date and shall file post-hearing briefs on the evidence adduced at the hearing and the law applicable thereto no later than 7 calendar days following the close of the hearing. Any amicus curiae authorized to participate in the proceedings may file a post-hearing brief within the same time limitation. All such briefs and other papers shall be filed with the presiding Administrative Law Judge, with proof of service, within such time periods as are established by the presiding Administrative Law Judge.

15. (a) As soon as possible, but in no event later than 15 days prior to the October 31 certification date, the presiding Administrative Law Judge shall, with respect to each State: (1) Prepare a recommended decision on the basis of the record containing his recommended findings of fact and conclusions of law; (2) promptly certify to the Secretary of Labor such recommended decision and the entire record of the proceeding; and (3) forward a copy of the recommended decision to each party of record and amicus curiae.

(b) In the event that evidence is admitted which is relevant to any issue cognizable under these Rules, findings of fact with respect to such evidence shall be made. No conclusions of law regarding either the constitutionality of any Federal statute or the constitutionality of interpretation thereof shall be made.

16. The parties of record may file with the Secretary a Statement of Exceptions, with proof of service, setting forth any exceptions they may have to the recommend decision, within seven (7) days after the date of the recommended decision.

17. (a) Any briefs or other papers intended to be filed of record with the presiding Administrative Law Judge in the proceedings shall be mailed or otherwise delivered to the Office of the presiding Administrative Law Judge. Unless otherwise ordered, such documents shall be deemed to be filed on the date they are post-marked if they are transmitted by the United States Postal Service, and shall be deemed to be filed on the date they are received in the Office of the Chief Administrative Law Judge if they are transmitted by any other means.

(b) If the last day of a time limit prescribed by these Rules or established by the presiding Administrative Law Judge falls on a Saturday, Sunday, or a federal holiday, the time limit shall be extended to the next official business day.

(c) An original and one copy of the briefs and other papers shall be filed with the presiding Administrative Law Judge and shall be accepted subject to timely filing with sufficient proof of prompt service upon the parties.

18. Following the certification in accordance with Rule 15 above, and consideration of any Statement of Exceptions filed and served in accordance with Rules 16 and 17, the Secretary of Labor shall render a decision in the matter with respect to each State, in writing, and shall forward the decision together with the records to the Chief Administrative Law Judge, and shall forward a copy of his decision with respect to each State, to each party of record and to any amicus curiae authorized to participate in the proceeding.

Part VIII

Department of Energy

Office of the Secretary

Unclassified Activities in Foreign Atomic Energy Programs

DEPARTMENT OF ENERGY

Office of the Secretary

10 CFR Part 810

Unclassified Activities in Foreign Atomic Energy Programs

AGENCY: Energy Department.

ACTION: Proposed rule.

SUMMARY: Pursuant to the Nuclear Non-Proliferation Act of 1978 (NNPA) and in accordance with the Executive Branch Procedures established and published June 9, 1978 (43 FR 25326), the Department of Energy (DOE) proposes to amend its regulations, 10 CFR Part 810 "Unclassified Activities in Foreign Atomic Energy Programs." The amended regulations reflect changes made by the NNPA to Section 57.b. of the Atomic Energy Act and incorporate the additional export criteria mandated by the NNPA to govern the export of sensitive nuclear technology for peaceful purposes. The proposed amended regulations update the list of countries/areas to which the general authorization does *not* apply. Added to the listed countries are all non-nuclear weapon states that are not parties to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) (except for those that accept fullscope safeguards or for which the Treaty of Tlatelolco is currently in force) and certain countries in regions of particular volatility and sensitivity. Withdrawal of the general authorization to these countries will assure that authorizations by the Secretary of Energy under 10 CFR Part 810 involving these countries are consistent with other U.S. export licensing requirements under the NNPA.

Although many sections of Part 810 are unchanged by the proposed amendments, it is being published in its entirety for the convenience of the public. The Department is soliciting public comments for 45 days with a view to promptly thereafter publishing final amendments to Part 810.

DATES: Comments are requested and must be received no later than November 1, 1982.

ADDRESSES: Written comments (six copies where possible) should be sent to: Mr. John A. Griffin, Director, Division of Politico-Military Security Affairs (DP-332), Room 4B-026, U.S. Department of Energy, Washington, DC 20585, Phone: (Area Code 202) 252-2127.

FOR FURTHER INFORMATION CONTACT:

Mrs. Johnnie Raymond, Division of Politico-Military Security Affairs, DP-332.1, Room 4B-026, U.S. Department of Energy; Phone (202) 252-2129; or

Mr. Robert Newton, Esquire, Office of General Counsel, GC-32, Room 6B-256, U.S. Department of Energy; Phone (202) 252-6975.

SUPPLEMENTARY INFORMATION:

I. Background

On March 10, 1978, the Nuclear Non-Proliferation Act of 1978 (NNPA), Pub. L. 95-242, was enacted. The NNPA specifically addressed nuclear export licensing and procedures and amended the procedures and criteria governing DOE action under Sec. 57.b. of the Atomic Energy Act (42 U.S.C. 2077). In particular, Sec. 305 of the NNPA amended Chapter 11 of the Atomic Energy Act of 1954, as amended, by adding at the end thereof a new Sec. 127, "Criteria Governing United States Nuclear Exports" (42 U.S.C. 2156). This section added criteria which, in addition to other requirements of law, govern exports for peaceful nuclear uses from the United States of source material, special nuclear material, production or utilization facilities, and any sensitive nuclear technology. Sec. 306 of the NNPA also amended Chapter 11 of the Atomic Energy Act by adding at the end thereof a new Sec. 128, "Additional Export Criterion and Procedures," (42 U.S.C. 2157), which establishes a further condition on exports of source material, special nuclear material, production or utilization facilities, and any sensitive nuclear technology.

All requests for specific authorization submitted pursuant to Sec. 57.b.(2) of the Atomic Energy Act of 1954, as amended, (42 U.S.C. 2077), will be handled in accordance with the procedures required by Sec. 302 of the NNPA and agreed to by the Departments of Energy, State, Commerce, and Defense, the Arms Control and Disarmament Agency and the Nuclear Regulatory Commission. These agreed upon procedures were published on June 9, 1978, by the Departments of State, Energy, and Commerce in the **Federal Register**, "Procedures Established Pursuant to the Nuclear Non-Proliferation Act of 1978", (43 FR 25326).

II. Regulatory Changes

The major proposed changes to Part 810 are summarized below in the order in which they appear:

1. Section 810.3. Definitions have been deleted for "Administration" and "Administrator of ERDA" and added for "Secretary," "Department of Energy," "IAEA," "NNPA," "NPT," "production facility," "retransfer," "sensitive nuclear technology," "source material," "special nuclear material," and "utilization facility."

2. Section 810.6. The requirement for authorization under Sec. 57.b. of the Atomic Energy Act of 1954, as amended, has been changed to reflect the language as amended by the NNPA. The NNPA amendment to Sec. 57.b. established the requirement for formal review by the Departments of State, Defense, and Commerce, the Arms Control and Disarmament Agency, and the Nuclear Regulatory Commission, of applications submitted pursuant to Sec. 57.b.(2).

3. Section 810.7(a)(ii). The list of countries/areas to which the general authorization will not apply has been expanded to include the following categories of countries: (1) Those countries currently listed in § 810.7(a)(1); (2) those countries which are non-nuclear weapon states that are not parties to the NPT (however, the general authorization will continue for those non-nuclear weapon countries which accept full scope safeguards or for which the Treaty of Tlatelolco is currently in force); (3) Afghanistan which has been added to the list of countries in accordance with current U.S. policy; (4) additionally, the general authorization will be withdrawn from certain countries in regions of particular volatility and sensitivity. Finally, the list of countries/areas is revised to update and modernize names of countries. The new requirement for specific authorization for activities in these countries will provide timely information on nuclear activities which do not presently require specific authorization or, in some instances, a report under these regulations.

4. Section 810.8. A new paragraph (c) is added to reflect the requirement established by Sections 305 and 306 of the NNPA (new Sections 127 and 128 of the Atomic Energy act) for additional criteria which must be met for authorization to export "sensitive nuclear technology."

5. Section 810.8. A new paragraph (e) is added to reflect the provision of Sec. 129 of the Act, added by Sec. 307 of the NNPA, (42 U.S.C. 2158), concerning termination of nuclear exports of sensitive nuclear technology to a country or countries which engage in any of the proscribed activities identified in Sec. 129 of the Act.

6. A phrase is added to § 810.11 to permit the Secretary to request additional information on activities approved pursuant to § 810.8.

The Department of Energy will be considering further amendments to 10 CFR Part 810 after these proposed rules have been made final. Among the areas being considered for review are the following: The development of an application form for requesting specific authorization; additional guidance concerning the term "information

available to the public in published form"; establishment of a thirty day prenotification requirement to DOE before commencement of certain generally authorized activities in some countries and/or all countries; specific retransfer guidelines; and clarification and examples of the term "sensitive nuclear technology."

III. Statutory Requirements

Pursuant to section 57.b.(2) of the Atomic Energy Act of 1954, as amended by the Nuclear Non-Proliferation Act of 1978 (NNPA), and with the concurrence of the Department of State and following consultations with the Arms Control and Disarmament Agency, the Nuclear Regulatory Commission, the Department of Commerce and the Department of Defense, the Secretary of Energy has authorized these proposed revisions to Part 810 of Title 10 CFR.

IV. Saving Clause

Except for any action taken by DOE pursuant to § 810.8(d), this proposed revision shall not affect the validity or terms of any specific authorization granted under the regulations currently in effect, or generally authorized activities in the identified countries/areas for which contracts, orders or licensing arrangements were in place prior to the publication of the proposed changes in this part. Persons with such arrangements involving activities conducted under the general authorization currently in effect for the designated countries are requested to bring such information to the attention of the Department of Energy.

V. Reporting Requirements

It should be stressed that the reporting requirements in the current regulations (§ 810.10), extend to most of the activities covered by the general authorization in § 810.7. Reports under § 810.10 are required within 30 days after commencement of the activity in question.

VI. Rulemaking Requirements

Sec. 501(a)(1) of the DOE Organization Act (Pub. L. 95-91) provides that the provisions of subchapter II of chapter 5 of title 5, United States Code (Administrative Procedure Act, "APA") shall apply in accordance with their terms to any rule or regulation issued pursuant to authority vested by law in, or transferred or delegated to, the Secretary of Energy. Section 553(a)(1) of the APA provides an exemption to the normal notice and comment procedures or rules involving a foreign affairs function of the United States.

Because the amendments deal with the export of sensitive nuclear technology and the need for authorization for activities which assist in the production of special nuclear material in certain countries, these amendments involve the foreign affairs functions of the United States. Therefore, the exemption of section 553(a)(1) applies and notice and comment are not required. Nevertheless, DOE is providing interested persons 45 days in which to submit comments on this proposed rule.

Because notice and comment is not required for this rule, this rule is not subject to the requirements of the Regulatory Flexibility Act, 5 U.S.C. 601 et seq. as provided in Sec. 601(2). This rule is also not subject to the requirements of Executive Order 12291 (46 FR 13193, February 19, 1981), because it relates to a foreign affairs function of the United States. See Sec. 1(a)(2).

VII. Public Comment Procedures

The period for submission of comments will close on November 1, 1982. All interested persons who desire to submit written comments or suggestions for consideration in connection with the revised Part 810 should submit them to the address indicated in the "Addressees" section of the preamble. Six copies should be submitted.

Any information or data submitted which you consider to be confidential must be so identified in writing. We reserve the right to determine the confidential status of such information and data and to treat it according to our determination.

All comments received, except those determined to be confidential, will be available for public inspection in the DOE Reading Room, Room GA-152, James Forrestal Building, 1000 Independence Avenue, SW, Washington, D.C. 20585, between the hours of 8:00 a.m. and 4:00 p.m., Monday through Friday, except Federal holidays.

List of Subjects in 10 CFR Part 810

Foreign relations, Nuclear energy, Reporting requirements.

(Secs. 57, 127, 128, 129, 161, and 223 of the Atomic Energy Act of 1954, as amended by the Nuclear Non-Proliferation Act of 1978 (Pub. L. 95-242), 68 Stat. 932, 948, 950, 958, 92 Stat. 120, 136, 137, 138 (42 U.S.C. 2077, 2156, 2157, 2158, 2201, 2273); sec. 104 of the Energy Reorganization Act of 1974 (Pub. L. 93-438); sec. 301 of the Department of Energy Organization Act (Pub. L. 95-91))

For the reasons set out in the preamble, Part 810 of Title 10 of the Code of Federal Regulations is proposed to be revised as set forth below.

Issued in Washington, D.C., September 13, 1982.

Troy E. Wade II,

Acting Assistant Secretary for Defense Programs.

PART 810—UNCLASSIFIED ACTIVITIES IN FOREIGN ATOMIC ENERGY PROGRAMS

Sec.

810.1 Purpose.
810.2 Scope.
810.3 Definition.
810.4 Communications.
810.5 Interpretations.
810.6 Authorization requirement.
810.7 Generally authorized activities.
810.8 Grant and revocation and specific authorization.
810.9 Contents of application.
810.10 Reports.
810.11 Additional information.
810.12 Violations.
810.13 Effective date.

Authority: Sections 57, 127, 128, 129, 161, and 223 of the Atomic Energy Act of 1954, as amended by the Nuclear Non-Proliferation Act of 1978 (Pub. L. 95-242), 68 Stat. 932, 948, 950, 958, 92 Stat. 120, 136, 137, 138 (42 U.S.C. 2077, 2156, 2157, 2158, 2201, 2273); sec. 104 of the Energy Reorganization Act of 1974 (Pub. L. 93-438); sec. 301 of the Department of Energy Organization Act (Pub. L. 95-91).

§ 810.1 Purpose.

The regulations in this part incorporate a general authorization made by the Secretary under section 57.b.(2) of the Atomic Energy Act of 1954, as amended (92 Stat. 126); establish reporting requirements applicable to persons who engage in certain unclassified activities in foreign atomic energy programs; and establish procedures governing applications for specific authorizations to engage directly or indirectly in the production of special nuclear material outside the United States.

§ 810.2 Scope.

The regulations in this part apply to all persons within or under the jurisdiction of the United States.

§ 810.3 Definitions.

As used in this part:

(a) "Act" means the Atomic Energy Act of 1954, (68 Stat. 919, 42 U.S.C. 2011), as amended.

(b) "Agreement for Cooperation" means an agreement for cooperation with another nation or group of nations concluded under section 123 of the Act.

(c) "Atomic weapon" means any device utilizing atomic energy, exclusive of the means for transporting or propelling the device where such means

is a separate and divisible part of the device, the principal purpose of which is for use as, or for development of, a weapon, or weapon prototype or a weapon test device.

(d) "Department" means the United States Department of Energy.

(e) "Secretary" means the Secretary of the United States Department of Energy.

(f) "Classified information" means National Security information classified pursuant to Executive Order 12356 or any superseding order; or Restricted Data classified under the Atomic Energy Act of 1954, as amended.

(g) "Commission" as used in this regulation refers to the Nuclear Regulatory Commission.

(h) "IAEA" means the International Atomic Energy Agency.

(i) "NNPA" means the Nuclear Non-Proliferation Act of 1978 (Pub. L. 95–242).

(j) "Nuclear material" means special nuclear material or source material.

(k) "NPT" means the Treaty on the Nonproliferation of Nuclear Weapons of July 1, 1968.

(l) "Nuclear reactor" means an apparatus, other than an atomic weapon, or nuclear explosive device, designed or used to sustain nuclear fission in a self-supporting chain reaction.

(m) "Person" means (1) any individual, corporation, partnership, firm, association, trust, estate, public or private institution, group, Government agency other than the Department; any State or any political subdivision of, or any political entity within a State; and (2) any legal successor, representative agent or agency of the foregoing.

(n) "Production facility" means any nuclear reactor or plant specially designed or used to produce special nuclear material through the irradiation of source material or special nuclear material, the separation of isotopes or the chemical reprocessing of irradiated source or special nuclear material.

(o) "Research and development" means (1) theoretical analysis, exploration, or experimentation; or (2) the extension of investigative facilities and theories of a scientific or technical nature into practical application for experimental and demonstration purposes, including the experimental production and testing of motors, devices, equipment, materials, and processes.

(p) "Restricted Data" means all data concerning (1) design, manufacturing or utilization of atomic weapons; (2) the production of special nuclear material; or (3) the use of special nuclear material in the production of energy, but shall not include any data declassified or removed from the Restricted Data category pursuant to Section 142 of the Act.

(q) "Retransfer" means the transport from one foreign country or group of nations to another such entity of information which has been exported from the United States or of nuclear material or equipment produced through the use of such information.

(r) "Sensitive nuclear technology" means any information (including information incorporated in a production or utilization facility or important component part thereof) which is not available to the public and which is important to the design, construction, fabrication, operation or maintenance of a uranium enrichment or nuclear fuel reprocessing facility, a facility for the production of heavy water, or facilities for the fabrication of nuclear fuel containing plutonium, but shall not include Restricted Data controlled pursuant to Chapter 12 of the Act. The information may take a tangible form, such as a model, prototype, blueprint, or operation manual; it may also take an intangible form such as technical services.

(s) "Source material" means:

(1) Uranium or thorium, other than special nuclear material; or

(2) Ores which contain by weight 0.05% or more of uranium or thorium, or any combination of these.

(t) "Special nuclear material" means plutonium, uranium-233 or uranium enriched above 0.711 percent by weight in the isotope U-235.

(u) "United States," when used in a geographical sense, includes all territories and possessions of the United States.

(v) "Utilization facility" means any nuclear reactor, other than one that is a production facility, and the following major components of a nuclear reactor.

(1) Pressure vessels designed to contain the core of a nuclear reactor;

(2) Primary coolant pumps;

(3) Fuel charging or discharging machines; and

(4) Control rods.

§ 810.4 Communications.

All communications concerning regulations in this part should be addressed to the Secretary, U.S. Department of Energy, Washington, D.C. 20585, Attention: Office of International Security Affairs, DP–332. Communications and reports may be delivered in person at the Department's main offices at 1000 Independence Avenue, S.W., Washington, D.C. Any clearly marked trade secret, commercial or financial, or other proprietary information shall be afforded the maximum degree of protection allowed by law.

§ 810.5 Interpretations.

Except as specifically authorized by the Secretary in writing, no interpretation of the meaning of the regulations in this part by any officer or employee of the Department other than a written interpretation by the General Counsel will be binding upon the Department.

§ 810.6 Authorization requirement.

Section 57.b. of the Act, as amended by the Nuclear Proliferation Act of 1978, provides that:

> It shall be unlawful for any person to directly or indirectly engage in the production of any special nuclear material outside the United States except (1) as specifically authorized under an agreement for cooperation made pursuant to Section 123, including a specific authorization in a subsequent arrangement under section 131 of this Act, or (2) upon authorization by the Secretary of Energy after a determination that such activity will not be inimical to the interest of the United States: *Provided,* That any such determination by the Secretary of Energy shall be made only with the Concurrence of the Department of State and after consultation with the Arms Control and Disarmament Agency, the Nuclear Regulatory Commission, the Department of Commerce, and the Department of Defense, * * * *Provided further,* That the export of component parts as defined in subsection 11.v.(2) or 11.cc.(2) shall be governed by section 109 and 126 of this Act * * *

§ 810.7 Generally authorized activities.

(a) In accordance with section 57.b.(2) of the Act, the Secretary has determined with the concurrence of the Department of State and after having consulted with the Departments of Commerce and Defense, the Nuclear Regulatory Commission and the Arms Control and Disarmament Agency, that any activity which constitutes directly or indirectly engaging in the production of any special nuclear material outside of the United States will not be inimical to the interest of the United States and is authorized, provided that it:

(1) Does not constitute directly or indirectly engaging in any such activity in any of the following countries or areas:

Afghanistan; Albania; Algeria; Andorra; Angola; Antigua and Barbuda; Argentina; Bahrain; Belize; Bhutan; Brazil; Bulgaria; Burma; Chile; Comoros; Cuba; Czechoslovakia; Democratic People's Republic of Korea; Djibouti; Dominica; Estonia; Equatorial Guinea; German Democratic Republic (and Berlin, eastern sector); Guyana; Hungary; India; Iran; Iraq; Israel; Kampuchea; Kiribati; Kuwait; Laos; Latvia; Libya; Lithuania; Malawi; Mauritania;

Mongolian People's Republic; Mozambique; Niger; Oman; Pakistan; People's Republic of China; Poland; Qatar; Romania; Saint Vincent and the Grenadines; Sao Tome and Principe; Saudia Arabia; Seychelles; Solomon Islands; South Africa; Soviet Union; Syria; Tanzania; Uganda; United Arab Emirates; Vanuatu; Vietnam; Yemen Arab Republic; Zambia; and Zimbabwe.

(2) Does not constitute directly or indirectly engaging in any of the following activities outside of the United States;

(i) Designing or assisting in the design of facilities for the chemical processing of irradiated special nuclear material, facilities for the production of heavy water, facilities for the separation of isotopes of any source or special nuclear material, facilities especially designed for the fabrication of nuclear fuel containing plutonium, or equipment or components especially designed, modified, or adapted for use in any of the foregoing; or

(ii) Constructing, fabricating, operating, or maintaining such facilities; or

(iii) Constructing or fabricating equipment or components especially designed, modified, or adapted for use in such facilities; or

(iv) Training foreign persons in the design, construction, fabrication, or operation or maintenance of such facilities or equipment or components especially designed, modified, or adapted for use in such facilities; or

(v) Furnishing information not available to the public in published [1] form for use in the design, construction, fabrication or operation or maintenance of such facilities or equipment or components especially designed, modified, or adapted for use in such facilities; and

(3) Does not involve the communication of Restricted Data or other classified information; and

(4) Is not in violation of other provisions of law.

(b) In accordance with section 57.b.(2) of the Act, the Secretary has determined with the concurrence of the Department of State and after having consulted with the Departments of Commerce and Defense, the Nuclear Regulatory Commission and the Arms Control and Disarmament Agency, that any activity not generally authorized pursuant to paragraph (a) of this section, which constitutes directly or indirectly engaging in the production of any special nuclear material outside of the United States, will not be inimical to the interest of the United States, and is authorized by the Secretary, provided that it:

(1) Does not involve the communication of Restricted Data or other classified information; and

(2) Is not in violation of other provisions of law; and either

(3) Is limited to participation in (i) meetings of or conferences sponsored by educational institutions, laboratories, scientific or technical organizations; (ii) international conferences held under the auspices of a nation or group of nations; (iii) exchange programs approved by the Department of State; or (iv) implements the Agreement Between the United States of America and the International Atomic Energy Agency for the Application of Safeguards in the United States of America; or

(4) Is limited to the furnishing of information which is available to the public in published form.[2]

§ 810.8 Grant and revocation of specific authorization.

(a) Any person who proposes to directly or indirectly engage in the production of special nuclear material outside of the United States may apply, unless such proposed activity is specifically authorized pursuant to an agreement for cooperation or is authorized by § 810.7, for a specific authorization to the Department of Energy, Washington, D.C. 20585, Attention: Office of International Security Affairs, DP–332.

(b) In accordance with section 57.b.(2). of the Act, the Secretary, with the concurrence of the Department of State and after having consulted with Departments of Commerce and Defense, the Nuclear Regulatory Commission and the Arms Control and Disarmament Agency, will approve an application for a specific authorization to directly or indirectly engage in the production of special nuclear material outside of the United States by conducting any of the activities enumerated in § 810.7(a) if, after taking into account the following factors, he determines that such activity will not be inimical to the interest of the United States:

(1) Whether the United States has an agreement for cooperation with the nation or group of nations in which the proposed activity will be conducted.

(2) Whether the country in which the proposed activity will be conducted is a party to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) or is a full party to the Treaty of Tlatelolco and, pursuant to either or both of these treaties, has entered into an agreement with the International Atomic Energy Agency (IAEA) for the application of safeguards to all its peaceful nuclear activities;

(3) Whether the country in which the proposed activity will be conducted, if not a party to the NPT or Treaty of Tlatelolco, accepts IAEA safeguards on all its peaceful nuclear activities;

(4) Whether the country in which the proposed activity will be conducted, if not a party to the NPT or Treaty of Tlatelolco, will accept IAEA safeguards with respect to the project;

(5) The relative significance of the proposed activity and availability of comparable assistance from other sources; and

(6) Any other factor which may bear upon the political, economic, or security interests of the United States including U.S. obligations under international agreements or treaties.

(c) In addition to consideration of the above factors, if the proposed activity involves the export of "sensitive nuclear technology" as defined in § 810.3(q), in addition to other requirements of law, international commitments and the criteria as set forth in Sec. 127 and Sec. 128 of the Act must be met.

Note.—For the convenience of the reader, the text of Sec. 127 and Sec. 128 appears in the appendix of this document.

(d) An authorization pursuant to § 810.8 may be revoked, suspended, or modified, in whole or in part:

(1) For any materially false statement in the application for an authorization, or in any additional information submitted pursuant to § 810.11; or

(2) If the Secretary finds that the conduct of any or all of the authorized activities would be inimical to the interest of the United States or would otherwise not meet the criteria specified by law for approval of such export.

(e) See Section 129 of the Act.

Note.—For the convenience of the reader, the text of Sec. 129 appears in the appendix of this document.

[1] For purposes of this section, "information which is available to the public in published form" shall include, but not be limited to any information contained in an application filed in accordance with the regulations of the U.S. Patent Office and eligible for foreign filing under 35 U.S.C. 183. In addition, except for sensitive nuclear technology, information which is available from the Department pursuant to 5 U.S.C. 552 (the Freedom of Information Act) shall, for purposes of this section, be deemed to be information available to the public in published form.

[2] For purposes of this section, "information which is available to the public in published form" shall include, but not be limited to any information contained in an application filed in accordance with the regulations of the U.S. Patent Office and eligible for foreign filing under 35 U.S.C. 183. In addition, except for sensitive nuclear technology, information which is available from the Department pursuant to 5 U.S.C. 552 (the Freedom of Information Act) shall, for purposes of this section, be deemed to be information available to the public in published form.

(f) Except for any action taken by DOE pursuant to § 810.8(d), the revisions made to this Part on (date of final rule) shall not affect (1) the validity or terms of any specific authorization granted under the regulations previously in effect, or (2) the authority of any person to conduct an activity generally authorized under the regulations previously in effect where a firm commitment was made by that person to conduct that activity prior to (the date of publication of proposed changes).

§ 810.9 Contents of application.

(a) Each application shall contain the following information:

(1) The full name and address and citizenship of the applicant. If the applicant is a corporation or other entity, it shall indicate the State where it was incorporated or organized, the location of the principal office, and shall furnish information known to the applicant concerning the control of ownership, if any, exercised over the applicant by any alien, foreign corporation or foreign government. Each application shall contain complete and accurate disclosure with respect to the real party or parties in interest.

(2) A complete description of the activity for which authorization is requested, including the geographical location, the name and address of the person or organization for which such activity is to be performed, and a detailed description of the specific project to which the activity relates.

(b) If the application contains classified information, it shall be prepared in such manner that all classified information is separated from the unclassified information.

(c) Information contained in applications, statements or reports otherwise filed by the applicant with the Department may be incorporated by reference, provided that each such reference is clear and specific.

§ 810.10 Reports.

(a) Except as provided in paragraph (c) of this section, any person who engaged in an activity specified in paragraph (b) of this section shall within 30 days from the commencement of such activity report to the U.S. Department of Energy, Washington, D.C. 20585, Attention: Office of International Security Affairs, DP-332.1. Each such report shall contain the following information:

(1) The name, address and citizenship of person submitting the report;

(2) The name, address and citizenship of person or persons for whom the activity is performed; and

(3) A description of the activity, including its location.

(b) Activities to be reported:

(1) Directly or indirectly assisting in the design, construction, fabrication or operation, outside the United States, of:

(i) A nuclear reactor; or

(ii) A facility for the fabrication of uranium fuel;

(iii) A facility for the production of zirconium (hafnium-free or low-hafnium), reactor-grade graphite, or reactor-grade beryllium; or

(2) Directly or indirectly assisting in the design or fabrication outside the United States, of any component part especially designed or fabricated for a nuclear reactor or other facilities specified in paragraph (b)(1) of this section; or

(3) The furnishing of designs, drawings, or other technical data for use outside the United States in the construction or operation of a facility specified in paragraph (b)(1) of this section or in the fabrication of a component part specified in paragraph (b)(2) of this section; or

(4) The transmittal outside the United States of conceptual design or performance characteristics of nuclear reactors or facilities;

(5) The production, outside of the United States, of zirconium (hafnium-free or low-hafnium), reactor-grade beryllium; or

(6) The chemical, physical or metallurgical processing or fabricating or alloying, outside the United States, of special nuclear material.

(c) The reporting requirements of this section shall not apply to:

(1) Any activity consisting only of (i) the communication of information generally available to the public in published form; or (ii) financial assistance; (iii) the furnishing of component parts which are not especially designed and which are not intended for use in a reactor, facility or component part specified in paragraph (b) (1) or (2) of § 810.10; or (iv) the comparative evaluation of types of reactors or facilities; or (v) the export of a nuclear reactor, nuclear equipment or material for which an export license has been granted by the Nuclear Regulatory Commission; or (vi) any combination of the foregoing.

(2) Any person to the extent that such person engages in an activity authorized by § 810.7 as the employee of a person required to submit a report pursuant to paragraph (a) of this section.

(3) Any activity specifically authorized by the Secretary.

§ 810.11 Additional information.

The Department may at any time require any person who engages in activities authorized pursuant to § 810.7 or specified in § 810.10 to submit additional information with respect to such activity. The public may request an opinion from the Department on whether particular export circumstances or exchanges of information require a specific authorization under § 810.7, are generally authorized, or are a reportable activity under § 810.10.

§ 810.12 Violations.

An injunction or other court order may be obtained prohibiting any violation of any provision of the act or any regulation or order issued thereunder. Any person who willfully violates any provision of the act or any regulation or order issued thereunder may be guilty of a crime and, upon conviction, may be punished by fine or imprisonment or both, as provided by law.

Appendix

For the convenience of the reader, the text of Sections 127 and 128 of the Atomic Energy Act referenced in § 810.8(c) and Section 129 of the Atomic Energy Act referenced in § 810.8(e) is set forth below. This Appendix will not appear in the Code of Federal Regulations.

BILLING CODE 6450-01-M

(4) No such materials, facilities, or sensitive nuclear technology proposed to be exported, and

Sec. 127. Criteria Governing United States Exports.

Sec. 127. Criteria Governing United States Exports.

The United States adopts the following criteria which, in addition to other requirements of law, will govern exports for peaceful nuclear uses from the United States of source material, special nuclear material, production or utilization facilities, and any sensitive nuclear technology:

(1) IAEA safeguards as required by Article III(2) of the Treaty will be applied with respect to any such material or facilities previously exported and subject to the applicable agreement for cooperation, and to any special nuclear material used in or produced through the use thereof;

(2) No such material, facilities, or sensitive nuclear technology proposed to be exported or previously exported and subject to the applicable agreement for cooperation, and no special nuclear material produced through the use of such materials, facilities, or sensitive nuclear technology, will be used for any nuclear explosive device or for research on or development of any nuclear explosive device.

(3) Adequate physical security measures will be maintained with respect to such material or facilities proposed to be exported and to any special nuclear material used in or produced through the use thereof. Following the effective date of any regulations1/ promulgated by the Commission pursuant to section 304(d) of the Nuclear Non-Proliferation Act of 1978, physical security measures shall be deemed adequate if such measures provide a level of protection equivalent to that required by the applicable regulations.

1/ 10 CFR 110.43

(4) No such materials, facilities, or sensitive nuclear technology proposed to be exported, and no special nuclear material produced through the use of such material, will be retransferred to the jurisdiction of any other nation or group of nations unless the prior approval of the United States is obtained for such retransfer. In addition to other requirements of law, the United States may approve such retransfer only if the nation or group of nations designated to receive such retransfer agrees that it shall be subject to the conditions required by this section.

(5) No such material proposed to be exported and no special nuclear material produced through the use of such material will be reprocessed, and no irradiated fuel elements containing such material removed from a reactor shall be altered in form or content, unless the prior approval of the United States is obtained for such reprocessing or alteration.

(6) No such sensitive nuclear technology shall be exported unless the foregoing conditions shall be applied to any nuclear material or equipment which is produced or constructed under the jurisdiction of the recipient nation or group of nations by or through the use of any such exported sensitive nuclear technology.

(2) Sec. 128. Additional Export Criterion and Procedures.

a. (1) As a condition of continued United States export of source material, special nuclear material, production or utilization facilities, and any sensitive nuclear technology to non-nuclear-weapon states, no such export shall be made unless IAEA safeguards are maintained with respect to all peaceful nuclear activities in, under the jurisdiction of, or carried out under the control of such state at the time of the export.

(2) The President shall seek to achieve adherence to the foregoing criterion by recipient non-nuclear-weapon states.

b. The criterion set forth in subsection a. shall be applied as an export criterion with respect to any application for the export of materials, facilities, or technology specified in subsection a. which is filed after eighteen months from the date of enactment2/ of this section, or for any such application under which the first export would occur at least twenty-four months after the date of enactment2/

2/ March 10, 1978

of this section, except as provided in the following paragraphs:

(1) If the Commission or the Department of Energy, as the case may be, is notified that the President has determined that failure to approve an export to which this subsection applies because such criterion has not yet been met would be seriously prejudicial to the achievement of United States non-proliferation objectives or otherwise jeopardize the common defense and security, the license or authorization may be issued subject to other applicable requirements of law: Provided, That no such export of any production or utilization facility or of any source or special nuclear material (intended for use as fuel in any production or utilization facility) which has been licensed or authorized pursuant to this subsection shall be made to any non-nuclear-weapon state which has failed to meet such criterion until the first such license or authorization with respect to such state is submitted to the Congress (together with a detailed assessment of the reasons underlying the President's determination, the judgment of the executive branch required under section 126 of this Act, and any Commission opinion and views) for a period of sixty days of continuous session (as defined in subsection 130 g. of this Act) and referred to the Committee on International Relations of the House of Representatives and the Committee on Foreign Relations of the Senate, but such export shall not occur if during such sixty-day period the Congress adopts a concurrent resolution stating in substance that the Congress does not favor the proposed export. Any such license or authorization shall be considered pursuant to the procedures set forth in section 130 of this Act for the consideration of Presidential submissions.

(2) If the Congress adopts a resolution of disapproval pursuant to paragraph (1), no further export of materials, facilities, or technology specified in subsection a. shall be permitted for the remainder of that Congress, unless such state meets the criterion determined that significant progress has been made in achieving adherence to such criterion by such or the President notifies the Congress that he has determined that significant progress has been made in achieving adherence to such criterion by such state or that United States foreign policy interests dictate reconsideration and the Congress, pursuant to the procedure of paragraph (1), does not adopt a concurrent resolution stating in substance that it disagrees with the President's determination.

(3) If the Congress does not adopt a resolution of disapproval with respect to a license or authorization submitted pursuant to paragraph (1), the criterion set forth in subsection a. shall not be applied as an export criterion with respect to exports of materials, facilities and technology specified in subsection a. to that state: Provided, That the first license or authorization with respect to that state which is issued pursuant to this paragraph after twelve months from the elapse of the sixty-day period specified in paragraph (1), and the first such license or authorization which is issued after each twelve-month period thereafter, shall be submitted to the Congress for review pursuant to the procedures specified in paragraph (1); Provided further, That if the Congress adopts a resolution of disapproval during any review period provided for by this paragraph, the provisions of paragraph (2) shall apply with respect to further exports to such states.

Sec. 129. Conduct Resulting in Termination of Nuclear Exports.

No nuclear materials and equipment or sensitive nuclear technology shall be exported to:

(1) any non-nuclear-weapon state that is found by the President to have, at any time after the effective date of this section;

(i) detonated a nuclear explosive device; or

(ii) terminated or abrogated IAEA safeguards; or

(iii) materially violated an IAEA safeguards agreement; or

(iv) engaged in activities involving source or special nuclear material and having direct significance for the manufacture or acquisition of nuclear explosive devices, and has failed to take steps which, in the President's judgment, represent sufficient progress toward terminating such activities; or

(2) any nation or group of nations that is found by the President to have, at any time after the effective date2/ of this section,

(i) materially violated an agreement for cooperation with the United States, or with respect to material or equipment not supplied under an agreement for cooperation materially violated the terms under which such material or equipment was supplied or the terms of any commitments obtained with respect thereto pursuant to section 402(a) of the Nuclear Non-Proliferation Act of 1978; or

(ii) assisted, encouraged, or induced any non-nuclear-

(ii) assisted, encouraged, or induced any non-nuclear-weapon state to engage in activities involving source or special nuclear material and having direct significance for the manufacture or acquisition of nuclear explosive devices, and has failed to take steps which, in the President's judgment, represent sufficient progress toward terminating such assistance, encouragement, or inducement; or

(iii) entered into an agreement after the date2/ of enactment of this section for the transfer of reprocessing equipment, materials, or technology to the sovereign control of a non-nuclear-weapon state except in connection with an international fuel cycle evaluation in which the United States is a participant or pursuant to a subsequent international agreement or understanding to which the United States subscribes;

unless the President determines that cessation of such exports would be seriously prejudicial to the achievement of United States non-proliferation objectives or otherwise jeopardize the common defense and security: Provided, That prior to the effective date of any such determination, the President's determination, together with a report containing the reasons for his determination, shall be submitted to the Congress and referred to the Committee on International Relations of the House of Representatives and the Committee on Foreign Relations of the Senate for a period of sixty days of continuous session (as defined in subsection 130 g. of this Act), but any such determination shall not become effective if during such sixty-day period the Congress adopts a concurrent resolution stating in substance that it does not favor the determination. Any such determination shall be considered pursuant to the procedures set forth in section 130 of this Act for the consideration of Presidential submissions.

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $300.00 per year, or $150.00 for six months, payable in advance. The charge for individual copies is $1.50 for each issue, or $1.50 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

Title 3—

The President

Proclamation 4972 of September 16, 1982

Veterans Day, 1982

By the President of the United States of America

A Proclamation

Veterans Day affords all Americans a special opportunity to honor the deeds of those who sacrificed so much to answer the call to arms during the life of this great country. On this day, our Nation is united in tribute to the valiant men and women who have unselfishly given of themselves to serve in our Armed Forces.

Words alone are insufficient to express our lasting gratitude and admiration to those whose patriotism and courage have ensured our peace and freedom despite threats of tyranny and aggression. Significant disruptions in their lives and other personal hardships have been the price that our Nation's veterans have paid so that the rest of us might enjoy the fruits of justice and liberty.

In order that we pay meaningful tribute to their efforts, Congress has provided (5 U.S.C. 6103(a)) that November 11 shall be set aside each year as a national holiday to honor America's veterans.

NOW, THEREFORE, I, RONALD REAGAN, President of the United States of America, do hereby call on all Americans to join in observing Thursday, November 11, 1982, as Veterans Day. I urge both public ceremonies, as well as private thoughts and prayers, in recognition of the great contribution of our veterans to an America that today is an example to all nations of freedom, liberty, and democracy. On this day, let us give special consideration to those who have died in our Nation's wars and to those who have been disabled.

I call upon Federal, State and local Government officials to mark Veterans Day by displaying the flag of the United States, and I ask those Government officials to support fully and personally its observance by appropriate ceremonies throughout the country.

IN WITNESS WHEREOF, I have hereunto set my hand this 16th day of Sept., in the year of our Lord nineteen hundred and eighty-two, and of the Independence of the United States of America the two hundred and seventh.

Ronald Reagan

Rules and Regulations

Federal Register
Vol. 47, No. 182
Monday, September 20, 1982

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 985

Handling of Spearmint Oil Produced in the Far West; Amendment of Subpart—Administrative Rules and Regulations; Provisions Pertaining to Issuance of Additional Allotment Bases

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Emergency final rule.

SUMMARY: This action would establish criteria and procedures to enable the Spearmint Oil Administrative Committee to administer the provisions contained in the marketing order with respect to the issuance of additional allotment bases. The marketing order provides that beginning with the 1982–83 marketing year, additional allotment bases shall be made available annually for each class of oil in the amount of no more than 1 percent of the total allotment bases for that class of oil. This action is based upon a recommendation of the Committee. The Committee is established under the order, and works with the USDA in administering the order.

EFFECTIVE DATE: Effective September 20, 1982.

FOR FURTHER INFORMATION CONTACT: J. S. Miller, Chief, Specialty Crops Branch, Fruit and Vegetable Division, AMS, USDA, Washington, D.C. 20250, (202) 447–5697.

SUPPLEMENTARY INFORMATION: This final rule has been reviewed under USDA guidelines implementing Executive Order 12291 and Secretary's Memorandum 1512–1 and has been determined to be a "non-major" rule under criteria contained therein.

William T. Manley, Deputy Administrator, Agricultural Marketing Service, has determined that this action will not have a significant economic impact on a substantial number of small entities because it would result in only minimal costs being incurred by the regulated nine handlers.

It is found that it is impractical, unnecessary, and contrary to the public interest to give preliminary notice because an emergency situation exists which warrants publication without opportunity for a public comment period on this emergency final action. Producers and handlers are making preparations for the production and handling of 1982 crop spearmint oil. Hence, it is critical that they know as soon as possible how much additional allotment base and resulting annual allotment they will have available for the 1982–83 marketing year, which began June 1, 1982. This is necessary so they can plan their operations accordingly. Furthermore, this rule is not controversial because it confers a benefit on producers and imposes no restrictions on handlers.

This action amends Subpart—Administrative Rules and Regulations (7 CFR 985.152–985.156; 46 FR 43129) by adding a new § 985.153, prescribing criteria and procedures for the issuance of additional allotment base to producers. The subpart is pursuant to Marketing Order No. 985, regulating the handling of spearmint oil produced in the Far West (hereinafter referred to as the "order"). The order is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

Section 985.53(d) of the order provides that beginning with the 1982–83 marketing year the Committee annually shall make additional allotment bases available for each class of oil in the amount of no more than 1 percent of the total allotment base for that class of oil Fifty percent shall be made available for new producers and 50 percent made available for existing producers. Paragraph (d) also authorizes establishment of rules and regulations for use in determining the distribution of additional allotment bases. In establishing such rules the Committee is required to take into account, among other things, the minimum economic enterprise requirements for oil production, the applicant's ability to produce oil, the area where the oil will be produced, and other economic and marketing factors.

Producers are defined as either a "new producer" or an "existing producer". A "new producer" is any person who never was issued an allotment base by the Committee for a class of oil in any capacity either as an individual, partnership, corporation or any other business entity. An "existing producer" is any person who was issued an allotment base by the Committee for a class of oil in any capacity either as an individual, partnership, corporation or any other business entity.

Consistent with § 985.53(d)(3) of the order, the procedures require the Committee to determine the size and number of economic enterprises of additional allotment bases for each class of oil to be made available to new producers in each marketing year. The Committee would include this information in its announcements to new producers informing them when to request additional allotment base. Also, consistent with § 985.53(d)(3), the Committee would determine whether new producers requesting additional allotment base have the ability to produce spearmint oil. Additional allotment base would be issued on a random basis to eligible new producers.

The Committee would issue additional allotment base to existing producers by a different method. For the 1982–83, 1983–84 and 1984–85 marketing years, additional allotment base would be issued only to existing producers initially issued an allotment base of less than 1,200 pounds of "Class 1" Oil or 1,800 pounds of "Class 3" Oil. This recognizes that some of the allotment bases initially issued were less than economic enterprises, and the Committee's first objective is to bring those up to these levels. Existing producers requesting additional allotment base must demonstrate their ability to produce additional oil.

Additional allotment bases to be issued to existing producers after the 1984–85 marketing year shall be distributed equally to those producers who request additional base and can demonstrate ability to produce the additional oil.

List of Subjects in 7 CFR Part 985

Marketing agreements and orders; and Spearmint oil.

PART 985—MARKETING ORDER REGULATING THE HANDLING OF SPEARMINT OIL PRODUCED IN THE FAR WEST

Therefore, Subpart—Administrative Rules and Regulations (7 CFR 985.152–985.156; 46 FR 43129) is amended by adding § 985.153 to read as follows:

§ 985.153 Issuance of additional allotment base to new and existing producers.

(a) *Definitions.* (1) "New producer" means any person who never was issued an allotment base by the Committee for a class of oil in any capacity either as an individual, or as a member of a partnership, corporation, or any other business unit.

(2) "Existing producer" means any person who was issued an allotment based by the Committee for a class of oil in any capacity either as an individual, or as a member of a partnership, corporation, or any other business unit. Any person who was initially issued an allotment base for a class of oil and changed identity of operation, as set forth in § 985.53(a), since April 14, 1980, and requests additional allotment base for that class of oil pursuant to this section, shall be deemed to be an existing producer.

(b) Any new or existing producer desiring additional allotment base for any class of oil made available by the Committee pursuant to § 985.53(d)(1) shall request such base by December 1 prior to the marketing year for which such base will be made available: *Provided,* That additional allotment base for the 1982–83 marketing year shall be requested by September 15, 1982.

(c) *Issuance.*—(1) *New producer*—The Committee shall determine the size and number of economic enterprises of additional allotment base for each class of oil to be made available to new producers in each marketing year. The Committee shall include that information in its announcements to new producers informing them when to submit requests for additional allotment bases. The Committee shall determine whether the new producers requesting additional base have ability to produce spearmint oil. The names of all eligible new producers shall be placed in a lot for drawing, and the Committee shall immediately notify each new producer whose name was drawn and issue that producer an allotment base in the appropriate economic enterprise.

(2) *Existing producers*—(i) The Committee shall review all requests from existing producers for additional allotment base. With respect to additional allotment base for a class of oil to be issued by the Committee for the 1982–83, 1983–84, and 1984–85 marketing years, only an existing producer initially issued an allotment base of less than 1,200 pounds of "Class 1" Oil, or less than 1,800 pounds of "Class 3" Oil, and who has the ability to produce additional quantities of spearmint oil for the respective class of oil, shall be eligible to receive additional allotment base for that class. Each eligible producer's name, along with the difference between 1,200 pounds and that producer's initial allotment base for "Class 1" Oil, or 1,800 pounds and the producer's initial allotment base for "Class 3" Oil, shall be placed in a lot for drawing. The Committee shall draw the names and requested amounts of a sufficient number of eligible producers until the total of the requested amounts equals or exceeds the total of additional allotment base for each class of oil available for that marketing year. The last producer shall receive the amount requested by him. The Committee shall immediately notify each existing producer whose name was drawn by issuing that producer an allotment base for the appropriate amount.

(ii) For each marketing year after the 1984–85 marketing year, each existing producer of a class of spearmint oil who requests additional allotment base and has the ability to produce additional quantities of that class of spearmint oil shall be eligible to receive a share of the additional allotment base for that class of oil. Additional allotment base to be issued by the Committee for a class of oil shall be distributed equally among the eligible producers for that class. The Committee shall immediately notify each producer who is to receive additional allotment base by issuing that producer an allotment base in the appropriate amount.

(d) The person receiving any additional allotment base pursuant to this section shall submit to the Committee, evidence of an ability to produce and sell oil from such allotment base in the first marketing year following issuance of such base. Allotment base issued under this section shall not be transferred for at least two years following issuance.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: September 14, 1982.

D. S. Kuryloski,

Deputy Director, Fruit and Vegetable Division.

BILLING CODE 3410-02-M

Farmers Home Administration

7 CFR Parts 1823 and 1901

Loans to Timber Development Organizations

AGENCY: Farmers Home Administration, USDA.

ACTION: Final rule.

SUMMARY: The Farmers Home Administration (FmHA) is removing from the Code of Federal Regulations (CFR) its regulation regarding loans to timber development organizations. This regulation is being removed because it is not needed and no need for it is anticipated in the future. The intended effect of this action is to remove an unneeded regulation from the CFR.

EFFECTIVE DATE: September 20, 1982.

FOR FURTHER INFORMATION CONTACT: Benjamin Beckham, Farm Real Estate and Production Division, USDA, FmHA, Room 5320, South Agriculture Building, Washington, DC 20250, Telephone: (202) 475–4002.

SUPPLEMENTARY INFORMATION: This action has been reviewed under USDA procedures established in Secretary's Memorandum 1512–1 which implements Executive Order 12291 and has been determined to be exempt from those requirements since it is an internal agency management action to remove an unneeded regulation from the CFR. The Timber Development Loan program has been in effect since December 21, 1966. However, to this date, no loans have been made under this program and FmHA foresees no loans being made at any time in the future. The only indicated interest in Timber Development loans has been from individual applicants whose needs can be met under other existing FmHA loan programs.

It is the policy of this Department to publish for comment rules relating to public property, loans, grants, benefits, or contracts notwithstanding the exemption in 5 U.S.C. 553 with respect to such rules. This action, however, is not published for proposed rulemaking since the purpose of the action is administrative in nature and publication for comment is unnecessary.

The FmHA program and projects which are affected by this regulation are subject to State and local clearinghouse review in the manner delineated in FmHA Instruction 1901–H.

This document has been reviewed in accordance with 7 CFR Part 1901, Subpart G, "Environmental Impact Statements." It is the determination of FmHA that this action does not

constitute a major Federal action significantly affecting the quality of the human environment and in accordance with the National Environmental Policy Act of 1969, Pub. L. 91–190, an Environmental Impact Statement is not required.

The Timber Development Loan program is not listed in the current Catalog of Federal Domestic Assistance (CFDA).

List of Subjects

7 CFR Part 1823

Forest and forest products, Loan programs—agriculture, Rural areas.

7 CFR Part 1901

Rural areas, Loan programs, Grant programs.

Accordingly, Chapter XVIII of Title 7, Code of Federal Regulations, is amended as follows:

PART 1823—ASSOCIATION LOANS AND GRANTS—COMMUNITY FACILITIES, DEVELOPMENT, CONSERVATION, UTILIZATION

Subpart F—Loans to Timber Development Organizations

§§ 1823.161–1823.178 [Removed and Reserved]

1. Sections 1823.161 through 1823.178 are removed and reserved.

PART 1901—PROGRAM-RELATED INSTRUCTIONS

Subpart D—Davis-Bacon Act

§ 1901.152 [Amended]

2. Section 1901.152 is amended by removing paragraph (a)(2) and renumbering paragraphs (a)(3) through (a)(6) to paragraphs (a)(2) through (a)(5) respectively.

(5 U.S.C. 301; 7 U.S.C. 1989; 7 CFR 2.23, 7 CFR 2.70)

Dated: September 2, 1982.

Michael E. Brunner,

Acting Administrator, Farmers Home Administration.

[FR Doc. 82-25636 Filed 9-17-82; 8:45 am]

BILLING CODE 3410-07-M

---

7 CFR Parts 1910 and 1944

Rural Rental Housing Loan Policies, Procedures, and Authorizations

AGENCY: Farmers Home Administration, USDA.

ACTION: Final rule.

SUMMARY: The Farmers Home Administration (FmHA) revises its regulations relating to loan making for multiple family housing (MFH) loans made by the Agency. This revision modifies the present system of assigning borrower case numbers. This action is taken because the present system of assigning case numbers contributes to misapplication of loan payments and an inaccurate data base for measuring MFH caseload. The revised system will permit the coding of a future initial MFH loan as project number 01. A subsequent loan for the same project will be coded in numerical sequence. The new system will result in easier identification, and hence less error, of initial MFH loans for the correct accounting of loan and subsidy payments or credits. It will also provide a more accurate data base for measuring MFH caseload.

EFFECTIVE DATE: September 20, 1982.

FOR FURTHER INFORMATION CONTACT: Jeanine Johnson, Multi-Family Housing Servicing and Property Management Division, Room 5321–S, Farmers Home Administration, 14th and Independence Avenue, SW., Washington, D.C. 20250, Telephone (202) 382–1611.

SUPPLEMENTARY INFORMATION: This final action has been reviewed under USDA procedures established in Secretary's Memorandum 1512–1 which implements Executive Order 12291 and has been determined to be exempt from those requirements. This is an internal regulation which relates only to agency management. Borrower case numbers are assigned by the Agency and used to track obligation and disbursement of funds, borrower payments and other account transactions. It is the policy of this Department that rules relating to public property, loans, grants, benefits, or contracts shall be published for comment notwithstanding the exemption in 5 U.S.C. 553 with respect to such rules. This action, however, is not published for proposed rulemaking since the purpose of this change involves only internal agency management and publication for comment is unnecessary.

This regulation does not directly affect any FmHA program or projects which are subject to A–95 clearinghouse review.

CFDA Numbers and Titles: 10.405 Farm Labor Housing Loans and Grants; 10.411 Rural Housing Site Loans; 10.415 Rural Rental Housing Loans.

This action requires no increases in costs to the Government or the public. There is no impact on proposed budget levels and funding allocation will not be affected because of this action. We have determined that this regulation maximizes net benefit to society at the lowest net cost.

The document has been reviewed in accordance with 7 CFR Part 1901, Subpart G, "Environmental Impact Statements." It is the determination of FmHA that this action does not constitute a Federal action significantly affecting the quality of the human environment and in accordance with the National Environmental Policy Act of 1969, Pub. L. 91–190, an Environmental Impact Statement is not required.

This action is taken to provide for a new MFH Case Number system whereby the State Director will assign a unique borrower case number for each individual MFH project. This new system will reduce the number of misapplied loan payments on MFH accounts and facilitate providing more timely and accurate account status reports to borrowers.

The agency presently uses the borrower's social security number or tax number, combined with a state and county code, to form a case number unique to the individual borrower. When a borrower has more than one project in the same county, the only distinction for each project is a separate loan number. This similarity in case numbers contributes to misapplication of loan payments. When a loan payment is misapplied considerable staff time is required to identify the error and correct the accounts. Misapplied payments result in inconvenience of borrowers and diminish the agency credibility with borrowers.

This new system will provide the agency with a better data base for measuring MFH project caseload. These caseload figures are used by the agency for administrative determinations and also to provide program data to the Congress and the public.

List of Subjects

7 CFR Part 1910

Applications, Credit, Loan programs—agriculture, Loan programs—housing and community development, Low and moderate income housing, Marital status discrimination, Sex discrimination.

7 CFR Part 1944

Administrative practice and procedure, Aged, Handicapped, Loan programs—housing and community development, Low and moderate income housing—rental, Mortgages, Nonprofit organizations, Rent subsidies, Rural housing.

Accordingly, FmHA amends Part 1910, Subpart A, and Part 1944, Subpart E, Chapter XVIII of Title 7 of the Code of Federal Regulations as follows:

PART 1910—GENERAL

Subpart A—Receiving and Processing Applications

1. Section 1910.3 is amended by revising paragraph (i), relettering paragraph (j) to (k) and adding a new paragraph (j) to read as follows:

§ 1910.3 Receiving applications.

* * * * *

(i) For all loans and grants except RRH, RCH, RHS and LH loans and grants covered in paragraph (j) of this section, FmHA will normally use the Social Security number or Internal Revenue Service (IRS) tax number, whichever is appropriate, as a borrower identification number. The applicant's Social Security or IRS tax number, preceded by the State and county code number, will constitute the entire case number to be used on all FmHA forms. If the applicant is an individual, the Social Security number should be used. If the applicant is a legal entity, its IRS tax number will be used. If the applicant does not have, or does not authorize use of a Social Security number for identification purposes, the Finance Office will assign a number. No applicant will be denied any right, benefit, or privilege provided by law because of refusal to disclose a Social Security number. Any applicant requested to disclose a Social Security number in the completion of a loan application will be orally counseled or advised in writing that:

(1) Disclosure of the Social Security number is voluntary and that refusal to disclose the Social Security number will not result in any adverse action; and

(2) The Social Security number is used in the identification of loan records and in the administration of payment transactions.

(j) For all RRH, RCH, RHS and LH loans and grants, the State Director will assign a unique case number to each project using the Multiple Family Housing Case Number Format on the Forms Manual Insert for Form FmHA 1940–1, "Request for Obligation of Funds".

* * * * *

PART 1944—HOUSING

Subpart E—Rural Rental Housing Loan Policies, Procedures, and Authorizations

§ 1944.232 [Amended]

2. Section 1944.232(d)(2) is amended to change Form "FmHA 440–1" to "FmHA 1940–1" in the list of loan docket items.

3. Section 1944.233 is amended by renumbering paragraphs (b)(2)(i) (A) through (F) to (b)(2)(i) (B) through (G), respectively, and adding a new paragraph (b)(2)(i)(A) to read as follows:

§ 1944.233 Loan approval.

* * * * *

(b) *Loan approval action.* * * *

(2) *Approval or disapproval of a loan*

(i) *Approval.* * * *

(A) The State Director will assign the appropriate case number to the loan using the Multiple Family Housing Case Number Format on the Forms Manual Insert for Form FmHA 1940–1, "Request for Obligation of Funds."

* * * * *

§ 1944.233 [Amended]

4. Section 1944.233 is amended by changing the reference "Form FmHA 440–1" to "Form FmHA 1940–1" in paragraphs (b)(2)(i)(B), line two; (b)(2)(i)(C), line nine; (b)(2)(i)(D), line three; (b)(2)(ii), line five; (b)(3)(ii), line two; and (b)(3)(iii), line two.

§ 1944.236 [Amended]

5. Section 1944.236, paragraph (c)(2), line three, is amended by changing the reference "Form FmHA 440–1" to "Form FmHA 1940–1."

§ 1944.238 [Amended]

6. Section 1944.236, line seventeen, is amended by changing the reference "Form FmHA 440–1" to "Form FmHA 1940–1."

(42 U.S.C. 1480; 7 CFR 2.23; 7 CFR 2.70)

BILLING CODE 3410–07–M

---

7 CFR Part 1951

Borrower Supervision, Servicing and Collection of Single Family Housing Loan Accounts

AGENCY: Farmers Home Administration, USDA.

ACTION: Final rule.

SUMMARY: The Farmers Home Administration (FmHA) amends its regulations regarding servicing and collection of 502 and 504 Single Family Housing Loan Accounts. The intended effect of this action is to authorize the use of contractors to perform specific servicing actions and collect payments on single family housing loan accounts on a pilot basis in Indiana and Puerto Rico. This action is being taken to develop a more effective means of managing delinquent accounts.

EFFECTIVE DATE: September 20, 1982.

FOR FURTHER INFORMATION CONTACT: Don Mahaffey, Servicing Branch, Single Family Housing, Farmers Home Administration, USDA, Room 5309, South Agriculture Building, 14th and Independence Avenue, SW., Washington, D.C. 20250, Telephone: 202–382–1452.

SUPPLEMENTARY INFORMATION: This final action has been reviewed under USDA procedures established in Secretary's Memorandum 1512–1 to implement Executive Order 12291, and has been determined to be exempt from those requirements because it involves Agency management concerning contracts entered into for the servicing and collection of single family housing loan accounts on a pilot basis.

It is the policy of this Department that rules relating to public property, loans, grants, benefits, or contracts shall be published for comments notwithstanding the exemption in 5 U.S.C. 533 with respect to such rules. This action, however, is not published for proposed rulemaking since the purpose of this change involves only Agency management, and publication for comment is unnecessary.

Catalog of Federal Domestic Assistance numbers are: 10.410 Low to Moderate Income Housing Loans (Rural Housing Loans—Section 502—Insured), 10.417 Very Low-Income Housing Repair Loans and Grants.

This regulation does not directly affect any FmHA programs or projects which are subject to A–95 Clearinghouse review. This document has been reviewed in accordance with FmHA Instruction 1901–G, "Environmental Impact Statements." It is the determination of FmHA that this action does not constitute a major Federal action significantly affecting the quality of the human environment and, in accordance with the National Environmental Policy Act of 1969, Pub. L. 91–190, an Environmental Impact Statement is not required.

List of Subjects in 7 CFR Part 1951

Account servicing, Low and moderate income housing loans—servicing.

PART 1951—SERVICING AND COLLECTIONS

Accordingly, Subpart G of Part 1951, Chapter XVIII, Title 7, Code of Federal Regulations is amended by revising § 1951.302 to read as follows:

§ 1951.302 Authorities and responsibilities.

County Supervisors are responsible for borrower supervision and servicing and collecting all Single Family Housing loans as prescribed by this Subpart under the general guidance and supervision of District Directors and State Office personnel. Where a servicing and collection contract has been entered into between the FmHA National Office and a contractor, the contractor is responsible for those servicing and collection actions contracted for and RH loans covered by the contract.

(42 U.S.C. 1480; 7 CFR 2.23, 7 CFR 2.70)

Dated: September 1, 1982.

Michael E. Brunner,

Acting Administrator, Farmers Home Administration.

BILLING CODE 3410-07-M

Food Safety and Inspection Service

9 CFR Parts 309 and 381

[Docket No. 81-041F]

Expanded Use of Microbiological Screening Procedures

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: This final rule amends the Federal meat and poultry products inspection regulations to provide inplant screening of livestock and poultry suspected of being contaminated by antimicrobial residues. In the past, suspect livestock and poultry carcasses and parts of carcasses were retained until tissue sample test results could be obtained from USDA laboratories. Implementation of this rule will permit the use of a swab test on premises to detect the presence of antimicrobial residues in suspect animals. By using this test, inspection personnel will be able to determine if the suspect product can be passed and released, or if the product must be retained for additional testing.

EFFECTIVE DATE: October 20, 1982.

FOR FURTHER INFORMATION CONTACT: Dr. John E. Spaulding, Director, Residue Evaluation and Surveillance Division, Science Program, Food Safety and Inspection Service, U.S. Department of Agriculture, Washington, DC 20250, (202) 447-2807.

SUPPLEMENTARY INFORMATION:

Executive Order 12291

The Agency has determined, in accordance with Executive Order 12291, that this proposal is not a "major rule". It will not result in an annual effect on the economy of $100 million or more. It will not result in a major increase in costs of prices for consumers, individual industries, Federal, State or local government agencies, or geographic regions. It will not have a significant adverse effect on competition, employment, investment, productivity, or the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The only alternative to this final rule would be the continuation of current procedures which require retention of all suspect carcasses and parts while appropriate testing for antimicrobial residues is being conducted by USDA laboratories. While continuation of these procedures would eliminate the expenses of establishing inplant testing, it is anticipated that the long term savings of a Swab Test on Premises (STOP) operation outweigh the expenses of establishing it. Expansion of STOP would result in more expeditious determinations regarding suspect carcasses and parts. FSIS scientists have been able to reduce the cost of establishing this program by developing a microbiological test plate which remains stable at room temperatures for at least 6-9 months. Previously the test plates were not stable this long.

Effect on Small Entities

The Administrator has determined that this final rule will not have a significant economic impact on a substantial number of small entities as defined by the Regulatory Flexibility Act, Pub. L. 96-354 (5 U.S.C. 601), because it places no new requirements on industry. It only would affect USDA inplant operating procedures.

Background

Pursuant to section 4 of the Federal Meat Inspection Act (FMIA) (21 U.S.C. 604) and section 6(b) of the Poultry Products Inspection Act (PPIA) (21 U.S.C. 455(b)), the Department of Agriculture conducts post-mortem inspection of carcasses and parts of carcasses of cattle, sheep, swine, goats, horses, and other equines; and chickens, turkeys, ducks, geese and guineas, respectively. The purpose of the inspection is to detect adulterated carcasses and parts, and prevent their use as human food.

On March 12, 1982, the Agency proposed to amend the Federal meat and poultry products inspection regulations to establish inplant testing procedures that would determine whether carcasses or parts of carcasses had been contaminated with antimicrobial residues (47 FR 10856). The proposed inplant testing would be used to determine whether the suspect product was safe, wholesome, and unadulterated and could therefore be released, or whether the product should be retained until additional testing could be conducted by USDA laboratories.

Comments

The Agency received 10 comments in response to the proposal: 4 from meat and poultry processors, 4 from meat and poultry trade associations, 1 from a State university, and 1 from a private citizen. Six of the comments favored the proposal and 4 opposed its promulgation. The substantive comments can be grouped according to 3 general issues. The issue most often addressed by the comments was that processing delays might result from the testing. Alternative testing and animal identification were the other 2 issues. These 3 issues are addressed below.

1. *Processing delays resulting from the testing.* Five of the comments addressed processing delays that could be attributed to the testing procedure. The most frequently expressed concern was that processing delays could be caused by unreliable testing results and/or over-administration of the test. One commentor was concerned that inaccurate results could necessitate further testing and thus inappropriate retention of product. Another of the comments suggested that inspection personnel would conduct unnecessary testing which would result in processing delays.

The Agency has considered each of these comments. The instroduction of these procedures in testing cull dairy cattle (9 CFR 309.16(a)) has not resulted in processing delays; nor have any questions arisen concerning over-administration of the test or the accuracy of the test results. In fact, 2 of the comments from meat processors discuss the time and money savings they have experienced since the initiation of the STOP program.

Further, the Agency believes that processing delays should be greatly reduced by inplant screening. The past testing procedures required that samples be sent to USDA laboratories for analysis. Decisions concerning product adulteration resulting from residue contamination had to be deferred from 1 to 2 weeks, depending upon the time required to transmit the tissue samples,

conduct the tests and receive the testing results. Now these decisions can be made within 18 hours after the sample is taken. This procedure eliminates the need to retain suspect product longer than overnight unless the test results indicate the presence of unacceptable residue levels. Such results would be subject to confirmation by further testing in a USDA laboratory.

Testing accuracy is indicated by the fact that the inplant STOP testing procedures are the same as initial testing procedures in use at USDA laboratories for the past 5 to 6 years.

2. *Alternative testing.* Two of the comments mentioned alternative testing. One comment from a meat processing company suggested that the testing be used as a preslaughter tool for determining residue levels.

The agency has recently announced the institution, in cooperation with Producer Associations, of the Total Residue Avoidance Program (TRAP). TRAP focuses on preventing residue problems at the producer level. This program should help to avert large-scale residue problems. The program will offer, in part, preslaughter residue testing. Because the program is under development the Agency does not anticipate any regulatory action at this time. Additional information on TRAP is available by contacting Dr. John Spaulding, (202) 447-2807.

A second comment regarding alternative testing was offered by a State university. The comment included a research publication detailing the development of a procedure that used an adhesive tape method to determine residue levels.

The Agency has reviewed the publication but is not taking any action based upon it at this time. This testing procedure is not within the scope of the original proposal and therefore, if meritorious, should be the subject of a petition for a separate proposal.

3. *Animal identification.* One comment from a meat trade association opposed the implementation of STOP until mandatory animal identification is instituted. The comment asserted that processors may suffer losses when contaminated product can not be traced back to its original source.

While animal identification may reduce losses to processors, those processors that keep adequate records should be able to trace back the vast majority of animals to their point of origin. In any case, this matter is beyond the scope of this proceeding and should be addressed in separate rulemaking.

Final Rule

After careful consideration of the comments presented, the Agency has decided to publish the final rule as proposed. This final rule permits inplant screening of any species of livestock or poultry to detect the presence of unlawful levels of antimicrobial residues. *Indexing Terms.* As required by 1 CFR 18.20 (48 FR 7162, January 22, 1981) the following are the indexing terms for this regulation:

List of Subjects

9 CFR Part 309

Ante-mortem inspection and meat inspection.

9 CFR Part 381

Ante-mortem inspection and poultry inspection.

PART 309—ANTE-MORTEM INSPECTION

1. The authority citation for Part 309 reads as follows:

Authority: Sections 4 and 21, 34 Stat. 1260, 1264, as amended, 21 U.S.C 603, 604, 621; 81 Stat. 584, 588, 592, 593, 42 FR 35625, 35626, 35631.

2. Section 309.16(a) (9 CFR 309.16(a)) is revised to read as follows:

§ 309.16 Livestock suspected of having biological residues.

(a) Except as provided by paragraph (c) of this section, livestock suspected of having been treated with or exposed to any substance that may impart a biological residue that would make the edible tissues unfit for human food or otherwise adulterated, shall be handled in compliance with the provisions of this paragraph. They shall be identified at official establishments as "U.S. Condemned." These livestock may be held under the custody of a Program employee, or other official designated by the Administrator, until metabolic processes have reduced the residue sufficiently to make the tissues fit for human food and otherwise not adulterated. When the required time has elapsed, the livestock, if returned for slaughter, must be re-examined on ante-mortem inspection. To aid in determining the amount of residue present in the tissues, officials of the Program may permit the slaughter of any such livestock for the purpose of collecting tissues for analysis for the residue. Such analysis may include the use of inplant screening procedures designed to detect the presence of antimicrobial residues in any species of livestock.

* * * * *

PART 381—MANDATORY POULTRY PRODUCTS INSPECTION

3. The authority citation for Part 381 reads as follows:

Authority: Section 14 of the Poultry Products Inspection Act, as amended by the Wholesome Poultry Products Act (21 U.S.C. 451 *et seq.*); the Talmadge-Aiken Act of September 28, 1962, (7 U.S.C. 450); and Subsection 21(b) of the Federal Water Pollution Control Act, as amended by Pub. L. 91-224 and by other laws (33 U.S.C. 1254).

4. Section 381.74 (9 CFR 381.74) is revised to read as follows:

§ 381.74 Poultry suspected of having biological residues.

When any poultry at an official establishment is suspected of having been treated with or exposed to any substance that may impart a biological residue that would make their edible tissues adulterated, they shall, at the option of the operator of the establishment, be processed at the establishment and the carcasses and all parts thereof retained under U.S. Retained tags, pending final disposition in accordance with § 381.80, of this Part, and other provisions in Subpart K; or they shall be slaughtered at the establishment and buried or incinerated in a manner satisfactory to the inspector. Alternatively, such poultry may be returned to the grower, if further holding is likely to result in their not being adulterated by reason of any residue. The Inspection Service will notify the other Federal and State agencies concerned of such action. To aid in determining the amount of residue present in the poultry, officials of the Inspection Service may permit the slaughter of any such poultry for the purpose of collecting tissues for analysis of the residue. Such analysis may include the use of inplant screening procedures designed to detect the presence of antimicrobial residues in any species of poultry.

Done at Washington, D.C., on September 8, 1982.

Donald L. Houston,

Administrator, Food Safety and Inspection Service.

BILLING CODE 3410-DM-M

NUCLEAR REGULATORY COMMISSION

10 CFR Ch. I, Parts 1, 20, 21 and 73

Minor Clarifying Amendments

AGENCY: Nuclear Regulatory Commission.

ACTION: Final rule.

SUMMARY: The Nuclear Regulatory Commission (NRC) is amending its regulations to codify nomenclature changes required by a reorganization of NRC staff activities; to reflect the reassignment of the responsibility for implementing the Paperwork Reduction Act and for preparing the monthly *Nuclear Regulatory Commission Issuances;* to indicate a change in the commercial telephone number for the NRC's Region IV Office; and to announce that the NRC Region IV Uranium Recovery Field Office, located in Denver, Colorado, will become operational on October 4, 1982. The amendments are necessary to inform the public of these administrative changes to NRC regulations.

EFFECTIVE DATE: September 20, 1982.

FOR FURTHER INFORMATION CONTACT: John Philips, Chief, Rules and Procedures Branch, Division of Rules and Records, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Telephone 301–492–7086.

SUPPLEMENTARY INFORMATION: 10 CFR Chapter I: On October 16, 1981, the Commission announced a reorganization of NRC staff activities. This reorganization will be accomplished through a regionalization program that will enlarge the role of the NRC's regional offices. The objectives of reorganization are to improve control over requirements imposed on NRC licensees and focus the priorities of the agency and the nuclear industry on those requirements having the greatest safety significance. As a result of the reorganization, certain nomenclature changes are required to reflect the expanded role of the regional offices.

10 CFR Part 1: The NRC has transferred the implementation of the Paperwork Reduction Act and the responsibility for the preparation of *Nuclear Regulatory Commission Issuances*, including managing the collection, review, and publication of Office, Board, and Commission documents, from the Division of Rules and Records to the Division of Technical Information and Document Control. These transfers will result in a more efficient pairing of resources and responsibilities. In addition, on June 16, 1982, the Commission decided to locate the Region IV Uranium Recovery Field Office in Denver, Colorado. The Field Office will be responsible for health, safety, and environmental reviews; the licensing of uranium recovery facilities, which include mills and in-situ operations; providing technical assistance to Agreement States regarding uranium recovery facilities; and performing inspections of these facilities.

On October 4, 1982, the NRC Region IV Uranium Recovery Field Office will become operational. The address for the Field Office is 730 Simms Street, P.O. Box 25325, Denver, Colorado 80225.

10 CFR Parts 20, 21, and 73: (1) Effective August 1, 1982, the commercial telephone number for the NRC's Region IV Office located at 611 Ryan Plaza Drive, Arlington, Texas, will be changed to 817–860–8100; (2) Effective October 4, 1982, the NRC Region IV Uranium Recovery Field Office, located at 730 Simms Street, P.O. Box 25325, Denver, Colorado 80225, will become operational. The telephone number for the Denver Field Office will be (Commercial) 303–234–7232, (FTS) 234–7232.

Because these are nonsubstantive amendments dealing with administrative procedural matters, good cause exists for finding that the notice and comment procedures of the Administrative Procedure Act (5 U.S.C. 553) are unnecessary and for making the amendments effective upon publication.

List of Subjects

10 CFR Part 1

Organization and functions.

10 CFR Part 20

Byproduct material, Licensed material, Nuclear materials, Nuclear power plants and reactors, Occupational safety and health, Packaging and containers, Penalty, Radiation protection, Reporting requirements, Special nuclear material, Source material, Waste treatment and disposal.

10 CFR Part 21

Nuclear power plants and reactors, Penalty, Radiation protection, Reporting requirements.

10 CFR Part 73

Hazardous materials—transportation, Nuclear material, Nuclear power plants and reactors, Penalty, Reporting requirements, Security measures.

Under the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, and 5 U.S.C. 552 and 553, the following amendments to 10 CFR Chapter 1 and 10 CFR Parts 1, 20, 21, and 73 are published as a document subject to codification.

(Sec. 161, Pub. L. 83–703, 68 Stat. 948, as amended (42 U.S.C. 2201))

CHAPTER I—NUCLEAR REGULATORY COMMISSION

1. In 10 CFR Chapter I, all references to "Regional Director" are changed to read "Regional Administrator," and all references to "Nuclear Regulatory Commission Inspection and Enforcement Regional Office" are changed to "Nuclear Regulatory Commission Regional Office."

PART 1—STATEMENT OF ORGANIZATION AND GENERAL INFORMATION

2. In § 1.3, paragraph (b) is revised to read as follows:

§ 1.3 Location of principal offices and Regional Offices.

* * * * *

(b) The addresses of the NRC Regional Offices (see § 1.64) are:

Region I, USNRC, 631 Park Avenue, King of Prussia, PA 19406
Region II, USNRC, 101 Marietta Street, Suite 3100, Atlanta, GA 30303
Region III, USNRC, 799 Roosevelt Road, Glen Ellyn, IL 60137
Region IV, USNRC, 611 Ryan Plaza Drive, Suite 1000, Arlington, TX 76012
USNRC, Region IV Uranium Recovery Field Office, 730 Simms Street, P.O. Box 25325, Denver, CO 80225
Region V, USNRC, 1450 Maria Lane, Suite 210, Walnut Creek, CA 94596

3. In § 1.41, paragraphs (d) and (f) are revised to read as follows:

§ 1.41 Office of Administration.

* * * * *

(d) The Division of Technical Information and Document Control is responsible for implementing the Paperwork Reduction Act of 1980 (Pub. L. 96–511) and for planning and directing the production (exclusive of writing) and control of NRC documents. Its responsibilities include typing services, publication and graphics; NRC management directives; document evaluation, dissemination, storage, and retrieval; and the preparation and publication of the *Nuclear Regulatory Commission Issuances*.

* * * * *

(f) The Division of Rules and Records is responsible for NRC implementation of the Freedom of Information Act and

the Privacy Act; directing the coordinating NRC Local Public Document Room activities; preparing the NRC Regulatory Agenda; publishing "NRC Rules and Regulations," and reviewing and preparing notices and amendments to NRC regulations, including the processing of petitions for rulemaking.

* * * * *

PART 20—STANDARDS FOR PROTECTION AGAINST RADIATION

4. In Part 20, Appendix D is revised to read as follows:

APPENDIX D.—UNITED STATES NUCLEAR REGULATORY COMMISSION REGIONAL OFFICES

	Address	Telephone (24 hrs)
Region I: Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, and Vermont.	USNRC, 631 Park Ave., King of Prussia, PA 19406	(213) 337-5000, (FTS) 488-1000.
Region II: Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, Puerto Rico, South Carolina, Tennessee, Virginia, Virgin Islands, and West Virginia.	USNRC, 101 Marietta Street, Suite 3100, Atlanta, GA 30303	(404) 221-4503, (FTS) 242-4503.
Region III: Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, Ohio, and Wisconsin.	USNRC, 799 Roosevelt Road, Glen Ellyn, IL 60137	(312) 932-2500, (FTS) 384-2500.
Region IV: Arkansas, Colorado, Idaho, Kansas, Louisiana, Montana, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, Texas, Utah, and Wyoming.	USNRC, 611 Ryan Plaza Drive, Suite 1000, Arlington, TX 76102	(817) 860-8100, (FTS) 728-8100.
Region IV Field Office	USNRC, Region IV Uranium Recovery Field Office, 730 Simms Street, P.O. Box 25325, Denver, CO 80225.	(303) 234-7232, (FTS) 234-7232.
Region V: Alaska, Arizona, California, Hawaii, Nevada, Oregon, Washington, and U.S. territories and possessions in the Pacific.	USNRC, 1450 Maria Lane, Suite 210, Walnut Creek, CA 94596	(415) 943-3700, (FTS) 463-3700.

PART 21—REPORTING OF DEFECTS AND NONCOMPLIANCE

5. In footnote 1 of § 21.2, the commercial telephone number for NRC Region IV (Dallas) is revised to read as follows and the telephone number for the NRC Region IV Uranium Recovery Field Office is added to read as follows:

* * * * *

§ 21.2 Scope.

1 * * *

IV (Dallas)..... (817) 860-8100
IV Uranium Recovery Field Office (Denver)..... (303) 234-7232

BILLING CODE 7590-01-M

FEDERAL RESERVE SYSTEM

12 CFR Part 226

[Reg. Z; TIL-1]

Truth in Lending; Official Staff Commentary Update

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Final official staff interpretation.

SUMMARY: In accordance with Appendix C to 12 CFR Part 226, the staff of the Federal Reserve Board is publishing in final form an update to the official staff commentary to Regulation Z (Truth in Lending), as revised effective April 1, 1981. The commentary applies and interprets the requirements of the revised Regulation Z to open-end and closed-end consumer credit and is intended to substitute for individual Board and staff interpretations of the regulation.

EFFECTIVE DATE: September 17, 1982, but reliance optional until April 1, 1983.

FOR FURTHER INFORMATION:
Contact the following attorneys in the Division of Consumer and Community Affairs, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, at (202) 452-3667 or (202) 452-3667:

Subpart A—Gerald Hurst, Rugenia Silver
Subpart B and Appendices—Ruth Amberg, Jesse Filkins, Lynn Goldfaden, Gerald Hurst, John Wood
Subpart C and Appendices—Clarence Cain, Lucy Griffin, Rugenia Silver, Susan Werthan, Claudia Yarus, Steven Zeisel
Subpart D—Lynn Goldfaden, Rugenia Silver

SUPPLEMENTARY INFORMATION: (1) *General.* Effective October 13, 1981 (46 FR 50288, Oct. 9, 1981), an official staff commentary was published to interpret Regulation Z, as revised effective April 1, 1981. Creditors now have the option of complying with revised Regulation Z and the commentary, but compliance does not become mandatory until October 1, 1982 (Pub. L. 97-110, December 26, 1981). The commentary is designed to provide general guidance to creditors in applying the regulation to specific transactions. Periodic updates will provide the vehicle for additional staff interpretations that may be necessary as significant new questions

arise. The first update to the commentary was proposed for comment on May 13, 1982 (47 FR 20603) and is now being adopted in final form.

The types of changes being adopted generally give creditors more flexibility in making disclosures while preserving basic consumer protections. Changes generally have been made only when necessary to respond to significant questions that have arisen since the commentary's issuance or to clarify ambiguous language. However, because this is the first update to the commentary, some technical and editorial changes have been necessary in order to expedite adjustment to the commentary's new material and format. In a few cases the location of comments has been changed and others have been renumbered as a result of the deletion or addition of material.

The changes are effective on September 17, 1982. Although creditors are free to rely on the revisions as of that date and are protected if they do so, they need not follow the revisions until April 1, 1983. The latter date is provided to minimize any difficulties that creditors may experience in adjusting to the revisions.

(2) *Commentary revisions.* Following is a brief description of the revisions contained in the commentary update and how they differ, if at all, from those proposed.

Introduction

Comment I–3 is amended to reference the regulation's effective date of October 1, 1982, in accordance with Pub. L. 97–110 (December 26, 1981).

Subpart A—General

Section 226.2—Definitions and Rules of Construction

2(a)(3) "Arranger of Credit":

Comment 2(a)(3)–6 is added to explain the Board's amendment to § 226.2(a)(3) of the regulation (47 FR 7391, February 19, 1982) dealing with real estate brokers. The proposed language has been adopted with only slight modification of the first sentence to eliminate ambiguity.

The note regarding pending Board action on this section is deleted because it is no longer relevant.

2(a)(13) "Consummation":

Comment 2(a)(13)–1 is revised to show that a commitment agreement can be consummated if under applicable law a contractual relationship is created. The updated comment differs from the proposed revision in that the first sentence of the proposal and the phrase "specific credit terms" have been deleted. These deletions have been made from the proposal to avoid the misunderstanding by some commenters that the proposal was intending to create an exception from the general rule that state law governs on the issue of when consummation occurs. The updated comment makes it clear that state or other applicable law is determinative on when a contractual relationship is created and that, for Truth in Lending purposes, the focus is on when the consumer becomes bound to the credit terms.

2(a)(23) "Prepaid Finance Charge":

Comment 2(a)(23)–2 is revised to make clear that any portion of the finance charge paid prior to or at closing or settlement is considered a prepaid finance charge. The updated comment differs from the proposed revision in that it covers amounts paid "prior to" closing or settlement as well as those paid "at" closing or settlement.

2(a)(24) "Residential Mortgage Transaction":

Comment 2(a)(24)–1 is revised to add § 226.20(b) to the list of provisions using the term "residential mortgage transaction." Its omission was inadvertent.

2(a)(25) "Security Interest":

Comment 2(a)(25)–1 is revised by adding a cross reference at the end of the paragraph to updated comment 2(a)(25)–2. This cross reference is added to make clear that while creditors may not disclose an interest that unquestionably falls within an excluded category, where uncertainty exists as to whether an interest is a security interest or an excluded interest, creditors may at their option disclose the interest pursuant to updated comment 2(a)(25)–2.

Comment 2(a)(25)–2 is revised to permit creditors, at their option, to disclose certain interests as security interests when uncertainty exists as to whether a particular interest is one of the excluded interests.

Section 226.4—Finance Charge

4(b) Examples of Finance Charge:

Comment 4(b)(9)–3 is added to explain the "regular price" definition in amended section 103(x) of the act and its relationship to cash discounts offered under section 167(b) of the act. The new comment specifically discusses the displaying of prices for motor vehicle fuel. It differs from the proposal in that it (1) adds the statutory definition of "regular price," and (2) provides additional guidance regarding motor vehicle fuel sales in the context of separate pumps or islands for cash and credit purchases and pumps capable of showing either cash or credit prices.

4(c) Charges Excluded from the Finance Charge:

Comment 4(c)(7)–1 is revised to state that a charge for a lawyer's attendance at a closing or a charge for conducting a closing (for example, by a title company) is not a finance charge if the charge is primarily for services related to items listed in § 226.4(c)(7). In addition, the sentence concerning the requirement that charges excluded under § 226.4(c)(7) be bona fide and reasonable is reworded slightly and placed at the end of the updated comment to make clear that the requirement applies to all excluded charges. The updated comment differs from the proposal in that it (1) is not limited to lawyers' fees and (2) does not limit the exclusion to charges that are purely for insuring that documents are completed and executed properly.

4(d) Insurance:

Comment 4(d)–11 is added to clarify the concept of initial term of insurance coverage and to permit the initial term to be considered one year in situations where the insurance coverage is not clearly for a specific term. The new comment differs from the proposal in that it (1) deletes the reference to the creditor being "unsure" of the initial term, and (2) adds an example of a situation where the initial term of insurance coverage may not be clear and allows the use of a premium for one year in such situations.

Comment 4(d)–12 is added to clarify that loss-of-income insurance includes involuntary unemployment insurance.

Subpart B—Open-End Credit

Section 226.5—General Disclosure Requirements

5(a) Form of Disclosures:

Comment 5(a)(2)–1 is revised to include additional examples of the application of the "more conspicuous" rule. These examples are intended to clarify the rule; no substantive changes are intended. The proposal is changed to clarify that only the terms, and not the numbers, are subject to the "more conspicuous" rule. In addition, the proposed example regarding minimum finance charges is deleted as not being of general applicability.

5(b) Time of Disclosures:

Comment 5(b)(1)–1 is revised to explain more clearly when initial disclosures are timely if the plan involves an initial fee that is paid before the initial disclosures are given, or if the plan involves an advance made at the time that the consumer is given the initial disclosures.

5(c) Basis of Disclosures and Use of Estimates:

Comment 5(c)–1 is revised to clarify the meaning of the term "legal obligation." Because the proposal would have added to comment 17(c)(1)–1 a sentence to show the effect of certain previous court decisions on disclosures, the staff solicited comment on whether a companion provision for open-end credit should be added. The proposed addition is not being included in either Subpart B or Subpart C. (See discussion of comment 17(c)(1)–1.)

5(d) Multiple Creditors; Multiple Consumers:

Material that was inappropriate for commentary treatment regarding legal responsibility for providing disclosures is deleted from comment 5(d)–1. The last paragraph of comment 5(d)–1 is also deleted from that comment; the substance is redesignated as comment 7–2. A companion provision regarding initial disclosure statements is added as comment 6–2.

Section 226.6—Initial Disclosure Statement

Comment 6–2 is added as a companion provision to comment 7–2, regarding circumstances under which creditors involved in a certain open-end credit program may send separate initial disclosure statements.

6(a) Finance Charge:

Comment 6(a)(2)–2 is revised in its description of the types of open-end credit programs for which the creditor's initial disclosure of planned rate changes excuses the creditor from the general requirement to give notices when the rate increases according to the disclosed plan. The commentary as originally written provided that creditors may avoid these notices after giving appropriate disclosures in plans in which the rates follow an index that is "readily verifiable by the borrower and beyond the control of the lender."

A number of questions had arisen as to the interpretation and purpose of the original commentary language. In particular, some creditors raised concerns about programs that would use certain internal rates as the index and therefore not meet the criterion that the index be beyond the lender's control. These creditors noted that tying the rate to their commercial lending rate or to rates paid on savings instruments was customary practice. The updated comment reflects these concerns, while at the same time continuing to provide guidance on the types of rate increases for which additional disclosures may be needed. The updated comment also adds a cross reference to comment 9(c)–1, with regard to disclosures under employee preferential-rate plans.

6(b) Other Charges:

Language is added to comment 6(b)–2 to provide that a charge for submitting as payment a check that is later returned unpaid would not be an "other charge" for purposes of the regulation.

Section 226.7—Periodic Statement

The substance of the last paragraph of comment 5(d)–1 is added as comment 7–2. This comment is more appropriately placed in the section on periodic statements.

7(b) Identification of Transactions:

Comment 7(b)–1 is revised to clarify that the listed ways for a creditor to identify transactions for multifeatured plans are merely examples of acceptable arrangements.

7(c) Credits:

Comment 7(c)–3 is revised to clarify when additional identification of dates is needed, and also that no specific terminology is required for these date identifications.

7(e) Balance on Which Finance Charge Computed:

Comment 7(e)–2 is revised by indicating that the exception permitting the creditor to disclose one combined balance when split rates (or "break rates") are applied does not extend to the case in which split rates are applied to each day's balance. This change in the updated commentary returns to the position under previous Regulation Z, and corrects the inadvertent reference in comment 7(e)–4. That reference permitted a combined balance, which would not allow verification of the finance charge attributable to periodic rates.

The last sentence of current comment 7(e)–4 (updated comment 7(e)–5) is deleted, and the substance is incorporated in comment 7(e)–2.

Comments 7(e)–4, 5, 6, and 7 of the commentary are redesignated as updated comments 7(e)–5, 6, 7, and 8, and comment 7(e)–8, which deals with the disclosure of the periodic rate balance amount in multifeatured plans, is redesignated as updated comment 7(e)–4.

Updated comment 7(e)–4 (formerly comment 7(e)–8) is revised to give more complete guidance on when separate balances must be disclosed when a plan involves different features.

Comment 7(e)–9 is added to clarify that the creditor could explain its balance computation method only once, even if it discloses more than one balance computed by that same method. The updated comment differs from the proposal by adding two specific examples of when one explanation is sufficient.

7(g) Annual Percentage Rate:

Comment 7(g)–2 is expanded to clarify that, in multifeatured plans, the creditor may give separate annual percentage rate disclosures for each feature or may give a composite actual annual percentage rate for the entire plan.

Section 226.8—Identification of Transactions

8(a) Sale Credit:

Comment 8(a)(2)–5 is added to reflect the position under previous Regulation Z that the debiting date may be considered the transaction date for foreign transactions. The placement of this provision in the proposal inadvertently limited the availability of this provision to three-party transactions. By placing the provision under both § 226.8(a) (2) and (3), the updated commentary makes clear that the provision may also be used in two-party transactions.

In the last sentence of comment 8(a)(3)–2, the inadvertent reference to "creditor's" stores is changed to "seller's" stores.

Comment 8(a)(3)–4 is added, as previously noted, to reflect the position under previous Regulation Z that the debiting date may be considered the transaction date for foreign transactions.

Section 226.9—Subsequent Disclosure Requirements

9(c) Change in Terms:

Comment 9(c)–1 is revised to correspond to the revisions to comment 6(a)(2)–2.

Section 226.13—Billing-Error Resolution

13(d) Rules Pending Resolution:

Comment 13(d)(1)–2 is revised to clarify that, for purposes of § 226.13(d)(1), the creditor need only disclose that payment of "any disputed amount" is not required pending resolution, as was the case under the previous Regulation Z. Language has been added to the proposal to clarify that the disclosure is only required if the creditor bills for disputed amounts.

Section 226.14—Determination of Annual Percentage Rate

14(c) Annual Percentage Rate for Periodic Statements:

The new comment 14(c)–6 identifies the method in § 226.14(c)(3) as an acceptable method for calculating the annual percentage rate when the finance charge results from the application of both daily periodic rates and specific transaction charges. The proposal set forth an alternative calculation method, and comment was solicited on the need for that option. The response did not

demonstrate a current need for the alternative method as proposed.

The § 226.14(c)(3) method includes the rules in Appendix F; the appendix gives examples for determining the denominator of the fraction in this formula. Footnote 1 to the appendix instructs creditors that apply both a daily periodic rate and a specific transaction charge to use the average of daily balances instead of the sum of the balances.

Comments 14(c)–6, 7, and 8 have been redesignated as updated comments 14(c)–7, 8 and 9, respectively.

An editorial change is made to updated comment 14(c)–9 (formerly comment 14(c)–8) to correct the inadvertent use of the term "fees" instead of "finance charges." The change indicates that the optional annual percentage rate formula in § 226.14(c)(4) may be used when total finance charges of 50 cents or less are involved.

14(d) Calculations Where Daily Periodic Rate Applied:

Comment 14(d)–2 is revised merely to cross reference updated comment 14(c)–6. The later comment identifies an acceptable method for calculating the annual percentage rate for plans involving both daily periodic rates and specific transaction charges.

Section 226.15—Right of Rescission

15(a) Consumer's Right To Rescind:

Two changes are made in comment 15(a)(1)–2. First, the dates in the comment, which refer to the three-year trial period in section 125(e) of the act, are changed from March 31, 1985 to September 30, 1985 to reflect the change in the mandatory effective date of the act from April 1, 1982 to October 1, 1982. Second, a sentence is added to clarify that the limited rescission option is available for programs whether or not they existed on the effective date of the act.

Section 226.16—Advertising

16(b) Advertisement of Terms That Require Additional Disclosures:

The first example in comment 16(b)–5 is deleted in order to reflect a long-standing position taken under the previous Regulation Z.

Comment 16(b)–6 is added to make clear that charges excluded from the finance charge under § 226.4 are not required disclosures when a triggering term is used in an advertisement.

Subpart C—Closed-End Credit

Section 226.17—General Disclosure Requirements

17(a) Form of Disclosures:

Comments 17(a)(1)–5 adds three examples of information considered directly related to required disclosures. The first new example, relating to § 226.18(k), clarifies the applicability of the § 226.18(k)(1) disclosure. For purposes of this disclosure, a minimum finance charge in a simple interest transaction is considered a penalty. Some state laws prohibit creditors from charging a penalty in the event of prepayment while permitting the creditor to charge a minimum charge. In this instance the creditor may state that a minimum finance charge may be imposed.

The second addition, relating to § 226.18(f), responds to inquiries about disclosing the fact that a variable-rate feature may produce negative amortization. It permits creditors to disclose this fact when making the other required variable-rate disclosures. The last example permits the inclusion of a title for the disclosure statement.

The proposed revision to comment 17(a)(1)–5 also would have added a fourth example, relating to § 226.18(k)(2). That example is reflected in new comment 18(k)–3, which addresses the application of prepayment disclosures to prepaid finance charges.

17(c) Basis of Disclosures and Use of Estimates:

Comment 17(c)(1)–1 is revised to clarify the meaning of the term "legal obligation." The sentence discussing contracts later deemed unenforceably by a court is modified to include situations in which an individual term, rather than an entire contract, is deemed unenforceable. Portions of comments 17(c)(1)–1 and 2 are restructured for added clarity. The proposed addition to comment 17(c)(1)–1, discussing the effect of certain previous court decisions on the legal obligation, has not been adopted.

Comment 17(c)(1)–4 is revised to clarify the treatment of certain buydown plans, including the Federal National Mortgage Association's Buydown Program, as revised for commitments issued on or after February 16, 1982.

A new comment 17(c)(1)–8 is added to address the disclosure of adjustable rate mortgages that contain a graduated payment feature or an initial payment amount resulting in negative amortization. This comment applies to mortgages such as the graduated payment adjustable mortgage loan authorized by the Federal Home Loan Bank Board (12 CFR 545.6–4b). The new comment has been revised from the proposal to apply to all types of loans containing both graduated payment and adjustable rate features.

New comments 17(c)(3)–2 and 17(c)(4)–3 are added to clarify that a creditor may ignore minor variations in calculating some disclosures without being required to ignore those variations in computing all of the disclosures.

17(d) Multiple Creditors; Multiple Consumers:

Material that was inappropriate for commentary treatment is deleted from comment 17(d)–1.

17(h) Series of Sales—Delay in Disclosures:

Comment 17(h)–2 is added to address the content of disclosures for transactions under § 226.17(h).

17(i) Interim Student Credit Extensions:

Comment 17(i)–1 is amended to clarify the applicability of this provision. No substantive change is made.

Comment 17(i)–2 is revised to provide further guidance on the basis for interim student credit disclosures and the use of estimates.

Comment 17(i)–5 is added as a cross reference to Appendix H, regarding approved disclosure forms.

Section 226.18—Content of Disclosures

18(f) Variable Rate:

Comment 18(f)–3 is added to clarify that the presence of a variable-rate feature in a transaction does not, by itself, make disclosures for that transaction estimates. The comment is revised from the proposal to make clear that estimated disclosures in a variable-rate transaction may nevertheless be appropriate for other reasons.

Comment 18(f)–7 is added to discuss the treatment of growth equity mortgages. The proposal has been rewritten and restructured for added clarity.

Comment 18(f)(3)–1 is revised to include a cross reference to updated comment 17(a)(1)–5, which permits the inclusion of a brief reference to negative amortization in the variable-rate disclosures.

Comment 18(f)(4)–1 is revised to provide further guidance on the basis for the hypothetical example.

Comment 18(f)(4)–2 contains additional examples of transactions that need not make the hypothetical disclosure required in most transactions by § 226.18(f)(4).

18(g) Payment Schedule:

Comment 18(g)–1 is revised to clarify that a prepaid finance charge should not be reflected in the repayment schedule as a separate payment.

Comment 18(g)(2)–1 is revised to clarify that the abbreviated disclosures may be employed when mortgage insurance premium payments gradually

increase over a portion of the loan term. This will occur if the accrual rate exceeds the payment rate for a period and negative amortization causes the unpaid principal balance to increase. During this period, the amount of each premium payment will increase to insure the increasing principal balance. When negative amortization ends, the premiums will decrease in a traditional manner. The language permits the creditor to disclose the lowest and highest payments in the increasing series (with a reference to the variation in payments) followed by the highest and lowest payments in the decreasing series (with a reference to the variation in payments).

18(i) Demand Feature:

Comment 18(i)–2 is revised to clarify that a due-on-sale clause is not a demand feature requiring disclosure.

18(k) Prepayment:

A new comment 18(k)–3 is added to address the application of §226.18(k) to prepaid finance charges. Under the new comment, a prepaid finance charge does not by itself require a disclosure under either § 226.18(k)(1) or § 226.18(k)(2). The comment also permits creditors to further identify the finance charge for which a rebate disclosure is made.

Comment 18(k)(1)–1 is changed to clarify that this disclosure applies not only to interest calculations made daily, but to calculations that are made other than daily while taking into account scheduled reductions in principal. A cross reference to updated comment 17(a)(1)–5 is added to point out the permitted reference to a minimum finance charge in the penalty disclosure.

Comment 18(k)(2)–1 is revised from both the original commentary and the proposal, in order to reflect the treatment of prepaid finance charges under new comment 18(k)–3.

18(r) Required Deposit:

A new comment 18(r)–2 is added to address pledged account or FLIP mortgages, allowing creditors two options in disclosing those types of transactions.

Section 226.19—Certain Residential Mortgage Transactions

19(a) Time of Disclosure:

Comment 19(a)–2 is revised to conform with comment 17(a)(1)–5, regarding explanation of the basis for estimates.

Section 226.20—Subsequent Disclosure Requirements

20(a) Refinancings:

Comment 20(a)–3 is revised to clarify the current commentary position that the addition of a variable-rate feature to a previously fixed-rate transaction requires new disclosures regardless of the manner in which the change is made. It also discusses a variable-rate transaction for which no variable-rate disclosures were ever provided. The comment has been reorganized to clarify that both situations require new disclosures.

Comment 20(a)–5 is added to clarify the coverage of §226.20(a). "Refinancing," as the term is used here, refers only to a new transaction undertaken with the original creditor (or a holder or servicer of the original obligation) to replace the original obligation. The term "refinancing" is sometimes used to refer to a loan, the proceeds of which are used in whole or in part to satisfy an obligation to a different creditor. Under the regulation, that loan is not a refinancing but a new transaction subject to the general coverage rules and disclosure requirements of the regulation.

20(b) Assumptions:

The revision to comment 20(b)–1 clarifies the coverage of § 226.20(b). The following elements must all be present before an assumption under this section requires new disclosures:

- The original obligation must have been a consumer credit obligation that was not originally exempt from the regulation.
- The creditor must expressly agree to the new consumer as a primary obligor.
- The agreement must be in writing.
- The transaction must be a "residential mortgage transaction" as to the new consumer.

To determine if disclosures are required for the transfer of an obligation that is not covered by §226.20(b), the creditor must refer to the general coverage rules in § 226.2 and § 226.3.

Comment 20(b)–6 is deleted from the commentary as unnecessary. Discussion of changes in terms does not significantly assist creditors in determining whether an assumption is subject to § 226.20(b).

Section 226.22—Determination of the Annual Percentage Rate

22(a) Accuracy of the Annual Percentage Rate:

A sentence is added to comment 22(a)(1)–4 to provide an example of the calculation of a composite annual percentage rate, as that term is used in a step-rate transaction.

Section 226.24—Advertising

24(b) Advertisement of Rate of Finance Charge:

Comment 24(b)–4 is added to address the advertisement of special financing involving "effective rates," "payment rates" or "qualifying rates." It requires that when the advertisement includes such rates, the annual percentage rate, the term of the reduced payment schedule, and the rate at which interest accrues also be stated. This comment replaces proposed comment 24(b)–2.

Subpart D—Miscellaneous

Section 226.29—State Exemptions

29(a) General Rule:

Comment 29(a)–4 is added to reflect the exemptions granted by the Board for certain transactions in Connecticut and Maine (47 FR 36961, August 24, 1982). Further exemptions that may be granted by the Board will be reflected in future updates to the commentary.

Appendix D—Multiple-Advance Constructions Loans

Comment app. D–2 is added to permit creditors to omit disclosure of a variable-rate example in multiple-advance construction loans disclosed pursuant to Appendix D, Part I. (See comment 18(f)(4)–2)

Comment app. D–3 is added to clarify that the total of payments disclosure under Appendix D may be calculated as either the sum of the payments or as the amount financed plus the finance charge.

Comment app. D–4 is added to make clear that Appendix D does not require creditors to use the Board's Annual Percentage Rate Tables. The estimated annual percentage rate may be computed under either the actuarial method or the Volume I method.

Appendix F—Annual Percentage Rate Computations for Certain Open-End Credit Plans

Comment app. F–1 is added to cross reference updated comment 14(c)–6. The latter comment discusses the annual percentage rate calculation methods for plans involving both daily periodic rates and specific transaction charges.

Appendix H—Closed-End Model Forms and Clauses

Comments app. H–17 through app. H–20 are added to reflect the approval under section 113 of the act of certain student loan forms issued by the United States Department of Education.

List of Subjects in 12 CFR Part 226

Advertising, Banks, Banking, Consumer protection, Credit, Federal Reserve System, Finance, Penalties, Truth in Lending.

(3) *Text of amendments.* The amendments to the commentary

(Supplement I to Part 226) read as follows:

Supplement I—Official Staff Commentary—TIL–1

Introduction

* * * * *

3. *Status of previous interpretations.* All statements and opinions issued by the Federal Reserve Board and its staff interpreting previous Regulation Z remain effective until October 1, 1982, only insofar as they interpret that regulation. When compliance with revised Regulation Z becomes mandatory on October 1, 1982, the Board and staff interpretations of the previous regulation will be entirely superseded by the revised regulation and this commentary except with regard to liability under the previous regulation.* * *

Subpart A—General

Section 226.2—Definitions and Rules of Construction

2(a) Definitions. * * *

2(a)(3) "Arranger of Credit". * * *

1. *Coverage.* * * *

6. *Real estate brokers.* The general definition does not include a person (such as a real estate broker or salesperson) who, as part of the process of arranging the sale of real property or a dwelling, arranges for the seller to totally or partly finance the purchase, even if the obligation by its terms is simultaneously assigned by the seller to another person. However, a broker or salesperson is not exempt from coverage in all transactions. For example, a real estate broker may be a creditor in the following situations:

- The broker acts as a loan broker to arrange for someone other than the seller to extend credit, provided that the extender of credit (the person to whom the obligation is initially payable) does not meet the "creditor" definition.
- The broker extends credit itself, provided that the broker otherwise meets the "creditor" definition.* * *

2(a)(13) "Consummation".

1. *State law governs.* When a contractual obligation on the consumer's part is created is a matter to be determined under applicable law; Regulation Z does not make this determination. A contractual commitment agreement, for example, that under applicable law binds the consumer to the credit terms would be consummation. Consummation, however, does not occur merely because the consumer has made some financial investment in the transaction (for example, by paying a nonrefundable fee) unless, of course, applicable law holds otherwise. * * *

2(a)(23) "Prepaid Finance Charge". * * *

2. *Examples.* Common examples of prepaid finance charges include:

- Buyer's points.
- Service fees.
- Loan fees.
- Finder's fees.
- Loan guarantee insurance.
- Credit investigation fees.

However, in order for these or any other finance charges to be considered prepaid, they must be either paid separately in cash or check or withheld from the proceeds. Prepaid finance charges include any portion of the finance charge paid prior to or at closing or settlement. * * *

2(a)(24) "Residential Mortgage Transaction".

1. *Relation to other sections.* This term is important in six provisions in the regulation:

- Section 226.4(c)(7)—exclusions from the finance charge.
- Section 226.15(f)—exemption from the right of rescission.
- Section 226.18(q)—whether or not the obligation is assumable.
- Section 226.19—special timing rules.
- Section 226.20(b)—disclosure requirements for assumptions.
- Section 226.23(f)—exemption from the right of rescission. * * *

2(a)(25) "Security Interest".

1. *Threshold test.* The threshold test is whether a particular interest in property is recognized as a security interest under applicable law. The regulation does not determine whether a particular interest is a security interest under applicable law. If the creditor is unsure whether a particular interest is a security interest under applicable law (for example, if statutes and case law are either silent or inconclusive on the issue), the creditor may at its option consider such interests as security interests for Truth in Lending purposes. However, the regulation and the commentary do exclude specific interests, such as after-acquired property and accessories, from the scope of the definition regardless of their categorization under applicable law, and these named exclusions may not be disclosed as security interests under the regulation. (But see the discussion of exclusions elsewhere in the commentary to § 226.2(a)(25).)

2. *Exclusions.* The general definition of security interest excludes three groups of interests: incidental interests, interests in after-acquired property, and interests that arise solely by operation of law. These interests may not be disclosed with the disclosures required under § 226.18, but the creditor is not precluded from preserving these rights elsewhere in the contract documents, or invoking and enforcing such rights, if it is otherwise lawful to do so. If the creditor is unsure whether a particular interest is one of the excluded interests, the creditor may, at its option, consider such interests as security interests for Truth in Lending purposes. * * *

Section 226.4—Finance Charge

* * * * *

4(b) Examples of Finance Charge. * * *

Paragraph 4(b)(9). * * *

3. *Determination of the regular price.* The "regular price" is critical in determining whether the difference between the price charged to cash customers and credit customers is a "discount" or a "surcharge," as these terms are defined in amended section 103 of the act. The "regular price" is defined in section 103 of the act as "the tag or posted price charged for the property or service if a single price is tagged or posted, or the price charged for the property or service when payment is made by use of an open-end credit account or a credit card if either (1) no price is tagged or posted, or (2) two prices are tagged or posted. . . ." For example, in the sale of motor vehicle fuel, the tagged or posted price is the price displayed at the pump. As a result, the higher price (the open-end credit or credit card price) must be displayed at the pump, either alone or along with the cash price. Service station operators may designate separate pumps or separate islands as being for either cash or credit purchases and display only the appropriate prices at the various pumps. If a pump is capable of displaying on its meter either a cash or a credit price depending upon the consumer's means of payment, both the cash price and the credit price must be displayed at the pump. A service station operator may display the cash price of fuel by itself on a curb sign, as long as the sign clearly indicates that the price is limited to cash purchases. * * *

4(c) Charges Excluded from the Finance Charge. * * *

Paragraph 4(c)(7).

1. *Real estate or residential mortgage transaction charges.* The list of charges in § 226.4(c)(7) applies both to residential mortgage transactions (which may include, for example, the purchase of a mobile home) and to other transactions secured by real estate. The fees are excluded from the finance charge even if the services for which the fees are imposed are performed by the

creditor's employees rather than by a third party. In addition, credit report fees include not only the cost of the report itself, but also the cost of verifying information in the report. If a lump sum is charged for several services and includes a charge that is not excludable, a portion of the total should be allocated to that service and included in the finance charge. A charge for a lawyer's attendance at the closing or a charge for conducting the closing (for example, by a title company) is excluded from the finance charge if the charge is primarily for services related to items listed in § 226.4(c)(7) (for example, reviewing or completing documents), even if other incidental services, such as explaining various documents or disbursing funds for the parties, are performed. In all cases, charges excluded under § 226.4(c)(7) must be bona fide and reasonable.

4(d) Insurance. * * *

11. *Initial term.* The initial term of insurance coverage determines the period for which a premium amount must be disclosed. In some cases the initial term is clear, for example, a property insurance policy on an automobile written for one year (even though the term of the credit transaction is four years) or a credit life insurance policy for the term of the credit transaction purchased by paying or financing a single premium. In other cases, however, it may not be clear what the initial term of the insurance is, for example, when the consumer agrees to pay a premium that is assessed periodically and the consumer is under no obligation to continue making the payments. In cases such as this, the cost disclosure may be made on the basis of a premium for one year of insurance coverage. The premium must be clearly labeled as being for one year.

12. *Loss-of-income insurance.* The loss-of-income insurance mentioned in § 226.4(d) includes involuntary unemployment insurance, which provides that some or all of the consumer's payments will be made if the consumer becomes unemployed involuntarily. * * *

Subpart B—Open-end Credit

Section 226.5—Geneal Disclosure Requirements

5(a) Form of Disclosures. * * *

Paragraph 5(a)(2).

1. *When disclosures must be "more conspicuous."* The terms "finance charge" and "annual percentage rate", when required to be used with a number, must be disclosed more conspicuously than other required disclosures, except in the two cases provided in footnote 9. At the creditor's option, "finance charge" and "annual percentage rate" may also be disclosed more conspicuously than the other required disclosures even when the regulation does not so require. The following examples illustrate these rules:

- In disclosing the annual percentage rate as required by § 226.6(a)(2), the term "annual percentage rate" is subject to the "more conspicuous" rule.
- In disclosing the amount of the finance charge, required by § 226.7(f), the term "finance charge" is subject to the "more conspicuous" rule.
- Although neither "finance charge" nor "annual percentage rate" need be emphasized when used as part of general informational material or in textual descriptions of other terms, emphasis is permissible in such cases. For example, when the terms appear as part of the explanations required under § 226.6(a) (3) and (4), they may be equally conspicuous as the disclosures required under §§ 226.6(a)(2) and 226.7(g). * * *

5(b) Time of Disclosures.

5(b)(1) Initial Disclosures.

1. *Disclosure before the first transaction.* The rule that the initial disclosure statement must be furnished "before the first transaction" requires delivery of the initial disclosure statement before the consumer becomes obligated on the plan (for example, before the consumer makes the first purchase, receives the first advance, or pays a fee under the plan).

- If the consumer pays a membership fee before receiving the Truth in Lending disclosures, or the consumer agrees to the imposition of a membership fee at the time of application and the Truth in Lending disclosure statement is not given at that time, disclosures are timely as long as the consumer, after receiving the disclosures, can reject the plan. The creditor must refund the membership fee if it has been paid, or clear the account if it has been debited to the consumer's account.
- If the consumer receives a cash advance check at the same time the Truth in Lending disclosures are provided, disclosures are still timely if the consumer can, after receiving the disclosures, return the cash advance check to the creditor without obligation (for example, without paying finance charges).
- Initial disclosures need not be given before the imposition of an application fee under § 226.4(c)(1).
- If, after receiving the disclosures, the consumer uses the account, pays a fee, or negotiates a cash advance check, the creditor may consider the account not rejected for purposes of this section. * * *

5(c) Basis of Disclosures and Use of Estimates.

1. *Legal obligation.* The disclosures should reflect the credit terms to which the parties are legally bound at the time of giving the disclosures.

- The legal obligation is determined by applicable state or other law.
- The fact that a term or contract may later be deemed unenforceable by a court on the basis of equity or other grounds does not, by itself, mean that disclosures based on that term or contract did not reflect the legal obligation.
- The legal obligation normally is presumed to be contained in the contract that evidences the agreement. But this may be rebutted if another agreement between the parties legally modifies that contract. * * *

5(d) Multiple Creditors; Multiple Consumers.

1. *Multiple creditors.* Under § 226.5(d):

- Creditors must choose which of them will make the disclosures.
- A single, complete set of disclosures must be provided, rather than partial disclosures from several creditors.
- All disclosures for the open-end credit plan must be given, even if the disclosing creditor would not otherwise have been obligated to make a particular disclosure. * * *

Section 226.6—Initial Disclosure Statement

2. *Separate initial disclosures permitted.* In a certain open-end credit program involving more than one creditor—a card issuer of travel-and-entertainment cards and a financial institution—the consumer has the option to pay the card issuer directly or to transfer to the financial institution all or part of the amount owing. In this case, the creditors may send separate initial disclosure statements.

6(a) Finance Charge * * *

Paragraph 6(a)(2) * * *

2. *Variable-rate disclosures—coverage.* This section covers open-end credit plans under which rate changes are part of the plan and are tied to an index or formula. A creditor would use variable-rate disclosures (and thus be excused from the requirement of giving a change-in-terms notice when rate increases occur as disclosed) for plans

involving rate changes such as the following:

- Rate changes that are tied to the rate the creditor pays on its 6-month money market certificates.
- Rate changes that are tied to Treasury bill rates.
- Rate changes that are tied to changes in the creditor's commercial lending rate.

In contrast, the creditor's contract reservation to increase the rate without reference to such an index or formula (for example, a plan that simply provides that the creditor reserves the right to raise its rates) would not be considered a variable-rate plan for Truth in Lending disclosure purposes. Moreover, an open-end credit plan in which the employee receives a lower rate contingent upon employment (that is, with the rate to be increased upon termination of employment) is not a variable-rate plan. (With regard to such employee preferential-rate plans, however, see comment 9(c)–1, which provides that if the specific change that would occur is disclosed on the initial disclosure statement, no notice of a change in terms need be given when the term later changes as disclosed.) * * *

6(b) Other Charges * * *

2. *Exclusions.* The following are examples of charges that are not "other charges":

- Fees charged for documentary evidence of transactions for income tax purposes.
- Amounts payable by a consumer for collection activity after default; attorney's fees, whether or not automatically imposed; foreclosure costs; post-judgment interest rates imposed by law; and reinstatement or reissuance fees.
- Premiums for voluntary credit life or disability insurance, or for property insurance, that are not part of the finance charge.
- Application fees under § 226.4(c)(1).
- A monthly service charge for a checking account with overdraft protection that is applied to all checking accounts, whether or not a credit feature is attached.
- Charges for submitting as payment a check that is later returned unpaid. (See the commentary to § 226.4(c)(2).)

* * *

Section 226.7—Periodic Statement

2. *Separate periodic statements permitted.* In a certain open-end credit program involving more than one creditor—a card issuer of travel-and-entertainment cards and a financial institution—the consumer has the option to pay the card issuer directly or to transfer to the financial institution all or part of the amount owing. In this case, the creditors may send separate periodic statements that reflect the separate obligations owed to each. * * *

7(b) Identification of Transactions:

1. *Multifeatured plans.* In identifying transactions under § 226.7(b) for multifeatured plans, creditors may, for example, choose to arrange transactions by feature (such as disclosing sale transactions separately from cash advance transactions) or in some other clear manner, such as by arranging the transactions in general chronological order. * * *

7(c) Credits * * *

3. *Date.* If only one date is disclosed (that is, the crediting date as required by the regulation), no further identification of that date is necessary. More than one date may be disclosed for a single entry, as long as it is clear which date represents the date on which credit was given. * * *

7(e) Balance on Which Finance Charge Computed * * *

2. *Split rates applied to balance ranges.* If split rates were applied to a balance because different portions of the balance fall within two or more balance ranges, the creditor need not separately disclose the portions of the balance subject to such different rates since the range of balances to which the rates apply has been separately disclosed. For example, a creditor could disclose a balance of $700 for purchases even though a monthly periodic rate of 1.5 percent applied to the first $500, and a monthly periodic rate of 1 percent to the remainder. This option to disclose a combined balance does not apply when the finance charge is computed by applying the split rates to each day's balance (in contrast, for example, to applying the rates to the average daily balance). In that case, the balances must be disclosed using any of the options that are available if two or more daily rates are imposed. (See comment 7(e)–5.) * * *

Comment 7(e)–3 is redesignated as 7(e)–4.

4. *Multifeatured plans.* In a multifeatured plan, the creditor must disclose a separate balance (or balances, as applicable) to which a periodic rate was applied for each feature or group of features subject to different periodic rates or different balance computation methods. Separate balances are not required, however, merely because a "free-ride" period is available for some features but not others. A total balance for the entire plan is optional. This does not affect how many balances the creditor must disclose—or may disclose—within each feature. (See, for example, comment 7(e)–5.) * * *

Comment 7(e)–4 is redesignated as 7(e)–5.

5. *Daily rate on daily balance.* If the finance charge is computed on the balance each day by application of one or more daily periodic rates, the balance on which the finance charge was computed may be disclosed in any of the following ways for each feature:

- If a single daily periodic rate is imposed, the balance to which it is applicable may be stated as:
  - —A balance for each day in the billing cycle
  - —A balance for each day in the billing cycle on which the balance in the account changes
  - —The sum of the daily balances during the billing cycle
  - —The average daily balance during the billing cycle, in which case the creditor shall explain that the average daily balance is or can be multiplied by the number of days in the billing cycle and the periodic rate applied to the product to determine the amount of the finance charge.
- If two or more daily periodic rates may be imposed, the balances to which the rates are applicable may be stated as:
  - —A balance for each day in the billing cycle
  - —A balance for each day in the billing cycle on which the balance in the account changes
  - —Two or more average daily balances, each applicable to the daily periodic rates imposed for the time that those rates were in effect, as long as the creditor explains that the finance charge is or may be determined by (1) multiplying each of the average balances by the number of days in the billing cycle (or if the daily rate varied during the cycle, by multiplying by the number of days the applicable rate was in effect), (2) multiplying each of the results by the applicable daily periodic rate, and (3) adding these products together.

Comments 7(e)–5, 6, and 7 are redesignated as 7(e)–6, 7, and 8, respectively.

Comment 7(e)–8 is redesignated as 7(e)–4.

9. *Use of one balance computation method explanation when multiple balances disclosed.* Sometimes the creditor will disclose more than one balance to which a periodic rate was applied even though each balance was computed using the same balance

computation method. For example, if a plan involves purchases and cash advances that are subject to different rates, more than one balance must be disclosed even though the same computation method is used for determining the balance for each feature. In these cases, one explanation of the balance computation method is sufficient. Sometimes the creditor separately discloses the portions of the balance that are subject to different rates because different portions of the balance fall within two or more balance ranges, even when a combined balance disclosure would be permitted under comment 7(e)–2. In these cases, one explanation of the balance computation method is also sufficient (assuming, of course, that all portions of the balance were computed using the same method). * * *

7(g) Annual Percentage Rate * * *

2. *Multifeatured plans.* In a multifeatured plan, the actual annual percentage rate that reflects the finance charge imposed during the cycle may be separately stated for each feature, or may be described as a composite for the whole plan. If separate rates are given, a composite annual percentage rate for the entire plan is optional. * * *

Section 226.8—Identification of Transactions

8(a) Sale Credit * * *

8(a)(2) Copy of Credit Document Not Provided—Creditor and Seller Same or Related Person(s) * * *

5. *Date of transaction—foreign transactions.* In a foreign transaction, the debiting date may be considered the transaction date.

8(a)(3) Copy of Credit Document Not Provided—Creditor and Seller Not Same or Related Person(s) * * *

2. *Location of transaction.* The disclosure of the location where the transaction took place generally requires an indication of both the city, and the state or foreign country. If the seller has multiple stores or branches within that city, the creditor need not identify the specific branch at which the sale occurred. * * *

4. *Date of transaction—foreign transactions.* See comment 8(a)(2)–5. * * *

Section 226.9—Subsequent Disclosure Requirements

9(c) Change in Terms:

1. *"Changes" initially disclosed.* No notice of a change in terms need be given if the specific change is set forth initially, such as: rate increases under a properly disclosed variable-rate plan, a rate increase that occurs when an employee has been under a preferential rate agreement and terminates employment, or an increase that occurs when the consumer has been under an agreement to maintain a certain balance in a savings account in order to keep a particular rate and the account balance falls below the specified minimum. In contrast, notice must be given if the contract allows the creditor to increase the rate at its discretion but does not include specific terms for an increase (for example, when an increase may occur under the creditor's contract reservation right to increase the periodic rate). * * *

Section 226.13—Billing-Error Resolution

13(d) Rules Pending Resolution * * *

13(d)(1) Consumer's Right to Withhold Disputed Amount; Collection Action Prohibited * * *

2. *Right to withhold payment.* If the creditor reflects any disputed amount or related finance or other charges on the periodic statement, and is therefore required to make the disclosure under footnote 30, the creditor may comply with that disclosure requirement by indicating that payment of any disputed amount is not required pending resolution. Making a disclosure that only refers to the disputed amount would, of course, in no way affect the consumer's right under § 226.13(d)(1) to withhold related finance and other charges. The disclosure under footnote 30 need not appear in any specific place on the periodic statement, need not state the specific amount that the consumer may withhold, and may be preprinted on the periodic statement. * * *

Section 226.14—Determination of Annual Percentage Rate

14(c) Annual Percentage Rate for Periodic Statements * * *

6. *Daily rate with specific transaction charge.* Section 226.14(c)(3) sets forth an acceptable method for calculating the annual percentage rate if the finance charge results from a charge relating to a specific transaction and the application of a daily periodic rate. This section includes the requirement that the creditor follow the rules in Appendix F in calculating the annual percentage rate, especially footnote 1 to Appendix F which addresses the daily rate/transaction charge situation by providing that the "average of daily balances" shall be used instead of the "sum of the balances." * * *

Comments 14(c)–6, 7, and 8 are redesignated as 14(c)–7, 8, and 9, respectively.

9. *Small finance charges.* Section 226.14(c)(4) gives the creditor an alternative to § 226.14(c)(2) and (c)(3) if small finance charges (50 cents or less) are involved; that is, if the finance charge includes minimum or fixed fees not due to the application of a periodic rate and the total finance charge for the cycle does not exceed 50 cents. For example, while a monthly activity fee of 50 cents on a balance of $20 would produce an annual percentage rate of 30 percent under the rule in § 226.14(c)(2), the creditor may disclose an annual percentage rate of 18 percent if the periodic rate generally applicable to all balances is 1½ percent per month. This option is consistent with the provision in footnote 11 to §§ 226.6 and 226.7 permitting the creditor to disregard the effect of minimum charges in disclosing the ranges of balances to which periodic rates apply.

14(d) Calculations Where Daily Periodic Rate Applied * * *

2. *Daily rate with specific transaction charge.* If the finance charge results from a charge relating to a specific transaction and the application of a daily periodic rate, see comment 14(c)–6 for guidance on an appropriate calculation method. * * *

Section 226.15—Right of Rescission

15(a) Consumer's Right to Rescind Paragraph 15(a)(1) * * *

2. *Exceptions.* Although the consumer generally has the right to rescind with each transaction on the account, section 125(e) of the act provides an exception: Until September 30, 1985, the creditor need not provide the right to rescind at the time of each credit extension made under an open-end credit plan secured by the consumer's principal dwelling to the extent that the credit extended is in accordance with a previously established credit limit for the plan. This limited rescission option is available whether or not the plan existed prior to the effective date of the act. The consumer will have the right to rescind each extension made after September 30, 1985 under such a secured open-end credit plan, whether that plan was established before or after that date. * * *

Section 226.16—Advertising

16(b) Advertisement of Terms That Require Additional Disclosures. * * *

5. *Triggering terms.* The following are examples of terms that trigger additional disclosures:

- "Small monthly service charge on the remaining balance."
- "12 percent Annual Percentage Rate."
- "A $15 annual membership fee buys you $2,000 in credit."

6. *Minimum, fixed, transaction, activity, or similar charge.* The charges to be disclosed under § 226.16(b)(1) are

those that are considered finance charges under § 226.4. * * *

Subpart C—Closed-End Credit

Section 226.17—General Disclosure Requirements

17(a) Form of Disclosures. Paragraph 17(a)(1). * * *

5. *Directly related.* The segregated disclosures may, at the creditor's option, include any information that is directly related to those disclosures. Directly related information includes, for example, the following:

- A description of a grace period after which a late payment charge will be imposed. For example, the disclosure given under § 226.18(1) may state that a late charge will apply to "any payment received more than 15 days after the due date."
- A statement that the transaction is not secured. For example, the creditor may add a category labelled "unsecured" or "not secured" to the security interest disclosures given under § 226.18(m).
- The basis for any estimates used in making disclosures. For example, if the maturity date of a loan depends solely on the occurrence of a future event, the creditor may indicate that the disclosures assume that event will occur at a certain time.
- The conditions under which a demand feature may be exercised. For example, in a loan subject to demand after five years, the disclosures may state that the loan will become payable on demand in five years.
- When a variable-rate feature is disclosed on other documents under footnote 43 to § 226.18(f), a reference to the variable-rate feature and/or to other documents on which the variable-rate disclosures are made.
- An explanation of the use of pronouns or other references to the parties to the transaction. For example, the disclosures may state, " 'You' refers to the customer and 'we' refers to the creditor."
- Instructions to the creditor or its employees on the use of a multiple-purpose form. For example, the disclosures may state, "Check box if applicable."
- A statement that the borrower may pay a minimum finance charge upon prepayment in a simple interest transaction. For example, when state law prohibits penalties, but would allow a minimum finance charge in the event of prepayment, the creditor may make the § 226.18(k)(1) disclosure by stating "You may be charged a minimum finance charge."
- A brief reference to negative amortization in variable-rate transactions. For example, in the variable-rate disclosure, the creditor may include a short statement such as "Unpaid interest will be added to principal." (See the commentary to § 226.18(f)(3).)
- A brief caption identifying the disclosures. For example, the disclosures may bear a general title such as "Federal Truth in Lending Disclosures" or a descriptive title such as "Real Estate Loan Disclosures."

* * *

17(c) Basis of Disclosures and Use of Estimates. Paragraph 17(c)(1).

1. *Legal obligation.* The disclosures should reflect the credit terms to which the parties are legally bound at the outset of the transaction. The legal obligation is determined by applicable state law or other law. (Certain transactions are specifically addressed in this commentary. See, for example, the discussion of buydown transactions elsewhere in the commentary to § 226.17(c).)

- The fact that a term or contract may later be deemed unenforceable by a court on the basis of equity or other grounds does not, by itself, mean that disclosures based on that term or contract did not reflect the legal obligation.

2. *Modification of obligation.* The legal obligation normally is presumed to be contained in the note or contract that evidences the agreement. But this presumption is rebutted if another agreement between the parties legally modifies that note or contract. If the parties informally agree to a modification of the legal obligation, the modification should not be reflected in the disclosures unless it rises to the level of a change in the terms of the legal obligation. For example:

- If the creditor-employer offers a preferential employee rate, the disclosures should reflect the terms of the legal obligation. (See the commentary to § 226.18(f) for an example of a preferred-rate employee transaction that is a variable-rate transaction.)
- If the contract provides for a certain monthly payment schedule but payments are made on a voluntary payroll deduction plan or an informal principal-reduction agreement, the disclosures should reflect the schedule in the contract.
- If the contract provides for regular monthly payments but the creditor informally permits the consumer to defer payments from time to time, for instance, to take account of holiday seasons or seasonal employment, the disclosures should reflect the regular monthly payments. * * *

4. *Consumer buydowns.* In certain transactions, the consumer may pay an amount to the creditor to reduce the payments or obtain a lower interest rate on the transaction. Consumer buydowns must be reflected in the disclosures given for that transaction. To illustrate, in a mortgage transaction, the creditor and consumer agree to a note specifying a 14 percent interest rate. However, in a separate document, the consumer agrees to pay an amount to the creditor at consummation in return for a reduction in the interest rate to 12 percent for a portion of the mortgage term. The amount paid by the consumer may be deposited in an escrow account or may be retained by the creditor. Depending upon the buydown plan, the consumer's prepayment of the obligation may or may not result in a portion of the amount being credited or refunded to the consumer. In the disclosures given for the mortgage, the creditor must reflect the terms of the buydown agreement. For example:

- The amount paid by the consumer is a prepaid finance charge (even if deposited in an escrow account).
- A composite annual percentage rate must be calculated, taking into account both interest rates, as well as the effect of the prepaid finance charge.
- The payment schedule must reflect the multiple payment levels resulting from the buydown.* * *

8. *Graduated payment adjustable rate mortgages.* These mortgages involve both a variable interest rate and scheduled variations in payment amounts during the loan term. For example, under these plans, a series of graduated payments may be scheduled before rate adjustments affect payment amounts, or the initial scheduled payment may remain constant for a set period before rate adjustments affect the payment amount. In any case, the initial payment amount may be insufficient to cover the scheduled interest, causing negative amortization from the outset of the transaction. In these transactions, the disclosures should treat these features as follows:

- The finance charge includes the amount of negative amortization based on the assumption that the rate in effect at consummation remains unchanged.
- The amount financed does not include the amount of negative amortization.
- As in any variable-rate transaction, the annual percentage rate is based on the terms in effect at consummation.

- The schedule of payments discloses the amount of any scheduled initial payments followed by an adjusted level of payments based on the initial interest rate. Since some mortgage plans contain limits on the amount of the payment adjustment, the payment schedule may require several different levels of payments, even with the assumption that the original interest rate does not increase.* * *

Comments 17(c)(1)–8 and 9 are redesignated 17(c)(1)–9 and 10, respectively.

Paragraph 17(c)(3). * * *

2. *Use of special rules.* A creditor may utilize the special rules in § 226.17(c)(3) for purposes of calculating and making all disclosures for a transaction or may, at its option, use the special rules for some disclosures and not others.

Paragraph 17(c)(4). * *

3.. *Use of special rules.* A creditor may utilize the special rules in § 226.17(c)(4) for purposes of calculating and making some disclosures but may elect not to do so for all of the disclosures. For example, the variations may be ignored in calculating and disclosing the annual percentage rate but taken into account in calculating and disclosing the finance charge and payment schedule. * * *

17(d) Multiple Creditors; Multiple Consumers.

1. *Multiple creditors.* If a credit transaction involves more than one creditor:

- The creditors must choose which of them will make the disclosures.
- A single, complete set of disclosures must be provided, rather than partial disclosures from several creditors.
- All disclosures for the transaction must be given, even if the disclosing creditor would not otherwise have been obligated to make a particular disclosure. For example, if one of the creditors is the seller, the total sale price disclosure under § 226.18(j) must be made, even though the disclosing creditor is not the seller. * * *

17(h) Series of Sales—Delay in Disclosures. * * *

2. *Basis of disclosures.* Creditors structuring disclosures for a series of sales under § 226.17(h) may compute the total sale price as either:

- The cash price for the sale plus that portion of the finance charge and other charges applicable to that sale; or
- The cash price for the sale, other charges applicable to the sale, and the total finance charge and outstanding principal.

17(i) Interim Student Credit Extensions.

1. *Definition.* Student credit plans involve extensions of credit for education purposes where the repayment amount and schedule are not known at the time credit is advanced. These plans include, for example, loans made under the Guaranteed Student Loan program, the PLUS program or any other student credit plan, whether government or private, where the repayment period does not begin immediately. Creditors in interim student credit extensions need not disclose the terms set forth in this paragraph at the time the credit is actually extended but must make complete disclosures at the time the creditor and consumer agree upon the repayment schedule for the total obligation. At that time, a new set of disclosures must be made of all applicable items under § 226.18.

2. *Basis of disclosures.* The disclosures given at the time of execution of the interim note should reflect two annual percentage rates, one for the interim period and one for the repayment period. The use of § 226.17(i) in making disclosures does not, by itself, make those disclosures estimates. Any portion of the finance charge, such as statutory interest, that is attributable to the interim period and is paid by the student (either as a prepaid finance charge, periodically during the interim period, in one payment at the end of the interim period, or capitalized at the beginning of the repayment period) must be reflected in the interim annual percentage rate. Interest subsidies, such as payments made by either a state or the federal government on an interim loan, must be excluded in computing the annual percentage rate on the interim obligation, when the consumer has no contingent liability for payment of those amounts. Any finance charges that are paid separately by the student at the outset or withheld from the proceeds of the loan are prepaid finance charges. An example of this type of charge is the loan guarantee fee. The sum of the prepaid finance charges is deducted from the loan proceeds to determine the amount financed and included in the calculation of the finance charge. * * *

5. *Approved student credit forms.* See the commentary to Appendix H regarding disclosure forms approved for use in certain student credit programs.* * *

Section 226.18—Content of Disclosures

18(f) Variable Rate. * * *

3. *Use of estimates.* The variable rate feature does not, by itself, make the disclosures estimates. (See the commentary to § 226.17(c) for a discussion of basis for estimates.) * * *

Comments 18(f)–3, 4, and 5 are redesignated 18(f)–4, 5, and 6, respectively.

7. *Growth equity mortgages.* Also referred to as payment escalated mortgages, these mortgage plans involve scheduled payment increases to prematurely amortize the loan. The initial payment amount is determined as for a long-term loan with a fixed interest rate. Payment increases are scheduled periodically, based on changes in an index. The larger payments result in accelerated amortization of the loan. In disclosing these mortgage plans, creditors may either:

- Estimate the amount of payment increases, based on the best information reasonably available; or
- Disclose by analogy to the variable rate disclosures, indicating that the payments are subject to increase, describing the circumstances under which the payments would increase, together with limitations on the increase, and providing an example of the increase.

(This discussion does not apply to growth equity mortages in which the amount of payment increases can be accurately determined at the time of disclosure. For these mortages, as for graduated payment mortages, disclosures should reflect the scheduled increases in payments.) * * *

Paragraph 18(f)(3).

1. *Effects.* Disclosure of the effect of an increase refers to an increase in the number or amount of payments or an increase in the final payment. In addition, the creditor may make a brief reference to negative amortization that may result from a rate increase. (See the commentary to § 226.17(a)(1) regarding directly related information.) If the effect cannot be determined, the creditor must provide a statement of the possible effects. For example, if the exercise of the variable-rate feature may result in either more or larger payments, both possibilities must be noted.

Paragraph 18(f)(4).

1. *Hypothetical example.* The example may, at the creditor's option, appear apart from the other disclosures. The creditor may provide either a standard example that illustrates the terms and conditions of that type of credit offered by that creditor or an example that directly reflects the terms and conditions of the particular transaction.

2. *Hypothetical example not required.* The creditor need not provide a hypothetical example in the following transactions with a variable-rate feature:

- Demand obligations with no alternate maturity date.
- Interim student credit extensions.
- Multiple-advance construction loans disclosed pursuant to Appendix D, Part I.

18(g) Payment Schedule.

1. *Amounts included in repayment schedule.* The repayment schedule should reflect all components of the finance charge, not merely the portion attributable to interest. A prepaid finance charge, however, should not be shown in the repayment schedule as a separate payment. The payments may include amounts beyond the amount financed and finance charge. For example, the disclosed payments may, at the creditor's option, reflect certain insurance premiums where the premiums are not part of either the amount financed or the finance charge, as well as real estate escrow amounts such as taxes added to the payment in mortage transactions. * * *

Paragraph 18(g)(2).

1. *Abbreviated disclosure.* The creditor may disclose an abbreviated payment schedule when the amount of each regularly scheduled payment (other than the first or last payment) includes an equal amount to be applied on principal and a finance charge computed by application of a rate to the decreasing unpaid balance. This option is also available when mortage-guarantee insurance premiums, paid either monthly or annually, cause variations in the amount of the scheduled payments, reflecting the continual decrease or increase in the premium due. The creditor using this alternative must disclose the dollar amount of the highest and lowest payments and make reference to the variation in payments. * * *

18(i) Demand Feature. * * *

2. *Covered demand features.* The type of demand feature triggering the disclosures required by § 226.18(i) includes only those demand features contemplated by the parties as part of the legal obligation. For example, this provision does not apply to transactions that covert to a demand status as a result of the consumer's default. A due-on-sale clause is not considered a demand feature. * * *

18(k) Prepayment. * * *

3. *Prepaid finance charge.* The existence of a prepaid finance charge in a transaction does not, by itself, require a disclosure under § 226.18(k). A prepaid finance charge is not considered a penalty under § 226.18(k)(1), nor does it require a disclosure under § 226.18(k)(2). At its option, however, a creditor may consider a prepaid finance charge to be under § 226.18(k)(2). If a disclosure is made under § 226.18(k)(2) with respect to a prepaid finance charge or other finance charge, the creditor may further identify that finance charge. For example, the disclosure may state that the borrower "will not be entitled to a refund of the prepaid finance charge" or some other term that describes the finance charge.

Paragraph 18(k)(1).

1. *Penalty.* This applies only to those transactions in which the interest calculation takes account of all scheduled reductions in principal, as well as transactions in which interest calculations are made daily. The term "penalty" as used here encompasses only those charges that are assessed strictly because of the prepayment in full of a simple-interest obligation, as an addition to all other amounts. Items which are not penalties include, for example:

- Loan guarantee fees.
- Interim interest on a student loan.

However, a minimum finance charge is a penalty in a simple-interest transaction. (See the commentary to § 226.17(a)(1) regarding the disclosure of a minimum finance charge as directly related information.)

Paragraph 18(k)(2).

1. *Rebate of finance charge.* This applies to any finance charges that do not take account of each reduction in the principal balance of an obligation. This category includes, for example:

- Precomputed finance charges such as add-on charges.
- Charges that take account of some but not all reductions in principal, such as mortgage guarantee insurance assessed on the basis of an annual declining balance, when the principal is reduced on a monthly basis.

No description of the method of computing earned or unearned finance charges is required or permitted as part of the segregated disclosures under this section. * * *

18(r) Required Deposit. * * *

2. *Pledged account mortgages.* In these transactions, a consumer pledges as collateral funds that the consumer deposits in an account held by the creditor. The creditor withdraws sums from that account to supplement the consumer's periodic payments. Creditors may treat these pledged accounts as required deposits or they may treat them as consumer buydowns in accordance with the commentary to § 226.17(c)(1). * * *

Comments 18(r)–2, 3, 4, and 5 are redesignated 18(r)–3, 4, 5, and 6, respectively.

Section 226.19—Certain Residential Mortgage Transactions

19(a) Time of Disclosure. * * *

2. *Timing and use of estimates.* Truth in Lending disclosures must be given (a) before consummation or (b) within three business days after the creditor receives the consumer's written application, whichever is earlier. The three-day period for disclosing credit terms coincides with the time period within which creditors subject to RESPA must provide good faith estimates of settlement costs. If the creditor does not know the precise credit terms, the creditor must base the disclosures on the best information reasonably available and indicate that the disclosures are estimates under § 226.17(c)(2). If many of the disclosures are estimates, the creditor may include a statement to that effect (such as "all numerical disclosures except the late-payment disclosure are estimates") instead of separately labelling each estimate. In the alternative, the creditor may label as an estimate only the items primarily affected by unknown information. (See the commentary to § 226.17(c)(2).) The creditor may provide explanatory material concerning the estimates and the contingencies that may affect the actual terms, [either on a separate document or on the same document (but separate from the required disclosures).] in accordance with the commentary to § 226.17(a)(1). * * *

Section 226.20—Subsequent Disclosure Requirements

20(a) Refinancings. * * *

3. *Variable rate.* If a variable-rate feature was properly disclosed under the regulation, a rate change in accord with those disclosures is not a refinancing. For example, a renegotiable rate mortgage that was disclosed as a variable-rate transaction is not subject to new disclosure requirements when the variable-rate feature is invoked. However, even if it is not accomplished by the cancellation of the old obligation and substitution of a new one, a new transaction subject to new disclosures results if the creditor either:

- Increases the rate based on a variable-rate feature that was not previously disclosed, or
- Adds a variable-rate feature to the obligation. * * *

5. *Coverage.* Section 226.20(a) applies only to refinancings undertaken by the original creditor or a holder or servicer of the original obligation. A "refinancing" by any other person is a new transaction under the regulation,

not a refinancing under this section. * * *

20(b) Assumptions.

1. *General definition.* An assumption as defined in § 226.20(b) is a new transaction and new disclosures must be made to the subsequent consumer. An assumption under the regulation requires the following three elements:

- A residential mortgage transaction.
- An express acceptance of the subsequent consumer by the creditor.
- A written agreement.

The assumption of a non-exempt consumer credit obligation requires no disclosures unless all three elements are present. * * *

Comment 20(b)–6 is removed and Comment 20(b)–7 is redesignated 20(b)–6.

Section 226.22—Determination of the Annual Percentage Rate

22(a) Accuracy of the Annual Percentage Rate.

Paragraph 22(a)(1). * * *

4. *Basis for calculations.* When a transaction involves "step rates" or "split rates"—that is, different rates applied at different times or to different portions of the principal balance—a single composite annual percentage rate must be calculated and disclosed for the entire transaction. Assume, for example, a step-rate transaction in which a $10,000 loan is repayable in 5 years at 10 percent interest for the first 2 years, 12 percent for years 3 and 4, and 14 percent for year 5. The monthly payments are $210.71 during the first 2 years of the term, $220.25 for years 3 and 4, and $222.59 for year 5. The composite annual percentage rate, using a calculator with a "discounted cash flow analysis" or "internal rate of return" function, is 10.75 percent. * * *

Section 226.24—Advertising

24(b) Advertisement of Rate of Finance Charge. * * *

4. *Effective rates.* In some transactions the consumer's payments may be based upon an interest rate lower than the rate at which interest is accruing. The lower rate may be referred to as the effective rate, payment rate or qualifying rate. A creditor or seller may advertise such rates by stating: The term of the reduced payment schedule, the interest rate upon which the reduced payments are calculated, the rate at which the interest is in fact accruing, and the annual percentage rate. The advertised annual percentage rate that must accompany this rate must take into account the interest that will accrue but will not be paid during this period. For example, an advertisement may state "An effective first year interest rate of 10 percent. Interest being earned at 14 percent. Annual percentage rate 15 percent."

Subpart D—Miscellaneous * * *

Section 226.29—State Exemptions

29(a) General Rule. * * *

4. *Exemptions granted.* Effective October 1, 1982, the Board has granted the following exemptions from portions of the revised Truth in Lending Act:

- *Maine.* Credit or lease transactions subject to the Maine Consumer Credit Code and its implementing regulations are exempt from chapters 2, 4 and 5 of the federal act. (The exemption does not apply to transactions in which a federally chartered institution is a creditor or lessor.)
- *Connecticut.* Credit transactions subject to the Connecticut Truth in Lending Act are exempt from chapters 2 and 4 of the federal act. (The exemption does not apply to transactions in which a federally chartered institution is a creditor.)

* * *

Appendix D—Multiple-Advance Construction Loans

2. *Variable-rate construction loans.* The hypothetical disclosure required in most variable-rate transactions by § 226.18(f)(4) is not required for multiple-advance construction loans disclosed pursuant to Appendix D, Part I.

3. *Calculation of the total of payments.* When disclosures are made pursuant to Appendix D, the total of payments may reflect either the sum of the payments or the sum of the amount financed and the finance charge.

4. *Annual percentage rate.* Appendix D does not require the use of Volume I of the Board's Annual Percentage Rate Tables for calculation of the annual percentage rate. Creditors utilizing Appendix D in making calculations and disclosures may use other computation tools to determine the estimated annual percentage rate, based on the finance charge and payment schedule obtained by use of the appendix. * * *

Appendix F—Annual Percentage Rate Computations for Certain Open-End Credit Plans

1. *Daily rate with specific transaction charge.* If the finance charge results from a charge relating to a specific transaction and the application of a daily periodic rate, see comment 14(c)–6 for guidance on an appropriate calculation method. * * *

Appendix H—Closed-End Model Forms and Clauses

17. *ED–876A 4/82.* Pursuant to section 113(a) of the amended Truth in Lending Act, Form ED–876A 4/82, issued by the U.S. Department of Education for certain student loans, has been approved. This form may be used for all PLUS loans in which the borrower qualifies for an immediate deferment of principal payments under the terms of the note and disclosures are made under the interim student credit rules in § 226.17(j). The following changes may be made to the form:

- Reducing the size of the form.
- Deleting inapplicable disclosures by whiting out, blocking out, filling in "N/A" (not applicable) or "O," crossing out, leaving blanks, or circling applicable items.
- Deleting, whiting out, blocking out, or crossing out the words "Less" and "Equals" in the Itemization of the Amount Financed.
- Adding lines to the Itemization of the Amount Financed to indicate amounts paid to others.

18. *ED–876 1/82.* Pursuant to section 113(a) of the amended Truth in Lending Act, Form ED–876 1/82, issued by the U.S. Department of Education for certain student loans, has been approved. The form may be used for all PLUS loans in which there is no deferment before the borrower begins repayment of both principal and interest. The form may also be used for PLUS loans when the borrower qualifies for a deferment of principal payments and the annual percentage rate to be disclosed is calculated taking account of the irregular payment schedule. The form may also be used for consolidation of previous PLUS loans, whether or not the borrower had a deferment of principal payments under the earlier loans. The following changes may be made to the form:

- Reducing the size of the form.
- Adding lines to the payment schedule disclosure.
- Deleting inapplicable disclosures by whiting out, blocking out, filling in "N/A" (not applicable) or "O," crossing out, leaving blanks, or circling applicable items.
- Deleting, whiting out, blocking out, or crossing out the words "Less" and "Equals" in the Itemization of the Amount Financed.

- Adding lines to the Itemization of the Amount Financed to indicate amounts paid to others.

19. *ED–888 5/82.* Pursuant to section 113(a) of the amended Truth in Lending Act, Form ED–888 5/82, issued by the U.S. Department of Education for certain student loans, has been approved. The form may be used for all Guaranteed Student Loan Program (GSLP) loans for which disclosures are made under the interim student credit rules in § 226.17(i). The following changes may be made to the form:

- Reducing the size of the form.
- Deleting inapplicable disclosures by whiting out, blocking out, filling in "N/A" (not applicable) or "O," crossing out, leaving blanks, or circling applicable items.
- Deleting, whiting out, blocking out, or crossing out the words "Less" and "Equals" in the Itemization of the Amount Financed.
- Adding lines to the Itemization of the Amount Financed to indicate amounts paid to others.

20. *ED–889 5/82.* Pursuant to section 113(a) of the amended Truth in Lending Act, Form ED–889 5/82, issued by the U.S. Department of Education for certain student loans, has been approved. This form may be used for all Guaranteed Student Loan Program (GSLP) loans in which the borrower is making payments of both interest and principal. These borrowers may or may not have received federal interest benefits during the in-school period and the subsequent grace period. The following changes may be made to the form:

- Reducing the size of the form.
- Deleting inapplicable disclosures by whiting out, blocking out, filling in "N/A" (not applicable) or "O," crossing out, leaving blanks, or circling applicable items.
- Deleting, whiting out, blocking out, or crossing out the words "Plus," "Less" and "Equals" in the Itemization of the Amount Financed.
- Adding lines to the Itemization of the Amount Financed to indicate amounts paid to others.

Board of Governors of the Federal Reserve System, September 13, 1982.

James McAfee,

Associate Secretary of the Board.

[FR Doc. 82–25677 Filed 9–17–82; 8:45 am]

BILLING CODE 6210–01–M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 82–NM–70–AD; Amdt. 39–4462]

Airworthiness Directives: British Aerospace (Hawker Siddeley) H.S. 748 Series; 2A Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adds a new Airworthiness Directive (AD) applicable to H.S. 748 airplanes which requires: (1) Inspection of the handle and operating mechanism for the overwing emergency exit panels for excessive play or backlash and correction as required; and (2) a check of certain indicator markings for proper location and correction of any discrepancies, if found to exist. This action is prompted by reports that three emergency overwing exit panels have been lost during flight. Loss of the panel could result in serious or fatal injury to passengers seated in the vicinity of the emergency exit and could result in structural damage to those areas vital to control of the airplane.

DATE: Effective date September 28, 1982.

ADDRESSES: The service bulletin specified in this Airworthiness Directive may be obtained upon request to British Aerospace, Inc., Box 17414, Dulles International Airport, Washington, D.C. 20041, or may be examined at the address shown below.

FOR FURTHER INFORMATION CONTACT: Mr. Harold N. Wantiez, Foreign Aircraft Certification Branch, ANM–150S, Seattle Area Aircraft Certification Office, FAA Northwest Mountain Region, 9010 East Marginal Way South, Seattle, Washington, telephone (206) 767–2530. Mailing address: FAA Northwest Mountain Region, 17900 Pacific Highway South, C–68966, Seattle, Washington, 98168.

SUPPLEMENTARY INFORMATION: The United Kingdom Civil Aviation Authority (CAA) has classified British Aerospace, Inc., H.S. 748 Service Bulletin A52–82 dated May 31, 1979, mandatory. This service bulletin requires inspection of the overwing emergency exit panel handle and operating mechanism, relocation of alignment markings, and adoption of maintenance procedures for reinstallation of the overwing emergency exit. There have been reports of three overwing emergency exit panels becoming detached and lost during flight because the emergency exit panel was not correctly fitted and properly locked. Improper locking of the panel can result because excessive play or backlash exists at the handle due to elongation of the hole in P/N 103D11502, a component in the lock operating mechanism, which permits the handle knob end to clear the Tufnel block and thus appear to be in the panel-locked position while, in fact, the lock is not fully engaged. In order to prevent this from occurring, the CAA is requiring inspection and modifications.

This airplane model is manufactured in the United Kingdom and type certificated in the United States under the provisions of § 21.29 of the Federal Aviation Regulations and the applicable airworthiness bilateral agreement.

Since this condition is likely to exist or develop on airplanes of this type design registered in the United States, an AD is being issued which requires the above mentioned inspections and modifications.

Since a situation exists that requires the immediate adoption of this regulation, it is found that notice and public procedure hereon are impractical and good cause exists for making this amendment effetive in less than 30 days.

List of Subjects in 14 CFR Part 39

Aviation safety, Aircraft.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) is amended by adding the following new Airworthiness Directive:

British Aerospace (formerly Hawker Siddeley): Applies to H.S. 748 Series 2A airplanes certificated in all categories. Compliance is required as indicated, unless already accomplished. To prevent loss of an emergency overwing exit panel during flight, accomplish the following within thirty days after the effective date of this AD:

1. Remove the word "CLOSED" and the associated indicator line from the exterior of the overwing emergency exit panels.

2. Inspect each overwing emergency exit panel for free movement of the handle and lock operating mechanism in accordance with paragraphs 2A (1), (2), (3), and (4) of the H.S. Service Bulletin A52–82, dated May 31, 1979, Accomplishment Instructions.

3. Check the fit of each overwing emergency exit panel in the fuselage aperture in accordance with Chapter 52–20–1 of the H.S. 748 Maintenance Manual or an FAA approved equivalent procedure.

4. Reestablish the indicator marking on the cam lever in accordance with paragraph 2A(4) of the service bulletin if the inspections and checks required in paragraph 2 of this AD show the indicator markings on the cam lever and the lever stop do not coincide.

5. Alternate means of compliance with this AD which provide an equivalent level of safety may be used when approved by the Manager, Seattle Area Aircraft Certification Office, FAA Northwest Mountain Region.

6. Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes to a base for the accomplishment of inspections and/or modifications required by this AD.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1).

This amendment becomes effective September 28, 1982.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); 14 CFR 11.89)

Note.—The FAA has determined that this regulation is an emergency regulation that is not major under Executive Order 12291. It has been further determined that this document involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). If this action is subsequently determined to involve a significant regulation, a final regulatory evaluation or analysis, as appropriate, will be prepared and placed in the regulatory docket (otherwise, an evaluation is not required). A copy of it, when filed, may be obtained by contacting the person identified above under the caption "FOR FURTHER INFORMATION CONTACT."

This rule is a final order of the Administrator. Under Section 1006(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1486(a)), it is subject to review by the courts of appeals of the United States or the United States Court of Appeals for the District of Columbia.

Issued in Seattle, Washington, on September 8, 1982.

Charles R. Foster,

Director, Northwest Mountain Region.

[FR Doc. 82-25630 Filed 9-17-82; 8:45 am]

BILLING CODE 4910-13-M

---

14 CFR Part 71

[Airspace Docket No. 82-AWP-20]

Alteration of Transition Area, San Diego, California

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; request for comments.

SUMMARY: This amendment alters the description of the San Diego, California, 700 foot transition area by adding an extension to the north. This extension is necessary to provide additional controlled airspace for an existing instrument approach procedure.

EFFECTIVE DATE: 0900 G.m.t., December 23, 1982. Comments on the rule must be received by October 14, 1982.

ADDRESSES: Send comments in triplicate to Director, Federal Aviation Administration, Attn: Manager, Airspace and Procedures Branch, AWP-530, 15000 Aviation Boulevard, Lawndale, California 90261. A public docket will be available for examination in the Office of the Regional Counsel, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261; telephone: (213) 536-6270.

FOR FURTHER INFORMATION CONTACT: Thomas A. Rea, Airspace and Procedures Branch, Air Traffic Division, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261; telephone (213) 536-6182.

SUPPLEMENTARY INFORMATION:

History

The purpose of this amendment to Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is to designate a 700 foot transition area extension to provide controlled airspace for existing IFR operations. This amendment represents a change in the technical description of the transition area and imposes no greater constraints on the public than presently exist.

Request for Comments on the Rule

Although this action is in the form of a final rule and was not preceded by notice and public procedure, comments are invited on the rule. When the comment period ends, the FAA will use the comments submitted, together with other available information, to review the regulation. After the review, if the FAA finds that changes are appropriate, it will initiate rulemaking proceedings to amend the regulation. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in evaluating the effects of the rule and determining whether additional rulemaking is needed. Comments are specifically invited on the overall regulatory, aeronautical, economic and energy aspects of the rule that might suggest the need to modify the rule.

The Rule

The purpose of this amendment to subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is to alter the description of the San Diego, California, transition area by adding an extension to encompass existing instrument approaches to McClellan-Palomar Airport, Carlsbad, California. Section 71.181 of Part 71 of the Federal Aviation Regulations was republished in Advisory Circular AC 70-3 dated January 29, 1982.

Under the circumstances presented, the FAA concludes that there is an immediate need for a regulation to redesignate the transition area airspace. Therefore, I find that notice of public procedure under 5 U.S.C. 353(b) is contrary to public interest.

List of Subjects in 14 CFR Part 71

Transition area.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) (as amended) is further amended, effective 0901 GMT, December 23, 1982, as follows:

71.181 San Diego, California

Following * * * "latitude 33°15'00" N., longitude 117°30'30" W:." Delete "latitude 33°15'00" N., longitude 117°02'00"W:," and add "latitude 33°15'00" N., longitude 116°30'00" W:" to "latitude 33°00'00" N., longitude 116°45'00" * * *"

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a), 1354(a), and 1510, Executive Order 10854 (24 FR 9565); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69)

Note.—The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under criteria of the Regulatory Flexibility Act.

Issued in Los Angeles, California, on September 7, 1982.

H. C. McClure,

Director, Western-Pacific Region.

[FR Doc. 82-25640 Filed 9-17-82; 8:45 am]

BILLING CODE 4910-13-M

---

14 CFR Part 97

[Docket No. 23318; Amdt. No. 1225]

Standard Instrument Approach Procedures; Miscellaneous Amendments

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment establishes, amends, suspends, or revokes Standard Instrument Approach Procedures (SIAPs) for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, addition of new obstacles, or changes in air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: An effective date for each SIAP is specified in the amendatory provisions.

ADDRESSES: Availability of matters incorporated by reference in the amendment is as follows:

For Examination—

1. FAA Rules Docket, FAA Headquarters Building, 800 Independence Avenue, SW., Washington, D.C. 20591;
2. The FAA Regional Office of the region in which the affected airport is located; or
3. The Flight Inspection Field Office which originated the SIAP.

For Purchase—

Individual SIAP copies may be obtained from:

1. FAA Public Information Center (APA–430), FAA Headquarters Building, 800 Independence Avenue, SW., Washington, D.C. 20591; or
2. The FAA Regional Office of the region in which the affected airport is located.

By Subscription—

Copies of all SIAPs, mailed once every 2 weeks, are for sale by the Superintendant of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

FOR FURTHER INFORMATION CONTACT: Donald K. Funai, Flight Procedures and Airspace Branch (AFO–730), Aircraft Programs Division, Office of Flight Operations, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone (202) 426–8277.

SUPPLEMENTARY INFORMATION: This amendment to Part 97 of the Federal Aviation Regulations (14 CFR Part 97) prescribes new, amended, suspended, or revoked Standard Instrument Approach Procedures (SIAPs). The complete regulatory description of each SIAP is contained in official FAA form documents which are incorporated by reference in this amendment under 5 U.S.C. 552(a), 1 CFR Part 51, and § 97.20 of the Federal Aviation Regulations (FARs). The applicable FAA Forms are identified as FAA Forms 8260–3, 8260–4 and 8260–5. Materials incorporated by reference are available for examination or purchase as stated above.

The large number of SIAPs, their complex nature, and the need for a special format make their verbatim publication in the **Federal Register** expensive and impractical. Further, airmen do not use the regulatory text of the SIAPs, but refer to their graphic depiction on charts printed by publishers of aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description of each SIAP contained in FAA form document is unnecessary. The provisons of this amendment state the affected CFR (and FAR) sections, with the types and effective dates of the SIAPs. This amendment also identifies the airport, its location, the procedure identification and the amendment number.

This amendment to Part 97 is effective on the date of publication and contains separate SIAPs which have compliance dates stated as effective dates based on related changes in the National Airspace System or the application of new or revised criteria. Some SIAP amendments may have been previously issued by the FAA in a National Flight Data Center (FDC) Notice to Airmen (NOTAM) as an emergency action of immediate flight safety relating directly to published aeronautical charts. The circumstances which created the need for some SIAP amendments may require making them effective in less than 30 days. For the remaining SIAPs, an effective date at least 30 days after publication is provided.

Further, the SIAPs contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Approach Procedures (TERPs). In developing these SIAPs, the TERPs criteria were applied to the conditions existing or anticipated at the affected airports. Because of the close and immediate relationship between these SIAPs and safety in air commerce, I find that notice and public procedure before adopting these SIAPs is unnecessary, impracticable, or contrary to the public interest and, where applicable, that good cause exists for making some SIAPs effective in less than 30 days.

List of Subjects in 14 CFR Part 97

Approaches, Standard instrument.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, Part 97 of the Federal Aviation Regulations (14 CFR Part 97) is amended by establishing, amending, suspending, or revoking Standard Instrument Approach Procedures, effective at 0901 Gmt on the dates specified, as follows:

1. By amending Part 97.23 VOR–VOR/DME SIAPs identified as follows:

* * * *Effective October 28, 1982*

(Secs. 307, 313(a), 601, and 1110, Federal Aviation Act of 1958 (49 U.S.C. 1348, 1354(a), 1421, and 1510); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.49(b)(3))

Note.—The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. The FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Washington, D.C. on September 10, 1982.

John M. Howard,

Manager, Aircraft Programs Division.

Note.—The incorporation by reference in the preceding document was approved by the Director of the Federal Register on December 31, 1980.

GENERAL SERVICES ADMINISTRATION

41 CFR Ch. I

[FPR Temp. Reg. 51, Supp. 2]

Telecommunications Acquisitions

AGENCY: General Services Administration.

ACTION: Temporary regulation supplement.

SUMMARY: The purpose of this regulation is to extend the expiration date of FPR Temporary Regulation 51, Telecommunications Acquisitions, and

to revise Section 1–4.1201–5 concerning the definition of "comparative cost analysis." The basis for this regulatory change is the need to provide agencies with revised guidance. The intended effect is to reflect the present value of money.

DATES: Effective date: This regulation is effective September 30, 1982, but may be observed earlier. Expiration date: This regulation will expire September 30, 1984, unless revised or superseded earlier.

FOR FURTHER INFORMATION CONTACT: Philip G. Read, Director, Office of Federal Procurement Regulations, Office of Acquisition Policy, (202–523–4755).

SUPPLEMENTARY INFORMATION:

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

In 41 CFR Chapter 1, FPR Temporary Regulation 51, Supplement 2 is added to the appendix at the end of the chapter.

General Services Administration,
Washington, D.C., August 27, 1982.

Federal Procurement Regulations, Temporary Regulation 51, Supplement 2

To: Heads of Federal agencies.
Subject: Telecommunications acquistions.

1. *Purpose.* Supplement 2 extends the expiration date of FPR Temporary Regulation 51 and revises § 1–4.1201–5 concerning the definition of "comparative cost analysis."

2. *Effective date.* This regulation is effective September 30, 1982, but may be observed earlier.

3. *Expiration date.* This regulation will expire September 30, 1984, unless revised or superseded.

4. *Background.* FPR Temporary Regulation 51 provides Federal agency guidance on the acquisition of telecommunications. The proposed codification of this temporary regulation is being withheld at this time because of potential legislation and the consideration of a revision to a January 24, 1956 Consent Decree with the American Telephone and Telegraph Company.

5. *Explanation of change.*

a. Subpart 1–4.12 is renumbered Subpart 1–4.13 and the sections within the subpart are renumbered accordingly.

b. Section 1–4.1201–5 is renumbered as § 1–4.1301–5 and is amended to read as follows:

§ 1–4.1301–5 Comparative cost analysis.

"Comparative cost analysis" means a procedure for adjusting the system life cost to the present value of money. The present value is computed by using the discount rate prescribed by OMB Circular A–94 or a higher rate as determined by the procuring agency. The higher rate, if used, is to reflect the agency's desired rate of return to assure the optimal allocation of its limited funds.

c. The expiration date contained in paragraph 3 of FPR Temporary Regulation 51 is revised to

6. *Effect on other directives.* Supplement 1 to FPR Temporary Regulation 51 is canceled.

7. *Submission of comments.* Comments are invited concerning this regulation and its effect and impact on the competitive acquisition of telecommunications. Comments should be forwarded to GSA (CPEP), Washington, D.C. 20405 no later than November 30, 1982.

Gerald P. Carmen,
Administrator of General Services.

[FPR Amendment 224]

Federal Procurement Data System Reporting Requirements

AGENCY: General Services Administration.

ACTION: Final rule.

SUMMARY: This regulation incorporates the Federal Procurement Data System reporting requirements into the Federal Procurement Regulations. This action is required to make the latest procurement data reporting requirements applicable to executive agencies. The effect will be to improve procurement statistical reporting.

EFFECTIVE DATE: October 1, 1982.

FOR FURTHER INFORMATION CONTACT: Philip G. Read, Director, Office of Federal Procurement Regulations, Office of Acquisition Policy, (202–523–4755).

SUPPLEMENTARY INFORMATION:

Information collection requirements contained in this regulation (§§ 1–1.340, 1–1.341, 1–1.709, 1–6.106, 1–16.401(k), and 1–18.607) have been approved by the Office of Management and Budget under the provisions of the Paperwork Reduction Act of 1980 (Pub. L. 96–511) and have been assigned OMB control numbers 3090–0075, 3090–0094, 3090–0095, 3090–0074, 3090–0009, and 3090–0061, respectively. Sections 1–16.101(a) and 1–16.401(c) contain information collection requirements which are pending review by OMB. FPR Temporary Regulation 48 (44 FR 2388, January 11, 1979) and Supplements 1 (45 FR 27762, April 24, 1980) and 2 (47 FR 25018, June 9, 1982) and FPR Temporary Regulation 58 (46 FR 17780, March 20, 1981) are canceled and deleted from the appendix at the end of 41 CFR Chapter 1.

List of Subjects

41 CFR Part 1–1

Government procurement, Environmental protection, Labor surplus areas, Minority businesses, Recycled materials, Small businesses, Administrative practices and procedures, and Subcontractor gifts and kickbacks.

41 CFR Part 1–6

Government procurement and Foreign purchases.

41 CFR Part 1–16

Government procurement and Procurement forms.

41 CFR Part 1–18

Government procurement, Labor standards, and Construction.

PART 1–1—GENERAL

The table of contents for Part 1–1 is amended to add three entries, as follows:

* * * * *

Subpart 1–1.3—General Policies

Sec.
1–1.340 Women-owned business concerns.
1–1.340–1 General.
1–1.341 Contract data reporting.
* * * * *

Subpart 1–1.3—General Policies

1. Section 1–1.340 is added as follows:

§ 1–1.340 Women-owned business concerns.

§ 1–1.340–1 General.

It is the policy of the Government under Executive Order 12138 that women-owned business concerns shall have the maximum practicable opportunity to participate in Federal contracts. As used in this § 1–1.340, a "women-owned business" concern means a business that is at least 51 percent owned by a woman or women who also control and operate the business. The Women-Owned Business representation set forth in this § 1–1.340–1 shall be included in all solicitations and all contract awards.

Women-Owned Business

The offeror represents that the firm submitting this offer ☐ is, ☐ is not, a women-owned business. A women-owned business is a business that is at least 51 percent owned by a woman or women who also control and operate the business. Control in this context means exercising the power to make policy decisions. Operate in this context means being actively involved in the day-to-day management.

For the purposes of this definition, businesses which are publicly owned, joint stock associations, and business trusts are exempted. Exempted businesses may voluntarily represent that they are or are not women-owned if this information is available. (Approved by the Office of Management and Budget under OMB control number 3090–0075.)

2. Section 1–1.341 is added, as follows:

§ 1-1.341 Contract data reporting.

(a) This section prescribes reporting requirements to provide data concerning the award of contracts. The data provides (1) a basis for recurring and special reports to the President, the Congress, the General Accounting Office, Federal executive agencies, and the general public; (2) a means of measuring and assessing the impact of Federal contracting on the Nation's economy and the extent to which small and small disadvantaged concerns are sharing in Federal contracts; and (3) data for other policy and management control purposes.

(b) Each executive agency, including the Department of Defense, shall report contract actions that obligate or deobligate funds to the General Service Administration, Federal Procurement Data Center, on the forms prescribed in § 1-16.804. Instructions for completing the forms are contained in the Federal Procurement Data System Reporting Manual, Volumes I and II, as supplemented by FPDS Directives. Copies of the manuals may be obtained from Federal Procurement Data Center, 4040 North Fairfax Drive, Suite 900, Arlington, VA 22203. (Approved by the Office of Management and Budget under OMB control numbers 3090-0094 and 3090-0095).

Subpart 1-1.7—Small Business Concerns

Section 1-1.709 is revised, as follows:

§ 1-1.709 Records and reports.

Executive agencies shall, in soliciting bids or proposals, request from any bidder or offeror any information needed to determine whether the bidder or offeror is a small or small disadvantaged business concern. (Approved by the Office of Management and Budget under OMB No. 3090-0074.) Agencies shall report such procurement data on Standard Form 279, FPDS—Individual Contract Action Report (over $10,000), assigned Interagency Report Control Number 0206-GSA-QU, and Standard Form 281 FPDS—Summary of Contract Actions of $10,000 or Less, assigned Interagency Report Control number 0208-GSA-QU, in accordance with § 1-1.341. (Approved by the Office of Management and Budget under OMB control numbers 3090-0095 and 3090-0094, respectively.)

Subpart 1-1.8—Labor Surplus Area Concerns

Section 1-1.807 is revised, as follows:

§ 1-1.807 Records and reports.

Executive agencies shall maintain such records of procurement contracts to be performed in labor surplus areas as are necessary to prepare reports prescribed in § 1-1.341.

Subpart 1-1.13—Minority Business Enterprises

Section 1-1.1302 is amended by removing paragraphs (a)(8) and (a)(9), as follows:

§ 1-1.1302 Agency programs.

(a) * * *

(8) [Removed]

(9) [Removed]

* * * * *

PART 1-6—FOREIGN PURCHASES

The table of contents for Parts 1-6 is amended to add one entry, as follows:

1-6.106 Country of manufacturer.

Subpart 1-6.1—Buy American Act—Supply and Service Contracts

Section 1-6.106 is added as follows:

§ 1-6.106 Country of manufacturer.

The following representation shall be included in all solicitations and all contract awards which exceed $10,000:

Country of Manufacturer

The product which the offeror proposes to furnish ☐ is, ☐ is not, manufactured, mined, or grown in the United States. If the product is not manufactured, mined, or grown in the United States, the country of manufacturer is———. (Approved by the Office of Management and Budget under OMB control number 3090-0061.)

(End of Clause)

PART 1-16—PROCUREMENT FORMS

The table of contents for Part 1-16 is amended to remove nine entries, revise one entry, and add two entries, as follows:

1-16.804 Contract action reports.
1-16.804-1 [Removed]
1-16.804-2 [Removed]
1-16.804-3 [Removed]
1-16.804-4 [Removed]
1-16.804-5 [Removed]
1-16.804-6 [Removed]
* * * * *
1-16.901-37 [Removed]
1-16.901-37A [Removed]
* * * * *
1-16.901-279 FPDS—Individual Action Report (over $10,000).
1-16.901-281 FPDS—Summary of Actions of $10,000 or Less
* * * * *
1-16.902-OF 61 [Removed]
* * * * *

Subpart 1-16.1—Forms for Advertised Supply Contracts

Section 1-16.101(a) is revised as follows:

§ 1-16.101 Contract forms.

* * * * *

(a) Solicitation, Offer, and Award (Standard Form 33, March 1977 edition). Pending the publication of a new edition of the form, the representation Public and Private Organizations for the Handicapped or Handicapped Individuals, prescribed by § 1-1.709-9; the representation Women-owned Business, prescribed by § 1-1.340; and the representation Country of Manufacturer, prescribed by § 1-6.106, shall be added to the representations and certifications on the form. To the provisions that appear on page 1 of the form, add the requirement that each contractor receiving an award over $10,000 will be requested to identify its principal place of performance and furnish its DUNS number if one has been assigned.

* * * * *

Subpart 1-16.4—Forms for Advertised Construction Contracts

Section 1-16.401(c) is revised as follows:

§ 1-16.401 Forms prescribed.

* * * * *

(c) Representations and Certifications (Construction and Architect-Engineer Contract) (Standard Form 19-B, June 1976 edition). Pending the publication of a new edition of the form, the representations Women-owned Business (see § 1-1.340) and Country of Manufacturer (see § 1-18.607) shall be added to the representations and certifications that appear on the form.

* * * * *

Subpart 1-16.8—Miscellaneous Forms

1. Section 1-16.802 is revised as follows:

§ 1-16.802 Bidder's Mailing List Application.

Bidder's Mailing List Application (Standard Form 129, February 1977 edition) is prescribed for use in connection with the establishment and maintenance of bidders mailing lis's in accordance with § 1-2.205. Supplemental information, when required, may be obtained in accordance with agency procedures.

(a) Pending the publication of a new edition of the form, add to the provisions that appear on page 1 of the form, the following representation:

Women-Owned Business

Concern is ☐ is not ☐ a women-owned business. (Approved by the Office of Management and Budget under OMB control number 3090–0009.)

(b) Add to the provisions that appear on page 2 of the form, the following definition:

Women-Owned Business

A women-owned business is a business concern which is at least 51 percent owned, controlled, and operated by a woman or women. Controlled is defined as exercising the power to make policy decisions. Operated is defined as actively involved in the day-to-day management.

For the purposes of this definition, businesses which are publicly owned, joint stock associations, and business trusts are exempted. Exempted businesses may voluntarily represent that they are, or are not, women-owned if this information is available.

(End of Clause)

2. Section 1–16.804 is revised, as follows:

§ 1–16.808 Contract action reports.

The following Standard forms are prescribed for use in reporting contract actions to the Federal Procurement Data Center.

(a) FPDS—Individual Action Report (over $10,000) (Standard Form 279, October 1982 edition).

(b) FPDS—Summary of Contract Actions of $10,000 or Less (Standard Form 281, October 1982 edition).

§§ 1–16.804–1—1–16.804–6 [Removed]

Subpart 1–16.9—Illustration of Forms

1. Sections 1–16.901–37 and 1–16.901–37A are removed as follows:

§§ 1–16.901–37—1–16.901–37A [Removed]

2. Sections 1–16.901–279 and 1–16.901–281 are added, as follows:

41 CFR Parts 101-20, 101-26

[FPMR Amendment D-79]

Management of Buildings and Grounds and Federal Buildings Fund; Reimbursable Services

AGENCY: General Services Administration.

ACTION: Final rule.

SUMMARY: In response to findings of a General Accounting Office (GAO) report, GSA is amending its regulations to change the billing procedure for reimbursable services from fixed-price billing in advance-to quarterly billing in an amount equal to obligations accumulated for the billing period, for all except recurring above-standard-level reimbursable work. GSA is also delegating greater authority to client agencies for accomplishing alterations that are not provided by PBS under the Standard Level User Charge (SLUC). This regulation is expected to improve the management of the reimbursable program.

EFFECTIVE DATE: September 20, 1982.

FOR FURTHER INFORMATION CONTACT: Dominick Pastore, Office of Program Support (PF), (202-566-1954).

SUPPLEMENTARY INFORMATION: GAO in its audit report 25-1026-P, GSA's Management of Reimbursable Building Services Needs Improvement, of July 8, 1981, expressed concern over agency complaints of high prices and the perception of frequent overcharging due to faulty fixed-price estimates. The change in billing policy will result in agencies being charged actual cost for most reimbursable services.

GSA will continue to provide cost estimates for which agencies must certify availability of funds. Billing for most reimbursable services will be on a quarterly basis in an amount equal to obligations accumulated for the billing period. At completion, a final bill or refund will be rendered to adjust to the actual cost of the services performed.

Recurring above-standard-level reimbursable services will continue to be provided on a fixed-price basis with billing in advance of the services provided. For the purpose of clarification, recurring above-standard-level reimbursable services are those services, such as additional cleaning or utilities, which are so intermixed with the same services performed under the standard level that it is not possible to isolate their actual cost.

GAO, in the same report, also expressed concern over the slow delivery and increasing backlog of reimbursable work. The increase in the authority delegated to agencies to contract for their own alterations should result in elimination of a large number of smaller reimbursable work requests and allow GSA to more effectively use its resources to provide better services.

GSA, in its efforts to improve the management of the reimbursable program, will delegate greater authority to client agencies for accomplishing alterations which are not provided by PBS under the Standard Level User Charge (SLUC). Under the delegation, agencies may accomplish, within PBS guidelines and standards, alterations valued at $10,000 or less where GSA has an ongoing indefinite quantity contract or unit price agreement and contract directly for alterations valued at $10,000 or less, where GSA contracts are not available.

GSA has determined that this regulation will not be considered a major rule under Executive Order 12291 of February 17, 1981, because it is not likely to result in an annual effect on the economy of $100 million or more; a major increase in costs or prices; or result in significant adverse effects. GSA has based all administration decisions underlying this rule on adequate information concerning the need for, and consequences of, this rule; has determined that the potential benefits to society from this rule outweigh the potential costs and has maximized the net benefits; and has chosen the alternative approach involving the least net cost to society.

The information requirements contained in this regulation [section 101-20.105(a)(2)] have been approved by the Office of Management and Budget under the provisions of the Paperwork Reduction Act of 1980 (Pub. L. 96-511) and have been assigned OMB control numbers 3090-0800 and 3090-0071.

List of Subjects

41 CFR Part 101-20

Fire prevention, Blind, Safety, Concessions, Crime, Federal buildings and facilities, Government property management, Security measures.

41 CFR Part 101-21

Federal buildings and facilities and Government property management.

GSA is amending Part 101-20 as follows:

PART 101-20—MANAGEMENT OF BUILDINGS AND GROUNDS

Subpart 101-20.1—Building Operations, Maintenance, Protection, and Alterations

1. Section 101-20.105 is amended by revising paragraph (a) to read as follows:

§ 101-20.105 Reimbursable services.

* * * * *

(a) Special Space alterations, except for communication/security systems, required by occupant agencies above the standard level provided by GSA and prescribed in § 101-20.102.

(1) Where GSA has operative indefinite quantity contracts and unit price agreements for accomplishment of space alterations in Government-owned and -leased buildings, respectively, agencies may order against these contracts and agreements. Agencies wishing to use this authority shall submit names and addresses of proposed ordering officials and their alternates to the GSA buildings manager, who will submit them to the GSA contracting officer. Each agency shall be limited to one designated ordering official and one alternate in any building. The contracting officer shall designate in writing the ordering official and alternate by name and will authorize the contractor to accept orders

from only the designated ordering official or alternate. The GSA contracting officer will advise the agencies' ordering officials and their alternates in writing of their responsibilities, authorities, and limitations under these contracts and agreements. Designated agency ordering officials may, with the prior written approval of the GSA buildings manager on each order, order special space alteration services available under these contracts and agreements. The GSA buildings manager with the assistance of the GSA contracting officer, Real Estate or Buildings Management Divisions, where applicable, shall review and approve the orders and modifications thereto based on, but not limited to, the following criteria:

(i) The work is compatible with, and will not adversely affect, building structures, fire and safety systems, mechanical/electrical systems, or historically preserved building features.

(ii) The work conforms to GSA standards for safety, space utilization, fire protection, and handicapped access.

(iii) In leased buildings, the work is acceptable to the lessor, not the responsibility of the lessor, and within the Economy Act Limitations.

(iv) Whether it is feasible for Government (force account) personnel to perform the work.

(v) Whether it is feasible to combine the work with other similar scheduled work in a building.

(vi) In Government-owned buildings, the work is not already included in a prospectus.

(vii) Only scheduled items have been ordered.

(2) No individual order or combination of orders for a special space alteration project against GSA contracts or agreements shall exceed $10,000. Requirements aggregating more than $10,000 shall not be split into several orders of less than $10,000. Agencies shall use Standard Form 147, GSA Form 300, Order for Supplies or Services, or any other approved purchasing document to order special space alteration services under these GSA contracts and agreements. Any disputes between an agency ordering official and a contractor concerning the provisions of, or performance under, an indefinite quantity contract or unit price agreement that cannot be resolved by mutual agreement shall be referred to the GSA contracting officer for appropriate action. For all orders against GSA contracts or agreements, agency ordering officials shall furnish within 10 days of preparation one copy each of the ordering document and final payment document to the buildings manager and to the GSA Contracting Officer. The final payment voucher shall be supported with the following documents:

(i) GSA Form 1142, Release of Claims, or equivalent forms.

(ii) GSA Form 2419, Certification of Payments to Subcontractors and Suppliers.

(iii) Certification that work has been inspected and accepted and meets the provisions of the contract, and that the contractor has complied with all provisions of the contract regarding the subject delivery order.

(3) Where no GSA contracts or agreements are in effect or where specific items are not available under existing contracts or agreements, an agency may contract directly for services up to a maximum of $10,000 per project, after obtaining written approval of the GSA buildings manager. Agencies contracting directly must provide the GSA buildings manager with complete documentation of the scope of work and contract specifications at the time of submission for approval. GSA review and approval for agency-written contracts will be based on the same criteria applied to orders against GSA contracts and agreements.

(4) Agencies shall be responsible for inspecting and certifying satisfactory completion of the ordered work and for contractor compliance with the provisions of all agency-ordered work, whether against GSA contracts and agreements or agency-written contracts. Agencies shall institute procedures that are adequate to ensure separation of the ordering process from the inspection and acceptance process. Where alterations will affect the classification or utilization of space, or involve special wall finishes or other non-standard items or facilities, Real Estate Division's approval is required. The agency's initial approval submission on all alterations under this delegation of authority must include a layout of the agency's space to assist in the evaluation. The agency must identify the amount of alterations subject to the Economy Act limitation, and, if GSA advises that the 25 percent limit has been reached, the agency must prepare a Certificate of Determination before the work will be approved. As-built drawings must be submitted within 30 days of completion.

* * * * *

GSA is amending Part 101–21 as follows:

PART 101–21—FEDERAL BUILDINGS FUND

Subpart 101–21.6—Billings, Payments, and Related Budgeting Information for Space and Services Furnished by the General Services Administration

2. Section 101–21.604 is amended by revising paragraphs (c) through (h) to read as follows:

§ 101–21.604 Billing procedures for reimbursable charges.

* * * * *

(c) Rates charged for recurring above-standard-level reimbursable services shall be fixed to recover the approximate cost incurred by GSA in providing such services. Recurring above-standard-level reimbursable services are those recurring services, such as cleaning or utilities, which cannot readily be differentiated from the same type of services included in the standard level.

(d) The following basic types of reimbursable work are also performed by GSA but on an actual cost basis:

(1) Non-recurring services performed above standard levels of service, such as out-of-cycle painting;

(2) Recurring services not included in the standard level for which the actual cost can be readily identified;

(3) Repairs and alterations in buildings not controlled by GSA;

(4) Special space alterations and adjustments performed by GSA in GSA-operated buildings, which are requested and financed by other agencies in accordance with § 101–20.105, Reimbursable services; and

(5) Services financed by other agencies but performed by GSA personnel on construction and alteration projects.

(e) GSA Form 2957, reimbursable Work Authorization, must be completed before reimbursable work is begun. This authorization must describe the work or services ordered and include an estimate of the cost of the work described. Work authorizations must be signed by a responsible official capable of authorizing the obligation and committing the agency to payment of the charges, must contain a citation to the appropriation or funds to be charged, and must have a statement that funds in the amount of the stated estimate are available for immediate obligation for the requested work. GSA will make every effort to obtain approval and certification of additional funds before incurring any obligations in excess of the estimate; however, failure of GSA to notify the agency that obligations will

exceed the estimate does not relieve the agency of paying full actual costs.

(f) Bills for recurring above-standard-level services (identified by prefix "R" in the first position of the work authorization number on GSA Form 2957) are rendered in advance at a fixed-price equal to the estimated amount. This type of work authorization, with the right to cancel (subject to incurred costs and obligations) upon 60 days notice by either party must be completed and forwarded to GSA prior to the commencement of the period for which services are required. With the exception of recurring work authorizations for utilities, which GSA may limit to 3-month periods, each "R" type work authorization must authorize charges for the full period during the fiscal year that the services will be required. These work authorizations must always begin and end within the same fiscal year.

(g) Bills for all other reimbursable services are rendered quarterly in an amount equal to the obligations accumulated for the billing period. A final adjustment to actual cost will be made upon completion of the services.

(h) Agencies shall ensure that bills for special space alteration services ordered by them under provisions of § 101–20.105(a) shall be rendered by the contractor or lessor directly to the agencies' paying office. The agencies shall be responsible for timely payment and resolving any billing problems regarding orders they place under the contracts or agreements.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

41 CFR Part 101–26

[FPMR Amdt. E–251]

Federal Property Management Regulations; Procurement Sources and Programs; Purchase of New Motor Vehicles

AGENCY: Transportation and Public Utilities Service, General Services Administration.

ACTION: Final rule.

SUMMARY: This amendment revises the number of consolidated volume procurements of standard sedans and station wagons made by GSA each year and revises the time schedules for consolidation of agency requirements for sedans, station wagons, and light trucks. This amendment also sets forth circumstances under which GSA will grant authority for purchase of motor vehicles to the ordering agency without a specific waiver request. In addition, this amendment provides information on GSA's centralized motor vehicle leasing program. Finally, the amendment clarifies administrative requirements for the submission of motor vehicle requisitions and updates form titles and organizational and Federal standard references. The intent of this change is to improve procurement service to the Federal agencies and expedite delivery of vehicles.

EFFECTIVE DATE: July 31, 1982.

FOR FURTHER INFORMATION CONTACT: William Hoffarth, Procurement Division, Office of Automotive Management (202–275–1617).

SUPPLEMENTARY INFORMATION: The General Services Administration has determined that this rule is not a major rule for the purposes of Executive Order 12291 of February 17, 1981, because it is not likely to result in an annual effect on the economy of $100 million or more; a major increase in costs to consumers or others; or significant adverse effects. The General Services Administration has based all administrative decisions underlying this rule on adequate information concerning the need for, and consequences of, this rule; has determined that the potential benefits to society from this rule outweigh the potential costs and has maximized the net benefits; and has chosen the alternative approach involving the least net cost to society.

List of Subjects in 41 CFR Part 101–26

Government property management.

PART 101–26—PROCUREMENT SOURCES AND PROGRAMS

1. The table of contents for Part 101–26 is amended by adding the following entry:

101–26.501–9 Centralized motor vehicle leasing program.

Subpart 101–26.5—GSA Procurement Programs

2. Section 101–26.501 is amended by revising the introductory material in paragraph (a) and paragraphs (b) and (c) to read as follows:

§ 101–26.501 Purchase of new motor vehicles.

(a) With respect to the procurement of new sedans, station wagons, and light trucks other than those to be used for law enforcement, it shall be the policy to procure standard vehicles (unless other than standard vehicles are specifically required) as follows:

Sedans, class IA-small, class IB-subcompact, or class II-compact; station wagons, class IB-subcompact or class II-compact vehicles, as described in Federal standard No. 122; and light trucks, as defined in Federal standard Nos. 292 and 307. (Federal standard Nos. 122, 292 and 307 as used in this section mean the latest editions.) Requisitions submitted to GSA for motor vehicles shall be in conformance with the requirements of subparts 101–38.9 and 101–38.13.

* * * * *

(b) Requisitions submitted to GSA for new passenger vehicles and light trucks shall contain a certification by the agency head or a designee that the acquisition is in conformance with Pub. L. 94–163 and Executive Order 12003. The certification may be placed on the requisition or on an appropriate attachment thereto. Agency passenger vehicle requisitions omitting this certification will not be processed until such certification is received.

(c) Light trucks shall be requisitioned in accordance with the provisions of this § 101–26.501 and Federal standard Nos. 292 and 307.

* * * * *

3. Section 101–26.501–1 is amended by revising paragraphs (b) and (c) to read as follows:

§ 101–26.501–1 General.

* * * * *

(b) When it is determined by the ordering activity that requirements for passenger motor vehicles and trucks indicate the need for procurement by buying activities other than GSA, a request for waiver justifying the procurement shall be submitted in writing to the General Services Administration (TCP), Washington, DC 20406. GSA will notify agencies in writing whether a waiver has been granted. Justification may be based on the urgency of need or that the vehicle having unique characteristics such as a special purpose body or equipment that may require close supervision by agency personnel to ensure proper installation of the equipment by the contractor; e.g. when a medical van is to be equipped with Government or contractor-supplied equipment. Requests for procurement through sources other than GSA will be handled on an individual basis provided full justification is submitted therefor.

(c) When it is determined by GSA that procurement of an individual agency requirement by GSA would offer no advantage over local purchase of the

item, GSA may grant the ordering activity authority for local purchase. When such a determination is made, the order will be returned to the ordering agency with written authority for local purchase.

4. Section 101–26.501–2 is amended by revising paragraphs (a), (b), and (c) to read as follows:

§ 101–26.501–2 Consolidated purchase program.

(a) To achieve maximum benefits and economies, GSA makes consolidated procurements of all motor vehicle types each year as follows:

(1) Two volume procurements of sedans and station wagons of the types covered by Federal standard No. 122 and a possible third such volume procurement under circumstances described in § 101–26.501–4(a).

(2) Three volume procurements of light trucks of the types covered by Federal standard Nos. 292 and 307.

(b) Such volume consolidated purchases are made subsequent to consolidation of requirements in accordance with the dates set forth in § 101–26.501–4(a). To assure delivery within a given fiscal (model) year and to obtain the greatest possible savings, agencies shall submit at least 75 percent of their annual requirements, for the types of vehicles covered by Federal standard Nos. 122, 292, and 307 that can be competitively procured, to GSA in time for inclusion in the first or second volume consolidated purchase ((a)(1), above).

(c) When justified as indicated in § 101–26.501–4, requirements for sedans, station wagons, and light trucks will be consolidated and procured on a monthly basis.

* * * * *

5. Section 101–26.501–3 is revised to read as follows:

§ 101-26.501-3 Submission of orders.

Orders for all motor vehicles shall be submitted on GSA Form 1781, Motor Vehicle Requisition-Delivery Order, or DD Form 448, Military Interdepartmental Purchase Request (MIPR), to the General Services Administration, (TC), Washington, DC 20406, and shall contain required FEDSTRIP data for mechanized processing. The Department of Defense shall ensure that appropriate MILSTRIP data are entered on DD Form 448.

(a) Requisitions covering vehicle types not included in Federal standard Nos. 122, 292, or 307, in a military specification, or in an agency specification on file with GSA, shall contain complete descriptions of the vehicles required, the intended use of the vehicles, and terrain where the vehicles will be used.

(b) Requisitions for vehicles within the category of Federal standard Nos. 122, 292, or 307 but for which deviations from such standards are required, unless already waived by the Commissioner, Transportation and Public Utilities Service, shall include with the requisition a justification supporting each deviation from the standards and shall contain a statement of the intended use of the vehicles, including a description of the terrain where the vehicles will be used. Prior approval of deviations shall be indicated on the requisition by citing the waiver authorization number.

(c) GSA Form 1781, Motor Vehicle Requisition-Delivery Order (illustrated at § 101–26.4902–1781), has been specifically designed for agency use to expedite ordering of all vehicles. Agencies are requested to use GSA Form 1781 as a single-line-item requisition for nonstandard as well as standard vehicles. echicles. When ordering standard vehicles, the appropriate item number for such vehilces equipped to meet specific operational needs may be selected from the applicable table in the Federal standards. Additional systems and equipment may be added by inserting in the "Standard Option(s)" portion of block 9 of the form the appropriate code for the selected items from the table of options in the standard. When ordering nonstandard vehicles or options, the instructions on the reverse of GSA Form 1781 shall be followed. Submission of GSA Form 1781, properly completed, will satisfy the requirements regarding the submission of requisitions as set forth in paragraph (a) of this section.

(d) Each requisition shall indicate the appropriation/fund code to be charged and must bear the original signature of an officer authorized to obligate cited funds.

(e) Separate requisitions shall be submitted for each vehicle type and consignee.

6. Section 101–26.501–4 is amended by revising paragraphs (a), (b), and (d) to read as follows:

§ 101–26.501–4 Procurement time schedules.

(a) *Volume consolidated purchases.* Requisitions covering vehicle types included in Federal standard Nos. 122, 292, or 307, will be consolidated for volume procurement unless there is included a statement justifying the need for delivery other than the delivery times indicated in § 101–26.501–4(d). Requisitions containing a statement of justification will be handled on a monthly basis in accordance with § 101–26.501–4(b)(1), or on an emergency basis in accordance with § 101–26.501–4(c).

TIME SCHEDULE FOR VOLUME CONSOLIDATIONS

Vehicle category	Consolidation date
A. Sedans and station wagons of types covered by Fed. Std. 122.	I March 10 to September 9. II September 10 to January 9. III January 10 to March 9 [1]
B. Light trucks of types covered by Fed. Std. Nos. 292 and 307.	I March 10 to August 9. II August 10 to December 15. III December 16 to March 9.

[1] Agencies are cautioned that a solicitation covering requisitions for sedans and station wagons received during this consolidation period will be issued only if it is determined by GSA prior to issuance that competitive bids can be obtained. Otherwise, such requisitions will be held for inclusion in the next volume consolidated procurement.

(b) *Monthly consolidated purchases.* (1) Requirements for vehicles to be included in monthly consolidated purchases must be received by GSA by the dates indicated in the schedule set forth below. Requirements received after these dates will be carried over to the following month's purchase. In the interest of timely and orderly preparation of solicitations, ordering agencies are urged to submit each requirement as soon as it is finalized instead of holding it for submission with later requirements. Such requisitions need not specify a delivery date since delivery will be in accordance with delivery times indicated in § 101–26.501–4(d). Requests for special handling of other than strictly emergency requirements shall not be submitted.

TIME SCHEDULE

Vehicle category	Monthly consolidation dates
(i) Passenger carrying vehicles, light trucks of types not covered by Fed. Std. Nos. 122, 292, or 307 and ambulances.	20th of each month.
(ii) Buses, trucks (other than light trucks in category (i) above), and trailers of not less than 5,000 lbs.	Last day of each month.
(iii) All other categories and types of vehicles.	Last day of each month.

(2) Solicitations issued in September for the consolidated purchase of vehicles will cover only the requirements of those executive agencies whose requisitions are required by § 101–26.501–1 to be placed with GSA. (Submission of requirements for vehicles in categories (i) and (ii) above, is mandatory to the extent provided in § 101–26.501–1.)

(3) No assurance can be given as to price and time of delivery of passenger cars and light trucks on requisitions received by GSA after the 9th of March. This is because of the industry practice of closing out the production of the

current year's model and retooling for new models. Agencies should bear this in mind when programing their requirements. GSA will notify agencies submitting requisitions for sedans and station wagons that cannot be placed on contract before the end of the fiscal year in which submitted.

* * * * *

(d) *Delivery time.* Delivery times for motor vehicles requirements submitted for monthly consolidated and volume consolidated purchases will range from 210 to 330 days after final dates for consolidation of requisitions provided in § 101–26.501–4 (a) and (b)(1). Included in delivery time estimates are 90 to 105 days required for soliciting and receiving bids, 30 to 45 days for evaluation and award of contracts, 90 to 180 days from date of award for delivery of vehicles to the consigned locations. For buses, ambulances and other special duty vehicles procured under monthly consolidated purchases, 240 to 270 days from date of award are usually required to effect delivery. However, special purpose vehicles with unique characteristics, such as certain types of firetrucks, may require longer delivery. In such instances, every effort will be made by GSA to facilitate deliveries and keep the requisitioning agencies informed of any unauthorized delay.

7. Section 101–26.501–6(c) is revised to read as follows:

§ 101–26.501–6 Forms used in connection with delivery of vehicles.

* * * * *

(c) GSA Form 6317, Instructions to Consignee Receiving New Motor Vehicles Purchased by General Services Administration. This form is furnished to each consignee with copies of the delivery order. Personnel responsible for receipt and operation of Government motor vehicles should be familiar with the instructions and information contained in GSA Form 6317.

8. Section 101–26.501–8 is amended to revise the list of manufacturers following paragraph (a) and to revise the GSA address in paragraph (b) to read as follows:

§ 101–26.501–8 Notification of vehicle defects.

* * * * *

Addresses of Manufacturers

American Motors, Corp., Fleet Sales Department, 14250 Plymouth Road, Detroit, MI 48232
AM General Corporation, Logistics Division, 701 West Chippewa Avenue, South Bend, IN 46623
Chevrolet Motors Division, Service Operations, 136–150 Chevrolet Central House, 30007 Van Dyke Avenue, Warren, MI 48090
Ford Customer Service Division, Field Recall Section, General Offices, Park Lane Towers West, 1 Park Lane Boulevard, Dearborn, MI 48126
Director of Services, FWD Corporation, 105 East 12th St., Clintonville, WI 54929
International Harvester Co., Suite 900, 1707 L Street, NW., Washington, DC 20036
Field Service and Engineering, Chrysler Motors Corp., Government Sales Dept., P.O. Box 716, Detroit, MI 48231
General Parts and Service Manager, GMC Truck and Coach Division, General Motors Corp., 660 South Boulevard, East, Pontiac, MI 48053
Mack Trucks, Inc., Service Operations, P.O. Box 1000, Somerville, NJ 08876
Supervisor, Vehicle Service and Safety Programs, Volvo White Truck Corp., P.O. Box D–1, Greensboro, NC 27402

(b) When motor vehicles are manufactured by a concern other than one for whom an address is shown in § 101–26.501–8(a) and the address of the manufacturer is not known, agencies shall inform GSA of the vehicle location address. (This includes those vehicles manufactured by the General Motors Corporation other than the Chevrolet Motor Division and the GMC Truck and Coach Division.) In these cases, agencies shall forward the vehicle location address to the General Services Administration (TCP), Washington, DC 20406. GSA will forward the vehicle location address to the manufacturer or advise the agency concerned.

* * * * *

9. Section 101–26.501–9 is added as follows:

§ 101–26.501–9 Centralized motor vehicle leasing program.

GSA has a centralized leasing program to provide an additional source of motor vehicle support to all Federal agencies. This program relieves Federal agencies that use it from both the time constraints and administrative costs associated with independently entering into lease contracts. The centralized leasing program covers subcompact and compact sedans, station wagons, and certain types of light trucks (pickups and vans). Participation in the Centralized Leasing Program is mandatory on all executive agencies of the Federal Government (excluding the Department of Defense and the U.S. Postal Service) within the 48 contiguous states and Washington, DC. However, agencies must obtain GSA authorization to lease in accordance with § 101–39.601 prior to using these established mandatory use contracts. For further information on existing contracts, including vehicles covered, rates, and terms and conditions of the contract(s), contact General Services Administration (TC), Washington, DC 20406.

Subpart 101–26.49—Illustrations of Forms

10. Section 101–26.4902–1781 is revised to read as follows:

§ 101–26.4902–1781 GSA Form 1781, Motor Vehicle Requisition—Delivery Order.

Note.—The form illustrated in this § 101–26.4902–1781 is filed with the original document and does not appear in this volume.

(Sec. 205(c), 63 Stat. 390; 40 (U.S.C. 486(c))

Dated: August 19, 1982.

Ray Kline,

Acting Administrator of General Services.

BILLING CODE 6820–AM–M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 64

[Docket No. FEMA 6408]

Suspension of Community Eligibility Under the National Flood Insurance Program

AGENCY: Federal Management Agency, FEMA.

ACTION: Final rule.

SUMMARY: This rule lists communities, where the sale of flood insurance has been authorized under the National Flood Insurance Program (NFIP), that are suspended on the effective dates listed within this rule because of noncompliance with the flood plain management requirements of the program. If FEMA receives documentation that the community has adopted the required flood plain management measures prior to the effective suspension date given in this rule, the suspension will be withdrawn by publication in the **Federal Register.**

EFFECTIVE DATES: The third date ("Susp.") listed in the fourth column.

FOR FURTHER INFORMATION CONTACT: Mr. Richard E. Sanderson, Chief, Natural Hazards Division, (202) 287–0270, 500 C Street Southwest, Donohoe Building, Room 505, Washington, DC 20472.

SUPPLEMENTARY INFORMATION: The National Flood Insurance Program (NFIP), enables property owners to purchase flood insurance at rates made reasonable through a Federal subsidy. In return, communities agree to adopt and administer local flood plain management measures aimed at protecting lives and new construction

from future flooding. Section 1315 of the National Flood Insurance Act of 1968, as amended (42 U.S.C. 4022) prohibits flood insurance coverage as authorized under the National Flood Insurance Program (42 U.S.C. 4001–4128) unless an appropriate public body shall have adopted adequate flood plain management measures with effective enforcement measures. The communities listed in this notice no longer meet that statutory requirement for compliance with program regulations (44 CFR Part 59 et seq.). Accordingly, the communities are suspended on the effective date in the fourth column, so that as of that date flood insurance is no longer available in the community. However, those communities which, prior to the suspension date, adopt and submit documentation of legally enforceable flood plain management measures required by the program, will continue their eligibility for the sale of insurance. Where adequate documentation is received by FEMA, a notice withdrawing the suspension will be published in the **Federal Register**.

In addition, the Director of Federal Emergency Management Agency has identified the special flood hazard areas in these communities by publishing a Flood Hazard Boundary Map. The date of the flood map, if one has been published, is indicated in the sixth column of the table. Section 202(a) of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), as amended, provides that no direct Federal financial assistance (except assistance pursuant to the Disaster Relief Act of 1974 not in connection with a flood) may legally be provided for construction or acquisition of buildings in the identified special flood hazard areas of communities not participating in the NFIP, with respect to which a year has elapsed since identification of the community as having flood prone areas, as shown on the Federal Emergency Management Agency's initial flood insurance map of the community. This prohibition against certain types of Federal assistance becomes effective for the communities listed on the date shown in the last column.

The Director finds that delayed effective dates would be contrary to the public interest. The Director also finds that notice and public procedure under 5 U.S.C. 533(b) are impracticable and unnecessary.

The Catalog of Domestic Assistance Number for this program is 83.100 "Flood Insurance." This program is subject to procedures set out in OMB Circular A–95.

Pursuant to the provision of 5 U.S.C. 605(b), the Associate Director of State and Local Programs and Support, to whom authority has been delegated by the Director, Federal Emergency Management Agency, hereby certifies that this rule if promulgated will not have a significant economic impact on a substantial number of small entities. As stated in section 2 of the Flood Disaster Protection Act of 1973, the establishment of local flood plain management together with the availability of flood insurance decreases the economic impact of future flood losses to both the particular community and the nation as a whole. This rule in and of itself does not have a significant economic impact. Any economic impact results from the community's decision not to (adopt) (enforce) adequate flood plain management, thus placing itself in non-compliance of the Federal standards required for community participation.

In each entry, a complete chronology of effective dates appears for each listed community.

List of Subjects in 44 CFR Part 64

Flood insurance, Flood plains.

Section 64.6 is amended by adding in alphabetical sequence new entries to the table.

§ 64.6 List of eligible communities.

State and county	Location	Community No.	Effective dates of authorization/cancellation of sale of flood insurance in community	Special flood hazard area identified	Date [1]
Alaska: Southeast Fairbanks Division.	Delta Junction, city of	020104B	Aug. 28, 1975, emergency, Sept. 16, 1982, regular, Sept. 16, 1982, suspended.	Oct. 25, 1977	Sept. 16, 1982.
Arkansas: Baxter	Mountain Home, city of	050351A	Feb. 9, 1976, emergency, Sept. 16, 1982, regular, Sept. 16, 1982, suspended.	Feb. 14, 1975	Do.
Colorado: Montrose	Olathe, town of	080128B	June 5, 1975, emergency, Sept. 16, 1982, regular, Sept. 16, 1982, suspended.	June 28, 1974, Dec. 19, 1975.	Do.
Connecticut: Tolland	Columbia, town of	090160B	Aug. 14, 1975, emergency, Sept. 16, 1982, regular, Sept. 16, 1982, suspended.	Aug. 27, 1976, Nov. 8, 1974.	Do.
Delaware: Kent	Dover, city of	100006C	July 24, 1975, emergency, Sept. 16, 1982, regular, Sept. 16, 1982, suspended.	July 22, 1977, May 31, 1974, Jan. 2, 1976.	Do.
Florida:					
Brevard	Unincorporated areas	125092C	Nov. 13, 1970, emergency, Sept. 22, 1972, regular, Sept. 16, 1982, suspended.	July 1, 1974, Sept. 6, 1976, Sept. 22, 1972.	Do.
Do	Cape Canaveral, city of	125094D	March 19, 1971, emergency, Sept. 29, 1972, regular, Sept. 16, 1982, suspended.	July 1, 1974, Aug. 15, 1974, May 20, 1974, Sept. 30, 1972.	Do.
Do	Cocoa Beach, city of	125097D	Nov. 20, 1970, emergency, June 16, 1972, regular, Sept. 16, 1982, suspended.	July 1, 1974, Dec. 26, 1975, May 20, 1977, June 16, 1972.	Do.
Dixie	Cross City, town of	120074B	June 26, 1975, emergency, June 26, 1975, regular, Sept. 16, 1982, suspended.	Jan. 30, 1976, Sept. 13, 1974.	Do.
Volusia	Daytona Beach, city of	125099C	Sept. 11, 1970, emergency, Sept. 7, 1973, regular, Sept. 16, 1982, suspended.	Sept. 7, 1973, July 1, 1974, May 27, 1977.	Do.
Do	Daytona Beach Shores, city of	125100C	Jan. 29, 1971, emergency, Sept. 7, 1973, regular, Sept. 16, 1982, suspended.	May 27, 1977, Sept. 7, 1973.	Do.
Do	New Smyrna Beach, city of	125132C	May 14, 1971, emergency, Dec. 7, 1973, regular, Sept. 16, 1982, suspended.	Dec. 7, 1973, May 27, 1977.	Do.
Do	Ormond Beach, city of	125136C	Nov. 20, 1970, emergency, Sept. 7, 1973, regular, Sept. 16, 1982, suspended.	Sept. 7, 1973, July 1, 1974, May 27, 1977.	Do.
Do	Ponce Inlet, town of	125312C	May 28, 1974, emergency, Oct. 8, 1976, regular, Sept. 16, 1982, suspended.	Aug. 9, 1974, Feb. 13, 1976, Oct. 8, 1976.	Do.
Georgia: Liberty	Hinesville, city of	130125B	June 13, 1975, emergency, Sept. 16, 1982, regular, Sept. 16, 1982, suspended.	Feb. 25, 1977	Do.

Life Floats and Buoyant Apparatus; Requirements for Painters With Float-Free Links and Other Changes

AGENCY: Coast Guard, DOT.

ACTION: Final rules.

SUMMARY: These regulations require life floats and buoyant apparatus on tank vessels, passenger vessels, cargo and miscellaneous vessels, small passenger vessels, and oceanographic vessels to be secured to the vessel by means of a painter and a float-free link. A new specification regulation is included for the float-free link, and the specification regulations for life floats and buoyant apparatus have been revised to require that each new life float and buoyant apparatus be equipped with a painter attachment fitting. These regulations are intended to prevent life floats and buoyant apparatus from quickly drifting away from a vessel casualty. The need for this action arises from a vessel casualty in which some loss of life might have been prevented if the buoyant apparatus had not been carried away. In addition, these amendments include revised specification regulations for life floats and buoyant apparatus that require each new life float and buoyant apparatus to be equipped with retroreflective material in order to make it more visible in night searches. A number of other amendments to the specification regulations bring construction methods and documents incorporated by reference up to date.

EFFECTIVE DATES: (a) The amendments affecting Subparts 160.010, 160.027, and 160.073 become effective on March 20, 1983.

(b) The remainder of the amendments affecting Parts 33, 75, 94, 180, and 192 become effective on September 20, 1983.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Markle, Office of Merchant Marine Safety (G–MVI–3/12), Department of Transportation, U.S. Coast Guard Headquarters, Washington, DC 20593, (202) 426–1444.

SUPPLEMENTARY INFORMATION: A Notice of Proposed Rulemaking was published in the **Federal Register** of October 8, 1981 (46 FR 49914). The comment period on that proposal (CGD 79–167) ended on January 6, 1982. A total of 39 comments were received from 14 parties.

Drafting Information

The principal persons involved in drafting these regulations are: Mr. Robert Markle, Office of Merchant Marine Safety, and Mr. Michael Mervin, Office of the Chief Counsel.

Discussion of Comments on Painters and Float-Free Links for Life Floats and Buoyant Apparatus

The National Transportation Safety Board (NTSB) commented that the proposal was consistent with its Safety Recommendation M–79–7. This recommendation was based on the NTSB analysis of the capsizing of the Dixie Lee II.

Five comments including those from two vessel operators and three groups of vessel operators, were generally negative, stating that it had no practical value, that the proposal should be withdrawn, and that the capsizing of the Dixie Lee II was a single unusual occurrence that should not be the basis for a regulation change. Although the NTSB recommendations were specific only to the accident involving the Dixie Lee II, the Coast Guard examined three other accidents that had been the subject of formal investigation. It was evident that in two of those three cases the apparatus quickly floated away from the scene of the accident as it had in the case of the Dixie Lee II ("apparatus" refers to both life floats and buoyant apparatus throughout this discussion). It was also evident that the apparatus did not provide a satisfactory level or protection from hypothermia (exposure). The best solution to these shortcomings would be to require inflatable liferafts on the small passenger vessels and other vessels affected by these regulations. These rafts should be provided in sufficient numbers to accommodate all persons on board the vessel, plus additional rafts in reserve. The rafts would be secured to the vessel by the standard painter and float-free link arrangement. The Coast Guard rejected this solution as being too costly to apply to all classes of affected vessels, and instead proposed that the same painter and float-free link arrangement be used for the existing apparatus. In this way the problem of apparatus floating away from the scene of an accident could be rectified at minimum cost. (The question of requiring inflatable liferafts for specific classes of vessels may be considered at a later date.)

Eight comments expressed some concern about the use of float-free links. They included statements to the effect that the float-free link could deteriorate and break at some load other than the design load resulting in loss of the apparatus, that the link results in the apparatus floating away anyway, that the link on the apparatus would allow it to break away if the apparatus was towed alongside, that the link should be located at the vessel end of the painter rather than at the apparatus end, and that the link would be unnecessary on vessels restricted to waters of 100 ft. depth or less.

The proposal would have required the link to be located between the apparatus and the painter so that if the painter became fouled on the sinking vessel, the link would allow the apparatus to break free. The comments that noted the disadvantages of this arrangement are correct. The primary purpose of the painter is to hold the apparatus alongside while the vessel is still afloat. If the float-free link is on the apparatus, forces from wind and waves could cause the link to part resulting in the loss of the apparatus. If the link were attached between the vessel and the painter, the apparatus could be held alongside with the painter tied off beyond the link so that the apparatus would not be lost. This would still allow the apparatus to float free in the event that the vessel sinks. In considering these comments, the proposed rules were compared to the requirements for inflatable liferafts which are also secured to the vessel with a painter and a float-free link. These rafts once had the float-free link at the raft end of the painter, and it was found that rafts were

frequently carried away by wind and waves. Consequently, the float-free link was moved to a point between the vessel and the painter. These regulations have therefore been revised to locate the float-free link between the vessel and the painter rather than between the painter and the apparatus.

The comment that stated that the float-free link was unnecessary in waters of depth less than the 100 ft. painter length is also correct. The regulations have been revised to allow the float-free link to be omitted for those vessels operating solely in waters that are not as deep as the length of the painter.

There were a number of comments concerning the 30 m (100 ft.) long painter. Five comments pointed out that it was too long. Disadvantages noted included lack of space for that much 2 in. circumference line, and the possibility that multiple painters would foul on vessels with more than one apparatus. Another comment recommended that 200 or 250 ft. of painter should be provided. Two comments suggested that smaller sized synthetic rope should be permitted, and one of these suggested that the size of the rope could be determined by the size of the apparatus that it has to handle. In order to evaluate these comments, the proposed apparatus painter requirements were compared to the painter requirements for inflatable liferafts, since both painters perform a similar function. These requirements are in § 160.051–7(b)(8) of Title 46 of the Code of Federal Regulations. The rafts are required to have a painter at least 100 ft. long of nylon or equivalent material with a breaking strength of at least 3,000 lb. for rafts of 10 persons or more capacity, and 1,500 lb. for rafts of less than 10 persons capacity. On the basis of this comparison and the analysis originally done for the proposal, it was concluded that 30 m (100 ft.) is the appropriate minimum length for the painter. As written, the proposal allowed the use of synthetic rope materials, but the term "plastic" was used which may have been misleading. The term "plastic" has been changed to "synthetic" to be consistent with common terminology used in connection with cordage. The proposal would have required the painter to have a breaking strength of 17 kN (3,800 lb.). This represented no change in the strength of the painter as compared to the previous requirements, however, this is almost 10 times stronger than the required strength of the largest float-free link. The required strength of the painter was therefore revised to be similar to the requirement for inflatable liferafts. The painter is required to have a breaking strength of a least 6.7 kN (1,500 lb.), except that if the capacity of the apparatus is 50 persons or more, the required breaking strength is 13.4 kN (3,000 lb.). (The buoyant force of a 50 person apparatus is comparable to the buoyant force of a 10 person inflatable liferaft.) The substantial reduction in the breaking strength of the painter will result in a significantly smaller painter, thereby reducing the problem of stowage space and reducing the economic impact of the rule. Finally, in order to reduce the problem of fouling of multiple painters, the rule was revised to allow the apparatus to be grouped and secured to the vessel by a single painter, provided that the weight of the group does not exceed 185 kg (400 lb.). The size of the painter and float-free link would be based on the combined capacity of the group of apparatus.

Discussion of Comments on the Float-Free Link Specification Regulation

One comment was received relative to the float-free link specification regulation. This comment was that its 1800 N (400 lb.) breaking strength is too high for a 25 person apparatus. An 1800 N (400 lb.) to 2400 N (536 lb.) strength link is required for apparatus of 21 persons or more capacity. The minimum buoyancy of an apparatus in this group is 3045 N (672 lb.), so there is no problem with the apparatus having sufficient buoyancy to break the link. Therefore, no change was made as a result of this comment.

Discussion of Comments on the Buoyant Apparatus and Life Float Specification Regulations

Four comments expressed general support for the revised buoyant apparatus and life float specification regulations, or supported a particular part of them without objecting to any other part.

Two comments noted that if the apparatus was supporting a large number of persons in the water, the retroreflective material on the apparatus could be obscured. One of the comments, from a manufacturer of retroreflective material, suggested that more material be applied. No change has been made as a result of these comments. The amount and placement of retroreflective material conforms with Resolution A.274(VIII) of the Intergovernmental Maritime Consultative Organization (IMCO). It will provide about the same or slightly more area of retroreflective material above the waterline than a life preserver equipped with this material. Accordingly, it will be visible at roughly the same distance. Furthermore, if a large number of people are gathered around an apparatus, it is probable that one or more of those people will have a life preserver equipped with retroreflective material. Therefore, it is concluded that a group of survivors gathered around an apparatus will be able to be spotted under night search conditions whether or not the retroreflective material on the apparatus is obscured.

A manufacturer of retroreflective material suggested that the material should be retrofitted to apparatus in service, not just applied to new apparatus. This suggestion has not been adopted. The addition of retroreflective material is not one of the primary regulatory objectives growing out of the casualty investigations. By phasing in retroreflective material on new life floats and buoyant apparatus, an estimated $95,000 retrofit cost is saved, and the retroreflective material can be applied under the manufacturer's production control. This will make sure that the material is applied under the optimum environmental conditions and that the materials used are compatible. It is expected that retroreflective material applied in this way will last for the life of the device. Nothing in the regulations prohibits the retrofit of retroreflective material on existing apparatus, if desired.

One comment suggested that the retroreflective material should be 100 mm (4 in.) wide and of shorter length, rather than a continuous strip 50 mm (2 in.) wide. The comment stated that this would result in a brighter reflected light. This comment has not been adopted. In a number of nighttime tests, it has been found that the brightness of light reflected from retroreflective material depends on the area of the material provided and not its shape. Therefore, wider and shorter material having the same area would not result in a brighter reflected light.

One comment questioned the need for a painter attachment fitting on the apparatus, and stated that the painter could be attached directly to the apparatus. The requirement for the painter attachment fitting was not changed because the manufacturer of the device should determine how and where the painter should be attached since this connection is used to break the float-free link. The connection point needs to be strong enough to break the link and must be designed in such a way that the apparatus is not damaged when tension is applied to the painter.

Final Evaluation

One comment stated that the draft evaluation underestimated the economic impact of the proposed rules primarily because the labor time estimated to be needed to make the changes was too low. In fact, the draft evaluation did not take any labor time requirements into account, except for the time required to fabricate the float-free link, which was estimated at about ten minutes. The reason for not including the time to attach the painter and the float-free link to the apparatus was that it is expected to be negligible, in that it would be done in the course of preparing the vessel for a season of operation, or in the case of a vessel not in seasonal operation, it would be done in the course of a regular examination of the equipment. This was considered reasonable since a one year period is being provided to comply with these rules, and such an outfitting or inspection should take place at least once during the one-year period. The comment estimated that just to move the float, splice or replace the painter, and restow would require 10 hours. This does not appear to be a realistic estimate. Although an extremely inefficient worker might take that long, it is not representative of the level of effort required to complete these relatively simple tasks.

A Final Evaluation has been prepared for these regulations in accordance with the Department of Transportation's Order on Regulatory Policies and Procedures. That order (DOT 2100.5, 5/22/80, 44 FR 11034, February 26, 1979 as amended by 44 FR 28126, May 14, 1979) requires that the evaluation quantify, to the maximum extent practicable, the estimated cost of the regulations to the private sector, consumers, and federal, state and local governments, as well as the anticipated benefits and impact of the regulations. The Final Evaluation also includes the Environmental Assessment required by the National Environmental Policy Act of 1969 (Pub. L. 91–190). This proposed rule making has also been evaluated under Executive Order 12291 ("Federal Regulation," February 17, 1981, 46 FR 13193, February 19, 1981), and has been determined not to be a "major rule" as defined in that order since the annual effect on the economy would be less than $100 million and no major increase in prices will result.

These regulations are expected to affect approximately 5000 small vessels having an average of two life floats or buoyant apparatus each. This would result in an initial cost of about $150,000 and a recurring annual cost of about $30,000. This is a reduction from the $175,000 initial cost and $35,000 annual cost estimated in the draft evaluation. The reductions result from the change in the painter strength requirement in the final rule, which allows the use of a smaller and therefore less expensive painter. These costs will be imposed directly on the private sector (the manufacturers of life floats and buoyant apparatus, and operators of affected vessels). The manufacturers and operators are expected to pass the costs through to the ultimate consumers of affected maritime services in the form of price increases. However, because of the low overall cost of the proposal, increases in individual prices will be negligible. The average initial cost of these proposed regulations would be about $30 for each affected vessel, with an average annual upkeep or replacement cost of approximately $6. There is no effect on federal, state, and local governments except in their capacities as users of life floats and buoyant apparatus and as consumers of maritime services. Implementation and enforcement of these rules would be accomplished within the scope of current Coast Guard marine safety activities, so that there will not be any need for additional federal budget commitments.

The primary benefit identified for the proposal is improvement of the effectiveness of life floats and buoyant apparatus by preventing them from floating away from the scene of a vessel casualty. Because of the low number of affected vessels, there is no valid statistical basis for predicting the number of lives that might be saved by these regulations. In order to determine the potential benefit of the regulations, four small passenger vessel casualties involving loss of life were reviewed. These casualties occurred between 1973 and 1977 and were formally investigated by the Coast Guard. Three were investigated by the National Transportation Safety Board. In three of the four cases, the apparatus drifted away from the scene of the casualty and could not be used by some or all of the persons on board the vessel. Since those that died in these casualties apparently did not have access to a means of floatation, availability of apparatus could have prevented some of the loss of life. These regulations are intended to prevent the apparatus from quickly drifting away so that they will be available to persons in the water.

Under the Regulatory flexibility Act (Pub. L. 96–354), it is certified that this rule will not have a significant economic impact on a substantial number of small entities. The small entities that are affected by the rule are primarily the owner-operators of tour, fishing, and charter boat businesses. As stated above, the costs are minimal and not a significant impact on any operator. Many life float and buoyant apparatus manufacturers are small businesses. This proposed rule making would add about $12.50 to the cost of each device produced. The average price of these devices at retail is about $500. The added cost would not be a significant impact on these producers.

List of Subjects

46 CFR Part 33

Barges, Marine safety, Tank vessels.

46 CFR Parts 75 and 180

Marine safety, Passenger vessels.

46 CFR Part 94

Cargo vessels, Marine safety.

46 CFR Part 160

Marine safety.

46 CFR Part 192

Marine safety, Oceanographic vessels.

In consideration of the foregoing, Chapter I of Title 46 of the Code of Federal Regulations is amended as set forth below.

Clyde T. Lusk, Jr.,

Rear Admiral, U.S. Coast Guard, Chief, Office of Merchant Marine Safety.

July 6, 1982.

SUBCHAPTER D—TANK VESSELS

PART 33—LIFESAVING EQUIPMENT

1. By adding § 33.20–25 to the table of contents for Part 33 as follows:

* * * * *

Subpart 33.20—Stowage of Lifeboats, Liferafts, and Buoyant Apparatus

* * * * *

33.20–25 Stowage of buoyant apparatus—TB/LBR.

* * * * *

2. By revising Table 33.15–15(a) to read as follows:

§ 33.15–15 Required equipment for rigid type liferafts and buoyant apparatus—TB/LBR.

* * * * *

TABLE 33.15–15(A)

Letter identification	Item	Liferaft		Buoyant apparatus—All waters
		Great Lakes	Lakes, bays, sounds, rivers	
a	Boathook	1	1	None
b	Lifeline	[1] 1	[1] 1	[1] 1
c	Matches (boxes)	1	None	None
d	Oars (units)	[2] 1	[2] 1	None

TABLE 33.15-15(A)—Continued

Letter identification	Item	Liferaft		Buoyant apparatus—All waters
		Great Lakes	Lakes, bays, sounds, rivers	
e	Oil, storm (gallons).	1	None	None

g	Rowlocks (units)	[2] 1	[2] 1	None
h	Sea anchor	1	None	None
i	Signals, distress (units).	[2] 1	None	None
j	Water light	1	None	[4] [5] 1

[1] Not required on Type A liferafts.
[2] For description of unit see Section 33.15-20.
[3] See § 33.20-25(a)(3).
[4] Not required on buoyant apparatus for less than 25 persons.
[5] Applies to ocean, coastwise and Great Lakes routes.

(46 U.S.C. 391a; 49 CFR 1.46)

3. By revising § 33.15-20(f) to read as follows:

§ 33.15-20 Description of equipment for liferafts and buoyant apparatus—TB/LBR.

* * * * *

(f) *Painter.* Liferaft painters must be of manila rope not less than 69mm (2-3¼ in.) in circumference, or equivalent, and of a length not less than 3 times the distance between the deck on which the liferafts are stowed and the light draft of the vessel. Painters for buoyant apparatus are described in § 33.20-25(a)(3).

(46 U.S.C. 391a; 49 CFR 1.46)

4. By revising §33.20-20 as follows:

§ 33.20-20 Hydraulic releases—TB/ALL.

Each hydraulic release used in the installation of any liferaft, inflatable liferaft, or buoyant apparatus must meet Subpart 160.062 of this chapter.

(46 U.S.C. 91a; 49 CFR 1.46)

5. By adding a new § 33.20-25 to read as follows:

§ 33.20-25 Stowage of buoyant apparatus—TB/LBR.

(a) Each buoyant apparatus must be secured to the vessel by a painter and a float-free link.

(1) The float-free link must be—

(i) Certified to meet Subpart 160.073 of this chapter,

(ii) Of proper strength for the size of the buoyant apparatus as indicated on its identification tag, and

(iii) Secured to the painter at one end and secured to the vessel on the other end.

(2) The means by which the float-free link is attached to the vessel must—

(i) Have a breaking strength of at least the breaking strength of the painter,

(ii) If synthetic, be of a dark color or of a type certified to be resistant to deterioration from ultraviolet light, and

(iii) If metal, be corrosion resistant.

(3) The painter must—

(i) Be at least 30 m (100 ft.) long,

(ii) Have a breaking strength of at least 6.7 kN (1500 lb.), except that if the capacity of the buoyant apparatus is 50 persons or more, the breaking strength must be at least 13.4 kN (3000 lb.),

(iii) If synthetic, be of a dark color or be of a type certified to be resistant to deterioration from ultraviolet light, and

(iv) Be stowed in such a way that it runs out freely when the buoyant apparatus floats away from the sinking vessel.

(4) If the buoyant apparatus does not have a painter attachment fitting, a means for attaching the painter must be provided by a wire or line that—

(i) Encircles the body of the device,

(ii) Will not slip off,

(iii) Has a breaking strength that is at least the breaking strength of the painter, and

(iv) If synthetic, is of a dark color or is of a type certified to be resistant to deterioration from ultraviolet light.

(b) The float-free link described in paragraphs (a)(1) and (a)(2) of this section is not required if the vessel operates solely in waters which have a depth less than the length of the painter.

(c) If the vessel carries more than one buoyant apparatus, the buoyant apparatus may be grouped and each group secured by a single painter, *Provided,* That—

(1) The combined weight of each group of buoyant apparatus does not exceed 185 kg (400 lb.),

(2) Each buoyant apparatus is individually attached to the painter by a line that meets paragraphs (a)(3)(ii) and (a)(3) (iii) of this section and which is long enough so that each buoyant apparatus can float without contacting any other buoyant apparatus in the group, and

(3) The strength of the float-free link under paragraph (a)(1)(ii) of this section and the strength of the painter under paragraph (a)(3)(ii) of this section is determined by the combined capacity of the group of buoyant apparatus.

(46 U.S.C. 391a, 49 CFR 1.46)

SUBCHAPTER H—PASSENGER VESSELS

PART 75—LIFESAVING EQUIPMENT

6. By revising § 75.15-10(d) and -10(e) to read as follows:

§ 75.15-10 Stowage.

* * * * *

(d) Each life float and buoyant apparatus must be secured to the vessel by a painter and a float-free link.

(1) The float-free link must be—

(i) Certified to meet Subpart 160.073 of this Chapter,

(ii) Of proper strength for the size of the life float or buoyant apparatus as indicated on its identification tag, and

(iii) Secured to the painter at one end and secured to the vessel on the other end.

(2) The means by which the float-free link is attached to the vessel must—

(i) Have a breaking strength of at least the breaking strength of the painter,

(ii) If synthetic, be of a dark color or of a type certified to be resistant to deterioration from ultraviolet light, and

(iii) If metal, be corrosion resistant.

(3) If the life float or buoyant apparatus does not have a painter attachment fitting, a means for attaching the painter must be provided by a wire or line that—

(i) Encircles the body of the device,

(ii) Will not slip off,

(iii) Has a breaking strength that is at least the breaking strength of the painter, and

(iv) If synthetic, is of a dark color or is of a type certified to be resistant to deterioration from ultraviolet light.

(4) The float-free link described in paragraphs (d)(1) and (d)(2) of this section is not required if the vessel operates solely in waters which have a depth less than the length of the painter.

(5) If the vessel carries more than one life float or buoyant apparatus, the life floats and buoyant apparatus may be grouped and each group secured by a single painter, provided that—

(i) The combined weight of each group of life floats and buoyant apparatus does not exceed 185 kg (400 lb.),

(ii) Each life float and buoyant apparatus is individually attached to the painter by a line that meets §§ 75.20-35 (d)(2) and (d)(3) and which is long enough so that each can float without contacting any other life float or buoyant apparatus in the group, and

(iii) The strength of the float-free link under paragraph (d)(1)(ii) of this section and the strength of the painter under § 75.20-35(d)(2) is determined by the combined capacity of the group of life floats and buoyant apparatus.

(6) Stowing of life floats and buoyant apparatus must allow easy launching. Life floats and buoyant apparatus over 185 kg (400 lb.) must not require lifting before launching.

(7) Life floats and buoyant apparatus must not be secured to the vessel except by the painter and by lashings which can be easily released or hydraulic releases. They must not be stowed in more than four tiers. When stowed in tiers, the separate units must be kept apart by spacers.

(8) There must be means to prevent shifting.

(e) Each hydraulic release used in the installation of any life raft, inflatable life raft, life float, or buoyant apparatus must meet Subpart 160.062 of this chapter.

(46 U.S.C. 481, 49 U.S.C. 1655(b)(1); 49 CFR 1.46)

7. By revising § 75.20–35(d) as follows:

§ 75.20–35 Description of equipment for life floats and buoyant apparatus.

* * * * *

(d) *Painter.* The painter must—

(1) Be at least 30 m (100 ft.) long, but not less than 3 times the distance between the deck on which the life floats and buoyant apparatus are stowed and the light draft of the vessel.

(2) Have a breaking strength of at least 6.7 kN (1500 lb.), except that if the capacity of the life float or buoyant apparatus is 50 persons or more, the breaking strength must be at least 13.4 kN (3000 lb.),

(3) Be of a dark color if synthetic, or of a type certified to be resistant to deterioration from ultraviolet light, and

(4) Be stowed in such a way that it runs out freely when the life float or buoyant apparatus floats away from the sinking vessel.

(46 U.S.C. 481, 49 U.S.C. 1655(b)(1); 49 CFR 1.46)

SUBCHAPTER I—CARGO AND MISCELLANEOUS VESSELS

PART 94—LIFESAVING EQUIPMENT

8. By revising § 94.15–10(d) and –10(e) to read as follows:

§ 94.15–10 Stowage.

(d) *Life float and buoyant apparatus stowage.* Each life float and buoyant apparatus must be secured to the vessel by a painter and a float-free link.

(1) The float-free link must be—

(i) Certified to meet Subpart 160.073 of this Chapter,

(ii) Of proper strength for the size of the life float or buoyant apparatus as indicated on its identification tag, and

(iii) Secured to the painter at one end and secured to the vessel on the other end.

(2) The means by which the float-free link is attached to the vessel must—

(i) Have a breaking strength of at least the breaking strength of the painter,

(ii) If synthetic, be of a dark color or of a type certified to be resistant to deterioration from ultraviolet light, and

(iii) If metal, be corrosion resistant.

(3) If the life float or buoyant apparatus does not have a painter attachment fitting, a means for attaching the painter must be provided by a wire or line that—

(i) Encircles the body of the device,

(ii) Will not slip off,

(iii) Has a breaking strength that is at least the breaking strength of the painter, and

(iv) If synthetic, is of a dark color or is of a type certified to be resistant to deterioration from ultraviolet light.

(4) The float-free link described in paragraphs (d)(1) and (d)(2) of this section is not required if the vessel operates solely in waters which have a depth less than the length of the painter.

(5) If the vessel carries more than one life float or buoyant apparatus, the life floats and buoyant apparatus may be grouped and each group secured by a single painter, provided that—

(i) The combined weight of each group of life floats and buoyant apparatus does not exceed 185 kg (400 lb.),

(ii) Each life float and buoyant apparatus is individually attached to the painter by a line that meets §§ 94.20–35 (d)(2) and (d)(3) and which is long enough so that each can float without contacting any other life float or buoyant apparatus in the group, and

(iii) The strength of the float-free link under paragraph (d)(1)(ii) of this section and the strength of the painter under § 94.20–35(d)(2) is determined by the combined capacity of the group of life floats and buoyant apparatus.

(6) Stowing of life floats and buoyant apparatus must allow easy launching. Life floats and buoyant apparatus over 185 kg (400 lb.) must not require lifting before launching.

(7) Life floats and buoyant apparatus must not be secured to the vessel except by the painter and by lashings which can be easily released or hydraulic releases. They must not be stowed in more than four tiers. When stowed in tiers, the separate units must be kept apart by spacers.

(8) There must be means to prevent shifting.

(e) Each hydraulic release used in the installation of any life raft, inflatable life raft, life float, or buoyant apparatus must meet Subpart 160.062 of this Chapter.

(46 U.S.C. 481, 49 U.S.C. 1655(b)(1); 49 CFR 1.46)

9. By revising § 94.20–35(d) as follows:

§ 94.20–35 Description of equipment for life floats and buoyant apparatus.

* * * * *

(d) *Painter.* The painter must—

(1) Be at least 30 m (100 ft.) long, but not less than 3 times the distance between the deck on which the life floats and buoyant apparatus are stowed and the light draft of the vessel,

(2) Have a breaking strength of at least 6.7 kN (1500 lb.), except that if the capacity of the life float or buoyant apparatus is 50 persons or more, the breaking strength must be at least 13.4 kN (3000 lb.),

(3) Be of a dark color if synthetic, or of a type certified to be resistant to deterioration from ultraviolet light, and

(4) Be stowed in such a way that it runs out freely when the life float or buoyant apparatus floats away from the sinking vessel.

(46 U.S.C. 481, 49 U.S.C. 1655(b)(1); 49 CFR 1.46)

SUBCHAPTER Q—EQUIPMENT, CONSTRUCTION AND MATERIALS: SPECIFICATIONS AND APPROVAL

PART 160—LIFESAVING EQUIPMENT

10. By revising Subpart 160.010 to read as follows:

Subpart 160.010—Buoyant Apparatus for Merchant Vessels

Sec.

160.010–1 Incorporations by reference.
160.010–2 Definitions.
160.010–3 General requirements for buoyant apparatus.
160.010–4 Buoyant apparatus with plastic foam buoyancy.
160.010–6 Capacity of buoyant apparatus.
160.010–7 Methods of sampling, inspections and tests.
160.010–8 Nameplate and marking.
160.010–9 Procedure for approval.
160.010–10 Independent laboratory.

Authority: 46 U.S.C. 481; 49 U.S.C. 1655(b); 49 CFR 1.46.

Subpart 160.010—Buoyant Apparatus for Merchant Vessels

§ 160.010–1 Incorporations by reference.

(a) Certain materials are incorporated by reference into this subpart with the approval of the Director of the Federal Register. The Office of the Federal Register publishes a table, "Material Approved for Incorporation by Reference," which appears in the Finding Aids section of this volume. In that table is found the date of the edition approved, citations to the particular sections of this part where the material is incorporated, addresses where the material is available, and the date of the approval by the Director of the Federal Register. To enforce any edition other than the one listed in the table, notice of change must be published in the **Federal Register** and the material made available. All approved material is on file at the Office of the Federal Register, Washington, DC 20408, and at the U.S. Coast Guard, Survival Systems Branch (G–MVI–3), Washington, DC 20593.

(b) The materials approved for incorporation by reference in this subpart are:

National Bureau of Standards (NBS)

"The Universal Color Language" and "The Color Names Dictionary" in *Color: Universal Language and Dictionary of Names*, National Bureau of Standards Special Publication 440.

Military Specifications

MIL–P–19644 C—Plastic Molding Material (Polystyrene Foam, Expanded Bead).

MIL–R–21607 C—Resins, Polyester, Low Pressure Laminating, Fire Retardant.

MIL–P–21929 B—Plastic Material, Cellular Polyurethane, Foam-In-Place, Rigid (2 and 4 Pounds per Cubic Foot).

MIL–P–40619 A—Plastic Material, Cellular, Polystyrene (For Buoyancy Applications).

§ 160.010–2 Definitions.

(a) *Buoyant apparatus.* Buoyant apparatus is flotation equipment (other than lifeboats, liferafts, and personal flotation devices) designed to support a specified number of persons in the water, and of such construction that it retains its shape and properties and requires no adjustment or preparation for use. The types of buoyant apparatus generally in use are the box-float type and the peripheral-body type defined in paragraphs (b) and (c) of this section.

(b) *Box-float.* Box-float is buoyant apparatus of a box-like shape.

(c) *Commandant (G–MVI–3).* Commandant (G–MVI–3) is the Chief of the Survival Systems Branch, U.S. Coast Guard Office of Merchant Marine Safety.

(d) *Peripheral-body.* Peripheral body is buoyant apparatus with a continuous body in the shape of either an ellipse or rectangle with a circular, elliptical, or rectangular body cross-section.

§ 160.010–3 General requirements for buoyant apparatus.

(a) Each buoyant apparatus must be capable of passing the tests in § 160.010–7.

(b) Materials not covered in this subpart must be of good quality and suitable for the purpose intended.

(c) Buoyant apparatus must be effective and stable, floating either side up.

(d) Each buoyant apparatus must be of such size and strength that it can be handled without the use of mechanical appliances, and its weight must not exceed 185 kg (400 lb.).

(e) The buoyant material must be as near as possible to the sides of the apparatus.

(f) Each buoyant apparatus must have a life line securely attached around the outside, festooned in bights no longer than 1 m (3 ft.), with a seine float in each bight, unless the line is of an inherently buoyant material and absorbs little or no water. The life line must be at least 10 mm (⅜ in.) diameter and have a breaking strength of at least 5400 N (1215 lb.).

(g) Pendants must be fitted approximately 450 mm (18 in.) apart around the outside of each buoyant apparatus. Each pendant must be at least 6 mm (¼ in.) diameter, at least 3.5 m (12 ft.) long, secured in the middle, and have a breaking strength of at least 2400 N (540 lb.). Each pendant must be made up in a hank, and the hank secured by not more than two turns of light twine.

(h) Each peripheral body type buoyant apparatus without a net or platform on the inside must also have a life line and pendants around the inside.

(i) Synthetic line or webbing must not be used unless it is of a type represented by its manufacturer as ultraviolet light resistant, or it is pigmented in a dark color. A typical method of securing lifelines and pendants to straps of webbing is shown in Figure 160.010–3(i). If webbing is used to secure life lines and pendants, it must be at least 50 mm (2 in.) wide and must have a breaking strength of at least 3.4 kN (750 lb.) for apparatus of under 25 persons capacity, and 6.7 kN (1,500 lb.) for apparatus of 25 persons capacity and higher.

BILLING CODE 4910–14–M

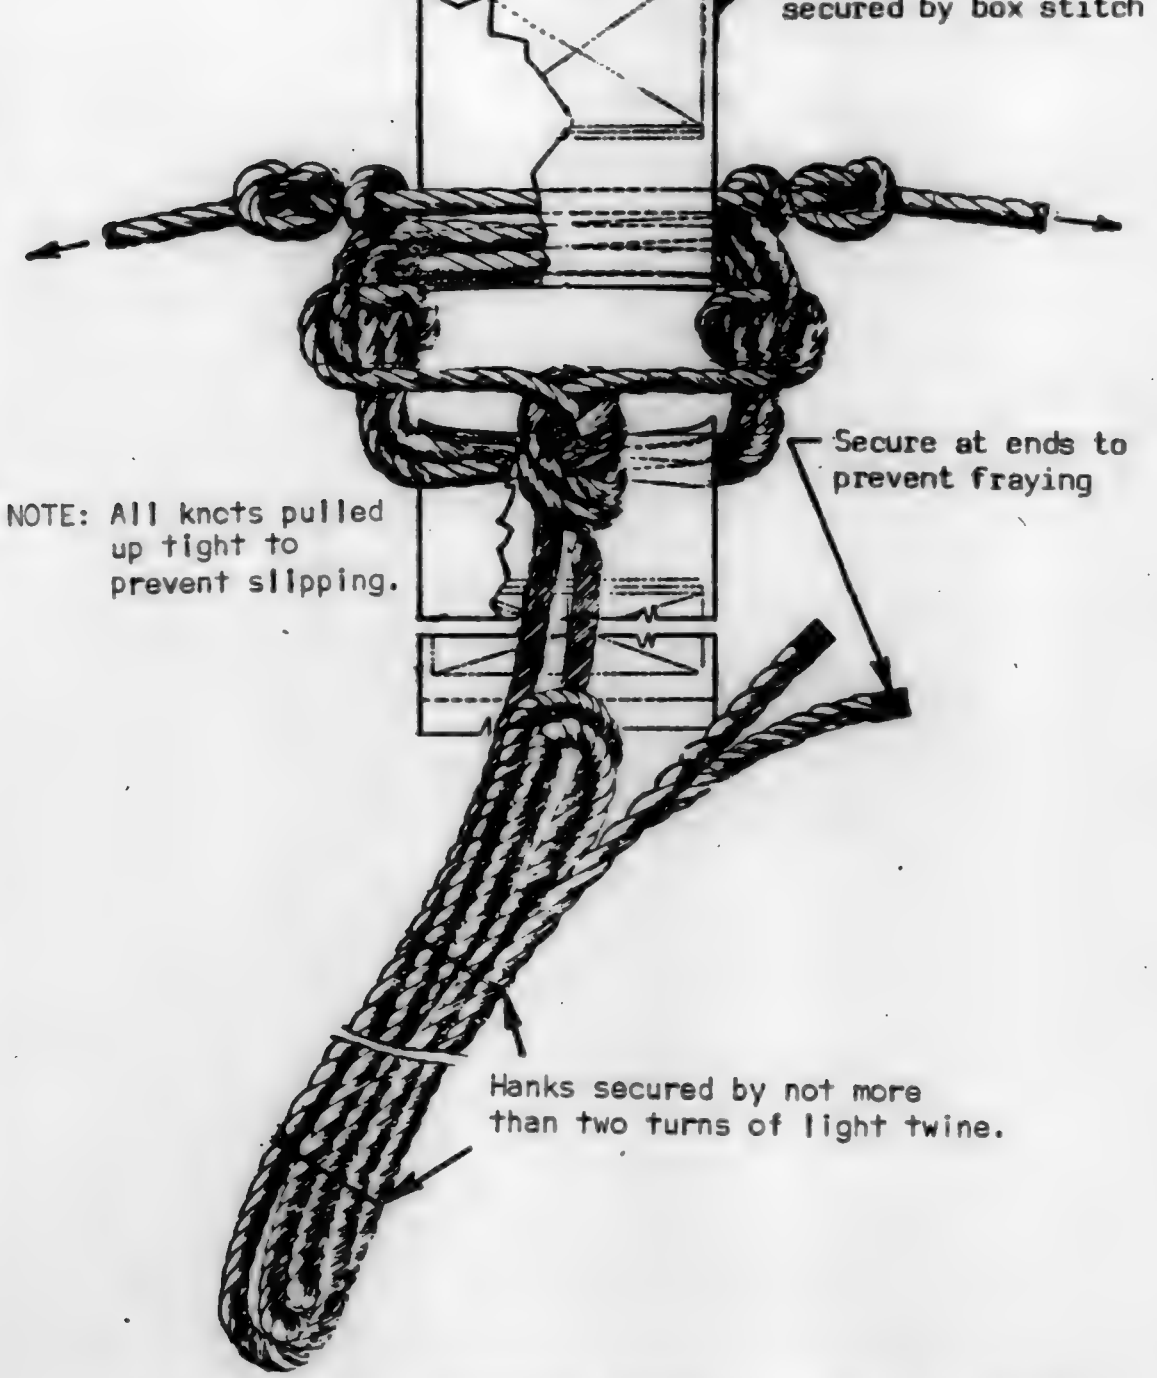

Figure 160.010-3(i)-Acceptable method of rigging a pendant.

BILLING CODE 4910-14-C

(j) Buoyant apparatus must have a fitting with an inside diameter of at least 50 mm (2 in.) for the attachment of a painter.

(k) Each edge and exposed corner must be well rounded. Buoyant apparatus with a rectangular cross-section must have corners rounded to a radius of at least 75 mm (3 in.).

(l) Buoyant apparatus must not have any evident defects in workmanship.

(m) Each metal part of a buoyant apparatus must be—

(1) 410 stainless steel or have salt water and salt air corrosion characteristics equal or superior to 410 stainless steel; and

(2) Galvanically compatible with each other metal part in contact with it.

(n) The color of the buoyant apparatus must be primarily vivid reddish orange as defined by Sections 13 and 14 of the "Color Names Dictionary."

(o) When fibrous-glass-reinforced plastic is used in the construction of a buoyant apparatus, each cut edge of laminate must be protected from entry of moisture by resin putty or an equivalent method.

(p) Each buoyant apparatus must have Type II retroreflective material meeting subpart 164.018 of this chapter on each side and end. The material must be in strips at least 50 mm (2 in.) wide extending from top to bottom over the side or end and continuing over the top and bottom surfaces of the apparatus. For peripheral body apparatus, each strip must extend completely over the top and bottom surface of the body. For box type apparatus, the strip must extend at least 300 mm (12 in.) inboard from the edge over the top and bottom surface. Each strip must be positioned near the center of the side or end, but so that it is not obscured by any strap. A typical arrangement is shown in Figure 160.010–3(p).

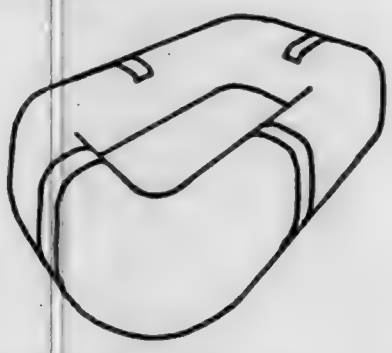

Figure 160.010-3(p)-Typical arrangement of retroreflective material (body fittings omitted).

§ 160.010–4 Buoyant apparatus with plastic foam buoyancy.

(a) Buoyant apparatus with plastic foam buoyancy must have a plastic foam body with an external protective covering. The body may be reinforced as necessary to meet the tests in § 160.010–7.

(b) Plastic foam used in the construction of buoyant apparatus must be a unicellular type accepted by the Commandant (G–MVI–3) as meeting one of the following:

(1) Subpart 164.015 of this chapter.

(2) MIL–P–19644.

(3) MIL–P–21929.

(4) MIL–P–40619.

(c) The external protective covering must be—

(1) Fibrous-glass-reinforced plastic, constructed of a polyester resin listed on the current Qualified Products List for MIL–P–21607, or accepted by the Commandant (G–MVI–3) as meeting MIL–P–21607;

(2) Elastomeric vinyl accepted by the Commandant (G–MVI–3) as meeting § 160.055–3(j) of this Chapter; or

(3) Any other material accepted by the Commandant (G–MVI–3) as providing equivalent protection for the body of the apparatus.

§ 160.010–6 Capacity of buoyant apparatus.

(a) The number of persons for which a buoyant apparatus is approved must be the lowest number determined by the following methods:

(1) Final buoyancy of the buoyant apparatus in Newtons after the watertight integrity test as described in § 160.010–7(e) and (f), divided by 145 (divided by 32 if buoyancy is measured in pounds). The divisor must be changed to 180 (40 if buoyancy is measured in pounds) if the apparatus is designed so that persons supported are only partially immersed or where facilities are provided for climbing on top of the apparatus.

(2) Number of 300 mm (1 ft.) increments in the outside perimeter of the buoyant apparatus. The inside edge of peripheral-body type buoyant apparatus is not considered in determining the capacity.

§ 160.010–7 Methods of sampling, inspections and tests.

(a) *General.* Production tests must be conducted under the procedures in Subpart 159.007 of this chapter. An inspector from the independent laboratory must inspect the place of manufacture, observe the various operations involved in the construction process and determine that buoyant apparatus are made in accordance with this subpart and of materials and parts conforming strictly with the plans and specifications submitted by the manufacturer and approved by the Commandant (G–MVI–3).

(b) *Sampling of production lots.* A production lot must consist of not more than 300 buoyant apparatus of the same design and capacity manufactured by one factory. Samples for production tests must be selected at random from each lot. The required sample size for various lot sizes is given in Table 160.010–7(b).

TABLE 160.010–7(b)—SAMPLE SIZE FOR VARIOUS LOT SIZES

Lot size	Sample size
1 to 30	1
31 to 60	2
61 to 90	3
91 to 300	4

(c) *Testing of sample buoyant apparatus from production lots.* Each sample buoyant apparatus selected for test from a production lot must be subjected to the tests described in paragraphs (d) through (g) of this section. The stability test in paragraph (h) must be performed whenever a question of stability arises.

(d) *Strength tests.* The buoyant apparatus tested for approval must be subjected to the drop test. Buoyant apparatus tested for production lot inspections must also be subjected to the drop test except that in the case of peripheral body type apparatus, the beam loading test may be substituted.

(1) *Drop test.* Drop the complete sample buoyant apparatus into still water from a height of 18 m (60 ft.) twice, once flat and once endwise. There must be no damage that would render the apparatus unserviceable.

(2) *Beam loading test.* The buoyant apparatus must be stood on edge on one of its longer sides. A wood block 600 mm (24 in.) long and wide enough to cover the body of the apparatus must be centered on the top edge of the apparatus. A loading beam must be set at right angles to the float at a height so that the beam is in a horizontal position with its center on the center of the wood block. The loading beam must be hinged at one end and a load applied at the other end at a uniform rate of 225 kg (500 lb.) per minute until the load at the end of the beam as shown on Table 160.010–7(d)(2) is reached. The beam is then held stationary for 10 minutes. The device used to apply the load must be a chain fall, hydraulic cylinder or other device that allows the device to unload as the strain on the buoyant apparatus relieves. At the end of the 10 minute

period, the drop in the load on the device must not exceed the maximum permissible drop shown in Table 160.010–7(d)(2). If the buoyant apparatus is not one of the sizes listed in the table, the loads must be determined by linear interpolation.

Note.—Because of the lever ratio of the beam loading apparatus described here, the actual loads applied to the apparatus are twice the loads shown in the Table.

TABLE 160.010–7(d)(2).—BEAM LOADING TEST

Size of buoyant apparatus (persons)	Test load (kg (lb.))	Maximum permissible drop (kg (lb.))
50	2,400 (5,280)	120 (264)
40	1,800 (3,960)	90 (198)
25	1,500 (3,300)	75 (165)
15	1,200 (2,640)	60 (132)
10	900 (1,980)	45 (100)

(e) *Buoyancy test.* Known weights are loaded on the sample buoyant apparatus until it is awash. The buoyancy is the downward force exerted by the weights loaded on the apparatus. A raised platform of known weight having two runners on edge spaced so as to bear on the apparatus may be used to support the weights out of water to avoid the necessity for making allowances for the displacement of submerged weights. This test is not a required production test if the manufacturer—

(1) Uses the same plastic buoyancy foam used in previous production lots,

(2) Determines that the density of each batch of foam used is within a range specified on the approved plans, and

(3) Closely controls the amount of foam used in each apparatus.

(f) *Watertight integrity test.* The buoyant apparatus is submerged for 24 hours at a depth of 3 m (10 ft.) or equivalent water pressure. The final buoyancy of the buoyant apparatus is determined in accordance with paragraph (e) of this section. The final buoyancy must be at least 145 N (32 lb.) per person capacity of the buouyant apparatus or 180 N (40 lb.) per person capacity if the apparatus is designed so that persons supported are only partially immersed or if facilities are provided for climbing on top of the apparatus. The loss of buoyancy must not exceed 5 percent of the initial buoyancy. This test is not a required production test if the manufacturer uses the plastic buoyancy foam controls permitted as an alternative to the buoyancy test in paragraph (e) of this section.

(g) *Painter attachment strength test.* The apparatus must be positioned with its painter attachment fitting at the lowest point of the apparatus, directly below the center of buoyancy. The apparatus must be suspended in this position from the highest side. A load equal to twice the buoyancy of the apparatus must be suspended from the painter attachment fitting for 10 minutes. The fitting must remain firmly attached to the buoyant apparatus and the apparatus must not sustain any visible damage.

(h) *Stability test.* With the sample buoyant apparatus floating in water, a weight of 22.5 kg of iron per meter of length (15 lb. per foot) must be suspended in the water from the life lines along one of the longer edges. The same test must be performed along one of the shorter edges. The minimum weight along any one edge must be 27 kg (60 lb.). The buoyant apparatus must neither capsize nor become partially awash under either of these tests.

(i) *Weight test.* One buoyant apparatus of the lot submitted for approval must be weighed. The weight of the complete buoyant apparatus must be within the limit required in § 160.010–3(d).

(j) *Lot acceptance or rejection.* Inability of a sample buoyant apparatus to pass any one or more of the tests required in this section causes rejection of the lot. Each buoyant apparatus in a rejected lot must be reworked by the manufacturer to correct the defects found before the lot is resubmitted for inspection and testing.

§ 160.010–8 Nameplate and marking.

(a) A substantial nameplate must be permanently attached to each buoyant apparatus. The nameplate must contain the name of the manufacturer, lot designation or serial number, approval number, dimensions, and number of persons capacity. Space must be provided for the date, and the identification of the independent laboratory.

(b) The nameplates of buoyant apparatus accepted must be marked with the identification of the independent laboratory and the date.

§ 160.010–9 Procedure for approval.

(a) A buoyant apparatus is approved by the Coast Guard under the procedures in Subpart 159.005 of this chapter.

(b) The test required for approval are those in § 160.010–7, and must be performed on the first production lot of buoyant apparatus produced by the manufacturer.

§ 160.010–10 Independent laboratory.

(a) The approval and production tests in this subpart must be conducted by an independent laboratory accepted by the Coast Guard under Subpart 159.010 of this Chapter.

11. By revising Subpart 160.027 to read as follows:

Subpart 160.027—Life Floats for Merchant Vessels

Sec.

160.027–2 Type.

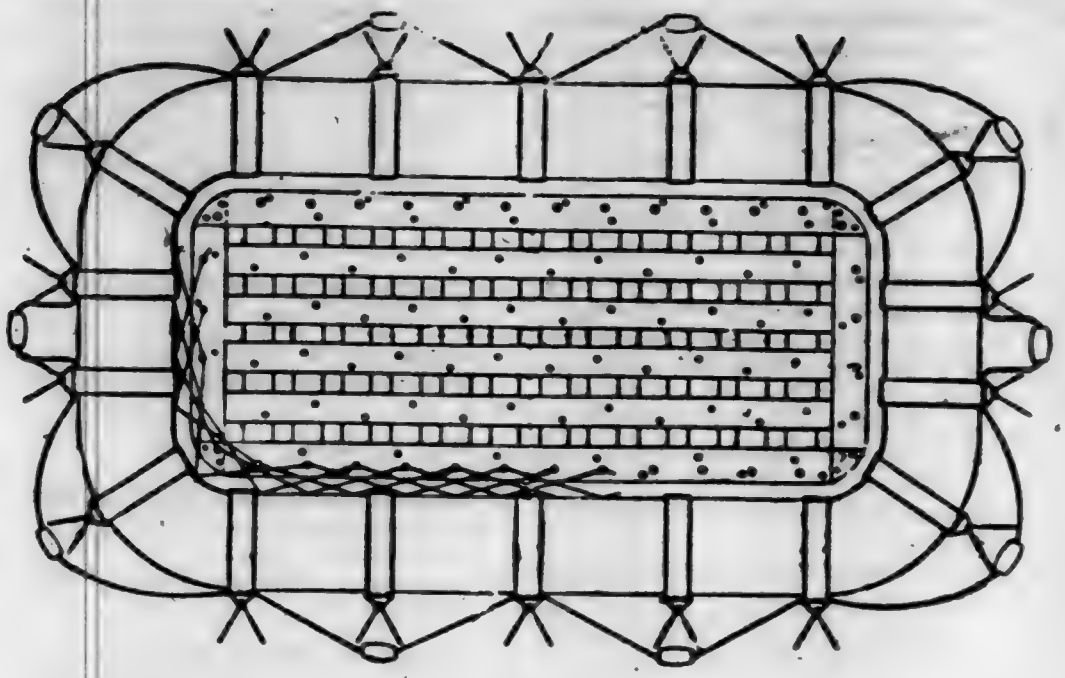
160.027–3 Additional requirements for life floats.

160.027–7 Pre-approval tests for alternate platform designs.

Authority: 46 U.S.C. 461; 49 U.S.C. 1655(b); 49 CFR 1.46.

Subpart 160.027—Life Floats for Merchant Vessels

§ 160.027–2 Type.

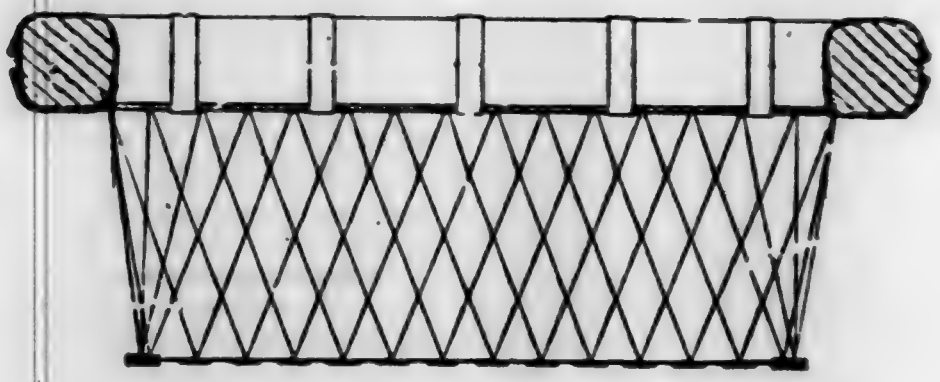


(a) Each life float must meet the requirements in Subpart 160.010 of this chapter for a peripheral body type buoyant apparatus designed so that persons supported are only partially immersed (180 N (40 lb.) of buoyancy per person required).

§ 160.027–3 Additional requirements for life floats.

(a) Each life float must have a platform designed to drop through the center of the float, whichever way the life float is floating. A typical arrangement is shown in Figure 160.027–3(a).

(b) The platform must meet the requirements of one of the following subparagraphs:



BILLING CODE 4910–14–M

PLAN

PROFILE

SECTION THRU FLOAT

Figure 160.027-3(a) - Typical Life Float.

BILLING CODE 4910-14-C

(1) A lattice type platform must be of western red cedar, port orford cedar, sitka spruce, northern white pine, or southern cypress slats constructed on an oak frame. The slats must have nominal cross-section dimensions not less than 90 mm (3½ in.) by 9.5 mm (⅜ in.). The frame members must have nominal cross-section dimensions not less than 100 mm (4 in.) by 12.5 mm (½ in.). The space between adjacent slats must not exceed the width of the slats. The space between each frame member and the adjacent slat must not exceed twice the width of the slats. The platform must be riveted together at each intersection of—

(i) Frame members,

(ii) Slats, and

(iii) Frame members and slats.

(2) A plywood platform must be made of exterior or marine type plywood with surfaces that are either "A" or "B" grade as commonly designated in the plywood industry. Holes 35 mm (1⅜ in.) to 50 mm (2 in.) in diameter must be drilled through the platform. The number of holes must be at least the number equal to (L–25) (W–25)/225, where L is the length of the platform in cm and W is the width of the platform in cm. (The formula is (L–10)(W–10)/36 where L and W are measured in inches.) The thickness of the plywood must be at least—

(i) 12.5 mm (½ in.) for life floats of 10 persons capacity and under,

(ii) 16 mm (⅝ in.) for life floats between 11 and 25 persons capacity inclusive, and

(iii) 19 mm (¾ in.) for life floats of 26 persons capacity and over.

(3) A platform of construction differing from that described in either (1) or (2) of this paragraph will be approved if it has holes to permit the passage of water and if it passes the tests in § 160.027–7. The number of holes must be the same as required for a plywood platform. If the platform is netting on a frame, the netting must be constructed of cordage with a breaking strength of at least 1600 N (355 lb.). The netting must be constructed on not more than 5 cm (2 in.) centers and must be knotted together at each point where the lines intersect.

(c) Each platform must be of a material that is resistant to deterioration by exposure to weather or must have a surface that protects it from deterioration by exposure to weather. For a wood platform, this surface must be at least two coats of water resistant spar varnish, or two coats of marine paint.

(d) Each part of the platform, including surfaces, edges, and rivets must be smooth and must not have cutting edges, points, or splinters which would be dangerous for bare feet.

(e) The platform must be arranged so that under normal stowed conditions, it can be retained in the center of the float and can be readily released from this position for use.

(f) The platform must be suspended from the body of the float by a net or an equivalent arrangement, which when fully extended, holds the top of the platform approximately 900 mm (36 in.) below the center of the float body.

(1) The net must be constructed of cordage with a minimum breaking strength of 1600 N (355 lb.). The net must be attached to the platform through holes on centers that do not exceed 165 mm (6½ in.).

(2) If the platform is suspended from the body of the float by an arrangement other than a net as described in paragraph (c)(1) of this section, the arrangement must be of equivalent to the net in terms of strength, resistance to tangling, and allowing the platform to freely pass through the center of the life float body.

§ 160.027–7 Pre-approval tests for alternate platform designs.

(a) The tests in this section are for life float platforms that do not meet the requirements of either § 160.027–3(b) (1) or (2).

(b) The float body must be supported so that the platform is suspended in the air by the net or equivalent supporting arrangement. The platform must be loaded evenly with a weight equal to 60 percent of the weight of the total number of persons for which the float is to be rated, assuming a weight of 75 kg (165 lb.) per person. The weight must be allowed to remain on the platform for ten minutes after which it is removed. The supporting arrangement and platform must not show any evidence of damage or permanent deformation as a result of this test.

(c) The float body must be supported so that the platform is suspended in the air by the net or equivalent supporting arrangement. A bag of sand, shot or similar granular material weighing 90 kg (200 lb.) must be dropped onto the center of the platform from a height of 3 m (10 ft.). The supporting arrangement and platform must not show any damage that would affect the serviceability of the float or platform.

(d) As part of the buoyancy test required in § 160.010–7(e) of this chapter, the platform must be loaded with weights equal to ⅓ the rated capacity of the float. There must be no damage to the supporting arrangement or platform as a result of this test.

Note.—Since the weights on the platform will be submerged during this test, allowance must be made for the displacement of the submerged weights. The weight required is calculated by the formula W=(16d)/(d–4885), where W is the required submerged weight per person (in kg) and d is the density of the material (in kg/m³). (In customary U.S. units, the formula is W=40d)/(d–63) where W is in lb. and d is in lb./ft.³).

12. By adding a new Subpart 160.073 to read as follows:

Subpart 160.073—Float-Free Link or Life Floats and Buoyant Apparatus

Sec.

160.073–1 Scope.
160.073–5 Certification.
160.073–10 Construction and performance.
160.073–15 Tests.
160.073–20 Marking.

Authority: 46 U.S.C. 481; 49 U.S.C. 1655(b); 49 CFR 1.46.

Subpart 160.073—Float-Free Link for Life Floats and Buoyant Apparatus

§ 160.073–1 Scope.

(a) This subpart contains requirements for a float-free link used for connecting a life float or buoyant apparatus painter to a vessel. The float-free link is designed to be broken by the buoyant force of the life float or buoyant apparatus so that the float or apparatus breaks free of a vessel that sinks in water deeper than the length of the painter.

§ 160.073–5 Certification.

(a) The float-free link is not approved by the Coast Guard. The manufacturer of the link must certify that it meets all of the requirements of this subpart by application of the markings required in § 160.073–20.

(b) If the manufacturer wants the link to be listed in the Coast Guard publication "Equipment Lists," the manufacturer must send a letter requesting the listing to Commandant (G–MVI–3), U.S. Coast Guard, Washington, DC 20593.

§ 160.073–10 Construction and performance.

(a) The link must be constructed essentially as shown in figure 160.073–10. The link must be formed from a single salt water corrosion-resistant wire. A loop at least 50 mm (2 in.) in diameter must be provided at each end of the wire. Each loop must be permanently secured.

(b) The breaking strength of each link must be between:

(1) 450 N (100 lb.) and 600 N (134 lb.) for links intended for life floats and buoyant apparatus of 10 persons and less capacity.

(2) 900 N (200 lb.) and 1200 N (268 lb.) for links intended for life floats and buoyant apparatus of 11 to 20 persons capacity.

(3) 1800 N (400 lb.) and 2400 N (536 lb.) for links intended for life floats and buoyant apparatus of 21 persons and more capacity.

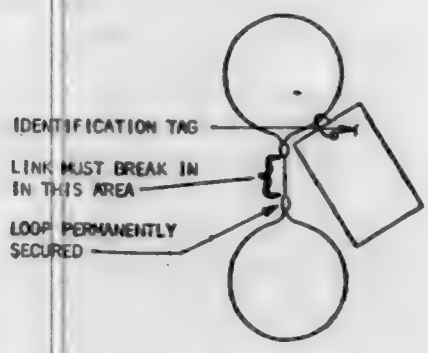


Figure 160.073-10. Typical configuration of float-free link for life floats and buoyant apparatus.

47

§ 160.073-15 Tests.

(a) The manufacturer shall perform a tensile test on the first three links made from a particular spool of wire. The test must be done by slowly loading the link until it breaks. The link must break between the limits specified in § 160.073-10(b). The break must occur in the length of wire at or between the points where the loops are secured (see Figure 160.073-10).

(b) If each of the three links passes the test, each link constructed in the same manner from the same spool of wire may be certified by the manufacturer as meeting the requirements of this subpart.

(c) If one or more of the three links fails the test, no link manufactured in the same manner and from the same spool of wire as the test links may be certified as meeting the requirements of this subpart.

§ 160.073-20 Marking.

(a) Each link certified by the manufacturer to meet the requirements of this subpart must have a corrosion resistant, waterproof tag attached to it that has the following information on it (the manufacturer must make the appropriate entries in the indicated space):

FLOAT-FREE LINK FOR LIFE FLOATS AND BUOYANT APPARATUS
Of *(10 or less) (11 to 20) (21 or more)* persons capacity.
Normal breaking strength ——.
Meets U.S. coast guard Requirements—46 CFR 160.073.
Made by: *(name and address)* ——————
(Date)——————

SUBCHAPTER T—SMALL PASSENGER VESSELS (UNDER 100 GROSS TONS)

PART 192—LIFESAVING EQUIPMENT

13. By revising § 180.15-5 (c) as follows:

§ 180.15-5 Description of equipment for life floats and buoyant apparatus.

* * * * *

(c) *Painter.* The painter must—

(1) Be at least 30 m (100 ft.) long,

(2) Have a breaking strength of at least 6.7 kN (1500 lb.), except that if the capacity of the life float or buoyant apparatus is 50 persons or more, the breaking strength must be at least 13.4 kN (3000 lb.),

(3) Be of a dark color if synthetic, or of a type certified to be resistant to deterioration from ultraviolet light, and

(4) Be stowed in such a way that it runs out freely when the life float or buoyant apparatus floats away from the sinking vessel.

(46 U.S.C. 481, 49 U.S.C. 1655 (b)(1); 49 CFR 1.46)

14. By revising § 180.20-1 to read as follows:

§ 180.20-1 Stowage of lifesaving appliances.

(a) Each life float and buoyant apparatus must be secured to the vessel by a painter and a float-free link.

(1) The float-free link must be—

(i) Certified to meet Subpart 160.073 of this Chapter,

(ii) Of proper strength for the size of the life float or buoyant apparatus as indicated on its identification tag, and

(iii) Secured to the painter at one end and secured to the vessel on the other end.

(2) The means by which the float-free link is attached to the vessel must—

(i) Have a breaking strength of at least the breaking strength of the painter,

(ii) If synthetic, be of a dark color or of a type certified to be resistant to deterioration from ultraviolet light, and

(iii) If metal, be corrosion resistant.

(3) If the life float or buoyant apparatus does not have a painter attachment fitting, a means for attaching the painter must be provided by a wire or line that—

(i) Encircles the body of the device,

(ii) Will not slip off,

(iii) Has a breaking strength that is at least the breaking strength of the painter, and

(iv) If synthetic, is of a dark color or is of a type certified to be resistant to deterioration from ultraviolet light.

(4) The float-free link described in paragraphs (a)(1) and (a)(2) of this section is not required if the vessel operates solely in waters which have a depth less than the length of the painter.

(5) If the vessel carries more than one life float or buoyant apparatus, the life floats and buoyant apparatus may be grouped and each group secured by a single painter, provided that—

(i) The combined weight of each group of life floats and buoyant apparatus does not exceed 185 kg (400 lb.),

(ii) Each life float and buoyant apparatus is individually attached to the painter by a line that meets § 180.15-5(c)(2) and (c)(3) and which is long enough so that each can float without contacting any other life float or buoyant apparatus in the group, and

(iii) The strength of the float-free link under paragraph (a)(1)(ii) of this section and the strength of the painter under § 180.15-5(c)(2) is determined by the combined capacity of the group of life floats and buoyant apparatus.

(6) Stowing of life floats and buoyant apparatus must allow easy launching. Life floats and buoyant apparatus over 185 kg (400 lb.) must not require lifting before launching.

(7) Life floats and buoyant apparatus must not be secured to the vessel except by the painter and by lashings which can be easily released or hydraulic releases. They must not be stowed in tiers more than 1.2 m (4 ft.) high. Tiers of life floats or buoyant apparatus must not interfere with navigation of the vessel. When stowed in tiers, the separate units must be kept apart by spacers.

(8) There must be means to prevent shifting.

(e) Each hydraulic release used in the installation of any liferaft, inflatable liferaft, lifefloat, or buoyant apparatus must meet Subpart 160.062 of this chapter.

(46 U.S.C. 481, 49 U.S.C. 1655(b)(1); 49 CFR 1.46)

SUBCHAPTER U—OCEANOGRAPHIC VESSELS

PART 192—LIFESAVING EQUIPMENT

15. By revising § 192.15-10(d) and 10(e) to read as follows:

§ 192.15-10 Stowage.

* * * * *

(d) *Life float and buoyant apparatus stowage.* Each life float and buoyant apparatus must be secured to the vessel by a painter and a float-free link.

(1) The float-free link must be—

(i) Certified to meet Subpart 160.073 of this Chapter,

(ii) Of proper strength for the size of the life float or buoyant apparatus as indicated on its identification tag, and

(iii) Secured to the painter at one end and secured to the vessel on the other end.

(2) The means by which the float-free

link is attached to the vessel must—

(i) Have a breaking strength of at least the breaking strength of the painter,

(ii) If synthetic, be of a dark color or of a type certified to be resistant to deterioration from ultraviolet light, and

(iii) If metal, be corrosion resistant.

(3) If the life float or buoyant apparatus does not have a painter attachment fitting, a means for attaching the painter must be provided by a wire or line that—

(i) Encircles the body of the device,

(ii) Will not slip off,

(iii) Has a breaking strength that is at least the breaking strength of the painter, and

(iv) If synthetic, is of a dark color or is of a type certified to be resistant to deterioration from ultraviolet light.

(4) The float-free link described in paragraphs (d)(1) and (d)(2) of this section is not required if the vessel operates solely in waters which have a depth less than the length of the painter.

(5) If the vessel carries more than one lifefloat or buoyant apparatus, the lifefloats and buoyant apparatus may be grouped and each group secured by a single painter, provided that—

(i) The combined weight of each group of lifefloats and buoyant apparatus does not exceed 185 kg (400 lb.),

(ii) Each lifefloat and buoyant apparatus is individually attached to the painter by a line that meets § 192.20–35 (d)(2) and (d)(3) and which is long enough so that each can float without contacting any other lifefloat or buoyant apparatus in the group, and

(iii) The strength of the float-free link under paragraph (d)(1)(ii) of this section and the strength of the painter under § 192.20–35(d)(2) is determined by the combined capacity of the group of lifefloats and buoyant apparatus.

(6) Stowing of lifefloats and buoyant apparatus must allow easy launching. Lifefloats and buoyant apparatus over 185 kg (400 lb.) must not require lifting before launching.

(7) Lifefloats and buoyant apparatus must not be secured to the vessel except by the painter and by lashings which can be easily released or hydraulic releases. They must not be stowed in more than four tiers. When stowed in tiers, the separate units must be kept apart by spacers.

(8) There must be means to prevent shifting.

(e) Each hydraulic release used in the installation of any liferaft, inflatable liferaft, lifefloat, or buoyant apparatus must meet Subpart 160.062 of this chapter.

(46 U.S.C. 481, 49 U.S.C. 1655(b)(1); 49 CFR 1.46)

16. By revising § 192.20–35(d) as follows:

§ 192.20–35 Description of equipment for lifefloats and buoyant apparatus.

* * * * * *

(d) *Painter.* The painter must—

(1) Be at least 30 m (100 ft.) long, but not less than 3 times the distance between the deck on which the lifefloats and buoyant apparatus are stowed and the light draft of the vessel,

(2) Have a breaking strength of at least 6.7 kN (1500 lb.), except that if the capacity of the lifefloat or buoyant apparatus is 50 persons or more, the breaking strength must be at least 13.4 kN (3000 lb.),

(3) Be of a dark color if synthetic, or of a type certified to be resistant to deterioration from ultraviolet light, and

(4) Be stowed in such a way that it runs out freely when the lifefloat or buoyant apparatus floats away from the sinking vessel.

(46 U.S.C. 481, 49 U.S.C. 1655(b)(1); 49 CFR 1.46)

BILLING CODE 4910–14–M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 0

[FCC 82–406]

Amendment To Reflect a Change in the Office of Managing Director

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Commission is amending §§ 0.11 and 0.12 of its Rules to establish an FCC International Telecommunications Advisor and staff in the Office of Managing Director. This action was taken to improve the coordination, administration and management of international communications policies and programs. Section 0.12 is also amended to add to the Office of Managing Director a Management By Objectives/Program Evaluation Staff and a Labor Management Relations Office approved by the Commission in March, 1982. No public impact is anticipated.

EFFECTIVE DATE: September 3, 1982.

ADDRESS: Federal Communications Commission, 1919 M Street, NW., Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Terry D. Johnson, Office of Managing Director, (202) 632–7513.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 0

Organization and functions (government agencies).

Adopted: September 2, 1982.

Released: September 3, 1982.

1. The Commission has before it a proposed change in the authority of the Managing Director. The changes increase the scope of the Managing Director's responsibilities by the addition of an FCC International Telecommunications Advisor and staff. The Managing Director will then formulate and adminster all management and administrative policies and programs for international communications activities on behalf of the Chairman and the Commission. Implementation of the proposal requires amendments to §§ 0.11 and 0.12 of the Commission's rules and regulations.

2. Section 0.12 of the Commission's rules and regulations is further amended to add the Management By Objectives/ Program Evaluation Staff and the Labor Management Relations Office to give proper recognition to units approved by the Congress on March 22, 1982.

3. The amendments adopted herein pertain to agency organization. The prior notice procedure and effective date provisions of Section 4 of the Administrative Procedure Act do not apply. Authority for the amendments adopted herein is contained in Sections 4(i) and 5(b) of the Communications Act of 1934, as amended.

4. Therefore, it is ordered, effective September 3, 1982 that Part 0 of the Rules and Regulations is amended as set forth in the Appendix hereto.

(Secs. 4, 303, 48 stat., as amended, 1066, 1082, (47 U.S.C. 154, 303))

Federal Communications Commission.

William J. Tricarico,

Secretary.

Appendix

PART 0—COMMISSION ORGANIZATION

Part 0 of Chapter 1 of Title 47 of the Code of Federal Regulations is amended by adding a new paragraph (l) in § 0.11 and by revising § 0.12 in its entirety to read as follows:

§ 0.11 Functions of the Office.

* * * * * *

(l) Ensure that the resource and administrative aspects of the Commission's international activities are fully coordinated with other Commission programs and functions. Formulate and administer all

management and administrative policies and programs for international communications activities on behalf of the Chairman and the Commission.

§ 0.12 Units in the Office.

(a) Immediate Office of the Managing Director.

(b) FCC International Telecommunications Advisor.

(c) Labor Management Relations Office.

(d) Management By Objectives/ Program Evaluation Staff.

(e) Associate Managing Director for Information Management.

(1) Network Management Staff.

(2) Computer Applications Division.

(3) Information Processing Division.

(4) Planning and Analysis Division.

(f) Associate Managing Director for Operations.

(1) Financial Management Division.

(2) Operations Support Division.

(g) Emergency Communications Division.

(h) Internal Review and Security Division.

(i) Personnel Management Division.

(j) The Secretary.

47 CFR Part 73

[BC Docket No. 82-309; RM-4094]

FM Broadcast Station in Deer Lodge, Montana; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: Action taken herein assigns Channel 244A to Deer Lodge, Montana, in response to a petition filed by Deer Lodge Broadcasting, Inc. The assigned channel could provide a first FM service to Deer Lodge.

DATE: Effective November 8, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Mark N. Lipp, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Radio broadcasting.

Adopted: August 31, 1982.

Released: September 8, 1982.

1. The Commission has under consideration a Notice of Proposed Rule Making, 47 FR 26865, published June 22, 1982, proposing the assignment of Channel 244A to Deer Lodge, Montana, as that community's first FM assignment. The Notice was issued in response to a petition filed by Deer Lodge Broadcasting, Inc. ("petitioner"). Petitioner filed comments in support of the proposal and reaffirmed its interest in applying for the channel, if assigned. The channel can be assigned in compliance with the minimum distance separation requirements. No opposing comments were received.

2. Canadian concurrence has been received.

3. The Commission has determined that the public interest would be served by assigning Channel 244A to Deer Lodge, Montana, since it would provide the community with an opportunity for its first FM broadcast service.

4. Accordingly, pursuant to the authority contained in sections 4(i), 5(d)(1), 303(g) and (r) and 307(b) of the Communications Act, as amended, and §§ 0.204(b) and 0.281 of the Commission's rule is amended with respect to the following community, effective November 8, 1982.

City	Channel No.
Deer Lodge, Montana	244A

5. It is further ordered, That this proceeding is terminated.

6. For further information contact Mark N. Lipp, Broadcast Bureau, (202) 632-7792.

Federal Communications Commission.

Roderick K. Porter,

Chief, Policy and Rules Division, Broadcast Bureau.

BILLING CODE 6712-01-M

DEPARTMENT OF TRANSPORTATION

Research and Special Programs Administration

49 CFR Part 192

[Amdt. No. 192-41; Docket No. PS-65]

Transportation of Natural and Other Gas by Pipeline; Incorporation by Reference

AGENCY: Materials Transportation Bureau (MTB), RSPA, DOT.

ACTION: Technical amendment.

SUMMARY: This amendment updates the existing incorporation by reference of the 1978 edition of the industry specification for thermoplastic pipe to the 1981 edition of that document. The updating provides for the use of current technology, materials, and practices.

EFFECTIVE DATE: This amendment becomes effective October 20, 1982.

FOR FURTHER INFORMATION CONTACT: Ralph T. Simmons, 202-426-2392.

ADDRESS: Copies of the amendment may be obtained from the Dockets Branch, Room 8426, Materials Transportation Bureau, U.S. Department of Transportation, 400 Seventh Street, SW., Washington, D.C. 20590.

SUPPLEMENTARY INFORMATION: Part 192 incorporates by reference parts of the American Society for Testing and Materials (ASTM) Specification D2513 "Standard Specification for Thermoplastic Gas Pressure Pipe, Tubing, and Fittings." This document is referenced in § 192.59 as a manufacturing qualification for the use of plastic pipe, in § 192.63 as a standard for marking thermoplastic pipe, in § 192.281 as a standard for solvent cement, and in § 192.283 as burst test requirements in qualifying joining procedures for thermoplastic pipe.

The 1978 edition is the latest edition of ASTM D2513 that is referenced in Part 192, as indicated by the listings in Appendixes A and B to the part. This edition has now been superseded by the 1981 edition, which was published by ASTM in August 1981. In response to a recent petition by the City of Charlottesville, Virgina (Petition No. 82-6W), MTB has reviewed the 1981 edition and finds that it reflects the latest developments in materials and plastic pipe technology, and includes the new material, PE 3408. Accordingly, it is in the interest of operators and the public to allow the use of this latest published edition for pipelines subject to Part 192. Therefore, MTB is by this document changing the edition of ASTM D2513 listed in Appendixes A and B of Part 192 to the 1981 edition.

Because this document does not change any of the substantive requirements of Part 192, notice and public procedure are unnecessary, and in accordance with 5 U.S.C. 553, the amendment is final.

Also, since the amendment will have a positive effect on the economy of less than $100 million a year, will result in a cost savings to consumers and industry, and no adverse effects are anticipated, this action is not "major" under E.O. 12291 or "significant" under DOT procedures.

List of Subjects in 49 CFR Part 192

Pipeline safety, Incorporation by reference.

PART 192—TRANSPORTATION OF NATURAL AND OTHER GAS BY PIPELINE: MINIMUM FEDERAL SAFETY STANDARDS

In consideration of the foregoing, Appendixes A and B of Part 192 of Title 49 of the Code of Federal Regulations are amended as follows:

1—In Appendix A—Incorporated by Reference, under subdivision II.B, item (21) is amended by removing "(D2513–78ES)" and adding in its place "(D2513–81)".

2—In Appendix B—Qualification of Pipe, under subdivision I, the listing for ASTM D2513 is amended by removing "(1978)" and adding in its place "(1981)".

(49 U.S.C. 1672 and 1804; 49 CFR 1.53 and Appendix A to Part 1)

Issued in Washington, D.C., on September 9, 1982.

L. D. Santman,

Director, Materials Transportation Bureau.

Proposed Rules

Federal Register
Vol. 47, No. 182
Monday, September 20, 1982

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Federal Grain Inspection Service

7 CFR Part 68

Adjustment of Fees for Federal Rice Inspection Service

AGENCY: Federal Grain Inspection Service [1], USDA.

ACTION: Proposed rule.

SUMMARY: The Federal Grain Inspection Service (FGIS) proposes to increase the fees for Federal rice inspection services. A fee increase is necessary to generate sufficient revenue to as nearly as possible cover the cost of providing this service during the next fiscal year and to begin to gradually reestablish an operating reserve. Rice inspection is a permissive service made available upon request of the applicant. A public meeting will be held to discuss these proposed changes.

DATES: Comments must be submitted on or before October 20, 1982; public meeting, October 14, 1982, 1:00 p.m. to 3:30 p.m.

ADDRESS: Comments must be submitted in writing, in duplicate, to Lewis Lebakken, Jr., Regulations and Directives Management, USDA, FGIS, Room 1636, South Building, 1400 Independence Avenue, SW., Washington, D.C. 20250, telephone (202) 382–0231. All comments received will be made available for public inspection at the above address during regular business hours (7 CFR 1.27(b)).

The public meeting will be held in Room 2096, South Agriculture Building, 1400 Independence Avenue, SW., Washington, D.C.

[1] Authority to exercise the functions of the Secretary of Agriculture contained in the Agricultural Marketing Act of 1946, as amended (7 U.S.C. 1621–1627) concerning inspection and standardization activities related to grain and similar commodities and products thereof has been delegated to the Administrator, Federal Grain Inspection Service (7 U.S.C. 75a; 7 CFR 68.2(e)).

FOR FURTHER INFORMATION CONTACT: Lewis Lebakken, Jr., address as above, telephone (202) 382–0231.

SUPPLEMENTARY INFORMATION:

Executive Order 12291

This proposed rule has been issued in conformance with Executive Order 12291 and Secretary's Memorandum 1512–1. The action has been classified as "nonmajor" because it does not meet the criteria for major regulation established in the Order.

The Administrator has determined that a 30-day public comment period on this proposed rule is adequate because it is necessary to adjust fees as soon as possible to more nearly equate revenue with the cost of providing service and to begin to gradually reestablish an operating reserve which has been totally depleted. Also, FGIS is holding a public meeting to discuss these proposed fee increases with interested parties.

Regulatory Flexibility Act Certification

Kenneth A. Gilles, Administrator, FGIS, has determined that this proposed rule will not have a significant economic impact on a substantial number of small entities because most users of rice inspection services do not meet these requirements for small entities as defined in the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).

Public Meeting

Representatives from the rice industry and other interested parties are invited to attend the scheduled public meeting. At this meeting, Dr. Gilles, Administrator, FGIS, will discuss the proposed changes in the fees and the need for the changes. A question and answer period will follow the presentation and written comments will be accepted from interested parties.

Rice Inspection Service Fee Increase

Section 203(h) of the Agricultural Marketing Act of 1946 (the Act) provides for the collectibn of such fees as will be reasonable and as nearly as possible cover the cost of the services rendered. Fees currently in effect do not cover the costs incurred by FGIS in providing this service. Accordingly, it has been determined that a fee increase is necessary in order to continue providing rice inspection services. This fee increase is being proposed in conjunction with continuing FGIS cost-saving measures such as reductions in staff and reviews of field office areas of responsibility to reduce administrative expenses and thereby provide service more economically.

The rice inspection service fees were intentionally set below the cost of providing service from July 1977 until August 1980 to reduce the size of the operating reserve. An operating reserve is maintained for contingencies when fees may not cover the cost of providing service. This resulted in a return of funds to industry. In August 1980, the fees were increased to slow the rate of depletion of this operating reserve. In November 1981, the fees were again increased which along with numerous cost reducing actions were intended to equate as nearly as possible the revenue with the cost of providing rice inspection service. Costs have been reduced from the same time period last year. However, there was only a small increase in revenue due at least in part to unexpected decreases in the demand for official rice inspection services. Consequently, rice inspection costs have continued to exceed revenue and the operating reserve has been totally depleted. This fee increase is intended to halt the losses and to begin to gradually replenish the operating reserve. FGIS, in order to minimize the size of this fee increase, plans to rebuild this operating reserve to a nominal level over a period of time. Therefore, FGIS is proposing to increase all rice inspection service fees (commitment, non-commitment, appeals, inspection for quality, and factor analysis) by an average of approximately 18.2 percent. FGIS also proposes to increases the charge for providing extra copies of certificates and to increase the charge for providing interpretive line samples. These proposed changes are needed to meet estimated FY 1983 costs and to begin to replenish the operating reserve.

Appeal Inspection Fees

FGIS proposes to assess a fee for all rice appeal inspection services performed by FGIS regardless of the result of the appeal. Currently FGIS, while incurring the cost of performing an appeal inspection, does not assess a fee if the result indicates there was a material error in the inspection being appealed. However, FGIS incurs the cost to perform each appeal and such costs are reflected in the present fees. FGIS

proposes to assess the applicable inspection fee each time the service is performed regardless of a material error determination.

Mileage, Travel Time, Per Diem/ Subsistence and Commercial Transportation Fees for Rice Inspection and Appeal Inspection Services

FGIS proposes to assess a separate fee to recover costs for mileage, travel time, per diem/subsistence and/or commercial transportation when services are performed more than 20 miles from the FGIS field office location or assigned duty station. FGIS considers a normal commuting area to be within 20 miles of the field office or assigned duty station as defined in AMS/FGIS Instruction 467–6.

Currently, FGIS does not assess a fee for these services until the FGIS representative arrives at the point of service. When the point of service is located more than 20 miles from the FGIS field office location or assigned duty station, FGIS incurs considerable travel and salary costs while traveling to the service point. At the present time, these costs are included in the rice inspection fees. FGIS proposes to assess the hourly fee per service representative from the time the representative(s) leaves the FGIS field office or assigned duty station until the representative(s) returns to the FGIS field office or assigned duty station for all rice inspection services performed more than 20 miles from the FGIS field office or assigned duty location. FGIS also proposes to assess a mileage fee of $.20 per mile for all miles driven to provide service at any points more than 20 miles from the field office or assigned duty station. FGIS also proposes to charge the requestor of these services for any per diem or subsistence and commercial transportation costs FGIS incurs in performing these services more than 20 miles from the FGIS field office location or assigned duty station.

Standby Services

FGIS proposes to assess fees for standby services whenever a representative has been requested to provide service at a specified location; is on duty and ready to provide the service; is unable to perform the service because of a delay by the applicant for any reason; and FGIS officials determine that the representative cannot be utilized to provide services elsewhere.

Currently, FGIS does not assess standby fees if the applicant releases the representative(s) for the performance of other duties. In many instances when the applicant has requested the service and FGIS representatives are on duty and ready to provide that service it is not feasible to reassign the representatives to perform service elsewhere. FGIS incurs the cost of maintaining these employees. The present fees for services include these costs.

Application of Fees if Request for Service Is Withdrawn

FGIS propose to assess the applicable minimum service fees, charges for travel time and expenses, and/or charges for standby services if the request for service is withdrawn by the applicant or FGIS, after the Service representative(s) depart for the point of service. Currently, FGIS assesses fees only for costs incurred until the request is withdrawn. In some instances, FGIS may incur costs, such as travel after the request is withdrawn. Therefore, FGIS proposes to assess these fees as applicable.

Conclusion

FGIS proposes to increase rice inspection service fees by an average of approximately 18.2 percent, to increase the charge for providing extra copies of certificates, to increase the charge for providing interpretive line samples, and to alter the method of assessing the fees as described in this proposal in order to cover the costs of providing the Service. Any deviation from these proposed changes, the method of assessment of the fees or the level thereof would result in a need to further evaluate such proposed changes to assure that the fees generate sufficient revenue to cover costs. FGIS is and will continue to review this program in order to determine the need for the program and its cost effectiveness. However, in order to continue to provide service it is necessary to increase the revenue generated from fees for these services.

List of Subjects in 7 CFR Part 68

Administrative practices and procedures—FGIS, Agricultural commodities, Export.

PART 68—REGULATION AND STANDARDS FOR INSPECTION AND CERTIFICATION OF CERTAIN AGRICULTURAL COMMODITIES AND PRODUCTS THEREOF

Accordingly, 7 CFR Part 68 of the regulations are proposed to be amended by revising §§ 68.42c, 68.43(a)(1) and (3), 68.44, 68.45 and are proposed to read as follows:

1. Section 68.42c is amended by revising paragraph (b) to read as follows:

§ 68.42c Fees for Federal rice inspection services.

* * * * *

(b) *Noncommitant service.* (1) A noncommitant service is provided for applicants who do not enter into a commitment service agreement with FGIS or for all hours not covered under a commitment service agreement. Service on a noncommitment basis will be furnished to applicants if personnel are available and in the order in which requests are received, insofar as is consistent with good management, efficiency, and economy. Precedence will be given, when necessary, to (1) commitment service participants, (2) requests for appeal service, (3) requests by Government agencies, and (4) requests by regular users of the service. Hourly rates shall begin when the official inspection personnel arrive at the point of service and shall end when they depart from the point of service, computed to the nearest quarter hour (less mealtime, if any). Hourly rates include the cost of local travel and transportation to perform the service requested and the original and three copies of each certificate. This hourly rate service includes sampling, grading, weighing, and other services as requested by the applicant when performed at the service point.

(2) If service is provided at a location more than 20 miles from the field office from which the service is requested, fees will also be assessed for: (1) Travel time expended by the service representative(s) from the field office location to the service point and return; (2) miles driven in an automobile from the field office location to the service point and return; (3) costs incurred by FGIS for any per diem or subsistence paid to the service representative(s) in connection with providing the service; and, (4) costs incurred by FGIS for commercial transportation for service representative(s) to travel from the field office location to the service point and return. Standby time per person is to be charged at the applicable hourly rates. The minimum fee per callout or inspection visit for noncommitment service is charged at the applicable hourly rate with a 2-hour minimum.

(3) The fees shown in Tables 1 and 2 apply to the Federal rice inspection services:

TABLE 1.—HOURLY RATES [1]

(Rates per hour per person)

	Day [2]	Night and [3] weekend [4]	Holiday [5]
(1) Commitment Service	$25.80	$30.80	$36.20
(2) Noncommitment Service [6] [7]	34.00	39.00	44.40
(i) Travel time [8]	34.00	39.00	44.40
(ii) Mileage (per mile driven) [9]	.20	.20	.20
(iii) Per diem subsistence	(*)	(*)	(*)
(iii) Commercial Transportation [9]	(*)	(*)	(*)

[1] The hourly rate includes sampling, grading, weighing, and other services requested by the applicant if performed at the point of service.
[2] 6 a.m. to 6 p.m.
[3] 6 p.m. to 6 a.m.
[4] Midnight Friday through midnight Sunday.
[5] Holiday means the legal public holiday specified in paragraph (a) of section 6103, title 5, of the United States Code (5 U.S.C. 6103(a)) and any other day declared to be a holiday by Federal Statute or Executive Order. If the specified legal public holiday falls on a Saturday, the preceding Friday shall be considered to be the holiday, or if the specified legal public holiday falls on a Sunday, the following Moday shall be considered to be the holiday.
[6] Minimum fee per person per callout or inspection visit for noncommitment service is 2 hours at the applicable hourly rate.
[7] Standby time per person per hour shall be charged at the applicable hourly rate.
[8] Applicable to noncommitment service round trip travel expenses at locations more than 20 miles from the field office.
[9] Actual cost incurred by the Service in connection with providing the service.

TABLE 2.—OTHER SERVICES

	Rough rice	Brown rice for processing	Milled rice
(1) Appeal [1]			
(2) Extra copies of certificates, per copy	$3.00	$3.00	$3.00
(3) Inspection for quality per lot, sublot, or sample inspection [2]	18.00	16.25	13.50
(4) Factor analysis for any single factor, per factor	5.50	5.50	5.50
(5) Interpretive line samples [3]			
(a) Milling degree, per set			60.00
(b) Parboiled light, per sample			15.00

[1] The same inspection fee is charged as would have been charged if the inspection were not an appeal.
[2] Includes kind, class, grade, factor analysis, equal to type, milling yield, or any other quality designation as defined in the U.S. Standards for Rice or applicable instructions; whether singly or combined; per lot, sublot, or sample inspection when performed at other than the point of service.
[3] Interpretive line samples may be purchased from the U.S. Department of Agriculture, Federal Grain Inspection Service, Field Management Division, Board of Appeals and Review, Richards-Gebaur AFB, Building #221, Grandview, MO 64030. Interpretive line samples are also available for examination at selected FGIS field offices. A list of the field offices may be obtained from the Deputy Director, Field Management Division, USDA, FGIS, Washington, D.C. 20250.
The interpretive line samples illustrate the lower limit for milling degrees only and the color limit for the factor "Parboiled Light" rice.

2. Section 68.43 is amended by revising subparagraphs (a)(1) and (a)(3) to read as follows:

§ 68.43 Fees; general provisions.

(a) * * *

(1) All fees shown shall include the cost of travel and transportation to perform the service requested except as provided in § 68.42c.

* * * * *

(3) Standby time shall be computed whenever the Division representative (i) has been requested by the applicant to perform a service at a specified time and location, (ii) is on duty and ready and willing to perform the service requested, and (iii) is unable to perform the service requested because of a delay by the applicant for any reason, and (iv) cannot be utilized to provide service elsewhere based on a determination made by FGIS. Standby time shall be computed to the nearest quarter hour.

* * * * *

3. Section 68.44 is revised to read as follows:

§ 68.44 Fees for appeal inspection.

Fees for appeal inspection shall be in accordance with §§ 68.42a, 68.42c and 68.43.

4. Section 68.45 is revised to read as follows:

§ 68.45 Fees when an application for inspection or appeal inspection is withdrawn or any inspection service is refused.

In the event an application for inspection or appeal inspection is withdrawn or any inspection service (including original inspection or appeal inspection) is refused pursuant to the applicable provisions of the regulations, the interested party who made the application for the inspection service shall pay only such expenses as were incurred in connection with the service prior to, and for rice inspection services after the withdrawal or refusal.

(Sec. 203(h), Pub. L. 79–733, 60 Stat. 1087 (7 U.S.C. 1622))

Dated: September 7, 1982.

D. R. Galliart,

Acting Administrator.

[FR Doc. 82–25843 Filed 9–17–82; 8:45 am]

BILLING CODE 3410-EN-M

---

7 CFR Part 800

Fees for Original Inspection, Official Weighing (Class X), Supervision of Weighing (Class Y), Reinspection, Appeal Inspection, and Supervision of Official Services

AGENCY: Federal Grain Inspection Service, USDA.

ACTION: Proposed rule.

SUMMARY: The Federal Grain Inspection Service (FGIS or Service) has reviewed and is proposing changes to Sections 800.71 through 800.73 of the regulations under the U.S. Grain Standards Act, as amended. This review also is in compliance with the requirements for periodic review of existing regulations. FGIS is proposing to increase fees to cover as nearly as practicable the estimated cost to the Service for official inspection, official weighing (Class X) and supervision of weighing (Class Y) services in the United States and Canada, including related supervisory and administrative costs. FGIS is also proposing to reduce fees for supervision of truck inspection and protein reinspection services provided by delegated States and designated official agencies. In addition, FGIS proposes to change the method of assessment of fees for some services by: (1) Assessing hourly fees for all original inspection and official weighing services; (2) assessing a fee for all appeal inspection, reinspection and review of weighing services; (3) assessing a fee for travel time and costs for special services related to original inspection and official weighing, and all appeal and reinspection services, performed more than 20 miles from an FGIS field office location; (4) assessing a fee for standby time when it is not feasible to reassign Service representatives to perform service at a different location; (5) assessing a fee for all equipment and scale testing services; (6) assessing "factor only" inspection fees for a maximum of two factors for FGIS supervision of delegated States and designated official agencies. FGIS proposes to increase or decrease fees and alter the methods of assessing the fees in order to cover the costs of providing the services.

DATES: Comments must be submitted on or before October 20, 1982; public meeting, October 13, 1982, 9:00 a.m. to 11:30 a.m.

ADDRESSES: Comments must be submitted in writing, in duplicate, to Lewis Lebakken, Jr., Regulations and Directives Management, USDA, FGIS, Room 1636, South Building, 1400 Independence Avenue, SW., Washington, D.C. 20250; telephone (202) 382–0231. All written comments received will be made available for public inspection at the above office during regular business hours (7 CFR 1.27(b)).

The public meeting will be held in Thomas Jefferson Memorial Auditorium, Room 1072, South Agriculture Building, 1400 Independence Avenue, SW., Washington, D.C.

FOR FURTHER INFORMATION CONTACT: Lewis Lebakken, Jr., address as above, telephone (202) 382–0231.

SUPPLEMENTARY INFORMATION:

Executive Order 12291

This proposed rule has been reviewed under USDA procedures pursuant to the Secretary's Memorandum 1512–1 and Executive Order 12291 and has been determined to be "nonmajor" because it does not meet the criteria for major regulatory actions.

Regulatory Flexibility Act Certification

Dr. Kenneth A. Gilles, Administrator, FGIS, has determined that this proposed rule does not have a significant economic impact on a substantial number of small entities as defined in the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) because: (1) It applies to a limited number of delegated States and designated official agencies under the Act which are not considered to be small entities because they are dominant in their area of operation based on the delegation/designation process; and (2) most other users of FGIS services are not considered to be small entities. Further, FGIS is required by statute to make the services available and to cover as nearly as practicable the costs of the service from the users of the service.

The Administrator has also determined that a 30-day public comment period on this proposed rule is adequate because it is necessary to adjust fees as soon as possible to more nearly equate revenues to costs, and FGIS is holding a public meeting to discuss these proposed fee changes with interested parties.

Public Meeting

Representatives from the grain industry, delegated States, designated official agencies, and other interested parties are invited to attend the scheduled public meeting. At this meeting, Dr. Gilles, Administrator, FGIS, will discuss the proposed changes to the fees and the need for these changes. A question-and-answer period will follow Dr. Gilles' presentation and written comments wil be accepted from interested parties.

Original Inspection, Official Weighing (Class X), and Supervision of Weighing (Class Y) Fee Increases in the United States

The United States Grain Standards Act, as amended (7 U.S.C. 71 *et seq.*) requires that FGIS charge and collect reasonable fees that as nearly as practicable cover the estimated cost to the Service incident to the performance of official inspection and weighing services in the United States and Canada, including related administrative and supervisory costs.

FGIS continually monitors costs and revenues to determine if fees are at the minimum level necessary to assure program accomplishment. In Fiscal Year 1982, FGIS reduced staffing levels and the related costs in an effort to provide cost-effective services. In Fiscal Year 1983, FGIS plans to further reduce costs. However, a review and analysis has shown that the present original inspection and official weighing fees for services performed in the United States are not generating sufficient revenue to cover current or projected costs. Therefore, FGIS proposes to increase official weighing (Class X) fees by approximately 6 percent and original inspection fees by approximately 15 percent.

In addition, FGIS proposes to increase fees for supervision of weighing services (Class Y). This service was implemented in June 1981. At the time this service was implemented there was no historical data available on the utilization or cost of the service upon which fees could be based. Fees were based on the best cost estimates available at that time. Currently, Class Y weighing service costs represent less than 1 percent of the total weighing program costs. Current cost and revenue data show that these fees must be increased in order to cover costs. Therefore, FGIS proposes to increase the fees for this service by approximately 28 percent.

Original Inspection Fees for Other Than Online Services

FGIS proposes to assess fees on an hourly basis for all original inspection services performed. Currently fees for original inspection services, when the sample for grading is taken from other than a running stream of grain, are generally assessed on a per-unit carrier basis. This proposed change to an hourly method of assessment will provide the applicant for service with the option of contracting at a reduced rate for these services which would allow the Service to more efficiently and effectively schedule and utilize employees.

Original Inspection and Official Weighing Fee Increases in Canada

FGIS proposes to increase fees for most original inspection and official weighing services performed in Canada by approximately 10 percent. Fluctuations in revenue generated by fees, due to seasonal operations in Canada, result in costs exceeding the revenue generated from fees for a portion of the year. FGIS needs to maintain a nominal operating reserve to cover costs during these periods. Current cost and revenue data show that these fees must be increased to cover estimated program costs and maintain a nominal operating reserve.

Reinspection, Appeal Inspection and Review of Weighing Services in the United States and Canada

FGIS is proposing to increase fees for reinspection, appeal inspection and review of weighing services performed in the United States and Canada. The amount of the increase varies by type of service. However, for some services the increase will be greater than in others. Most of these fees have not been adjusted since the fees published in the **Federal Register** (42 FR 61988) on December 8, 1977, which became effective on January 9, 1978. The fees for special services, minimum fee and standby time related to reinspections and appeal inspections performed during the nonregular workday were increased effective October 1, 1981, (46 FR 7042) in order to reflect the cost difference between regular and nonregular workdays. However, this change did not impact on the services normally requested. This increase in fees is necessary because the program costs are exceeding the revenue generated from fees and the operating reserve has been totally depleted. This increase is proposed to generate sufficient revenue to cover costs and begin to replenish the depleted nominal operating reserve for this program, over a period of time.

FGIS also proposes to assess a fee for grading of all reinspections or all appeal inspections whether or not a material error is found, and an additional fee for sampling if the reinspection or appeal inspection is based on a new sample. Specifically, FGIS proposes to assess fees on a per unit-sample basis for all reinspection and appeal inspection grading services performed in the United States and Canada. In addition, FGIS proposes to assess fees on an hourly basis for reinspection and appeal inspection sampling services when the reinspection or appeal inspection is based on a new sample. FGIS also proposes to assess an hourly fee for all review of weighing services whether or not a material error is found. In addition, FGIS proposes to assess the applicable fee each time a reinspection, appeal inspection and review of weighing is performed regardless of a material error determination.

Currently most reinspection and appeal inspection service fees are assessed on a per unit-carrier or unit-of-grain (per 1,000 bushels) basis which includes sampling and grading. The FGIS Advisory Committee discussed the methods of assessment of fees for these services and advised FGIS to establish a fee on a per unit-sample basis for

reinspection and appeal inspection grading services.

In addition, FGIS does not currently assess a fee if the reinspection or appeal inspection result indicates that there was a material error in the inspection from which a reinspection, appeal inspection or Board appeal inspection is taken. In a similar manner, the service does not assess a fee if the review of weighing indicates there was a material error in the results of a Class X or Class Y weighing service. However, FGIS incurs the cost to perform each reinspection, appeal inspection and review of weighing performed and such costs are reflected in the present fees.

FGIS Equipment and Scale Services

FGIS proposes to assess the special services hourly fee for all scale, weight and equipment testing services performed by FGIS, on applicant owned equipment. These services include but are not limited to testing of grain hopper and vehicle scales, testing of railroad track scales, testing of platform scales, reverification of test weights, evaluation of weight and inspection equipment, and testing of diverter-type mechanical samplers. Currently, FGIS does not assess a fee for evaluation of all weighing and insection equipment or all regular semi-annual scale testing services. However, FGIS incurs costs to perform these services and such costs are reflected in present fees.

Mileage, Travel Time, Per Diem/ Subsistence and Commercial Transportation Fees for Special Services Related to Original Insection and Official Weighing (Class X) Services, Reinspection Services and Appeal Inspection Services

The Service proposes to assess a separate fee to cover costs for mileage, travel time, per diem/subsistence and/or commercial transportation when the requested special services related to original inspection or official weighing (Class X) services, all reinspection services and all appeal inspection services are performed more than 20 miles from the FGIS field office location or assigned duty station in the United States and Canada. Special services include but are not limited to such services as stowage examinations and equipment and scale testing. The Service considers a normal commuting area to be within 20 miles of the field office or assigned duty station as defined in AMS/FGIS Instruction 467–6.

Currently, FGIS does not assess a fee for these services until the FGIS representative arrives at the point of service. When the point of service is located more than 20 miles from the FGIS field office location or assigned duty station, FGIS representatives expend a significant amount of time traveling to the service point for these services, and FGIS incurs all travel costs (mileage, commercial transportation and per diem/subsistence) as well as salary costs associated with traveling to the service point. At the present time, these costs are included in the original inspection, offical weighing, reinspection and appeal inspection fees for services provided in the United States and Canada.

FGIS proposes to assess the hourly service fee per service representative from the time the representative(s) leaves the FGIS field office or assigned duty station until the representative(s) returns to the FGIS field office for all special services related to originl inspection or official weighing, all reinspection services and all appeal inspection services, performed more than 20 miles from the FGIS field office or assigned duty station. In addition, FGIS proposes to assess a mileage fee of $.20 per mile for all miles driven to provide service at any point more than 20 miles from the FGIS field office location or assigned duty station. FGIS also proposes to charge the applicant for any per diem or subsistence and commercial transportation costs FGIS may incur in performing these services at a point more than 20 miles form the FGIS field office location or assigned duty station.

Standby Services

FGIS proposes to assess fees for standby services whenever a Service representative has been requested to provide service at a specified location; is on duty and ready to provide the service; is unable to perform the service because of a delay by the applicant for any reason; and FGIS officials determine that the Service representative cannot be utilized to provide services elsewhere.

Currently, FGIS does not assess standby fees if the applicant releases the Service representative(s) for the performance of other duties. In many instances when the applicant has requested the service and FGIS representatives are on duty and ready to provide that service it is not feasible to reassign the representative to perform service elsewhere. FGIS incurs the cost of maintaining these employees. The present fees for services include these costs.

FGIS also proposes to eliminate the 30-consecutive-minute grace period prior to assessing a fee for standby time for some services. Currently, this grace period applies to original inspection services when the sample for grading is taken from other than a running stream of grain in the United States. This grace period was published in the **Federal Register** (45 FR 79736) on December 1, 1980, and became effective on January 4, 1981. This grace period was established on the basis of revenue that was being generated under the per unit-carrier method of assessing fees. Under the hourly method proposed in this rule, the basis for the grace period is no longer applicable.

FGIS Clerical Services

FGIS proposes to provide on-site typing of certificates at the service point location upon request. Currently, certificates are usually prepared at the FGIS field office location. FGIS has in the past received requests for this type of service. This service is being proposed in order to provide applicant with the option of having certificates typed at the service point location. Normally, certification is included in the fees for service. In order to provide this on-site typing of certificates upon request, FGIS proposes to assess the applicable contract and noncontract hourly fees for special services related to original inspection or official weighing.

FGIS also proposes to assess a fee for clerical services for typing of certificates at the FGIS field office upon request if an applicant requests these services during other than normal FGIS field office duty hours. FGIS incurs additional costs to provide these services for the applicant during other than normal working hours and therefore, proposes to assess the special services fee for these services.

Application of Fees if Request for Service is Withdrawn or Refused

FGIS proposes to assess applicable fees for minimum, travel, and/or standby services if the request for service is withdrawn or dismissed after the Service representative(s) departs for the point of service. Currently, FGIS assesses fees for costs incurred until the request is withdrawn or dismissed. In some instances, FGIS may incur costs, such as travel, associated with this request after the request is withdrawn or dismissed. Therefore, FGIS proposes to assess these fees as applicable.

Fees for FGIS Supervision of Inspection Services Performed by Delegated States and Designated Official Agencies

FGIS proposes to decrease fees for FGIS supervision of truck inspection services from $1.00 to $.75 per inspection, and for supervision of

protein reinspection services from $.75 to $.25 The Service also proposes to change the assessment of "factor only" fees for supervision of inspection services provided by delegated States and designated official agencies. Currently, "factor only" fees are assessed regardless of the number of factors inspected. These "factor only" fees were established on the assumption that 1 or a maximum of 2 factors would be requested per inspection. There has been a significant increase in "factor only" inspections performed on more than 2 factors. In order to reflect the basis on which this fee was established, FGIS proposes to assess "factor only" fees for a maximum of 2 factors and full-grade carrier fees for "factor only" inspections on more than 2 factors. The revenue generated from the present fees for supervision of inspection services performed by delegated States and designated official agencies is not sufficient to cover the current costs of providing the services.

Fees for FGIS Supervision of "All Other Lots" Officially Weighed by Delegated States and Designated Official Agencies.

FGIS proposes to add a fee for FGIS supervision of "All Other Lots" officially weighed by delegated States and designated official agencies. Current fees per carrier do not specifically include containers or other types of lots which are officially weighed. This has resulted in some confusion as to which fee applies. In order to provide for fees to be assessed for lots weighed when a specfic type carrier is not included in the fee schedule, FGIS proposes to add an "all other lots" fee to Schedule C, Table 2.

Termination of Delegation or Designation

The United States Grain Standards Act, as amended, requires automatic termination of the delegation or designation of an official agency if fees assessed by the Service are not paid within 30 days after due. The Act also provides for reinstatement of the delegation or designation after payment of all fees, interest and expenses incurred by the Service, within such period of time as prescribed by the Administrator. FGIS proposes to amend the procedures for termination of the delegation or designation of a state or private agency by providing that the delegation or designation shall be reinstated if all fees, interest and expenses are paid within 60 days after such termination.

Format Changes to Fee Tables

FGIS is also proposing to combine Tables 1 and 2 of Schedule A and to make wording and format changes in Table 1, Schedule A and Table 1, Schedule B in order to simplify and clarify the fee schedules. The footnotes to the tables in schedules A, B and C are also proposed to change in order to implement proposed changes in the assessment methods as discussed above.

Conclusion

FGIS proposes to increase or decrease fees and alter the method of assessing the fees as described in this proposal in order to cover the costs of providing the services. These proposed changes were presented to the FGIS Advisory Committee. The Committee recognized the need to equate revenues to costs and to maintain a nominal operating reserve, and endorsed the publication of these changes in a proposed rule. In addition, a public meeting will be held to dicuss these proposed changes. Any deviation from the proposed changes in the method of assessment of the fees or the level thereof would result in a need to further evaluate such proposed changes to assure that the fees generate sufficient revenue to cover costs. FGIS is and will continue to review programs in order to determine the need for the program and the cost effectiveness of the program. However, in order to continue to provide services it is necessary to increase the revenue generated from fees for some services.

List of Subjects in 7 CFR Part 800

Administrative practices and procedures, Export, and Grain.

PART 800—GENERAL REGULATIONS

Accordingly, 7 CFR Part 800 of the regulations are proposed to be amended by revising §§ 800.71 and 800.72, and by revising paragraphs (a), (b), and (f), and removing paragraph (h) of § 800.73 to read as follows:

§ 800.71 Fees assessed by the Service.

(a) *Official inspection and weighing services.* The fees shown in Schedules A and B apply to official grain inspection and weighing services performed by the Service in the United States and Canada. The fees shown in Schedule C apply to official grain inspection and weighing services performed by delegated States and designated official agencies in the United States. Failure of a delegated State or designated official agency to pay to the Service the fees prescribed in Schedule C within 30 days after due shall result in automatic termination of the delegation or designation. The delegation or designation shall be reinstated if fees currently due, plus interest and any further expenses incurred by the Service because of the termination are paid within 60 days after the termination.

Footnotes - Schedule A - Table 1 and 2

1/ The fees include the cost of performing official inspection and official class X weighing by Service representatives and related supervision and administration costs, and the cost of class Y weighing functions. For incidental costs included in the fees, and fees in addition to the unit and the hourly fees, see § 800.72, paragraphs (a) and (b).

2/ Only one original inspection, special services, reinspection, appeal inspection, official weighing (Class X), or supervision of weighing (Class Y) fee, as applicable, will be charged for these services whether performed singly or concurrently by the same Service representative.

3/ Special services include, but are not limited to the following:
Sampling, stowage examination, testing of inspection equipment, testing or certification of grain hopper and vehicle scales, testing or certification of platform scales, testing and certification of railroad track scales, reverification of test weights, evaluation of weighing and inspection equipment, demonstrating official inspection and weighing functions, furnishing standard illustrations, clerical services performed during other than normal field office hours or at the service point upon request, and related services.

4/ If special services related to original inspection and official weighing (Class X) services, all reinspection services, and all appeal inspection services are performed at a location more than 20 miles from the FGIS field office location, from which the service is requested, fees will be assessed for: 1) travel time expended by Service representative(s) from the field office location to the service point and return; 2) miles driven in an automobile from the field office location to the service point and return; 3) costs incurred by the Service for any per diem or subsistence paid to Service representative(s) in connection with providing the service; and 4) costs incurred by the Service for commercial transportation for Service representative(s) to travel from the field office location to the service point and return.

5/ If at the request of the Service a file sample is located and forwarded by an agency for official appeal, the agency may, upon request, be reimbursed at the rate of $2.50 per sample by the Service for the cost of locating and forwarding the sample(s).

6/ The minimum fee is applicable to all services, except warehouseman's sample-lot inspection, submitted sample inspection, reinspection grading and appeal inspection grading services, when the request for service is cancelled after the Service representative(s) arrives at the point of service or when the service is performed in 2 hours or less.

7/ For application of fee for standby, see § 800.72(b) and 800.73(b).

8/ For application of fees for extra copies of certificates, see § 800.160(c)(3).

(5) Standby (per hour per Service representative)7/.....	37.80	44.40
(6) Extra copies of certificates (per copy) 8/.....	3.00	3.00

1/ The fees include the cost of performing official inspection and official class X weighing by Service representatives and related supervision and administration costs. For incidental costs included in the fees, and fees in addition to the unit and hourly fees, see § 800.72, paragraphs (a) and (b).

2/ Special services include, but are not limited to the following: sampling, stowage examination, testing of inspection or weighing equipment, demonstrating official inspection or weighing functions, furnishing standard illustrations, clerical services performed during other than normal field office hours or at the service point, and related services.

3/ If special services related to original inspection and official weighing (Class X) services, all reinspection services, and all appeal inspection services are performed at a location more than 20 miles from the FGIS field office location, from which the service is requested, fees will be assessed for: 1) travel time expended by Service representative(s) from the field office location to the service point and return; 2) miles driven in an automobile from the field office location to the service point and return; 3) costs incurred by FGIS for any per diem or subsistence paid to Service representative(s) in connection with providing the service; and, 3) costs incurred by FGIS for commercial transportation for Service representative(s) to travel from the field office location to the point of service and return.

4/ Appeal inspections are based on file samples.

5/ Applicable to all services, except submitted sample inspection, reinspection grading and appeal inspection grading services, when the requested service is performed in 3 hours or less, or the request for service is cancelled after the Service representative(s) arrives at the point of service.

6/ Not applicable if the reinspection or appeal inspection is performed concurrently with an original inspection unless additional FGIS personnel are required.

7/ For application of fee for standby, see § 800.72(b) and 800.73(b).

8/ For application of fee for extra copies of certificates, see § 800.160(c)(3).

Schedule C.- Fees for FGIS Supervision Services for the Official Inspection and Weighing Services Performed by the Delegated States and/or Designated Official Agencies in the United States 1/

Schedule C.- Fees for FGIS Supervision Services for the Official Inspection and Weighing Services Performed by the Delegated States and/or Designated Official Agencies in the United States 1/

Table 1

Inspection Services (bulk or sacked grain)	Official Inspection or Reinspection Services
(1) Official sample-lot inspection service (white certificate):	
(i) For official grade and official factor determinations:	
(A) Truck or trailer (per inspection) 2/	$ .75
(B) Boxcar (per inspection) 2/	2.40
(C) Hopper car (per inspection) 2/	2.60
(D) Barge (per inspection) 2/	15.75
(E) Ship (per ship) 3/	125.00
(F) All other lots (per inspection) 2/4/	.75
(ii) For official factor or official criteria determinations:	
(A) Factor determination (per inspection)(maximum 2 factors)5/	.45
(B) Protein test (per inspection) 2/6/	.25
(2) Stowage examination services:	
(A) Ship (per stowage certificate)	7.60
(B) Other carriers (per stowage certificate)	.45
(3) Warehouseman's sample-lot inspection service (yellow certificate) or submitted sample inspection service (pink certificate):	
(i) For official grade and official factor determinations (per inspection)	.75
(ii) For official factor or official criteria determinations:	
(A) Factor determination (per inspection)(maximum 2 factors)5/	.45
(B) Protein test (per inspection) 2/6/	.25
(4) Reinspection services:	
(i) Truck, boxcar, hopper car, barge, ship, warehouseman's sample-lot, submitted sample, factor determination, and all other lots (per inspection)	.75
(ii) Protein test (per inspection)	.25

Note - The footnotes for table 1 are shown at the end of table 2.

Table 2

Official Services (bulk or sacked grain)	Official Weighing Services (Class X)
(1) Official weighing services:	
(A) Truck or trailer (per carrier)	$ .50
(B) Boxcar and hopper car (per carrier)	1.25
(C) Barge (per carrier)	11.30
(D) Ship (per carrier) 3/	137.90
(E) All other lots (per lot or part lot)4/	.50

1/ The fees include the cost of supervision functions performed by the Service for the official inspection and weighing services performed by the delegated States and/or designated official agencies.

2/ A fee shall be assessed for each carrier or sample inspected if a combined lot certificate is issued or a uniform loading plan is used to determine grade.

3/ A fee shall be assessed per ship regardless of the number of lots or sublots loaded at a specific service point. A fee shall not be assessed for divided original certificates.

4/ All other lots inspection services include, but are not limited to, sampling service, condition examinations, examination of grain in bins, and containers; and for weighing services all other lots include, but are not limited to, seavans and inhouse bin transfers.

5/ Fees shall be assessed for a maximum of 2 factors. If more than 2 factors are determined, fees are assessed at rates in (1)(i) or (3)(i) above, as applicable, based on carrier or type sample represented.

6/ Fees shall be assessed for each sample tested for protein.

* * * * *

BILLING CODE 3410-EN-C

§ 800.72 Explanation of Service fees and additional fees.

(a) *Costs included in fees.* Fees for original inspection services and Class X or Class Y weighing services, in the United States and Canada include: (1) Except as provided in § 800.71(a), Schedules A and B, the cost of per diem or subsistence during travel and the cost of transportation to perform the service requested; (2) postage and other delivery costs; (3) the cost of overtime; and (4) except as provided in § 800.71(a), Schedules A and B, the cost of certification.

(b) *Fees in addition to unit and hourly fees.* Fees for standby time shall be assessed in all cases except no fee shall be assessed for standby time under a service contract for official inspection and weighing services in the United States and Canada.

§ 800.73 Computation and payment of service fees; general fee information.

(a) *Computing hourly rates.* Except as provided in § 800.71(a), Schedules A and B, hourly rates shall begin when the Service representative arrives at the point of service and is available to perform service and shall end when the representative departs from the point of service, computed to the nearest quarter hour (less mealtime, if any). For application of minimum fee per service request, see § 800.71(a), Schedules A and B. For application of fee for travel time for original inspection special services, official weighing (Class X) special services, reinspection services and appeal inspection services, see § 800.71(a), Schedules A and B.

(b) *Computing Standby.* Subject to the provisions of § 800.72(b), standby time shall be computed whenever a Service representative: (1) Has been requested by an applicant to perform a service at a specified location; (2) is on duty and is ready to perform the service requested; (3) is unable to perform the service requested because of a delay by the applicant for any reason; and (4) cannot be utilized to provide service elsewhere based on a determination made by the Service. Standby time shall be computed to the nearest quarter hour (less mealtime, if any) for each Service representative.

* * * * *

(f) *Fees when an application for service is withdrawn or service is refused.* If an application for service is withdrawn or a service is refused under the regulations after a Service representative departs for the point of service the applicant shall pay the applicable minimum fees, standby fees and/or travel fees. For application of minimum fee per service request, see § 800.71(a), Schedules A and B. For application of fees for standby time, see § 800.73(b). For application of fees for travel for original inspection special services, official weighing (Class X) special services, reinspection services, and appeal inspection services, see § 800.71(a), Schedules A and B.

BILLING CODE 3410-EN-M

Food Safety and Inspection Service

9 CFR Parts 318 and 319

[Docket No. 81-035]

Cooked Italian Sausage and Curing Agents in Italian Sausage

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: Proposed rule.

SUMMARY: This is a proposal to amend the standard of identity and composition for Italian sausage to allow the addition of curing agents to Italian sausage and require that the product be prominently labeled to indicate the addition of curing agents, to permit a "smoked" Italian sausage, and to require that "cooked" Italian sausage and "smoked" Italian sausage be labeled as such in the name. This proposed rule would also clarify the definition of cooked Italian sausage to reflect the amount of water content allowed in that product and the restriction that antioxidants are permitted for use in only "fresh" Italian sausage, not in other kinds of Italian sausage. This amendment is necessary because many producers of Italian sausage have found the current definition of cooked Italian sausage to be confusing.

DATE: Comments must be received on or before November 19, 1982.

ADDRESS: Written comments and data should be sent to the Regulations Office, Attn: Annie Johnson, Room 2637, South Agriculture Building, Food Safety and Inspection Service, U.S. Department of Agriculture, Washington, DC 20250.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Hibbert, Standards and Labeling Division, Meat and Poultry Inspection Technical Services, Food Safety and Inspection Service, U.S. Department of Agriculture, Washington, DC 20250, (202) 447–6042.

SUPPLEMENTARY INFORMATION:

Executive Order 12291

This proposed rule is being issued in conformance with Executive Order 12291 and has been determined not to be a "major rule." It will not result in an annual effect on the economy of $100 million or more; a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets. This proposed rule has been reviewed for cost effectiveness pursuant to guidelines established by Secretary's Memorandum 1512–1. It is anticipated that this proposed rule will give rise to no additional costs to the Agency or any segment of the public as this proposal would merely clarify the existing regulation and amend the standard to conform with present industry practices. It would merely formalize the practice of 65 plants producing cooked Italian sausage, 13 plants producing cured Italian sausage and 23 plants producing both cooked and cured Italian sausage. The limitation of antioxidants to "fresh" Italian sausage would have no effect due to the fact that antioxidants are now only used in "fresh" Italian sausages. Permitting the preparation of a "smoked" Italian sausage simply allows processors the option of producing such a product.

Effect on Small Entities

The Administrator, Food Safety and Inspection Service, has determined that this proposed rule will not have a significant economic impact on a substantial number of small entities, as defined by the Regulatory Flexibility Act, Pub. L. 96–354 (5 U.S.C. 601). There would be no economic impact on small entities since this proposal would merely clarify the existing regulation and amend the standard to conform with present industry practices. There are 65 plants producing cooked Italian sausages, 13 plants producing cured Italian sausage, and 23 plants producing both cooked and cured Italian sausage out of a total of 797 plants producing Italian sausage. Additionally, antioxidants are being used in "fresh" Italian sausage and are not being used in cured Italian sausages. Allowing the preparation of a "smoked" Italian sausage simply allow processors the option of producing such a product; it is not known how many establishments

might in fact decide to produce such a product.

Background

On July 14, 1972, the Department published a proposal in the **Federal Register** (37 FR 13803–13804) to establish standards of identity and composition for Italian sausage. After consideration of the comments received in response to the proposed standards, and review of products labeled "Italian Style Sausage" and "Italian Brand Sausage," a final rule establishing a standard of composition for Italian sausage products was published in the **Federal Register** on January 19, 1976 (41 FR 2629–2630).

In developing the standard for Italian sausage, primary consideration was given to (1) species of meat used, (2) fat content of the meat, (3) spices and flavorings normally used, and (4) trichinae control.

While the use of curing agents in this type of product was mentioned in the comments on the proposed standard, no information was submitted or received indicating the relative significance of cured Italian sausage as compared to uncured Italian sausage. It appeared that cured Italian sausage was produced only in very small amounts and was not a representative type of Italian sausage. Thus, no provisions were made in the standard for cured Italian sausage. However, since the standard was published, the Food Safety and Inspection Service (FSIS) has learned from a variety of sources that using sodium nitrite and potassium nitrite in "Italian Sausage" formulas is a common and longstanding practice of domestic producers and that these two substances are traditional ingredients of this product as made in Northern Italy and Sicily.

In light of the fact that industry has traditionally added curing agents to Italian sausage, the Agency is proposing to amend § 319.145 of the Federal meat inspection regulations (9 CFR 319.145) to permit the addition of the curing agents sodium nitrite and potassium nitrite to Italian sausage, in conformity with industry practice. The amount of curing agent allowed would be regulated by § 318.7(c)(4) of the Federal meat inspection regulations (9 CFR 318.7(c)(4)).

Those products containing the curing agent would be required to be prominently labeled with the term "cured" included in the product name in the same size and style of lettering as the other words in the product name.

The Federal meat inspection regulations currently permit the use of antioxidants in Italian sausage. However, antioxidants are not used in cured Italian sausages and are not permitted in most other cured sausage products. Therefore, this proposal would amend the chart in § 318.7(c)(4) of the Federal meat inspection regulations under the class of substance "Antioxidants and oxygen interceptors" to clarify that antioxidants are permitted only in "fresh" Italian sausage.

Many producers have long produced a precooked Italian sausage. This type of product was provided for when the Agency established the standards for Italian sausages found in § 319.145 (a), (b) and (c) of the Federal meat inspection regulations (9 CFR 319.145 (a), (b) and (c)). Cooked Italian sausage is specifically addressed in § 319.145(c), which states that "if Italian sausage products are cooked (by the producer) determination of compliance with (the standards of composition found in) paragraphs (a) and (b) of this section (§ 319.145) shall be based upon the uncooked product." This means that the product before cooking must comply with all requirements for Italian sausage contained in § 319.145 (a) and (b). Producers of Italian sausage apparently have not understood whether the requirements for water content contained in § 319.145(b)(2) applies to the cooked or the uncooked product.

The intention of the regulation is that all requirements contained in § 319.145 (a) and (b), including the requirements for water content contained in § 319.145(b)(2), be met prior to the product being cooked. In order to clarify this intent, the Agency is proposing to amend § 319.145(c) to specifically state that all the requirements of § 319.145 (a) and (b), including the water content requirements of § 319.145(b)(2), are to be complied with prior to the product being cooked.

The proposal would require that cooked Italian sausage products be prominently labeled with the term "cooked" included in the food product label in the same size and style of lettering as the other words in the product name. The Agency also is proposing to amend the Italian sausage standard to allow for "smoked" Italian sausages, giving processors the option of making smoked Italian sausages. Therefore, the Agency is proposing to delete the word "unsmoked" from the definition of Italian sausage in 9 CFR 319.145(a) and to amend § 319.145(c) to state specifically that all the requirements of § 319.145 (a) and (b), including the water content requirement of § 319.145(b)(2), are to be met prior to smoking the product.

For these reasons, the Agency is proposing to revise the Federal meat inspection regulations as set forth below.

Indexing Terms: As required by 1 CFR 18.20 (46 FR 7162, January 22, 1981), the following are the index terms for this regulation:

List of Subjects

9 CFR Part 318

Food additives, Meat inspection.

9 CFR Part 319

Standards of identity, Meat and meat food products, Meat inspection, Food labeling.

1. The authority citation for Parts 318 and 319 reads as follows:

Authority: 34 Stat. 1260, 79 Stat. 903, as amended, 81 Stat. 584, 84 Stat. 91, 438; 21 U.S.C. 71 *et seq.*, 601 *et seq.*, 33 U.S.C. 1254.

PART 318—ENTRY INTO OFFICIAL ESTABLISHMENTS; REINSPECTION AND PREPARATION OF PRODUCTS

§ 318.7 [Amended]

2. The chart in § 318.7(a)(4) (9 CFR 318.7(a)(4)) would be amended under the class of substance "Antioxidants and oxygen interceptors" for the products "Fresh pork sausage, brown and serve sausages, Italian sausage products, pregrilled beef patties, and fresh sausage made from beef or beef and pork, by adding the word "fresh" before "Italian sausage products" to read "Fresh pork sausage, brown and serve sausages, fresh Italian sausage products, pregrilled beef patties, and fresh sausage made from beef or beef and pork."

PART 319—DEFINITIONS AND STANDARDS OF IDENTITY OR COMPOSITION

3. Section 319.145 would be amended by removing the words "uncured" and "unsmoked" from the first sentence of paragraph (a), by adding a new paragraph (a)(4), and by revising paragraph (c) to read as follows:

§ 319.145 Italian sausage products.

(a) Italian sausage products are sausages containing at least 85 percent meat, or combination of meat and fat, with the total fat content constituting not more than 35 percent of the finished product.

* * * * *

(4) Product made in conformance with the provisions of paragraphs (a) (1), (2), and (3) of this section and of paragraphs (b) and (c) of this section may contain sodium nitrite or potassium nitrite, in amounts allowed in § 318.7(c)(4), if it is labeled with the word "cured" in the

product name, such as "Cured Italian Sausage." The word "cured" shall be in the same size and style of lettering as the other words in the product name.

* * * * *

(c) If Italian sausage products are cooked or smoked, determination of compliance with the provisions of paragraphs (a) and (b) of this section shall be based on the uncooked or unsmoked product. The product before cooking or smoking shall contain no more than 3 percent water as specified in paragraph (b)(2) of this section. Product which is cooked shall be labeled with the word "cooked" in the product name, such as "Cooked Italian Sausage" or "Cooked Cured Italian Sausage." Product which is smoked shall be labeled with the word "smoked" in the product name, such as "Smoked Italian Sausage" or "Smoked Cured Italian Sausage." The words "cooked" and "smoked" shall be in the same size and style of lettering as the other words in the product name.

Done at Washington, D.C., on September 3, 1982.

Donald L. Houston,

Administrator, Food Safety and Inspection Service.

BILLING CODE 3410-DM-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 82-NM-74-AD]

Airworthiness Directives: Boeing Model 747 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This notice proposes a new Airworthiness Directive which would require inspection of the wing landing gear jury strut spindles for cracks. In one incident a broken spindle resulted in the wing landing gear being down but not locked. An unlocked wing gear could be dislocated by touchdown forces and allow a wing-low rollout which could result in damage/loss of the outboard engine and a possible fire. Terminating action will be the replacement of the spindle with an improved spindle.

DATES: Comments must be received on/or before November 8, 1982.

ADDRESSES: Send comments on the proposal in duplicate to: Federal Aviation Administration, Northwest Mountain Region, Office of the Regional Counsel, Attention: Airworthiness Rules Docket No. 82-NM-74-AD, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168.

FOR FURTHER INFORMATION CONTACT: Mr. Owen Schrader, Airframe Branch, ANM-120S, Seattle Area Aircraft Certification Office, FAA Northwest Mountain Region, 9010 East Marginal Way South, Seattle, Washington, telephone (206) 767-2516. Mailing Address: Seattle Area Aircraft Certification Office, FAA Northwest Mountain Region, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to the address specified above. All communications received on or before the closing date for comments specified above will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available both before and after the closing date for comments in the rules docket, for examination by interested persons. A report summarizing each FAA-public contact concerned with the substance of this proposal will be filed in the rules docket.

Availability of NPRMS

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Northwest Mountain Region, Office of the Regional Counsel, Attention: Airworthiness Rules Docket No. 82-NM-74-AD, 17900 Pacific Highway South, C-68966, Seattle, Washington 98168.

Discussion

Broken wing landing gear jury strut spindles have been reported on two airplanes. This caused a wing landing gear down-and-not-locked condition. The jury strut holds the side strut in the locked position.

Hydraulic power was lost in system four on one of the airplanes when the gear was cycled with the jury strut disconnected at the broken spindle. The unlocked gear could not be retracted and it was necessary to land with one wing gear down but not locked. An unlocked wing gear could be dislocated by touchdown forces and allow a wing-low rollout. In such a rollout it is possible that the outboard engine could be damaged or separate from the wing and a fire could result.

Examination of the broken spindles indicated that the cracks were initiated by cyclic loading. The two airplanes had over 9,000 flight cycles. Subsequent analysis indicated any wing gear jury strut spindle with over 8,000 cycles may be subject to such cracking. Since the spindle is high strength steel, cracks will grow quickly.

Boeing has issued Service Bulletin 747-32-2261 which defines the specific inspection procedures to be used to check for cracks in the wing gear jury strut spindle on all delivered 747 airplanes. The inspection requirements will continue until terminating action is taken. Terminating action is described by Revision "A" to the service bulletin which consists of installing an improved spindle. It is expected that Revision "A" will be released in the near future.

Since this condition is likely to exist or develop in other airplanes of the same type design, the proposed AD would require inspection and/or modification of all delivered 747 series airplanes.

It is estimated that 170 airplanes of U.S. operators will be affected by this AD, that it will take approximately 42 man-hours per airplane to accomplish the required actions, and that the average labor cost will be $40 per man-hour. Repair parts are estimated at $1,440 per airplane. Based on these figures, the total cost impact of the AD is estimated to be $530,400. For these reasons the proposed rule is not considered to be a major rule under the criteria of Executive Order 12291. No small entities within the meaning of the Regulatory Flexibility Act would be affected.

List of Subjects in 14 CFR Part 39

Aviation safety, Aircraft.

The Proposed Amendment

Accordingly, the Federal Aviation Administration proposes to amend § 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) by adding the following new Airworthiness Directive:

Boeing: Applies to all Model 747 series airplanes certificated in all categories listed in Boeing Service Bulletin 747-32-2261 or later FAA approved revisions. To prevent wing landing gear jury strut spindle failures, accomplish the following:

A. Within the next 375 landings after the effective date of this AD or prior to the accumulation of 7625 landings, whichever is

later, and thereafter at intervals not to exceed 750 landings, magnetic particle or dye penetrant inspect the wing landing gear jury strut spindles for cracks in accordance with Table I of Boeing Service Bulletin 747–32–2261 or later FAA approved revisions. Cracked parts are to be replaced prior to further flight.

B. Upon installation of the new spindles in accordance with Boeing Service Bulletin 747–32–2261 Revision "A" or later FAA approved revisions, the requirements of this AD are terminated.

C. Alternate means of compliance with the AD which provides an equivalent level of safety may be used when approved by the Manager, Seattle Area Aircraft Certification Office, FAA, Northwest Mountain Region.

D. For purposes of complying with this AD, subject to acceptance by the assigned FAA maintenance inspector, the number of flight cycles may be determined by dividing each airplane's hours time-in-service by the operator's fleet average from takeoff to landing for the airplane type.

E. Aircraft may be ferryed to a base for maintenance in accordance with §§ 21.197 and 21.199 of the Federal Aviation Regulations.

Manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made part hereof pursuant to 5 U.S.C. 552(a)(1).

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.85)

Note.—For the reasons discussed earlier in the preamble: the FAA has determined that this document (1) involves a proposed regulation which is not major under Executive Order 12291, and (2) is not a significant rule pursuant to the Department of Transportation Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and it is certified under the criteria of the Regulatory Flexibility Act that this proposed rule, if promulgated, will not have a significant economic impact on a substantial number of small entities since it involves few, if any, small entities. A regulatory evaluation has been prepared and has been placed in the public docket.

Issued in Seattle, Washington, on September 9, 1982.

Charles R. Foster,

Director, Northwest Mountain Region.

[FR Doc. 82-25647 Filed 9-17-82; 8:45 am]

14 CFR Part 71

[Airspace Docket No. 82-ASO-45]

Proposed Alteration of Transition Area, Cheraw, South Carolina

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to increase the size of the Cheraw, South Carolina, transition area to provide additional controlled airspace for aircraft departing the Cheraw Municipal Airport during Instrument Flight Rule (IFR) operations. In addition, two arrival area extensions will be revoked as one is in excess of needs and the other will be encompassed by the increased size of the radius area.

DATES: Comments must be received on or before: October 28, 1982.

ADDRESSES: Send comments on the proposal in triplicate to:

Federal Aviation Administration, Attn: Manager, Airspace and Procedures Branch, ASO–530, P.O. Box 20636, Atlanta, Georgia 30320.

The official docket may be examined in the Office of the Regional Counsel, Room 652, 3400 Norman Berry Drive, East Point, Georgia 30344; telephone: (404) 763–7646.

FOR FURTHER INFORMATION CONTACT: Donald Ross, Airspace and Procedures Branch, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320; telephone: (404) 763–7646.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the proposal. Communications should identify the airspace docket and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Airspace Docket No. 82–SO–45." The postcard will be date/time stamped and returned to the commenter. All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available in the Rules Docket both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRM's

Any person may obtain a copy of this Notice of Proposed Rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Manager, Airspace and Procedures Branch (ASO–530), Air Traffic Division, P.O. Box 20636, Atlanta, Georgia 30320. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11–2 which describes the application procedure.

The Proposal

The FAA is considering an amendment to § 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) that will increase the radius of the Cheraw transition area to encompass that airspace needed for protection of IFR departure operations from the Cheraw Municipal Airport. Existing transition area arrival extensions, which are predicated on the Chesterfield VOR and the Cheraw radio beacon, will be revoked as the airspace required for arrival operations will be contained in the enlarged radius area. Section 71.181 of Part 71 of the Federal Aviation Regulations was republished in Advisory Circular AC 70–3 dated January 29, 1982.

List of Subjects in 14 CFR Part 71

Aviation safety, Airspace, Transition areas.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend § 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as follows:

Cheraw, SC—Revised

That airspace extending upwards from 700 fet above the surface within a 7-mile radius of Cheraw Municipal Airport (Lat. 34°42'45" N., Long. 79°57'35" W.).

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.65)

Note.—The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air

traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in East Point, Georgia, on September 9, 1982.

George R. LaCaille,

Acting Director, Southern Region.

BILLING CODE 4910-13-M

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

21 CFR Part 1308

Schedules of Controlled Substances; Proposed Rescheduling of Burprenorphine From Schedule II to Schedule V of the Controlled Substances Act

AGENCY: Drug Enforcement Administration, Justice.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Acting Administrator of the Drug Enforcement Administration (DEA) proposes to reschedule the narcotic drug, buprenorphine, from Schedule II to V of the Controlled Substances Act (21 U.S.C. 801 *et seq.*). This action is initiated upon DEA's receipt of a letter from the Assistant Secretary for Health, Department of Health and Human Services (DHHS), recommending that buprenorphine be rescheduled from Scheduled II to Schedule V. DEA's final decision concerning the relative abuse potential of buprenorphine will take account of the Assistant Secretary's recommendation and any information received in response to this proposal. The effects of this rule would be to require that the manufacture, distribution, dispensing, security, registration, record keeping, inventory, exportation and importation of this drug be subject to controls for Schedule V narcotic substances.

DATE: Comments and objections must be received on or before November 19, 1982.

ADDRESS: Comments and objections should be submitted in quintuplicate to the Acting Administrator, Drug Enforcement Administration, 1405 I Street, NW., Washington, D.C. 20537, Attention: DEA Federal Register Representative.

FOR FURTHER INFORMATION CONTACT: Howard McClain, Jr., Chief, Drug Control Section, Drug Enforcement Administration, Washington, D.C. 20537, Telephone: (202) 633-1366.

SUPPLEMENTARY INFORMATION:

List of Subjects in 21 CFR Part 1308

Administrative practice and procedure, Drug traffic control, Narcotics, Prescription drugs.

Buprenorphine is controlled in Schedule II of the Controlled Substances Act (CSA) under section 202, Schedule II(a)(1) as a "derivative * * * of opium or opiate."

On May 12, 1982, the Assistant Secretary for Health, on behalf of the Secretary, Department of Health and Human Services, sent a letter to the Acting Administrator of the Drug Enforcement Administration recommending that buprenorphine be rescheduled into Schedule V and continue to be defined as a narcotic. The letter is set forth below:

May 12, 1982

Mr. Francis M. Mullen, Jr.,
Acting Administrator, Drug Enforcement Administration, 1405 Eye Street, N.W., Washington, D.C. 20537.

Dear Mr. Mullen: Pursuant to the Controlled Substances Act 21 U.S.C. 811(f), this letter is notification that the Food and Drug Administration has approved a New Drug Application for buprenorphine, an analgesic drug with a potential for abuse. Buprenorphine is currently listed in Schedule II of the Act by virtue of its derivation from the Schedule II opioid precursor thebaine. The Food and Drug Administration has recommended that buprenorphine be rescheduled into Schedule V and continue to be defined a narcotic. The Schedule V recommendation is based on findings that buprenorphine has a low potential for abuse relative to the drugs or other substances in Schedule IV, that buprenorphine has a currently accepted medical use in treatment in the United States, and that abuse of buprenorphine may lead to limited physical dependence or psychological dependence relative to the drugs or other substances in Schedule IV. The recommendation that buprenorphine be classified as a narcotic is based on the legal definition of "narcotic drug" in 21 U.S.C. 802(16), which includes all opiate derivatives, because buprenorphine is derived from the opiate thebaine.

I concur with these recommendations and have enclosed the Basis for Rescheduling of Buprenophine as a Schedule V Narcotic Under the Controlled Substances Act.

The Drug Abuse Advisory Committee of the FDA Bureau of Drugs has recommended that the agonist-antagonist class of analgesic drugs (butorphanol, nalbuphine, pentazocine and buprenorphine) be monitored and periodically reviewed for changes in abuse patterns. To this end, the Department of Health and Human Services would appreciate your cooperation in reporting diversion and any other law enforcement data on this class of drugs to the Food and Drug Administration at yearly, or if possible, semi-yearly intervals.

Should you, or any of your staff, have any questions, please direct your inquiries to the Drug Abuse Staff of the Bureau of Drugs, Food and Drug Administration.

Sincerely yours,

Edward N. Brandt, Jr., M.D.,
Assistant Secretary for Health.

Based on the scientific and medical evaluation and the recommendation of the Secretary, Department of Health and Human Services, with respect to buprenorphine, received in accordance with section 201(b) of the CSA (21 U.S.C. 811(b)), and under the authority vested in the Attorney General by section 201(a) of the CSA (21 U.S.C. 811(a)) and delegated to the Acting Administrator by regulations of the Department of Justice (28 CFR Part 0.100), the Acting Administrator hereby proposes that paragraph (b)(1) through (b)(6) of Title 21, Code of Federal Regulations, § 1308.15 be redesignated as (c)(1) through (c)(6) and that a new paragraph (b) entitled *Narcotic drugs* be added to § 1308.15 of Title 21 of the Code of Federal Regulations (CFR) to read as follows:

PART 1308—SCHEDULES OF CONTROLLED SUBSTANCES

§ 1308.15 Schedule V.

* * * * *

(b) *Narcotic drugs.* Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation containing any of the following narcotic drugs and their salts, as set forth below:

(1) Buprenophine..... 9064

* * * * *

All interested persons are invited to submit their comments or objections in writing regarding this proposal. If a person believes that one or more issues raised by him warrant a hearing, he should so state and summarize the reasons for his belief. Comments and objections should be submitted in quintuplicate to the Acting Administrator, Drug Enforcement Administration, 1405 I Street, NW., Washington, D.C. 20537, Attention: DEA Federal Register Representative.

In the event that comments or objections to this proposal raise one or more issues which the Acting Administrator finds, in his sole discretion, warrant a hearing, the Acting Administrator will publish in the **Federal Register** an order for a public hearing which will summarize the issues to be heard and set the time for the hearing that will not be less than 30 days after the date of the order.

Pursuant to Title 5, United States Code, section 605(b), the Acting Administrator certifies that the

rescheduling of buprenorphine, as proposed herein, will not have a significant impact upon small businesses or other entities whose interests must be considered under the Regulatory Flexibility Act (Pub. L. 96–354). The regulatory requirements imposed on Schedule V substances are considerably less burdensome than those imposed on Schedule II substances.

In accordance with the provisions of 21 U.S.C. 811(a), this proposal to reschedule buprenorphine from Schedule II to Schedule V is a formal rulemaking "on the record after opportunity for a hearing." Such proceedings are conducted pursuant to the provisions of 5 U.S.C. 556 and 557 and as such have been exempted from the consultation requirements of Executive Order 12291 (46 FR 13193).

Dated: September 15, 1982.

Francis M. Mullen, Jr.,

Acting Administrator, Drug Enforcement Administration.

BILLING CODE 4410-09-M

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

27 CFR Part 240

[Notice No. 426; Re: Notice No. 413]

Materials and Processes for the Production and Treatment of Wine, Juice, and Distilling Material

AGENCY: Bureau of Alcohol, Tobacco and Firearms, Treasury.

ACTION: Reopening of the comment period.

SUMMARY: This notice reopens the comment period for an additional 90 calendar days on issues relating to the proposed regulatory revisions pertaining to wine treatments which were published in the **Federal Register** of June 18, 1982 (Notice No. 413, 47 FR 26399). Due to the sensitive and controversial nature of the proposed changes, the Bureau believes that an additional comment period should be given to provide an opportunity for all interested persons, especially grape growers and winemakers, to present comments.

DATE: Comments must be received on or before December 20, 1982.

ADDRESS: Comments should be addressed to: Chief, Regulations and Procedures Division, Bureau of Alcohol, Tobacco and Firearms, P.O. Box 385, Washington, DC 20044-0385 (Notice No. 426).

FOR FURTHER INFORMATION CONTACT: Michael J. Breen, Rulings Branch, Bureau of Alcohol, Tobacco and Firearms, Washington, DC (202–566–7632).

SUPPLEMENTARY INFORMATION:

Background

On June 18, 1982, ATF published Notice No. 413 to obtain comment on proposed regulatory changes in the listings of materials and processes authorized for use in the production and treatment of wine, juice, and distilling material. The proposed amendments update the listings of authorized materials and processes and amend the procedure for making additions and other changes. Although comments received during the original comment period generally have supported the Bureau's intent and purpose for the proposed changes, a significant number of potential commenters were unable to submit written suggestions and modifications to the proposed regulatory language due to the brevity of the comment period.

Since the proposed changes to the regulations are sensitive and controversial, ATF believes an opportunity should be given for all interested persons to submit further comments on these issues. This will ensure that all pertinent information is available to ATF before any final decision is reached. All comments previously submitted will remain a part of the record and no resubmission of comments will be necessary unless the commenter wishes to furnish additional information.

Disclosure of Comments

ATF will not recognize materials and comments as confidential. Any material which the commenter considers to be confidential or inappropriate for disclosure to the public should not be included in the comments. Comments may be disclosed to the public. The name of the person submitting comments is not exempt from disclosure.

Copies of all notices and all written comments will be available for public inspection at: ATF Reading Room, Room 4405, Federal Building, 1200 Pennsylvania Avenue, NW, Washington, DC.

EPA Region II Library, Room 1002, 26 Federal Plaza, New York, New York
EPA Region II Library, Woodbridge Avenue, GSA Raritan Depot, Edison, New Jersey
NOAA/RD/OMPA Northeast Office, Old Biology Building, State University of New York, Stony Brook, New York

FOR FURTHER INFORMATION CONTACT: Mr. T. A. Wastler, 202/755–0356.

SUPPLEMENTARY INFORMATION: Section 102(c) of the Marine Protection, Research, and Sanctuaries Act of 1972, as amended, 33 U.S.C. 1401 et seq. (hereafter "the Act"), gives the Administrator of EPA the authority to designate sites where ocean dumping may be permitted. On September 19, 1980, the Administrator delegated the authority to designate ocean dumping sites to the Assistant Administrator for Water and Waste Management, now the Assistant Administrator for Water. This proposed site designation is being made pursuant to that authority.

The EPA Ocean Dumping Regulations (40 CFR Chapter I, Subchapter H, § 228.4) state that ocean dumping sites will be designated by publication in this Part 228. A list of "Approved Interim and Final Ocean Dumping Sites" was published on January 11, 1977 (42 FR 2561 et seq.) and extended on December 9, 1980 (45 FR 81042 et seq.). That list established this site as an interim site.

The purpose of this notice is to provide the public an opportunity to comment on the proposed final designation, as an EPA Approved Ocean Dumping Site, of a site in the New York Bight for the continuing disposal of cellar dirt; that is excavation dirt and rock resulting from construction work in the metropolitan New York area.

The location of the cellar dirt site is approximately 6.6 nautical miles east of Highlands, New Jersey, and 11.7 nautical miles south of Rockaway, Long Island, positioned in a circle with a radius of 0.6 nautcial miles and center coordinates as follows:

40°23'00" N; 73°49'00" W.

The site occupies an area of approximately 1.1 square nautical miles. Water depths within this area range from 29 to 38 meters. Disposal operations at the site began in 1914.

Section 102(c) of the National Environmental Policy Act of 1969, 42 U.S.C. 4321 et seq., ("NEPA") requires that Federal agencies prepare an EIS on proposals for legislation and other major Federal actions significantly affecting the quality of the human environment. The object of NEPA is to build into the Agency decision-making process careful consideration of all environmental aspects of proposed actions. While NEPA does not apply to EPA activities of this type, EPA has voluntarily committed to prepare EIS's in connection with ocean dumping site designations such as this. 39 FR 16186.

EPA has prepared a draft EIS entitled "Draft Environmental Impact Statement (EIS) For New York Bight Cellar Dirt Disposal Site Designation." The draft EIS was filed with the EPA Office of Environmental Review on March 19, 1982, and a notice of availability for public review and comment was published in the **Federal Register** on March 26, 1982 (47 FR 13033). The public comment period on this draft EIS closed May 10, 1982.

Based on the information reported in the draft EIS, EPA proposes to designate the site for continuing use for the ocean disposal of cellar dirt where the applicant has demonstrated a need for ocean dumping, lack of acceptable alternatives to the dumping, and compliance with EPA's marine environmental impact criteria. The draft EIS is available for inspection at the addresses given above.

The designation of the existing New York Bight cellar dirt disposal site as an EPA Approved Ocean Dumping Site is being published as proposed rulemaking. Management authority of this site will be delegated to the Regional Administrator of EPA Region II. Interested persons may participate in this proposed rulemaking by submitting written comments within 45 days of the date of this publication to the address given above.

Under the Regulatory Flexibility Act, EPA is required to perform a Regulatory Flexibility Analysis for all rules which may have a significant impact on a substantial number of small entities. EPA has determined that this proposed action will not have a significant impact on small entities since the site designation will only have the effect of providing a disposal option for excavation dirt and other nonfloatable debris. Consequently, this proposal does not necessitate preparation of a Regulatory Flexibility Analysis.

Under Executive Order 12291, EPA must judge whether a regulation is "major" and therefore subject to the requirement of a Regulatory Impact Analysis. This action will not result in an annual effect on the economy of $100 million or more or cause any of the other effects which would result in its being classified by the Executive Order as a "major" rule. Consequently, this proposed rule does not necessitate preparation of a Regulatory Impact Analysis.

This proposed rule was submitted to the Office of Management and Budget for review as required by Executive Order 12291.

PART 228—CRITERIA FOR THE MANAGEMENT OF DISPOSAL SITES FOR OCEAN DUMPING

In consideration of the foregoing, Subchapter H of Chapter I of Title 40 is proposed to be amended by adding § 228.12(b)(14) an ocean dumping site for Region II as follows:

§ 228.12 Delegation of management authority for interim ocean dumping sites.

* * * * *

(b) * * *

(14) Cellar Dirt Site—Region II.

Location (center point): Latitude—40°23'00" N.; Longitude—73°49'00" W.

Size: 1.1 square nautical miles.

Depth: Ranges from 29 to 38 meters.

Primary Use: Cellar dirt.

Period of Use: Continuing use.

Restriction: Disposal shall be limited to excavation dirt and rock, broken concrete, rubble, tile, and other nonfloatable debris.

Electrical and Electronic Components Point Source Category and Electroplating and Metal Finishing Point Source Categories

AGENCY: Environmental Protection Agency.

ACTION: Public hearing.

SUMMARY: Notice is hereby given of a hearing open to the public to discuss and receive comments on pretreatment regulations proposed in the **Federal Register** as follows:

Proposal date	Category
Aug. 24, 1982 (47 FR 37048)	Electrical and electronic components.
Aug. 31, 1982 (47 FR 38482)	Electroplating and metal finishing.

DATE: A public hearing has been scheduled for the following date and place: October 21, 1982—Washington, D.C.

ADDRESS: The public hearing will be

held at the following address: L'Enfant Plaza Hotel, 480 L'Enfant Plaza East, Washington, D.C.

FOR FURTHER INFORMATION CONTACT: Harold Coughlin, Project Officer for Public Participation, Effluent Guidelines Division (WH–552), Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460, (202) 426–2560.

Anyone wishing to make an oral statement and submit written testimony at the hearing should indicate so in writing, including which session of the hearing they plan to attend, to the above address.

SUPPLEMENTARY INFORMATION: Registration for the hearing will be held from 8:30 to 9:00 a.m. Oral testimony will be presented as follows: 9:30 to 11:30 a.m.—Electrical and Electronic Components, 1:00 p.m. to 3:00 p.m.—Electroplating and Metal Finishing. Following the registration period there will be a brief presentation by an EPA official covering the development of effluent limitations and standards under the Clean Water Act of 1977. Also, opportunity will be given throughout the day for audience participants to submit written questions to the Presiding Officer. These questions will be addressed during the question and answer session which will conclude the presentations of oral testimony for each category.

A court reporter will be present at the public hearing. Official transcripts will be available upon request.

Dated: September 9, 1982.

Frederic A. Eidsness, Jr.,

Assistant Administrator for Water.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[BC Docket No. 82–351; RM–4105]

TV Broadcast Station in La Salle and Pontiac, Illinois; Order Extending Time for Filing Reply Comments

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; Extension of Time for Filing Reply Comments.

SUMMARY: Action taken herein extends the time for filing reply comments in BC Docket No. 82–351 (RM–4104) concerning a proposal to reassign UHF Television Channel 35 from La Salle to Pontiac, Illinois. Counsel for petitioner states that an additional 30 days will be needed to formulate a proper response.

DATE: Reply comments must be filed on or before September 24, 1982.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: D. David Weston, Broadcast Bureau, (202) 632–7792.

SUPPLEMENTARY INFORMATION:

List of Subjects in 47 CFR Part 73

Television broadcasting.

Adopted: August 30, 1982.

Released: September 7, 1982.

1. On June 23, 1982, the Commission adopted the Notice of Proposed Rule Making, 47 FR 29854, published July 9, 1982, in the above-captioned proceeding. Comments have been filed and reply comments were due August 24, 1982.

2. We now have before us for consideration a request for extension of time for filing reply comments, filed on August 17, 1982, by Livingston County Broadcasters, Inc., petitioner in the above-referenced rule making proceeding. Petitioner requests a 30 day extension to and including September 24, 1982. Petitioner states that as a result of comments filed in response to the Notice, it is now seeking to determine whether there is another channel which will fit into the community of La Salle to permit both Pontiac and LaSalle to have their own television assignment. Petitioner believes that such a determination will permit a quicker resolution of this proceeding by removing the need to choose between the two cities. Petitioner states that it needs the additional 30 days to complete its study and prepare its reply comments.

3. We are of the view that, under the circumstances recited, an extension of time is warranted. It appears that no other party to the proceeding would be prejudiced by a grant of the instant request, such request was timely filed and such extension will assure development of a sound and comprehensive record on which to base a decision herein.

4. Accordingly, it is ordered, That the request for extension of time, filed on behalf of Livingston County Broadcasters, Inc., is granted, and the time for filing reply comments is extended to and including September 24, 1982.

5. This action is taken purusant to §§ 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and §§ 0.204(b) and 0.281 of the Commission's rules.

Federal Communications Commission.

Roderick K. Porter,

Chief, Policy and Rules Division, Broadcast Bureau.

33 CFR Part 52

[Docket No. 73]

Final Action on Requests for Correction of Coast Guard Military Records

AGENCY: Board for Correction of Military Records, Office of the Secretary, DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This proposed rule would permit the Board for Correction of Military Records to take final action, on behalf of the Secretary, in certain categories of cases. The proposed rule would also establish the categories of cases on which final action would have to be taken by the Secretary.

DATE: Comment closing date: November 19, 1982.

Address for comment: Comments should be sent to Docket Clerk (Docket No. 73), 400 Seventh Street, SW., Room 10421, Washington, D.C., 20590. Comments are available for public inspection at this address Monday through Friday from 9:00 am to 5:30 pm. Persons wishing to have their comments acknowledged should send a stamped self-addressed postcard with their comments. The Docket Clerk will return

these postcards when the comments are docketed.

FOR FURTHER INFORMATION CONTACT: William T. Underwood, Chairman, Board for Correction of Military Records, U.S. Department of Transportation, 400 Seventh Street, SW., Room 8414, Washington, D.C. 20590. (202) 755–8750.

SUPPLEMENTARY INFORMATION: The Department of Transportation's Board for Correction of Military Records (Board), established under 10 U.S.C. 1552, considers applications by present and former members of the Coast Guard and Coast Guard Reserve to correct their military records. Applications for the correction of military records include a wide variety of matters, such as requests for the upgrade of discharges, correction of officers' fitness reports, changes in reenlistment codes, and assignment or modification of disability ratings for disability retirement purposes.

Applications for the correction of a military record are administratively processed by the Board's staff. The Chairman may informally deny an application pursuant to 33 CFR 52.15–5. Applications which are not informally denied by the Chairman, pursuant to 33 CFR 52.15–5, are referred to a three-member Board, drawn from a precept of civilian attorneys who work for the Department of Transportation, for a formal decision. Requests for reconsideration of informal denials and requests for reconsideration of formal Board decisions approved by the General Counsel are also considered by a three-member Board. After the Board members sign a formal decision, other than a denial of a request for reconsideration of an informal denial, it is transmitted to the Office of the General Counsel for review. The General Counsel has been delegated the Secretary's authority to take final action on requests for the correction of military records (see 49 CFR 1.57(e)).

This proposed rule is concerned with the above authority to take final action. The proposal would identify a series of Board actions which, if taken unanimously by all three members of a Board, would not be transmitted to the General Counsel for review. In these cases, the action of the Board itself would be administratively final. The purpose of the proposed change is to speed the processing of routine and uncontroversial cases by eliminating an extra layer of review.

All unanimous Board decisions to grant relief, in matters falling into the categories identified in § 52.35–15(a)(2), may be made administratively final by the Board, unless the Chief Counsel of the Coast Guard states that the application raises a significant issue of Coast Guard policy. A unanimous Board could approve any other application, as long as the Coast Guard had recommended relief. A unanimous Board could also deny any application. All other Board actions would still be referred to the General Counsel's office for final action. A technical conforming amendment would be made to 49 CFR 1.57(e) to make that delegation of authority consistent with this proposed change to 33 CFR Part 52.

This proposed rule is not a major rule within the meaning of Executive Order 12291 or a significant rule under the Department of Transportation's Regulatory Policies and Procedures. This proposed rule relates to agency management and personnel and, therefore, the notice and comment requirements of section 553 of the Administrative Procedure Act are inapplicable. Nevertheless, the Department believes it would be beneficial to publish this proposal to allow present and former Coast Guard personnel an opportunity to comment on proposed changes in the Board's review and decision-making procedures.

Since this proposed rule would only apply to individual Coast Guard personnel, under the criteria of the Regulatory Flexibility Act, the Department certifies that this proposed rule would not have a significant economic impact on a substantial number of small entities.

List of Subjects

33 CFR Part 52

Military records, Military personnel.

49 CFR Part 1

Authority delegations (Government agencies), Organization and functions (Government agencies).

PART 52—BOARD FOR CORRECTION OF MILITARY RECORDS OF THE COAST GUARD

The Department proposes to revise 33 CFR 52.35–15 to read as follows:

§ 52.35–15 Final Action.

(a) *Final Action by the Board.* The Board may take final action on behalf of the Secretary, under 10 U.S.C. 1552, as follows, provided that the Board acts unanimously:

(1) The Board may deny any application for the correction of military records.

(2) The Board may approve an application for the correction of military records in one of the following categories, unless the Chief Counsel of the Coast Guard, in submitting the views of the Coast Guard under § 52.45–5(c), states that the application involves a significant issue of Coast Guard policy:

(i) An application to correct an enlistment or reenlistment contract or agreement to extend an enlistment for the purpose of effecting or increasing entitlement to a Selective Reenlistment Bonus;

(ii) An application to modify an election to participate in the Survivor Benefit Plan;

(iii) An application to change a reenlistment eligibility code;

(iv) An application to correct the character of or reason for a discharge or separation.

(3) The Board may approve any application for the correction of military records not falling into one of the categories in paragraph (a)(2) of this section, provided that the Chief Counsel of the Coast Guard recommends relief. The Board may not take final action under this subsection if the Chief Counsel recommends relief substantially different from that requested by the applicant.

(b) *Final Action by the Secretary.* Except in cases where the Board takes final action under subsection (a) of this section, the Board shall forward the record of its proceedings to the Secretary for approval, disapproval, or return for additional consideration. After taking final action, the Secretary returns the record to the Board for disposition.

PART 1—ORGANIZATION AND DELEGATION OF POWERS AND DUTIES

It is also proposed to revise 49 CFR 1.57(e) to read as follows:

§ 1.57 Delegations to General Counsel.

* * * * *

(e) Review and take final action on referrals of the findings of the Board for Correction of Military Records of the Coast Guard (except with respect to those matters on which the Secretary's authority to take final action is exercised by the Board pursuant to 33 CFR 52.35–15) and the Coast Guard Discharge Review Board.

BILLING CODE 4910-62-M

National Highway Traffic Safety Administration

49 CFR Part 572

Anthropomorphic Test Dummies

AGENCY: National Highway Traffic Safety Administration (NHTSA), DOT.

ACTION: Response to petition for rulemaking.

SUMMARY: This notice responds to a petition for rulemaking submitted by Humanoid Systems, concerning 49 CFR Part 572, *Anthropomorphic Test Dummies*. The petition requested changes in the specifications for the 50th percentile male dummy. That dummy is referenced by Federal Motor Vehicle Safety Standard No. 208 (49 CFR Part 571.208), *Occupant Crash Protection*, as part of that standard's compliance test procedure applicable to manufacturers choosing to meet that standard's requirements by means of passive restraints. Humanoid's petition stated that the dummy does not have a correct anatomical shape for the pelvis. The agency is currently involved in research concerning the specific problems alleged by Humanoid, as well as potential successor dummies to the current dummy. The agency plans to decide whether or not to amend the specifications for the current dummy after those research projects have been completed. This notice denies Humanoid's petition to the extent that it contemplates action other than that currently in progress.

FOR FURTHER INFORMATION CONTACT: Mr. Stanley H. Backaitis, Office of Vehicle Safety Standards, National Highway Traffic Safety Administration, 400 Seventh Street, SW., Washington, D.C. 20590 (202–426–2264).

SUPPLEMENTARY INFORMATION: Part 572, *Anthropomorphic Test Dummies*, provides specifications for the 50th percentile male dummy. That dummy is referenced by Safety Standard No. 208, *Occupant Crash Protection*, as part of the standard's compliance test procedure applicable to manufacturers choosing to meet that standard's requirements by means of passive restraints. Results from tests utilizing the dummy, both for compliance and research purposes, have been used by research institutions, government and industry to develop a large data bank.

Humanoid Systems submitted a petition for rulemaking to change the Part 572 test dummy's specifications with respect to the pelvis. That company stated that the Part 572 dummy does not have a correct anatomical shape for the pelvis. Further, that company stated that due to errors by the manufacturer who furnished drawings, there was a 10 degree difference in the angles of the hip sockets with reference to the principal axes of the pelvic casting. Humanoid stated that modification of the specifications would provide a benefit to the safety community since the pelvic shape of the current dummy creates a predisposition for the lap belt to slide up over the pelvis and to press against the abdomen and its organs (submarining).

NHTSA is aware that the pelvic shape of the Part 572 dummy is not an anatomically perfect representation, and the agency is involved in research concerning possible changes in the pelvic shape. Humanoid's petition cited a part of that research, i.e., the development of a new pelvic shape by a contractor, and asked that the agency change the standard based on that research.

While part of the research concerning the pelvic shape has been completed, other work is continuing. This includes review of the contract work cited by Humanoid. The agency has included interested groups in this review process, including physiological and anthropometric laboratories and the Society of Automotive Engineers (SAE).

The mere fact that the pelvic shape is not anatomically perfect does not by itself necessitate a change in specifications. Any dummy will to some extent differ from a real human being that it simulates for test purposes. Similarly, each human being will differ to some extent from any other human being. The issues under consideration by the agency are to what extent, if any, the current pelvic shape may bias test results in one way or another, and how the shape may be improved. The agency's research project will consider Humanoid's allegation that the current dummy exaggerates submarining.

The decision whether to amend the specifications of the Part 572 dummy will depend on the results of the agency's research project. The decision may also depend on the results of two related agency projects, the devlopment of two potential successors to the current dummy and the advanced dummy program.

Any change in specifications requires development of a new data bank. Thus, a change in specifications not only results in additional costs for purposes of compliance testing but also limits the usefulness of prior test data for research purposes. It is therefore in the interest of maximizing the usefulness of data and thereby promoting safety, as well as reducing costs, to change specifications as infrequently as possible. For those reasons, the agency may decide not to change specifications for the existing dummy if that dummy is likely to be superseded in the near future.

For the reasons set forth above, the agency does not plan any interim action to change the specifications of the current Part 572 dummy, pending completion of its research projects. Therefore, to that extent, this notice denies Humanoid's petition.

(Secs. 103, 119 and 124, Pub. L. 89–563, 80 Stat. 718, (15 U.S.C. 1392, 1407 and 1410a); delegations of authority at 49 CFR 1.50 and 501.8)

Issued on September 13, 1982.

Courtney M. Price,

Associate Administrator for Rulemaking.

Monday, September 20, 1982

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

Committee on Administration; Public Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92–463), notice is hereby given of a meeting of the Committee on Administration of the Administrative Conference of the United States, to be held at 2:00 p.m., Wednesday, September 29, 1982, at 400 Maryland Avenue, SW., Room 7002, Washington, D.C. 20546.

The Committee will meet primarily to discuss consultant Thomas J. Madden's study on officials' liability for constitutional torts, and possible areas for recommendations thereon, and to consider a possible project on procurement by grantees under federal grant programs.

Attendance is open to the interested public, but limited to the space available. Persons wishing to attend should notify the Office of the Chairman of the Administrative Conference at least two days in advance. The Committee Chairman, if he deems it appropriate, may permit members of the public to present oral statements at the meeting; any member of the public may file a written statement with the Committee before, during or after the meeting.

For further information contact Charles Pou, Jr., Office of the Chairman, Administrative Conference of the United States, 2120 L Street NW., Suite 500, Washington, D.C. (Telephone: 202–254–7065). Minutes of the meeting will be available on request.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

Sugar Import Quotas; Determination of Import Quotas on Sugar for Fiscal Year 1983

AGENCY: Agriculture Department.

ACTION: Notice.

SUMMARY: This notice establishes the annual (fiscal year) sugar import quota for the period October 1, 1982 through September 30, 1983 at 2,800,000 short tons, raw value.

EFFECTIVE DATE: October 1, 1982.

FOR FURTHER INFORMATION CONTACT: James Truran, Foreign Agricultural Service, Department of Agriculture, Washington, D.C. 20250, Tel: (202) 447–2916.

SUPPLEMENTARY INFORMATION: Presidential Proclamation No. 4941, dated May 5, 1982, amended Headnote 3 of subpart A, part 10, schedule 1 of the Tariff Schedules of the United States (TSUS) to establish a system of import quotas for foreign sugar coming into the United States. Under the terms of Headnote 3, the Secretary of Agriculture established an annual (fiscal year) sugar import quota period of October 1, 1982–September 30, 1983.

For the 1983 fiscal year the quota is set at 2,800,000 short tons, raw value. This quota level is 500,000 tons lower than the tentative quota level announced June 15. This reduction in the quota level for 1982/83 is the result of an upward revision in projections for the 1982/83 domestic sugar crop, larger than anticipated carry-in stocks for the new year beginning October 1 and a downturn in estimates for domestic disappearance of sugar due to the dampending of demand for sugar, especially in higher valued sugar containing products, as well as continued competition in the sweetener market from sugar substitutes.

The quota amount will be divided according to allocation provisions of Presidential Proclamation 4941 of May 5, 1982 (47 FR 19661) as modified on August 11, 1982 (47 FR 34870). Countries included in the "other specified countries and areas" category will be permitted to ship either their prorata share of that category's allocation or 16,500 short tons whichever is greater.

Notice is hereby given that, in accordance with the requirements of Headnote 3 of subpart A, part 10, schedule 1 of the TSUS, the Secretary of Agriculture has determined that a quota of 2,800,000 short tons of sugar as described in items 155.20 and 155.30 of the TSUS may be entered or withdrawn from warehouse for consumption during the period October 1, 1982 through September 30, 1983. The Secretary has also determined that this amount gives due consideration to the interests in the United States sugar market of domestic producers and materially affected contracting parties to the General Agreement on Tariffs and Trade.

Dated: September 15, 1982.

John R. Block,
Secretary of Agriculture.

BILLING CODE 3410–10–M

DEPARTMENT OF COMMERCE

Bureau of the Census

Census Advisory Committee of the American Statistical Association; Public Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92–463 as amended by Pub. L. 94–409), notice is hereby given that the Census Advisory Committee of the American Statistical Association will convene on October 7 and 8, 1982. The Committee will meet in Room 2424, Federal Building 3, at the Bureau of the Census in Suitland, Maryland.

The Census Advisory Committee of the American Statistical Association was established in 1919. It advises the Director, Bureau of the Census, on the Bureau's programs as a whole and on their various parts, considers priority issues in the planning of censuses and surveys, examines guiding principles, advises on questions of policy and procedures, and responds to Bureau requests for opinions concerning its operations.

The Committee is composed of 15 members appointed by the President of the American Statistical Association.

The agenda for the October 7 meeting, which will begin at 1 p.m. and adjourn at 5:15 p.m., is: (1) Introductory remarks by the Director of the Bureau of the Census, including (a) staff changes and Bureau organization, (b) major budget and program developments, and (c) other topics of current interest; (2) the 1990 census—update on planning, and automated geographic support; and (3) design of the Survey of Income and Program Participation (SIPP).

The agenda for the October 8 meeting, which will begin at 9 a.m. and adjourn at 4:45 p.m., is: (1) Imputation methodology for (a) the 1980 census, (b) demographic surveys, and (c) economic surveys; (2) development of Committee recommendations; (3) redesign of household surveys, including one versus two primary sampling units per stratum, and the form of the composite estimator; (4) discussion of Committee recommendations; (5) discussion with Census Bureau Staff of (a) Bureau responses to prior Committee recommendations, (b) status of specific Bureau activities, and (c) Bureau activities described at earlier Committee meetings; and (6) recommendations, plans, and suggest agenda items for next meeting.

The meeting will be open to the public, and a brief period will be set aside on October 8 for public comment and questions. Extensive questions or statements must be submitted in writing at least 3 days prior to the meeting.

Persons wishing additional information concerning this meeting or who wish to submit written statements may contact Dr. David W. Chapman, Bureau of the Census, Room 3540, Federal Building 3, Suitland, Maryland. (Mail address: Washington, D.C. 20233). Telephone (301) 763–1292.

Dated: September 14, 1982.

Bruce Chapman,

Director, Bureau of the Census.

BILLING CODE 3510-07-M

Foreign-Trade Zones Board

[Docket No. 21–82]

Proposed Foreign-Trade Zones Everett and Tacoma, Washington; Application and Public Hearing

Notice is hereby given that an application has been submitted to the Foreign-Trade Zones Board (the Board) by the Puget Sound Foreign-Trade Zones Association, a non-profit Washington corporation affiliated with the Economic Growth Council of Puget Sound, requesting authority to establish general-purpose foreign-trade zones in Everett and Tacoma, within the Puget Sound Consolidated Customs port of entry. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a–81u), and the regulations of the Board (15 CFR Part 400). It was formally filed on September 8, 1982. The applicant is authorized to make this proposal under § 24.46.020 of the Revised Code of Washington.

The proposed zone in Everett will be at the Port of Everett's North Terminal, East Norton Avenue and 21st Street in Everett. A 36,000 square foot warehouse will be available for initial zone activities on the 80-acres being requested as the zone area. The Port of Everett will be the operator.

The zone in Tacoma would cover 16 acres within the 2700-acre Port of Tacoma at 2610 Marshall Avenue. A 151,000 square foot structure is being planned to accommodate a variety of zone activities including warehousing, exhibition, assembly and light processing. The operator of the zone facility will be the Port of Tacoma.

The application contains evidence of the need for zone services in the Everett and Tacoma port of entry areas. Prospective users have indicated an interest in using the zone for warehousing and processing of machinery and components, fabricated metal products, wood and paper products, instruments, apparel, polyvinyl sheeting, and food products. Specific approvals for manufacturing are not being sought at this time.

In accordance with the Board's regulations, an examiners committee has been appointed to investigate the application and report to the Board. The committee consists of: John J. Da Ponte, Jr. (Chairman), Director, Foreign-Trade Zones Staff, U.S. Department of Commerce, Washington, D.C. 20230; Robert W. Hardy, District Director Designate, U.S. Customs Service, Region VIII, 2039 Federal Office Building, 909 First Avenue, Seattle, Washington 98174; and Colonel Norman C. Hintz, District Engineer, U.S. Army Engineer District, Seattle, P.O. Box C–3755, Seattle, Washington 98124.

As part of its investigation, the examiners committee will hold a public hearing on October 8, 1982, beginning at 9:00 a.m., in the 6th Floor Conference Room of the Lake Union Building, 1700 Westlake Avenue North, Seattle. The purpose of the hearing is to help inform interested persons about the proposal, to provide an opportunity for their expression of views, and to obtain information useful to the examiners.

Interested parties are invited to present their views at the hearing. They should notify the Board's Executive Secretary of their desire to be heard in writing at the address below or by phone (202/377–2862) by October 4, 1982. Instead of an oral presentation, written statements may be submitted in accordance with the Board's regulations to the examiners committee, care of the Executive Secretary, at any time from the date of this notice through November 8, 1982. Evidence submitted during the post-hearing period is not desired unless it is clearly shown that the matter is new and material and that there are good reasons why it could not be presented at the hearing. A copy of the application and accompanying exhibits will be available during this time for public inspection at each of the following locations:

U.S. Department of Commerce District Office, Room 706, Lake Union Building, 1700 Westlake Avenue North, Seattle, Washington 98109

Office of the Executive Secretary, Foreign-Trade Zones Board, U.S. Department of Commerce, Room 3721, 14th and Pennsylvania, NW., Washington, D.C. 20230

September 15, 1982.

John J. Da Ponte, Jr.,

Executive Secretary.

BILLING CODE 3510-25-M

International Trade Administration

Applications for Duty-Free Entry of Scientific Instruments

The following are notices of the receipt of applications for duty-free entry of scientific instruments published pursuant to Section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897) and the regulations issued pursuant thereto (15 CFR Part 301 as amended by 47 FR 32517).

Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the instrument is intended to be used is being manufactured in the United States.

Comments must be filed in accordance with § 301.5(a) (3) and (4) of the regulations. They are to be filed in triplicate with the Director, Statutory Import Programs Staff, U.S. Department of Commerce, Washington, D.C. 20230, within 20 calendar days after the date on which this notice of application is published in the **Federal Register.**

A copy of each application is on file in the Department of Commerce, and may be examined between 8:30 A.M. and 5:00 P.M., Monday through Friday, Room 2097, 14th and Constitution Avenue, NW., Washington D.C. 20230.

Docket No. 82-00087. Applicant: University of Washington, Department of Chemistry, BG-10, Seattle, WA 98195. Instrument: NMR Spectrometer, Model WM-500 and Accessories. Manufacturer: Bruker Analytishe, Messtechnik, West Germany. Intended use of instrument: The instrument is intended to be used to investigate a wide range of materials including but not limited to, newly synthesized chemical materials, natural products, biological macromolecules and natural and synthetic polymers. The wide range of research objectives to be pursued include: (a) Understanding how specific tRNA can be recognized by the appropriate aminoacyl-tRNA and charged with its cognate amino acid, (b) investigating how chemical modification of prostaglandins and prostacylins alters their biochemical effectiveness by making structure-activity correlations, (c) studying how binding of ligands to DNA alters its motional dynamics and (d) investigating how enzyme structure relates to enzyme specificity. The instrument will be used routinely by graduate students whose degree requirements include original, independent research (Chemistry 600, 700, 800). In addition, it will be used to train postdoctoral fellows and other scientists in state-of-the-art applications of nuclear magnetic resonance techniques to chemical and biochemical problems. Application received by Commissioner of Customs: August 16, 1982.

Docket No. 82-00197. Applicant: Brookhaven National Laboratory, Upton, New York 11973. Instrument: Neutron Monochromator Crystals, (Cu_2MnA1). Manufacturer: Cristal Tec., France. Intended use of instrument: The instrument is intended to be used in a research program involving the study of the properties of solids using neutrons from the Brookhaven High Flux Beam Reactor. The neutrons emerge from the pile with a smooth distribution of energies and by employing suitably oriented single crystals, called monochromators, neutrons of a single energy may be selected from the pile spectrum. These monoenergetic neutrons are then used in the study of the properties of solids. The Cu_2MnAl crystal also can be used to polarize the neutron beam so that the spins of the neutrons selected are aligned as well as being monoenergetic. Application received by Commissioner of Customs: August 16, 1982.

Docket No. 82-00311. Applicant: University of Texas Health Science Center at Dallas, 5323 Harry Hines Blvd., Dallas, Texas 75235. Instrument: Topical Magnetic Resonance System. Manufacturer: Oxford Research Systems, United Kingdom. Intended use of instrument: The instrument is intended to be used in basic and applied research of tissue metabolism in living animals. The experiments will include a broad range of metabolic studies of heart, brain, kidney, liver, and muscle metabolism in animal models of disease, stroke, and drug toxicity. The objectives of such experimentation is to gain more extensive insights and knowledge of fundamental biochemical events associated with tissue damage in various disease states, the effects of drug therapies treating disease, and the toxic effects of certain drugs on various internal organs. Application received by Commissioner of Customs: August 18, 1982.

Docket No. 82-00323. Applicant: Montana State University, Department of Chemistry, Bozeman, MT 59717. Instrument: Mass Spectrometer System, MM707OE-HF with Integrated DS2035 and Accessories. Manufacturer: VG Instruments, United Kingdom. Intended use of instruments:

The instrument is intended to be used for a variety of research projects which include but are not limited to the following:

(1) Development of improved methods of trace organic analysis.

(2) Isolation and structure elucidation of natural products of biological significance.

(3) Research focused on new systhetic methodologies, organic mechanisms and natural products.

(4) Research efforts in natural products and organometallic chemistry.

(5) Investigation of the chemical structure and biosynthesis of the unique lipids found on insects with the purposes of providing basic research for the development of specific insecticides.

(6) Obtaining concommitant biological and biochemical data on the kinds and levels of plant growth hormones in western wheatgrass and correlate that to the growth reproduction of the grasshoppers that feed on the wheatgrass.

(7) Further development of the techniques of secondary ion mass formation by ion impact of fast atom bombardment as a method for ionizing complex mixtures and to devlop methods for examining mixtures which would provide a selectivity and a sensitivity which would allow the detection of trace levels without the use of a high resolution mass analyzer.

The instrument will also be used for educational purposes of the following courses:

Chem. 418.	Qualitative Analysis of Organic Compounds.
Chem. 428.	Instrumental Analysis.
Chem. 528.	Advanced Mass Spectroscopy.
Chem. 580.	Degree research.

Application received by Commissioner of Customs: July 30, 1982.

Docket No. 82-00326. Applicant: National Aeronautics and Space Administration, Resident Office, Jet Propulsion Laboratory, 4800 Oak Grove Drive, Pasadena, CA 91109. Instrument: Excimer Laser System, Model EMG-101E and Accessories. Manufacturer: Lambda Physik, West Germany. Intended use of instrument: The instrument is intended to be used to pump a previously purchased dye laser system when conducting experiments in the project: "Development of an In-Situ Measurement Technique for Troposheric No_x in the Part Per Trillion Range Using Resonant Ionization Laser Spectroscopy." Application received by

Commissioner of Customs: August 16, 1982.

Docket No. 82–00327. Applicant: Brigham Young University, Department of Chemistry, 218 ESC, Provo, UT 84602. Instrument: EMG 101E Multi-Gas Laser System with Optics and Model FL 2002E Dye Laser. Manufacturer: Lambda Physik West Germany. Intended use of instrument: The instrument is intended to be used to provide a source of coherent radiation with high power over a wide portion of the visible and ultraviolet spectrum. Specific research will include measurement of the thermodynamic properties of alkali-metal mixtures used in stationary and naval nuclear reactors and research on cancer photoradiation thereapy (dye/light combinations which selectively destroy malignant tissue). The article will be part of a Chemistry Department Laser Facility which will be used by three professors, their graduate students and selected undergraduate students on a continuing basis. Application received by Commissioner of Customs: August 16, 1982.

Docket No. 82–00328. Applicant: Californaia Institute of Technology, 1201 E. California Street, Pasadena, CA 91125. Instrument: Accessories for Ion Microanalyzer System (IMS 3F) consisting of Primary Beam Mass Filter and Cesium Gun and other Sole Source Accessories. Manufacturer: Cameca, France. Intended use of instrument: The instruments are accessories to an existing ion microanalyzer system to be used to analyze mineralogically and chemically complex rock samples from the moon and other extraterrestrial sources and the earth. The rock samples are comprised mainly of electrically nonconducting silicate minerals. Application received by Commissioner of Customs: August 16, 1982.

Docket No. 82–00329. Applicant: National Aeronautics and Space Administration, Lyndon B. Johnson Space Center, Houston, TX 77058. Instrument: Camebax Micro Scanning Electronic X-ray Microprobe Analyzer and Accessories. Manufacturer: Cameca, France. Intended use of instrument: The instrument is intended to be used for the study of the two-or-three dimensional composition of a wide variety of materials. The primary use will be to perform analyses of geological and mineralogical samples, in support of research projects being conducted by staff, contractors, and visitors of the Planetary and Earth Sciences Division. The instrument will also be used for engineering applications such as spacecraft material property and failure analysis. Application received by Commissioner of Customs: August 16, 1982.

Docket No. 82–00330. Applicant: North Carolina State University, Purchasing Department, P.O. Box 5935, Raleigh, NC 27650. Instrument: Multiple-Gas Laser, TE–861S–3. Manufacturer: Lumonics, Inc., Canada. Intended use of instrument: The instrument is intended to be used for studies of rapid photo-etching and photo-synthesis of solid semiconductors and insulators and spectroscopy at high repetition rate, high power, and high energy of organometallic molecules and organic molecules. In addition, the instrument will be used for educational purposes in the courses Inorganic Chem and Physical Chem. Application received by Commissioner of Customs: August 17, 1982.

Docket No. 82–00331. Applicant: South Dakota State University, Brookings, South Dakota 57007. Instrument: Mobile Solar Test Facility, MSTF–2. Manufacturer: Solarfin Products, Canada. Intended use of instrument: The instrument is intended to be used for teaching the experimental portions of three senior-level Mechanical Engineering courses. In these courses (Design of Thermal Systems, Heating, Ventilating and Air conditioning II: Design; and ME Lab III), the objective is to teach some aspect of the complete solar heating system: analysis, operation, optimization, or design. Application received by Commissioner of Customs: August 17, 1982.

Docket No. 82–00333. Applicant: Arkansas State University, P.O. Box 599, State University, Arkansas 72467. Instrument: Electron Microscope, Model JEM–100CX and Accessories. Manufacturer: JEOL Ltd., Japan. Intended use of instrument: The instrument is intended to be used to study structure, macromolecules of cells and tissues and to analyze chemical structures. The materials to be investigated will include inorganic or organic substances in biological and chemical systems. These will include cells containing proteins, nucleic acids, protein-lipid containing membranes and organic elements and compounds. These studies will be conducted as an integral part of basic research by biology and chemistry professors. The article will also be used to introduce undergraduate and graduate level students to modern electron microscopes and their uses. Application received by Commissioner of Customs: August 17, 1982.

Docket No. 82–00334. Applicant: Naval Post Graduate School, Monterey, CA 93940. Instrument: Electron Microscope, JEM 100CX and Accessories. Manufacturer: JEOL Ltd., Japan. Intended use of instrument: The instrument is intended to be used to conduct microscopic investigation of steels used in construction of USN warships such as HY–80 steel, steels for application as rolling element bearing materials, high strength aluminum alloys and copper based alloys used as shape-memory materials. Characteristics to be examined are the phase or phases present and their structure as a function of processing history. For example, the martensitic structures in high-carbon bearing steels will be examined. The article will also be used for educational purposes in the course Microscopy (MS-3401). Application received by Commissioner of Customs: August 17, 1982.

Docket No. 82–00336. Applicant: The University of California, Department of Chemistry, Davis, California 95616. Instrument: Excimer Laser Pumped Tunable Dye Laser System. Manufacturer: Lambda Physik Gmbh & Co., West Germany. Intended use of instrument: The instrument is intended to be used in time resolved spectroscopic studies of organic research mechanisms and reactive intermediates in the gas phase and gas-phase nuclear magnetic resonance studies of photochemical reactions. Application received by Commissioner of Customs: August 17, 1982.

Docket No. 82–00337. Applicant: University of Pennsylvania, School of Veterinary Medicine, Suite 200, 3800 Spurce Street, Philadelphia, Pennsylvania 19104. Instrument: Electon Microscope, EM 10CA and Accessories. Manufacturer: Carl Zeiss, West Germany. Intended use of instrument: The instrument is intended to be used for studies of the spleen, bone marrow and other tissues related to the blood and immune system. This work requires obtaining a very low power picture, comparable to the magnification obtained by the light microscope and then carry the study to portions of cells, membranes and protein molecules with a magnification of 200,000. In addition, the instrument will be used to train young investigators who must be able to get right to work with as little time spent as possible to get maximum performance out of the electron microscope. Application received by Commissioner of Customs: August 17, 1982.

Docket No. 82–00338. Applicant: Yale University School of Medicine, 333 Cedar Street, P.O. Box 3333, New Haven, CT 06510. Instrument: JEM–100 CXII Electron Microscope with Accessories. Manufacturer: JEOL Ltd.,

Japan. Intended use of instrument: The instrument is intended to be used to carry out medium and high resolution ultrastructural investigations which concern the interaction of viruses with cellular membranes, especially neuronal membranes and neurotransmitter receptors. These studies will include:

1. The studies of interaction of rabies virus with the acetylcholine receptor.

2. Characterization of arbovirus-host cell receptor interactions, to characterize the receptors involved structurally, and to determine whether common receptors exist among the serologically and morphologically related and unrelated neurotropic viruses.

3. Studies of the early interactions between various animal viruses and their tissue culture host cells.

The instrument will be used in the training of a limited number of graduate and medical students requiring fine structrual work in their doctoral thesis research. Credit is given for this training in the courses: Cell Biology 511 a, b, Advanced Methods in Cell Biology and Cell Biology 521, Research. Application received by Commissioner of Customs: August 17, 1982.

Docket No. 82-00339. Applicant: The University of Texas at Austin, Department of Botany, Austin, TX 78712. Instrument: Electron Microscope Model EM 400T and Accessories. Manufacturer: Philips Electronic Instruments, The Netherlands. Intended use of instrument: The instrument is intended to be used for studies of biological macromolecules such as cellulose, DNA, proteins, lipids, various carbohydrates, glycoproteins, replicas of biological materials such as shadowing and freeze fractures. The experiments to be conducted include:

a. Visualization of the biosynthesis of cellulose.

b. The role of cellulases and other hydrolytic enzymes in cellulose degradation.

c. Immunological localization of cellulase activity.

d. Morphology of cell wall development.

e. Controlled crystallization and the biosynthesis of cellulosic microfibrils.

f. Classification and morphological identification of various cellulose synthesizing complexes associated with membranes.

g. Ultra-high resolution of biological macromolecules, using dark field electron microscopy.

Application received by Commissioner of Customs: August 17, 1982.

Docket No. 82-00342. Applicant: The Society of the New York Hospital, 525 East 68th Street, New York, NY 10021. Instrument: Electron Microscope, JEM-100CX and Accessories. Manufacturer: JEOL Ltd., Japan. Intended use of instrument: The instrument is intended to be used for the investigation of the developmental, pathological and experimental ultrastructural features in a variety of human tissues. These include: specialized structures of neoplasms, kidney diseases, the presence and concentration of particular elements such as copper in cases of Wilson's disease, the presence of asbestos and silica in pulmonary diseases, etc. The data obtained will allow clinical diagnosis by characterizing specific disease properties of tissues, i.e., kidney disease, various neoplastic diseases. The research investigations will utilize the information derived to further understand developmental and pathological processes and experimental cellular responses at an ultrastructural level. Application received by Commissioner of Customs: August 17, 1982.

Docket No. 82-00345. Applicant: The Ohio State University, 2009 Millikin Rd., Columbus, Ohio 43210. Instrument: JEM-200 CX Electron Microscope with Accessories. Manufacturer: JEOL Ltd., Japan. Intended use of instrument: The instrument is intended to be used to carry out a broad range of investigations which will include:

(1) Characterization of crystalline defects in metals, ceramics, and semiconductors—with emphasis placed on the structure and properties of interfaces in these materials.

(2) Characterization of metal-insulator composites, and correlate their microstructures and microchemistry with conductivity and optical reflectance measurements.

(3) Investigation of polymer-based catalysts.

(4) Studies involving friction and wear in metals.

(5) Study of high temperature oxidation of metals—involving the use of a hot stage in the SEM with an oxygen bleed system close to the sample.

(6) Characterization of the microstructure and physical metallurgy of HSLA steels.

(7) Relationship between the corrosion behavior and properties of reactor materials (principally Inconel 600 and 304-type stainless steels), and diffusion induced boundary migration in metals.

Application received by Commissioner of Customs: August 31, 1982.

Docket No. 82-00346. Applicant: Brown University, Division of Biology and Medicine, Box G, Providence, Rhode Island 02912. Instrument: Digamax Gas Mixing Pump Type 2M 303/a-F 110V/60Hz. Manufacturer: H. Wosthoff, KG, West Germany. Intended use of instrument: The instrument is intended to be used in a physiological study of blood-oxygen transport in a small passerine bird. The specific purposes of the instrument are:

(1) Pump will serve as the reference standard for calibration of oxygen and carbon dioxide electrodes.

(2) To generate a variety of different O_2—CO_2—N_2 gas mixtures at a pressure of up to 0.5 ATM for measuring dynamic and static oxygen equilibrium curves.

(3) To generate a variety of different O_2—CO_2 gas mixtures for evaluating the acid-base characteristics of sparrow blood using the Astrup Micro-Tonometer method.

The specific aims of this study are as follows:

(1) Quantify hematologic properties relevant to blood—O_2 transport.

(2) Describe O_2 transport properties of whole blood under controlled conditions of temperature and acid-base.

(3) Describe intrinsic O_2 binding properties and effects of all-osteric modifiers for purified isohemoglobin solutions at 41° C.

(4) Evaluate efficacy of current analytical techniques for characterizing respiratory O_2 transport in multiple hemoglobin blood system.

Application received by Commissioner of Customs: September 1, 1982.

BILLING CODE 3510-25-M

[Case Nos. 608 and 609]

Gerald M. Starek and Carl E. Story; Order Amending Denial of Export Privileges

In the matter of: Gerald M. Starek, 13795 Via Alto Court, Saratoga, California 95070, Case No. 608; and Carl E. Story, 22266 De Anza Circle, Cupertino, California 95014, Case No. 609.

By Order of July 1, 1981, 46 FR 35950 (July 13, 1981) (the "Order"), the above named respondents were denied, pursuant to Part 388 of the Export Administration Regulations (15 CFR Part 388, *et seq.* (1981)) (the "Regulations").

certain privileges of participating, for a period ending September 30, 1986, in the export of U.S.-origin commodities or technical data. Paragraphs Fourth, Seventh, and Ninth of the Order, consistent with Section 387.12(c) of the Regulations, extended, to any related parties of the respondents, the administrative sanctions imposed by the Order on the respondents. Silicon Valley Group, Inc. ("SVG"), a California company in which the respondents had significant ownership and control interests and in which they held positions of responsibility, was named by such Paragraphs as a related party.

The Order was based on Consent Agreements entered into between each of the respondents and the U.S. Department of Commerce (the "Department"); and a Memorandum of Understanding was also executed by the respondents, the Department, and SVG to clarify the Consent Agreements and any Order based thereon. Paragraph IV of the Memorandum of Understanding provided that, at such time as SVG demonstrated to the Hearing Commissioner that neither of the respondents controlled or participated in SVG's exporting, SVG should no longer be considered a related party under the Order.

SVG has now made a submission in an effort at such a demonstration. To remove majority control of SVG's stock from themselves, the respondents have created a Voting Trust, with a commercial bank as Trustee, in which is placed all of SVG's stock, owned by the respondents and their immediate families, that is in excess of 40 percent of the outstanding SVG stock. To document that this Voting Trust has removed majority control of SVG's stock from the respondents, SVG has submitted, among other materials, a copy of the Voting Trust Agreement, a certification by the respondents that they have no arrangement with any other SVG shareholder as to voting on any SVG shareholder voting matter, and an opinion of counsel that the Voting Trust Agreement is valid and enforceable under California law and that the respondents' combined SVG stock ownership held outside the Voting Trust would enable them to elect only two of SVG's five directors.

To remove themselves from any participation in SVG's exporting, the respondents have withdrawn from Silicon Valley Group International, Inc. ("SVGI"), a wholly-owned SVG subsidiary, which conducts all of SVG's exporting. Neither respondent holds any position in SVGI, and SVGI reports to a committee of SVG's Board, the Export Operations Committee, that includes neither respondent. To document that neither respondent participates in its exporting, SVG has submitted, among other materials, a certification by SVG that no such participation exists, a similar certification by each person at SVGI involved in its management or whose basic job responsibility is its exporting, and a copy of a written notice given all SVG employees to the effect that the respondents are to have no such participation.

Based on the submissions made by SVG, I find that control of and participation in SVG's exporting has been sufficiently removed from the respondents that SVG need no longer be considered a related party under the Order, and that to declare SVG no longer a related party would not jeopardize the purpose of the Order. Accordingly, it is hereby ordered that the Order is amended by a declaration that SVG shall be considered not a related party, subject, however, to compliance with the following conditions.

I. Majority control of SVG's stock shall remain removed from the respondents, through the Voting Trust in the manner described by SVG's submissions in support of this Amendment; and participation in SVG's exporting shall remain removed from the respondents, through SVGI in the manner described by SVG's submissions in support of this Amendment.

II. Annually for the duration of the Order, SVG shall submit to the Hearing Commissioner, within 60 days after the end of each calendar year: (a) A certification by SVG that, except for such placement of SVG stock into the Voting Trust as may have been required to keep the combined ownership of SVG stock by respondents and their immediate families held outside the Voting Trust at 40 percent or less of outstanding SVG stock, and except for any withdrawal of SVG stock from the Voting Trust that may have been consistent with that 40 percent provision, the Voting Trust Agreement remained unchanged during such past year and that it remains unchanged; (b) a certification by the respondents that they had no arrangement during such past year with any other SVG shareholder as to voting on any SVG shareholder voting matter and that they have no such arrangement; and (c) an opinion of counsel that during such past year the Voting Trust Agreement was valid and enforceable under California law and that respondents' combined SVG stock ownership held outside the Voting Trust enabled them to elect only two of SVG's five directors, and that the Voting Trust Agreement remains so valid and enforceable and the respondents' combined stock ownership held outside the Voting Trust enables them to elect only two of SVG's five directors.

III. Annually for the duration of the Order, the Trustee of the Voting Trust shall submit to the Hearing Commissioner, within 60 days after the end of each calendar year, a report of its activities under the Voting Trust Agreement during such past year.

IV. Within 90 days after the date of this Amendment of the Order, SVG shall submit to the Hearing Commissioner a written acknowledgment by all SVG employees that they have been notified that the respondents are to have no participation in SVG's exporting.

V. Within 60 days after the end of each calendar quarter, SVG shall submit to the Hearing Commissioner: (a) a listing of its exports during such past quarter, including a description of the commodities and technical data exported and an identification of the country of destination, ultimate consignee, and, if known or if required by the Regulations, of the end use; and (b) minutes of any meetings, during such past quarter, of the SVG Shareholders, of the SVG Board, of the SVGI Board, and of the Export Operations Committee.

VI. Annually for the duration of the Order, SVG shall submit to the Hearing Commissioner, within 60 days after the end of each calendar year: (a) a certification by SVG that all of SVG's exporting during such past year was conducted through SVGI, which functioned in the manner described in SVG's submissions in support of this Amendment, and that the respondents had no participation in SVG's exporting; (b) a certification by each person at SVGI, during such past year, involved in its management or whose basic job responsibility was its exporting, that the respondents had no such participation; (c) a copy of SVG's annual report to shareholders for such past year; and (d) a listing of the officers and directors of SVG and of SVGI during such past year.

VII. For the duration of the Order, authorized U.S. government officials shall at all times have access to records related to exports of SVG.

VIII. The following documents shall be available for public inspection:

The Voting Trust Agreement, the certification by the respondents, and the opinion of counsel referred to in the third paragraph of this Amendment above;

The certification by SVG, the certifications by persons at SVGI, who are SVGI officers, and the notice to SVG employees referred to in the fourth paragraph of this Amendment above;

The certification by SVG required by Paragraph II(a) of this Amendment above, the certifications by the respondents required by this Paragraph II(b), and the opinions of counsel required by this Paragraph II(c); and

The certifications by SVG required by Paragraph VI(a) of this Amendment above, the certifications by persons at SVGI, who are SVGI officers, required by this Paragraph VI(b), and the listings of officers and directors required by this Paragraph VI(d).

Pursuant to § 388.20(b) of the regulations, the following documents are declared to be of restricted access and shall be withheld from public access to the maximum extent authorized by 50 U.S.C. app. section 2412(c) (Supp. III 1979) and by 5 U.S.C. 552(b)(4) (1976):

The reports of SVG exports required by Paragraph SEVENTH of the Order;

The documents submitted by SVG in its request for this Amendment, including the certifications by persons at SVGI, who are not SVGI officers, referred to in the fourth paragraph of this Amendment above, other than those documents declared to be available for public inspection in Paragraph VIII of this Amendment above;

The reports of the Trustee required by Paragraph III of this Amendment above;

The acknowledgments by SVG employees required by Paragraph IV of this Amendment above;

The listings of exports required by Paragraph V(a) of this Amendment above, and the minutes of meetings required by this Paragraph V(b); and

The certifications by persons at SVGI, who are not SVGI officers, required by Paragraph VI(b) above, and the SVG annual reports required by this Paragraph VI(c).

This Amendment of the Order is effective immediately.

Dated September 13, 1982.

Thomas W. Hoya,

Hearing Commissioner.

BILLING CODE 3510-25-M

National Oceanic and Atmospheric Administration

National Marine Fisheries Service; Issuance of Permit

On July 23, 1982, Notice was published in the **Federal Register** that an application had been filed with the National Marine Fisheries Service by Dr. Richard H. Lambertsen, Woods Hole Oceanographic Institution to take by biopsy up to 520 humpback whales (*Megaptera novaeangliae*).

Notice is hereby given that on September 13, 1982, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), the Endangered Species Act of 1973 (16 U.S.C. 1531–1543), the National Marine Fisheries Service issued a permit to Richard H. Lambertsen for the above taking subject to certain conditions set forth therein.

As required by the Endangered Species Act of 1973 issuance of this permit is based on a finding that such permit (1) was applied for in good faith; (2) will not operate to the disadvantage of the endangered species which is the subject of the permit, and (3) will be consistent with the purposes and policies set forth in Section 2 of the Endangered Species Act of 1973. This Permit was issued in accordance with, and is subject to Parts 220–222 of Title 50 CFR of the National Marine Fisheries Service regulations governing endangered species permits (39 FR 41367), November 27, 1974.

The Permit is available for review in the following offices:

Assistant Administrator for Fisheries, National Marine Fisheries Service, 3300 Whitehaven Street, NW., Washington, D.C.;

Regional Director, National Marine Fisheries, Northeast Region, 14 Elm Street, Federal Building, Gloucester, Massachusetts 01930; and

Regional Director, National Marine Fisheries Service, Southeast Region, 9450 Koger Boulevard, St. Petersburg, Florida 33702.

Dated: September 13, 1982.

R. B. Brumsted,

Acting Deputy Director, Office of Marine Mammals and Endangered Species, National Marine Fisheries Service.

BILLING CODE 3510-22-M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Adjusting the Import Restraint Level for Certain Cotton Textile Products From Pakistan

September 15, 1982.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Granting an increase for swing and carryforward from 489,143 dozen pairs to 552,732 dozen pairs for cotton gloves in Category 331, produced or manufactured in Pakistan and exported during the twelve-month period which began on January 1, 1982.

(A detailed description of the textile categories in terms of T.S. U.S.A. numbers was published in the **Federal Register** on February 28, 1980 (45 FR 13172), as amended on April 23, 1980 (45 FR 27463), August 12, 1980 (45 FR 53506), December 24, 1980 (45 FR 85142), May 5, 1981 (46 FR 25121), October 5, 1981 (46 FR 48983), October 27, 1981 (46 FR 52409), February 9, 1982 (47 FR 5926), and May 13, 1982 (47 FR 20654).)

SUMMARY: The Bilateral Cotton Textile Agreement of March 9 and 11, 1982, between the Governments of the United States and Pakistan provides, among other things, for percentage increases in certain specific category ceilings during an agreement year (swing) and for the borrowing of designated amounts from the succeeding year's level with the amount used being deducted from the level in the succeeding year (carryforward). Pursuant to the terms of the bilateral agreement, and at the request of the Government of Pakistan, the import restraint level established for Category 331 is being increased to 552,732 dozen pairs for the twelve-month period which began on January 1, 1982 and extends through December 31, 1982.

EFFECTIVE DATE: September 21, 1982.

FOR FURTHER INFORMATION CONTACT: Gordana Slijepcevic, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. 20230 (202/377–4212).

SUPPLEMENTARY INFORMATION: On March 26, 1982 there was published in the **Federal Register** (47 FR 13024) a letter dated March 22, 1982 from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, which established levels of restraint for certain specific categories of cotton textile products, including Category 331, produced or manufactured in Pakistan and exported to the United States during the twelve-month period which began on January 1, 1982 and extends through December 31, 1982. In accordance with the terms of the bilateral agreement and at the request of the Government of Pakistan, the United States Government has agreed to increase the level of restraint for cotton textile products in Category 331 to 552,732 dozen pairs. In the letter published below the Chairman of the Committee for the Implementation of Textile Agreements directs the

Commissioner of Customs to increase that level to the designated amount.

Walter C. Lenahan,

Acting Chairman, Committee for the Implementation of Textile Agreements.

Commissioner of Customs,
Department of the Treasury, Washington, D.C.

Dear Mr. Commissioner: On March 22, 1982, the Chairman, Committee for the Implementation of Textile Agreements, directed you to prohibit entry for consumption, or withdrawal from warehouse for consumption, during the twelve-month period beginning on January 1, 1982 and extending through December 31, 1982 of cotton textile products in certain specified categories, produced or manufactured in Pakistan, in excess of designated levels of restraint. The Chairman further advised you that the levels of restraint are subject to adjustment.[1]

Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 15, 1977 and December 22, 1981; pursuant to the Bilateral Cotton Textile Agreement of March 9 and 11, 1982, between the Governments of the United States and Pakistan; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 6, 1977, you are directed to increase, effective on September 21, 1982, the twelve-month level of restraint established for cotton textile products in Category 331 to 552, 732 dozen pairs.[2]

The action taken with respect to the Government of Pakistan and with respect to imports of cotton textile products from Pakistan has been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, these directions to the Commissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the **Federal Register**.

Sincerely,

Walter C. Lenahan,

Acting Chairman, Committee for the Implementation of Textile Agreements.

[FR Doc. 82-25788 Filed 9-17-82; 8:45 am]

BILLING CODE 3510-25-M

[1] The term "adjustment" refers to those provisions of the Bilateral Cotton Textile Agreement of March 9 and 11, 1982, between the Governments of the United States and Pakistan which provide, in part, that: (1) Within the aggregate and applicable group limits of the agreement, specific levels of restraint may be exceeded by designated percentages; (2) these same levels may be increased for carryover and carryforward; and (3) administrative arrangements or adjustments may be made to resolve minor problems arising in the implementation of the agreement.

[2] The level of restraint has not been adjusted to reflect any imports after December 31, 1981.

COMMODITY FUTURES TRADING COMMISSION

MidAmerica Commodity Exchange Proposed Foreign Currency Futures Contracts

AGENCY: Commodity Futures Trading Commission.

ACTION: Notice of availability of the terms and conditions of proposed commodity futures contracts.

SUMMARY: The MidAmerica Commodity Exchange ("MidAmerica") has applied for designation as a contract market in British pounds, Canadian dollars, Deutsche marks, Japanese yen and Swiss francs (collectively referred to as "foreign currency futures contracts"). The Commission has determined that the terms and conditions of the proposed foreign currency futures contracts are of major economic significance and that, accordingly, making available the proposed contracts for public inspection and comment is in the public interest, will assist the Commission in considering the views of interested persons, and is consistent with the purposes of the Commodity Exchange Act.

DATE: Comments must be received on or before November 19, 1982.

ADDRESS: Interested persons should submit their views and comments to Jane K. Stuckey, Secretary, Commodity Futures Trading Commission, 2033 K Street NW., Washington, D.C. 20581. Reference should be made to the MidAmerica Commodity Exchange foreign currency futures contracts.

FOR FURTHER INFORMATION CONTACT: Ronald Hobson, Division of Economics and Education, Commodity Futures Trading Commission, 2033 K Street NW., Washington, D.C., (202) 254–7303.

A copy of the terms and conditions of the MidAmerica proposed foreign currency futures contracts will be available for inspection at the Office of the Secretariat, Commodity Futures Trading Commission, 2033 K Street NW., Washington, D.C. 20581. Copies of the terms and conditions can be obtained through the Office of the Secretariat by mail at the above address or by phone at (202) 254–6314.

Other materials submitted by the MidAmerica in support of its applications for contract market designation in foreign currencies may be available upon request pursuant to the Freedom of Information Act (5 U.S.C. 552) and the Commission's regulations thereunder (17 CFR Part 145 (1981)). Requests for inspection of such materials should be made to the FOIA, Privacy and Sunshine Acts Compliance Staff of the Office of the Secretariat at the Commission's headquarters in accordance with 17 CFR 145.7 and 145.8.

Any person interested in submitting written data, views or arguments on the terms and conditions of the proposed futures contracts, or with respect to other materials submitted by MidAmerica in support of its application, should send such comments to Jane K. Stuckey, Secretary, Commodity Futures Trading Commission, 2033 K Street NW., Washington, D.C. 20581, by November 19, 1982. Such comment letters will be publicly available except to the extent that they are entitled to confidential treatment as set forth in 17 CFR 145.5 and 145.9.

Issued in Washington, D.C., on September 14, 1982.

Jane K. Stuckey,

Secretary of the Commission.

[FR Doc. 82-25779 Filed 9-17-82; 8:45 am]

BILLING CODE 6351-01-M

DEPARTMENT OF ENERGY

Procurement and Assistance Management Directorate

AGENCY: Energy Department.

ACTION: Amendment of notice of suspension and proposed debarment.

BACKGROUND: One July 9, 1982, the Department of Energy (DOE) issued a notice announcing that DOE had suspended and proposed to debar Daniel P. Ahearne, President, Total Energy Applications Management, Inc. The notice published in the July 23, 1982, **Federal Register** (47 FR 31957) indicated that Mr. Ahearne had been advised that the deadline for submitting a written request for a hearing and a reply to the notice of proposed debarment was August 9, 1982, and that the three-year period of debarment was proposed to begin on August 30, 1982. On July 29, 1982, DOE issued an amendment of the notice of suspension and proposed debarment which extended the deadline for submitting a request for a hearing and a reply to the notice to August 30, 1982, and the effective date of the proposed debarment to September 20, 1982, (47 FR 38391, August 31, 1982). DOE received a timely request for a hearing on August 30, 1982.

AMENDMENT: On June 25, 1982, the Office of Federal Procurement Policy issued Policy Letter No. 82–1 (47 FR 28854 (July 1, 1982)) which provides that a respondent to a pending proposed debarment should be given 30 days to submit any additional information the

contractor considers appropriate in light of the effect of a Government-wide debarment. Accordingly, the deadline for submitting a written response to the proposed debarment has been extended to September 29, 1982; the proposed effective date of the debarment has been advanced to October 19, 1982.

FOR FURTHER INFORMATION CONTACT: Scott Sheffield, Procurement and Assistance Management Directorate, Room 1I-018, Forrestal Building, Department of Energy, 1000 Independence Avenue, SW., Washington, D.C. 20585.

Issued in Washington, D.C., on September 13, 1982.

Hilary J. Rauch,

Director, Procurement and Assistance Management Directorate.

BILLING CODE 6450-01-M

Federal Energy Regulatory Commission

[Docket No. ER82-778-000]

Arizona Public Service Co.; Filing

September 15, 1982.

Take notice that on September 7, 1982, Arizona Public Service Company (Arizona) tendered for filing a Letter Agreement between Arizona and Tucson Electric Power Company (Tucson) terminating Schedules A and B.

Arizona states that these Schedules have been supplanted by the terms of the Inland Power Pool Participation Agreement (IPP, designated as "Public Service of Colorado, Rate Schedule FPC No. 16").

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before September 29, 1982. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 82-25815 Filed 9-17-82; 8:45 am]

BILLING CODE 6717-01-M

[Project No. 2568-000]

Bibb Manufacturing Company, Porterdale Hydroelectric Associates, Inc.; Application for Transfer of License (Minor)

September 15, 1982.

Take notice that Bibb Manufacturing Company, Licensee for the Porterdale Project, and Porterdale Hydroelectric Associates, Inc. have requested that the project license be transferred to Porterdale Hydroelectric Associates, Inc. The Porterdale Project is located on the Yellow River in Newton County, Georgia. The projects installed capacity is 1,200 kilowatts.

Comments, Protests, or Motion To Intervene—Anyone may file comments, a protest, or a motion to intervene in accordance with the requirements of Rules 211 or 214, 18 CFR 385.211 or 385.214, 47 FR 19025-26 (1982). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be filed on or before November 12, 1982.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS," "NOTICE OF INTENT TO FILE COMPETING APPLICATION," "COMPETING APPLICATION," "PROTEST," or "MOTION TO INTERVENE," as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER82-779-000]

Duke Power Co.; Filing

September 15, 1982.

Take notice that Duke Power Company (Duke) tendered for filing on September 7, 1982, a revised Service Schedule to Duke's Interconnection Agreement with Yadkin, Inc. Duke states that this agreement is on file with the Commission and has been designated Duke Rate Schedule FERC No. 11.

Duke further states that revised Service Schedule E Storage Utilization Agreement amends the provisions with respect to the crediting and return of storage energy and also reduces the demand charge component under the Rate Agreement for Supplementary Power and Energy (accepted for filing April 29, 1982 in FERC Docket No. ER82-380-000) between Duke and Yadkin where no energy transactions occur from Duke to Yadkin as a result of a surplus in the storage energy account.

Duke indicates that this revised Service Schedule E dated August 2, 1982 supersedes the prior Service Schedule E dated March 28, 1966. Duke represents that no change in revenues is produced by the modification of storage crediting provisions and that a reduction of revenues occurs as a result of the modification of the contract demand component.

Duke proposes an effective date of December 1, 1981, and therefore requests waiver of the Commission's notice requirements.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before September 29, 1982. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER82-769-000]

Minnesota Power & Light Co.; Filing

September 15, 1982.

Take notice that on September 2, 1982, Minnesota Power & Light Company (Minnesota) tendered for filing proposed Outlet Facilities Agreement No. 3, and proposed System Control and Load Dispatching Agreement (Rate Schedule FERC No. 89, as supplemented), all by and between Minnesota and Cooperative Power Association (CPA).

Minnesota states that the proposed contracts are necessary to account for

and recover costs of additional investment in transmission facilities to transfer power from CPA's present generation facilities to the integrated transmission system.

Minnesota requests an effective date of November 1, 1982.

Copies of the filing were served upon CPA, the United States Department of Agriculture, Rural Electrification Administration and the Minnesota Public Utilities Commission.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before September 29, 1982. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Mountain Fuel Supply Co., Tarriff Sheet Filing

September 14, 1982.

Take notice that on September 1, 1982, Mountain Fuel Supply Company (Mountain Fuel), pursuant to Section 154.62 of the Regulations of the Federal Energy Regulatory Commission (Commission), filed Fifteenth Revised Sheet No. 3-A to its FERC Gas Tariff, Original Volume No. 1 Mountain Fuel states that the filed tariff sheet relates to the Unrecovered Purchased Gas Cost Account of the Purchased Gas Adjustment Provision authorized by Commission order issued February 27, 1976, in Docket No. RP76-64. More specificially, the tariff sheet reflects a net decrease from that currently being collected of $.07475/Mcf for Rate Schedule X-4, a net increase of $.00847/Mcf for Rate Schedule X-5 and a net increase of $.21402/Mcf for Rate Schedule X-20 all to be effective Octover 1, 1982.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 385.211 and 385.214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such petitions or protests should be filed on or before September 22, 1982. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ER82-782-000]

New England Power Pool; Filing

September 15, 1982.

Take notice that on September 7, 1982, the New England Power Pool (NEPOOL) tendered for filing a NEPOOL Agreement dated September 1, 1971, as amended, signed by the Rowley Municipal Light Department. The Rowley Municipal Light Department has its principal office in Rowley, Massachusetts. NEPOOL indicates that the New England Power Pool Agreement has previously been filed with the Commission as a rate schedule (designated NEPOOL FPC No. 1).

NEPOOL requests an effective date of August 1, 1982, and therefore requests waiver of the Commission's notice requirements.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). BILLING CODE 6717-01-M

[Docket No. ER82-771-000]

New York State Electric & Gas Corp.; Filing

September 15, 1982.

Take notice that New York State Electric & Gas Corporation (NYSEG), on August 30, 1982, tendered for filing proposed changes in its transmission agreement with Rochester Gas & Electric Corporation (RG&E) under which NYSEG makes available to RG&E capacity of its transmission system which is surplus to its own requirements for transmission of electricity from the pump-operating unit of the Blenheim-Gilboa Pumped Storage Project of the Power Authority of the State of New York.

NYSEG states that the proposed changes would increase revenues by $201,900.00 based on the twelve-month period ending June 30, 1983.

NYSEG further states that the changes are due to the increase in the investment in transmission plant and increases in the fixed charge rate since the original agreement was initiated in May, 1973.

NYSEG requests an effective date of July 1, 1982, and therefore requests waiver of the Commission's notice requirements.

Copies of this filing have been served RG&E and the Public Service Commission of the State of New York.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before September 29, 1982. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. ER82-777-000]

Niagara Mohawk Power Corp.; Filing

September 15, 1982.

Take notice that on September 7, 1982, Niagara Mohawk Power Corporation (Niagara) tendered for filing as a rate

schedule, an agreement between Niagara and Rochester Gas and Electric Corporation (Rochester) dated July 26, 1982.

Niagara states that it presently has on file an agreement with Rochester dated February 14, 1975. This agreement is designated as Niagara Mohawk Power Corporation Rate Schedule FERC No. 92. This new agreement is being transmitted as a supplement to the existing agreement.

Niagara further states that this supplement revises the transmission rate for transmitting FitzPatrick power and energy from the Power Authority of the State of New York to Rochester as provided for in the terms of the original agreement.

Niagara requests waiver of the Commission's prior notice requirements in order to allow said agreement to become effective as of September 1, 1982.

Copies of this filing were served upon the Rochester Gas and Electric Corporation and the Public Service Commission of the State of New York.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before September 29, 1982. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ES81-63-001]

Pacific Power and Light Co.; Application

September 15, 1982.

Take notice that on September 13, 1982, Pacific Power and Light Company (Pacific) filed an amendment to its application on file with the Federal Energy Regulatory Commission, pursuant to Section 204 of the Federal Power Act, seeking an amendatory order (1) authorizing Pacific to enter into a Loan Agreement with a group of banks pursuant to which it will borrow not more than $75,000,000 [1] for a period of seven years at an adjustable interest rate, and (2) granting Pacific an exemption from competitive bidding pursuant to 18 CFR 34.2(b)(2).

Any person desiring to be heard or to make any protest with reference to this application, as amended, should, on or before October 1, 1982, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with 18 CFR 385.211 or 385.214, respectively. The application, as amended, is on file with the Commission and available for public inspection.

[Docket No. ER82-772-000]

Public Service Company of Indiana, Inc.; Filing

September 15, 1982.

Take notice that Public Service Company of Indiana, Inc. (PSI) on September 3, 1982, tendered for filing a Power Coordination Agreement, between PSI and Wabash Valley Power Association, Inc. (WVPA).

PSI states that the new agreement, based on the transfer of an undivided interest in PSI's Gibson Unit 5 generating facility to WVPA, provides for service schedules under which the parties can have transactions designed to bring about a number of mutual benefits and advantages. The new service schedules are as follows:

(a) Gibson Unit No. 5 Unit Power.

(b) Gibson Unit No. 5 Reserve Capacity.

(c) Firm Capacity.

(d) Replacement Energy.

(e) Interchange Power.

Copies of the filing were served on WVPA and the Public Service Commission of Indiana.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before September 29, 1982. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. ER82-773-000]

Public Service Company of Indiana, Inc.; Filing

September 15, 1982.

Take notice that Public Service Company of Indiana, Inc. (PSI), on September 3, 1982, tendered for filing a Power Coordination Agreement, between PSI and Indiana Municipal Power Agency (IMPA).

PSI states that the new agreement, based on the transfer of an undivided interest in PSI Gibson Unit No. 5 generating facility to IMPA, provides for the service schedules under which the parties can have transactions designed to bring about a number of mutual benefits and avantages. The new service schedules are as follows:

(a) Gibson Unit No. 5 Unit Power.

(b) Gibson Unit No. 5 Reserve Capacity.

(c) Gibson Unit No. 5 Replacement Energy.

(d) Supplemental Power.

(e) Short-Term Power.

(f) Emergency Service.

(g) Interchange Power.

(h) Bulk Transmission System Use.

(i) Common Transmission System Use.

(j) Distribution System Use.

Copies of the filing were served upon IMPA and the Public Service Commission of Indiana

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before September 29, 1982. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file

[1] In the original application as noticed, the authority requested was for "not more than $50,000,000."

with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6717-01-M

[Docket No. TA83-1-41-000 (PGA83-1)]

Southwest Gas Corp.; Change in Rates Pursuant To Purchased Gas Cost Adjustment

September 14, 1982.

Take notice that Southwest Gas Corporation ("Southwest") on September 1, 1982 tendered for filing Fifteenth Revised Sheet No. 10 and Fifth Revised Sheet No. 10A pursuant to Section 9, Purchased Gas Adjustment Clause ("PGA"), of the General Terms and Conditions contained in its FERC Gas Tariff, Original Volume No. 1. The purpose of said filing is to reflect an increase in rates occasioned by an increase in rates from Southwest's northern Nevada sole supplier of gas, Northwest Pipeline Corporation, effective October 1, 1982. The proposed increase in rates is October 1, 1982.

Southwest states that a copy of this filing has been mailed to the Nevada Public Service Commission, the California Public Utilities Commission, Sierra Pacific Power Company and CP national.

Any person desiring to be heard, or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 385.211 and 385.214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such petitions or protests should be filed on or before September 22, 1982. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[Docket No. ER82-774-000]

Tapoco, Inc.; Filing

September 15, 1982.

Take notice that on September 3, 1982, Tapoco, Inc. (Tapoco) tendered for filing a Notice of Termination stating that effective the 31st day of December 1982, the following Rate Schedules, and Supplements, Exhibits and Revisions to Rate Schedules, filed with the Federal Energy Regulatory Commission by Tapoco, are to be cancelled:

FERC Rate Schedule, Designation	Filing or effective date
1. Rate Schedule 3	Nov. 3, 1966.
2. Supplement 1 to Rate Schedule 3.	Oct. 31, 1968.
3. Supplement 2 to Rate Schedule 3.	Effective June 1, 1971.
4. Supplement 3 to Rate Schedule 3.	Designated by FERC Order on Aug. 20, 1981 in Docket No. ER81-581-000.
5. Supplement 1 to Supplement 3 Rate Schedule 3.	Designated by FERC Order on Aug. 28, 1981 in Docket No. ER81-581-000.
6. Supplement 4 to Rate Schedule 3.	Effective July 1, 1981.
7. Exhibit A to Rate Schedule 4.	Filed on Aug. 1, 1966.
8. Supplement 1 to Exhibit A to Rate Schedule 4.	Filed on Jan. 30, 1969.
9. Revison to Exhibit A to Rate Schedule 4.	Filed on Oct. 26, 1981.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before September 29, 1982. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. CP82-512-000]

Tennessee Gas Pipeline Company, a Division of Tenneco Inc., and East Tennessee Natural Gas Company; Application

September 14, 1982.

Take notice that on August 26, 1982, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee), P.O. Box 2511, Houston, Texas 77001, and East Tennessee Natural Gas Company (East Tennessee), P.O. Box 10245, Knoxville, Tennessee 37919, filed in Docket No. CP82-512-000 a joint application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation and exchange of natural gas to effectuate a direct sale by East Tennessee to Houston Lighting and Power Company (HL&P), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Pursuant to an agreement dated August 25, 1982, Tennessee has agreed to transport and exchange with East Tennessee up to 100,000 Mcf of natural gas per day that East Tennessee has arranged to sell to HL&P through October 31, 1982. Tennessee proposes to receive gas to be sold to HL&P at an existing interconnection between Tennessee and East Tennessee at Greenbrier in Robertson County, Tennessee, for delivery by displacement to Channel Industries Gas Company (Channel) for East Tennessee's account, at an existing interconnection between Tennessee and Channel at Sabine in Newton County, Texas, or at Agua Dulce in Nueces County, Texas. Channel would transport the gas for delivery to Energy Gathering Inc. (EGI) at Cedar Bayou, Chambers County, Texas, which would then deliver the gas to HL&P.

In return for such service, East Tennessee proposes to transport and exchange with Tennessee identical volumes of natural gas purchased by Tennessee from producers in East Tennessee's service area. Applicants state that these volumes are now being delivered by displacement to Tennessee at Greenbrier under East Tennessee's Order No. 60 blanket transportation certificate. If the authorization requested herein is issued, East Tennessee would terminate the Order No. 60 transportation in favor of the proposed exchange service. The proposed exchange service by both Tennessee and East Tennessee would be rendered without charge to either party.

In addition, Applicants state that East Tennessee currently transports gas that is purchased by Tennessee under six separate gas purchase contracts. In order to allow flexibility in transporting and exchanging Tennessee's future increased gas supplies, East Tennessee requests blanket authorization to transport and exchange such new supplies as they become available. East Tennessee states that it would promptly notify the Commission each time an additional delivery point into East Tennessee's system is placed in service.

Applicants aver that no new facilities

would be constructed as a result of approval of this application.

Applicants assert that the subject proposal would be beneficial to each since it would provide the means to transport and exchange gas on an economical basis without the construction and operation of additional and duplicative facilities. Further, it is maintained that the arrangement would enable the sale of gas by East Tennessee to HL&P which in turn benefits East Tennessee's customers through their avoidance of minimum bill charges.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 28, 1982, filed with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 82-25813 Filed 9-17-82; 8:45 am]

BILLING CODE 6717-01-M

[Docket No. TA82-2-56-002 (PGA82-1)]

Valero Interstate Transmission Co.; Proposed Change in FERC Gas Tariff

September 13, 1982.

Take notice that on August 13, 1982 Valero Interstate Transmission Company (Vitco) tendered for filing the following material in compliance with Ordering Paragraph (B) of the Federal Energy Regulatory Commission Order issued May 28, 1982:

1. Original Supplement No. 114 (purchased gas cost adjustment) 2nd Revised Exhibit "A" to Vitco's FERC Rate Schedule No. 2 for the sale of gas to Transcontinental Gas Pipe Line Corporation ("Transco"), for the period from June 1, 1982 through June 17, 1982;

2. Substitute Supplement No. 113, 2nd Revised Exhibit "A" to Vitco's FERC Rate Schedule No. 2 for the sale of gas to Transco, for the period beginning June 18, 1982;

3. (Transco) 2nd Revised Attachment 2, Page 1(a), 1(b) and Revised Attachment 2, Page 1(c);

4. Original Supplement No. 9 (purchased gas cost adjustment), Revised Exhibit "A" to Vitco's FERC Rate Schedule No. 14 for the sale of gas to El Paso Natural Gas Company (El Paso), for the period from June 1, 1982 through June 17, 1982;

5. Substitute Supplement No. 7, Revised Exhibit "A" to Vitco's FERC Rate Schedule No. 14 for the sale of gas to El Paso, for the period beginning June 18, 1982;

6. (El Paso) Revised Attachment 2, Pages 1(a), 1(b) and 1(c);

7. Original Supplement No. 37, (Purchased Gas Cost Adjustment), Exhibit "A" to Vitco's FERC Rate Schedule No. 1 for the sale of gas to Natural Gas Pipeline Company of America ("NGPL") for the period from June 1, 1982 through June 17, 1982;

8. Substitute Supplement No. 36, Exhibit "A" to Vitco's FERC Rate Schedule No. 1 for the sale of gas to NGPL, for the period beginning June 18, 1982; and

9. (NGPL) 2nd Revised Attachment 2, Pages 1(a), 1(b) and Revised Attachment 2, Page 1(c).

Vitco states that the above-listed material is similar to that filed with the Commission on June 28, 1982 and incorporates all changes suggested by the Commission Staff after their review.

Furthermore, Vitco refiled data initially filed on June 28, 1982 in compliance with Ordering Paragraph (C) of the Commission Order issued May 28, 1982. In addition, based on the Staff's review of this material Vitco has agreed to reflect in the PGA filing to be effective December 1, 1982 changes related to:

1. Adjustment discussed to exclude from Account 191 the effect of net exchange gas on current cost of gas calculations; and

2. The changes discussed concerning the reflection of the amortization of carrying charges on a monthly basis before computing the interest (carrying charges) each month.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protect with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Rule 211 or 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, .214). All such petitions or protests should be filed on or before September 24, 1982. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Assistant Secretary.

BILLING CODE 6717-01-M

[Docket No. ER82-770-000]

Virginia Electric and Power Co.; Filing

September 15, 1982.

Take notice that on September 2, 1982, the Virginia Electric and Power Company (VEPCO) tendered for filing a supplemental contract which make some changes in the description of the location of the delivery point for Lighthouse Delivery Point of Cape Hatteras Electric Membership Corporation.

VEPCO states that this supplement supercedes Supplement B-1 dated April 10, 1967.

VEPCO further states that no changes other than the description of the delivery point location have been made.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.215). All such motions or protests should be filed on or before September 29, 1982. Protests will be considered by the Commission in determining the appropriate action to be taken, but will

not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

[Docket No. ER82-780-000]

Washington Water Power Co.; Filing

September 15, 1982.

Take notice that on September 7, 1982, Washington Water Power Company (Washington) tendered for filing copies of a service schedule applicable to what Washington refers to as the Intercompany Pool Agreement (Revised) and its First Amendment. An additional signatory utility Sierra Pacific Power Company, has been included.

Washington requests an effective date of August 1, 1982, and therefore requests waiver of the Commission's notice requirements.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). All such motions or protests should be filed on or before September 29, 1982. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

Western Area Power Administration

Boulder City Area Projects—Public Comment Forum; Withdrawal of Request for Applications for Power

AGENCY: Western Area Power Administration, DOE.

ACTION: Announcement of Public Comment Forum and Notice of Withdrawal of the Notice of Request for Applications for Power from Boulder City Area Projects published in the **Federal Register** on August 24, 1982 (Vol. 47, No. 164, Page 37073).

SUMMARY: The Western Area Power Administration (Western) has scheduled a public comment forum to hear comments concerning the Proposed General Consolidated Power Marketing Criteria or Regulations for Boulder City Area Projects—Revision (Criteria) that was published in the **Federal Register** on August 24, 1982 (Vol. 47, No. 164, Pages 36946–36957). Western also withdraws its Notice of Request for Applications for Power from Boulder City Area Projects which was published on the same date in the **Federal Register** (Vol. 47, No. 164, Page 37073).

DATES AND LOCATION: An opportunity will be given all interested parties to present written or oral statements concerning the proposed Criteria at a public comment forum to be held at the Showboat Hotel, Natchez Room in Los Vegas, Nevada, on November 23, 1982, beginning at 9 a.m. The public comment forum will be held in accordance with the Administrative Procedures Act and the Department of Energy Organization Act and will not be adjudicatory in nature. If an entity does not want to present written comments at the public comment forum, the comments may be mailed to the address given below. All comments must be received at this address on or before December 15, 1982, in order to be considered in the preparation of the final Criteria.

Withdrawal of the Notice of Request for Applications for Power from Boulder City Area Projects is effective immediately.

FOR FURTHER INFORMATION CONTACT: Mr. Robert A. Olson, Area Manager, Boulder City Area Office, Western Area Power Administration, P.O. Box 200, Boulder City, NV 89005, (702) 293–8800.

SUPPLEMENTARY INFORMATION: Western's Boulder City Area Office has conducted an extensive public process to develop the Proposed General Consolidated Power Marketing Criteria or Regulations for Boulder City Area Projects (Criteria) which Western published in the **Federal Register** on September 22, 1981 (Vol. 46, No. 183, Pages 46864–46874). Due to the comments received, Western published a revised Criteria for further public comment on August 24, 1982 (Vol. 47, No. 164, Pages 36946–36957.

The public comment forum to be held on November 23, 1982, will again afford all interested parties the opportunity to present comments and data to Western regarding the revised Criteria.

Entities who desire to present oral comments and data are required to notify Western's Boulder City Area Office at the preceding address on or before November 19, 1982, so that a list of speakers can be prepared. The speakers will be called in the order in which their requests are received. After all scheduled speakers are heard, other attendees will be allowed to present their views. Speakers are requested to limit their remarks to 30 minutes in which to present the statement of the entity they are representing.

Any entity desiring a copy of the transcript of the public comment forum should make arrangements with the court reporter.

Withdrawal Notice

Subsequent to the publication of the Notice of Request for Applications for Power from Boulder City Area Projects, several entities have informed Western of the difficulty that they would have in meeting certain requirements set forth in the Request for Applications for Power from Boulder City Area Projects by the October 1, 1982, deadline for receipt of applications. Therefore, because of the unintended burden of the time constraint, Western hereby withdraws its August 24, 1982, Notice of Request for Applications for Power from Boulder City Area Projects. Western will publish a revised Notice of Request for Applications for Power from Boulder City Area Projects after the proposed Criteria is published as a final Criteria in the **Federal Register.**

Issued at Golden, Colorado, September 13, 1982.

Robert L. McPhail,

Administrator.

BILLING CODE 6712-01-M

[Report No. 17100; BC Docket No. 82-564]

Inquiry Initiated on FCC Interpretation of Equal Time Requirements; Action in Docket Case

July 26, 1982.

An inquiry looking toward a new interpretation of the Communications Act requiring broadcast licensees to provide equal opportunities for political candidates has been initated by the Commission.

Specifically, the FCC said it was seeking comment on whether broadcasts of debates between legally qualified candidates, arranged and sponsored by a broadcast licensee, should be considered "on-the-spot coverage of bona fide news events" and thus exempt from equal time opportunities.

Additionally, the Commission said it was soliciting comments on whether broadcasts or rebroadcasts of bona fide news events, including exempt debates, should be exempt from the equal opportunity requirements even if broadcast later than the day after the event. And, if so, the Commission asked if it should establish a period of time during which the broadcast of such an event retains its exemption, or whether a good faith standard should be used.

Currently, to qualify for exemption from the equal opportunity requirements a debate must be:

—Arranged and sponsored by a party other than the broadcaster;

—Broadcast in its entirety, live or no later than the day following the event; and

—Covered by the broadcaster because of its reasonable, good faith judgment, that the debate is newsworthy and not for the purpose of giving a political advantage to any candidate.

The Commission also requested comments regarding interpretation of the "bona fide news documentary" exemption from equal opportunities considerations. The statute exempts such documentaries where the appearance of the candidate is "incidental" to the topic addressed in the documentary. Petitioners asserted that candidates' appearances in such documentaries may be "significant as to nature and amount" and remain "incidental."

The inquiry was initiated in response to a petition by Henry Geller seeking issuance of a more liberal interpretation of the equal time rules. Supporting petitions were filed by the national Association of Broadcasters, Radio-Television News Directors Association, Public Broadcating Service, and National Broadcasting Company, Inc.

Regarding the notice of inquiry, the FCC said it will give careful consideration to all suggestions regarding implementation of the equal time rules with respect to broadcast debates and documentaries, and that the inquiry was not necessarily limited to the delineated issues.

Comments are due by October 15, 1982 and replies by November 15, 1982.

Action by the Commission July 22, 1982, by Notice of Inquiry (FCC 82-347). Commissioners Fowler (Chairman), Quello, Washburn, Jones, Dawson and Rivera, with Commissioner Fogarty voting later by circulation.

For more information contact Richard Kalb at (202) 632-7586.

Note.—Because of the continuing effort to minimize publishing costs, the Notice of Inquiry will not be printed herein. However, copies are available through the distribution centers listed in the FCC Office of Public Affairs, Rm. 202, 1919 M St., N.W., Washington, D.C. 20554, (202) 254-7674. A copy is also available for inspection in the FCC Dockets Branch, Rm. 239 and the FCC Library, Rm. 639, both located at 1919 M St., NW.

William J. Tricarico,

Secretary, Federal Communications Commission.

BILLING CODE 6712-01-M

FEDERAL FINANCIAL INSTITUTIONS EXAMINATION COUNCIL

Fair Lending and Community Reinvestment

AGENCY: Federal Financial Institutions Examination Council.

ACTION: Notice of request for comments.

SUMMARY: In Section 340(e) of the Housing and Community Development Act of 1980 (12 U.S.C. 2803), Congress assigned several responsibilities to the Examination Council in connection with the agencies' supervisory activities relating to the Community Reinvestment Act, the Home Mortgage Disclosure Act (HMDA), and the fair housing lending provisions of the Equal Credit Opportunity Act and the Fair Housing Act.

To promote efficiency and avoid duplication to the maximum extent feasible, the Federal Financial Institutions Examination Council shall transmit a report to the Congress not later than September 30, 1982, on the feasibility and desirability of establishing a unified system for enforcing fair lending laws and regulations, implementing the Community Reinvestment Act of 1977, and satisfying the public disclosure purposes of the Home Mortgage Disclosure Act of 1975. Such report shall evaluate the status and effectiveness of data collection and analysis systems of such agencies involving fair lending and community reinvestment, and shall outline possible specific timetables for implementing such a unified system.

The emphasis in this legislation is on improved efficiency, while maintaining the effectiveness of the supervisory process. To assist it in this assignment, the Council contracted with JRB Associates of McLean, Virginia, to study the various approaches in use at the five agencies represented on the Council and to make recommendations on the matters addressed in the legislation.

The study by JRB Associates has been completed and has been forwarded to the Congress. In general, the study concludes that a unified system for assisting the agencies in meeting their obligations under the laws referred to in Section 340(e) is feasible. The system recommended in the study would, in the judgement of JRB Associates, reduce costs to depository institutions and improve the information available to the agencies.

Several of the recommendations contained in the JRB study involve statutory, regulatory or procedural changes that could have a significant effect upon depository institutions and the users of data derived from HMDA reports and the agencies' fair housing lending data systems. Therefore, the Examination Council is seeking public comment, for a 60-day period, on the key issues raised by the JRB Study and its recommendations. A number of community and consumer organizations and industry associations have asked the Council to provide an opportunity for comment. After an analysis of comments, the Council will consider what recommendations it should make in this area to the Congress and to the agencies represented on the Council.

DATE: Comments should be received on or before November 29, 1982.

ADDRESS: Comments should be sent to Robert J. Lawrence, Executive Secretary, Federal Financial Institutions Examination Council, Eighth Floor, L'Enfant Plaza, SW., Washington, D.C. 20219.

FOR FURTHER INFORMATION CONTACT: Ms. Louise Kotoshirodo, Consumer Examinations Analyst, Federal

Financial Institutions Examination Council, Washington, D.C. 20219; (202) 287–4210.

SUPPLEMENTARY INFORMATION: The JRB study recommends development and implementation of a unified data submission and processing system, across the five constituent agencies of the Council, for meeting the disclosure requirements of HMDA and the first-stage requirements associated with the enforcement of fair housing lending statutes and regulations.

Under the system recommended in the study, a "tally sheet" would be completed by each decision center of covered depository institutions for each census tract from which it received housing-related loan applications. Check marks for each appropriate category for a single application would be recorded on one line of the first tally sheet. The result would show, by a simple check mark system, the HMDA loan category, the race, sex, and marital status of the applicants for loans that are approved, and the same information for applications that are rejected or withdrawn. A count of the check marks in each column would provide the needed information for loan applications from a single census tract. The total figures along the bottom of the first tally sheet would then be entered by each lending institution's decision centers on a single line of a second tally sheet—one line per census tract.

The second tally sheet for an institution's decision centers would be submitted to the appropriate federal supervisory agency on a schedule established by the agency, and this tally sheet procedure would replace the current requirement for depository institutions to complete the HMDA–1 form. The federal agencies would assume responsibilities for the processing of the information on these tally sheets.

From this information the agencies would produce HMDA disclosure reports for each depository institution, and the HMDA data aggregation reports that the Examination Council is required by statute to prepare. In addition, the agencies would produce fair lending analysis sheets for each covered depository institution. These would be used by agency examiners as they check for fair housing lending compliance and for the institution's performance under the criteria established by the Community Reinvestment Act and its implementing regulations. There analysis sheets would portray for examiners the board lending patterns of an institution. They would show the geographical distribution of the institution's housing-related loans and the race, sex, and marital status of the institution's loan applicants. They would also show the approvals and denials of loan applications by census tract and by loan applicant characteristics. This general analytical approach is similar to the one currently used by the Federal Home Loan Bank Board.

Request for Comment on Specific Issues

Proposed Amendment to HMDA

Implementation of JRB's recommendations would require an amendment to HMDA to eliminate the current requirement that institutions collect and submit data on dollar amounts of housing-related loans by census tract. The proposed amendment would also add a requirement for submission of information on all housing-related loan applications, whether approved, rejected, or withdrawn. JRB supports this proposal as follows:

* * * From the total dollar amounts, one can only compute the average loan amounts for a given census tract; no determination can be made of the characteristics of the recipients, nor of the reasons for a difference in average loan amounts among various census tracts. The differences in average loan amounts for various census tracts are likely to result from the differences in the value of the residential property in those census tracts. Thus, giving up loan amounts to obtain data on the disposition of all applications appears, on balance, to be a reasonable trade-off from the standpoint of usefulness in public disclosure and in compliance examinations.

The Council seeks comment on this proposed amendment to HMDA.

2. JRB Recommendations on Recordkeeping and Reporting by Institutions

Implementation of the JRB recommendations would involve replacement of existing institutional recordkeeping and reporting requirements for HMDA and for the first-stage monitoring of fair housing lending, such as the LAR/DSR for savings and loan associations and the log sheets required by the FDIC, with the proposed tally sheet procedure described in the above summary of recommendations of the JRB study. The output from the proposed unified processing system would be that indicated in the attachments referred to above.

The Council solicits comments on these JRB recommendations.

3. Impact of Implementing the JRB Recommendations on Compliance Costs for Institutions

JRB concluded that the proposed tally sheet procedures would reduce compliance costs for institutions. The Council seeks an assessment by institutions as to whether substitution of the tally sheet procedures for the existing HMDA and first-stage fair housing lending monitoring procedures would reduce or increase their costs. Specific dollar estimates of impact and a description of the methods by which they derived would be especially useful.

4. Appropriate Coverage for Institutions

HMDA covers those depository institutions engaged in making housing-related loans with assets of $10 million or more and with at least one office within an SMSA. Current recordkeeping and data submission requirements of the OCC and the FHLBB fair housing lending regulations apply to some non-HMDA institutions and to most but not all HMDA institutions. The Council seeks comment on the appropriate institutional coverage were the proposed unified system to be implemented.

5. Characteristics of Loan Applicants: Observational Data

The fair housing lending regulations of the OCC, FDIC, and FHLBB currently require that covered institutions record data on race and sex of applicants drawn from observation in those instances in which applicants do not supply such information. The FRB and the NCUA do not have a similar requirement. In the absence of the observational data notation requirement, it is estimated that data gaps exist for about 15 percent of applications.

The Council seeks views on how important this requirement is for fair housing lending enforcement. Respondents should evaluate the tradeoff involved in filling data gaps with observational information and the possible invasion of privacy of loan applicants who prefer not to supply such information. Also, there is a likelihood that some observational data will be inaccurate.

6. Public Disclosure of Fair Housing Lending Data

The proposed unified processing system would generate both HMDA disclosure reports and fair housing lending analysis sheets for each covered institution. The JRB study raises the question of whether the analysis sheets should also be subject to public disclosure. The study notes:

These data (in the analysis sheets) are likely to show instances of disproportionate rejection rates among the various categories. While this information is useful in focussing examiner's efforts, it could mislead public groups to reach unwarranted conclusions regarding possible discrimination. Consequently, the agencies should weigh this issue carefully in deciding whether or not to disclose these particular results.

The Council welcomes comment on this issue.

7. Purchased Residential Loans

The JRB tally sheets as presented do not provide for disclosure of mortgage and home improvement loans *purchased* by covered institutions. Disclosure of such data is currently required by HMDA. The Council requests comments on the usefulness of purchased loan data and the burdens associated with providing it.

Alternative Automated System

The current automated data systems of the FDIC (COMPASS) and the OCC (FHHLDS) have a different approach than the system proposed by JRB; by computer analysis of financial information about individual applicants, the systems select for on-site review a sample of individual applications that appear to have been treated differently than others, perhaps as a result of discrimination. Thus under the OCC and the FDIC systems, individuals who may have been subject to discrimination may be identified.

JRB recommends its system as a "first-stage" monitoring effort, with analysis of more detailed application data to be left to the discretion of the agencies. The Council seeks comment on the value of microlevel systems such as those of the FDIC and the OCC for targeting examination efforts.

Dated: September 15, 1982.

Robert J. Lawrence

Executive Secretary, Federal Financial Institutions Examination Council.

FEDERAL MARITIME COMMISSION

Security for the Protection of the Public; Financial Responsibility To Meet Liability Incurred for Death or Injury to Passengers or Other Persons on Voyages; Issuance of Certificate [Casualty]

Notice is hereby given that the following have been issued a Certificate of Financial Responsibility to Meet Liability Incurred for Death or Injury to Passengers or Other Persons on Voyages pursuant to the provisions of Section 2, Pub. L. 89-777 (80 Stat. 1356, 1357) and Federal Maritime Commission General Order 20, as amended (46 CFR Part 540): Royal Caribbean Cruise Line A/S et al., c/o Royal Caribbean Cruise Line, 903 South America Way, Miami, Florida 33132.

Dated: September 14, 1982.

Francis C. Hurney,

Secretary.

[FR Doc. 82-25690 Filed 9-17-82; 8:45 am]

BILLING CODE 6730-01-M

Agreements Filed

The Federal Maritime Commission hereby gives notice that the following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of each of the agreements and the justifications offered therefor at the Washington Office of the Federal Maritime Commission, 1100 L Street, NW., Room 10327; or may inspect the agreements at the Field Offices located at New York, N.Y.; New Orleans, Louisiana; San Francisco, California; Chicago, Illinois; and San Juan, Puerto Rico. Interested parties may submit comments on each agreement, including requests for hearing, to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after the date of the **Federal Register** in which this notice appears. Comments should include facts and arguments concerning the approval, modification, or disapproval of the proposed agreement. Comments shall discuss with particularity allegations that the agreement is unjustly discriminatory or unfair as between carriers, shippers, exporters, importers, or ports, or between exporters from the United States and their foreign competitors, or operates to the detriment of the commerce of the United States, or is contrary to the public interest, or is in violation of the Act.

A copy of any comments should also be forwarded to the party filing the agreements and the statement should indicate that this has been done.

Agreement No. T-4068.

Filing Party: Nestor D. Ramirez Cuebas, General Counsel, Ports Authority, Commonwealth of Puerto Rico, G.P.O. Box 2829, San Juan, Puerto Rico 00936.

Summary: Agreement No. T-4068 between the Puerto Rico Ports Authority (Authority) and International Shipping Agency, Inc. (ISA) provides for the preferential use of facilities at Pier 11, San Juan, Puerto Rico. ISA shall use the premises for berthing of sea-going vessels, loading and discharging vessels, the temporary storage of outbound and inbound cargo and supplies, and for the handling of passengers. ISA in addition to the rentals provided for in the agreement, shall also pay to the Authority wharfage and dockage charges or a minimum annual payment of $125,000 whichever is higher. Any services rendered by the Authority to ISA, not mentioned in the agreement, shall be charged according to the Authority's port tariffs. The term of the agreement is for 3 years.

Agreement No. 10044-7.

Filing party: R. J. Finnan, Chief Tariff Publishing Officer, Lykes Bros. Steamship Co., Inc., 300 Poydras Street, New Orleans, Louisiana 70130.

Summary: Agreement No. 10044-7, between Compania Peruana de Vapores and Lykes Bros. Steamship Co., Inc., amends the parties' basic cargo revenue pooling, sailing, and equal access agreement in the southbound United States Gulf/Peru trades. The purpose of the amendment is to extend the termination date of the parties' basic agreement from December 31, 1982 to december 31, 1987.

Agreement No. 10364-1.

Filing parties:

John M. Ridlon, Senior Counsel, Sea-Land Industries, Inc., P.O. Box 800, Iselin, New Jersey 08830

Donald J. Brunner, Counsel for Hanjin Container Lines, Ltd., 1101 Fourteenth Street, N.W., Suite 1000, Washington, D.C. 20005

Summary: Agreement No. 10364-1 amends the basic agreement between Sea-Land Service, Inc. and Hanjin Container Lines, Ltd., which provides for the reciprocal chartering of container slots on a space-available basis between U.S. West Coast ports and ports in Japan and Korea. The purpose of the amendment is to extend the agreement's termination date from January 8, 1983 to January 8, 1986.

Agreements Nos. 10457 and 10458.

Filing party: Charles F. Warren, Esq., Warren & Associates, P.C., 1100 Connecticut Avenue, NW., Washington, D.C. 20036.

Summary: Agreement No. 10457 is a cooperative working arrangement between Korea Marine Transport Co., Ltd. (KMTC) and Nippon Yusen Kaisha (NYK) applicable to the trades between Korea, Taiwan and Hong Hong and the Pacific Coast of the United States, including Hawaii and Alaska. The agreement provides that the parties will operate three containership vessels between ports in these trades, and such

other vessels as they may subsequently agree to operate under the agreement. In addition, vessels may call at Japanese ports to load and discharge KMTC's Japanese cargo. KMTC will contribute two vessels and NYK will contribute one vessel, and the parties will schedule and advertise their sailings in these trades as to promote optimum vessels utilization. While the agreement applies to cargo placed in containers for shipment on the parties' container vessels, it does not preclude the parties from carrying other available cargo on their own vessels. The parties will operate their own respective common carrier services, issuing their own separate bills of lading. KMTC will act as NYK's agent in Korea and NYK will act as KMTC's agent in the United States, including such technical operational assistance as KMTC may require. The parties will ship their loaded and empty containers (including container which they own, lease or control) on their own vessels and on each other's vessels, chartering space to and from each other on terms as they may agree. They may also charter and/or subcharter no more than 780 TEU's per calendar month to Showa Line, Ltd., (Showa) (Showa is not a signatory to Agreement No. 10457) however, any continuing charter agreement with Showa will not be implemented without prior FMC approval (see Agreement No. 10458, below). The parties may load or discharge cargo, regardless of its origin or destination, on or from the vessels which they employ for direct calls within these trades, provided that any transshipment arrangements they may individually conclude with other carriers will be filed with the FMC as may be necessary. The parties will pool and share equally in the revenues they derive from the transportation of the containerized cargo carried in their vessels under the agreement which originates at or is destined to Korea. Excluded are any revenues derived by the parties in any trades other than Korea. The agreement also provides that the parties may interchange their empty containers and/or related equipment. The agreement shall terminate on the fifth anniversary of its effectiveness, however, either party may withdraw from the agreement upon ninety days' prior notice. Upon approval of Agreement No. 10457, Agreement No. 10332, as amended, (which is also between KMTC and NYK) will terminate.

Agreement No. 10458, among KMTC, NYK and Showa, provides that KMTC and NYK will subcharter to Showa space not to exceed 780 TEU's per month on the vessels they are authorized to operate in the trades covered by Agreement No. 10457, above. The agreement's term will commence upon the termination of FMC Agreement No. 10332, as amended, and will expire upon the termination of Agreement No. 10457. Showa will issue its own bills of lading for the cargo (including transshipment cargo) and will be responsible to its own customers for delivery, care and carriage of the cargo carried pursuant to the agreement.

By Order of the Federal Maritime Commission.

Dated: September 15, 1982.

Francis C. Hurney,

Secretary.

BILLING CODE 6730-01-M

[Amdt. No. 2 to Commission Order No. 1 (Revised)]

Organization and Functions of the Federal Maritime Commission

Commission Order No. 1 is hereby amended as follows:

1. Amend section 3 by:

a. Revising section 3(5) to read:

(5) Office of the Secretary.

a. Office of Informal Inquiries and Complaints.

(b) Deleting section 3(12);

(c) Renumbering sections 3(13)–3(19) as sections 3(12)–3(18).

2. Amend section 4.05 to read:

4.05 The *Office of Informal Inquiries and Complaints* reports to the Secretary on the progress and status of informal inquiries and complaints received by the Commission from the public.

3. Amend section 5.12 to read:

5.12 The *Office of Informal Inquiries and Complaints.*

1. Advises the Commission, through the Secretary, on significant public interest in current and proposed Commission policies, programs and decisions.

2. Receives, coordinates and responds to informal inquiries, complaints, suggestions and expressions of concern from the public and contacts carriers, conferences and other persons to effect solutions.

3. Works in conjunction with the public relations activity to publicize Commission policies, programs and activities of interest to the shipping public.

4. Serves as liaison with the President's Special Assistant for Consumer Affairs.

4. Amend section 5.19(4) to read:

(4) Receive and resolve informal inquiries and complaints in coordination with the Director, Office of Informal Inquiries and Complaints;

5. Amend section 13.05(6) to read:

(6) Office of Informal Inquiries and Complaints.

Dated: September 13, 1982.

Alan Green, Jr.,

Chairman.

FEDERAL RESERVE SYSTEM

Acquisition of Bank Shares by a Bank Holding Company

The company listed in this notice has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire voting shares or assets of a bank. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors, or at the Federal Reserve Bank indicated. With respect to the application, interested persons may express their views in writing to the address indicated. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

A. Federal Reserve Bank of Kansas City (Thomas M. Hoenig, Vice President) 925 Grand Avenue, Kansas City, Missouri 64198:

1. *First Midwest Bancorp., Inc.*, St. Joseph, Missouri; to acquire 90 percent of the voting shares or assets of The Farmers Bank of Maysville, Maysville, Missouri. Comments on this application must be received not later than October 13, 1982

Board of Governors of the Federal Reserve System, September 14, 1982.

Dolores S. Smith,

Assitant Secretary of the Board.

Fuji Bank, Limited; Corporation to Do Business Under Section 25(a) of the Federal Reserve Act

An application has been submitted for the Board's approval of the organization of a corporation to do business under section 25(a) of the Federal Reserve Act ("Edge Corporation"), to be known as Fuji Bank International, Inc., San Francisco. Fuji Bank International, Inc. would operate as a subsidiary of The Fuji Bank, Limited, Tokyo, Japan. The factors that are considered in acting on the application are set forth in § 211.4(a) of the Board's Regulation K (12 CFR 211.4(a)).

The application may be inspected at the Offices of the Board of Governors or at the Federal Reserve Bank of New York. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 to be received no later than October 14, 1982. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identify specifically any questions of fact that are in dispute and summarize the evidence that would be presented at a hearing.

BILLING CODE 6210-01-M

Third National Corp.; Acquisition of Bank

Third National Corporation, Nashville, Tennessee, has applied for the Board's approval under section 3(a)(5) of the Bank Holding Company Act (12 U.S.C. 1842(a)(5)) to merge with Ancorp Bancshares, Inc., Chattanooga, Tennessee. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Third National Corporation, Nashville, Tennessee, is also engaged in the following nonbank activities: consumer finance, mortgage banking, leasing, and acting as an underwriter for credit life, health, and accident insurance. In addition to the factors considered under section 3 of the Act (banking factors), the Board will consider the proposal in the light of the company's nonbanking activities and the provisions and prohibitions in section 4 of the Act (12 U.S.C. 1843).

The application may be inspected at the offices of the Board of Governors or the Federal Reserve Bank of Atlanta. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than October 14, 1982. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Board of Governors of the Federal Reserve System, September 14, 1982.

Dolores S. Smith,

Assistant Secretary of the Board.

[FR Doc. 82-25701 Filed 9-17-82; 8:45 am]

BILLING CODE 6210-01-M

Third National Corp.; Proposed Acquisition of Ancorp Insurance Company

Third National Corporation, Nashville, T4Tennessee, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to acquire voting shares of Ancorp Insurance Company, Chattanooga, Tennessee.

Applicant states that the proposed subsidiary would engage in the activities of acting as an underwriter for credit life and credit accident and health insurance. These activities would be performed from offices of Applicant's subsidiary in Chattanooga, Tennessee, and the geographic areas to be served are Hamilton, Washington and Carter Counties in Tennessee and Walker county in Georgia. Such activities have been specified by the Board § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

The application may be inspected at the offices of the Board of Governors or

at the Federal Reserve Bank of Atlanta.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than October 14, 1982.

Board of Governors of the Federal Reserve System, September 14, 1982.

Dolores S. Smith,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

United Bancorporation of Wyoming, Inc.; Proposed Acquisition of Jackson State Insurance Agency

United Bancorporation of Wyoming, Inc., Jackson, Wyoming, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C 1843(c)(8) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)), for permission to acquire voting shares of Jackson State Insurance Agency, Jackson, Wyoming.

Applicant states that the proposed subsidiary would engage in the activities of a general insurance agency in a town with a population of less than 5,000 persons. These activities would be performed from offices of Applicant's subsidiary in Jackson, Wyoming, and the geographic area to be served is Jackson, Wyoming. Such activities have been specified by the Board in 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City.

Any person wishing to comment on the application should submit views in writing to the Reserve Bank to be received no later than October 13, 1982.

Board of Governors of the Federal Reserve System, September 13, 1982.

BILLING CODE 6210-01-M

FEDERAL TRADE COMMISSION

Early Termination of the Waiting Period of the Premerger Notification Rules; Occidental Petroleum Corp.

AGENCY: Federal Trade Commission.

ACTION: Granting of request for early termination of the waiting period of the premerger notification rules.

SUMMARY: Occidental Petroleum Corporation is granted early termination of the waiting period provided by law and the premerger notification rules with respect to the proposed acquisition of certain voting securities of Cities Service Company, Colonial Pipeline Company and CLAM Petroleum Company. The grant was made by the Federal Trade Commission and the Assistant Attorney General in charge of the Antitrust Division of the Department of Justice in response to a request for early termination submitted by all parties. Neither agency intends to take any action with respect to this acquisition during the waiting period.

EFFECTIVE DATE: SEPTEMBER 8, 1982.

FOR FURTHER INFORMATION CONTACT: Patricia A. Foster, Compliance Specialist, Premerger Notification Office, Bureau of Competition, Room 311, Federal trade Commission, Washington, D.C. 20580 (202) 523-3894.

SUPPLEMENTARY INFORMATION: Section 7A of the Clayton Act, 15 U.S.C. 18a, as added by Title II of the Hart-Scott-Rodino Antitrust Improvements Act of 1976, requires persons contemplating certain mergers or acquisitions to give the Commission and Assistant Attorney General advance notice and to wait designated periods before consummation of such plans. Section7A(b)(2) of the Act permits the agencies, in individual cases, to terminate this waiting period prior to its expiration and requires that notice of this action be published in the **Federal Register.**

By direction of the Commission.

Carol M. Thomas,

Secretary.

AGENCY: Federal Trade Commission.

ACTION: Granting of request for early termination of the waiting period of the premerger notification rules.

SUMMARY: Tele-Communications, Inc. is granted early termination of the waiting period provided by law and the premerger notification rules with respect to the proposed acquisition of certain assets of TCI-Taft Cablevision Associates and with respect to the proposed formation of a joint venture with Taft Broadcasting Company. The grant was made by the Federal Trade Commission and the Assistant Attorney General in charge of the Antitrust Division of the Department of Justice in response to a request for early termination submitted by all parties. Neither agency intends to take any action with respect to this acquisition during the waiting period.

EFFECTIVE DATE: September 9, 1982.

FOR FURTHER INFORMATION CONTACT: Patricia A. Foster, Compliance Specialist, Premerger Notification Office, Bureau of Competition, Room 311, Federal Trade Commission, Washington, D.C. 20580 (202) 523–3894.

SUPPLEMENTARY INFORMATION: Section 7A of the Clayton Act, 15 U.S.C. 18a, as added by Title II of the Hart-Scott-Rodino Antitrust Improvements Act of 1976, requires persons contemplating certain mergers or acquisitions to give the Commission and Assistant Attorney General advance notice and to wait designated periods before consummation of such plans. Section 7A(b)(2) of the Act permits the agencies, in individual cases, to terminate this waiting period prior to its expiration and requires that notice of this action be published in the **Federal Register.**

By direction of the Commission.

Carol M. Thomas,

Secretary.

BILLING CODE 6750-01-M

GENERAL SERVICES ADMINISTRATION

SES Performance Review Boards for Small Client Agencies Serviced by GSA; Names of Members

Sec. 4314(c) (1) through (5) of title 5, U.S.C., requires each agency to establish, in accordance with regulations prescribed by the Office of Personnel Management, one or more Performance Review Boards. The board shall review and evaluate the initial appraisal by the supervisor of a senior executive's performance, along with any recommendations to the appointing authority relative to the performance of the senior executive.

As provided under section 601 of the Economy Act of 1932, as amended, 31 U.S.C. 686, the General Services Administration through its External Services Staff, Personnel Division, provides various personnel management services to a number of diverse Presidential commissions, committees, and other small agencies and boards through reimbursable administrative support agreements. This notice is processed on behalf of these client agencies, and it amends our original notices in the **Federal Register** dated March 17, 1980, May 20, 1980, and September 23, 1981. Because of their small size, a Performance Review Board register has been established composed of members of the various agencies. From this register of names, the head of each client agency will appoint executives to a specific board to serve the particular client agency.

The members whose names appear on the Performance Review Board register to serve client agencies are:

Richard A. Ericson, Executive Director, Japan-United States Friendship Commission

Stephen L. Babcock, Executive Director, Administrative Conference of the United States

Richard K. Berg, General Counsel, Administrative Conference of the United States

Sandra L. Massetto, Commissioner Navajo and Hopi Indian Relocation Commission

Hawley Atkinson, Commissioner (Chairman), Navajo and Hopi Indian Relocation Commission

Stephen G. Goodrich, Executive Director, Navajo and Hopi Indian Relocation Commission

Walter R. Roberts, Executive Director, Board for International Broadcasting

James Critchlow, Foreign Information Officer, Board for International Broadcasting

Arthur D. Levin, Financial Manager, Board for International Broadcasting

Anatole Shub, Foreign Information Officer, Board for International Broadcasting

Theodore S. Farfaglia, Executive Director, United Staters Metric Board

Stanley R. Parent, Deputy Executive Director/Director, Research, Coordination and Planning, United States Metric Board

Frank H. Thomas, Acting Director, U.S. Water Resources Council

Rosemary M. Collyer, Chairperson, Federal Mine Safety and Health Review Commission

James A. Lastowka, General Counsel, Federal Mine Safety and Health Review Commission

For further information, contact Betty R. Bruce, External Services Staff, Personnel Division (202–472–9214); mailing address: General Services Administration, National Capital Region (WBPX), Washington, DC 20407.

Dated: September 7, 1982.

Bertrand G. Berube,

Regional Administrator of General Services, National Capital Region.

BILLING CODE 6820-24-M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Administration

[Docket No. N-82-1162]

Submission of Proposed Information Collection to OMB

AGENCY: Office of Administration, HUD.

ACTION: Notice.

SUMMARY: The proposed information collection requirement described below has been submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposal.

ADDRESS: Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and should be sent to: Robert Neal, OMB Desk Officer, Office of Management and Budget, New Executive Office Building, Washington, D.C. 20503.

FOR FURTHER INFORMATION CONTACT: David S. Cristy, Acting Reports Management Officer, Department of Housing and Urban Development, 451 7th Street, SW., Washington, D.C. 20410, telephone (202) 755-5310. This is not a toll-free number.

SUPPLEMENTARY INFORMATION: The Department has submitted the proposal described below for the collection of information to OMB for review, as required by the Paperwork Reduction Act (44 U.S.C. Chapter 35).

The Notice lists the following information: (1) The title of the information collection proposal; (2) the office of the agency to collect the information; (3) the agency form number, if applicable; (4) how frequently information submissions will be required; (5) what members of the public will be affected by the proposal; (6) an estimate of the total number of hours needed to prepare the information submission; (7) whether the proposal is new or an extension or reinstatement of an information collection requirement; and (8) the names and telephone numbers of an agency official familiar with the proposal and of the OMB Desk Officer for the Department.

Copies of the proposed forms and other available documents submitted to OMB may be obtained from David S. Cristy, Acting Reports Management Officer for the Department. His address and telephone number are listed above. Comments regarding the proposal should be sent to the OMB Desk Officer at the address listed above.

The proposed information collection requirement is described as follows:

Notice of Submission of Proposed Information Collection to OMB

Proposal: Monthly Digest of Current Housing Situation and Quarterly Supplement.
Office: Housing.
Form Number: HUD-2499 and HUD-2499A.
Frequency of Submission: Monthly and Quarterly.
Affected Public: Businesses or Other Institutions (except farms).
Estimated Burden Hours: 800.
Status: New.
Contact: John N. Dickie, HUD, (202) 426-4667, Robert Neal, OMB, (202) 395-6880.

Authority: Sec. 3507 of the Paperwork Reduction Act, 44 U.S.C. 3507; Sec. 7(d) of the Department of Housing and Urban Development Act, 42 U.S.C. 3535(d).

Dated: September 7, 1982.

Judith L. Tardy,

Assistant Secretary for Administration.

Office of the Secretary

[Docket No. N-82-1163]

Privacy Act of 1974; New System of Records

AGENCY: Housing and Urban Development Department.

ACTION: Notification of new system of records.

SUMMARY: The Department is giving notice of a system of records it intends to maintain which is subject to the Privacy Act of 1974.

EFFECTIVE DATE: This notice shall become effective without further notice on October 20, 1982 unless comments are received on or before that date which would result in a contrary determination.

ADDRESS: Rules Docket Clerk, Room 10278, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410.

FOR FURTHER INFORMATION CONTACT: Robert English, Departmental Privacy Act Officer, Telephone 202-755-5320. This is not a toll-free number.

SUPPLEMENTARY INFORMATION: The system is the HUD Community Development Block Grant State Transfer Evaluation Files System (HUD/PD&R-11). It will contain information concerning program development and administration obtained from a sample of local community development officials, from a sample of state officials responsible for the Community Development Block Grant (CDBG) Small Cities Program transferred to those same states, and from a limited number of other relevant and informed persons on the state transfer, e.g., in HUD Area Offices or state municipal leagues. The system will contain the name, title, organizational address, and telephone number of these officials.

A new system report was filed with the Speaker of the House, the President of the Senate, and the Office of Management and Budget on August 2, 1982. Appendix A, which lists the addresses of HUD's offices, was published at 47 FR 34331 (August 6, 1982).

HUD/PD&R-11

SYSTEM NAME:

HUD Community Development Block Grant State Transfer Evaluation Files.

SYSTEM LOCATION:

HUD contractor to be selected and Headquarters Office.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

A sample of local community development officials and the state officials responsible for the Community Development Block Grant Small Cities Program transfer to those same states (a sample of states out of a potential universe of thirty-seven states). Also, a limited number of other relevant and informed persons on the state transfer, e.g., HUD Area Office personnel responsible for CDBG small cities program review.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name, title, organizational address, and telephone numbers of interviewees; demographic and socio-economic characteristics of the cities and states sampled, such as population, poverty population, and age of housing stock; and program development and administration interview data about the small cities program transfer to the states in the sample cities and states.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 552a, 88 Stat. 1896; Sec. 7(d), Department of HUD Act (42 U.S.C. 3535(d)).

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

To HUD contractor-for analysis by the contractor of the state transfer.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Manual records stored in locable file drawers located in lockable rooms. Access limited to authorized personnel. Personnel identifiers such as mailing labels, names, addresses, and assigned codes maintained in separate locked files with access restricted. Automated records contain no identification of individuals except assigned numeric codes.

RETRIEVABILITY:

Name, address, and numeric code.

SAFEGUARDS:

Manual records stored in lockable file cabinets in secured areas. Computer records will be maintained in secured areas with technical restraints employed with regard to accessing records. Access to both types of records is limited to authorized personnel.

RETENTION AND DISPOSAL:

Records are periodically returned to Federal Records Center and destroyed in accordance with HUD Handbook 2225.6.

SYSTEM MANAGER(S) AND ADDRESS:

Director, Division of Community Development and Fair Housing Analysis, Assistant Secretary for Policy Development and Research, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, D.C. 20410.

NOTIFICATION PROCEDURE:

For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the Headquarters location, in accordance with 24 CFR Part 16. This location is given in Appendix A.

RECORD ACCESS PROCEDURES:

The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at the Headquarters location. This location is given in Appendix A.

CONTESTING RECORD PROCEDURES:

The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed in relation to contesting the contents of records, it may be obtained by contacting the Privacy Act Officer at the Headquarters location. This location is given in Appendix A. If additional information or assistance is needed in relation to appeals of initial denials, it may be obtained by contacting the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, D.C. 20410.

RECORD SOURCE CATEGORIES:

Subject individuals.

Issued at Washington, D.C., September 10, 1982.

Judith L. Tardy,

Assistant Secretary for Administration.

BILLING CODE 4210-01-M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[F-14879-A]

Alaska Native Claims Selection

The purpose of this decision is to modify the decision to issue conveyance of lands to Kotlik Yupik Corporation, dated March 31, 1982, as published in the **Federal Register**, Vol. 47, No. 63, on pages 13899 through 13901, April 1, 1982, corrected in Vol. 47, No. 79, on page 17681, April 23, 1982.

In the decision to issue conveyance, the lands in Sec. 30, T. 27 S., R. 25 W., Kateel River Meridian, were incorrectly described as partially within Public Land Order (PLO) 4584. Since T. 27 S., R. 25 W., Kateel River Meridian was not withdrawn by PLO 4584, Sec. 30 will be conveyed as entirely outside the National Wildlife Refuge System.

The following will modify and correct pages 13899 and 13990 of the March 31, 1982 decision:

Page 13899—Second Column, Second Paragraph

The sentence which reads: This decision approves approximately 39,869 acres of National Wildlife Refuge System lands for conveyance to Kotlik Yupik Corporation.

is hereby modified and corrected to read: This decision approves approximately 39,864 acres of National Wildlife Refuge System lands for conveyance to Kotlik Yupik Corporation.

Page 13899—Middle Column

T. 27 S., R. 25 W., that portion described as within the refuge is hereby deleted.

Page 13899—Third Column

Aggregated acreage of lands within the refuge now reads: Aggregating approximately 39,869 acres.

is hereby modified and corrected to read: Aggregating approximately 39,864 acres.

Page 13900—First Column

T. 27 S., R. 25 W., outside the refuge. The description and acreage for lands now reads: Sec. 30 (fractional), that portion outside PLO 4584, excluding Native allotment F-18757 Parcel A; * * *

Containing approximately 380 acres.

This description and acreage are hereby modified and corrected to read:

Sec. 30 (fractional), excluding Native allotment F-18757 Parcel; * * *

Containing approximately 385 acres.

Page 13900—Third Column

Aggregated acreage of lands outside the refuge now reads: Aggregating approximately 61,968 acres.

is hereby modified and corrected to read: Aggregating approximately 61,973 acres.

These corrections do not affect the total conveyance acreage of 101,837 acres to Kotlik Yupik Corporation.

Except as amended by this decision, the decision of March 31, 1982 stands as written.

In accordance with Departmental regulation 43 CFR 2650.7(d), notice of this decision is being published once in the **Federal Register** and once a week, for four (4) consecutive weeks, in The Tudra Drums.

Any party claiming a property interest in lands affected by this decision, an agency of the Federal government, or regional corporation may appeal the decision to the Interior Board of Land Appeals, Office of Hearings and Appeals, in accordance with the attached regulations in Title 43 Code of Federal Regulations (CFR), Part 4, Subpart E, as revised. However, pursuant to Pub. L. 96-487, this decision constitutes the final administrative determination of the Bureau of Land Management concerning navigability of water bodies.

If an appeal is taken, the notice of appeal must be filed in the Bureau of Land Management, Alaska State Office, Division of ANCSA and State Conveyances (960), 701 C Street, Box 13, Anchorage, Alaska 99513. Do not send the appeal directly to the Interior Board of Land Appeals. The appeal and copies of pertinent case files will be sent to the Board from this office. A copy of the appeal must be served upon the Regional Solicitor, 510 L Street, Suite 100, Anchorage, Alaska 99501.

The time limits for filing an appeal are:

1. Parties receiving service of this decision shall have 30 days from receipt of this decision to file an appeal.

2. Unknown parties, parties unable to be located after reasonable efforts have been expended to locate, and parties who failed or refused to sign the return receipt shall until October 20, 1982 to file an appeal.

Any party known or unknown who is adversely affected by this decision shall be deemed to have waived those rights which were adversely affected unless an appeal is timely filed with the Bureau of Land Management, Alaska State Office, Division of ANCSA and State Conveyances.

To avoid summary dismissal of the appeal, there must be strict compliance with the regulations governing such appeals. Further information on the manner of and requirements for filing an appeal may be obtained from the Bureau of Land Management, Alaska State Office, 701 C Street, Box 13, Anchorage, Alaska 99513.

If an appeal is taken, the parties to be served with a copy of the notice of appeal are:

Kotlik Yupik Corporation,
Kotlik, Alaska 99620
Calista Corporation,
516 Denali Street,
Anchorage, Alaska 99510

Ann Johnson,

Chief, Branch of ANCSA Adjudication.

BILLING CODE 4310-84-M

[Civil Action No. 1983-73]

Natural Resources Defense Council, Inc., et al v. James G. Watt, et al.; Notice of Proposed Deviation from Scheduled Preparation of Environmental Impact Statements on Livestock Grazing

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of proposed deviation from scheduled preparation of Environmental Impact Statement on livestock grazing.

SUMMARY: This document provides notice of a material deviation from the scheduled preparation of environmental impact statements on livestock grazing as required by the amended final judgment entered in *Natural Resources Defense Council, Inc., et. al. v James G. Watt, et al.*, Civil Action No. 1983-73 (D.D.C. April 14, 1978).

ADDRESS: Office of the Solicitor, Department of the Interior, 18th and C Streets NW., Washington, D.C. 20240.

FOR FURTHER INFORMATION CONTACT: Allan D. Brock, Office of the Solicitor, Department of the Interior, Division of Energy and Resources, Branch of Land Use, 18th and C Streets NW., Washington, D.C. 20240 (202/343-4036).

[Civil Action No. 1983-73]

Natural Resources Defense Council, Inc., et al. *v.* James G. Watt, et al.
Notice of Proposed Deviation From Scheduled Preparation of Environmental Impact Statements on Livestock Grazing

The amended final judgment of April 14, 1978, in the above-entitled case, requires the preparation of a series of environmental impact statements (EISs) on the grazing of livestock in the

Western States, pursuant to the National Environmental Policy Act (NEPA), 42 U.S.C. 4321, et seq. Paragraph 9 of the judgment contemplated the possibility of material deviations from the judgment and provided for notice as follows:

9. If the Federal Defendants believe, in good faith, that circumstances dictate that any material deviations must be made, then in any event, the Federal Defendants shall give Notice to this Court wherein a detailed explanation shall be made of the deviation which is anticipated to occur together with the reason(s) therefore. This Notice shall be filed prior to the anticipated implementation of such deviation, and contemporaneously a copy of such Notice shall be sent by registered mail to all parties to this action (No. 1983–73) and such Notice shall be published in the Federal Register. Thereafter, if objections are filed with the court within 30 days from the date of publication in the Federal Register, the Federal Defendants and the objecting parties may make such motions and present evidence to the court as to them seems proper, and the court shall determine if such deviations shall be allowed to occur or make any other appropriate order; provided, however, that if no objections are filed with the court within such 30-day period, BLM shall be authorized to implement such deviation.

Paragraph five of the judgment provides in pertinent part that:

[I]n fiscal years 1980 through 1982, the federal defendants shall prepare EIS's on public land acreages which total the respective, yearly acreages specified in the current EIS schedule for fiscal years 1978 through 1981. Within 90 days the federal defendants shall submit a plan to the court and the parties which specifies the particular areas to be covered during these years and the order in which they will be covered.

According to the plan submitted by the federal defendants to the court, the current schedule requires completion of seventeen EISs by September 30, 1982, the end of the fiscal year. Interior has effectively carried out most of the plan. Indeed, by September 30, Interior will have completed fifteen of the seventeen EISs. There were only two delays. First, immaterial deviation from the current schedule occurred for the preparation and completion of the final EIS covering the Glenwood Springs Area in Colorado. The revised filing date is September 30, 1983. Second, the Federal defendants will be unable to meet the current schedule for completion of the EIS covering 1,397,000 acres of land in the Henry Mountain Area in Utah. The Federal defendants accordingly give notice of a proposed material deviation from the current schedule, thereby allowing completion of the final EIS for the Henry Mountain Area by March 31, 1983.

Delay in the preparation of the EIS for the Henry Mountain Area is due to problems associated with the processing of certain vegetation information through BLM's automated data processing equipment. The appropriate "proper use factors" to be utilized in computing available forage for livestock grazing use from the vegetation information that had been compiled were inadvertantly omitted from the computer program. The results of the computer program indicated forage available for livestock grazing use that exceeded grazing capacities by as much as twenty percent on twenty-seven allotments in the Henry Mountain Area, according to subsequent monitoring studies performed on these allotment areas. A field office requires usuable forage data before it can make any determinations regarding proposed levels of livestock grazing use.

The Federal defendants have incorporated the appropriate proper use factors in the computer program for processing the compiled vegetation information so that the field office will have usable forage data. The computer program re-run is expected to be completed by September 30, 1982. The Federal defendants will thereafter require three months to prepare the draft EIS, and it is anticipated that an additional three months will be needed to complete the final EIS including analysis of public comment.

Dated: September 14, 1982.

Frank DuBois,

Deputy Assistant Secretary, Land & Water Resources.

BILLING CODE 4310-84-M

Acceptance of Bureau of Land Management Oil and Gas Lease Assignment Forms 3106–5 and 3106–14, OMB No. 1004–0034; Expiration Date: August 31, 1985

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of use and acceptance of assignment forms.

SUMMARY: The Bureau of Land Management (BLM) Form 3106–5, Assignment Affecting Record Title to Oil and Gas Lease, and Form 3106–14, Transfer, Assignment, or Sublease of Operating Rights in Oil and Gas Lease, have been approved by the Office of Management and Budget (OMB) and assigned clearance number 1004–0034, with a new expiration date of August 31, 1985. The previous expiration date had been February 28, 1982. This approval procedure is in accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 et seq.). The expiration date refers to the conformance of the forms with the Act for information collection requirements from Federal oil and gas lease assignees and assignors regarding the transfer or assignment of lease operating rights or the assignment of record title of a lease.

While the basic purpose and substance of such forms used in the administration of the Federal oil and gas or geothermal leasing programs have not changed, the public is hereby notified that such forms will continue to be accepted by the BLM while renewal with OMB is in progress. New stock printed will reflect a changed expiration date. Public interest is best served when no substantive changes have been made to the forms through acceptance by BLM of such forms whether or not the most current expiration date is indicated. To require the public to dispose of existing stock of such forms and to acquire new stock solely in order to reflect a changed expiration date would be burdensome, costly, and counterproductive. The public will be notified of any substantive changes in such forms that would affect their acceptability to BLM.

Upon renewal of Oil and Gas Lease Assignment Forms 3106–5 and 3106–14, certain nonsubstantive changes have been made in addition to the changed expiration date. The public is hereby advised of these minor changes:

1. In Part II of each of the forms, the requirement that information and documents relating to qualifications be submitted has been deleted to reflect regulation changes made at 43 CFR 3102.5, effective February 26, 1982.

2. The Notice provided at the end of each of the two forms will be amended to add the following information, "The Paperwork Reduction Act of 1980 (44 U.S.C. 3501 et seq.) requires us to inform you that:

- This information is being collected to transfer, assign, or sublease operating rights or to assign record title of a lease, pursuant to 43 CFR Part 3106.
- This information will be used to create a record of lease assignment and to process the assignment and request for approval.
- Response to this request is mandatory and is to obtain a benefit."

EFFECTIVE DATE: October 20, 1982.

FOR FURTHER INFORMATION CONTACT:

Jeffrey F. Zabler, Division of Oil, Gas and Geothermal, Bureau of Land Management (530), 1800 C Street, NW., Washington, D.C. 20240, telephone (202) 343–7722.

Dated: September 10, 1982.

Delmar D. Vail,

Acting Associate Director.

BILLING CODE 4310-84-M

Realty Action; Call for Leasing Interest

AGENCY: Department of the Interior (DOI).

ACTION: Proposed competitive lease of public lands administered by BLM as authorized by the Act of Congress of October 21, 1976 (90 Stat. 2743, Pub. L. 94-579) for surface disposal of salt water by-products from oil and gas production operations and for ancillary operations relative thereto.

SUMMARY: In response to interest from oil and gas industry in fulfilling a need of that industry, the BLM acting through the Roswell District Manager, Roswell, NM., is proposing to lease one or more sites for suface disposal of salt water.

The purpose of this notice is to solicit proposals from qualified entities and persons for sites identified by them and to solicit comments from the public regarding the proposed action. After analysis of the proposals received, an applicant may be selected for each site for further evaluation.

Location

The site or sites will be within the Roswell District as identified by qualified entities or persons and meeting environmental and other legal criteria contained in existing laws, rules, and regulations pertaining to management of the public lands.

General Terms and Conditions of Proposals

The proposals will be evaluated and any lease will be issued subject to an in compliance with all applicable existing federal, state, and local laws, rules, and regulations, and in particular under the terms and conditions of 43 CFR Part 2920 as published in 46 FR 5777, January 19, 1981 and reprinted in BLM Circular 2483 which is available from the District Office upon request. Anyone interested in submitting a proposal should be thoroughly familiar with this document. The proposal should indicate an intent to comply with all applicable regulatory statutes, and include any tangible evidence relative thereto in support of the proposal complete with the proponents technical and financial capability to carry the proposal to completion.

Selection of applicants for further evaluation will be a discretionary decision by the District Manager based on his best judgment as a result of evaluation of all pertinent data submitted with the proposal, so it is important that proponents submit documentation as complete as possible in support of their proposal. Any confidential documents must be clearly marked on each page and supported by rationale justifying the confidentiality. Such documents will be withheld from public review but will be considered in the selection of applicants. It should be pointed out, however, that such confidentiality may weaken BLM's defense of its selection in the event of a challenge. If, in the opinion of the District Manager, there is insufficient justification for the confidentiality of the documents, then they will be returned to the proponent and not considered in the selection analysis.

To date there are no known preference rights to any individual or entity under law, regulation, equity, or practical consideration. Any preference right claim should be substantiated in the proposal.

Any lease issued as the result of competition generated hereby will be at fair market value without further competitive bidding.

No funds are required to be submitted with a proposal, however, any applicant selected for further evaluation would incur advance charges as outlined in Circular 2483 prior to any additional processing and evaluation.

Neither publication of this notice nor the submission of a proposal gives right to use the public lands.

Publication of this notice does not segregate any Public Land from operation of the general land laws.

Publication of this notice, receipt of a proposal, and the collection of costs for application processing does not commit BLM to consummate any lease. Any refunds will be in compliance with Circular 2483.

Comments

Interested parties may submit written comments to the Roswell District Office until 4:00 p.m., October 18, 1982.

ADDRESS: P.O. Box 1397, 1717 W. Second St., Roswell, NM 88201.

FOR FURTHER INFORMATION CONTACT: Realty Specialist Mel Barlow (505) 622-7670, or Realty Specialist Jack Ragsdale (505) 887-6544.

SUPPLEMENTARY INFORMATION: Comments relative to this action with the exception of confidential information will be available for public review at the above address.

T. R. Kreager,

Acting District Manager, Roswell District Office.

BILLING CODE 4310-84-M

Minerals Management Service

Oil and Gas and Sulphur Operations in the Outer Continental Shelf

AGENCY: Minerals Management Service, Interior.

ACTION: Notice of the Receipt of a Proposed Development and Production Plan.

SUMMARY: Notice is hereby given that Mobil Oil Exploration and Producing Southeast Inc. has submitted a Development and Production Plan describing the activities it proposes to conduct on Lease OCS 0762, Block 176, West Cameron Area, offshore Louisiana.

The purpose of this Notice is to inform the public, pursuant to Section 25 of the OCS Lands Act Amendments of 1978, that the Minerals Management Service is considering approval of the Plan and that it is available for public review at the Office of the Minerals Manager, Gulf of Mexico OCS Region, Minerals Management Service, 3301 North Causeway Blvd., Room 147, Metairie, Louisiana 70002.

FOR FURTHER INFORMATION CONTACT: Minerals Management Service, Public Records, Room 147, open weekdays 9 a.m. to 3:30 p.m., 3301 North Causeway Blvd., Metairie, Louisiana 70002, Phone (504) 837-4720, Ext. 226.

SUPPLEMENTARY INFORMATION: Revised rules governing practices and procedures under which the Minerals Management Service makes information contained in Development and Production Plans available to affected States, executives of affected local governments, and other interested parties became effective December 13, 1979, (44 FR 53685). Those practices and procedures are set out in a revised § 250.34 of Title 30 of the Code of Federal Regulations.

Dated: September 10, 1982.

John L. Rankin,

Acting Minerals Manager, Gulf of Mexico OCS Region.

National Park Service

Cape Cod National Seashore Advisory Commission; Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770 (5 U.S.C. App. 1 § 10), that a meeting of the Cape Cod National Seashore Advisory Commission will be held at 1:30 p.m. on Friday, October 8, 1982 at the Headquarters Building, Cape Cod National Seashore.

The Commission was established pursuant to Pub. L. 91–383 to meet and consult with the Secretary of the Interior on general policies and specific matters relating to the development of Cape Cod National Seashore.

The members of the Advisory Commission are as follows:

Dexter M. Keezer, Truro
Francis R. King, Wellfleet
Nathan Malchman, Provincetown
Barbara S. Mayo, Provincetown
Thomas R. Pennypacker, II, Chatham
Sherrill B. Smith, Jr., Orleans
Clifford H. White, Wrentham
Elizabeth F. Worthing, Eastham
Paul F. Nace, Woods Hole

At the meeting at 1:30 p.m. the Commission will consider the following: Election of Officers, South Hollow Wellfield Reclamation, and Operations report.

The afternoon meeting will be preceded by a field trip to Old Harbor Station and North District Headquarters at Race Point. The trip will begin at Park Headquarters at 9:30 a.m., and interested members of the public are invited to participate but must furnish their own transportation.

The meeting is open to the public. It is expected that 15 persons will be able to attend the session in addition to the Commission members.

Interested persons may make oral/written presentations to the Commission or file written statements. Such requests should be made to the official listed below at least seven days prior to the meeting.

Further information concerning this meeting may be obtained from Herbert Olsen, Superintendent, Cape Cod National Seashore, South Wellfleet, MA 02663, Telephone (617) 349–3785. Minutes of the meeting will be available for public information and copying four weeks after the meeting at the Office of the Superintendent, Cape Cod National Seashore, South Wellfleet, Massachusetts.

Herbert Olsen,
Superintendent, Cape Cod National Seashore.
September 10, 1982.

Overmountain Victory National Historic Trail Advisory Council

Notice is hereby given in accordance with the Federal Advisory Commission Act that a meeting of the Overmountain Victory National Historic Trail Advisory Council will be held at 9:00 a.m. on Friday, October 8, 1982, at Kings Mountain National Military Park, Post Office Box 31, Kings Mountain, North Carolina 28086.

The purpose of the Overmountain Victory National Historic Trail Advisory Council is to consult and advise with the Secretary of the Interior on all matters of planning, management and trail development of the Overmountain Victory Historic Trail. The agenda will include a discussion of the draft comprehensive management plan and the organization and responsibilites of the Advisory Council.

The members of the Advisory Council are as follows:

Mr. Robert M. Baker, Chairman, Atlanta, Georgia
Mr. James A. Cannaday, Eden, North Carolina
Mr. E. Ervin Dargan, Darlington, South Carolina
Mr. Randall Ray Gregory, Raleigh, North Carolina
Mrs. Jean Hawkins, Hilton Head, South Carolina
Mr. Dennis Kline, Rogersville, Tennessee
Mr. Tommy G. Reed, Tale of Palms, South Carolina
Mr. Sydnor M. White, Raleigh, North Carolina
Mr. Fred Burgin, Jr., Rutherfordton, North Carolina
Mrs. Harriette Vaden Price, Williamburg, Virginia
Mr. Walter Carl Cockerham, Greensboro, North Carolina
Mr. Tyron Elliott, Manchester, Georgia
Mr. Hugh Atkins, Spartanburg, South Carolina
Mr. David L. Thomas, Greenville, South Carolina
Mr. Roy A. Taylor, Black Mountain, North Carolina
Mr. Walter H. Schroder, Rock Hill, South Carolina
Mr. Frank Robinson, Elizabethon, Tennessee
Mr. W. Blair Keller, Jr., Abingdon, Virginia
Mr. Terry Chilcoat, Norris, Tennessee
Mr. George Olson, Asheville, North Carolina
Mr. Andrew Duncan, Jr., Wilkesboro, North Carolina

The meeting will be open to the public; however, facilities and space for accommodating members of the public are limited. Any member of the public may file with the council a written statement concerning the matters to be discussed.

Persons wishing further information concerning the meeting or who wish to submit written statements may contact Paul Swartz, Chief, Planning and Compliance Division, National Park Service, Southeast Region, 75 Spring Street, SW. Atlanta, Georgia 30303, Telephone 404/221–5465. Minutes of the meeting will be available for public inspection at the above address approximately 4 weeks after the meeting.

Dated: September 8, 1981.

Neal G. Guse, Jr.,
Acting Regional Director, Southeast Region.

INTERSTATE COMMERCE COMMISSION

Motor Carrier; Temporary Authority Application

The following are notices of filing of applications for temporary authority under Section 10928 of the Interstate Commerce Act and in accordance with the provisions of 49 CFR 1131.3. These rules provide that an original and two (2) copies of protests to an application may be filed with the Regional Office named in the **Federal Register** publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the **Federal Register**. One copy of the protest must be served on the applicant, or its authorized representative, if any, and protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the ICC Regional Office to which protests are to be transmitted.

Note.—All applications seek authority to operate as a common carrier over irregular routes except as otherwise noted.

Motor Carriers of Property

Notice No. F-201

The following applications were filed in region I. Send protests to: Interstate Commerce Commission, Regional Authority Center, 150 Causeway Street, Room 501, Boston, MA 02114.

MC 144979 (Sub-1–1 TA), filed September 7, 1982. Applicant: ATLANTIC LIMOUSINE, INC., 11 East Decatur Avenue, Pleasantville, NJ 08232. Representative: Russell R. Sage, P.O. Box 11278, Alexandria, VA 22312. *Passengers and their baggage, in charter operations restricted to the transportation of not more than 21 passengers in any one vehicle, not inlcuding the driver,* between Philadelphia, PA, on the one hand, and, on the other, points in Atlantic County, NJ. Supporting shipper: Globetrotters, Inc., 21 Fairway Drive, McKee, NJ 08232.

MC 145108 (Sub-1–23 TA), filed September 7, 1982. Applicant: BULLET EXPRESS, INC., Bay Ridge Station, P.O. Box 289, Brooklyn, NY 11220. Representative: Robert L. Van Buren (Same as applicant). *Contract carrier:* irregular routes: *Automotive filters* from Fayetteville, NC, and Rahway, NJ, to points in AZ, CA, NV, OR, UT, WA, under continuing contract(s) with Purolator Products, Inc., of Rahway, NJ. Supporting shipper: Purolator Products, Inc., 970 New Brunswick Avenue, Rahway, NJ 07065.

MC 163771 (Sub-6–1TA), filed September 9, 1982. Applicant: TERRY G.

LEEPER, d.b.a. HIGH PLAINS CARRIERS, 3215 Misty Pl., Colorado Springs, CO 80907. Representative: Terry G. Leeper (same as applicant). *Hazadous and Non-Hazardous waste* (limited to transport of materials registered under E.P.A. #COD–980716484), (1) Between points in CO (restricted to loading LTL shipments, originating at E.P.A. regulated generator sites, for transport to named disposal facilities). (2) From points in CO to U.S.P.C.I. Inc. located at Woodward OK, over Interstate Hwy 25 to junction U.S. Hwy 50, then along U.S. Hwy 50 to junction U.S. Hwy 287, then over U.S. Hwy 287 to junction U.S. Hwy 64, then over U.S. Hwy 64 to junction OK Hwy 3, then over OK Hwy 3 to junction U.S. Hwy 270, and then over U.S. Hwy 270 to destination; also to E.S.I. Inc. Grand View ID, over Interstate Hwy 25 (or U.S. Hwy 24 as an alternate) to junction Interstate Hwy 70, then over Interstate Hwy 70 to junction U.S. Hwy 6, then over U.S. Hwy 6 to junction Interstate Hwy 15, then over Interstate Hwy 15 to junction Interstate Hwy 80n, then over Interstate Hwy 80n to junction ID Hwy 78, then over ID Hwy 78 to destination; or, when required by shipper, to continue over Interstate Hwy 80n to Chemical Security Inc. located at Arlington OR, for 270 days. Supporting shippers: Kaman Sciences Corp., 4675 Northpark Drive, Colorado Springs, CO 80907; NCR Corp., 1635 Aeroplaza, Colorado Springs, CO 80916.

Agatha L. Mergenovich,

Secretary.

[FR Doc. 82-25648 Filed 9-17-82; 8:45 am]

BILLING CODE 7035-01-M

Motor Carriers; Decision-Notice; Finance Applications

The following applications, filed on or after July 3, 1980, seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control of motor carriers pursuant to 49 U.S.C. 11343 or 11344. Also, applications directly related to these motor finance applications (such as conversions, gateway eliminations, and securities issuances) may be involved.

The applications are governed by Special Rule 240 of the Commission's Rules of Practice (49 CFR 1100.240). See Ex Parte 55 (Sub-No. 44), *Rules Governing Applications Filed by Motor Carriers Under 49 U.S.C. 11344 and 11349*, 363 I.C.C. 740 (1981). These rules provide among other things, that opposition to the granting of an application must be filed with the Commission in the form of verified statements within 45 days after the date of notice of filing of the application is published in the **Federal Register**. Failure seasonably to oppose will be construed as a waiver of opposition and participation in the proceeding. If the protest includes a request for oral hearing, the request shall meet the requirements of Rule 243 of the special rules and shall include the certification required.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.241. A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00, in accordance with 49 CFR 1100.241(d).

Amendments to the request for authority will not be accepted after the date of this publication. However, the Commission may modify the operating authority involved in the application to conform to the Commission's policy of simplifying grants of operating authority.

We find, with the exception of those applications involving impediments (e.g., jurisdictional problems, unresolved fitness questions, questions involving possible unlawful control, or improper divisions of operating rights) that each applicant has demonstrated, in accordance with the applicable provisions of 49 U.S.C. 11301, 11302, 11343, 11344, and 11349, and with the Commission's rules and regulations, that the proposed transaction should be authorized as stated below. Except where specifically noted this decision is neither a major Federal action significantly affecting the quality of the human environment nor does it appear to qualify as a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient protests as to the finance application *or* to any application directly related thereto filed within 45 days of publication (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (unless the application involves impediments) upon compliance with certain requirements which will be set forth in a notification of effectiveness of this decision-notice. To the extent that the authority sought below may duplicate an applicant's existing authority, the duplication shall not be construed as conferring more than a single operating right.

Applicant(s) must comply with all conditions set forth in the grant or grants of authority within the time period specified in the notice of effectiveness of this decision-notice, or the application of a non-complying applicant shall stand denied.

Dated: September 14, 1982.

By the Commission, Review Board Number 3, Members Krock, Joyce and Dowell.

Agatha L. Mergenovich,

Secretary.

MC–F–14930, filed August 11, 1982. BLUE ARROW, INC. (BAI) (525 Burton S.E., Grand Rapids, MI 49507)—merger—ARLEDGE TRANSFER, INC., (ATI). (P.O. Box 157, Burlington, IA 52601). Representative: Carl L. Steiner, 29 South La Salle Street, Chicago, IL 60603. ATI seeks to merge all its operating rights and properties into BAI. BAI operates a motor carrier under certificate No. MC—2990. All the issued and outstanding stock of BAI is owned by Kysor Industrial Corporation (an entity not subject to the provisions of 49 U.S.C. 11302 and 11145). Kysor Industrial Corporation also controls ATI. Kysor Industrial Corporation seeks to control the merged rights through the transaction. ATI transports *general commodities* according to its authority in MC–101186 and subs thereunder. No TA application has been filed.

MC–F–14931, filed August 12, 1982. ZENITH TRANSPORT LTD. (ZENITH) (2381 Rogers Ave., Coquitlam, B.C. Canada V3K 5Y2)—PUR—AAA TRANSFER, INC. (AAA) (615 South 96th St., Seattle, WA 98124). Representative: Michael B. Crutcher, 2000 IBM Building, Seattle, WA 98101. Zenith seeks to purchase all of the operating rights of AAA. 236087 B.C. Ltd., a holding company which controls Zenith through stock ownership and Leigh K. Bennett and Margaret Ann Bennett, who control 236087 B.C. Ltd., through stock ownership, seeks authority to control the operating rights, through the transaction. The authority to be purchased in contained in Certificate No. MC–9194 (Sub-No. 4)X which authorizes operations as a common carrier, over irregular routes, transporting (1) general commodities, (except classes A & B explosives), (a) between points in Washington and Oregon and (b) between points in Washington and Oregon, on the one hand, and, on the other, points in California, Idaho, Nevada, Utah and Montana, and (2) empty used containers, used trailers, and used trailer chassis, between points in Washington and Oregon, on the one hand, and, on the other, points in California, Idaho, Nevada, Utah and Montana. Zenith is presently authorized to conduct common carrier irregular route operations between ports of entry on the United States-Canada Boundary in Washington

and described points and areas in California, Oregon, Washington, and Nevada under Certificate No. MC–134548 (Sub-No. 9)X. Zenith is also authorized to conduct contract carrier operations between points in the United States for named shippers under Permit No. MC–134548 (Sub-No. 10)X. Condition: Zenith is controlled by 236087 B.C. Ltd., through ownership of all stock. Under 49 U.S.C. 11343, it is a necessary party to the transaction. The stock of 236087 B.C. Ltd., is owned jointly by Leigh K. Bennett and Margaret Ann Bennett, who are also necessary parties to the transaction. Only Leigh K. Bennett has joined the application, in his own name, as a party in control of Zenith. Accordingly, 236087 B.C. Ltd., and Margaret Anne Bennett must join in the application. This may be done by submission of a new signature page 3 of the application or by submission of a letter signed by Margaret Ann Bennett and a representative of 236087 B.C. Ltd., requesting joinder in the application.

MC–F–14941, filed August 24, 1982. Decided September 1, 1982. GEORGE B. KING, d.b.a. KING TRANSFER (King) (21st and Pearl Street, P.O. Box 70, Onawa, IA 51040)—purchase (portion)—ECKLEY TRUCKING, INC., (Eckley) (P.O. Box 156, Mead, NE 68041). Representatives: George L. Hirschbach, 920 West 21st Street, P.O. Box 155, South Sioux City, NE 68776; and A. J. Swanson, P.O. Box 1103, Sioux Falls, SD 57101. King seeks authority to purchase that portion of Eckley's operating rights which are contained in Certificate No. MC–5227 (Sub-No. 70), and which authorize the transportation of *salt and salt products,* from Lyons and Kanapolis, KS, and points in Reno County, KS, to points in AZ, AR, CO, ID, IL, IN, IA, KY, LA, MN, MS, MO, MT, NE, NM, OH, OK, TN, TX, UT, WI, and WY.

Note.—Transferee holds authority under MO–127745.

MC–F–14945, filed August 26, 1982. TIKO TRANSPORTATION, INC. (Tiko) (101 Terminal Court, Nashville, TN 37211)—purchase (portion)—WILSON FREIGHT COMPANY (Wilson) (640 Northland Blvd., Suite 12, Cincinnati, OH 45240) (Debtor in Possession) (CONSOLIDATED CARTAGE CO., INC.—assignor). Representatives: Henry E. Seaton, 1024 Pennsylvania Bldg., 425 13th Street, NW., Washington, DC 20004; and Fritz R. Kahn, Suite 1100, 1660 L Street, NW., Washington, DC 20036. Tiko, a newly formed non-carrier, seeks authority to purchase a portion of the interstate operating rights of Wilson. James McFarlin and Riggs Hayes, equal stockholders of Tiko, seek authority to acquire control of said rights through the transaction. Riggs Hayes is a stockholder of Nashville-Clarksville-Express, Inc., a motor carrier operating under MC–134670. James McFarlin is president and stockholder of M & W Transportation, a new carrier operating under MC–159420. Tiko seeks to purchase authority set forth in Certificate No. MC–13123 Sub-Nos. 18 (portion), 19, 50, 60, 70, 77, 79, 90, 93, and 96. This authority constitutes package number W–5 sold by order of the U.S. Bankruptcy Court. This authority authorizes the transportation of *general commodities* (with exceptions), over regular routes, between (1) Louisville, KY, and Evansville, IN, (2) Louisville, KY, and Cincinnati, OH, (3) Louisville and Harlan, KY, (4) Lexington and Manchester, KY, (5) Louisville, KY, and Nashville, TN, (6) Bowling Green and Hopkinsville, KY, (7) New Albany and Dale, IN, (8) Jeffersonville and Versailles, IN, (9) junction IN Hwys 62 and 56 and Paoli, IN, (10) Eminence and Louisville, KY, (11) Cincinnati OH, and Eminence, KY, (12) Nashville and Dover, TN, and (13) Hopkinsville, KY, and Clarksville, TN, serving various intermediate and off-route points.

Note.—TA has been filed.

MC–F–14928, filed August 9, 1982. Decided September 3, 1982. TRUMAN BARKS d.b.a. BARKS TRUCKING CO. (BARKS) (Greenville, MO 63944) purchase (portion)—ECKLEY TRUCKING INC. (Eckley) (P.O. Box 156, Mead, NE 68041). Representatives: A. J. Swanson, P.O. Box 1103, Sioux Falls, SD 57101; Stephen G. Newman, Hawkins, Brydon & Swearengen, P.C., P.O. Box 456, Jefferson City, MO 65102. Barks seeks authority to purchase that portion of the operating authority of Eckley contained in certificate Nos. MC–5227 (Subs 48, 50F, 55F, and 56F) authorizing the transportation of *iron and steel* articles, (1) under the Sub 48 certificate, from the facilities of North-Western Steel & Wire Co., at Sterling and Rock Falls, IL, to points in IA, NE, MN, CO, KS, MO, AR, IN, MI, WI, WY, UT, MT, ID, NV, CA, OR, WA, TX, OK, NM, AZ, ND and SD; and (2) under the sub 50 certificate from Chicago, IL to Marianna, AR, and (3) under the sub 56 certificates from Chicago, IL to points in KS, MO and CO; and (4) under sub 5, *iron and steel articles and aluminum articles,* from Chicago, IL to points in OK and TX. Barks is a motor carrier operating under MC–157942 and MC–157942 (Sub-No. S–1 TA). A TA Application has been filed.

BILLING CODE 7035-01-M

Motor Carriers; Decision-Notice; Finance Applications

As indicated by the findings below, the Commission has approved the following applications filed under 49 U.S.C. 10924, 10926, 10931 and 10932.

We find:

Each transaction is exempt from section 11343 (formerly section 5) of the Interstate Commerce Act, and complies with the appropriate transfer rules.

This decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

Petitions seeking reconsideration must be filed within 20 days from the date of this publication. Replies must be filed within 20 days after the final date for filing petitions for reconsideration; any interested person may file and serve a reply upon the parties to the proceeding. Petitions which do not comply with the relevant transfer rules at 49 CFR 1132.4 may be rejected.

If petitions for reconsideration are not timely filed, and applicants satisfy the conditions, if any, which have been imposed, the application is granted and they will receive an effective notice. The notice will indicate that consummation of the transfer will be presumed to occur on the 20th day following service of the notice, unless either applicant has advised the Commission that the transfer will not be consummated or that an extension of time for consummation is needed. The notice will also recite the compliance requirements which must be met before the transferee may commence operations.

Applicants must comply with any conditions set forth in the following decision-notices within 30 days after publication, or within any approved extension period. Otherwise, the decision-notice shall have no further effect.

It is ordered:

The following applications are approved, subject to the conditions stated in the publication, and further subject to the administrative requirements stated in the effective notice to be issued hereafter.

By the Commission, Review Board No. 3, Members Krock, Joyce, and Dowell.

MC–FC–79512. By decision of September 3, 1982 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to MARI MOTOR EXPRESS, INC., of Morrisville, PA of Certificate Nos. MC–84450 (Sub-No. 1), issued

October 18, 1979 and MC–84450 (Sub-No. 11) issued September 24, 1981 to S. R. T. MOTOR FREIGHT, INC. of Morrisville, PA, authorizing the transportation under the sub 1 authority of *iron and steel articles* from the facilities of Bethlehem Steel Corporation at Sparrows Point, MD, to points in DE, CT, MA, RI, NJ, NY, and PA, restricted to the transportation of traffic originating at the named origin, and under this sub 11 authority of *metal products* between points in Lebanon and Dauphin Counties, PA, on the one hand, and, on the other, points in OH, IN, IL, MI, IA, WI, MN, MO, AR, KY, TN, MS, AL, LA, TX, VA, WV, NC, SC, GA, and FL. Representative: Alan Kahn, Abrahams & Loewenstein's, 100 South Broad Street, Philadelphia, PA 19110.

Note.—This supplements the notice published in MC–FC–79512 in the **Federal Register** issue of January 13, 1982.

Supplemental Publication

MC–FC–79813. By decision of September 8, 1982, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR Part 1132, Review Board Number 3 approved the transfer to PECK LEASING, INC., of Fall River, MA, of Permit No. MC–156045 (Sub-No. 3) issued July 20, 1982, to H. P. LEASING, INC., of Somerset, MA, authorizing *general commodities* (except classes A and B explosives, household goods, and commodities in bulk), between points in the United States, under continuing contracts with (1) Eastern Company, D/B/A Eastco, of Westwood, MA, (2) Handy Pax Inc., of Randolph, MA, and (3) U.S. Textile Co., Inc., of Fall River, MA. Representative: Francis E. Barrett, Jr., 10 Industrial Park Road, Hingham, MA 02043, Phone: 617–749–6500.

Note.—A prior decision of May 20, 1982, published June 4, 1982, approved the transfer to transferee of transferor's Permit No. MC–156045, MC–156045 (Sub-No. 1) and MC–156045 (Sub-No. 2).

MC–FC–79852. By decision of September 7, 1982, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR Part 1132, Appellate Division 2 approved the transfer to NCV INDUSTRIES, INC. of Omaha, NE of a portion of Certificate No. MC–127602 (Sub-No. 30)X issued to FLATLANDS EXPRESS, INC. of Litchfield Park, AZ, authorizing general commodities (except classes A and B explosives), between Omaha, NE and Sioux City, IA, serving all intermediate points: from Omaha over U.S. Hwy 73 to Sioux City, and return over the same route. Representative: Arlyn L. Westergren, Suite 201, 9202 W. Dodge Rd., Omaha, NE 68114. TA lease is not sought. Transferee is not a carrier.

MC–F–79975. By decision of September 1, 1982, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR Part 1132, Review Board Number 3 approved the transfer to TUSC-MAR, INC. of Certificate No. MC–127777 (Sub-Nos. 1, 12, 13, 14 and 18) issued to MOBILE TRANSPORT SYSTEMS, INC. authorizing the transportation of (1) *mobile homes*, in initial movements, in driveaway or truckaway service, from Reedsburg, WI and points in Kenosha County, WI to points in the United States (including AK but excluding HI), (2) *trailers* designed to be drawn by passenger automobiles, in initial movements (a) from points in Waupaca County, WI, and the facilities of Fleetwood Homes of Wisconsin, Inc. at or near Portage, WI, to points in IL, IA, MI, MN, ND and SD, (b) from points in Humboldt County, IA and Outagamie and Iron Counties, WI (except Hurley) to points in the United States (including AK but excluding HI), (c) from points in Grant County, WI, to points in the United States (including AK but excluding HI), and (d) from points in Anson County, NC, to points in the United States (except AK and HI). Representative: Audrey Thomas, Krapp, WI 54749.

Note.—Transferee is a non-carrier.

MC–FC–80015. By decision of September 3, 1982, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR Part 1132, Review Board Number 3 approved the transfer to D. SABATELLI, INC., of Media, PA of Certificate No. MC–124045 (Sub-No. 5) issued October 18, 1981, to RAYMOND G. WISHARD, doing business as WISHARD TRUCKING, of Chambersburg, PA, authorizing the transportation of Clay, concrete, glass or stone products between points in Huntingdon County, PA, on the one hand, and, on the other points in 14 Eastern States. Representative: Anthony J. Sabatelli, 630 S. Ridley Creek Road, Media, PA 19063.

MC–FC–80019. By decision of August 31, 1982 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR Part 1132, Review Board Number 3 approved the transfer to THE SANDERS TRUCK TRANSPORTATION CO., INC., of Augusta, GA, of Certificate No. MC–138521 issued to BEST WAY FREIGHT, INC., of Augusta, GA, authorizing the transportation of (a) groceries and hardware from Augusta, Savannah, and Port Wentworth, GA, and Charleston, SC, to Allendale and Charleston, SC; (b) syrup from Cairo and Thomasville, GA, to Allendale and Charleston, SC; (c) lard and lard substitutes from Chattanooga, TN, and Macon, GA, to points in SC; and (d) canned goods from Atlanta, GA, to Cheriton and Richmond, VA, and Baltimore, MD, to points in SC. TA has not been sought. Representative: Richard M. Tettelbaum, P.O. Box 720434, Atlanta, GA 30328.

Notes.—Transferee holds authority from this Commission in Certificates Nos. MC–28088 and MC–28088 (Sub-Nos. 6, 7, 8, 11, 13, 15, 19, 23, 26F, 27F, 28F, and 29X). That contained in the Sub-No. 29X Certificate has been authorized in MC–F–79834 for transfer to Georgia-Carolina Truck Transportation Co., Inc., which is commonly controlled with transferee.

MC–FC–80024. By decision of September 3, 1982 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR Part 1132, Review Board Number 3 approved the transfer to TOWN & COUNTRY LIMOUSINE, LTD., of Certificate No. MC–159694 (Sub-No. 1) issued August 12, 1982, to THOMAS F. FOLDY, doing business as COLONIAL LIMOUSINE authorizing the transportation of *passenger and their baggage*, limited to the transportation of not more than 15 passengers (excluding the driver) in one vehicle at one time, beginning and ending at points in CT, ME and extending to points in ME, NH, VT, MA, CT, RI, NY, PA, NJ, DE, MD, VA, NC, SC, GA, FL, and DC. Representative: Edward J. Kiley, 1230 M Street, N.W., Suite 501, Washington, DC 20036.

MC–FC–80034. By decision of September 3, 1982 issued 49 U.S.C. 10926 and the transfer rules at 49 CFR Part 1132, Review Board Number 3 approved the transfer to TRANS CARIBBEAN MOVING & SHIPPING, INC., of Bronx, NY, of Certificate No. MC–148260F, issued to LA GRANDE MOVING & SHIPPING, INC., of Bronx, NY, authorizing the transporation of household goods, as defined by the Commission, between New York, NY, on the one hand, and, on the other, points in CT, NJ, and NY, restricted to traffic moving in foreign commerce. Representative: John L. Alfano, 550 Mamaroneck Avenue, Harrison, NY.

Note.—Transferee holds no authority from this Commission.

Agatha L. Mergenovich,

Secretary.

[FR Doc. 82–25740 Filed 9–17–82; 8:45 am]

BILLING CODE 7035–01–M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** of December 31, 1980, at 45 FR

86771. For compliance procedures, refer to the Federal Register issue of December 3, 1980, at 45 FR 80109. Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated a public need for the proposed operations and that it is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. This presumption shall not be deemed to exist where the application is opposed. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the from of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Please direct status inquiries to Team 2, (202) 275–7030.

Volume No. OP2–221

Decided: September 10, 1982.

By the Commission, Review Board No. 1, Members Parker, Chandler, and Fortier. (Member Parker not participating.)

MC 20722 (Sub-45), filed August 27, 1982. Applicant: M & G CONVOY, INC., 590 Elk St., Buffalo, NY 14240. Representative: Eugene C. BILLING CODE 7035–01–M

[Volume No. OP5–183]

Motor Carriers; Permanent Authority; Republications of Grants of Operating Rights Authority Prior to Certification

The following grants of operating rights authorities are republished by order of the Commission to indicate a broadened grant of authority over that previously noticed in the **Federal Register.**

An original and one copy of petition for leave to intervene must be filed with the Commission within 30 days after the date of this **Federal Register** notice addressing specifically the issue(s) indicated as the purpose for republication.

Agatha L. Mergenovich,

Secretary.

MC 98589 (Sub-5) (republication), filed April 6, 1982, published in the **Federal Register** issue of April 27, 1982, and republished this issue. Applicant: WORLD TRANSPORT, INC., 56 Oak Hill Way, Brockton, MA 02403. Representative: John G. Downes (same address as applicant). An Order of the Commission, Review Board 3, decided July 28, 1982, and served August 5, 1982, finds that the present and future public convenience and necessity require operations by applicant in interstate or foreign commerce as a common carrier, by motor vehicle, over irregular routes, transporting (1) *food and related products,* between points in Plymouth, Suffolk, and Hampden Counties, MA, Cumberland and Penobscot Counties, ME, Hartford County, CT, Franklin, Orleans, and Chittenden Counties, VT, Burlington County, NJ, Kenosha County, WI, Hopkins County, TX, Berrien County, MI, Polk and Indian River Counties, FL, Sutter County, CA, and Montgomery County, AL, on the one hand, and, on the other, points in California and those points in the United States in and east of Minnesota, Iowa, Missouri, Oklahoma, and Texas; (2) *shoes,* between points in Norfolk

County, MA, on the one hand, and, on the other, points in Minnesota, Wisconsin, Pennsylvania, New York, and New Jersey; (3) *nails and fasteners*, between Cleveland, and Cincinnati, OH, and Chicago, IL, and points in Plymouth County, MA, on the one hand, and, on the other, those points in the United States on and east of a line beginning at the mouth of the Mississippi River, and extending along the Mississippi River to its junction with the western boundary of Itasca County, MN, then northward along the western boundaries of Itasca and Koochiching Counties, MN, to the International boundary line between the United States and Canada; and (4) *chemicals and related products and coal tar products* (a) between Los Angeles, CA, Atlanta, GA, Jacksonville, FL, Houston, TX, Chicago, IL, and St. Paul, MN, and points in Suffolk County, MA and Mecklenburg County, NC, on the one hand, and, on the other, points in California and those points in the United States in and east of Minnesota, Iowa, Missouri, Oklahoma, and Texas, and (b) between points in San Mateo County, CA, on the one hand, and, on the other, those points in the United States in and east of Minnesota, Iowa, Missouri, Oklahoma, and Texas, that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations. The purpose of this republication is to indicate the applicant's actual grant of authority.

BILLING CODE 7035-01-M

[Volume No. 295]

Motor Carriers; Permanent Authority Decisions, Restriction Removals; Decision-Notice

Decided: September 14, 1982.

The following restriction removal applications, filed after December 28, 1980, are governed by 49 CFR Part 1136. Part 1137 was published in the **Federal Register** of December 31, 1980, at 45 FR 86747.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1137.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the restriction removal applications are not allowed.

Some of the applications may have been modified prior to publication to conform to the special provisions applicable to restriction removal.

Canadian Carrier Applicants

In the event an application to transport preperty filed by a Canadian domiciled motor carrier, is unopposed, it will be reopened on the Commission's own motion for receipt of additional evidence and further consideration in light of the record developed in Ex Parte No. MC–157, *Investigation Into Canadian Law and Policy Regarding Applications of American Motor Carriers For Canadian Operating Authority.*

Findings

We find, preliminarily, that each applicant has demonstrated that its requested removal of restrictions or broadening of unduly narrow authority is consistent with the criteria set forth in 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contract carriers.

By the Commission, Restriction Removal Board, Members Shaffer, Williams, and Higgins.

Agatha L. Mergenovich,

Secretary.

MC 22510 (Sub-2)X, filed September 3, 1982. Applicant: THOMAS C. DOOLAN & SONS, INC., 48 Prospect St., Canton, MA 02021. Representative: Frank J. Weiner, 15 Court Square, Boston, MA 02108. BILLING CODE 7035-01-M

[Ex Parte 387 (Sub-250)]

Burlington Northern Railroad Co., Exemption for Contract Tariff; ICC-BN-C-0144 (Merchandise)

AGENCY: Interstate Commerce Commission.

ACTION: Notice of provisional exemption.

SUMMARY: A provisional exemption is granted under 49 U.S.C. 10505 from the notice requirements of 49 U.S.C. 10713(e), and the above-noted contract tariff may become effective on one day's notice. This exemption may be revoked if protests are filed.

DATES: Protests are due within 15 days of publication in the Federal Register.

ADDRESS: An original and 6 copies should be mailed to: Office of the Secretary, Interstate Commerce Commission, Washington, DC 20423.

FOR FURTHER INFORMATION CONTACT: Tom Smerdon, (202) 275-7277.

SUPPLEMENTARY INFORMATION: The 30-day notice requirement is not necessary in this instance to carry out the transportation policy of 49 U.S.C. 10101a or to protect shippers from abuse or market power; moreover, the transaction is of limited scope. Therefore, we find that the exemption request meets the requirements of 49 U.S.C. 10505(a) and is granted subject to the following conditions:

This grant neither shall be construed to mean that the Commission has approved the contract for purposes of 49 U.S.C. 10713(e) nor that the Commission is deprived of jurisdiction to institute a proceeding on its own initiative or on complaint, to review this contract and to determine its lawfulness.

This action will not significantly affect the quality of the human environment or conservation of energy resources.

(49 U.S.C. 10505)

Decided: September 13, 1982.

By the Commission, Division 1, Commissioners Sterrett, Simmons, and Gradison.

BILLING CODE 7035-01-M

[Docket AB-10 (Sub-26)]

Norfolk and Western Railway Co.—Abandonment in Putnam, Allen, Hancock, and Wyandot Counties, OH; Findings

The Commission has found that the public convenience and necessity permit the Norfolk and Western Railway Company to abandon a 51.24-mile portion of its line of railroad between milepost 1.76 near Delphos, OH and milepost 53.0, near Carey, OH, all in Putnam, Allen, Hancock, and Wyandot Counties, OH. A certificate will be issued authorizing this abandonment unless within 15 days after this publication the Commission also finds that: (1) A financially responsible person has offered financial assistance (through subsidy or purchase) to enable the rail service to be continued; and (2) it is likely that the assistance would fully compensate the railroad.

Any financial assistance offer must be filed with the Commission and served concurrently on the applicant, with copies to Louis E. Gitomer, Room 5417, Interstate Commerce Commission, Washington, DC 20423, no later than 10 days from publication of this Notice. Any offer previously made must be resubmitted within this 10-day period.

Information and procedures regarding financial assistance for continued rail services are contained in 49 U.S.C. 10905 and 49 CFR 1121.38.

Therefore, we find that the exemption request meets the requirements of 49 U.S.C. 10505(a) and is granted subject to the following conditions:

This grant neither shall be construed to mean that the Commission has approved the contracts for purposes of 49 U.S.C. 10713(e) nor that the Commission is deprived of jurisdiction to institute a proceeding on its own initiative or on complaint, to review these contracts and to determine their lawfulness.

This action will not significantly affect the quality of the human environment or conservation of energy resources.

(49 U.S.C. 10505)

Decided: September 13, 1982.

By the Commission, Division 1, Commissioners Sterrett, Simmons, and Gradison.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

NATIONAL ADVISORY COMMITTEE ON OCEANS AND ATMOSPHERE

Meeting Addendum

September 15, 1982.

Additions have been made to the agenda for the Coast Guard Panel Meeting of the National Advisory Committee on Oceans and Atmosphere (NACOA) on September 23-24, 1982, published in the **Federal Register** of September 9, 1982 (Page 47 FR 39764). The tentative agenda is as follows:

Thursday, September 23, 1982

9:00 a.m.-10:30 a.m.
Enforcement of Laws and Treaties, Capt. Schowengerdt—USCG, Chief, Operational Law Enforcement Division, TBA—NOAA/National Marine Fisheries Service, Abraham Azzam—Drug Enforcement Administration, Chief, Investigative Support Section, Bob Grimes—U.S. Customs Service, Director, Office of Patrol, Discussion

10:30 a.m.-12:00 Noon
Aids to Navigation, RADM Richard Bauman—USCG, Chief, Office of Navigation, William Godwin—Army Corps, Assistant Chief, Construction Operations Division, Crowley Maritime Corporation, Discussion

12:00 Noon-1:00 p.m.—Lunch

1:00 p.m.-2:30 p.m.
Search and Rescue, Capt. Sullivan—USCG, Chief, Search and Rescue Division, Richard Schwartz—Boat/US, Executive Director, Capt. Charles Mitchell, Mitchell Towing Company, Discussion

2:30 p.m.-4:00 p.m.
Coast Guard Programs, Planning, and Budget, Capt. Duca—USCG, Chief, Programs Division, Discussion

4:00 p.m.-4:30 p.m.
Congressional Actions, Bill Woodward, Duncan Smith, House Subcommittee on Coast Guard and Navigation

4:30 p.m.-6:00 p.m.
User Fees, Charles Bingman—DOT, Office of the Secretary, Michael Sciullo—Boat/US, Director, Government and Public Affairs, Discussion

Friday, September 24, 1982

9:00 a.m.-1:00 p.m.
Panel Discussion, Mission-by-Mission Recommendations, Cross-cut Recommendations, Report Outline

Additional information concerning this meeting may be obtained through the NACOA Executive Director, Mr. Steven N. Anastasion, or Ms. Linda K. Glover, the Staff Member for the Coast

Guard Panel. The mailing address is: NACOA, 3300 Whitehaven Street, NW., (Suite 438, Page Building No. 1), Washington, D.C. 20235.

Dated: September 13, 1982.

Steven N. Anastasion,

Executive Director.

BILLING CODE 3510-12-M

NATIONAL FOUNDATION FOR THE ARTS AND THE HUMANITIES

Dance Advisory Panel; Meeting

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), as amended, notice is hereby given that a meeting of the Dance Advisory Panel to the National Council on the Arts will be held on October 4-6, 1982, from 9:00 a.m.-5:30 p.m. in room 1422 of the Columbia Plaza Office Building, 2401 E Street, NW., Washington, D.C. 20506.

A portion of this meeting will be open to the public on October 4, 1982 from 1:00 p.m.-5:30 p.m.; October 5, 1982 from 9:00 a.m.-5:30 p.m.; and on October 6, 1982 from 9:00 a.m.-3:30 p.m. to discuss guidelines and policy issues.

The remaining sessions of this meeting on October 4, 1982 from 9:00 a.m.-1:00 p.m. and on October 6, 1982 from 3:30 p.m.-5:30 p.m. are for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the **Federal Register** of February 13, 1980, these sessions will be closed to the public pursuant to subsections (c) (4), (6) and 9(b) of section 552b of Title 5, United States Code.

Further information with reference to this meeting can be obtained from Mr. John H. Clark, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call (202) 634-6070.

John H. Clark,

Director, Office of Council and Panel Operations, National Endowment for the Arts.

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards, Subcommittee on Clinch River Breeder Reactor, Working Group on Systems Integration and Instrumentation Control; Correction

The ACRS Subcommittee title has been corrected re meeting of the Clinch River Breeder Reactor (CRBR) Working Group on Systems Integration and Instrumentation Control scheduled for September 30, 1982, Room 1046, 1717 H Street, NW., Washington, D.C. The Subcommittee will discuss the CRBR plant protection and instrument and control systems.

All other items regarding this meeting remain the same as announced in the **Federal Register** published Monday, September 13, 1982 (47 FR 40260).

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant Designated Federal Employee, Dr. Richard Savio (telephone 202/634-3267) between 8:15 a.m. and 5:00 p.m., EDT.

Dated: September 14, 1982.

Samuel J. Chilk,

Acting Advisory Committee Management Officer.

Advisory Committee on Reactor Safeguards, Subcommittee on Reactor Operations; Agenda Changes

The ACRS Subcommittee on Reactor Operations scheduled for September 29, 1982, Room 1046, 1717 H Street, NW., Washington, DC agenda items have been changed as noted below:

The Subcommittee plans to discuss: (a) The pressure transients during shutdown at Turkey Point Unit 4 and other related incidents with the Staffs of the Offices of Analysis and Evaluation of Operational Data, Nuclear Reactor Regulation, Inspection and Enforcement, and Region II; (b) discussion of Quality Assurance Policy; Accreditation of Licensee's Quality Assurance Program; and (c) discussion of suppression pool or containment sump water contamination with potential adverse effects on post-accident cooling pumps.

All other items regarding this meeting remain the same as announced in the **Federal Register** published Monday, September 13, 1982 (47 FR 40259).

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant Designated Federal Employee, Mr. Richard K. Major (telephone 202/634-1414) between 8:15 a.m. and 5:00 p.m., EDT.

Dated: September 14, 1982.

[Docket No. 50-184]

Availability of Final Environmental Statement for National Bureau of Standards Reactor

Notice is hereby given that a Final Environmental Statement (NUREG-0877) has been prepared by the Commission's Office of Nuclear Reactor Regulation related to the license renewal and power increase for the National Bureau of Standards (NBS) research reactor. This reactor is located on the 576-acre NBS site near Gaithersburg in Montgomery County, Maryland about 20 miles northwest of the center of Washington, D.C.

The Final Environmental Statement is also being made available at the State Clearinghouse, Department of State Planning, 301 West Preston Street, Baltimore, Maryland 21201.

The notice of availability of the Draft Environmental Statement (DES) and request for comments was published in the **Federal Register** on February 25, 1982 (47 FR 8273). The comments received from Federal, State and local agencies, and interested members of the public have been included as appendices to the Final Environmental Statement.

Copies of the Final Environmental Statement (NUREG-0877) may be purchased at current rates from the National Technical Information Service, Department of Commerce, 5238 Port Royal Road, Springfield, Virginia 22161, and from the Sales Office, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

Dated at Bethesda, Maryland, this 13th day of September 1982.

For the Nuclear Regulatory Commission.

Cecil O. Thomas,

Acting Chief, Standardization and Special Projects Branch, Division of Licensing.

BILLING CODE 7590-01-M

[Docket Nos. 50-325 and 50-324]

Carolina Power & Light Co.; Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment Nos. 49 and 74 to Facility Operating License Nos. DPR-71 and DPR-62 issued to Carolina Power & Light Company (the licensee) which revised the licenses for operation of the Brunswick Steam Electric Plant, Units 1 and 2 (the facility), located in Brunswick County, North Carolina. The amendments are effective as of July 1, 1982.

The amendments change the licenses to permit continued operation until such time as certain surveillances can be performed; but, in any event, no later than July 15, 1982.

The application for amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of the amendments.

For further details with respect to this action, see (1) the application for amendments dated July 1, 1982, (2) Amendment Nos. 49 and 74 to License Nos. DPR-71 and DPR-62, and (3) the Commission's related Safety Evaluation. These items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Southport-Brunswick County Library, 109 West Moore Street, Southport, North Carolina 28461. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 9th day of September 1982.

For the Nuclear Regulatory Commission.

Domenic B. Vassallo,

Chief, Operating Reactors Branch No. 2, Division of Licensing.

[Docket Nos. 50-325 and 50-324]

Carolina Power & Light Co.; Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment Nos. 50 and 75 to Facility Operating License Nos. DPR-71 and DPR-62 issued to Carolina Power & Light Company (the licensee) which revised the licenses for operation of the Brunswick Steam Electric Plant, Units 1 and 2 (the facility), located in Brunswick County, North Carolina. The amendments are effective as of July 1, 1982 through July 8, 1982, only.

The amendments modify the licenses, for a limited time, to extend from 72 hours to seven days the period of time that a diesel generator may remain inoperable before a plant shutdown must be initiated.

The application for amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of these amendments was not required since the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of these amendments will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement, or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of the amendments.

For further details with respect to this action, see (1) the application for amendments dated July 3, 1982, (2) Amendment Nos. 50 and 75 to License Nos. DRO-71 and DPR-62, and (3) the Commission's related Safety Evaluation. [Docket No. 50-309]

Maine Yankee Atomic Power Co.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 63 to Facility Operating License No. DPR-36, issued to Maine Yankee Atomic Power Company, which revised Technical Specifications for operation of the Maine Yankee Atomic Power Station (the facility) located in Lincoln County, Maine. The amendment is effective as of the date of issuance.

This amendment changes the Technical Specifications making the Limiting Conditions for Operation more restrictive and increasing the Surveillance Requirements for Ventilation and Filter Systems.

The applications for the amendment comply with the standards and requirments of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since this amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated March 26, 1975 and subsequently revised January 27, 1977, March 19, 1980 and February 13, 1982 (2)

Amendment No. 63 to License No. DPR-36 and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Wiscasset Public Library Association, High Street, Wiscasset, Maine. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 7th day of September 1982.

[Docket No. 50-333]

Power Authority of the State of New York; Notice of Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 70 to Facility Operating License No. DPR-59 issued to the Power Authority of the State of New York (the licensee), which revises the Technical Specifications for operation of the James A. FitzPatrick Nuclear Power Plant (the facility), located in Oswego County, New York. The amendment was authorized by telephone on August 13, 1982, and was confirmed by letter dated August 13, 1982.

The amendment allows continued plant operation with one relief valve inoperable until the next FitzPatrick plant outage.

The application for amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of the amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of the amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of the amendment.

For further details with respect to this action, see (1) the application for amendment dated August 12, 1982, (2) Amendment No. 70 to License No. DPR-59, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Penfield Library, State University College of Oswego, Oswego, New York. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

OFFICE OF MANAGEMENT AND BUDGET

Federal Regional Councils; Evaluation of Federal Regional Council System

AGENCY: Management and Budget Office.

ACTION: Notice of Evaluation of Federal Regional Council System.

SUMMARY: The Federal Regional Councils (FRC's) are interagency coordinating groups structed to respond to opportunities for promoting Federal policies and to support interagency and intergovernmental cooperation. They operate in each of the ten regional cities. The FEC's were restructured through Executive Order 12314 on July 22, 1981. Plans were made at that time to evaluate them after one year of operation. The Office of Management and Budget is now undertaking that evaluation and, based on its results, will make recommendations about the future of the FRC system.

The evaluaiton will focus on whether the goals for the FRC system are appropriate goals; whether the goals are being met; and if they are not, the reasons why. Suggestions for the future of the system will be developed.

ADDITIONAL INFORMATION: For the text of E.O. 12314, see 3 CFR, 1981 comp., p. 161.

COMMENTS: Any persons wishing to comment should submit written comments to James F. Kelly, Deputy Associate Director, Intergovernmental Affairs Division, Office of Management and Budget, Washington, D.C. 20503, by October 11, 1982.

FOR FURTHER INFORMATION CONTACT: William R. Feezle on Area Code 202, 395-5105 or Gary M. Katz on Area Code 202-395-4860.

Issued in Washington, D.C., on September 10, 1982.

Candice C. Bryant,

Acting Deputy Assistant Director for Administration.

BILLING CODE 3110-01-M

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

Advisory Committee for Trade Negotiations; Meeting and Determination of Closing of Meeting

The meeting of the Advisory Committee for Trade Negotiations (the Advisory Committee) to be held Friday, October 1, 1982, from 2:30 p.m. to 5:00 p.m. at the Federal Home Loan Bank Board, Amphitheater, will involve a review and discussion of the current issues involving the trade policy of the United States. The review and discussion will deal with information submitted in confidence by the private sector members of the Committee under Section 135(g)(1)(A) of the Trade Act of 1974, as amended, (the Act); information submitted by government officials under Section 135(g)(2) of the Act the disclosure of which could be reasonably expected to prejudice United States negotiating objectives; information the disclosure of which would be likely to significantly frustrate implementation of proposed government action; and information properly classified pursuant to Executive Order 12065 and specifically required by such Order to be kept secret in the interests of national security (i.e., the conduct of foreign relations) of the United States. All members of the Advisory Committee have all necessary security clearances. Consistent with previous determinations concerning other advisory committees, established under Section 135(c) of the Act, I hereby determine that the meeting of the Advisory Committee will be concerned with matters listed above and with matters listed in Section 552b(c) of Title 5 of the United States Code. Therefore, the meeting of the Advisory Committee for Trade Negotiations will be closed to the public.

More detailed information can be obtained by contacting Phyllis O. Bonanno, Director, Office of Private

Sector Liaison, Office of the United States Trade Representative, Executive Office of the President, Washington, D.C. 20506.

William E. Brock,

United States Trade Representative.

BILLING CODE 3190-01-M

POSTAL RATE COMMISSION

[Docket No. C82-1]

Complaint of Warshawsky & Co.; Institution of Proceedings on the Record in Docket No. C82-1

Issued: September 14, 1982.

Notice is hereby given that the Postal Rate Commission will conduct hearings on the complaint of Warshawsky & Company ("Warshawsky") of Chicago, Illinois, filed pursuant to section 3662 of the Postal Reorganization Act (39 U.S.C. 3662). In its complaint, which was denominated Docket No. C82-1, Warshawsky alleges that in charging 45 cents a pound for bulk third-class pieces weighing between approximately 3.9 ounces and 16 ounces that the United States Postal Service has violated several mandates of the Postal Reorganization Act. Specifically, Warshawsky alleges that implementation of the 45 cents pound rate does not comport with the requirement of the Act that (1) rates be fair and equitable, (2) the effect of rate increases for business mail users be considered, and (3) the availability of alternative means of sending and receiving mail at reasonable costs be considered.

Warshawsky also asserts that third-class bulk regular mailers who mail at the pound rate established by the Decision of the Board of Governors of the United States Postal Service on September 29, 1981, must pay rates which cover approximately 240 percent of attributable costs while those mailers using the applicable minimum per-piece rate for mail weighing less than approximately 3.9 ounces pay rates which cover only 172 percent of attributable costs. Warshawsky also points out that the November 1, 1981 rate increase to 45 cents a pound has resulted in a 36 percent increase in its postal rates, that the increase will force it to decrease its third-class mailing during 1982 and, in conjunction with substantial secondary volume effects due to reduced first-class order responses and reduced fourth-class order shipments, will result in a net revenue loss to the Postal Service.

Although Warshawsky cannot specify which other persons would be similarly affected by the rates which are the subject of its complaint, it does state that the alleged inequity would be applicable to any mailer of bulk third-class mail who mails at the pound rate. The relief requested by Warshawsky is for third-class regular rate bulk pieces subject to the pound rate to be charged 33 cents per pound, the temporary rate placed into effect by the Governors on March 22, 1981, rather than the current 45 cents per pound.

On December 4, 1981, the United States Postal Service filed a motion to dismiss Warshawsky's complaint. One of the grounds posited by the Postal Service to justify dismissal of Warshawsky's complaint was the pending review of the third-class rate structure in the United States Court of Appeals for the Second Circuit in *Time, Inc., et al.* v. *United States Postal Service.*[1] Although the Commission denied the Postal Service's motion to dismiss in Order No. 416, January 8, 1982, the Commission taking cognizance of the pending judicial action, decided to defer a determination of whether to proceed with a hearing on Warshawsky's complaint pending resolution of the court case.

On July 9, 1982, the Court of Appeals for the Second Circuit issued its opinion in *Time, Inc.* Insofar as Warshawsky's complaint relating to third-class rates was concerned the court held that the third-class bulk rates implemented by the Governors could only be maintained in effect on a temporary basis until a set of permanent third-class rates consistent with existing classification structure was recommended by the Commission and approved by the Governors.

With the issuance of a definitive decision on the status of bulk third-class rates by the Court of Appeals, at the direction of the Commission in accordance with Rule 84 of the Commission's rules of practice, 39 CFR 3001.84, the Postal Service filed a response to Warshawsky's complaint. In its response the Postal Service denied the substantive allegations of the complaint, *i.e.*, that the 45 cents pound rates violates the requirements of 39 U.S.C. 3621 and 3622(b)(1) that rates be fair and equitable, and that the pound rate was implemented without taking into account the effect on mailers of the rate increase or the availability of alternative means of sending mail at reasonable costs.

Continuing, the Postal Service states that the disparity between the 240 percent cost coverage between pound rated third-class material and the 172 percent cost coverage for minimum per-piece material is justified because "90 percent of all regular bulk third-class mail weighs 3 ounces or less" and presumably benefits from the lower cost coverage. In conclusion, the Postal Service asserts that to remedy the disparity between cost coverages by changing the rate structure to "benefit heavier pieces to the severe detriment of the majority of users of this subclass could not be implemented consistently with the policies of title 39." Postal Service Response at 16.

Section 3662 of the Postal Reorganization Act contemplates that the Commission will ventilate complaints "which clearly raise an issue concerning whether or not rates or services contravene the policies of the Act."[2] On its face, Warshawsky's complaint with its allegations supported by detailed offers of proof relating to disparate costs coverages, financial impact and alternative means of transmitting mail fulfills this standard.

Despite Postal Service's position to the contrary, the Postal Service response coupled with its requests for dismissal tend to accentuate Warshawsky's contention that there are viable issues relating to third-class: for example, which portion of the subclass is to bear the heavier cost coverages if disparate cost coverages are warranted. Otherwise, the only other argument presented by the Postal Service is that the existing temporary rates were found valid in *Time, Inc.* and thus not subject to a section 3662 proceeding. As to the Postal Service's contention relating to *Time, Inc.* validating the existing rates, it is evident to us that the court's opinion was of narrow scope in that it simply found that the implementation of temporary rates now extent were a proper response to the Commission's failure to recommend rates consistent with the existing classification structure. The court did not discuss nor did it reach the issue of whether the rates conform to the policies of the Act. Nor did the court even hint that such rates were immune from scrutiny under the complaint provision of section 3662. In this light, we do not find the actions of the Court of Appeals in *Time, Inc.* represents a barrier to holding a hearing on the merits of Warshawsky's complaint.[3]

[1] Time, Inc., *et al.* v. United States Postal Service,——F.2d ——, No. 81-4183, *et al.*, (2nd Cir., July 9, 1982) (hereinafter "*Time, Inc.*").

[2] 39 CFR 3001.82.

[3] Whether it may be suitable to consolidate this complaint with further consideration of third-class

Based on the foregoing the Commission will hold hearings on Warshawsky's complaint designated as Docket No. C82–1. Any person desiring to be heard with reference thereto and to become a party to the proceeding, or to participate as a party in any hearing thereon, should file a petition for leave to intervene. Petitions for leave to intervene must be filed with the Secretary, Postal Rate Commission, Washington, D.C. 20268 on or before September 27, 1982, and must be in accordance with section 20 of the Commission's rules of practice (39 CFR 3001.20). We direct specific attention to section 20(b) which provides that petitions for leave to intervene shall affirmatively state whether or not petitioner requests a hearing or, in lieu thereof, a conference; and further, whether or not the petitioner intends to participate actively in the hearing. Alternatively, persons seeking limited participation, but who do not wish to become parties may, on or before September 27, 1982, file a written request for leave to be heard as a "limited participator" pursuant to section 19a of the Commission's rules of practice (39 CFR 3001.19a). In addition, persons wishing to express their views informally, and not desiring to become a party or limited participant, may file comments pursuant to section 19b of the Commission's rules, 39 CFR 3001.19B.

The complaint of Warshawsky & Company is on file with the Commission and is available for public inspection during regular business hours. The Commission appoints Mark Stephens as Officer of the Commission to participate in this docket.

Attached is a tentative schedule. Parties seeking modifications to this schedule should file appropriate motions by September 27, 1982.

By the Commission.

David F. Harris,

Secretary.

Attachment—Tentative Hearing Schedule

September 27, 1982—Last day for intervention
October 4, 1982—Warshawsky files testimony
October 18, 1982—Discovery ends

DEPARTMENT OF STATE

[Public Notice CM–8/556]

Advisory Committee on International Investment, Technology, and Development; Meeting

The Department of State will hold a meeting of the Advisory Committee on International Investment, Technology, and Development on Wednesday, November 3, 1982, from 9:30 a.m. to 12:00 noon and 2:00 to 4:00 p.m. in the Loy Henderson Conference Room at the Department of State, 2201 C Street, NW., Washington, D.C. 20502. The meeting will be open to the public.

Among the issues to be discussed at the meeting are a report on the U.N. Commission on Transnational Corporations meeting, including next steps on the U.N. Code of Conduct and Accounting Standards; a report on the 27th Session of the OECD Committee on International Investment and Multinational Enterprises; preparations for the GATT Ministerial; an update on the Bilateral Investment Treaty Program; recent developments on transfer of technology and restrictive business practices; a review of the energy and development areas; and a discussion of private capital flows to developing countries.

Requests for further information on the meeting should be directed to Philip T. Lincoln, Jr., Department of State, Office of Investment Affairs, Bureau of Economic and Business Affairs, Washington, D.C. 20520. He may be reached by telephone on (area code 202) 632–2728.

Members of the public wishing to attend the meeting must contact Mr. Lincoln's office in order to arrange entrance to the State Department building.

The Chairman of the Advisory Committee will, as time permits, entertain oral comments from members of the public attending the meeting.

Dated: September 1, 1982.

Philip T. Lincoln, Jr.,

Executive Secretary.

[Public Notice CM–8/555]

Shipping Coordinating Committee, Subcommittee on Safety of Life at Sea; Meeting

The Working Group on Standards of Training and Watchkeeping of the Subcommittee on Safety of Life at Sea (SOLAS), a part of the Shipping Coordinating Committee (SHC), will conduct an open meeting to be held on Tuesday, October 12, 1982, at 2:00 P.M., in room 3201 of the U.S. Coast Guard Headquarters, 2100 Second Street, SW, Washington, D.C. 20593. If additional time is needed, the meeting will be continued at 9:30 A.M., on Wednesday, October 13, 1982, in the same room of the same building.

The purpose of the meeting will be to discuss the following agenda items of the Sixteenth Session of the IMO Subcommittee on Standards of Training and Watchkeeping tentatively scheduled to commence on January 31, 1983.

1. Matters relating to the 1978 STCW Convention.

2. Training and certification of crews of fishing vessels.

3. Training and qualifications of officers and ratings in the handling of hazardous or noxious dry chemicals in bulk.

4. Revision of the Document for Guidance—1975.

Members of the public may attend up to the seating capacity of the room.

For the further information contact Captain R. A. Sutherland, U.S. Coast Guard Headquarters (G–MVP/14), 2100 Second Street, SW, Washington, D.C. 20593. Telephone: (202) 426–1500.

The Chairman will entertain comments from the public as time permits.

Dated: September 2, 1982.

Gordon S. Brown,

Chairman, Shipping Coordinating Committee.

BILLING CODE 4710-07-M

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Environmental Impact Statement; Monmouth County, N.J.

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of Intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an environmental impact statement will be prepared for a proposed highway project in Monmouth County, New Jersey.

FOR FURTHER INFORMATION CONTACT: Lloyd J. Jacobs, Staff Specialist for the Environment, Federal Highway Administration, 25 Scotch Road, Second Floor, Trenton, New Jersey 08628, Telephone: (609) 989-2291.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the New Jersey Department of Transportation (NJDOT), intends to prepare an Environmental Impact Statement on a proposed action to construct a section of Route 18 Freeway in Monmouth County, New Jersey (Federal Project Numbers RF-U-29(101) and U-RF-29(101)). The proposed project would consist of constructing a four-lane freeway between the existing termini of Route 18 Freeway at Deal Road in Ocean Township and the Garden State Parkway in Tinton Falls Borough, a distance of approximately three miles. In addition, a spur will be constructed as part of this project ot connect the proposed freeway with Route 36 in Eatontown Borough. The purpose of this proposed project is to complete a "missing link" between completed sections of Route 18 Freeway, thereby forming a unified highway through central Monmouth County. Also, traffic relief would be provided on adjacent state, county, and local routes. Existing conditions force motorists to exit the freeway and use local two-lane roads to bridge the three-mile gap.

Alternatives presently under consideration include (1) development of the missing link as a freeway or as an expressway, (2) major improvements of local roads, (3) TSM consisting of minor widenings and intersection improvements, and (4) the no-build alternative. The FHWA and NJDOT will consult with other government agencies on their areas of responsibility. NJDOT is presently contacting federal, state, and local agencies with a description of the proposed project and inviting those interested agencies with questions or comments to attend project scoping meetings.

John J. Kessler, Jr.,

Division Administrator, Trenton, New Jersey.

[FR Doc. 82-25703 Filed 9-17-82; 8:45 am]

BILLING CODE 4910-22-M

National Highway Traffic Safety Administration

[Docket No. IP82-18; Notice 1]

Suzuki Motor Co., Ltd.; Receipt of Petition for Inconsequential Defect

Suzuki Motor Co., Ltd. of Brea, California, has petitioned to be exempted from the notification and remedy requirements of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1381 *et seq.*) for a defect in certain of its motorcycles that it deems is safety-related. The basis of the petition is that the defect is inconsequential as it relates to motor vehicle safety.

This notice of receipt of a petition is published under section 157 of the Act (15 U.S.C. 1417) and does not represent any agency decision or exercise of judgment concerning the merits of the petition.

Among the information that 49 CFR Part 567 requires to be placed on a motor vehicle's permanently attached certification of compliance is the vehicle's gross vehicle weight rating (GVWR). The GVWR is "not less than the sum of the unloaded vehicle weight, rated cargo load, and 150 times the vehicle's designating seating capacity (§ 567.4(g)(3)). Suzuki manufactured, imported, and sold almost a thousand 1982 model year GS450GA motorcycles with incorrectly marked certification labels. The GVWR marked on these labels is 60 lbs. The correct value is 660 lbs.

Suzuki argues that the error is inconsequential as it relates to motor

vehicles safety because directly beneath the erroneous value are the correct values for the front gross axle weight rating (330 lbs.) and the rear gross axle weight rating (530) lbs.). Therefore, simply by adding the two additional ratings the operator can determine the correct GVWR for the motorcycle.

Interested persons are invited to submit written data, views and arguments on the petition of Suzuki Motor Co., Ltd. described above. Comments should refer to the docket number and be submitted to Docket Section, National Highway Traffic Safety Administration, Room 5109, 400 Seventh Street, SW., Washington, D.C. 20590. It is requested but not required that five copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered. The application and supporting materials, and all comments received after the closing date will also be filed and will be considered to the extent possible. When the petition is granted or denied, notice will be published in the **Federal Register** pursuant to the authority indicated below.

The engineer and attorney responsible for this notice are James Thomas and Taylor Vinson, respectively.

Comment closing date: October 20, 1982.

(Sec. 102, Pub. L. 93–492, 88 Stat. 1470 (15 U.S.C. 1417); delegations of authority at 49 CFR 1.50 and 49 CFR 501.8)

Issued on September 15, 1982.

Francis A. Armstrong,

Acting Associate Administrator for Enforcement.

FR Doc. 82–25833 Filed 9–17–82; 8:45 am]

BILLING CODE 4910–59–M

DEPARTMENT OF THE TREASURY

Fiscal Service

Treasury Current Value of Funds Rate

AGENCY: Bureau of Government Financial Operations.

ACTION: Notice of rate for use in Federal cash management operations.

SUMMARY: This notice provides the percentage rate based on the current value of funds to the Treasury. This rate is required by the Treasury Fiscal Requirements Manual (I TFRM 6–8000) to be used in Federal billing, collection, and disbursement operations and is provided here as public notice to assist agencies in their negotiations with affected contractors, organizations, and individuals. The applicable rate is 11.90 percent.

DATES: The rate will be in effect for the period beginning on October 1, 1982 and ending on December 31, 1982.

FOR FURTHER INFORMATION CONTACT: Inquiries should be directed to the Cash Management Regulations and Compliance Staff, Bureau of Government Financial Operations, Department of the Treasury, Treasury Annex No. 1, (PB–711), Washington, D.C. 20226 (Telephone: 202/634–5707).

SUPPLEMENTARY INFORMATION: Revisions to I TFRM 6–8000 in June 1980, provided that the current value of funds rate would be used in assessing charges for late payments to the Government (except where prohibited by law or where a different rule is prescribed by statute), and in determining whether it is cost-effective for the Government to avail itself of prompt payment discounts. This rate reflects the short-term value of funds to the Treasury and is based on rates set for purposes of Pub. L. 95–147, 91 Stat. 1227. It should be noted that the Federal Claims Collection Standards (4 CFR 102.12) also require that interest be charged on delinquent debts and debts being paid in installments in accordance with I TFRM 6–8000.

Dated: September 15, 1982.

W. E. Douglas,

Commissioner.

[FR Doc. 82–25768 Filed 9–17–82; 8:45 am]

BILLING CODE 4810–35–M

Office of the Secretary

[Department Circular Public Debt Series—No. 24–82]

Treasury Notes of September 30, 1986 Series J–1986

September 15, 1982.

1. Invitation for Tenders

1.1. The Secretary of the Treasury, under the authority of the Second Liberty Bond Act, as amended, invites tenders for approximately $5,000,000,000 of United States securities, designated Treasury Notes of September 30, 1986, Series J–1986 (CUSIP No. 912827 NR 9). The securities will be sold at auction, with bidding on the basis of yield. Payment will be required at the price equivalent of the bid yield of each accepted tender. The interest rate on the securities and the price equivalent of each accepted bid will be determined in the manner described below. Additional amounts of these securities may be issued to Government accounts and Federal Reserve Banks for their own account in exchange for maturing Treasury securities. Additional amounts of the new securities may also be issued at the average price to Federal Reserve Banks, as agents for foreign and international monetary authorities.

2. Description of Securities

2.1. The securities will be dated September 30, 1982, and will bear interest from that date, payable on a semiannual basis on March 31, 1983, and each subsequent 6 months on September 30 and March 31 until the principal becomes payable. They will mature September 30, 1986, and will not be subject to call for redemption prior to maturity. In the event an interest payment date or the maturity date is a Saturday, Sunday, or other nonbusiness day, the interest or principal is payable on the next-succeeding business day.

2.2. The income derived from the securities is subject to all taxes imposed under the Internal Revenue Code of 1954. The securities are subject to estate, inheritance, gift, or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, any possession of the United States, or any local taxing authority.

2.3. The securities will be acceptable to secure depsosits of public monies. They will not be acceptable in payment of taxes.

2.4. Bearer securities with interest coupons attached, and securities registered as to principal and interest, will be issued in denominations of $1,000, $5,000, $10,000, $100,000, and $1,000,000. Book-entry securities will be available to eligible bidders in multiples of those amounts. Interchanges of securities of different denominations and of coupon, registered, and book-entry securities, and the transfer of registered securities will be permitted.

2.5. The Department of the Treasury's general regulations governing United States securities apply to the securities offered in this circular. These general regulations include those currently in effect, as well as those that may be issued at a later date.

3. Sale Procedures

3.1. Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, D.C. 20226, up to 1:30 p.m., Eastern Daylight Saving time, Tuesday, September 21, 1982. Noncompetitive tenders as defined below will be considered timely if postmarked no later than Monday, September 20, 1982, and

received no later than Thursday, September 30, 1982.

3.2. Each tender must state the face amount of securities bid for. The minimum bid is $1,000, and larger bids must be in multiples of that amount. Competitive tenders must also show the yield desired, expressed in terms of an annual yield with two decimals, e.g. 7.10%. Common fractions may not be used. Noncompetitive tenders must show the term "noncompetitive" on the tender form in lieu of a specified yield. No bidder may submit more than one noncompetitive tender, and the amount may not exceed $1,000,000.

3.3. Commercial banks, which for this purpose are defined as banks accepting demand deposits, and primary dealers, which for this purpose are defined as dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions in and borrowings on such securities, may submit tenders for account of customers if the names of the customers and the amount for each customer are furnished. Others are only permitted to submit tenders for their own account.

3.4. Tenders will be received without deposit for their own account from commercial banks and other banking institutions; primary dealers, as defined above; Federally-insured savings and loan associations; States, and their political subdivisions or instrumentalities; public pension and retirement and other public funds; international organizations in which the United States holds membership; foreign central banks and foreign states; Federal Reserve Banks; and Government accounts. Tenders from others must be accompanied by full payment for the amount of securities applied for (in the form of cash, maturing Treasury securities, or readily collectible checks), or by a payment guarantee of 5 percent of the face amount applied for, from a commercial bank or a primary dealer.

3.5. Immediately after the closing hour, tenders will be opened, followed by a public announcement of the amount and yield range of accepted bids. Subject to the reservations expressed in Section 4, noncompetitive tenders will be accepted in full, and then competitive tenders will be accepted, starting with those at the lowest yields, through successively higher yields to the extent required to attain the amount offered. Tenders at the highest accepted yield will be prorated if necessary. After the determination is made as to which tenders are accepted, a coupon rate will be established, on the basis of a ⅛ of one percent increment, which results in an equivalent average accepted price close to 100.000 and a lowest accepted price above the original issue discount limit of 99.000. That rate of interest will be paid on all of the securities. Based on such interest rate, the price on each competitive tender allotted will be determined and each successful competitive bidder will be required to pay the price equivalent to the yield bid. Those submitting noncompetitive tenders will pay the price equivalent to the weighted average yield of accepted competitive tenders. Price calulations will be carried to three decimal places on the basis of price per hundred, e.g., 99.923, and the determinations of the Secretary of the Treasury shall be final. If the amount of noncompetitive tenders received would absorb all or most of the offering, competitive tenders will be accepted in an amount sufficient to provide a fair determination of the yield. Tenders received from Government accounts and Federal Reserve Banks will be accepted at the price equivalent to the weighted average yield of accepted competitive tenders.

3.6. Competitive bidders will be advised of the acceptance or rejection of their tenders. Those submitting noncompetitive tenders will only be notified if the tender is not accepted in full, or when the price is over par.

4. Reservations

4.1. The Secretary of the Treasury expressly reserves the right to accept or reject any or all tenders in whole or in part, to allot more or less than the amount of securities specified in Section 1, and to make different percentage allotments to various classes of applicants when the Secretary considers it in the public interest. The Secretary's action under this Section is final.

5. Payment and Delivery

5.1. Settlement for allotted securities must be made at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt, wherever the tender was submitted. Settlement on securities allotted to institutional investors and to others whose tenders are accompanied by a payment guarantee as provided in Section 3.4., must be made or completed on or before Thursday, September 30, 1982. Payment in full must accompany tenders submitted by all other investors. Payment must be in cash; in other funds immediately available to the Treasury; in Treasury bills, notes, or bonds (with all coupons detached) maturing on or before the settlement date but which are not overdue as defined in the general regulations governing United States securities; or by check drawn to the order of the institution to which the tender was submitted, which must be received from institutional investors no later than Tuesday, September 28, 1982. When payment has been submitted with the tender and the purchase price of allotted securities is over par, settlement for the premium must be completed timely, as specified in the preceding sentence. When payment has been submitted with the tender and the purchase price is under par, the discount will be remitted to the bidder. Payment will not be considered complete where registered securities are requested if the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service (an individual's social security number or an employer identification number) is not furnished. When payment is made in securities, a cash adjustment will be made to or required of the bidder for any difference between the face amount of securities presented and the amount payable on the securities allotted.

5.2. In every case where full payment has not been completed on time, an amount of up to 5 percent of the face amount of securities allotted, shall, at the discretion of the Secretary of the Treasury, be forfeited to the United States.

5.3. Registered securities tendered in payment for allotted securities are not required to be assigned if the new securities are to be registered in the same names and forms as appear in the registrations or assignments of the securities surrendered. When the new securities are to be registered in names and forms different from those in the inscriptions or assignments of the securities presented, the assignment should be to "The Secretary of the Treasury for (securities offered by this circular) in the name of (name and taxpayer identifying number.)" If new securities in coupon form are desired, the assignment should be to "The Secretary of the Treasury for coupon (securities offered by this circular) to be delivered to (name and address)." Specific instructions for the issuance and delivery of the new securities, signed by the owner or authorized representative, must accompany the securities presented. Securities tendered in payment should be surrendered to the Federal Reserve Bank or Branch or to the Bureau of the Public Debt, Washington, D.C. 20226. The securities must be delivered at the expense and risk of the holder.

5.4. If bearer securities are not ready for delivery on the settlement date, purchasers may elect to receive interim certificates. These certificates shall be issued in bearer form and shall be

exchangeable for definitive securities of this issue, when such securities are available, at any Federal Reserve Bank or Branch or at the Bureau of the Public Debt, Washington, D.C. 20226. The interim certificates must be returned at the risk and expense of the holder.

5.5. Delivery of securities in registered form will be made after the requested form of registration has been validated, the registered interest account has been established, and the securities have been inscribed.

6. General Provisions

6.1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive tenders, to make allotments as directed by the Secretary of the Treasury, to issue such notices as may be necessary, to receive payment for and make delivery of securities on full-paid allotments, and to issue interim certificates pending delivery of the definitive securities.

6.2. The Secretary of the Treasury may at any time issue supplemental or amendatory rules and regulations governing the offering. Public announcement of such changes will be promptly provided.

Gerald Murphy,

Acting Fiscal Assistant Secretary.

[FR Doc. 82-25967 Filed 9-17-82; 8:45 am]

BILLING CODE 4810-40-M

[Department Circular Public Debt Series—No. 25-82]

Treasury Notes of October 15, 1989; Series F-1989

September 15, 1982.

1. Invitation for tenders

1.1. The Secretary of the Treasury, under the authority of the Second Liberty Bond Act, as amended, invites tenders for approximately $4,000,000,000 of United States securities, designated Treasury Notes of October 15, 1989, Series F-1989 (CUSIP No. 912827 NS 7). The securities will be sold at auction, with bidding on the basis of yield. Payment will be required at the price equivalent of the bid yield of each accepted tender. The interest rate on the securities and the price equivalent of each accepted bid will be determined in the manner described below. Additional amounts of these securities may be issued at the average price to Federal Reserve Banks, as agents for foreign and international monetary authorities.

2. Description of Securities

2.1. The securities will be dated September 29, 1982, and will bear interest from that date, payable on a semiannual basis on April 15, 1983, and each subsequent 6 months on October 15 and April 15 until the principal becomes payable. They will mature October 15, 1989, and will not be subject to call for redemption prior to maturity. In the event an interest payment date or the maturity date is a Saturday, Sunday, or other nonbusiness day, the interest or principal is payable on the next-succeeding business day.

2.2. The income derived from the securities is subject to all taxes imposed under the Internal Revenue Code of 1954. The securities are subject to estate, inheritance, gift, or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, any possession of the United States, or any local taxing authority.

2.3. The securities will be acceptable to secure deposits of public monies. They will not be acceptable in payment of taxes.

2.4. Bearer securities with interest coupons attached, and securities registered as to principal and interest, will be issued in denominations of $1,000, $5,000, $10,000, $100,000, and $1,000,000. Book-entry securities will be available to eligible bidders in multiples of those amounts. Interchanges of securities of different denominations and of coupon, registered, and book-entry securities and the transfer of registered securities will be permitted.

2.5. The Department of the Treasury's general regulations governing United States securities apply to the securities offered in this circular. These general regulations include those currently in effect, as well as those that may be issued at a later date.

3. Sale Procedures

3.1. Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, D.C. 20226, up to 1:30 p.m., Eastern Daylight Saving time, Wednesday, September 22, 1982. Noncompetitive tenders as defined below will be considered timely if postmarked no later than Tuesday, September 21, 1982, and received no later than Wednesday, September 29, 1982.

3.2. Each tender must state the face amount of securities bid for. The minimum bid is $1,000, and larger bids must be in multiples of that amount. Competitive tenders must also show the yield desired, expressed in terms of an annual yield with two decimals, e.g., 7.10%. Common fractions may not be used. Noncompetitive tenders must show the term "noncompetitive" on the tender form in lieu of a specified yield. No bidder may submit more than one noncompetitive tender, and the amount may not exceed $1,000,000.

3.3. Commercial banks, which for this purpose are defined as banks accepting demand deposits, and primary dealers, which for this purpose are defined as dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions in and borrowings on such securities, may submit tenders for account of customers if the names of the customers and the amount for each customer are furnished. Others are only permitted to submit tenders for their own account.

3.4. Tenders will be received without deposit for their own account from commercial banks and other banking institutions; primary dealers, as defined above; Federally-insured savings and loan associations; States, and their political subdivisions or instrumentalities; public pension and retirement and other public funds; international organizations in which the United States holds membership; foreign central banks and foreign states; Federal Reserve Banks; and Government accounts. Tenders from others must be accompanied by full payment for the amount of securities applied for (in the form of cash, maturing Treasury securities, or readily collectible checks), or by a payment guarantee of 5 percent of the face amount applied for, from a commercial bank or a primary dealer.

3.5. Immediately after the closing hour, tenders will be opened, followed by a public announcement of the amount and yield range of accepted bids. Subject to the reservations expressed in Section 4, noncompetitive tenders will be accepted in full, and then competitive tenders will be accepted, starting with those at the lowest yields, through successivelly higher yields to the extent required to attain the amount offered. Tenders at the highest accepted yield will be prorated if necessary. After the determination is made as to which tenders are accepted, a coupon rate will be established, on the basis of a ⅛ of one percent increment, which results in an equivalent average accepted price close to 100.000 and a lowest accepted price above the original issue discount limit of 98.250. That rate of interest will be paid on all of the securities. Based on such interest rate, the price on each competitive tender allotted will be determined and each successful competitive bidder will be required to pay the price equivalent to the yield bid. Those submitting noncompetitive

tenders will pay the price equivalent to the weighted average yield of accepted competitive tenders. Price calculations will be carried to three decimal places on the basis of price per hundred, e.g., 99.923, and the determinations of the Secretary of the Treasury shall be final. If the amount of noncompetitive tenders received would absorb all or most of the offering, competitive tenders will be accepted in an amount sufficient to provide a fair determination of the yield. Tenders received from Government accounts and Federal Reserve Banks will be accepted at the price equivalent to the weighted average yield of accepted competitive tenders.

3.6. Competitive bidders will be advised of the acceptance or rejection of their tenders. Those submitting noncompetitive tenders will only be notified if the tender is not accepted in full, or when the price is over par.

4. Reservations

4.1. The Secretary of the Treasury expressly reserves the right to accept or reject any or all tenders in whole or in part, to allot more or less than the amount of securities specified in Section 1, and to make different percentage allotments to various classes of applicants when the Secretary considers it in the public interest. The Secretary's action under this Section is final.

5. Payment and Delivery

5.1. Settlement for allotted securities must be made at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt, wherever the tender was submitted. Settlement on securities allotted to institutional investors and to others whose tenders are accompanied by a payment guarantee as provided in Section 3.4., must be made or completed on or before Wednesday, September 29, 1982. Payment in full must accompany tenders submitted by all other investors. Payment must be in cash; in other funds immediately available to the Treasury; in Treasury bills, notes, or bonds (with all coupons detached) maturing on or before the settlement date but which are not overdue as defined in the general regulations governing United States securities; or by check drawn to the order of the institution to which the tender was submitted, which must be received from institutional investors no later than Monday, September 27, 1982. When payment has been submitted with the tender and the purchase price of allotted securities is over par, settlement for the premium must be completed timely, as specified in the preceding sentence. When payment has been submitted with the tender and the purchase price is under par, the discount will be remitted to the bidder. Payment will not be considered complete where registered securities are requested if the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service (an individual's social security number or an employer identification number) is not furnished. When payment is made in securities, a cash adjustment will be made to or required of the bidder for any difference between the face amount of securities presented and the amount payable on the securities allotted.

5.2. In every case where full payment has not been completed on time, an amount of up to 5 percent of the face amount of securities allotted, shall, at the discretion of the Secretary of the Treasury, be forfeited to the United States.

5.3. Registered securities tendered in payment for allotted securities are not required to be assigned if the new securities are to be registered in the same names and forms as appear in the registrations or assignments of the securities surrendered. When the new securities are to be registered in names and forms different from those in the inscriptions or assignments of the securities presented, the assignment should be to "The Secretary of the Treasury for (securities offered by this circular) in the name of (name and taxpayer identifying number)." If new securities in coupon form are desired, the assignment should be to "The Secretary of the Treasury for coupon (securities offered by this circular) to be delivered to (name and address)." Specific instructions for the issuance and delivery of the new securities, signed by the owner or authorized representative, must accompany the securities presented. Securities tendered in payment should be surrendered to the Federal Reserve Bank or Branch or to the Bureau of the Public Debt, Washington, D.C. 20226. The securities must be delivered at the expense and risk of the holder.

5.4. If bearer securities are not ready for delivery on the settlement date, purchasers may elect to receive interim certificates. These certificates shall be issued in bearer form and shall be exchangeable for definitive securities of this issue, when such securities are available, at any Federal Reserve Bank or Branch or at the Bureau of the Public Debt, Washington, D.C. 20226. The interim certificates must be returned at the risk and expense of the holder.

5.5. Delivery of securities in registered form will be made after the requested form of registration has been validated, the registered interest account has been established, and the securities have been inscribed.

6. General Provisions

6.1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive tenders, to make allotments as directed by the Secretary of the Treasury, to issue such notices as may be necessary, to receive payment for and make delivery of securities on full-paid allotments, and to issue interim certificates pending delivery of the definitive securities.

6.2. The Secretary of the Treasury may at any time issue supplemental or amendatory rules and regulations governing the offering. Public announcement of such changes will be promptly provided.

Gerald Murphy,

Acting Fiscal Assistant Secretary.

BILLING CODE 4810-40-M

[Department Circular Public Debt Series—No. 26-82]

Treasury Bonds of 2002

September 15, 1982.

1. Invitation for Tenders

1.1. The Secretary of the Treasury, under the authority of the Second Liberty Bond Act, as amended, invites tenders for approximately $2,750,000,000 of United States securities, designated Treasury Bonds of 2002 (CUSIP No. 912810 DA 3). The securities will be sold at auction, with bidding on the basis of yield. Payment will be required at the price equivalent of the bid yield of each accepted tender. The interest rate on the securities and the price equivalent of each accepted bid will be determined in the manner described below. Additional amounts of these securities may be issued at the average price to Federal Reserve Banks, as agents for foreign and international monetary authorities.

2. Description of Securities

2.1. The securities will be dated September 29, 1982, and will bear interest from that date, payable on a semiannual basis on May 15, 1983, and each subsequent 6 months on November 15 and May 15 until the principal becomes payable. They will mature November 15, 2002, and will be not be subject to call for redemption prior to maturity. In the event an interest payment date or the maturity date is a Saturday, Sunday, or other nonbusiness

day, the interest or principal is payable on the next-succeeding business day.
